(b) EVALUATION.—Not later than 3 years after the date of enactment of this Act, and annually thereafter until the pilot program ends, the Secretary shall submit to Congress a report containing an evaluation of the effectiveness of the pilot program, including—

(1) an assessment of the benefits to the environment derived from the projects included in the pilot program; and

(2) an estimate of the potential benefits to the environment to be derived from widespread application of alternative fueled vehicles and ultra-low sulfur diesel vehicles.

SEC. 723. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary to carry out this part $200,000,000, to remain available until expended.

PART 3—FUEL CELL BUSES

SEC. 731. FUEL CELL TRANSIT BUS DEMONSTRATION.

(a) IN GENERAL.—The Secretary, in consultation with the Secretary of Transportation, shall establish a transit bus demonstration program to make competitive, merit-based awards for 5-year projects to demonstrate not more than 25 fuel cell transit buses (and necessary infrastructure) in 5 geographically dispersed localities.

(b) PREFERENCE.—In selecting projects under this section, the Secretary shall give preference to projects that are most likely to mitigate congestion and improve air quality.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section $10,000,000 for each of fiscal years 2006 through 2010.

Subtitle C—Clean School Buses

SEC. 741. CLEAN SCHOOL BUS PROGRAM.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) ALTERNATIVE FUEL.—The term "alternative fuel" means—

(A) liquefied natural gas, compressed natural gas, liquefied petroleum gas, hydrogen, or propane;

(B) methanol or ethanol at no less than 85 percent by volume; or

(C) biodiesel conforming with standards published by the American Society for Testing and Materials as of the date of enactment of this Act.

(3) CLEAN SCHOOL BUS.—The term "clean school bus" means a school bus with a gross vehicle weight of greater than 14,000 pounds that—

(A) is powered by a heavy duty engine; and

(B) is operated solely on an alternative fuel or ultra-low sulfur diesel fuel.

(4) ELIGIBLE RECIPIENT.—

(A) IN GENERAL.—Subject to subparagraph (B), the term "eligible recipient" means—

(i) 1 or more local or State governmental entities responsible for—

(I) providing school bus service to 1 or more public school systems; or

(II) the purchase of school buses;

(ii) 1 or more contracting entities that provide school bus service to 1 or more public school systems; or

(iii) a nonprofit school transportation association.

(B) SPECIAL REQUIREMENTS.—In the case of eligible recipients identified under clauses (ii) and (iii), the Administrator shall establish timely and appropriate requirements for notice and may establish timely and appropriate requirements for approval by the public school systems that would be served by buses purchased or retrofit using grant funds made available under this section.

(5) RETROFIT TECHNOLOGY.—The term "retrofit technology" means a particulate filter or other emissions control equipment that is verified or certified by the Administrator or the California Air Resources Board as an effective emission reduction technology when installed on an existing school bus.

(6) ULTRA LOW SULFUR DIESEL FUEL.—The term "ultra-low sulfur diesel fuel" means diesel fuel that contains sulfur at not more than 15 parts per million.

(b) PROGRAM FOR RETROFIT OR REPLACEMENT OF CERTAIN EXISTING SCHOOL BUSES WITH CLEAN SCHOOL BUSES.—

(1) ESTABLISHMENT.—

(A) IN GENERAL.—The Administrator, in consultation with the Secretary and other appropriate Federal departments and agencies, shall establish a program for awarding grants on a competitive basis to eligible recipients for the replacement, or retrofit (including repowering, aftertreatment, and remanufactured engines) of, certain existing school buses.

(B) BALANCING.—In awarding grants under this section, the Administrator shall, to the maximum extent practicable, achieve an appropriate balance between awarding grants—

(i) to replace school buses; and

(ii) to install retrofit technologies.

(2) PRIORITY OF GRANT APPLICATIONS.—

(A) REPLACEMENT.—In the case of grant applications to replace school buses, the Administrator shall give priority to applicants that propose to replace school buses manufactured before model year 1977.

(B) RETROFITTING.—In the case of grant applications to retrofit school buses, the Administrator shall give priority to applicants that propose to retrofit school buses manufactured in or after model year 1991.

(3) USE OF SCHOOL BUS FLEET.—

(A) IN GENERAL.—All school buses acquired or retrofitted with funds provided under this section shall be operated as part of the school bus fleet for which the grant was made for not less than 5 years.

(B) MAINTENANCE, OPERATION, AND FUELING.—New school buses and retrofit technology shall be maintained, operated, and fueled according to manufacturer recommendations or State requirements.

(4) RETROFIT GRANTS.—The Administrator may award grants for up to 100 percent of the retrofit technologies and installation costs.

(5) REPLACEMENT GRANTS.—

(A) ELIGIBILITY FOR 50 PERCENT GRANTS.—The Administrator may award grants for replacement of school buses in the amount of up to ½ of the acquisition costs (including fueling infrastructure) for—

(i) clean school buses with engines manufactured in model year 2005 or 2006 that emit not more than—

(I) 1.8 grams per brake horsepower-hour of non-methane hydrocarbons and oxides of nitrogen; and

(II) .01 grams per brake horsepower-hour of particulate matter; or

(ii) clean school buses with engines manufactured in model year 2007, 2008, or 2009 that satisfy regulatory requirements established by the Administrator for emissions of oxides of nitrogen and particulate matter to be applicable for school buses manufactured in model year 2010.

(B) ELIGIBILITY FOR 25 PERCENT GRANTS.—The Administrator may award grants for replacement of school buses in the amount of up to ¼ of the acquisition costs (including fueling infrastructure) for—

(i) clean school buses with engines manufactured in model year 2005 or 2006 that emit not more than—

(I) 2.5 grams per brake horsepower-hour of non-methane hydrocarbons and oxides of nitrogen; and

(II) .01 grams per brake horsepower-hour of particulate matter; or

(ii) clean school buses with engines manufactured in model year 2007 or thereafter that satisfy regulatory requirements established by the Administrator for emissions of oxides of nitrogen and particulate matter from school buses manufactured in that model year.

(6) ULTRA LOW SULFUR DIESEL FUEL.—

(A) IN GENERAL.—In the case of a grant recipient receiving a grant for the acquisition of ultra-low sulfur diesel fuel school buses with engines manufactured in model year 2005 or 2006, the grant recipient shall provide, to the satisfaction of the Administrator—

(i) documentation that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the purposes of the grant; and

(ii) a commitment by the applicant to use that fuel in carrying out the purposes of the grant.

(7) DEPLOYMENT AND DISTRIBUTION.—The Administrator shall, to the maximum extent practicable—

(A) achieve nationwide deployment of clean school buses through the program under this section; and

(B) ensure a broad geographic distribution of grant awards, with no State receiving more than 10 percent of the grant funding made available under this section during a fiscal year.

(8) ANNUAL REPORT.—

(A) IN GENERAL.—Not later than January 31 of each year, the Administrator shall submit to Congress a report that—

(i) evaluates the implementation of this section; and

(ii) describes—

(I) the total number of grant applications received;

(II) the number and types of alternative fuel school buses, ultra-low sulfur diesel fuel school buses, and retrofitted buses requested in grant applications;

(III) grants awarded and the criteria used to select the grant recipients;

(IV) certified engine emission levels of all buses purchased or retrofitted under this section;

(V) an evaluation of the in-use emission level of buses purchased or retrofitted under this section; and

(VI) any other information the Administrator considers appropriate.

(c) EDUCATION.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator shall develop an education outreach program to promote and explain the grant program.

(2) COORDINATION WITH STAKEHOLDERS.—The outreach program shall be designed and conducted in conjunction with national school bus transportation associations and other stakeholders.

(3) COMPONENTS.—The outreach program shall—

(A) inform potential grant recipients on the process of applying for grants;

(B) describe the available technologies and the benefits of the technologies;

(C) explain the benefits of participating in the grant program; and

(D) include, as appropriate, information from the annual report required under subsection (b)(8).

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended—

(1) $55,000,000 for each of fiscal years 2006 and 2007; and

(2) such sums as are necessary for each of fiscal years 2008, 2009, and 2010.

SEC. 742. DIESEL TRUCK RETROFIT AND FLEET MODERNIZATION PROGRAM.

(a) ESTABLISHMENT.—The Administrator, in consultation with the Secretary, shall establish a program for awarding grants on a competitive basis to public agencies and entities for fleet modernization programs including installation of retrofit technologies for diesel trucks.

(b) ELIGIBLE RECIPIENTS.—A grant shall be awarded under this section only to a State or local government or an agency or instrumentality of a State or local government or of two or more State or local governments who will allocate funds, with preference to ports and other major hauling operations.

(c) AWARDS.—

(1) IN GENERAL.—The Administrator shall seek, to the maximum extent practicable, to ensure a broad geographic distribution of grants under this section.

(2) PREFERENCES.—In making awards of grants under this section, the Administrator shall give preference to proposals that—

(A) will achieve the greatest reductions in emissions of nonmethane hydrocarbons, oxides of nitrogen, and/or particulate matter per proposal or per truck; or

(B) involve the use of Environmental Protection Agency or California Air Resources Board verified emissions control retrofit technology on diesel trucks that operate solely on ultra-low sulfur diesel fuel after September 2006.

(d) CONDITIONS OF GRANT.—A grant shall be provided under this section on the conditions that—

(1) trucks which are replacing scrapped trucks and on which retrofit emissions-control technology are to be demonstrated—

(A) will operate on ultra-low sulfur diesel fuel where such fuel is reasonably available or required for sale by State or local law or regulation;

(B) were manufactured in model year 1998 and before; and

(C) will be used for the transportation of cargo goods especially in port areas or used in goods movement and major hauling operations;

(2) grant funds will be used for the purchase of emission control retrofit technology, including State taxes and contract fees; and

(3) grant recipients will provide at least 50 percent of the total cost of the retrofit, including the purchase of emission control retrofit technology and all necessary labor for installation of the retrofit, from any source other than this section.

(e) VERIFICATION.—Not later than 90 days after the date of enactment of this Act, the Administrator shall publish in the Federal Register procedures to—

(1) make grants pursuant to this section;

(2) verify that trucks powered by ultra-low sulfur diesel fuel on which retrofit emissions-control technology are to be demonstrated will operate on diesel fuel containing not more than 15 parts per million of sulfur after September 2006; and

(3) verify that grants are administered in accordance with this section.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended the following sums:

(1) $20,000,000 for fiscal year 2006.

(2) $35,000,000 for fiscal year 2007.

(3) $45,000,000 for fiscal year 2008.

(4) Such sums as are necessary for each of fiscal years 2009 and 2010.

SEC. 743. FUEL CELL SCHOOL BUSES.

(a) ESTABLISHMENT.—The Secretary shall establish a program for entering into cooperative agreements—

(1) with private sector fuel cell bus developers for the development of fuel cell-powered school buses; and

(2) subsequently, with not less than 2 units of local government using natural gas-powered school buses and such private sector fuel cell bus developers to demonstrate the use of fuel cell-powered school buses.

(b) COST SHARING.—The non-Federal contribution for activities funded under this section shall be not less than—

(1) 20 percent for fuel infrastructure development activities; and

(2) 50 percent for demonstration activities and for development activities not described in paragraph (1).

(c) REPORTS TO CONGRESS.—Not later than 3 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report that—

(1) evaluates the process of converting natural gas infrastructure to accommodate fuel cell-powered school buses; and

(2) assesses the results of the development and demonstration program under this section.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section $25,000,000 for the period of fiscal years 2006 through 2009.

Subtitle D—Miscellaneous

SEC. 751. RAILROAD EFFICIENCY.

(a) ESTABLISHMENT.—The Secretary shall (in cooperation with the Secretary of Transportation and the Administrator of the Environmental Protection Agency) establish a cost-shared, public-private research partnership involving the Federal Government, railroad carriers, locomotive manufacturers and equipment suppliers, and the Association of American Railroads, to develop and demonstrate railroad locomotive technologies that increase fuel economy, reduce emissions, and lower costs of operation.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section—

(1) $15,000,000 for fiscal year 2006;

(2) $20,000,000 for fiscal year 2007; and

(3) $30,000,000 for fiscal year 2008.

SEC. 752. MOBILE EMISSION REDUCTIONS TRADING AND CREDITING.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency shall submit to Congress a report on the experience of the Administrator with the trading of mobile source emission reduction credits for use by owners and operators of stationary source emission sources to meet emission offset requirements within a nonattainment area.

(b) CONTENTS.—The report shall describe—

(1) projects approved by the Administrator that include the trading of mobile source emission reduction credits for use by stationary sources in complying with offset requirements, including a description of—

(A) project and stationary sources location;

(B) volumes of emissions offset and traded;

(C) the sources of mobile emission reduction credits; and

(D) if available, the cost of the credits;

(2) the significant issues identified by the Administrator in consideration and approval of trading in the projects;

(3) the requirements for monitoring and assessing the air quality benefits of any approved project;

(4) the statutory authority on which the Administrator has based approval of the projects;

(5) an evaluation of how the resolution of issues in approved projects could be used in other projects and whether the emission reduction credits may be considered to be additional in relation to other requirements;

(6) the potential, for attainment purposes, of emission reduction credits relating to transit and land use policies; and

(7) any other issues that the Administrator considers relevant to the trading and generation of mobile source emission reduction credits for use by stationary sources or for other purposes.

SEC. 753. AVIATION FUEL CONSERVATION AND EMISSIONS.

(a) IN GENERAL.—Not later than 60 days after the date of enactment of this Act, the Administrator of the Federal Aviation Administration and the Administrator of the Environmental Protection Agency shall jointly initiate a study to identify—

(1) the impact of aircraft emissions on air quality in nonattainment areas;

(2) ways to promote fuel conservation measures for aviation to enhance fuel efficiency and reduce emissions; and

(3) opportunities to reduce air traffic inefficiencies that increase fuel burn and emissions.

(b) FOCUS.—The study under subsection (a) shall focus on how air traffic management inefficiencies, such as aircraft idling at airports, result in unnecessary fuel burn and air emissions.

(c) REPORT.—Not later than 1 year after the date of the initiation of the study under subsection (a), the Administrator of the Federal Aviation Administration and the Administrator of the Environmental Protection Agency shall jointly submit to the Committee on Energy and Commerce and the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works and the Committee on Commerce, Science, and Transportation of the Senate a report that—

(1) describes the results of the study; and

(2) includes any recommendations on ways in which unnecessary fuel use and emissions affecting air quality may be reduced—

(A) without adversely affecting safety and security and increasing individual aircraft noise; and

(B) while taking into account all aircraft emissions and the impact of those emissions on the human health.

(d) RISK ASSESSMENTS.—Any assessment of risk to human health and the environment prepared by the Administrator of the Federal Aviation Administration or the Administrator of the Environmental Protection Agency to support the report in this section shall be based on sound and objective scientific practices, shall consider the best available science, and shall present the weight of the scientific evidence concerning such risks.

SEC. 754. DIESEL FUELED VEHICLES.

(a) DEFINITION OF TIER 2 EMISSION STANDARDS.—In this section, the term "tier 2 emission standards" means the motor vehicle emission standards that apply to passenger cars, light trucks, and larger passenger vehicles manufactured after the 2003 model year, as issued on February 10, 2000, by the Administrator of the Environmental Protection Agency under sections 202 and 211 of the Clean Air Act (42 U.S.C. 7521, 7545).

(b) DIESEL COMBUSTION AND AFTER-TREATMENT TECHNOLOGIES.—The Secretary shall accelerate efforts to improve diesel combustion and after-treatment technologies for use in diesel fueled motor vehicles.

(c) GOALS.—The Secretary shall carry out subsection (b) with a view toward achieving the following goals:

(1) Developing and demonstrating diesel technologies that, not later than 2010, meet the following standards:

(A) Tier 2 emission standards.

(B) The heavy-duty emissions standards of 2007 that are applicable to heavy-duty vehicles under regulations issued by the Administrator of the Environmental Protection Agency as of the date of enactment of this Act.

(2) Developing the next generation of low-emission, high efficiency diesel engine technologies, including homogeneous charge compression ignition technology.

SEC. 755. CONSERVE BY BICYCLING PROGRAM.

(a) DEFINITIONS.—In this section:

(1) PROGRAM.—The term "program" means the Conserve by Bicycling Program established by subsection (b).

(2) SECRETARY.—The term "Secretary" means the Secretary of Transportation.

(b) ESTABLISHMENT.—There is established within the Department of Transportation a program to be known as the "Conserve by Bicycling Program".

(c) PROJECTS.—

(1) IN GENERAL.—In carrying out the program, the Secretary shall establish not more than 10 pilot projects that are—

(A) dispersed geographically throughout the United States; and

(B) designed to conserve energy resources by encouraging the use of bicycles in place of motor vehicles.

(2) REQUIREMENTS.—A pilot project described in paragraph (1) shall—

(A) use education and marketing to convert motor vehicle trips to bicycle trips;

(B) document project results and energy savings (in estimated units of energy conserved);

(C) facilitate partnerships among interested parties in at least 2 of the fields of—

(i) transportation;

(ii) law enforcement;

(iii) education;

(iv) public health;

(v) environment; and

(vi) energy;

(D) maximize bicycle facility investments;

(E) demonstrate methods that may be used in other regions of the United States; and

(F) facilitate the continuation of ongoing programs that are sustained by local resources.

(3) COST SHARING.—At least 20 percent of the cost of each pilot project described in paragraph (1) shall be provided from non-Federal sources.

(d) ENERGY AND BICYCLING RESEARCH STUDY.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Secretary shall enter into a contract with the National Academy of Sciences for, and the National Academy of Sciences shall conduct and submit to Congress a report on, a study on the feasibility of converting motor vehicle trips to bicycle trips.

(2) COMPONENTS.—The study shall—

(A) document the results or progress of the pilot projects under subsection (c);

(B) determine the type and duration of motor vehicle trips that people in the United States may feasibly make by bicycle, taking into consideration factors such as—

(i) weather;

(ii) land use and traffic patterns;

(iii) the carrying capacity of bicycles; and

(iv) bicycle infrastructure;

(C) determine any energy savings that would result from the conversion of motor vehicle trips to bicycle trips;

(D) include a cost-benefit analysis of bicycle infrastructure investments; and

(E) include a description of any factors that would encourage more motor vehicle trips to be replaced with bicycle trips.

(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary to carry out this section $6,200,000, to remain available until expended, of which—

(1) $5,150,000 shall be used to carry out pilot projects described in subsection (c);

(2) $300,000 shall be used by the Secretary to coordinate, publicize, and disseminate the results of the program; and

(3) $750,000 shall be used to carry out subsection (d).

SEC. 756. REDUCTION OF ENGINE IDLING.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) ADVANCED TRUCK STOP ELECTRIFICATION SYSTEM.—The term "advanced truck stop electrification system" means a stationary system that delivers heat, air conditioning, electricity, or communications, and is capable of providing verifiable and auditable evidence of use of those services, to a heavy-duty vehicle and any occupants of the heavy-duty vehicle with or without relying on components mounted onboard the heavy-duty vehicle for delivery of those services.

(3) AUXILIARY POWER UNIT.—The term "auxiliary power unit" means an integrated system that—

(A) provides heat, air conditioning, engine warming, or electricity to components on a heavy-duty vehicle; and

(B) is certified by the Administrator under part 89 of title 40, Code of Federal Regulations (or any successor regulation), as meeting applicable emission standards.

(4) HEAVY-DUTY VEHICLE.—The term "heavy-duty vehicle" means a vehicle that—

(A) has a gross vehicle weight rating greater than 8,500 pounds; and

(B) is powered by a diesel engine.

(5) IDLE REDUCTION TECHNOLOGY.—The term "idle reduction technology" means an advanced truck stop electrification system, auxiliary power unit, or other technology that—

(A) is used to reduce long-duration idling, and

(B) allows for the main drive engine or auxiliary refrigeration engine to be shut down.

(6) ENERGY CONSERVATION TECHNOLOGY.—the term "energy conservation technology" means any device, system of devices, or equipment that improves the fuel economy.

(7) LONG-DURATION IDLING.—

(A) IN GENERAL.—The term "long-duration idling" means the operation of a main drive engine or auxiliary refrigeration engine, for a period greater than 15 consecutive minutes, at a time at which the main drive engine is not engaged in gear.

(B) EXCLUSIONS.—The term "long-duration idling" does not include the operation of a main drive engine or auxiliary refrigeration engine during a routine stoppage associated with traffic movement or congestion.

(b) IDLE REDUCTION TECHNOLOGY BENEFITS, PROGRAMS, AND STUDIES.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator shall—

(A)(i) commence a review of the mobile source air emission models of the Environmental Protection Agency used under the Clean Air Act (42 U.S.C. 7401 et seq.) to determine whether the models accurately reflect the emissions resulting from long-duration idling of heavy-duty vehicles and other vehicles and engines; and

(ii) update those models as the Administrator determines to be appropriate; and

(B)(i) commence a review of the emission reductions achieved by the use of idle reduction technology; and

(ii) complete such revisions of the regulations and guidance of the Environmental Protection Agency as the Administrator determines to be appropriate.

(2) DEADLINE FOR COMPLETION.—Not later than 180 days after the date of enactment of this Act, the Administrator shall—

(A) complete the reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1); and

(B) prepare and make publicly available 1 or more reports on the results of the reviews.

(3) DISCRETIONARY INCLUSIONS.—The reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1) and the reports under paragraph (2)(B) may address the potential fuel savings resulting from use of idle reduction technology.

(4) IDLE REDUCTION AND ENERGY CONSERVATION DEPLOYMENT PROGRAM.—

(A) ESTABLISHMENT.—

(i) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator, in consultation with the Secretary of Transportation shall, through the Environmental Protection Agency's SmartWay Transport Partnership, establish a program to support deployment of idle reduction and energy conservation technologies.

(ii) PRIORITY.—The Administrator shall give priority to the deployment of idle reduction and energy conservation technologies based on the costs and beneficial effects on air quality and ability to lessen the emission of criteria air pollutants.

(B) FUNDING.—

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator to carry out subparagraph (A) for the purpose of reducing extended idling from heavy-duty vehicles $19,500,000 for fiscal year 2006, $30,000,000 for fiscal year 2007, and $45,000,000 for fiscal year 2008.

(ii) LOCOMOTIVES.—There are authorized to be appropriated to the administrator to carry out subparagraph (A) for the purpose of reducing extended idling from locomotives $10,000,000 for fiscal year 2006, $15,000,000 for fiscal year 2007, and $20,000,000 for fiscal year 2008.

(iii) COST SHARING.—Subject to clause (iv), the Administrator shall require at least 50 percent of the costs directly and specifically related to any project under this section to be provided from non-Federal sources.

(iv) NECESSARY AND APPROPRIATE REDUCTIONS.—The Administrator may reduce the non-Federal requirement under clause (iii) if the Administrator determines that the reduction is necessary and appropriate to meet the objectives of this section.

(5) IDLING LOCATION STUDY.—

(A) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator, in consultation with the Secretary of Transportation, shall commence a study to analyze all locations at which heavy-duty vehicles stop for long-duration idling, including—

(i) truck stops;

(ii) rest areas;

(iii) border crossings;

(iv) ports;

(v) transfer facilities; and

(vi) private terminals.

(B) DEADLINE FOR COMPLETION.—Not later than 180 days after the date of enactment of this Act, the Administrator shall—

(i) complete the study under subparagraph (A); and

(ii) prepare and make publicly available 1 or more reports of the results of the study.

(c) VEHICLE WEIGHT EXEMPTION.—Section 127(a) of title 23, United States Code, is amended—

(1) by designating the first through eleventh sentences as paragraphs (1) through (11), respectively; and

(2) by adding at the end the following:

"(12) HEAVY DUTY VEHICLES.—

"(A) IN GENERAL.—Subject to subparagraphs (B) and (C), in order to promote reduction of fuel use and emissions because of engine idling, the maximum gross vehicle weight limit and the axle weight limit for any heavy-duty vehicle equipped with an idle reduction technology shall be increased by a quantity necessary to compensate for the additional weight of the idle reduction system.

"(B) MAXIMUM WEIGHT INCREASE.—The weight increase under subparagraph (A) shall be not greater than 400 pounds.

"(C) PROOF.—On request by a regulatory agency or law enforcement agency, the vehicle operator shall provide proof (through demonstration or certification) that—

"(i) the idle reduction technology is fully functional at all times; and

"(ii) the 400-pound gross weight increase is not used for any purpose other than the use of idle reduction technology described in subparagraph (A).".

(d) REPORT.—Not later than 60 days after the date on which funds are initially awarded under this section, and on an annual basis thereafter, the Administrator shall submit to Congress a report containing—

(1) an identification of the grant recipients, a description of the projects to be funded and the amount of funding provided; and

(2) an identification of all other applicants that submitted applications under the program.

SEC. 757. BIODIESEL ENGINE TESTING PROGRAM.

(a) IN GENERAL.—Not later that 180 days after the date of enactment of this Act, the Secretary shall initiate a partnership with diesel engine, diesel fuel injection system, and diesel vehicle manufacturers and diesel and biodiesel fuel providers, to include biodiesel testing in advanced diesel engine and fuel system technology.

(b) SCOPE.—The program shall provide for testing to determine the impact of biodiesel from different sources on current and future emission control technologies, with emphasis on—

(1) the impact of biodiesel on emissions warranty, in-use liability, and antitampering provisions;

(2) the impact of long-term use of biodiesel on engine operations;

(3) the options for optimizing these technologies for both emissions and performance when switching between biodiesel and diesel fuel; and

(4) the impact of using biodiesel in these fueling systems and engines when used as a blend with 2006 Environmental Protection Agency-mandated diesel fuel containing a maximum of 15-parts-per-million sulfur content.

(c) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall provide an interim report to Congress on the findings of the program, including a comprehensive analysis of impacts from biodiesel on engine operation for both existing and expected future diesel technologies, and recommendations for ensuring optimal emissions reductions and engine performance with biodiesel.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $5,000,000 for each of fiscal years 2006 through 2010 to carry out this section.

(e) DEFINITION.—For purposes of this section, the term "biodiesel" means a diesel fuel substitute produced from nonpetroleum renewable resources that meets the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545) and that meets the American Society for Testing and Materials D6751–02a Standard Specification for Biodiesel Fuel (B100) Blend Stock for Distillate Fuels.

SEC. 758. ULTRA-EFFICIENT ENGINE TECHNOLOGY FOR AIRCRAFT.

(a) ULTRA-EFFICIENT ENGINE TECHNOLOGY PARTNERSHIP.—The Secretary shall enter into a cooperative agreement with the National Aeronautics and Space Administration for the development of ultra-efficient engine technology for aircraft.

(b) PERFORMANCE OBJECTIVE.—The Secretary shall establish the following performance objectives for the program set forth in subsection (a):

(1) A fuel efficiency increase of at least 10 percent.

(2) A reduction in the impact of landing and takeoff nitrogen oxides emissions on local air quality of 70 percent.

(3) Exploring advanced concepts, alternate propulsion, and power configurations, including hybrid fuel cell powered systems.

(4) Exploring the use of alternate fuel in conventional or nonconventional turbine-based systems.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $50,000,000 for each of the fiscal years 2006, 2007, 2008, 2009, and 2010.

SEC. 759. FUEL ECONOMY INCENTIVE REQUIREMENTS.

Section 32905 of title 49, United States Code, is amended by adding the following new subsection at the end thereof:

"(h) FUEL ECONOMY INCENTIVE REQUIREMENTS.—In order for any model of dual fueled automobile to be eligible to receive the fuel economy incentives included in section 32906(a) and (b), a label shall be attached to the fuel compartment of each dual fueled automobile of that model, notifying that the vehicle can be operated on an alternative fuel and on gasoline or diesel, with the form of alternative fuel stated on the notice. This requirement applies to dual fueled automobiles manufactured on or after September 1, 2006.".

Subtitle E—Automobile Efficiency

SEC. 771. AUTHORIZATION OF APPROPRIATIONS FOR IMPLEMENTATION AND ENFORCEMENT OF FUEL ECONOMY STANDARDS.

In addition to any other funds authorized by law, there are authorized to be appropriated to the National Highway Traffic Safety Administration to carry out its obligations with respect to average fuel economy standards $3,500,000 for each of the fiscal years 2006 through 2010.

SEC. 772. EXTENSION OF MAXIMUM FUEL ECONOMY INCREASE FOR ALTERNATIVE FUELED VEHICLES.

(a) MANUFACTURING INCENTIVES.—Section 32905 of title 49, United States Code, is amended—

(1) in each of subsections (b) and (d), by striking "1993–2004" and inserting "1993–2010";

(2) in subsection (f), by striking "2001" and inserting "2007"; and

(3) in subsection (f)(1), by striking "2004" and inserting "2010".

(b) MAXIMUM FUEL ECONOMY INCREASE.—Subsection (a)(1) of section 32906 of title 49, United States Code, is amended—

(1) in subparagraph (A), by striking "the model years 1993–2004" and inserting "model years 1993–2010"; and

(2) in subparagraph (B), by striking "the model years 2005–2008" and inserting "model years 2011–2014".

SEC. 773. STUDY OF FEASIBILITY AND EFFECTS OF REDUCING USE OF FUEL FOR AUTOMOBILES.

(a) IN GENERAL.—Not later than 30 days after the date of the enactment of this Act, the Administrator of the National Highway Traffic Safety Administration shall initiate a study of the feasibility and effects of reducing by model year 2014, by a significant percentage, the amount of fuel consumed by automobiles.

(b) SUBJECTS OF STUDY.—The study under this section shall include—

(1) examination of, and recommendation of alternatives to, the policy under current Federal law of establishing average fuel economy standards for automobiles and requiring each automobile manufacturer to comply with average fuel economy standards that apply to the automobiles it manufactures;

(2) examination of how automobile manufacturers could contribute toward achieving the reduction referred to in subsection (a);

(3) examination of the potential of fuel cell technology in motor vehicles in order to determine the extent to which such technology may contribute to achieving the reduction referred to in subsection (a); and

(4) examination of the effects of the reduction referred to in subsection (a) on—

(A) gasoline supplies;

(B) the automobile industry, including sales of automobiles manufactured in the United States;

(C) motor vehicle safety; and

(D) air quality.

(c) REPORT.—The Administrator shall submit to Congress a report on the findings, conclusion, and recommendations of the study under this section by not later than 1 year after the date of the enactment of this Act.

SEC. 774. UPDATE TESTING PROCEDURES.

The Administrator of the Environmental Protection Agency shall update or revise the adjustment factors in sections 600.209–85 and 600.209–95, of the Code of Federal Regulations, CFR Part 600 (1995) Fuel Economy Regulations for 1977 and Later Model Year Automobiles to take into consideration higher speed limits, faster acceleration rates, variations in temperature, use of air conditioning, shorter city test cycle lengths, current reference fuels, and the use of other fuel depleting features.

Subtitle F—Federal and State Procurement

SEC. 781. DEFINITIONS.

In this subtitle:

(1) FUEL CELL.—The term "fuel cell" means a device that directly converts the chemical energy of a fuel and an oxidant into electricity by electrochemical processes occurring at separate electrodes in the device.

(2) LIGHT-DUTY OR HEAVY-DUTY VEHICLE FLEET.—The term "light-duty or heavy-duty vehicle fleet" does not include any vehicle designed or procured for combat or combat-related missions.

(3) STATIONARY; PORTABLE.—The terms "stationary" and "portable", when used in reference to a fuel cell, include—

(A) continuous electric power; and

(B) backup electric power.

(4) TASK FORCE.—The term "Task Force" means the Hydrogen and Fuel Cell Technical Task Force established under section 806 of this Act.

(5) TECHNICAL ADVISORY COMMITTEE.—The term "Technical Advisory Committee" means the independent Technical Advisory Committee selected under section 807 of this Act.

SEC. 782. FEDERAL AND STATE PROCUREMENT OF FUEL CELL VEHICLES AND HYDROGEN ENERGY SYSTEMS.

(a) PURPOSES.—The purposes of this section are—

(1) to stimulate acceptance by the market of fuel cell vehicles and hydrogen energy systems;

(2) to support development of technologies relating to fuel cell vehicles, public refueling stations, and hydrogen energy systems; and

(3) to require the Federal government, which is the largest single user of energy in the United States, to adopt those technologies as soon as practicable after the technologies are developed, in conjunction with private industry partners.

(b) FEDERAL LEASES AND PURCHASES.—

(1) REQUIREMENT.—

(A) IN GENERAL.—Not later than January 1, 2010, the head of any Federal agency that uses a light-duty or heavy-duty vehicle fleet shall lease or purchase fuel cell vehicles and hydrogen energy systems to meet any applicable energy savings goal described in subsection (c).

(B) LEARNING DEMONSTRATION VEHICLES.—The Secretary may lease or purchase appropriate vehicles developed under subsections (a)(10) and (b)(1)(A) of section 808 to meet the requirement in subparagraph (A).

(2) COSTS OF LEASES AND PURCHASES.—

(A) IN GENERAL.—The Secretary, in cooperation with the Task Force and the Technical Advisory Committee, shall pay to Federal agencies (or share the cost under interagency agreements) the difference in cost between—

(i) the cost to the agencies of leasing or purchasing fuel cell vehicles and hydrogen energy systems under paragraph (1); and

(ii) the cost to the agencies of a feasible alternative to leasing or purchasing fuel cell vehicles and hydrogen energy systems, as determined by the Secretary.

(B) COMPETITIVE COSTS AND MANAGEMENT STRUCTURES.—In carrying out subparagraph (A), the Secretary, in consultation with the agency, may use the General Services Administration or any commercial vendor to ensure—

(i) a cost-effective purchase of a fuel cell vehicle or hydrogen energy system; or

(ii) a cost-effective management structure of the lease of a fuel cell vehicle or hydrogen energy system.

(3) EXCEPTION.—

(A) IN GENERAL.—If the Secretary determines that the head of an agency described in paragraph (1) cannot find an appropriately efficient and reliable fuel cell vehicle or hydrogen energy system in accordance with paragraph (1), that agency shall be excepted from compliance with paragraph (1).

(B) CONSIDERATION.—In making a determination under subparagraph (A), the Secretary shall consider—

(i) the needs of the agency; and

(ii) an evaluation performed by—

(I) the Task Force; or

(II) the Technical Advisory Committee.

(c) ENERGY SAVINGS GOALS.—

(1) IN GENERAL.—

(A) REGULATIONS.—Not later than December 31, 2006, the Secretary shall—

(i) in cooperation with the Task Force, promulgate regulations for the period of 2008 through 2010 that extend and augment energy savings goals for each Federal agency, in accordance with any Executive order issued after March 2000; and

(ii) promulgate regulations to expand the minimum Federal fleet requirement and credit allowances for fuel cell vehicle systems under section 303 of the Energy Policy Act of 1992 (42 U.S.C. 13212).

(B) REVIEW, EVALUATION, AND NEW REGULATIONS.—Not later than December 31, 2010, the Secretary shall—

(i) review the regulations promulgated under subparagraph (A);

(ii) evaluate any progress made toward achieving energy savings by Federal agencies; and

(iii) promulgate new regulations for the period of 2011 through 2015 to achieve additional energy savings by Federal agencies relating to technical and cost-performance standards.

(2) OFFSETTING ENERGY SAVINGS GOALS.—An agency that leases or purchases a fuel cell vehicle or hydrogen energy system in accordance with subsection (b)(1) may use that lease or purchase to count toward an energy savings goal of the agency.

(d) COOPERATIVE PROGRAM WITH STATE AGENCIES.—

(1) IN GENERAL.—The Secretary may establish a cooperative program with State agencies managing motor vehicle fleets to encourage purchase of fuel cell vehicles by the agencies.

(2) INCENTIVES.—In carrying out the cooperative program, the Secretary may offer incentive payments to a State agency to assist with the cost of planning, differential purchases, and administration.

(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section—

(1) $15,000,000 for fiscal year 2008;

(2) $25,000,000 for fiscal year 2009;

(3) $65,000,000 for fiscal year 2010; and

(4) such sums as are necessary for each of fiscal years 2011 through 2015.

SEC. 783. FEDERAL PROCUREMENT OF STATIONARY, PORTABLE, AND MICRO FUEL CELLS.

(a) PURPOSES.—The purposes of this section are—

(1) to stimulate acceptance by the market of stationary, portable, and micro fuel cells; and

(2) to support development of technologies relating to stationary, portable, and micro fuel cells.

(b) FEDERAL LEASES AND PURCHASES.—

(1) IN GENERAL.—Not later than January 1, 2006, the head of any Federal agency that uses electrical power from stationary, portable, or microportable devices shall lease or purchase a stationary, portable, or micro fuel cell to meet any applicable energy savings goal described in subsection (c).

(2) COSTS OF LEASES AND PURCHASES.—

(A) IN GENERAL.—The Secretary, in cooperation with the Task Force and the Technical Advisory Committee, shall pay the cost to Federal agencies (or share the cost under interagency agreements) of leasing or purchasing stationary, portable, and micro fuel cells under paragraph (1).

(B) COMPETITIVE COSTS AND MANAGEMENT STRUCTURES.—In carrying out subparagraph (A), the Secretary, in consultation with the agency, may use the General Services Administration or any commercial vendor to ensure—

(i) a cost-effective purchase of a stationary, portable, or micro fuel cell; or

(ii) a cost-effective management structure of the lease of a stationary, portable, or micro fuel cell.

(3) EXCEPTION.—

(A) IN GENERAL.—If the Secretary determines that the head of an agency described in paragraph (1) cannot find an appropriately efficient and reliable stationary, portable, or micro fuel cell in accordance with paragraph (1), that agency shall be excepted from compliance with paragraph (1).

(B) CONSIDERATION.—In making a determination under subparagraph (A), the Secretary shall consider—

(i) the needs of the agency; and

(ii) an evaluation performed by—

(I) the Task Force; or

(II) the Technical Advisory Committee of the Task Force.

(c) ENERGY SAVINGS GOALS.—An agency that leases or purchases a stationary, portable, or micro fuel cell in accordance with subsection (b)(1) may use that lease or purchase to count toward an energy savings goal described in section 808 of this Act that is applicable to the agency.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section—

(1) $20,000,000 for fiscal year 2006;

(2) $50,000,000 for fiscal year 2007;

(3) $75,000,000 for fiscal year 2008;

(4) $100,000,000 for fiscal year 2009;

(5) $100,000,000 for fiscal year 2010; and

(6) such sums as are necessary for each of fiscal years 2011 through 2015.

Subtitle G—Diesel Emissions Reduction

SEC. 791. DEFINITIONS.

In this subtitle:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) CERTIFIED ENGINE CONFIGURATION.—The term "certified engine configuration" means a new, rebuilt, or remanufactured engine configuration—

(A) that has been certified or verified by—

(i) the Administrator; or

(ii) the California Air Resources Board;

(B) that meets or is rebuilt or remanufactured to a more stringent set of engine emission standards, as determined by the Administrator; and

(C) in the case of a certified engine configuration involving the replacement of an existing engine or vehicle, an engine configuration that replaced an engine that was—

(i) removed from the vehicle; and

(ii) returned to the supplier for remanufacturing to a more stringent set of engine emissions standards or for scrappage.

(3) ELIGIBLE ENTITY.—The term "eligible entity" means—

(A) a regional, State, local, or tribal agency or port authority with jurisdiction over transportation or air quality; and

(B) a nonprofit organization or institution that—

(i) represents or provides pollution reduction or educational services to persons or organizations that own or operate diesel fleets; or

(ii) has, as its principal purpose, the promotion of transportation or air quality.

(4) EMERGING TECHNOLOGY.—The term "emerging technology" means a technology that is not certified or verified by the Administrator or the California Air Resources Board but for which an approvable application and test plan has been submitted for verification to the Administrator or the California Air Resources Board.

(5) FLEET.—The term "fleet" means 1 or more diesel vehicles or mobile or stationary diesel engines.

(6) HEAVY-DUTY TRUCK.—The term "heavy-duty truck" has the meaning given the term "heavy duty vehicle" in section 202 of the Clean Air Act (42 U.S.C. 7521).

(7) MEDIUM-DUTY TRUCK.—The term "medium-duty truck" has such meaning as shall be determined by the Administrator, by regulation.

(8) VERIFIED TECHNOLOGY.—The term "verified technology" means a pollution control technology, including a retrofit technology, advanced truckstop electrification system, or auxiliary power unit, that has been verified by—

(A) the Administrator; or

(B) the California Air Resources Board.

SEC. 792. NATIONAL GRANT AND LOAN PROGRAMS.

(a) IN GENERAL.—The Administrator shall use 70 percent of the funds made available to carry out this subtitle for each fiscal year to provide grants and low-cost revolving loans, as determined by the Administrator, on a competitive basis, to eligible entities to achieve significant reductions in diesel emissions in terms of—

(1) tons of pollution produced; and

(2) diesel emissions exposure, particularly from fleets operating in areas designated by the Administrator as poor air quality areas.

(b) DISTRIBUTION.—

(1) IN GENERAL.—The Administrator shall distribute funds made available for a fiscal year under this subtitle in accordance with this section.

(2) FLEETS.—The Administrator shall provide not less than 50 percent of funds available for a fiscal year under this section to eligible entities for the benefit of public fleets.

(3) ENGINE CONFIGURATIONS AND TECHNOLOGIES.—

(A) CERTIFIED ENGINE CONFIGURATIONS AND VERIFIED TECHNOLOGIES.—The Administrator shall provide not less than 90 percent of funds available for a fiscal year under this section to eligible entities for projects using—

(i) a certified engine configuration; or

(ii) a verified technology.

(B) EMERGING TECHNOLOGIES.—

(i) IN GENERAL.—The Administrator shall provide not more than 10 percent of funds available for a fiscal year under this section to eligible entities for the development and commercialization of emerging technologies.

(ii) APPLICATION AND TEST PLAN.—To receive funds under clause (i), a manufacturer, in consultation with an eligible entity, shall submit for verification to the Administrator or the California Air Resources Board a test plan for the emerging technology, together with the application under subsection (c).

(c) APPLICATIONS.—

(1) IN GENERAL.—To receive a grant or loan under this section, an eligible entity shall submit to the Administrator an application at a time, in a manner, and including such information as the Administrator may require.

(2) INCLUSIONS.—An application under this subsection shall include—

(A) a description of the air quality of the area served by the eligible entity;

(B) the quantity of air pollution produced by the diesel fleets in the area served by the eligible entity;

(C) a description of the project proposed by the eligible entity, including—

(i) any certified engine configuration, verified technology, or emerging technology to be used or funded by the eligible entity; and

(ii) the means by which the project will achieve a significant reduction in diesel emissions;

(D) an evaluation (using methodology approved by the Administrator or the National Academy of Sciences) of the quantifiable and unquantifiable benefits of the emissions reductions of the proposed project;

(E) an estimate of the cost of the proposed project;

(F) a description of the age and expected lifetime control of the equipment used or funded by the eligible entity;

(G) a description of the diesel fuel available in the areas to be served by the eligible entity, including the sulfur content of the fuel; and

(H) provisions for the monitoring and verification of the project.

(3) PRIORITY.—In providing a grant or loan under this section, the Administrator shall give priority to proposed projects that, as determined by the Administrator—

(A) maximize public health benefits;

(B) are the most cost-effective;

(C) serve areas—

(i) with the highest population density;

(ii) that are poor air quality areas, including areas identified by the Administrator as—

(I) in nonattainment or maintenance of national ambient air quality standards for a criteria pollutant;

(II) Federal Class I areas; or

(III) areas with toxic air pollutant concerns;

(iii) that receive a disproportionate quantity of air pollution from a diesel fleets, including truckstops, ports, rail yards, terminals, and distribution centers; or

(iv) that use a community-based multistakeholder collaborative process to reduce toxic emissions;

(D) include a certified engine configuration, verified technology, or emerging technology that has a long expected useful life;

(E) will maximize the useful life of any certified engine configuration, verified technology, or emerging technology used or funded by the eligible entity;

(F) conserve diesel fuel; and

(G) use diesel fuel with a sulfur content of less than or equal to 15 parts per million, as the Administrator determines to be appropriate.

(d) USE OF FUNDS.—

(1) IN GENERAL.—An eligible entity may use a grant or loan provided under this section to fund the costs of—

(A) a retrofit technology (including any incremental costs of a repowered or new diesel engine) that significantly reduces emissions through development and implementation of a certified engine configuration, verified technology, or emerging technology for—

(i) a bus;

(ii) a medium-duty truck or a heavy-duty truck;

(iii) a marine engine;

(iv) a locomotive; or

(v) a nonroad engine or vehicle used in—

(I) construction;

(II) handling of cargo (including at a port or airport); .

(III) agriculture;

(IV) mining; or

(V) energy production; or

(B) programs or projects to reduce long-duration idling using verified technology involving a vehicle or equipment described in subparagraph (A).

(2) REGULATORY PROGRAMS.—

(A) IN GENERAL.—Notwithstanding paragraph (1), no grant or loan provided under this section shall be used to fund the costs of emissions reductions that are mandated under Federal, State or local law.

(B) MANDATED.—For purposes of subparagraph (A), voluntary or elective emission reduction measures shall not be considered "mandated", regardless of whether the reductions are included in the State implementation plan of a State.

SEC. 793. STATE GRANT AND LOAN PROGRAMS.

(a) IN GENERAL.—Subject to the availability of adequate appropriations, the Administrator shall use 30 percent of the funds made available for a fiscal year under this subtitle to support grant and loan programs administered by States that are designed to achieve significant reductions in diesel emissions.

(b) APPLICATIONS.—The Administrator shall—

(1) provide to States guidance for use in applying for grant or loan funds under this section, including information regarding—

(A) the process and forms for applications;

(B) permissible uses of funds received; and

(C) the cost-effectiveness of various emission reduction technologies eligible to be carried out using funds provided under this section; and

(2) establish, for applications described in paragraph (1)—

(A) an annual deadline for submission of the applications;

(B) a process by which the Administrator shall approve or disapprove each application; and

(C) a streamlined process by which a State may renew an application described in paragraph (1) for subsequent fiscal years.

(c) ALLOCATION OF FUNDS.—

(1) IN GENERAL.—For each fiscal year, the Administrator shall allocate among States for which applications are approved by the Administrator under subsection (b)(2)(B) funds made available to carry out this section for the fiscal year.

(2) ALLOCATION.—Using not more than 20 percent of the funds made available to carry out this subtitle for a fiscal year, the Administrator shall provide to each State described in paragraph (1) for the fiscal year an allocation of funds that is equal to—

(A) if each of the 50 States qualifies for an allocation, an amount equal to 2 percent of the funds made available to carry out this section; or

(B) if fewer than 50 States qualifies for an allocation, an amount equal to the amount described in subparagraph (A), plus an additional amount equal to the product obtained by multiplying—

(i) the proportion that—

(I) the population of the State; bears to

(II) the population of all States described in paragraph (1); by

(ii) the amount of funds remaining after each State described in paragraph (1) receives the 2-percent allocation under this paragraph.

(3) STATE MATCHING INCENTIVE.—

(A) IN GENERAL.—If a State agrees to match the allocation provided to the State under paragraph (2) for a fiscal year, the Administrator shall provide to the State for the fiscal year an additional amount equal to 50 percent of the allocation of the State under paragraph (2).

(B) REQUIREMENTS.—A State—

(i) may not use funds received under this subtitle to pay a matching share required under this subsection; and

(ii) shall not be required to provide a matching share for any additional amount received under subparagraph (A).

(4) UNCLAIMED FUNDS.—Any funds that are not claimed by a State for a fiscal year under this subsection shall be used to carry out section 792.

(d) ADMINISTRATION.—

(1) IN GENERAL.—Subject to paragraphs (2) and (3) and, to the extent practicable, the priority areas listed in section 792(c)(3), a State shall use any funds provided under this section to develop and implement such grant and low-cost revolving loan programs in the State as are appropriate to meet State needs and goals relating to the reduction of diesel emissions.

(2) APPORTIONMENT OF FUNDS.—The Governor of a State that receives funding under this section may determine the portion of funds to be provided as grants or loans.

(3) USE OF FUNDS.—A grant or loan provided under this section may be used for a project relating to—

(A) a certified engine configuration; or

(B) a verified technology.

SEC. 794. EVALUATION AND REPORT.

(a) IN GENERAL.—Not later than 1 year after the date on which funds are made available under this subtitle, and biennially thereafter,

the Administrator shall submit to Congress a report evaluating the implementation of the programs under this subtitle.

(b) INCLUSIONS.—The report shall include a description of—

(1) the total number of grant applications received;

(2) each grant or loan made under this subtitle, including the amount of the grant or loan;

(3) each project for which a grant or loan is provided under this subtitle, including the criteria used to select the grant or loan recipients;

(4) the actual and estimated air quality and diesel fuel conservation benefits, cost-effectiveness, and cost-benefits of the grant and loan programs under this subtitle;

(5) the problems encountered by projects for which a grant or loan is provided under this subtitle; and

(6) any other information the Administrator considers to be appropriate.

SEC. 795. OUTREACH AND INCENTIVES.

(a) DEFINITION OF ELIGIBLE TECHNOLOGY.—In this section, the term "eligible technology" means—

(1) a verified technology; or

(2) an emerging technology.

(b) TECHNOLOGY TRANSFER PROGRAM.—

(1) IN GENERAL.—The Administrator shall establish a program under which the Administrator—

(A) informs stakeholders of the benefits of eligible technologies; and

(B) develops nonfinancial incentives to promote the use of eligible technologies.

(2) ELIGIBLE STAKEHOLDERS.—Eligible stakeholders under this section include—

(A) equipment owners and operators;

(B) emission and pollution control technology manufacturers;

(C) engine and equipment manufacturers;

(D) State and local officials responsible for air quality management;

(E) community organizations; and

(F) public health, educational, and environmental organizations.

(c) STATE IMPLEMENTATION PLANS.—The Administrator shall develop appropriate guidance to provide credit to a State for emission reductions in the State created by the use of eligible technologies through a State implementation plan under section 110 of the Clean Air Act (42 U.S.C. 7410).

(d) INTERNATIONAL MARKETS.—The Administrator, in coordination with the Department of Commerce and industry stakeholders, shall inform foreign countries with air quality problems of the potential of technology developed or used in the United States to provide emission reductions in those countries.

SEC. 796. EFFECT OF SUBTITLE.

Nothing in this subtitle affects any authority under the Clean Air Act (42 U.S.C. 7401 et seq.) in existence on the day before the date of enactment of this Act.

SEC. 797. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to carry out this subtitle $200,000,000 for each of fiscal years 2007 through 2011, to remain available until expended.

TITLE VIII—HYDROGEN

SEC. 801. HYDROGEN AND FUEL CELL PROGRAM.

This title may be cited as the "Spark M. Matsunaga Hydrogen Act of 2005".

SEC. 802. PURPOSES.

The purposes of this title are—

(1) to enable and promote comprehensive development, demonstration, and commercialization of hydrogen and fuel cell technology in partnership with industry;

(2) to make critical public investments in building strong links to private industry, institutions of higher education, National Laboratories, and research institutions to expand innovation and industrial growth;

(3) to build a mature hydrogen economy that creates fuel diversity in the massive transportation sector of the United States;

(4) to sharply decrease the dependency of the United States on imported oil, eliminate most emissions from the transportation sector, and greatly enhance our energy security; and

(5) to create, strengthen, and protect a sustainable national energy economy.

SEC. 803. DEFINITIONS.

In this title:

(1) FUEL CELL.—The term "fuel cell" means a device that directly converts the chemical energy of a fuel, which is supplied from an external source, and an oxidant into electricity by electrochemical processes occurring at separate electrodes in the device.

(2) HEAVY-DUTY VEHICLE.—The term "heavy-duty vehicle" means a motor vehicle that—

(A) is rated at more than 8,500 pounds gross vehicle weight;

(B) has a curb weight of more than 6,000 pounds; or

(C) has a basic vehicle frontal area in excess of 45 square feet.

(3) INFRASTRUCTURE.—The term "infrastructure" means the equipment, systems, or facilities used to produce, distribute, deliver, or store hydrogen (except for onboard storage).

(4) LIGHT-DUTY VEHICLE.—The term "light-duty vehicle" means a motor vehicle that is rated at 8,500 or less pounds gross vehicle weight.

(5) STATIONARY; PORTABLE.—The terms "stationary" and "portable",. when used in reference to a fuel cell, include—

(A) continuous electric power; and

(B) backup electric power.

(6) TASK FORCE.—The term "Task Force" means the Hydrogen and Fuel Cell Technical Task Force established under section 806.

(7) TECHNICAL ADVISORY COMMITTEE.—The term "Technical Advisory Committee" means the independent Technical Advisory Committee established under section 807.

SEC. 804. PLAN.

Not later than 6 months after the date of enactment of this Act, the Secretary shall transmit to Congress a coordinated plan for the programs described in this title and any other programs of the Department that are directly related to fuel cells or hydrogen. The plan shall describe, at a minimum—

(1) the agenda for the next 5 years for the programs authorized under this title, including the agenda for each activity enumerated in section 805(e);

(2) the types of entities that will carry out the activities under this title and what role each entity is expected to play;

(3) the milestones that will be used to evaluate the programs for the next 5 years;

(4) the most significant technical and nontechnical hurdles that stand in the way of achieving the goals described in section 805, and how the programs will address those hurdles; and

(5) the policy assumptions that are implicit in the plan, including any assumptions that would affect the sources of hydrogen or the marketability of hydrogen-related products.

SEC. 805. PROGRAMS.

(a) IN GENERAL.—The Secretary, in consultation with other Federal agencies and the private sector, shall conduct a research and development program on technologies relating to the production, purification, distribution, storage, and use of hydrogen energy, fuel cells, and related infrastructure.

(b) GOAL.—The goal of the program shall be to demonstrate and commercialize the use of hydrogen for transportation (in light-duty vehicles and heavy-duty vehicles), utility, industrial, commercial, and residential applications.

(c) FOCUS.—In carrying out activities under this section, the Secretary shall focus on factors that are common to the development of hydrogen infrastructure and the supply of vehicle and electric power for critical consumer and commercial applications, and that achieve continuous technical evolution and cost reduction, particularly for hydrogen production, the supply of hydrogen, storage of hydrogen, and end uses of hydrogen that—

(1) steadily increase production, distribution, and end use efficiency and reduce life-cycle emissions;

(2) resolve critical problems relating to catalysts, membranes, storage, lightweight materials, electronic controls, manufacturability, and other problems that emerge from the program;

(3) enhance sources of renewable fuels and biofuels for hydrogen production; and

(4) enable widespread use of distributed electricity generation and storage.

(d) PUBLIC EDUCATION AND RESEARCH.—In carrying out this section, the Secretary shall support enhanced public education and research conducted at institutions of higher education in fundamental sciences, application design, and systems concepts (including education and research relating to materials, subsystems, manufacturability, maintenance, and safety) relating to hydrogen and fuel cells.

(e) ACTIVITIES.—The Secretary, in partnership with the private sector, shall conduct programs to address—

(1) production of hydrogen from diverse energy sources, including—

(A) fossil fuels, which may include carbon capture and sequestration;

(B) hydrogen-carrier fuels (including ethanol and methanol);

(C) renewable energy resources, including biomass; and

(D) nuclear energy;

(2) use of hydrogen for commercial, industrial, and residential electric power generation;

(3) safe delivery of hydrogen or hydrogen-carrier fuels, including—

(A) transmission by pipeline and other distribution methods; and

(B) convenient and economic refueling of vehicles either at central refueling stations or through distributed onsite generation;

(4) advanced vehicle technologies, including—

(A) engine and emission control systems;

(B) energy storage, electric propulsion, and hybrid systems;

(C) automotive materials; and

(D) other advanced vehicle technologies;

(5) storage of hydrogen or hydrogen-carrier fuels, including development of materials for safe and economic storage in gaseous, liquid, or solid form at refueling facilities and onboard vehicles;

(6) development of safe, durable, affordable, and efficient fuel cells, including fuel-flexible fuel cell power systems, improved manufacturing processes, high-temperature membranes, cost-effective fuel processing for natural gas, fuel cell stack and system reliability, low temperature operation, and cold start capability; and

(7) the ability of domestic automobile manufacturers to manufacture commercially available competitive hybrid vehicle technologies in the United States.

(f) PROGRAM GOALS.—

(1) VEHICLES.—For vehicles, the goals of the program are—

(A) to enable a commitment by automakers no later than year 2015 to offer safe, affordable, and technically viable hydrogen fuel cell vehicles in the mass consumer market; and

(B) to enable production, delivery, and acceptance by consumers of model year 2020 hydrogen fuel cell and other hydrogen-powered vehicles that will have, when compared to light duty vehicles in model year 2005—

(i) fuel economy that is substantially higher;

(ii) substantially lower emissions of air pollutants; and

(iii) equivalent or improved vehicle fuel system crash integrity and occupant protection.

(2) HYDROGEN ENERGY AND ENERGY INFRASTRUCTURE.—For hydrogen energy and energy infrastructure, the goals of the program are to enable a commitment not later than 2015 that will lead to infrastructure by 2020 that will provide—

(A) safe and convenient refueling;

(B) improved overall efficiency;

(C) widespread availability of hydrogen from domestic energy sources through—

(i) production, with consideration of emissions levels;

(ii) delivery, including transmission by pipeline and other distribution methods for hydrogen; and

(iii) storage, including storage in surface transportation vehicles;

(D) hydrogen for fuel cells, internal combustion engines, and other energy conversion devices for portable, stationary, micro, critical needs facilities, and transportation applications; and

(E) other technologies consistent with the Department's plan.

(3) FUEL CELLS.—The goals for fuel cells and their portable, stationary, and transportation applications are to enable—

(A) safe, economical, and environmentally sound hydrogen fuel cells;

(B) fuel cells for light duty and other vehicles; and

(C) other technologies consistent with the Department's plan.

(g) FUNDING.—

(1) IN GENERAL.—The Secretary shall carry out the programs under this section using a competitive, merit-based review process and consistent with the generally applicable Federal laws and regulations governing awards of financial assistance, contracts, or other agreements.

(2) RESEARCH CENTERS.—Activities under this section may be carried out by funding nationally recognized university-based or Federal laboratory research centers.

(h) HYDROGEN SUPPLY.—There are authorized to be appropriated to carry out projects and activities relating to hydrogen production, storage, distribution and dispensing, transport, education and coordination, and technology transfer under this section—

(1) $160,000,000 for fiscal year 2006;

(2) $200,000,000 for fiscal year 2007;

(3) $220,000,000 for fiscal year 2008;

(4) $230,000,000 for fiscal year 2009;

(5) $250,000,000 for fiscal year 2010; and

(6) such sums as are necessary for each of fiscal years 2011 through 2020.

SEC. 806. HYDROGEN AND FUEL CELL TECHNICAL TASK FORCE.

(a) ESTABLISHMENT.—Not later than 120 days after the date of enactment of this Act, the President shall establish an interagency task force chaired by the Secretary with representatives from each of the following:

(1) The Office of Science and Technology Policy within the Executive Office of the President.

(2) The Department of Transportation.

(3) The Department of Defense.

(4) The Department of Commerce (including the National Institute of Standards and Technology).

(5) The Department of State.

(6) The Environmental Protection Agency.

(7) The National Aeronautics and Space Administration.

(8) Other Federal agencies as the Secretary determines appropriate.

(b) DUTIES.—

(1) PLANNING.—The Task Force shall work toward—

(A) a safe, economical, and environmentally sound fuel infrastructure for hydrogen and hydrogen-carrier fuels, including an infrastructure that supports buses and other fleet transportation;

(B) fuel cells in government and other applications, including portable, stationary, and transportation applications;

(C) distributed power generation, including the generation of combined heat, power, and clean fuels including hydrogen;

(D) uniform hydrogen codes, standards, and safety protocols; and

(E) vehicle hydrogen fuel system integrity safety performance.

(2) ACTIVITIES.—The Task Force may organize workshops and conferences, may issue publications, and may create databases to carry out its duties. The Task Force shall—

(A) foster the exchange of generic, nonproprietary information and technology among industry, academia, and government;

(B) develop and maintain an inventory and assessment of hydrogen, fuel cells, and other advanced technologies, including the commercial capability of each technology for the economic and environmentally safe production, distribution, delivery, storage, and use of hydrogen;

(C) integrate technical and other information made available as a result of the programs and activities under this title;

(D) promote the marketplace introduction of infrastructure for hydrogen fuel vehicles; and

(E) conduct an education program to provide hydrogen and fuel cell information to potential end-users..

(c) AGENCY COOPERATION.—The heads of all agencies, including those whose agencies are not represented on the Task Force, shall cooperate with and furnish information to the Task Force, the Technical Advisory Committee, and the Department.

SEC. 807. TECHNICAL ADVISORY COMMITTEE.

(a) ESTABLISHMENT.—The Hydrogen Technical and Fuel Cell Advisory Committee is established to advise the Secretary on the programs and activities under this title.

(b) MEMBERSHIP.—

(1) MEMBERS.—The Technical Advisory Committee shall be comprised of not fewer than 12 nor more than 25 members. The members shall be appointed by the Secretary to represent domestic industry, academia, professional societies, government agencies, Federal laboratories, previous advisory panels, and financial, environmental, and other appropriate organizations based on the Department's assessment of the technical and other qualifications of Technical Advisory Committee members and the needs of the Technical Advisory Committee.

(2) TERMS.—The term of a member of the Technical Advisory Committee shall not be more than 3 years. The Secretary may appoint members of the Technical Advisory Committee in a manner that allows the terms of the members serving at any time to expire at spaced intervals so as to ensure continuity in the functioning of the Technical Advisory Committee. A member of the Technical Advisory Committee whose term is expiring may be reappointed.

(3) CHAIRPERSON.—The Technical Advisory Committee shall have a chairperson, who shall be elected by the members from among their number.

(c) REVIEW.—The Technical Advisory Committee shall review and make recommendations to the Secretary on—

(1) the implementation of programs and activities under this title;

(2) the safety, economical, and environmental consequences of technologies for the production, distribution, delivery, storage, or use of hydrogen energy and fuel cells; and

(3) the plan under section 804.

(d) RESPONSE.—

(1) CONSIDERATION OF RECOMMENDATIONS.—The Secretary shall consider, but need not adopt, any recommendations of the Technical Advisory Committee under subsection (c).

(2) BIENNIAL REPORT.—The Secretary shall transmit a biennial report to Congress describing any recommendations made by the Technical Advisory Committee since the previous report. The report shall include a description of how the Secretary has implemented or plans to implement the recommendations, or an explanation of the reasons that a recommendation will not be implemented. The report shall be transmitted along with the President's budget proposal.

(e) SUPPORT.—The Secretary shall provide resources necessary in the judgment of the Secretary for the Technical Advisory Committee to carry out its responsibilities under this title.

SEC. 808. DEMONSTRATION.

(a) IN GENERAL.—In carrying out the programs under this section, the Secretary shall fund a limited number of demonstration projects, consistent with this title and a determination of the maturity, cost-effectiveness, and environmental impacts of technologies supporting each project. In selecting projects under this subsection, the Secretary shall, to the extent practicable and in the public interest, select projects that—

(1) involve using hydrogen and related products at existing facilities or installations, such as existing office buildings, military bases, vehicle fleet centers, transit bus authorities, or units of the National Park System;

(2) depend on reliable power from hydrogen to carry out essential activities;

(3) lead to the replication of hydrogen technologies and draw such technologies into the marketplace;

(4) include vehicle, portable, and stationary demonstrations of fuel cell and hydrogen-based energy technologies;

(5) address the interdependency of demand for hydrogen fuel cell applications and hydrogen fuel infrastructure;

(6) raise awareness of hydrogen technology among the public;

(7) facilitate identification of an optimum technology among competing alternatives;

(8) address distributed generation using renewable sources;

(9) carry out demonstrations of evolving hydrogen and fuel cell technologies in national parks, remote island areas, and on Indian tribal land, as selected by the Secretary;

(10) carry out a program to demonstrate developmental hydrogen and fuel cell systems for mobile, portable, and stationary uses, using improved versions of the learning demonstrations program concept of the Department including demonstrations involving—

(A) light-duty vehicles;

(B) heavy-duty vehicles;

(C) fleet vehicles;

(D) specialty industrial and farm vehicles; and

(E) commercial and residential portable, continuous, and backup electric power generation;

(11) in accordance with any code or standards developed in a region, fund prototype, pilot fleet, and infrastructure regional hydrogen supply corridors along the interstate highway system in varied climates across the United States; and

(12) fund demonstration programs that explore the use of hydrogen blends, hybrid hydrogen,

and hydrogen reformed from renewable agricultural fuels, including the use of hydrogen in hybrid electric, heavier duty, and advanced internal combustion-powered vehicles.

The Secretary shall give preference to projects which address multiple elements contained in paragraphs (1) through (12).

(b) System Demonstrations.—

(1) In general.—As a component of the demonstration program under this section, the Secretary shall provide grants, on a cost share basis as appropriate, to eligible entities (as determined by the Secretary) for use in—

(A) devising system design concepts that provide for the use of advanced composite vehicles in programs under section 782 that—

(i) have as a primary goal the reduction of drive energy requirements;

(ii) after 2010, add another research and development phase, as defined in subsection (c), including the vehicle and infrastructure partnerships developed under the learning demonstrations program concept of the Department; and

(iii) are managed through an enhanced FreedomCAR program within the Department that encourages involvement in cost-shared projects by manufacturers and governments; and

(B) designing a local distributed energy system that—

(i) incorporates renewable hydrogen production, off-grid electricity production, and fleet applications in industrial or commercial service;

(ii) integrates energy or applications described in clause (i), such as stationary, portable, micro, and mobile fuel cells, into a high-density commercial or residential building complex or agricultural community; and

(iii) is managed in cooperation with industry, State, tribal, and local governments, agricultural organizations, and nonprofit generators and distributors of electricity.

(c) Identification of New Program Requirements.—In carrying out the demonstrations under subsection (a), the Secretary, in consultation with the Task Force and the Technical Advisory Committee, shall—

(1) after 2008 for stationary and portable applications, and after 2010 for vehicles, identify new requirements that refine technological concepts, planning, and applications; and

(2) during the second phase of the learning demonstrations under subsection (b)(1)(A)(ii), redesign subsequent program work to incorporate those requirements.

(d) Authorization of Appropriations.—There are authorized to be appropriated to carry out this section—

(1) $185,000,000 for fiscal year 2006;

(2) $200,000,000 for fiscal year 2007;

(3) $250,000,000 for fiscal year 2008;

(4) $300,000,000 for fiscal year 2009;

(5) $375,000,000 for fiscal year 2010; and

(6) such sums as are necessary for each of fiscal years 2011 through 2020.

SEC. 809. CODES AND STANDARDS.

(a) In General.—The Secretary, in cooperation with the Task Force, shall provide grants to, or offer to enter into contracts with, such professional organizations, public service organizations, and government agencies as the Secretary determines appropriate to support timely and extensive development of safety codes and standards relating to fuel cell vehicles, hydrogen energy systems, and stationary, portable, and micro fuel cells.

(b) Educational Efforts.—The Secretary shall support educational efforts by organizations and agencies described in subsection (a) to share information, including information relating to best practices, among those organizations and agencies.

(c) Authorization of Appropriations.—There are authorized to be appropriated to carry out this section—

(1) $4,000,000 for fiscal year 2006;

(2) $7,000,000 for fiscal year 2007;

(3) $8,000,000 for fiscal year 2008;

(4) $10,000,000 for fiscal year 2009;

(5) $9,000,000 for fiscal year 2010; and

(6) such sums as are necessary for each of fiscal years 2011 through 2020.

SEC. 810. DISCLOSURE.

Section 623 of the Energy Policy Act of 1992 (42 U.S.C. 13293) shall apply to any project carried out through a grant, cooperative agreement, or contract under this title.

SEC. 811. REPORTS.

(a) Secretary.—Subject to subsection (c), not later than 2 years after the date of enactment of this Act, and triennially thereafter, the Secretary shall submit to Congress a report describing—

(1) activities carried out by the Department under this title, for hydrogen and fuel cell technology;

(2) measures the Secretary has taken during the preceding 3 years to support the transition of primary industry (or a related industry) to a fully commercialized hydrogen economy;

(3) any change made to the strategy relating to hydrogen and fuel cell technology to reflect the results of a learning demonstrations;

(4) progress, including progress in infrastructure, made toward achieving the goal of producing and deploying not less than—

(A) 100,000 hydrogen-fueled vehicles in the United States by 2010; and

(B) 2,500,000 hydrogen-fueled vehicles in the United States by 2020;

(5) progress made toward achieving the goal of supplying hydrogen at a sufficient number of fueling stations in the United States by 2010 including by integrating—

(A) hydrogen activities; and

(B) associated targets and timetables for the development of hydrogen technologies;

(6) any problem relating to the design, execution, or funding of a program under this title;

(7) progress made toward and goals achieved in carrying out this title and updates to the developmental roadmap, including the results of the reviews conducted by the National Academy of Sciences under subsection (b) for the fiscal years covered by the report; and

(8) any updates to strategic plans that are necessary to meet the goals described in paragraph (4).

(b) External Review.—The Secretary shall enter into an arrangement with the National Academy of Sciences under which the Academy will review the programs under sections 805 and 808 every fourth year following the date of enactment of this Act. The Academy's review shall include the program priorities and technical milestones, and evaluate the progress toward achieving them. The first review shall be completed not later than 5 years after the date of enactment of this Act. Not later than 45 days after receiving the review, the Secretary shall transmit the review to Congress along with a plan to implement the review's recommendations or an explanation for the reasons that a recommendation will not be implemented.

(c) Authorization of Appropriations.—There is authorized to be appropriated to carry out this section $1,500,000 for each of fiscal years 2006 through 2020.

SEC. 812. SOLAR AND WIND TECHNOLOGIKS.

(a) Solar Energy Technologies.—The Secretary shall—

(1) prepare a detailed roadmap for carrying out the provisions in this title related to solar energy technologies and for implementing the recommendations related to solar energy technologies that are included in the report transmitted under subsection (e);

(2) provide for the establishment of 5 projects in geographic areas that are regionally and climatically diverse to demonstrate the production of hydrogen at solar energy facilities, including one demonstration project at a National Laboratory or institution of higher education;

(3) establish a program—

(A) to develop optimized concentrating solar power devices that may be used for the production of both electricity and hydrogen; and

(B) to evaluate the use of thermochemical cycles for hydrogen production at the temperatures attainable with concentrating solar power devices;

(4) coordinate with activities sponsored by the Department's Office of Nuclear Energy, Science, and Technology on high-temperature materials, thermochemical cycles, and economic issues related to solar energy;

(5) provide for the construction and operation of new concentrating solar power devices or solar power cogeneration facilities that produce hydrogen either concurrently with, or independently of, the production of electricity;

(6) support existing facilities and programs of study related to concentrating solar power devices; and

(7) establish a program—

(A) to develop methods that use electricity from photovoltaic devices for the onsite production of hydrogen, such that no intermediate transmission or distribution infrastructure is required or used and future demand growth may be accommodated;

(B) to evaluate the economics of small-scale electrolysis for hydrogen production; and

(C) to study the potential of modular photovoltaic devices for the development of a hydrogen infrastructure, the security implications of a hydrogen infrastructure, and the benefits potentially derived from a hydrogen infrastructure.

(b) Wind Energy Technologies.—The Secretary shall—

(1) prepare a detailed roadmap for carrying out the provisions in this title related to wind energy technologies and for implementing the recommendations related to wind energy technologies that are included in the report transmitted under subsection (e); and

(2) provide for the establishment of 5 projects in geographic areas that are regionally and climatically diverse to demonstrate the production of hydrogen at existing wind energy facilities, including one demonstration project at a National Laboratory or institution of higher education.

(c) Program Support.—The Secretary shall support programs at institutions of higher education for the development of solar energy technologies and wind energy technologies for the production of hydrogen. The programs supported under this subsection shall—

(1) enhance fellowship and faculty assistance programs;

(2) provide support for fundamental research;

(3) encourage collaborative research among industry, National Laboratories, and institutions of higher education;

(4) support communication and outreach; and

(5) to the greatest extent possible—

(A) be located in geographic areas that are regionally and climatically diverse; and

(B) be located at part B institutions, minority institutions, and institutions of higher education located in States participating in the Experimental Program to Stimulate Competitive Research of the Department.

(d) Institutions of Higher Education and National Laboratory Interactions.—In conjunction with the programs supported under this section, the Secretary shall develop sabbatical, fellowship, and visiting scientist programs to encourage National Laboratories and institutions of higher education to share and exchange personnel.

(e) Report.—The Secretary shall transmit to the Congress not later than 120 days after the

date of enactment of this Act a report containing detailed summaries of the roadmaps prepared under subsections (a)(1) and (b)(1), descriptions of the Secretary's progress in establishing the projects and other programs required under this section, and recommendations for promoting the availability of advanced solor and wind energy technologies for the production of hydrogen.

(f) DEFINITIONS.—For purposes of this section—

(1) the term ''concentrating solar power devices'' means devices that concentrate the power of the sun by reflection or refraction to improve the efficiency of a photovoltaic or thermal generation process;

(2) the term ''minority institution'' has the meaning given to that term in section 365 of the Higher Education Act of 1965 (20 U.S.C. 1067k);

(3) the term ''part B institution'' has the meaning given to that term in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061); and

(4) the term ''photovoltaic devices'' means devices that convert light directly into electricity through a solid-state, semiconductor process.

(g) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated such sums as are necessary for carrying out the activities under this section for each of fiscal years 2006 through 2020.

SEC. 813. TECHNOLOGY TRANSFER.

In carrying out this title, the Secretary shall carry out programs that—

(1) provide for the transfer of critical hydrogen and fuel cell technologies to the private sector;

(2) accelerate wider application of those technologies in the global market;

(3) foster the exchange of generic, nonproprietary information; and

(4) assess technical and commercial viability of technologies relating to the production, distribution, storage, and use of hydrogen energy and fuel cells.

SEC. 814. MISCELLANEOUS PROVISIONS.

(a) REPRESENTATION.—The Secretary may represent the United States interests with respect to activities and programs under this title, in coordination with the Department of Transportation, the National Institute of Standards and Technology, and other relevant Federal agencies, before governments and nongovernmental organizations including—

(1) other Federal, State, regional, and local governments and their representatives;

(2) industry and its representatives, including members of the energy and transportation industries; and

(3) in consultation with the Department of State, foreign governments and their representatives including international organizations.

(b) REGULATORY AUTHORITY.—Nothing in this title shall be construed to alter the regulatory authority of the Department.

SEC. 815. COST SHARING.

The costs of carrying out projects and activities under this title shall be shared in accordance with section 988.

SEC. 816. SAVINGS CLAUSE.

Nothing in this title shall be construed to affect the authority of the Secretary of Transportation that may exist prior to the date of enactment of this Act with respect to—

(1) research into, and regulation of, hydrogen-powered vehicles fuel systems integrity, standards, and safety under subtitle VI of title 49, United States Code;

(2) regulation of hazardous materials transportation under chapter 51 of title 49, United States Code;

(3) regulation of pipeline safety under chapter 601 of title 49, United States Code;

(4) encouragement and promotion of research, development, and deployment activities relating to advanced vehicle technologies under section 5506 of title 49, United States Code;

(5) regulation of motor vehicle safety under chapter 301 of title 49, United States Code;

(6) automobile fuel economy under chapter 329 of title 49, United States Code; or

(7) representation of the interests of the United States with respect to the activities and programs under the authority of title 49, United States Code.

TITLE IX—RESEARCH AND DEVELOPMENT

SEC. 901. SHORT TITLE.

This title may be cited as the ''Energy Research, Development, Demonstration, and Commercial Application Act of 2005''.

SEC. 902. GOALS.

(a) IN GENERAL.—In order to achieve the purposes of this title, the Secretary shall conduct a balanced set of programs of energy research, development, demonstration, and commercial application with the general goals of—

(1) increasing the efficiency of all energy intensive sectors through conservation and improved technologies;

(2) promoting diversity of energy supply;

(3) decreasing the dependence of the United States on foreign energy supplies;

(4) improving the energy security of the United States; and

(5) decreasing the environmental impact of energy-related activities.

(b) GOALS.—The Secretary shall publish measurable cost and performance-based goals, comparable over time, with each annual budget submission in at least the following areas:

(1) Energy efficiency for buildings, energy-consuming industries, and vehicles.

(2) Electric energy generation (including distributed generation), transmission, and storage.

(3) Renewable energy technologies, including wind power, photovoltaics, solar thermal systems, geothermal energy, hydrogen-fueled systems, biomass-based systems, biofuels, and hydropower.

(4) Fossil energy, including power generation, onshore and offshore oil and gas resource recovery, and transportation fuels.

(5) Nuclear energy, including programs for existing and advanced reactors, and education of future specialists.

(c) PUBLIC COMMENT.—The Secretary shall provide mechanisms for input on the annually published goals from industry, institutions of higher education, and other public sources.

(d) EFFECT OF GOALS.—Nothing in subsection (a) or the annually published goals creates any new authority for any Federal agency, or may be used by any Federal agency, to support the establishment of regulatory standards or regulatory requirements.

SEC. 903. DEFINITIONS.

In this title:

(1) DEPARTMENTAL MISSION.—The term ''departmental mission'' means any of the functions vested in the Secretary by the Department of Energy Organization Act (42 U.S.C. 7101 et seq.) or other law.

(2) HISPANIC-SERVING INSTITUTION.—The term ''Hispanic-serving institution'' has the meaning given the term in section 502(a) of the Higher Education Act of 1965 (20 U.S.C. 1101a(a)).

(3) NONMILITARY ENERGY LABORATORY.—The term ''nonmilitary energy laboratory'' means a National Laboratory other than a National Laboratory listed in subparagraph (G), (H), or (N) of section 2(3).

(4) PART B INSTITUTION.—The term ''part B institution'' has the meaning given the term in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

(5) SINGLE-PURPOSE RESEARCH FACILITY.—The term ''single-purpose research facility'' means—

(A) any of the primarily single-purpose entities owned by the Department; or

(B) any other organization of the Department designated by the Secretary.

(6) UNIVERSITY.—The term ''university'' has the meaning given the term ''institution of higher education'' in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

Subtitle A—Energy Efficiency

SEC. 911. ENERGY EFFICIENCY.

(a) IN GENERAL.—

(1) OBJECTIVES.—The Secretary shall conduct programs of energy efficiency research, development, demonstration, and commercial application, including activities described in this subtitle. Such programs shall take into consideration the following objectives:

(A) Increasing the energy efficiency of vehicles, buildings, and industrial processes.

(B) Reducing the demand of the United States for energy, especially energy from foreign sources.

(C) Reducing the cost of energy and making the economy more efficient and competitive.

(D) Improving the energy security of the United States.

(E) Reducing the environmental impact of energy-related activities.

(2) PROGRAMS.—Programs under this subtitle shall include research, development, demonstration, and commercial application of—

(A) advanced, cost-effective technologies to improve the energy efficiency and environmental performance of vehicles, including—

(i) hybrid and electric propulsion systems;

(ii) plug-in hybrid systems;

(iii) advanced combustion engines;

(iv) weight and drag reduction technologies;

(v) whole-vehicle design optimization; and

(vi) advanced drive trains;

(B) cost-effective technologies, for new construction and retrofit, to improve the energy efficiency and environmental performance of buildings, using a whole-buildings approach, including onsite renewable energy generation;

(C) advanced technologies to improve the energy efficiency, environmental performance, and process efficiency of energy-intensive and waste-intensive industries; and

(D) advanced control devices to improve the energy efficiency of electric motors, including those used in industrial processes, heating, ventilation, and cooling.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out energy efficiency and conservation research, development, demonstration, and commercial application activities, including activities authorized under this subtitle—

(1) $783,000,000 for fiscal year 2007;

(2) $865,000,000 for fiscal year 2008; and

(3) $952,000,000 for fiscal year 2009.

(c) ALLOCATIONS.—From amounts authorized under subsection (b), the following sums are authorized:

(1) For activities under section 912, $50,000,000 for each of fiscal years 2007 through 2009.

(2) For activities under section 915, $7,000,000 for each of fiscal years 2007 through 2009.

(3) For activities under subsection (a)(2)(A)—

(A) $200,000,000 for fiscal year 2007;

(B) $270,000,000 for fiscal year 2008; and

(C) $310,000,000 for fiscal year 2009.

(4) For activities under subsection (a)(2)(D), $2,000,000 for each of fiscal years 2007 and 2008.

(d) EXTENDED AUTHORIZATION.—There are authorized to be appropriated to the Secretary to carry out section 912 $50,000,000 for each of fiscal years 2010 through 2013.

(e) LIMITATIONS.—None of the funds authorized to be appropriated under this section may be used for—

(1) the issuance or implementation of energy efficiency regulations;

(2) the weatherization program established under part A of title IV of the Energy Conservation and Production Act (42 U.S.C. 6861 et seq.);

(3) a State energy conservation plan established under part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.); or

(4) a Federal energy management measure carried out under part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.).

SEC. 912. NEXT GENERATION LIGHTING INITIATIVE.

(a) DEFINITIONS.—In this section:

(1) ADVANCED SOLID-STATE LIGHTING.—The term "advanced solid-state lighting" means a semiconducting device package and delivery system that produces white light using externally applied voltage.

(2) INDUSTRY ALLIANCE.—The term "Industry Alliance" means an entity selected by the Secretary under subsection (d).

(3) INITIATIVE.—The term "Initiative" means the Next Generation Lighting Initiative carried out under this section.

(4) RESEARCH.—The term "research" includes research on the technologies, materials, and manufacturing processes required for white light emitting diodes.

(5) WHITE LIGHT EMITTING DIODE.—The term "white light emitting diode" means a semiconducting package, using either organic or inorganic materials, that produces white light using externally applied voltage.

(b) INITIATIVE.—The Secretary shall carry out a Next Generation Lighting Initiative in accordance with this section to support research, development, demonstration, and commercial application activities related to advanced solid-state lighting technologies based on white light emitting diodes.

(c) OBJECTIVES.—The objectives of the Initiative shall be to develop advanced solid-state organic and inorganic lighting technologies based on white light emitting diodes that, compared to incandescent and fluorescent lighting technologies, are longer lasting, are more energy-efficient and cost-competitive, and have less environmental impact.

(d) INDUSTRY ALLIANCE.—Not later than 90 days after the date of enactment of this Act, the Secretary shall competitively select an Industry Alliance to represent participants who are private, for-profit firms, open to large and small businesses, that, as a group, are broadly representative of United States solid state lighting research, development, infrastructure, and manufacturing expertise as a whole.

(e) RESEARCH.—

(1) GRANTS.—The Secretary shall carry out the research activities of the Initiative through competitively awarded grants to—

(A) researchers, including Industry Alliance participants;

(B) small businesses;

(C) National Laboratories; and

(D) institutions of higher education.

(2) INDUSTRY ALLIANCE.—The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify solid-state lighting technology needs;

(B) an assessment of the progress of the research activities of the Initiative; and

(C) assistance in annually updating solid-state lighting technology roadmaps.

(3) AVAILABILITY TO PUBLIC.—The information and roadmaps under paragraph (2) shall be available to the public.

(f) DEVELOPMENT, DEMONSTRATION, AND COMMERCIAL APPLICATION.—

(1) IN GENERAL.—The Secretary shall carry out a development, demonstration, and commercial application program for the Initiative through competitively selected awards.

(2) PREFERENCE.—In making the awards, the Secretary may give preference to participants in the Industry Alliance.

(g) COST SHARING.—In carrying out this section, the Secretary shall require cost sharing in accordance with section 988.

(h) INTELLECTUAL PROPERTY.—The Secretary may require (in accordance with section 202(a)(ii) of title 35, United States Code, section 152 of the Atomic Energy Act of 1954 (42 U.S.C. 2182), and section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908)) that for any new invention developed under subsection (e)—

(1) that the Industry Alliance participants who are active participants in research, development, and demonstration activities related to the advanced solid-state lighting technologies that are covered by this section shall be granted the first option to negotiate with the invention owner, at least in the field of solid-state lighting, nonexclusive licenses and royalties on terms that are reasonable under the circumstances;

(2)(A) that, for 1 year after a United States patent is issued for the invention, the patent holder shall not negotiate any license or royalty with any entity that is not a participant in the Industry Alliance described in paragraph (1); and

(B) that, during the year described in subparagraph (A), the patent holder shall negotiate nonexclusive licenses and royalties in good faith with any interested participant in the Industry Alliance described in paragraph (1); and

(3) such other terms as the Secretary determines are required to promote accelerated commercialization of inventions made under the Initiative.

(i) NATIONAL ACADEMY REVIEW.—The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct periodic reviews of the Initiative.

SEC. 913. NATIONAL BUILDING PERFORMANCE INITIATIVE.

(a) INTERAGENCY GROUP.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Director of the Office of Science and Technology Policy shall establish an interagency group to develop, in coordination with the advisory committee established under subsection (e), a National Building Performance Initiative (referred to in this section as the "Initiative").

(2) COCHAIRS.—The interagency group shall be co-chaired by appropriate officials of the Department and the Department of Commerce, who shall jointly arrange for the provision of necessary administrative support to the group.

(b) INTEGRATION OF EFFORTS.—The Initiative shall integrate Federal, State, and voluntary private sector efforts to reduce the costs of construction, operation, maintenance, and renovation of commercial, industrial, institutional, and residential buildings.

(c) PLAN.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the interagency group shall submit to Congress a plan for carrying out the appropriate Federal role in the Initiative.

(2) INCLUSIONS.—The plan shall include—

(A) research, development, demonstration, and commercial application of energy technology systems and materials for new construction and retrofit relating to the building envelope and building system components;

(B) research, development, demonstration, and commercial application of energy technology and infrastructure enabling the energy efficient, automated operation of buildings and building equipment; and

(C) the collection, analysis, and dissemination of research results and other pertinent information on enhancing building performance to industry, government entities, and the public.

(d) DEPARTMENT OF ENERGY ROLE.—Within the Federal portion of the Initiative, the Department shall be the lead agency for all aspects of building performance related to use and conservation of energy.

(e) ADVISORY COMMITTEE.—The Director of the Office of Science and Technology Policy shall establish an advisory committee to—

(1) analyze and provide recommendations on potential private sector roles and participation in the Initiative; and

(2) review and provide recommendations on the plan described in subsection (c).

(f) ADMINISTRATION.—Nothing in this section provides any Federal agency with new authority to regulate building performance.

SEC. 914. BUILDING STANDARDS.

(a) DEFINITION OF HIGH PERFORMANCE BUILDING.—In this section, the term "high performance building" means a building that integrates and optimizes all major high-performance building attributes, including energy efficiency, durability, life-cycle performance, and occupant productivity.

(b) ASSESSMENT.—Not later than 120 days after the date of enactment of this Act, the Secretary shall enter into an agreement with the National Institute of Building Sciences to—

(1) conduct an assessment (in cooperation with industry, standards development organizations, and other entities, as appropriate) of whether the current voluntary consensus standards and rating systems for high performance buildings are consistent with the current technological state of the art, including relevant results from the research, development and demonstration activities of the Department;

(2) determine if additional research is required, based on the findings of the assessment; and

(3) recommend steps for the Secretary to accelerate the development of voluntary consensus-based standards for high performance buildings that are based on the findings of the assessment.

(c) GRANT AND TECHNICAL ASSISTANCE PROGRAM.—Consistent with subsection (b) and section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note), the Secretary shall establish a grant and technical assistance program to support the development of voluntary consensus-based standards for high performance buildings.

SEC. 915. SECONDARY ELECTRIC VEHICLE BATTERY USE PROGRAM.

(a) DEFINITIONS.—In this section:

(1) BATTERY.—The term "battery" means an energy storage device that previously has been used to provide motive power in a vehicle powered in whole or in part by electricity.

(2) ASSOCIATED EQUIPMENT.—The term "associated equipment" means equipment located where the batteries will be used that is necessary to enable the use of the energy stored in the batteries.

(b) PROGRAM.—

(1) IN GENERAL.—The Secretary shall establish and conduct a program of research, development, demonstration, and commercial application of energy technology for the secondary use of batteries, if the Secretary finds that there are sufficient numbers of batteries to support the program.

(2) ADMINISTRATION.—The program shall be—

(A) designed to demonstrate the use of batteries in secondary applications, including utility and commercial power storage and power quality;

(B) structured to evaluate the performance, including useful service life and costs, of such batteries in field operations, and the necessary supporting infrastructure, including reuse and disposal of batteries; and

(C) coordinated with ongoing secondary battery use programs at the National Laboratories and in industry.

(c) SOLICITATION.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary shall solicit proposals to demonstrate the secondary use of batteries and associated equipment and supporting infrastructure in geographic locations throughout the United States.

(2) ADDITIONAL SOLICITATIONS.—The Secretary may make additional solicitations for proposals if the Secretary determines that the solicitations are necessary to carry out this section.

(d) SELECTION OF PROPOSALS.—

(1) IN GENERAL.—Not later than 90 days after the closing date established by the Secretary for receipt of proposals under subsection (c), the Secretary shall select up to 5 proposals that may receive financial assistance under this section once the Department receives appropriated funds to carry out this section.

(2) FACTORS.—In selecting proposals, the Secretary shall consider—

(A) the diversity of battery type;

(B) geographic and climatic diversity; and

(C) life-cycle environmental effects of the approaches.

(3) LIMITATION.—No 1 project selected under this section shall receive more than 25 percent of the funds made available to carry out the program under this section.

(4) NON-FEDERAL INVOLVEMENT.—In selecting proposals, the Secretary shall consider the extent of involvement of State or local government and other persons in each demonstration project to optimize use of Federal resources.

(5) OTHER CRITERIA.—In selecting proposals, the Secretary may consider such other criteria as the Secretary considers appropriate.

(e) CONDITIONS.—In carrying out this section, the Secretary shall require that—

(1) relevant information be provided to—

(A) the Department;

(B) the users of the batteries;

(C) the proposers of a project under this section; and

(D) the battery manufacturers; and

(2) the costs of carrying out projects and activities under this section are shared in accordance with section 988.

SEC. 916. ENERGY EFFICIENCY SCIENCE INITIATIVE.

(a) ESTABLISHMENT.—The Secretary shall establish an Energy Efficiency Science Initiative to be managed by the Assistant Secretary in the Department with responsibility for energy conservation under section 203(a)(9) of the Department of Energy Organization Act (42 U.S.C. 7133(a)(9)), in consultation with the Director of the Office of Science, for grants to be competitively awarded and subject to peer review for research relating to energy efficiency.

(b) REPORT.—The Secretary shall submit to Congress, along with the annual budget request of the President submitted to Congress, a report on the activities of the Energy Efficiency Science Initiative, including a description of the process used to award the funds and an explanation of how the research relates to energy efficiency.

SEC. 917. ADVANCED ENERGY EFFICIENCY TECHNOLOGY TRANSFER CENTERS.

(a) GRANTS.—Not later than 18 months after the date of enactment of this Act, the Secretary shall make grants to nonprofit institutions, State and local governments, or universities (or consortia thereof), to establish a geographically dispersed network of Advanced Energy Efficiency Technology Transfer Centers, to be located in areas the Secretary determines have the greatest need of the services of such Centers. In establishing the network, the Secretary shall consider the special needs and opportunities for increased energy efficiency for manufactured and site-built housing.

(b) ACTIVITIES.—

(1) IN GENERAL.—Each Center shall operate a program to encourage demonstration and commercial application of advanced energy methods and technologies through education and outreach to building and industrial professionals, and to other individuals and organizations with an interest in efficient energy use.

(2) ADVISORY PANEL.—Each Center shall establish an advisory panel to advise the Center on how best to accomplish the activities under paragraph (1).

(c) APPLICATION.—A person seeking a grant under this section shall submit to the Secretary an application in such form and containing such information as the Secretary may require. The Secretary may award a grant under this section to an entity already in existence if the entity is otherwise eligible under this section.

(d) SELECTION CRITERIA.—The Secretary shall award grants under this section on the basis of the following criteria, at a minimum:

(1) The ability of the applicant to carry out the activities described in subsection (b)(1).

(2) The extent to which the applicant will coordinate the activities of the Center with other entities, such as State and local governments, utilities, and educational and research institutions.

(e) COST-SHARING.—In carrying out this section, the Secretary shall require cost-sharing in accordance with the requirements of section 988 for commercial application activities.

(f) ADVISORY COMMITTEE.—The Secretary shall establish an advisory committee to advise the Secretary on the establishment of Centers under this section. The advisory committee shall be composed of individuals with expertise in the area of advanced energy methods and technologies, including at least 1 representative from—

(1) State or local energy offices;

(2) energy professionals;

(3) trade or professional associations;

(4) architects, engineers, or construction professionals;

(5) manufacturers;

(6) the research community; and

(7) nonprofit energy or environmental organizations.

(g) DEFINITIONS.—For purposes of this section:

(1) ADVANCED ENERGY METHODS AND TECHNOLOGIES.—The term "advanced energy methods and technologies" means all methods and technologies that promote energy efficiency and conservation, including distributed generation technologies, and life-cycle analysis of energy use.

(2) CENTER.—The term "Center" means an Advanced Energy Technology Transfer Center established pursuant to this section.

(3) DISTRIBUTED GENERATION.—The term "distributed generation" means an electric power generation facility that is designed to serve retail electric consumers at or near the facility site.

(h) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts otherwise authorized to be appropriated in section 911, there are authorized to be appropriated for the program under this section such sums as may be appropriated.

Subtitle B—Distributed Energy and Electric Energy Systems

SEC. 921. DISTRIBUTED ENERGY AND ELECTRIC ENERGY SYSTEMS.

(a) IN GENERAL.—The Secretary shall carry out programs of research, development, demonstration, and commercial application on distributed energy resources and systems reliability and efficiency, to improve the reliability and efficiency of distributed energy resources and systems, integrating advanced energy technologies with grid connectivity, including activities described in this subtitle. The programs shall address advanced energy technologies and systems and advanced grid reliability technologies.

(b) AUTHORIZATION OF APPROPRIATIONS.—

(1) DISTRIBUTED ENERGY AND ELECTRIC ENERGY SYSTEMS ACTIVITIES.—There are authorized to be appropriated to the Secretary to carry out distributed energy and electric energy systems activities, including activities authorized under this subtitle—

(A) $240,000,000 for fiscal year 2007;

(B) $255,000,000 for fiscal year 2008; and

(C) $273,000,000 for fiscal year 2009.

(2) POWER DELIVERY RESEARCH INITIATIVE.—There are authorized to be appropriated to the Secretary to carry out the Power Delivery Research Initiative under subsection 925(e) such sums as may be necessary for each of fiscal years 2007 through 2009.

(c) MICRO-COGENERATION ENERGY TECHNOLOGY.—From amounts authorized under subsection (b), $20,000,000 for each of fiscal years 2007 and 2008 shall be available to carry out activities under section 923.

(d) HIGH-VOLTAGE TRANSMISSION LINES.—From amounts authorized under subsection (b), $2,000,000 for fiscal year 2007 shall be available to carry out activities under section 925(g).

SEC. 922. HIGH POWER DENSITY INDUSTRY PROGRAM.

(a) IN GENERAL.—The Secretary shall establish a comprehensive research, development, demonstration, and commercial application to improve the energy efficiency of high power density facilities, including data centers, server farms, and telecommunications facilities.

(b) TECHNOLOGIES.—The program shall consider technologies that provide significant improvement in thermal controls, metering, load management, peak load reduction, or the efficient cooling of electronics.

SEC. 923. MICRO-COGENERATION ENERGY TECHNOLOGY.

(a) IN GENERAL.—The Secretary shall make competitive, merit-based grants to consortia for the development of micro-cogeneration energy technology.

(b) USES.—The consortia shall explore—

(1) the use of small-scale combined heat and power in residential heating appliances;

(2) the use of excess power to operate other appliances within the residence; and

(3) the supply of excess generated power to the power grid.

SEC. 924. DISTRIBUTED ENERGY TECHNOLOGY DEMONSTRATION PROGRAMS.

(a) COORDINATING CONSORTIA PROGRAM.—The Secretary may provide financial assistance to coordinating consortia of interdisciplinary participants for demonstrations designed to accelerate the use of distributed energy technologies (such as fuel cells, microturbines, reciprocating engines, thermally activated technologies, and combined heat and power systems) in highly energy intensive commercial applications.

(b) SMALL-SCALE PORTABLE POWER PROGRAM.—

(1) IN GENERAL.—The Secretary shall—

(A) establish a research, development, and demonstration program to develop working models of small scale portable power devices; and

(B) to the fullest extent practicable, identify and utilize the resources of universities that have shown expertise with respect to advanced portable power devices for either civilian or military use.

(2) ORGANIZATION.—The universities identified and utilized under paragraph (1)(B) are authorized to establish an organization to promote small scale portable power devices.

(3) DEFINITION.—For purposes of this subsection, the term "small scale portable power device" means a field-deployable portable mechanical or electromechanical device that can be used for applications such as communications, computation, mobility enhancement, weapons systems, optical devices, cooling, sensors, medical devices, and active biological agent detection systems.

SEC. 925. ELECTRIC TRANSMISSION AND DISTRIBUTION PROGRAMS.

(a) Program.—The Secretary shall establish a comprehensive research, development, and demonstration program to ensure the reliability, efficiency, and environmental integrity of electrical transmission and distribution systems, which shall include—

(1) advanced energy delivery technologies, energy storage technologies, materials, and systems, giving priority to new transmission technologies, including composite conductor materials and other technologies that enhance reliability, operational flexibility, or power-carrying capability;

(2) advanced grid reliability and efficiency technology development;

(3) technologies contributing to significant load reductions;

(4) advanced metering, load management, and control technologies;

(5) technologies to enhance existing grid components;

(6) the development and use of high-temperature superconductors to—

(A) enhance the reliability, operational flexibility, or power-carrying capability of electric transmission or distribution systems; or

(B) increase the efficiency of electric energy generation, transmission, distribution, or storage systems;

(7) integration of power systems, including systems to deliver high-quality electric power, electric power reliability, and combined heat and power;

(8) supply of electricity to the power grid by small scale, distributed and residential-based power generators;

(9) the development and use of advanced grid design, operation, and planning tools;

(10) any other infrastructure technologies, as appropriate; and

(11) technology transfer and education.

(b) Program Plan.—

(1) In general.—Not later than 1 year after the date of enactment of this Act, the Secretary, in consultation with other appropriate Federal agencies, shall prepare and submit to Congress a 5-year program plan to guide activities under this section.

(2) Consultation.—In preparing the program plan, the Secretary shall consult with—

(A) utilities;

(B) energy service providers;

(C) manufacturers;

(D) institutions of higher education;

(E) other appropriate State and local agencies;

(F) environmental organizations;

(G) professional and technical societies; and

(H) any other persons the Secretary considers appropriate.

(c) Implementation.—The Secretary shall consider implementing the program under this section using a consortium of participants from industry, institutions of higher education, and National Laboratories.

(d) Report.—Not later than 2 years after the submission of the plan under subsection (b), the Secretary shall submit to Congress a report—

(1) describing the progress made under this section; and

(2) identifying any additional resources needed to continue the development and commercial application of transmission and distribution of infrastructure technologies.

(e) Power Delivery Research Initiative.—

(1) In general.—The Secretary shall establish a research, development, and demonstration initiative specifically focused on power delivery using components incorporating high temperature superconductivity.

(2) Goals.—The goals of the Initiative shall be—

(A) to establish world-class facilities to develop high temperature superconductivity power applications in partnership with manufacturers and utilities;

(B) to provide technical leadership for establishing reliability for high temperature superconductivity power applications, including suitable modeling and analysis;

(C) to facilitate the commercial transition toward direct current power transmission, storage, and use for high power systems using high temperature superconductivity; and

(D) to facilitate the integration of very low impedance high temperature superconducting wires and cables in existing electric networks to improve system performance, power flow control, and reliability.

(3) Inclusions.—The Initiative shall include—

(A) feasibility analysis, planning, research, and design to construct demonstrations of superconducting links in high power, direct current, and controllable alternating current transmission systems;

(B) public-private partnerships to demonstrate deployment of high temperature superconducting cable into testbeds simulating a realistic transmission grid and under varying transmission conditions, including actual grid insertions; and

(C) testbeds developed in cooperation with National Laboratories, industries, and institutions of higher education to—

(i) demonstrate those technologies;

(ii) prepare the technologies for commercial introduction; and

(iii) address cost or performance roadblocks to successful commercial use.

(f) Transmission and Distribution Grid Planning and Operations Initiative.—

(1) In general.—The Secretary shall establish a research, development, and demonstration initiative specifically focused on tools needed to plan, operate, and expand the transmission and distribution grids in the presence of competitive market mechanisms for energy, load demand, customer response, and ancillary services.

(2) Goals.—The goals of the Initiative shall be—

(A)(i) to develop and use a geographically distributed center, consisting of institutions of higher education, and National Laboratories, with expertise and facilities to develop the underlying theory and software for power system application; and

(ii) to ensure commercial development in partnership with software vendors and utilities;

(B) to provide technical leadership in engineering and economic analysis for the reliability and efficiency of power systems planning and operations in the presence of competitive markets for electricity;

(C) to model, simulate, and experiment with new market mechanisms and operating practices to understand and optimize those new methods before actual use; and

(D) to provide technical support and technology transfer to electric utilities and other participants in the domestic electric industry and marketplace.

(g) High-voltage Transmission Lines.—As part of the program described in subsection (a), the Secretary shall award a grant to a university research program to design and test, in consultation with the Tennessee Valley Authority, state-of-the-art optimization techniques for power flow through existing high voltage transmission lines.

Subtitle C—Renewable Energy

SEC. 931. RENEWABLE ENERGY.

(a) In General.—

(1) Objectives.—The Secretary shall conduct programs of renewable energy research, development, demonstration, and commercial application, including activities described in this subtitle. Such programs shall take into consideration the following objectives:

(A) Increasing the conversion efficiency of all forms of renewable energy through improved technologies.

(B) Decreasing the cost of renewable energy generation and delivery.

(C) Promoting the diversity of the energy supply.

(D) Decreasing the dependence of the United States on foreign energy supplies.

(E) Improving United States energy security.

(F) Decreasing the environmental impact of energy-related activities.

(G) Increasing the export of renewable generation equipment from the United States.

(2) Programs.—

(A) Solar energy.—The Secretary shall conduct a program of research, development, demonstration, and commercial application for solar energy, including—

(i) photovoltaics;

(ii) solar hot water and solar space heating;

(iii) concentrating solar power;

(iv) lighting systems that integrate sunlight and electrical lighting in complement to each other in common lighting fixtures for the purpose of improving energy efficiency;

(v) manufacturability of low cost high, quality solar systems; and

(vi) development of products that can be easily integrated into new and existing buildings.

(B) Wind energy.—The Secretary shall conduct a program of research, development, demonstration, and commercial application for wind energy, including—

(i) low speed wind energy;

(ii) offshore wind energy;

(iii) testing and verification (including construction and operation of a research and testing facility capable of testing wind turbines); and

(iv) distributed wind energy generation.

(C) Geothermal.—The Secretary shall conduct a program of research, development, demonstration, and commercial application for geothermal energy. The program shall focus on developing improved technologies for reducing the costs of geothermal energy installations, including technologies for—

(i) improving detection of geothermal resources;

(ii) decreasing drilling costs;

(iii) decreasing maintenance costs through improved materials;

(iv) increasing the potential for other revenue sources, such as mineral production; and

(v) increasing the understanding of reservoir life cycle and management.

(D) Hydropower.—The Secretary shall conduct a program of research, development, demonstration, and commercial application for cost competitive technologies that enable the development of new and incremental hydropower capacity, adding to the diversity of the energy supply of the United States, including:

(i) Fish-friendly large turbines.

(ii) Advanced technologies to enhance environmental performance and yield greater energy efficiencies.

(E) Miscellaneous projects.—The Secretary shall conduct research, development, demonstration, and commercial application programs for—

(i) ocean energy, including wave energy;

(ii) the combined use of renewable energy technologies with one another and with other energy technologies, including the combined use of wind power and coal gasification technologies;

(iii) renewable energy technologies for cogeneration of hydrogen and electricity; and

(iv) kinetic hydro turbines.

(b) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary to carry out renewable energy research, development, demonstration, and commercial application activities, including activities authorized under this subtitle—

(1) $632,000,000 for fiscal year 2007;

(2) $743,000,000 for fiscal year 2008; and

(3) $852,000,000 for fiscal year 2009.

(c) BIOENERGY.—From the amounts authorized under subsection (b), there are authorized to be appropriated to carry out section 932—

(1) $213,000,000 for fiscal year 2007, of which $100,000,000 shall be for section 932 (d);

(2) $251,000,000 for fiscal year 2008, of which $125,000,000 shall be for section 932 (d); and

(3) $274,000,000 for fiscal year 2009, of which $150,000,000 shall be for section 932 (d) .

(d) SOLAR POWER.—From amounts authorized under subsection (b), there is authorized to be appropriated to carry out activities under subsection (a)(2)(A)—

(1) $140,000,000 for fiscal year 2007, of which $40,000,000 shall be for activities under section 935;

(2) $200,000,000 for fiscal year 2008, of which $50,000,000 shall be for activities under section 935; and

(3) $250,000,000 for fiscal year 2009, of which $50,000,000 shall be for activities under section 935.

(e) ADMINISTRATION.—Of the funds authorized under subsection (c), not less than $5,000,000 for each fiscal year shall be made available for grants to—

(1) part B institutions;

(2) Tribal Colleges or Universities (as defined in section 316(b) of the Higher Education Act of 1965 (20 U.S.C. 1059c(b))); and

(3) Hispanic-serving institutions.

(f) RURAL DEMONSTRATION PROJECTS.—In carrying out this section, the Secretary, in consultation with the Secretary of Agriculture, shall demonstrate the use of renewable energy technologies to assist in delivering electricity to rural and remote locations including —

(1) advanced wind power technology, including combined use with coal gasification;

(2) biomass; and

(3) geothermal energy systems.

(g) ANALYSIS AND EVALUATION.—

(1) IN GENERAL.—The Secretary shall conduct analysis and evaluation in support of the renewable energy programs under this subtitle. These activities shall be used to guide budget and program decisions, and shall include—

(A) economic and technical analysis of renewable energy potential, including resource assessment;

(B) analysis of past program performance, both in terms of technical advances and in market introduction of renewable energy; and

(C) any other analysis or evaluation that the Secretary considers appropriate.

(2) FUNDING.—The Secretary may designate up to 1 percent of the funds appropriated for carrying out this subtitle for analysis and evaluation activities under this subsection.

SEC. 932. BIOENERGY PROGRAM.

(a) DEFINITIONS.—In this section:

(1) BIOMASS.—The term "biomass" means—

(A) any organic material grown for the purpose of being converted to energy;

(B) any organic byproduct of agriculture (including wastes from food production and processing) that can be converted into energy; or

(C) any waste material that can be converted to energy, is segregated from other waste materials, and is derived from–

(i) any of the following forest-related resources: mill residues, precommercial thinnings, slash, brush, or otherwise nonmerchantable material; or

(ii) wood waste materials, including waste pallets, crates, dunnage, manufacturing and construction wood wastes (other than pressure-treated, chemically-treated, or painted wood wastes), and landscape or right-of-way tree trimmings, but not including municipal solid waste, gas derived from the biodegradation of municipal solid waste, or paper that is commonly recycled.

(2) LIGNOCELLULOSIC FEEDSTOCK.—The term "lignocellulosic feedstock" means any portion of a plant or coproduct from conversion, including crops, trees, forest residues, and agricultural residues not specifically grown for food, including from barley grain, grapeseed, rice bran, rice hulls, rice straw, soybean matter, and sugarcane bagasse.

(b) PROGRAM.—The Secretary shall conduct a program of research, development, demonstration, and commercial application for bioenergy, including—

(1) biopower energy systems;

(2) biofuels;

(3) bioproducts;

(4) integrated biorefineries that may produce biopower, biofuels, and bioproducts;

(5) cross-cutting research and development in feedstocks; and

(6) economic analysis.

(c) BIOFUELS AND BIOPRODUCTS.—The goals of the biofuels and bioproducts programs shall be to develop, in partnership with industry and institutions of higher education—

(1) advanced biochemical and thermochemical conversion technologies capable of making fuels from lignocellulosic feedstocks that are price-competitive with gasoline or diesel in either internal combustion engines or fuel cell-powered vehicles;

(2) advanced biotechnology processes capable of making biofuels and bioproducts with emphasis on development of biorefinery technologies using enzyme-based processing systems;

(3) advanced biotechnology processes capable of increasing energy production from lignocellulosic feedstocks, with emphasis on reducing the dependence of industry on fossil fuels in manufacturing facilities; and

(4) other advanced processes that will enable the development of cost-effective bioproducts, including biofuels.

(d) INTEGRATED BIOREFINERY DEMONSTRATION PROJECTS.—

(1) IN GENERAL.—The Secretary shall carry out a program to demonstrate the commercial application of integrated biorefineries. The Secretary shall ensure geographical distribution of biorefinery demonstrations under this subsection. The Secretary shall not provide more than $100,000,000 under this subsection for any single biorefinery demonstration. In making awards under this subsection, the Secretary shall encourage—

(A) the demonstration of a wide variety of lignocellulosic feedstocks;

(B) the commercial application of biomass technologies for a variety of uses, including—

(i) liquid transportation fuels;

(ii) high-value biobased chemicals;

(iii) substitutes for petroleum-based feedstocks and products; and

(iv) energy in the form of electricity or useful heat; and

(C) the demonstration of the collection and treatment of a variety of biomass feedstocks.

(2) PROPOSALS.—Not later than 6 months after the date of enactment of this Act, the Secretary shall solicit proposals for demonstration of advanced biorefineries. The Secretary shall select only proposals that—

(A) demonstrate that the project will be able to operate profitably without direct Federal subsidy after initial construction costs are paid; and

(B) enable the biorefinery to be easily replicated.

(e) UNIVERSITY BIODIESEL PROGRAM.—The Secretary shall establish a demonstration program to determine the feasibility of the operation of diesel electric power generators, using biodiesel fuels with ratings as high as B100, at electric generation facilities owned by institutions of higher education. The program shall examine—

(1) heat rates of diesel fuels with large quantities of cellulosic content;

(2) the reliability of operation of various fuel blends;

(3) performance in cold or freezing weather;

(4) stability of fuel after extended storage; and

(5) other criteria, as determined by the Secretary.

SEC. 933. LOW-COST RENEWABLE HYDROGEN AND INFRASTRUCTURE FOR VEHICLE PROPULSION.

The Secretary shall—

(1) establish a research, development, and demonstration program to determine the feasibility of using hydrogen propulsion in light-weight vehicles and the integration of the associated hydrogen production infrastructure using off-the-shelf components; and

(2) identify universities and institutions that—

(A) have expertise in researching and testing vehicles fueled by hydrogen, methane, and other fuels;

(B) have expertise in integrating off-the-shelf components to minimize cost; and

(C) within 2 years can test a vehicle based on an existing commercially available platform with a curb weight of not less than 2,000 pounds before modifications, that—

(i) operates solely on hydrogen;

(ii) qualifies as a light-duty passenger vehicle; and

(iii) uses hydrogen produced from water using only solar energy.

SEC. 934. CONCENTRATING SOLAR POWER RESEARCH PROGRAM.

(a) IN GENERAL.—The Secretary shall conduct a program of research and development to evaluate the potential for concentrating solar power for hydrogen production, including cogeneration approaches for both hydrogen and electricity.

(b) ADMINISTRATION.—The program shall take advantage of existing facilities to the extent practicable and shall include—

(1) development of optimized technologies that are common to both electricity and hydrogen production;

(2) evaluation of thermochemical cycles for hydrogen production at the temperatures attainable with concentrating solar power;

(3) evaluation of materials issues for the thermochemical cycles described in paragraph (2);

(4) cogeneration of solar thermal electric power and photo-synthetic-based hydrogen production;

(5) system architectures and economics studies; and

(6) coordination with activities under the Next Generation Nuclear Plant Project established under subtitle C of title VI on high temperature materials, thermochemical cycles, and economic issues.

(c) ASSESSMENT.—In carrying out the program under this section, the Secretary shall—

(1) assess conflicting guidance on the economic potential of concentrating solar power for electricity production received from the National Research Council in the report entitled "Renewable Power Pathways: A Review of the U.S. Department of Energy's Renewable Energy Programs" and dated 2000 and subsequent reviews of that report funded by the Department; and

(2) provide an assessment of the potential impact of technology used to concentrate solar power for electricity before, or concurrent with, submission of the budget for fiscal year 2008.

(d) REPORT.—Not later than 5 years after the date of enactment of this Act, the Secretary shall provide to Congress a report on the economic and technical potential for electricity or *hydrogen production, with or without cogeneration, with concentrating solar power, including the economic and technical feasibility of potential construction of a pilot demonstration facility suitable for commercial production of electricity or hydrogen from concentrating solar power.*

SEC. 935. RENEWABLE ENERGY IN PUBLIC BUILDINGS.

(a) Demonstration and Technology Transfer Program.—The Secretary shall establish a program for the demonstration of innovative technologies for solar and other renewable energy sources in buildings owned or operated by a State or local government, and for the dissemination of information resulting from such demonstration to interested parties.

(b) Limit on Federal Funding.—Notwithstanding section 988, the Secretary shall provide under this section no more than 40 percent of the incremental costs of the solar or other renewable energy source project funded.

(c) Requirements.—As part of the application for awards under this section, the Secretary shall require all applicants—

(1) to demonstrate a continuing commitment to the use of solar and other renewable energy sources in buildings they own or operate; and

(2) to state how they expect any award to further their transition to the significant use of renewable energy.

Subtitle D—Agricultural Biomass Research and Development Programs

SEC. 941. AMENDMENTS TO THE BIOMASS RESEARCH AND DEVELOPMENT ACT OF 2000.

(a) Definitions.—Section 303 of the Biomass Research and Development Act of 2000 (Public Law 106-224; 7 U.S.C. 8101 note) is amended—

(1) by striking paragraphs (2), (9), and (10);

(2) by redesignating paragraphs (3), (4), (5), (6), (7), and (8) as paragraphs (4), (5), (7), (8), (9), and (10), respectively;

(3) by inserting after paragraph (1) the following:

"(2) Biobased fuel.—The term 'biobased fuel' means any transportation fuel produced from biomass.

"(3) Biobased product.—The term 'biobased product' means an industrial product (including chemicals, materials, and polymers) produced from biomass, or a commercial or industrial product (including animal feed and electric power) derived in connection with the conversion of biomass to fuel.";

(4) by inserting after paragraph (5) (as redesignated by paragraph (2)) the following:

"(6) Demonstration.—The term 'demonstration' means demonstration of technology in a pilot plant or semi-works scale facility."; and

(5) by striking paragraph (9) (as redesignated by paragraph (2)) and inserting the following:

"(9) National laboratory.—The term 'National Laboratory' has the meaning given that term in section 2 of the Energy Policy Act of 2005."

(b) Cooperation and Coordination in Biomass Research and Development.—Section 304 of the Biomass Research and Development Act of 2000 (Public Law 106-224; 7 U.S.C. 8101 note) is amended—

(1) in subsections (a) and (d), by striking "industrial products" each place it appears and inserting "fuels and biobased products";

(2) by striking subsections (b) and (c); and

(3) by redesignating subsection (d) as subsection (b).

(c) Biomass Research and Development Board.—Section 305 of the Biomass Research and Development Act of 2000 (Public Law 106-224; 7 U.S.C. 8101 note) is amended—

(1) in subsections (a) and (c), by striking "industrial products" each place it appears and inserting "fuels and biobased products";

(2) in subsection (b)—

(A) in paragraph (1), by striking "304(d)(1)(B)" and inserting "304(b)(1)(B)"; and

(B) in paragraph (2), by striking "304(d)(1)(A)" and inserting "304(b)(1)(A)"; and

(3) in subsection (c)—

(A) in paragraph (1)(B), by striking "and" at the end;

(B) in paragraph (2), by striking the period at the end and inserting a semicolon; and

(C) by adding at the end the following:

"(3) ensure that—

"(A) solicitations are open and competitive with awards made annually; and

"(B) objectives and evaluation criteria of the solicitations are clearly stated and minimally prescriptive, with no areas of special interest; and

"(4) ensure that the panel of scientific and technical peers assembled under section 307(g)(1)(C) to review proposals is composed predominantly of independent experts selected from outside the Departments of Agriculture and Energy.".

(d) Biomass Research and Development Technical Advisory Committee.—Section 306 of the Biomass Research and Development Act of 2000 (Public Law 106–224; 7 U.S.C. 8101 note) is amended—

(1) in subsection (b)(1)—

(A) in subparagraph (A), by striking "biobased industrial products" and inserting "biofuels";

(B) by redesignating subparagraphs (B) through (J) as subparagraphs (C) through (K), respectively;

(C) by inserting after subparagraph (A) the following:

"(B) an individual affiliated with the biobased industrial and commercial products industry;";

(D) in subparagraph (F) (as redesignated by subparagraph (B)) by striking "an individual has" and inserting "2 individuals have";

(E) in subparagraphs (C), (D), (G), and (I) (as redesignated by subparagraph (B)) by striking "industrial products" each place it appears and inserting "fuels and biobased products"; and

(F) in subparagraph (H) (as redesignated by subparagraph (B)), by inserting "and environmental" before "analysis";

(2) in subsection (c)(2)—

(A) in subparagraph (A), by striking "goals" and inserting "objectives, purposes, and considerations";

(B) by redesignating subparagraphs (B) and (C) as subparagraphs (C) and (D), respectively;

(C) by inserting after subparagraph (A) the following:

"(B) solicitations are open and competitive with awards made annually and that objectives and evaluation criteria of the solicitations are clearly stated and minimally prescriptive, with no areas of special interest;"; and

(D) in subparagraph (C) (as redesignated by subparagraph (B)) by inserting "predominantly from outside the Departments of Agriculture and Energy" after "technical peers".

(e) Biomass Research and Development Initiative.—Section 307 of the Biomass Research and Development Act of 2000 (Public Law 106–224; 7 U.S.C. 8101 note) is amended—

(1) in subsection (a), by striking "research on biobased industrial products" and inserting "research on, and development and demonstration of, biobased fuels and biobased products, and the methods, practices and technologies, for their production"; and

(2) by striking subsections (b) through (e) and inserting the following:

"(b) Objectives.—The objectives of the Initiative are to develop—

"(1) technologies and processes necessary for abundant commercial production of biobased fuels at prices competitive with fossil fuels;

"(2) high-value biobased products—

"(A) to enhance the economic viability of biobased fuels and power; and

"(B) as substitutes for petroleum-based feedstocks and products; and

"(3) a diversity of sustainable domestic sources of biomass for conversion to biobased fuels and biobased products.

"(c) Purposes.—The purposes of the Initiative are—

"(1) to increase the energy security of the United States;

"(2) to create jobs and enhance the economic development of the rural economy;

"(3) to enhance the environment and public health; and

"(4) to diversify markets for raw agricultural and forestry products.

"(d) Technical Areas.—To advance the objectives and purposes of the Initiative, the Secretary of Agriculture and the Secretary of Energy, in consultation with the Administrator of the Environmental Protection Agency and heads of other appropriate departments and agencies (referred to in this section as the 'Secretaries'), shall direct research and development toward—

"(1) feedstock production through the development of crops and cropping systems relevant to production of raw materials for conversion to biobased fuels and biobased products, including—

"(A) development of advanced and dedicated crops with desired features, including enhanced productivity, broader site range, low requirements for chemical inputs, and enhanced processing;

"(B) advanced crop production methods to achieve the features described in subparagraph (A);

"(C) feedstock harvest, handling, transport, and storage; and

"(D) strategies for integrating feedstock production into existing managed land;

"(2) overcoming recalcitrance of cellulosic biomass through developing technologies for converting cellulosic biomass into intermediates that can subsequently be converted into biobased fuels and biobased products, including—

"(A) pretreatment in combination with enzymatic or microbial hydrolysis; and

"(B) thermochemical approaches, including gasification and pyrolysis;

"(3) product diversification through technologies relevant to production of a range of biobased products (including chemicals, animal feeds, and cogenerated power) that eventually can increase the feasibility of fuel production in a biorefinery, including—

"(A) catalytic processing, including thermochemical fuel production;

"(B) metabolic engineering, enzyme engineering, and fermentation systems for biological production of desired products or cogeneration of power;

"(C) product recovery;

"(D) power production technologies; and

"(E) integration into existing biomass processing facilities, including starch ethanol plants, paper mills, and power plants; and

"(4) analysis that provides strategic guidance for the application of biomass technologies in accordance with realization of improved sustainability and environmental quality, cost effectiveness, security, and rural economic development, usually featuring system-wide approaches.

"(e) Additional Considerations.—Within the technical areas described in subsection (d), and in addition to advancing the purposes described in subsection (c) and the objectives described in subsection (b), the Secretaries shall support research and development—

"(1) to create continuously expanding opportunities for participants in existing biofuels production by seeking synergies and continuity

with current technologies and practices, such as the use of dried distillers grains as a bridge feedstock;

"(2) to maximize the environmental, economic, and social benefits of production of biobased fuels and biobased products on a large scale through life-cycle economic and environmental analysis and other means; and

"(3) to assess the potential of Federal land and land management programs as feedstock resources for biobased fuels and biobased products, consistent with the integrity of soil and water resources and with other environmental considerations.

"(f) ELIGIBLE ENTITIES.—To be eligible for a grant, contract, or assistance under this section, an applicant shall be—

"(1) an institution of higher education;

"(2) a National Laboratory;

"(3) a Federal research agency;

"(4) a State research agency;

"(5) a private sector entity;

"(6) a nonprofit organization; or

"(7) a consortium of 2 of more entities described in paragraphs (1) through (6).

"(g) ADMINISTRATION.—

"(1) IN GENERAL.—After consultation with the Board, the points of contact shall—

"(A) publish annually 1 or more joint requests for proposals for grants, contracts, and assistance under this section;

"(B) require that grants, contracts, and assistance under this section be awarded competitively, on the basis of merit, after the establishment of procedures that provide for scientific peer review by an independent panel of scientific and technical peers; and

"(C) give some preference to applications that—

"(i) involve a consortia of experts from multiple institutions;

"(ii) encourage the integration of disciplines and application of the best technical resources; and

"(iii) increase the geographic diversity of demonstration projects.

"(2) DISTRIBUTION OF FUNDING BY TECHNICAL AREA.—Of the funds authorized to be appropriated for activities described in this section, funds shall be distributed for each of fiscal years 2007 through 2010 so as to achieve an approximate distribution of—

"(A) 20 percent of the funds to carry out activities for feedstock production under subsection (d)(1);

"(B) 45 percent of the funds to carry out activities for overcoming recalcitrance of cellulosic biomass under subsection (d)(2);

"(C) 30 percent of the funds to carry out activities for product diversification under subsection (d)(3); and

"(D) 5 percent of the funds to carry out activities for strategic guidance under subsection (d)(4).

"(3) DISTRIBUTION OF FUNDING WITHIN EACH TECHNICAL AREA.—Within each technical area described in paragraphs (1) through (3) of subsection (d), funds shall be distributed for each of fiscal years 2007 through 2010 so as to achieve an approximate distribution of—

"(A) 15 percent of the funds for applied fundamentals;

"(B) 35 percent of the funds for innovation; and

"(C) 50 percent of the funds for demonstration.

"(4) MATCHING FUNDS.—

"(A) IN GENERAL.—A minimum 20 percent funding match shall be required for demonstration projects under this title.

"(B) COMMERCIAL APPLICATIONS.—A minimum of 50 percent funding match shall be required for commercial application projects under this title.

"(5) TECHNOLOGY AND INFORMATION TRANSFER TO AGRICULTURAL USERS.—The Administrator of the Cooperative State Research, Education, and Extension Service and the Chief of the Natural Resources Conservation Service shall ensure that applicable research results and technologies from the Initiative are adapted, made available, and disseminated through those services, as appropriate.".

(f) ANNUAL REPORTS.—Section 309 of the Biomass Research and Development Act of 2000 (Public Law 106–224; 7 U.S.C. 8101 note) is amended—

(1) in subsection (b)—

(A) in paragraph (1)—

(i) in subparagraph (A), by striking "purposes described in section 307(b)" and inserting "objectives, purposes, and additional considerations described in subsections (b) through (e) of section 307";

(ii) in subparagraph (B), by striking "and" at the end;

(iii) by redesignating subparagraph (C) as subparagraph (D); and

(iv) by inserting after subparagraph (B) the following:

"(C) achieves the distribution of funds described in paragraphs (2) and (3) of section 307(g); and"; and

(B) in paragraph (2), by striking "industrial products" and inserting "fuels and biobased products"; and

(2) by adding at the end the following:

"(c) UPDATES.—The Secretary and the Secretary of Energy shall update the Vision and Roadmap documents prepared for Federal biomass research and development activities.".

(g) AUTHORIZATION OF APPROPRIATIONS.—Section 310(b) of the Biomass Research and Development Act of 2000 (Public Law 106–224; 7 U.S.C. 8101 note) is amended by striking "title $51,000,000 for each of fiscal years 2002 through 2007" and inserting "title $200,000,000 for each of fiscal years 2006 through 2015".

(h) REPEAL OF SUNSET PROVISION.—Section 311 of the Biomass Research and Development Act of 2000 (Public Law 106–224; 7 U.S.C. 8101 note) is repealed.

SEC. 942. PRODUCTION INCENTIVES FOR CELLULOSIC BIOFUELS.

(a) PURPOSE.—The purpose of this section is to—

(1) accelerate deployment and commercialization of biofuels;

(2) deliver the first 1,000,000,000 gallons in annual cellulosic biofuels production by 2015;

(3) ensure biofuels produced after 2015 are cost competitive with gasoline and diesel; and

(4) ensure that small feedstock producers and rural small businesses are full participants in the development of the cellulosic biofuels industry.

(b) DEFINITIONS.—In this section:

(1) CELLULOSIC BIOFUELS.—The term "cellulosic biofuels" means any fuel that is produced from cellulosic feedstocks.

(2) ELIGIBLE ENTITY.—The term "eligible entity" means a producer of fuel from cellulosic biofuels the production facility of which—

(A) is located in the United States;

(B) meets all applicable Federal and State permitting requirements; and

(C) meets any financial criteria established by the Secretary.

(c) PROGRAM.—

(1) ESTABLISHMENT.—The Secretary, in consultation with the Secretary of Agriculture, the Secretary of Defense, and the Administrator of the Environmental Protection Agency, shall establish an incentive program for the production of cellulosic biofuels.

(2) BASIS OF INCENTIVES.—Under the program, the Secretary shall award production incentives on a per gallon basis of cellulosic biofuels from eligible entities, through—

(A) set payments per gallon of cellulosic biofuels produced in an amount determined by the Secretary, until initiation of the first reverse auction; and

(B) reverse auction thereafter.

(3) FIRST REVERSE AUCTION.—The first reverse auction shall be held on the earlier of—

(A) not later than 1 year after the first year of annual production in the United States of 100,000,000 gallons of cellulosic biofuels, as determined by the Secretary; or

(B) not later than 3 years after the date of enactment of this Act.

(4) REVERSE AUCTION PROCEDURE.—

(A) IN GENERAL.—On initiation of the first reverse auction, and each year thereafter until the earlier of the first year of annual production in the United States of 1,000,000,000 gallons of cellulosic biofuels, as determined by the Secretary, or 10 years after the date of enactment of this Act, the Secretary shall conduct a reverse auction at which—

(i) the Secretary shall solicit bids from eligible entities;

(ii) eligible entities shall submit—

(I) a desired level of production incentive on a per gallon basis; and

(II) an estimated annual production amount in gallons; and

(iii) the Secretary shall issue awards for the production amount submitted, beginning with the eligible entity submitting the bid for the lowest level of production incentive on a per gallon basis and meeting such other criteria as are established by the Secretary, until the amount of funds available for the reverse auction is committed.

(B) AMOUNT OF INCENTIVE RECEIVED.—An eligible entity selected by the Secretary through a reverse auction shall receive the amount of performance incentive requested in the auction for each gallon produced and sold by the entity during the first 6 years of operation.

(C) COMMENCEMENT OF PRODUCTION OF CELLULOSIC BIOFUELS.—As a condition of the receipt of an award under this section, an eligible entity shall enter into an agreement with the Secretary under which the eligible entity agrees to begin production of cellulosic biofuels not later than 3 years after the date of the reverse auction in which the eligible entity participates.

(d) LIMITATIONS.—Awards under this section shall be limited to—

(1) a per gallon amount determined by the Secretary during the first 4 years of the program;

(2) a declining per gallon cap over the remaining lifetime of the program, to be established by the Secretary so that cellulosic biofuels produced after the first year of annual cellulosic biofuels production in the United States in excess of 1,000,000,000 gallons are cost competitive with gasoline and diesel;

(3) not more than 25 percent of the funds committed within each reverse auction to any 1 project;

(4) not more than $1[illegible],000,000 in any 1 year; and

(5) not more than $1,000,000,000 over the lifetime of the program.

(e) PRIORITY.—In selecting a project under the program, the Secretary shall give priority to projects that—

(1) demonstrate outstanding potential for local and regional economic development;

(2) include agricultural producers or cooperatives of agricultural producers as equity partners in the ventures; and

(3) have a strategic agreement in place to fairly reward feedstock suppliers.

(f) AUTHORIZATIONS OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $250,000,000.

SEC. 943. PROCUREMENT OF BIOBASED PRODUCTS.

(a) FEDERAL PROCUREMENT.—

(1) DEFINITION OF PROCURING AGENCY.—Section 9001 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8101) is amended—

(A) by redesignating paragraphs (4), (5), and (6) as paragraphs (5), (6), and (7), respectively; and

(B) by inserting after paragraph (3) the following:

"(4) PROCURING AGENCY.—The term 'procuring agency' means—

"(A) any Federal agency that is using Federal funds for procurement; or

"(B) any person contracting with any Federal agency with respect to work performed under the contract.".

(2) PROCUREMENT.—Section 9002 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8102) is amended—

(A) by striking "Federal agency" each place it appears (other than in subsections (f) and (g)) and inserting "procuring agency";

(B) in subsection (c)(2)—

(i) by striking "(2)" and all that follows through "Notwithstanding" and inserting the following:

"(2) FLEXIBILITY.—Notwithstanding";

(ii) by striking "an agency" and inserting "a procuring agency"; and

(iii) by striking "the agency" and inserting "the procuring agency";

(C) in subsection (d), by striking "procured by Federal agencies" and inserting "procured by procuring agencies"; and

(D) in subsection (j), by striking "Federal agencies" and inserting "procuring agencies" .

(b) CAPITOL COMPLEX PROCUREMENT.—Section 9002 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8102) (as amended by subsection (a)(2)) is amended—

(1) by redesignating subsection (j) as subsection (k); and

(2) by inserting after subsection (i) the following:

"(j) INCLUSION.—Not later than 90 days after the date of enactment of the Energy Policy Act of 2005, the Architect of the Capitol, the Sergeant at Arms of the Senate, and the Chief Administrative Officer of the House of Representatives shall establish procedures that apply the requirements of this section to procurement for the Capitol Complex.".

(c) EDUCATION.—

(1) IN GENERAL.—The Architect of the Capitol shall establish in the Capitol Complex a program of public education regarding use by the Architect of the Capitol of biobased products.

(2) PURPOSES.—The purposes of the program shall be—

(A) to establish the Capitol Complex as a showcase for the existence and benefits of biobased products; and

(B) to provide access to further information on biobased products to occupants and visitors.

(d) PROCEDURE.—Requirements issued under the amendments made by subsection (b) shall be made in accordance with directives issued by the Committee on Rules and Administration of the Senate and the Committee on House Administration of the House of Representatives.

SEC. 944. SMALL BUSINESS BIOPRODUCT MARKETING AND CERTIFICATION GRANTS.

(a) IN GENERAL.—Using amounts made available under subsection (g), the Secretary of Agriculture (referred to in this section as the "Secretary") shall make available on a competitive basis grants to eligible entities described in subsection (b) for the biobased product marketing and certification purposes described in subsection (c).

(b) ELIGIBLE ENTITIES.—

(1) IN GENERAL.—An entity eligible for a grant under this section is any manufacturer of biobased products that—

(A) proposes to use the grant for the biobased product marketing and certification purposes described in subsection (c); and

(B) has not previously received a grant under this section.

(2) PREFERENCE.—In making grants under this section, the Secretary shall provide a preference to an eligible entity that has fewer than 50 employees.

(c) BIOBASED PRODUCT MARKETING AND CERTIFICATION GRANT PURPOSES.—A grant made under this section shall be used—

(1) to provide working capital for marketing of biobased products; and

(2) to provide for the certification of biobased products to—

(A) qualify for the label described in section 9002(h)(1) of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8102(h)(1)); or

(B) meet other biobased standards determined appropriate by the Secretary.

(d) MATCHING FUNDS.—

(1) IN GENERAL.—Grant recipients shall provide matching non-Federal funds equal to the amount of the grant received.

(2) EXPENDITURE.—Matching funds shall be expended in advance of grant funding, so that for every dollar of grant that is advanced, an equal amount of matching funds shall have been funded prior to submitting the request for reimbursement.

(e) AMOUNT.—A grant made under this section shall not exceed $100,000.

(f) ADMINISTRATION.—The Secretary shall establish such administrative requirements for grants under this section, including requirements for applications for the grants, as the Secretary considers appropriate.

(g) AUTHORIZATIONS OF APPROPRIATIONS.—There are authorized to be appropriated to make grants under this section—

(1) $1,000,000 for fiscal year 2006; and

(2) such sums as are necessary for each of fiscal years 2007 through 2015.

SEC. 945. REGIONAL BIOECONOMY DEVELOPMENT GRANTS.

(a) IN GENERAL.—Using amounts made available under subsection (g), the Secretary of Agriculture (referred to in this section as the "Secretary") shall make available on a competitive basis grants to eligible entities described in subsection (b) for the purposes described in subsection (c).

(b) ELIGIBLE ENTITIES.—An entity eligible for a grant under this section is any regional bioeconomy development association, agricultural or energy trade association, or Land Grant institution that—

(1) proposes to use the grant for the purposes described in subsection (c); and

(2) has not previously received a grant under this section.

(c) REGIONAL BIOECONOMY DEVELOPMENT ASSOCIATION GRANT PURPOSES.—A grant made under this section shall be used to support and promote the growth and development of the bioeconomy within the region served by the eligible entity, through coordination, education, outreach, and other endeavors by the eligible entity.

(d) MATCHING FUNDS.—

(1) IN GENERAL.—Grant recipients shall provide matching non-Federal funds equal to the amount of the grant received.

(2) EXPENDITURE.—Matching funds shall be expended in advance of grant funding, so that for every dollar of grant that is advanced, an equal amount of matching funds shall have been funded prior to submitting the request for reimbursement.

(e) ADMINISTRATION.—The Secretary shall establish such administrative requirements for grants under this section, including requirements for applications for the grants, as the Secretary considers appropriate.

(f) AMOUNT.—A grant made under this section shall not exceed $500,000.

(g) AUTHORIZATIONS OF APPROPRIATIONS.—There are authorized to be appropriated to make grants under this section—

(1) $1,000,000 for fiscal year 2006; and

(2) such sums as are necessary for each of fiscal years 2007 through 2015.

SEC. 946. PREPROCESSING AND HARVESTING DEMONSTRATION GRANTS.

(a) IN GENERAL.—The Secretary of Agriculture (referred to in this section as the "Secretary") shall make grants available on a competitive basis to enterprises owned by agricultural producers, for the purposes of demonstrating cost-effective, cellulosic biomass innovations in—

(1) preprocessing of feedstocks, including cleaning, separating and sorting, mixing or blending, and chemical or biochemical treatments, to add value and lower the cost of feedstock processing at a biorefinery; or

(2) 1-pass or other efficient, multiple crop harvesting techniques.

(b) LIMITATIONS ON GRANTS.—

(1) NUMBER OF GRANTS.—Not more than 5 demonstration projects per fiscal year shall be funded under this section.

(2) NON-FEDERAL COST SHARE.—The non-Federal cost share of a project under this section shall be not less than 20 percent, as determined by the Secretary.

(c) CONDITION OF GRANT.—To be eligible for a grant for a project under this section, a recipient of a grant or a participating entity shall agree to use the material harvested under the project—

(1) to produce ethanol; or

(2) for another energy purpose, such as the generation of heat or electricity.

(d) AUTHORIZATION FOR APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2006 through 2010.

SEC. 947. EDUCATION AND OUTREACH.

(a) IN GENERAL.—The Secretary of Agriculture shall establish, within the Department of Agriculture or through an independent contracting entity, a program of education and outreach on biobased fuels and biobased products consisting of—

(1) training and technical assistance programs for feedstock producers to promote producer ownership, investment, and participation in the operation of processing facilities; and

(2) public education and outreach to familiarize consumers with the biobased fuels and biobased products.

(b) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $1,000,000 for each of fiscal years 2006 through 2010.

SEC. 948. REPORTS.

(a) BIOBASED PRODUCT POTENTIAL.—Not later than 1 year after the date of enactment of this Act, the Secretary of Agriculture (referred to in this section as the "Secretary") shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report that—

(1) describes the economic potential for the United States of the widespread production and use of commercial and industrial biobased products through calendar year 2025; and

(2) as the maximum extent practicable, identifies the economic potential by product area.

(b) ANALYSIS OF ECONOMIC INDICATORS.—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to Congress an analysis of economic indicators of the biobased economy.

Subtitle E—Nuclear Energy

SEC. 951. NUCLEAR ENERGY.

(a) IN GENERAL.—The Secretary shall conduct programs of civilian nuclear energy research,

development, demonstration, and commercial application, including activities described in this subtitle. Programs under this subtitle shall take into consideration the following objectives:

(1) Enhancing nuclear power's viability as part of the United States energy portfolio.

(2) Providing the technical means to reduce the likelihood of nuclear proliferation.

(3) Maintaining a cadre of nuclear scientists and engineers.

(4) Maintaining National Laboratory and university nuclear programs, including their infrastructure.

(5) Supporting both individual researchers and multidisciplinary teams of researchers to pioneer new approaches in nuclear energy, science, and technology.

(6) Developing, planning, constructing, acquiring, and operating special equipment and facilities for the use of researchers.

(7) Supporting technology transfer and other appropriate activities to assist the nuclear energy industry, and other users of nuclear science and engineering, including activities addressing reliability, availability, productivity, component aging, safety, and security of nuclear power plants.

(8) Reducing the environmental impact of nuclear energy-related activities.

(b) AUTHORIZATION OF APPROPRIATIONS FOR CORE PROGRAMS.—There are authorized to be appropriated to the Secretary to carry out nuclear energy research, development, demonstration, and commercial application activities, including activities authorized under this subtitle, other than those described in subsection (c)—

(1) $330,000,000 for fiscal year 2007;

(2) $355,000,000 for fiscal year 2008; and

(3) $495,000,000 for fiscal year 2009.

(c) NUCLEAR INFRASTRUCTURE AND FACILITIES.—There are authorized to be appropriated to the Secretary to carry out activities under section 955—

(1) $135,000,000 for fiscal year 2007;

(2) $140,000,000 for fiscal year 2008; and

(3) $145,000,000 for fiscal year 2009.

(d) ALLOCATIONS.—From amounts authorized under subsection (a), the following sums are authorized:

(1) For activities under section 953—

(A) $150,000,000 for fiscal year 2007;

(B) $155,000,000 for fiscal year 2008; and

(C) $275,000,000 for fiscal year 2009.

(2) For activities under section 954—

(A) $43,600,000 for fiscal year 2007;

(B) $50,100,000 for fiscal year 2008; and

(C) $56,000,000 for fiscal year 2009.

(3) For activities under section 957, $6,000,000 for each of fiscal years 2007 through 2009.

(e) LIMITATION.—None of the funds authorized under this section may be used to decommission the Fast Flux Test Facility.

SEC. 952. NUCLEAR ENERGY RESEARCH PROGRAMS.

(a) NUCLEAR ENERGY RESEARCH INITIATIVE.—The Secretary shall carry out a Nuclear Energy Research Initiative for research and development related to nuclear energy.

(b) NUCLEAR ENERGY SYSTEMS SUPPORT PROGRAM.—The Secretary shall carry out a Nuclear Energy Systems Support Program to support research and development activities addressing reliability, availability, productivity, component aging, safety, and security of existing nuclear power plants.

(c) NUCLEAR POWER 2010 PROGRAM.—

(1) IN GENERAL.—The Secretary shall carry out a Nuclear Power 2010 Program, consistent with recommendations of the Nuclear Energy Research Advisory Committee of the Department in the report entitled "A Roadmap to Deploy New Nuclear Power Plants in the United States by 2010" and dated October 2001.

(2) ADMINISTRATION.—The Program shall include—

(A) use of the expertise and capabilities of industry, institutions of higher education, and National Laboratories in evaluation of advanced nuclear fuel cycles and fuels testing;

(B) consideration of a variety of reactor designs suitable for both developed and developing nations;

(C) participation of international collaborators in research, development, and design efforts, as appropriate; and

(D) encouragement for participation by institutions of higher education and industry.

(d) GENERATION IV NUCLEAR ENERGY SYSTEMS INITIATIVE.—

(1) IN GENERAL.—The Secretary shall carry out a Generation IV Nuclear Energy Systems Initiative to develop an overall technology plan for and to support research and development necessary to make an informed technical decision about the most promising candidates for eventual commercial application.

(2) ADMINISTRATION.—In conducting the Initiative, the Secretary shall examine advanced proliferation-resistant and passively safe reactor designs, including designs that—

(A) are economically competitive with other electric power generation plants;

(B) have higher efficiency, lower cost, and improved safety compared to reactors in operation on the date of enactment of this Act;

(C) use fuels that are proliferation resistant and have substantially reduced production of high-level waste per unit of output; and

(D) use improved instrumentation.

(e) REACTOR PRODUCTION OF HYDROGEN.—The Secretary shall carry out research to examine designs for high-temperature reactors capable of producing large-scale quantities of hydrogen.

SEC. 953. ADVANCED FUEL CYCLE INITIATIVE.

(a) IN GENERAL.—The Secretary, acting through the Director of the Office of Nuclear Energy, Science and Technology, shall conduct an advanced fuel recycling technology research, development, and demonstration program (referred to in this section as the "program") to evaluate proliferation-resistant fuel recycling and transmutation technologies that minimize environmental and public health and safety impacts as an alternative to aqueous reprocessing technologies deployed as of the date of enactment of this Act in support of evaluation of alternative national strategies for spent nuclear fuel and the Generation IV advanced reactor concepts.

(b) ANNUAL REVIEW.—The program shall be subject to annual review by the Nuclear Energy Research Advisory Committee of the Department or other independent entity, as appropriate.

(c) INTERNATIONAL COOPERATION.—In carrying out the program, the Secretary is encouraged to seek opportunities to enhance the progress of the program through international cooperation.

(d) REPORTS.—The Secretary shall submit, as part of the annual budget submission of the Department, a report on the activities of the program.

SEC. 954. UNIVERSITY NUCLEAR SCIENCE AND ENGINEERING SUPPORT.

(a) IN GENERAL.—The Secretary shall conduct a program to invest in human resources and infrastructure in the nuclear sciences and related fields, including health physics, nuclear engineering, and radiochemistry, consistent with missions of the Department related to civilian nuclear research, development, demonstration, and commercial application.

(b) REQUIREMENTS.—In carrying out the program under this section, the Secretary shall—

(1) conduct a graduate and undergraduate fellowship program to attract new and talented students, which may include fellowships for students to spend time at National Laboratories in the areas of nuclear science, engineering, and health physics with a member of the National Laboratory staff acting as a mentor;

(2) conduct a junior faculty research initiation grant program to assist universities in recruiting and retaining new faculty in the nuclear sciences and engineering by awarding grants to junior faculty for research on issues related to nuclear energy engineering and science;

(3) support fundamental nuclear sciences, engineering, and health physics research through a nuclear engineering education and research program;

(4) encourage collaborative nuclear research among industry, National Laboratories, and universities; and

(5) support communication and outreach related to nuclear science, engineering, and health physics.

(c) UNIVERSITY-NATIONAL LABORATORY INTERACTIONS.—The Secretary shall conduct—

(1) a fellowship program for professors at universities to spend sabbaticals at National Laboratories in the areas of nuclear science and technology; and

(2) a visiting scientist program in which National Laboratory staff can spend time in academic nuclear science and engineering departments.

(d) STRENGTHENING UNIVERSITY RESEARCH AND TRAINING REACTORS AND ASSOCIATED INFRASTRUCTURE.—In carrying out the program under this section, the Secretary may support—

(1) converting research reactors from high-enrichment fuels to low-enrichment fuels and upgrading operational instrumentation;

(2) consortia of universities to broaden access to university research reactors;

(3) student training programs, in collaboration with the United States nuclear industry, in relicensing and upgrading reactors, including through the provision of technical assistance; and

(4) reactor improvements as part of a taking into consideration effort that emphasizes research, training, and education, including through the Innovations in Nuclear Infrastructure and Education Program or any similar program.

(e) OPERATIONS AND MAINTENANCE.—Funding for a project provided under this section may be used for a portion of the operating and maintenance costs of a research reactor at a university used in the project.

(f) DEFINITION.—In this section, the term "junior faculty" means a faculty member who was awarded a doctorate less than 10 years before receipt of an award from the grant program described in subsection (b)(2).

SEC. 955. DEPARTMENT OF ENERGY CIVILIAN NUCLEAR INFRASTRUCTURE AND FACILITIES.

(a) IN GENERAL.—The Secretary shall operate and maintain infrastructure and facilities to support the nuclear energy research, development, demonstration, and commercial application programs, including radiological facilities management, isotope production, and facilities management.

(b) DUTIES.—In carrying this section, the Secretary shall—

(1) develop an inventory of nuclear science and engineering facilities, equipment, expertise, and other assets at all of the National Laboratories;

(2) develop a prioritized list of nuclear science and engineering plant and equipment improvements needed at each of the National Laboratories;

(3) consider the available facilities and expertise at all National Laboratories and emphasize investments which complement rather than duplicate capabilities; and

(4) develop a timeline and a proposed budget for the completion of deferred maintenance on

plant and equipment, with the goal of ensuring that Department programs under this subtitle will be generally recognized to be among the best in the world.

(c) PLAN.—The Secretary shall develop a comprehensive plan for the facilities at the Idaho National Laboratory, especially taking into account the resources available at other National Laboratories. In developing the plan, the Secretary shall—

(1) evaluate the facilities planning processes utilized by other physical science and engineering research and development institutions, both in the United States and abroad, that are generally recognized as being among the best in the world, and consider how those processes might be adapted toward developing such facilities plan;

(2) avoid duplicating, moving, or transferring nuclear science and engineering facilities, equipment, expertise, and other assets that currently exist at other National Laboratories;

(3) consider the establishment of a national transuranic analytic chemistry laboratory as a user facility at the Idaho National Laboratory;

(4) include a plan to develop, if feasible, the Advanced Test Reactor and Test Reactor Area into a user facility that is more readily accessible to academic and industrial researchers;

(5) consider the establishment of a fast neutron source as a user facility;

(6) consider the establishment of new hot cells and the configuration of hot cells most likely to advance research, development, demonstration, and commercial application in nuclear science and engineering, especially in the context of the condition and availability of these facilities elsewhere in the National Laboratories; and

(7) include a timeline and a proposed budget for the completion of deferred maintenance on plant and equipment.

(d) TRANSMITTAL TO CONGRESS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall transmit the plan under subsection (c) to Congress.

SEC. 956. SECURITY OF NUCLEAR FACILITIES.

The Secretary, acting through the Director of the Office of Nuclear Energy, Science and Technology, shall conduct a research and development program on cost-effective technologies for increasing—

(1) the safety of nuclear facilities from natural phenomena; and

(2) the security of nuclear facilities from deliberate attacks.

SEC. 957. ALTERNATIVES TO INDUSTRIAL RADIOACTIVE SOURCES.

(a) SURVEY.—

(1) IN GENERAL.—Not later than August 1, 2006, the Secretary shall submit to Congress the results of a survey of industrial applications of large radioactive sources.

(2) ADMINISTRATION.—The survey shall—

(A) consider well-logging sources as 1 class of industrial sources;

(B) include information on current domestic and international Department, Department of Defense, State Department, and commercial programs to manage and dispose of radioactive sources; and

(C) analyze available disposal options for currently deployed or future sources and, if deficiencies are noted for either deployed or future sources, recommend legislative options that Congress may consider to remedy identified deficiencies.

(b) PLAN.—

(1) IN GENERAL.—In conjunction with the survey conducted under subsection (a), the Secretary shall establish a research and development program to develop alternatives to sources described in subsection (a) that reduce safety, environmental, or proliferation risks to either workers using the sources or the public.

(2) ACCELERATORS.—Miniaturized particle accelerators for well-logging or other industrial applications and portable accelerators for production of short-lived radioactive materials at an industrial site shall be considered as part of the research and development efforts.

(3) REPORT.—Not later than August 1, 2006, the Secretary shall submit to Congress a report describing the details of the program plan.

Subtitle F—Fossil Energy

SEC. 961. FOSSIL ENERGY.

(a) IN GENERAL.—The Secretary shall carry out research, development, demonstration, and commercial application programs in fossil energy, including activities under this subtitle, with the goal of improving the efficiency, effectiveness, and environmental performance of fossil energy production, upgrading, conversion, and consumption. Such programs take into consideration the following objectives:

(1) Increasing the energy conversion efficiency of all forms of fossil energy through improved technologies.

(2) Decreasing the cost of all fossil energy production, generation, and delivery.

(3) Promoting diversity of energy supply.

(4) Decreasing the dependence of the United States on foreign energy supplies.

(5) Improving United States energy security.

(6) Decreasing the environmental impact of energy-related activities.

(7) Increasing the export of fossil energy-related equipment, technology, and services from the United States.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out fossil energy research, development, demonstration, and commercial application activities, including activities authorized under this subtitle—

(1) $611,000,000 for fiscal year 2007;

(2) $626,000,000 for fiscal year 2008; and

(3) $641,000,000 for fiscal year 2009.

(c) ALLOCATIONS.—From amounts authorized under subsection (a), the following sums are authorized:

(1) For activities under section 962—

(A) $367,000,000 for fiscal year 2007;

(B) $376,000,000 for fiscal year 2008; and

(C) $394,000,000 for fiscal year 2009.

(2) For activities under section 964—

(A) $20,000,000 for fiscal year 2007;

(B) $25,000,000 for fiscal year 2008; and

(C) $30,000,000 for fiscal year 2009.

(3) For activities under section 966—

(A) $1,500,000 for fiscal year 2007; and

(B) $450,000 for each of fiscal years 2008 and 2009.

(4) For the Office of Arctic Energy under section 3197 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (42 U.S.C. 7144d) $25,000,000 for each of fiscal years 2007 through 2009.

(d) EXTENDED AUTHORIZATION.—There are authorized to be appropriated to the Secretary for the Office of Arctic Energy established under section 3197 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (42 U.S.C. 7144d) $25,000,000 for each of fiscal years 2010 through 2012.

(e) LIMITATIONS.—

(1) USES.—None of the funds authorized under this section may be used for Fossil Energy Environmental Restoration or Import/Export Authorization.

(2) INSTITUTIONS OF HIGHER EDUCATION.—Of the funds authorized under subsection (c)(2), not less than 20 percent of the funds appropriated for each fiscal year shall be dedicated to research and development carried out at institutions of higher education.

SEC. 962. COAL AND RELATED TECHNOLOGIES PROGRAM.

(a) IN GENERAL.—In addition to the programs authorized under title IV, the Secretary shall conduct a program of technology research, development, demonstration, and commercial application for coal and power systems, including programs to facilitate production and generation of coal-based power through—

(1) innovations for existing plants (including mercury removal);

(2) gasification systems;

(3) advanced combustion systems;

(4) turbines for synthesis gas derived from coal;

(5) carbon capture and sequestration research and development;

(6) coal-derived chemicals and transportation fuels;

(7) liquid fuels derived from low rank coal water slurry;

(8) solid fuels and feedstocks;

(9) advanced coal-related research;

(10) advanced separation technologies; and

(11) fuel cells for the operation of synthesis gas derived from coal.

(b) COST AND PERFORMANCE GOALS.—

(1) IN GENERAL.—In carrying out programs authorized by this section, during each of calendar years 2008, 2010, 2012, and 2016, and during each fiscal year beginning after September 30, 2021, the Secretary shall identify cost and performance goals for coal-based technologies that would permit the continued cost-competitive use of coal for the production of electricity, chemical feedstocks, and transportation fuels.

(2) ADMINISTRATION.—In establishing the cost and performance goals, the Secretary shall—

(A) consider activities and studies undertaken as of the date of enactment of this Act by industry in cooperation with the Department in support of the identification of the goals;

(B) consult with interested entities, including—

(i) coal producers;

(ii) industries using coal;

(iii) organizations that promote coal and advanced coal technologies;

(iv) environmental organizations;

(v) organizations representing workers; and

(vi) organizations representing consumers;

(C) not later than 120 days after the date of enactment of this Act, publish in the Federal Register proposed draft cost and performance goals for public comments; and

(D) not later than 180 days after the date of enactment of this Act and every 4 years thereafter, submit to Congress a report describing the final cost and performance goals for the technologies that includes—

(i) a list of technical milestones; and

(ii) an explanation of how programs authorized in this section will not duplicate the activities authorized under the Clean Coal Power Initiative authorized under title IV.

(c) POWDER RIVER BASIN AND FORT UNION LIGNITE COAL MERCURY REMOVAL.—

(1) IN GENERAL.—In addition to the programs authorized by subsection (a), the Secretary shall establish a program to test and develop technologies to control and remove mercury emissions from subbituminous coal mined in the Powder River Basin, and Fort Union lignite coals, that are used for the generation of electricity.

(2) EFFICACY OF MERCURY REMOVAL TECHNOLOGY.—In carrying out the program under paragraph (1), the Secretary shall examine the efficacy of mercury removal technologies on coals described in that paragraph that are blended with other types of coal.

(d) FUEL CELLS.—

(1) IN GENERAL.—The Secretary shall conduct a program of research, development, demonstration, and commercial application on fuel cells for low-cost, high-efficiency, fuel-flexible, modular power systems.

(2) DEMONSTRATIONS.—The demonstrations referred to in paragraph (1) shall include solid

oxide fuel cell technology for commercial, residential, and transportation applications, and distributed generation systems, using improved manufacturing production and processes.

SEC. 963. CARBON CAPTURE RESEARCH AND DEVELOPMENT PROGRAM.

(a) IN GENERAL.—The Secretary shall carry out a 10-year carbon capture research and development program to develop carbon dioxide capture technologies on combustion-based systems for use—

(1) in new coal utilization facilities; and

(2) on the fleet of coal-based units in existence on the date of enactment of this Act.

(b) OBJECTIVES.—The objectives of the program under subsection (a) shall be—

(1) to develop carbon dioxide capture technologies, including adsorption and absorption techniques and chemical processes, to remove the carbon dioxide from gas streams containing carbon dioxide potentially amenable to sequestration;

(2) to develop technologies that would directly produce concentrated streams of carbon dioxide potentially amenable to sequestration;

(3) to increase the efficiency of the overall system to reduce the quantity of carbon dioxide emissions released from the system per megawatt generated; and

(4) in accordance with the carbon dioxide capture program, to promote a robust carbon sequestration program and continue the work of the Department, in conjunction with the private sector, through regional carbon sequestration partnerships.

(c) AUTHORIZATION OF APPROPRIATIONS.—From amounts authorized under section 961(b), the following sums are authorized for activities described in subsection (a)(2):

(1) $25,000,000 for fiscal year 2006;

(2) $30,000,000 for fiscal year 2007; and

(3) $35,000,000 for fiscal year 2008

SEC. 964. RESEARCH AND DEVELOPMENT FOR COAL MINING TECHNOLOGIES.

(a) ESTABLISHMENT.—The Secretary shall carry out a program for research and development on coal mining technologies.

(b) COOPERATION.—In carrying out the program, the Secretary shall cooperate with appropriate Federal agencies, coal producers, trade associations, equipment manufacturers, institutions of higher education with mining engineering departments, and other relevant entities.

(c) PROGRAM.—The research and development activities carried out under this section shall—

(1) be guided by the mining research and development priorities identified by the Mining Industry of the Future Program and in the recommendations from relevant reports of the National Academy of Sciences on mining technologies;

(2) include activities exploring minimization of contaminants in mined coal that contribute to environmental concerns including development and demonstration of electromagnetic wave imaging ahead of mining operations;

(3) develop and demonstrate coal bed electromagnetic wave imaging, spectroscopic reservoir analysis technology, and techniques for horizontal drilling in order to—

(A) identify areas of high coal gas content;

(B) increase methane recovery efficiency;

(C) prevent spoilage of domestic coal reserves; and

(D) minimize water disposal associated with methane extraction; and

(4) expand mining research capabilities at institutions of higher education.

SEC. 965. OIL AND GAS RESEARCH PROGRAMS.

(a) IN GENERAL.—The Secretary shall conduct a program of research, development, demonstration, and commercial application of oil and gas, including—

(1) exploration and production;

(2) gas hydrates;

(3) reservoir life and extension;

(4) transportation and distribution infrastructure;

(5) ultraclean fuels;

(6) heavy oil, oil shale, and tar sands; and

(7) related environmental research.

(b) OBJECTIVES.—The objectives of this program shall include advancing the science and technology available to domestic petroleum producers, particularly independent operators, to minimize the economic dislocation caused by the decline of domestic supplies of oil and natural gas resources.

(c) NATURAL GAS AND OIL DEPOSITS REPORT.—Not later than 2 years after the date of enactment of this Act and every 2 years thereafter, the Secretary of the Interior, in consultation with other appropriate Federal agencies, shall submit to Congress a report on the latest estimates of natural gas and oil reserves, reserves growth, and undiscovered resources in Federal and State waters off the coast of Louisiana, Texas, Alabama, and Mississippi.

(d) INTEGRATED CLEAN POWER AND ENERGY RESEARCH.—

(1) ESTABLISHMENT OF CENTER.—The Secretary shall establish a national center or consortium of excellence in clean energy and power generation, using the resources of the Clean Power and Energy Research Consortium in existence on the date of enactment of this Act, to address the critical dependence of the United States on energy and the need to reduce emissions.

(2) FOCUS AREAS.—The center or consortium shall conduct a program of research, development, demonstration, and commercial application on integrating the following 6 focus areas:

(A) Efficiency and reliability of gas turbines for power generation.

(B) Reduction in emissions from power generation.

(C) Promotion of energy conservation issues.

(D) Effectively using alternative fuels and renewable energy.

(E) Development of advanced materials technology for oil and gas exploration and use in harsh environments.

(F) Education on energy and power generation issues.

SEC. 966. LOW-VOLUME OIL AND GAS RESERVOIR RESEARCH PROGRAM.

(a) DEFINITIONS OF GIS.—In this section, the term "GIS" means geographic information systems technology that facilitates the organization and management of data with a geographic component.

(b) PROGRAM.—The Secretary shall establish a program of research, development, demonstration, and commercial application to maximize the productive capacity of marginal wells and reservoirs.

(c) DATA COLLECTION.—Under the program, the Secretary shall collect data on—

(1) the status and location of marginal wells and oil and gas reservoirs;

(2) the production capacity of marginal wells and oil and gas reservoirs;

(3) the location of low-pressure gathering facilities and pipelines; and

(4) the quantity of natural gas vented or flared in association with crude oil production.

(d) ANALYSIS.—Under the program, the Secretary shall—

(1) estimate the remaining producible reserves based on variable pipeline pressures; and

(2) recommend measures that will enable the continued production of those resources.

(e) STUDY.—

(1) IN GENERAL.—The Secretary may award a grant to an organization of States that contain significant numbers of marginal oil and natural gas wells to conduct an annual study of low-volume natural gas reservoirs.

(2) ORGANIZATION WITH NO GIS CAPABILITIES.—If an organization receiving a grant under paragraph (1) does not have GIS capabilities, the organization shall contract with an institution of higher education with GIS capabilities.

(3) STATE GEOLOGISTS.—The organization receiving a grant under paragraph (1) shall collaborate with the State geologist of each State being studied.

(f) PUBLIC INFORMATION.—The Secretary may use the data collected and analyzed under this section to produce maps and literature to disseminate to States to promote conservation of natural gas reserves.

SEC. 967. COMPLEX WELL TECHNOLOGY TESTING FACILITY.

The Secretary, in coordination with industry leaders in extended research drilling technology, shall establish a Complex Well Technology Testing Facility at the Rocky Mountain Oilfield Testing Center to increase the range of extended drilling technologies.

SEC. 968. METHANE HYDRATE RESEARCH.

(a) IN GENERAL.—The Methane Hydrate Research and Development Act of 2000 (30 U.S.C. 1902 note; Public Law 106–193) is amended to read as follows:

"SECTION 1. SHORT TITLE.

"This Act may be cited as the 'Methane Hydrate Research and Development Act of 2000'.

"SEC. 2. FINDINGS.

"Congress finds that—

"(1) in order to promote energy independence and meet the increasing demand for energy, the United States will require a diversified portfolio of substantially increased quantities of electricity, natural gas, and transportation fuels;

"(2) according to the report submitted to Congress by the National Research Council entitled 'Charting the Future of Methane Hydrate Research in the United States', the total United States resources of gas hydrates have been estimated to be on the order of 200,000 trillion cubic feet;

"(3) according to the report of the National Commission on Energy Policy entitled 'Ending the Energy Stalemate—A Bipartisan Strategy to Meet America's Energy Challenge', and dated December 2004, the United States may be endowed with over 1/4 of the methane hydrate deposits in the world;

"(4) according to the Energy Information Administration, a shortfall in natural gas supply from conventional and unconventional sources is expected to occur in or about 2020; and

"(5) the National Academy of Sciences states that methane hydrate may have the potential to alleviate the projected shortfall in the natural gas supply.

"SEC. 3. DEFINITIONS.

"In this Act:

"(1) CONTRACT.—The term 'contract' means a procurement contract within the meaning of section 6303 of title 31, United States Code.

"(2) COOPERATIVE AGREEMENT.—The term 'cooperative agreement' means a cooperative agreement within the meaning of section 6305 of title 31, United States Code.

"(3) DIRECTOR.—The term 'Director' means the Director of the National Science Foundation.

"(4) GRANT.—The term 'grant' means a grant awarded under a grant agreement (within the meaning of section 6304 of title 31, United States Code).

"(5) INDUSTRIAL ENTERPRISE.—The term 'industrial enterprise' means a private, nongovernmental enterprise that has an expertise or capability that relates to methane hydrate research and development.

"(6) INSTITUTION OF HIGHER EDUCATION.—The term 'institution of higher education' means an institution of higher education (as defined in *section 102 of the Higher Education Act of 1965 (20 U.S.C. 1002)).*

"(7) SECRETARY.—The term 'Secretary' means the Secretary of Energy, acting through the Assistant Secretary for Fossil Energy.

"(8) SECRETARY OF COMMERCE.—The term 'Secretary of Commerce' means the Secretary of Commerce, acting through the Administrator of the National Oceanic and Atmospheric Administration.

"(9) SECRETARY OF DEFENSE.—The term 'Secretary of Defense' means the Secretary of Defense, acting through the Secretary of the Navy.

"(10) SECRETARY OF THE INTERIOR.—The term 'Secretary of the Interior' means the Secretary of the Interior, acting through the Director of the United States Geological Survey, the Director of the Bureau of Land Management, and the Director of the Minerals Management Service.

"SEC. 4. METHANE HYDRATE RESEARCH AND DEVELOPMENT PROGRAM.

"(a) IN GENERAL.—

"(1) COMMENCEMENT OF PROGRAM.—Not later than 90 days after the date of enactment of the Energy Research, Development, Demonstration, and Commercial Application Act of 2005, the Secretary, in consultation with the Secretary of Commerce, the Secretary of Defense, the Secretary of the Interior, and the Director, shall commence a program of methane hydrate research and development in accordance with this section.

"(2) DESIGNATIONS.—The Secretary, the Secretary of Commerce, the Secretary of Defense, the Secretary of the Interior, and the Director shall designate individuals to carry out this section.

"(3) COORDINATION.—The individual designated by the Secretary shall coordinate all activities within the Department of Energy relating to methane hydrate research and development.

"(4) MEETINGS.—The individuals designated under paragraph (2) shall meet not later than 180 days after the date of enactment of the Energy Research, Development, Demonstration, and Commercial Application Act of 2005 and not less frequently than every 180 days thereafter to—

"(A) review the progress of the program under paragraph (1); and

"(B) coordinate interagency research and partnership efforts in carrying out the program.

"(b) GRANTS, CONTRACTS, COOPERATIVE AGREEMENTS, INTERAGENCY FUNDS TRANSFER AGREEMENTS, AND FIELD WORK PROPOSALS.—

"(1) ASSISTANCE AND COORDINATION.—In carrying out the program of methane hydrate research and development authorized by this section, the Secretary may award grants to, or enter into contracts or cooperative agreements with, institutions of higher education, oceanographic institutions, and industrial enterprises to—

"(A) conduct basic and applied research to identify, explore, assess, and develop methane hydrate as a commercially viable source of energy;

"(B) identify methane hydrate resources through remote sensing;

"(C) acquire and reprocess seismic data suitable for characterizing methane hydrate accumulations;

"(D) assist in developing technologies required for efficient and environmentally sound development of methane hydrate resources;

"(E) promote education and training in methane hydrate resource research and resource development through fellowships or other means for graduate education and training;

"(F) conduct basic and applied research to assess and mitigate the environmental impact of hydrate degassing (including both natural degassing and degassing associated with commercial development);

"(G) develop technologies to reduce the risks of drilling through methane hydrates; and

"(H) conduct exploratory drilling, well testing, and production testing operations on permafrost and non-permafrost gas hydrates in support of the activities authorized by this paragraph, including drilling of 1 or more full-scale production test wells.

"(2) COMPETITIVE PEER REVIEW.—Funds made available under paragraph (1) shall be made available based on a competitive process using external scientific peer review of proposed research.

"(c) METHANE HYDRATES ADVISORY PANEL.—

"(1) IN GENERAL.—The Secretary shall establish an advisory panel (including the hiring of appropriate staff) consisting of representatives of industrial enterprises, institutions of higher education, oceanographic institutions, State agencies, and environmental organizations with knowledge and expertise in the natural gas hydrates field, to—

"(A) assist in developing recommendations and broad programmatic priorities for the methane hydrate research and development program carried out under subsection (a)(1);

"(B) provide scientific oversight for the methane hydrates program, including assessing progress toward program goals, evaluating program balance, and providing recommendations to enhance the quality of the program over time; and

"(C) not later than 2 years after the date of enactment of the Energy Research, Development, Demonstration, and Commercial Application Act of 2005, and at such later dates as the panel considers advisable, submit to Congress—

"(i) an assessment of the methane hydrate research program; and

"(ii) an assessment of the 5-year research plan of the Department of Energy.

"(2) CONFLICTS OF INTEREST.—In appointing each member of the advisory panel established under paragraph (1), the Secretary shall ensure, to the maximum extent practicable, that the appointment of the member does not pose a conflict of interest with respect to the duties of the member under this Act.

"(3) MEETINGS.—The advisory panel shall—

"(A) hold the initial meeting of the advisory panel not later than 180 days after the date of establishment of the advisory panel; and

"(B) meet biennially thereafter.

"(4) COORDINATION.—The advisory panel shall coordinate activities of the advisory panel with program managers of the Department of Energy at appropriate National Laboratories.

"(d) CONSTRUCTION COSTS.—None of the funds made available to carry out this section may be used for the construction of a new building or the acquisition, expansion, remodeling, or alteration of an existing building (including site grading and improvement and architect fees).

"(e) RESPONSIBILITIES OF THE SECRETARY.—In carrying out subsection (b)(1), the Secretary shall—

"(1) facilitate and develop partnerships among government, industrial enterprises, and institutions of higher education to research, identify, assess, and explore methane hydrate resources;

"(2) undertake programs to develop basic information necessary for promoting long-term interest in methane hydrate resources as an energy source;

"(3) ensure that the data and information developed through the program are accessible and widely disseminated as needed and appropriate;

"(4) promote cooperation among agencies that are developing technologies that may hold promise for methane hydrate resource development;

"(5) report annually to Congress on the results of actions taken to carry out this Act; and

"(6) ensure, to the maximum extent practicable, greater participation by the Department of Energy in international cooperative efforts.

"SEC. 5. NATIONAL RESEARCH COUNCIL STUDY.

"(a) AGREEMENT FOR STUDY.—The Secretary shall offer to enter into an agreement with the National Research Council under which the National Research Council shall—

"(1) conduct a study of the progress made under the methane hydrate research and development program implemented under this Act; and

"(2) make recommendations for future methane hydrate research and development needs.

"(b) REPORT.—Not later than September 30, 2009, the Secretary shall submit to Congress a report containing the findings and recommendations of the National Research Council under this section.

"SEC. 6. REPORTS AND STUDIES FOR CONGRESS.

"The Secretary shall provide to the Committee on Science of the House of Representatives and the Committee on Energy and Natural Resources of the Senate copies of any report or study that the Department of Energy prepares at the direction of any committee of Congress relating to the methane hydrate research and development program implemented under this Act.

"SEC. 7. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated to the Secretary to carry out this Act, to remain available until expended—

"(1) $15,000,000 for fiscal year 2006;

"(2) $20,000,000 for fiscal year 2007;

"(3) $30,000,000 for fiscal year 2008;

"(4) $40,000,000 for fiscal year 2009; and

"(5) $50,000,000 for fiscal year 2010.".

(b) RECLASSIFICATION.—The Law Revision Counsel shall reclassify the Methane Hydrate Research and Development Act of 2000 (30 U.S.C. 1902 note; Public Law 106–193) to a new chapter at the end of title 30, United States Code.

Subtitle G—Science

SEC. 971. SCIENCE.

(a) IN GENERAL.—The Secretary shall conduct, through the Office of Science, programs of research, development, demonstration, and commercial application in high energy physics, nuclear physics, biological and environmental research, basic energy sciences, advanced scientific computing research, and fusion energy sciences, including activities described in this subtitle. The programs shall include support for facilities and infrastructure, education, outreach, information, analysis, and coordination activities.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out research, development, demonstration, and commercial application activities of the Office of Science, including activities authorized under this subtitle (including the amounts authorized under the amendment made by section 976(b) and including basic energy sciences, advanced scientific and computing research, biological and environmental research, fusion energy sciences, high energy physics, nuclear physics, research analysis, and infrastructure support)—

(1) $4,153,000,000 for fiscal year 2007;

(2) $4,586,000,000 for fiscal year 2008; and

(3) $5,200,000,000 for fiscal year 2009.

(c) ALLOCATIONS.—From amounts authorized under subsection (b), the following sums are authorized:

(1) For activities under the Fusion Energy Sciences program (including activities under section 972)—

(A) $355,500,000 for fiscal year 2007;

(B) $369,500,000 for fiscal year 2008;

(C) $384,800,000 for fiscal year 2009; and

(D) in addition to the amounts authorized under subparagraphs (A), (B), and (C), such sums as may be necessary for ITER construction, consistent with the limitations of section 972(c)(5).

(2) For activities under the catalysis research program under section 973—

(A) $36,500,000 for fiscal year 2007;

(B) $38,200,000 for fiscal year 2008; and

(C) such sums as may be necessary for fiscal year 2009.

(3) For activities under the Systems Biology Program under section 977 such sums as may be necessary for each of fiscal years 2007 through 2009.

(4) For activities under the Energy and Water Supplies program under section 979, $30,000,000 for each of fiscal years 2007 through 2009.

(5) For the energy research fellowships programs under section 984, $40,000,000 for each of fiscal years 2007 through 2009.

(6) For the advanced scientific computing activities under section 976—

(A) $270,000,000 for fiscal year 2007;

(B) $350,000,000 for fiscal year 2008; and

(C) $375,000,000 for fiscal year 2009.

(7) For the science and engineering education pilot program under section 983—

(A) $4,000,000 for each of fiscal years 2007 and 2008; and

(B) $8,000,000 for fiscal year 2009.

(d) INTEGRATED BIOENERGY RESEARCH AND DEVELOPMENT.—In addition to amounts otherwise authorized by this section, there are authorized to be appropriated to the Secretary for integrated bioenergy research and development programs, projects, and activities, $49,000,000 for each of the fiscal years 2005 through 2009. Activities funded under this subsection shall be coordinated with ongoing related programs of other Federal agencies, including the Plant Genome Program of the National Science Foundation. Of the funds authorized under this subsection, at least $5,000,000 for each fiscal year shall be for training and education targeted to minority and socially disadvantaged farmers and ranchers.

SEC. 972. FUSION ENERGY SCIENCES PROGRAM.

(a) DECLARATION OF POLICY.—It shall be the policy of the United States to conduct research, development, demonstration, and commercial applications to provide for the scientific, engineering, and commercial infrastructure necessary to ensure that the United States is competitive with other countries in providing fusion energy for its own needs and the needs of other countries, including by demonstrating electric power or hydrogen production for the United States energy grid using fusion energy at the earliest date.

(b) PLANNING.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary shall submit to Congress a plan (with proposed cost estimates, budgets, and lists of potential international partners) for the implementation of the policy described in subsection (a) in a manner that ensures that—

(A) existing fusion research facilities are more fully used;

(B) fusion science, technology, theory, advanced computation, modeling, and simulation are strengthened;

(C) new magnetic and inertial fusion research and development facilities are selected based on scientific innovation and cost effectiveness, and the potential of the facilities to advance the goal of practical fusion energy at the earliest date practicable;

(D) facilities that are selected are funded at a cost-effective rate;

(E) communication of scientific results and methods between the fusion energy science community and the broader scientific and technology communities is improved;

(F) inertial confinement fusion facilities are used to the extent practicable for the purpose of inertial fusion energy research and development;

(G) attractive alternative inertial and magnetic fusion energy approaches are more fully explored; and

(H) to the extent practicable, the recommendations of the Fusion Energy Sciences Advisory Committee in the report on workforce planning, dated March 2004, are carried out, including periodic reassessment of program needs.

(2) COSTS AND SCHEDULES.—The plan shall also address the status of and, to the extent practicable, costs and schedules for—

(A) the design and implementation of international or national facilities for the testing of fusion materials; and

(B) the design and implementation of international or national facilities for the testing and development of key fusion technologies.

(c) UNITED STATES PARTICIPATION IN ITER.—

(1) DEFINITIONS.—In this subsection:

(A) CONSTRUCTION.—

(i) IN GENERAL.—The term "construction" means—

(I) the physical construction of the ITER facility; and

(II) the physical construction, purchase, or manufacture of equipment or components that are specifically designed for the ITER facility.

(ii) EXCLUSIONS.—The term "construction" does not include the design of the facility, equipment, or components.

(B) ITER.—The term "ITER" means the international burning plasma fusion research project in which the President announced United States participation on January 30, 2003, or any similar international project.

(2) PARTICIPATION.—The United States may participate in the ITER only in accordance with this subsection.

(3) AGREEMENT.—

(A) IN GENERAL.—The Secretary may negotiate an agreement for United States participation in the ITER.

(B) CONTENTS.—Any agreement for United States participation in the ITER shall, at a minimum—

(i) clearly define the United States financial contribution to construction and operating costs, as well as any other costs associated with a project;

(ii) ensure that the share of high-technology components of the ITER manufactured in the United States is at least proportionate to the United States financial contribution to the ITER;

(iii) ensure that the United States will not be financially responsible for cost overruns in components manufactured in other ITER participating countries;

(iv) guarantee the United States full access to all data generated by the ITER;

(v) enable United States researchers to propose and carry out an equitable share of the experiments at the ITER;

(vi) provide the United States with a role in all collective decisionmaking related to the ITER; and

(vii) describe the process for discontinuing or decommissioning the ITER and any United States role in that process.

(4) PLAN.—

(A) DEVELOPMENT.—The Secretary, in consultation with the Fusion Energy Sciences Advisory Committee, shall develop a plan for the participation of United States scientists in the ITER that shall include—

(i) the United States research agenda for the ITER;

(ii) methods to evaluate whether the ITER is promoting progress toward making fusion a reliable and affordable source of power; and

(iii) a description of how work at the ITER will relate to other elements of the United States fusion program.

(B) REVIEW.—The Secretary shall request a review of the plan by the National Academy of Sciences.

(5) LIMITATION.—No Federal funds shall be expended for the construction of the ITER until the Secretary has submitted to Congress—

(A) the agreement negotiated in accordance with paragraph (3) and 120 days have elapsed since that submission;

(B) a report describing the management structure of the ITER and providing a fixed dollar estimate of the cost of United States participation in the construction of the ITER, and 120 days have elapsed since that submission;

(C) a report describing how United States participation in the ITER will be funded without reducing funding for other programs in the Office of Science (including other fusion programs), and 60 days have elapsed since that submission; and

(D) the plan required by paragraph (4) (but not the National Academy of Sciences review of that plan), and 60 days have elapsed since that submission.

(6) ALTERNATIVE TO ITER.—

(A) IN GENERAL.—If at any time during the negotiations on the ITER, the Secretary determines that construction and operation of the ITER is unlikely or infeasible, the Secretary shall submit to Congress, along with the budget request of the President submitted to Congress for the following fiscal year, a plan for implementing a domestic burning plasma experiment such as the Fusion Ignition Research Experiment, including costs and schedules for the plan.

(B) ADMINISTRATION.—The Secretary shall—

(i) refine the plan in full consultation with the Fusion Energy Sciences Advisory Committee; and

(ii) transmit the plan to the National Academy of Sciences for review.

SEC. 973. CATALYSIS RESEARCH PROGRAM.

(a) ESTABLISHMENT.—The Secretary, acting through the Office of Science, shall support a program of research and development in catalysis science consistent with the statutory authorities of the Department related to research and development.

(b) COMPONENTS.—The program shall include efforts to—

(1) enable catalyst design using combinations of experimental and mechanistic methodologies coupled with computational modeling of catalytic reactions at the molecular level;

(2) develop techniques for high throughput synthesis, assay, and characterization at nanometer and subnanometer scales in-situ under actual operating conditions;

(3) synthesize catalysts with specific site architectures;

(4) conduct research on the use of precious metals for catalysis; and

(5) translate molecular understanding to the design of catalytic compounds.

(c) DUTIES OF THE OFFICE OF SCIENCE.—In carrying out the program, the Director of the Office of Science shall—

(1) support both individual investigators and multidisciplinary teams of investigators to pioneer new approaches in catalytic design;

(2) develop, plan, construct, acquire, share, or operate special equipment or facilities for the use of investigators in collaboration with national user facilities, such as nanoscience and engineering centers;

(3) support technology transfer activities to benefit industry and other users of catalysis science and engineering; and

(4) coordinate research and development activities with industry and other Federal agencies.

(d) ASSESSMENT.—Not later than 3 years after the date of enactment of this Act, the Secretary shall enter into an arrangement with the National Academy of Sciences to—

(1) review the catalysis program to measure—

(A) gains made in the fundamental science of catalysis; and

(B) progress towards developing new fuels for energy production and material fabrication processes; and

(2) submit to Congress a report describing the results of the review.

SEC. 974. HYDROGEN.

(a) IN GENERAL.—The Secretary shall conduct a program of fundamental research and development in support of programs authorized under title VIII.

(b) METHODS.—The program shall include support for methods of generating hydrogen without the use of natural gas.

SEC. 975. SOLID STATE LIGHTING.

The Secretary shall conduct a program of fundamental research on solid state lighting in support of the Next Generation Lighting Initiative carried out under section 912.

SEC. 976. ADVANCED SCIENTIFIC COMPUTING FOR ENERGY MISSIONS.

(a) PROGRAM.—

(1) IN GENERAL.—The Secretary shall conduct an advanced scientific computing research and development program that includes activities related to applied mathematics and activities authorized by the Department of Energy High-End Computing Revitalization Act of 2004 (15 U.S.C. 5541 et seq.).

(2) GOAL.—The Secretary shall carry out the program with the goal of supporting departmental missions, and providing the high-performance computational, networking, advanced visualization technologies, and workforce resources, that are required for world leadership in science.

(b) HIGH-PERFORMANCE COMPUTING.—Section 203 of the High-Performance Computing Act of 1991 (15 U.S.C. 5523) is amended to read as follows:

"SEC. 203. DEPARTMENT OF ENERGY ACTIVITIES.

"(a) GENERAL RESPONSIBILITIES.—As part of the Program described in title I, the Secretary of Energy shall—

"(1) conduct and support basic and applied research in high-performance computing and networking to support fundamental research in science and engineering disciplines related to energy applications; and

"(2) provide computing and networking infrastructure support, including—

"(A) the provision of high-performance computing systems that are among the most advanced in the world in terms of performance in solving scientific and engineering problems; and

"(B) support for advanced software and applications development for science and engineering disciplines related to energy applications.

"(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy such sums as are necessary to carry out this section.".

SEC. 977. SYSTEMS BIOLOGY PROGRAM.

(a) PROGRAM.—

(1) ESTABLISHMENT.—The Secretary shall establish a research, development, and demonstration program in microbial and plant systems biology, protein science, and computational biology to support the energy, national security, and environmental missions of the Department.

(2) GRANTS.—The program shall support individual researchers and multidisciplinary teams of researchers through competitive, merit-reviewed grants.

(3) CONSULTATION.—In carrying out the program, the Secretary shall consult with other Federal agencies that conduct genetic and protein research.

(b) GOALS.—The program shall have the goal of developing technologies and methods based on the biological functions of genomes, microbes, and plants that—

(1) can facilitate the production of fuels, including hydrogen;

(2) convert carbon dioxide to organic carbon;

(3) detoxify soils and water, including at facilities of the Department, contaminated with heavy metals and radiological materials; and

(4) address other Department missions as identified by the Secretary.

(c) PLAN.—

(1) DEVELOPMENT OF PLAN.—Not later than 1 year after the date of enactment of this Act, the Secretary shall prepare and transmit to Congress a research plan describing how the program authorized pursuant to this section will be undertaken to accomplish the program goals established in subsection (b).

(2) REVIEW OF PLAN.—The Secretary shall contract with the National Academy of Sciences to review the research plan developed under this subsection. The Secretary shall transmit the review to Congress not later than 18 months after transmittal of the research plan under paragraph (1), along with the Secretary's response to the recommendations contained in the review.

(d) USER FACILITIES AND ANCILLARY EQUIPMENT.—Within the funds authorized to be appropriated pursuant to this subtitle, amounts shall be available for projects to develop, plan, construct, acquire, or operate special equipment, instrumentation, or facilities, including user facilities at National Laboratories, for researchers conducting research, development, demonstration, and commercial application in systems biology and proteomics and associated biological disciplines.

(e) PROHIBITION ON BIOMEDICAL AND HUMAN CELL AND HUMAN SUBJECT RESEARCH.—

(1) NO BIOMEDICAL RESEARCH.—In carrying out the program under this section, the Secretary shall not conduct biomedical research.

(2) LIMITATIONS.—Nothing in this section shall authorize the Secretary to conduct any research or demonstrations—

(A) on human cells or human subjects; or

(B) designed to have direct application with respect to human cells or human subjects.

SEC. 978. FISSION AND FUSION ENERGY MATERIALS RESEARCH PROGRAM.

(a) IN GENERAL.—Along with the budget request of the President submitted to Congress for fiscal year 2007, the Secretary shall establish a research and development program on material science issues presented by advanced fission reactors and the fusion energy program of the Department.

(b) ADMINISTRATION.—In carrying out the program, the Secretary shall develop—

(1) a catalog of material properties required for applications described in subsection (a);

(2) theoretical models for materials possessing the required properties;

(3) benchmark models against existing data; and

(4) a roadmap to guide further research and development in the area covered by the program.

SEC. 979. ENERGY AND WATER SUPPLIES.

(a) IN GENERAL.—The Secretary shall carry out a program of research, development, demonstration, and commercial application to—

(1) address energy-related issues associated with provision of adequate water supplies, optimal management, and efficient use of water;

(2) address water-related issues associated with the provision of adequate supplies, optimal management, and efficient use of energy; and

(3) assess the effectiveness of existing programs within the Department and other Federal agencies to address these energy and water related issues.

(b) PROGRAM ELEMENTS.—The program under this section shall include—

(1) arsenic treatment;

(2) desalination; and

(3) planning, analysis, and modeling of energy and water supply and demand.

(c) COLLABORATION.—In carrying out this section, the Secretary shall consult with the Administrator of the Environmental Protection Agency, the Secretary of the Interior, the Chief Engineer of the Army Corps of Engineers, the Secretary of Commerce, the Secretary of Defense, and other Federal agencies as appropriate.

(d) FACILITIES.—The Secretary may utilize all existing facilities within the Department and may design and construct additional facilities as needed to carry out the purposes of this program.

(e) ADVISORY COMMITTEE.—The Secretary shall establish or utilize an advisory committee to provide independent advice and review of the program.

(f) REPORTS.—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to Congress a report on the assessment described in subsection (b) and recommendations for future actions.

SEC. 980. SPALLATION NEUTRON SOURCE.

(a) DEFINITIONS.—In this section:

(1) SING.—The term "SING" means the Spallation Neutron Source Instruments Next Generation major item of equipment.

(2) SNS POWER UPGRADE.—The term "SNS power upgrade" means the Spallation Neutron Source power upgrade described in the 20-year facilities plan of the Office of Science of the Department.

(3) SNS SECOND TARGET STATION.—The term "SNS second target station" the Spallation Neutron Source second target station described in the 20-year facilities plan of the Office of Science of the Department.

(4) SPALLATION NEUTRON SOURCE FACILITY.—The terms "Spallation Neutron Source Facility" and "Facility" mean the completed Spallation Neutron Source scientific user facility located at Oak Ridge National Laboratory, Oak Ridge, Tennessee.

(5) SPALLATION NEUTRON SOURCE PROJECT.—The terms "Spallation Neutron Source Project" and "Project" means Department Project 99–E–334, Oak Ridge National Laboratory, Oak Ridge, Tennessee.

(b) SPALLATION NEUTRON SOURCE PROJECT.—

(1) IN GENERAL.—The Secretary shall submit to Congress, as part of the annual budget request of the President submitted to Congress, a report on progress on the Spallation Neutron Source Project.

(2) CONTENTS.—The report shall include for the Project—

(A) a description of the achievement of milestones;

(B) a comparison of actual costs to estimated costs; and

(C) any changes in estimated Project costs or schedule.

(c) SPALLATION NEUTRON SOURCE FACILITY PLAN.—

(1) IN GENERAL.—The Secretary shall develop an operational plan for the Spallation Neutron Source Facility that ensures that the Facility is employed to the full capability of the Facility in support of the study of advanced materials, nanoscience, and other missions of the Office of Science of the Department.

(2) PLAN.—The operational plan shall—

(A) include a plan for the operation of an effective scientific user program that—

(i) is based on peer review of proposals submitted for use of the Facility;

(ii) includes scientific and technical support to ensure that external users, including researchers based at institutions of higher education, are able to make full use of a variety of high quality scientific instruments; and

(iii) phases in systems upgrades to ensure that the Facility remains at the forefront of international scientific endeavors in the field of the

Facility throughout the operating life of the Facility;

(B) include an ongoing program to develop new instruments that builds on the high performance neutron source and that allows neutron scattering techniques to be applied to a growing range of scientific problems and disciplines; and

(C) address the status of and, to the maximum extent practicable, costs and schedules for—

(i) full user mode operations of the Facility;

(ii) instrumentation built at the Facility during the operating phase through full use of the experimental hall, including the SING;

(iii) the SNS power upgrade; and

(iv) the SNS second target station.

(d) AUTHORIZATION OF APPROPRIATIONS.—

(1) SPALLATION NEUTRON SOURCE PROJECT.—There is authorized to be appropriated to carry out the Spallation Neutron Source Project for the lifetime of the Project $1,411,700,000 for total project costs, of which—

(A) $1,192,700,000 shall be used for the costs of construction; and

(B) $219,000,000 shall be used for other Project costs.

(2) SPALLATION NEUTRON SOURCE FACILITY.—

(A) IN GENERAL.—Except as provided in subparagraph (B), there is authorized to be appropriated for the Spallation Neutron Source Facility for—

(i) the SING, $75,000,000 for each of fiscal year 2007 through 2009; and

(ii) the SNS power upgrade, $160,000,000, to remain available until expended.

(B) INSUFFICIENT STOCKPILES OF HEAVY WATER.—If stockpiles of heavy water of the Department are insufficient to meet the needs of the Facility, there is authorized to be appropriated for the Facility $12,000,000 for fiscal year 2007.

SEC. 981. RARE ISOTOPE ACCELERATOR.

(a) ESTABLISHMENT.—The Secretary shall construct and operate a Rare Isotope Accelerator. The Secretary shall commence construction no later than September 30, 2008.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this section. The Secretary shall not spend more than $1,100,000,000 in Federal funds for all activities associated with the Rare Isotope Accelerator, prior to operation of the Accelerator.

SEC. 982. OFFICE OF SCIENTIFIC AND TECHNICAL INFORMATION.

The Secretary, through the Office of Scientific and Technical Information, shall maintain within the Department publicly available collections of scientific and technical information resulting from research, development, demonstration, and commercial applications activities supported by the Department.

SEC. 983. SCIENCE AND ENGINEERING EDUCATION PILOT PROGRAM.

(a) ESTABLISHMENT OF PILOT PROGRAM.—The Secretary shall award a grant to a Southeastern United States consortium of major research universities that currently advances science and education by partnering with National Laboratories, to establish a regional pilot program of its SEEK-16 program for enhancing scientific, technological, engineering, and mathematical literacy, creativity, and decision-making. The consortium shall include leading research universities, 1 or more universities that train substantial numbers of elementary and secondary school teachers, and (where appropriate) National Laboratories.

(b) PROGRAM ELEMENTS.—The regional pilot program shall include—

(1) expanding strategic, formal partnerships among universities with strength in research, universities that train substantial numbers of elementary and secondary school teachers, and the private sector;

(2) combining Department expertise with 1 or more National Aeronautics and Space Administration Educator Resource Centers;

(3) developing programs to permit current and future teachers to participate in ongoing research projects at National Laboratories and research universities and to adapt lessons learned to the classroom;

(4) designing and implementing course work;

(5) designing and implementing a strategy for measuring and assessing progress under the program; and

(6) developing models for transferring knowledge gained under the pilot program to other institutions and areas of the United States.

(c) CATEGORIZATION.—A grant under this section shall be considered an authorized activity under section 3165 of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381b).

(d) REPORT.—No later than 2 years after the award of the grant, the Secretary shall transmit to Congress a report outlining lessons learned and, if determined appropriate by the Secretary, containing a plan for expanding the program throughout the United States.

SEC. 984. ENERGY RESEARCH FELLOWSHIPS.

(a) POSTDOCTORAL FELLOWSHIP PROGRAM.—The Secretary shall establish a program under which the Secretary provides fellowships to encourage outstanding young scientists and engineers to pursue postdoctoral research appointments in energy research and development at institutions of higher education of their choice.

(b) SENIOR RESEARCH FELLOWSHIPS.—

(1) IN GENERAL.—The Secretary shall establish a program under which the Secretary provides fellowships to allow outstanding senior researchers and their research groups in energy research and development to explore research and development topics of their choosing for a period of not less than 3 years, to be determined by the Secretary.

(2) CONSIDERATION.—In providing a fellowship under the program described in paragraph (1), the Secretary shall consider—

(A) the past scientific or technical accomplishment of a senior researcher; and

(B) the potential for continued accomplishment by the researcher during the period of the fellowship.

SEC. 984A. SCIENCE AND TECHNOLOGY SCHOLARSHIP PROGRAM.

(a) IN GENERAL.—The Secretary is authorized to establish a Science and Technology Scholarship Program to award scholarships to individuals that is designed to recruit and prepare students for careers in the Department and National Laboratories.

(b) SERVICE REQUIREMENT.—The Secretary may require that an individual receiving a scholarship under this section serve as a full-time employee of the Department or a National Laboratory for a fixed period in return for receiving the scholarship.

Subtitle H—International Cooperation

SEC. 985. WESTERN HEMISPHERE ENERGY COOPERATION.

(a) PROGRAM.—The Secretary shall carry out a program to promote cooperation on energy issues with countries of the Western Hemisphere.

(b) ACTIVITIES.—Under the program, the Secretary shall fund activities to work with countries of the Western Hemisphere to—

(1) increase the production of energy supplies;

(2) improve energy efficiency; and

(3) assist in the development and transfer of energy supply and efficiency technologies that would have a beneficial impact on world energy markets.

(c) PARTICIPATION BY INSTITUTIONS OF HIGHER EDUCATION.—To the extent practicable, the Secretary shall carry out the program under this section with the participation of institutions of higher education so as to take advantage of the acceptance of institutions of higher education by countries of the Western Hemisphere as sources of unbiased technical and policy expertise when assisting the Secretary in—

(1) evaluating new technologies;

(2) resolving technical issues;

(3) working with those countries in the development of new policies; and

(4) training policymakers, particularly in the case of institutions of higher education that involve the participation of minority students, such as—

(A) Hispanic-serving institutions; and

(B) part B institutions.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section—

(1) $10,000,000 for fiscal year 2007;

(2) $13,000,000 for fiscal year 2008; and

(3) $16,000,000 for fiscal year 2009.

SEC. 986. COOPERATION BETWEEN UNITED STATES AND ISRAEL.

(a) FINDINGS.—Congress finds that—

(1) on February 1, 1996, the United States and Israel signed the agreement entitled "Agreement between the Department of Energy of the United States of America and the Ministry of Energy and Infrastructure of Israel Concerning Energy Cooperation", (referred to in this section as the "Agreement") to establish a framework for collaboration between the United States and Israel in energy research and development activities;

(2) the Agreement entered into force in February 2000;

(3) in February 2005, the Agreement was automatically renewed for 1 additional 5-year period pursuant to Article X of the Agreement; and

(4) under the Agreement, the United States and Israel may cooperate in energy research and development in a variety of alternative and advanced energy sectors.

(b) REPORT TO CONGRESS.—Not later than 90 days after the date of enactment of this Act, the Secretary shall submit to the Committee on Energy and Natural Resources and the Committee on Foreign Relations of the Senate and the Committee on Energy and Commerce and the Committee on International Relations of the House of Representatives a report that describes—

(1) the ways in which the United States and Israel have cooperated on energy research and development activities under the Agreement;

(2) projects initiated pursuant to the Agreement; and

(3) plans for future cooperation and joint projects under the Agreement.

(c) SENSE OF CONGRESS.—It is the sense of Congress that energy cooperation between the Governments of the United States and Israel is mutually beneficial in the development of energy technology.

SEC. 986A. INTERNATIONAL ENERGY TRAINING.

(a) IN GENERAL.—The Secretary, in consultation with the Secretary of Commerce, the Secretary of the Interior, and Secretary of State, and the Federal Energy Regulatory Commission, shall coordinate training and outreach efforts for international commercial energy markets in countries with developing and restructuring economies.

(b) COMPONENTS.—The training and outreach efforts referred to in subsection (a) may include—

(1) production-related fiscal regimes;

(2) grid and network issues;

(3) energy user and demand side response;

(4) international trade of energy; and

(5) international transportation of energy.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry

out this section $1,500,000 for each of fiscal years 2007 through 2010.

Subtitle I—Research Administration and Operations

SEC. 987. AVAILABILITY OF FUNDS.

Funds authorized to be appropriated to the Department under this Act or an amendment made by this Act shall remain available until expended.

SEC. 988. COST SHARING.

(a) APPLICABILITY.—Notwithstanding any other provision of law, in carrying out a research, development, demonstration, or commercial application program or activity that is initiated after the date of enactment of this section, the Secretary shall require cost-sharing in accordance with this section.

(b) RESEARCH AND DEVELOPMENT.—

(1) IN GENERAL.—Except as provided in paragraphs (2) and (3) and subsection (f), the Secretary shall require not less than 20 percent of the cost of a research or development activity described in subsection (a) to be provided by a non-Federal source.

(2) EXCLUSION.—Paragraph (1) shall not apply to a research or development activity described in subsection (a) that is of a basic or fundamental nature, as determined by the appropriate officer of the Department.

(3) REDUCTION.—The Secretary may reduce or eliminate the requirement of paragraph (1) for a research and development activity of an applied nature if the Secretary determines that the reduction is necessary and appropriate.

(c) DEMONSTRATION AND COMMERCIAL APPLICATION.—

(1) IN GENERAL.—Except as provided in paragraph (2) and subsection (f), the Secretary shall require that not less than 50 percent of the cost of a demonstration or commercial application activity described in subsection (a) to be provided by a non-Federal source.

(2) REDUCTION OF NON-FEDERAL SHARE.—The Secretary may reduce the non-Federal share required under paragraph (1) if the Secretary determines the reduction to be necessary and appropriate, taking into consideration any technological risk relating to the activity.

(d) CALCULATION OF AMOUNT.—In calculating the amount of a non-Federal contribution under this section, the Secretary—

(1) may include allowable costs in accordance with the applicable cost principles, including—

(A) cash;

(B) personnel costs;

(C) the value of a service, other resource, or third party in-kind contribution determined in accordance with the applicable circular of the Office of Management and Budget;

(D) indirect costs or facilities and administrative costs; or

(E) any funds received under the power program of the Tennessee Valley Authority (except to the extent that such funds are made available under an annual appropriation Acts); and

(2) shall not include—

(A) revenues or royalties from the prospective operation of an activity beyond the time considered in the award;

(B) proceeds from the prospective sale of an asset of an activity; or

(C) other appropriated Federal funds.

(e) REPAYMENT OF FEDERAL SHARE.—The Secretary shall not require repayment of the Federal share of a cost-shared activity under this section as a condition of making an award.

(f) EXCLUSIONS.—This section shall not apply to—

(1) a cooperative research and development agreement under the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.);

(2) a fee charged for the use of a Department facility; or

(3) an award under—

(A) the small business innovation research program under section 9 of the Small Business Act (15 U.S.C. 638); or

(B) the small business technology transfer program under that section.

SEC. 989. MERIT REVIEW OF PROPOSALS.

(a) AWARDS.—Awards of funds authorized under this Act or an amendment made by this Act shall be made only after an impartial review of the scientific and technical merit of the proposals for the awards has been carried out by or for the Department.

(b) COMPETITION.—Competitive awards under this Act shall involve competitions open to all qualified entities within 1 or more of the following categories:

(1) Institutions of higher education.

(2) National Laboratories.

(3) Nonprofit and for-profit private entities.

(4) State and local governments.

(5) Consortia of entities described in paragraphs (1) through (4).

(c) SENSE OF CONGRESS.—It is the sense of Congress that research, development, demonstration, and commercial application activities carried out by the Department should be awarded using competitive procedures, to the maximum extent practicable.

SEC. 990. EXTERNAL TECHNICAL REVIEW OF DEPARTMENTAL PROGRAMS.

(a) NATIONAL ENERGY RESEARCH AND DEVELOPMENT ADVISORY BOARDS.—

(1) ESTABLISHMENT.—The Secretary shall establish 1 or more advisory boards to review research, development, demonstration, and commercial application programs of the Department in energy efficiency, renewable energy, nuclear energy, and fossil energy.

(2) ALTERNATIVES.—The Secretary may—

(A) designate an existing advisory board within the Department to fulfill the responsibilities of an advisory board under this section; and

(B) enter into appropriate arrangements with the National Academy of Sciences to establish such an advisory board.

(b) USE OF EXISTING COMMITTEES.—The Secretary shall continue to use the scientific program advisory committees chartered under the Federal Advisory Committee Act (5 U.S.C. App.) by the Office of Science to oversee research and development programs under that Office.

(c) MEMBERSHIP.—Each advisory board under this section shall consist of persons with appropriate expertise representing a diverse range of interests.

(d) MEETINGS AND GOALS.—

(1) MEETINGS.—Each advisory board under this section shall meet at least semiannually to review and advise on the progress made by the respective 1 or more research, development, demonstration, and commercial application programs.

(2) GOALS.—The advisory board shall review the measurable cost and performance-based goals for the programs as established under section 902, and the progress on meeting the goals.

(e) PERIODIC REVIEWS AND ASSESSMENTS.—

(1) IN GENERAL.—The Secretary shall enter into appropriate arrangements with the National Academy of Sciences to conduct periodic reviews and assessments of—

(A) the research, development, demonstration, and commercial application programs authorized by this Act and amendments made by this Act;

(B) the measurable cost and performance-based goals for the programs as established under section 902, if any; and

(C) the progress on meeting the goals.

(2) TIMING.—The reviews and assessments shall be conducted every 5 years or more often as the Secretary considers necessary.

(3) REPORTS.—The Secretary shall submit to Congress reports describing the results of all the reviews and assessments.

SEC. 991. NATIONAL LABORATORY DESIGNATION.

After the date of enactment of this Act, the Secretary shall not designate a facility that is not listed in section 2(3) as a National Laboratory.

SEC. 992. REPORT ON EQUAL EMPLOYMENT OPPORTUNITY PRACTICES.

Not later than 12 months after the date of enactment of this Act, and biennially thereafter, the Secretary shall transmit to Congress a report on the equal employment opportunity practices at National Laboratories. Such report shall include—

(1) a thorough review of each National Laboratory contractor's equal employment opportunity policies, including promotion to management and professional positions and pay raises;

(2) a statistical report on complaints and their disposition in the National Laboratories;

(3) a description of how equal employment opportunity practices at the National Laboratories are treated in the contract and in calculating award fees for each contractor;

(4) a summary of disciplinary actions and their disposition by either the Department or the relevant contractors for each National Laboratory;

(5) a summary of outreach efforts to attract women and minorities to the National Laboratories;

(6) a summary of efforts to retain women and minorities in the National Laboratories; and

(7) a summary of collaboration efforts with the Office of Federal Contract Compliance Programs to improve equal employment opportunity practices at the National Laboratories.

SEC. 993. STRATEGY AND PLAN FOR SCIENCE AND ENERGY FACILITIES AND INFRASTRUCTURE.

(a) FACILITY AND INFRASTRUCTURE POLICY.—

(1) IN GENERAL.—The Secretary shall develop and implement a strategy for facilities and infrastructure supported primarily from the Office of Science, the Office of Energy Efficiency and Renewable Energy, the Office of Fossil Energy, or the Office of Nuclear Energy, Science and Technology Programs at all National Laboratories and single-purpose research facilities.

(2) STRATEGY.—The strategy shall provide cost-effective means for—

(A) maintaining existing facilities and infrastructure;

(B) closing unneeded facilities;

(C) making facility modifications; and

(D) building new facilities.

(b) REPORT.—

(1) IN GENERAL.—The Secretary shall prepare and submit, along with the budget request of the President submitted to Congress for fiscal year 2008, a report describing the strategy developed under subsection (a).

(2) CONTENTS.—For each National Laboratory and single-purpose research facility that is primarily used for science and energy research, the report shall contain—

(A) the current priority list of proposed facilities and infrastructure projects, including cost and schedule requirements;

(B) a current 10-year plan that demonstrates the reconfiguration of its facilities and infrastructure to meet its missions and to address its long-term operational costs and return on investment;

(C) the total current budget for all facilities and infrastructure funding; and

(D) the current status of each facility and infrastructure project compared to the original baseline cost, schedule, and scope.

SEC. 994. STRATEGIC RESEARCH PORTFOLIO ANALYSIS AND COORDINATION PLAN.

(a) IN GENERAL.—The Secretary shall periodically review all of the science and technology activities of the Department in a strategic

framework that takes into account both the frontiers of science to which the Department can contribute and the national needs relevant to the Department's statutory missions.

(b) Coordination Analysis and Plan.—As part of the review under subsection (a), the Secretary shall develop a coordination plan to improve coordination and collaboration in research, development, demonstration, and commercial application activities across Department organizational boundaries.

(c) Plan Contents.—The plan shall describe—

(1) cross-cutting scientific and technical issues and research questions that span more than 1 program or major office of the Department;

(2) how the applied technology programs of the Department are coordinating their activities, and addressing those questions;

(3) ways in which the technical interchange within the Department, particularly between the Office of Science and the applied technology programs, can be enhanced, including ways in which the research agendas of the Office of Science and the applied programs can interact and assist each other;

(4) a description of how the Secretary will ensure that the Department's overall research agenda include, in addition to fundamental, curiosity-driven research, fundamental research related to topics of concern to the applied programs, and applications in Departmental technology programs of research results generated by fundamental, curiosity-driven research.

(d) Plan Transmittal.—Not later than 12 months after the date of enactment of this Act, and every 4 years thereafter, the Secretary shall transmit to Congress the results of the review under subsection (a) and the coordination plan under subsection (b).

SEC. 995. COMPETITIVE AWARD OF MANAGEMENT CONTRACTS.

None of the funds authorized to be appropriated to the Secretary by this title may be used to award a management and operating contract for a National Laboratory (excluding those named in subparagraphs (G), (H), (N), and (O) of section 2 (3)), unless such contract is competitively awarded, or the Secretary grants, on a case-by-case basis, a waiver. The Secretary may not delegate the authority to grant such a waiver and shall submit to Congress a report notifying it of the waiver, and setting forth the reasons for the waiver, at least 60 days prior to the date of the award of such contract.

SEC. 996. WESTERN MICHIGAN DEMONSTRATION PROJECT.

The Administrator of the Environmental Protection Agency, in consultation with the State of Michigan and affected local officials, shall conduct a demonstration project to address the effect of transported ozone and ozone precursors in Southwestern Michigan. The demonstration program shall address projected nonattainment areas in Southwestern Michigan that include counties with design values for ozone of less than .095 based on years 2000 to 2002 or the most current 3-year period of air quality data. The Administrator shall assess any difficulties such areas may experience in meeting the 8-hour national ambient air quality standard for ozone due to the effect of transported ozone or ozone precursors into the areas. The Administrator shall work with State and local officials to determine the extent of ozone and ozone precursor transport, to assess alternatives to achieve compliance with the 8-hour standard apart from local controls, and to determine the timeframe in which such compliance could take place. The Administrator shall complete this demonstration project no later than 2 years after the date of enactment of this section and shall not impose any requirement or sanction under the Clean Air Act (42 U.S.C. 7401 et seq.) that might otherwise apply during the pendency of the demonstration project.

SEC. 997. ARCTIC ENGINEERING RESEARCH CENTER.

(a) In General.—The Secretary of Transportation, in consultation with the Secretary and the United States Arctic Research Commission, shall provide annual grants to a university located adjacent to the Arctic Energy Office of the Department of Energy, to establish and operate a university research center to be headquartered in Fairbanks and to be known as the "Arctic Engineering Research Center" (referred to in this section as the "Center").

(b) Purpose.—The purpose of the Center shall be to conduct research on, and develop improved methods of, construction and use of materials to improve the overall performance of roads, bridges, residential, commercial, and industrial structures, and other infrastructure in the Arctic region, with an emphasis on developing—

(1) new construction techniques for roads, bridges, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure that are capable of withstanding the Arctic environment and using limited energy resources as efficiently as practicable;

(2) technologies and procedures for increasing road, bridge, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure safety, reliability, and integrity in the Arctic region;

(3) new materials and improving the performance and energy efficiency of existing materials for the construction of roads, bridges, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure in the Arctic region; and

(4) recommendations for new local, regional, and State permitting and building codes to ensure transportation and building safety and efficient energy use when constructing, using, and occupying such infrastructure in the Arctic region.

(c) Objectives.—The Center shall carry out—

(1) basic and applied research in the subjects described in subsection (b), the products of which shall be judged by peers or other experts in the field to advance the body of knowledge in road, bridge, rail, and infrastructure engineering in the Arctic region; and

(2) an ongoing program of technology transfer that makes research results available to potential users in a form that can be implemented.

(d) Amount of Grant.—For each of fiscal years 2006 through 2011, the Secretary shall provide a grant in the amount of $3,000,000 to the institution specified in subsection (a) to carry out this section.

(e) Authorization of Appropriations.—There are authorized to be appropriated to carry out this section $3,000,000 for each of fiscal years 2006 through 2011.

SEC. 998. BARROW GEOPHYSICAL RESEARCH FACILITY.

(a) Establishment.—The Secretary of Commerce, in consultation with the Secretaries of Energy and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency, shall establish a joint research facility in Barrow, Alaska, to be known as the "Barrow Geophysical Research Facility", to support scientific research activities in the Arctic.

(b) Authorization of Appropriations.—There are authorized to be appropriated to the Secretaries of Commerce, Energy, and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency for the planning, design, construction, and support of the Barrow Geophysical Research Facility, $61,000,000.

Subtitle J—Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Resources

SEC. 999A. PROGRAM AUTHORITY.

(a) In General.—The Secretary shall carry out a program under this subtitle of research, development, demonstration, and commercial application of technologies for ultra-deepwater and unconventional natural gas and other petroleum resource exploration and production, including addressing the technology challenges for small producers, safe operations, and environmental mitigation (including reduction of greenhouse gas emissions and sequestration of carbon).

(b) Program Elements.—The program under this subtitle shall address the following areas, including improving safety and minimizing environmental impacts of activities within each area:

(1) Ultra-deepwater architecture and technology, including drilling to formations in the Outer Continental Shelf to depths greater than 15,000 feet.

(2) Unconventional natural gas and other petroleum resource exploration and production technology.

(3) The technology challenges of small producers.

(4) Complementary research performed by the National Energy Technology Laboratory for the Department.

(c) Limitation on Location of Field Activities.—Field activities under the program under this subtitle shall be carried out only—

(1) in—

(A) areas in the territorial waters of the United States not under any Outer Continental Shelf moratorium as of September 30, 2002;

(B) areas onshore in the United States on public land administered by the Secretary of the Interior available for oil and gas leasing, where consistent with applicable law and land use plans; and

(C) areas onshore in the United States on State or private land, subject to applicable law; and

(2) with the approval of the appropriate Federal or State land management agency or private land owner.

(d) Activities at the National Energy Technology Laboratory.—The Secretary, through the National Energy Technology Laboratory, shall carry out a program of research and other activities complementary to and supportive of the research programs under subsection (b).

(e) Consultation With Secretary of the Interior.—In carrying out this subtitle, the Secretary shall consult regularly with the Secretary of the Interior.

SEC. 999B. ULTRA-DEEPWATER AND UNCONVENTIONAL ONSHORE NATURAL GAS AND OTHER PETROLEUM RESEARCH AND DEVELOPMENT PROGRAM.

(a) In General.—The Secretary shall carry out the activities under section 999A, to maximize the value of natural gas and other petroleum resources of the United States, by increasing the supply of such resources, through reducing the cost and increasing the efficiency of exploration for and production of such resources, while improving safety and minimizing environmental impacts.

(b) Role of the Secretary.—The Secretary shall have ultimate responsibility for, and oversight of, all aspects of the program under this section.

(c) Role of the Program Consortium.—

(1) In general.—The Secretary shall contract with a corporation that is structured as a consortium to administer the programmatic activities outlined in this chapter. The program consortium shall—

(A) administer the program pursuant to subsection (f)(3), utilizing program administration funds only ;

(B) issue research project solicitations upon approval of the Secretary or the Secretary's designee;

(C) make project awards to research performers upon approval of the Secretary or the Secretary's designee;

(D) disburse research funds to research performers awarded under subsection (f) as directed by the Secretary in accordance with the annual plan under subsection (e); and

(E) carry out other activities assigned to the program consortium by this section.

(2) LIMITATION.—The Secretary may not assign any activities to the program consortium except as specifically authorized under this section.

(3) CONFLICT OF INTEREST.—

(A) PROCEDURES.—The Secretary shall establish procedures—

(i) to ensure that each board member, officer, or employee of the program consortium who is in a decisionmaking capacity under subsection (f)(3) shall disclose to the Secretary any financial interests in, or financial relationships with, applicants for or recipients of awards under this section, including those of his or her spouse or minor child, unless such relationships or interests would be considered to be remote or inconsequential; and

(ii) to require any board member, officer, or employee with a financial relationship or interest disclosed under clause (i) to recuse himself or herself from any oversight under subsection (f)(4) with respect to such applicant or recipient.

(B) FAILURE TO COMPLY.—The Secretary may disqualify an application or revoke an award under this section if a board member, officer, or employee has failed to comply with procedures required under subparagraph (A)(ii).

(d) SELECTION OF THE PROGRAM CONSORTIUM.—

(1) IN GENERAL.—The Secretary shall select the program consortium through an open, competitive process.

(2) MEMBERS.—The program consortium may include corporations, trade associations, institutions of higher education, National Laboratories, or other research institutions. After submitting a proposal under paragraph (4), the program consortium may not add members without the consent of the Secretary.

(3) REQUIREMENT OF SECTION 501(c)(3) STATUS.—The Secretary shall not select a consortium under this section unless such consortium is an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under such section 501(a) of such Code.

(4) SCHEDULE.—Not later than 90 days after the date of enactment of this Act, the Secretary shall solicit proposals from eligible consortia to perform the duties in subsection (c)(1), which shall be submitted not later than 180 days after the date of enactment of this Act. The Secretary shall select the program consortium not later than 270 days after such date of enactment.

(5) APPLICATION.—Applicants shall submit a proposal including such information as the Secretary may require. At a minimum, each proposal shall—

(A) list all members of the consortium;

(B) fully describe the structure of the consortium, including any provisions relating to intellectual property; and

(C) describe how the applicant would carry out the activities of the program consortium under this section.

(6) ELIGIBILITY.—To be eligible to be selected as the program consortium, an applicant must be an entity whose members have collectively demonstrated capabilities and experience in planning and managing research, development, demonstration, and commercial application programs for ultra-deepwater and unconventional natural gas or other petroleum exploration or production.

(7) FOCUS AREAS FOR AWARDS.—

(A) ULTRA-DEEPWATER RESOURCES.—Awards from allocations under section 999H(d)(1) shall focus on the development and demonstration of individual exploration and production technologies as well as integrated systems technologies including new architectures for production in ultra-deepwater.

(B) UNCONVENTIONAL RESOURCES.—Awards from allocations under section 999H(d)(2) shall focus on areas including advanced coalbed methane, deep drilling, natural gas production from tight sands, natural gas production from gas shales, stranded gas, innovative exploration and production techniques, enhanced recovery techniques, and environmental mitigation of unconventional natural gas and other petroleum resources exploration and production.

(C) SMALL PRODUCERS.—Awards from allocations under section 999H(d)(3) shall be made to consortia consisting of small producers or organized primarily for the benefit of small producers, and shall focus on areas including complex geology involving rapid changes in the type and quality of the oil and gas reservoirs across the reservoir; low reservoir pressure; unconventional natural gas reservoirs in coalbeds, deep reservoirs, tight sands, or shales; and unconventional oil reservoirs in tar sands and oil shales.

(e) ANNUAL PLAN.—

(1) IN GENERAL.—The program under this section shall be carried out pursuant to an annual plan prepared by the Secretary in accordance with paragraph (2).

(2) DEVELOPMENT.—

(A) SOLICITATION OF RECOMMENDATIONS.—Before drafting an annual plan under this subsection, the Secretary shall solicit specific written recommendations from the program consortium for each element to be addressed in the plan, including those described in paragraph (4). The program consortium shall submit its recommendations in the form of a draft annual plan.

(B) SUBMISSION OF RECOMMENDATIONS; OTHER COMMENT.—The Secretary shall submit the recommendations of the program consortium under subparagraph (A) to the Ultra-Deepwater Advisory Committee established under section 999D(a) and to the Unconventional Resources Technology Advisory Committee established under section 999D(b), and such Advisory Committees shall provide to the Secretary written comments by a date determined by the Secretary. The Secretary may also solicit comments from any other experts.

(C) CONSULTATION.—The Secretary shall consult regularly with the program consortium throughout the preparation of the annual plan.

(3) PUBLICATION.—The Secretary shall transmit to Congress and publish in the Federal Register the annual plan, along with any written comments received under paragraph (2)(A) and (B).

(4) CONTENTS.—The annual plan shall describe the ongoing and prospective activities of the program under this section and shall include—

(A) a list of any solicitations for awards to carry out research, development, demonstration, or commercial application activities, including the topics for such work, who would be eligible to apply, selection criteria, and the duration of awards; and

(B) a description of the activities expected of the program consortium to carry out subsection (f)(3).

(5) ESTIMATES OF INCREASED ROYALTY RECEIPTS.—The Secretary, in consultation with the Secretary of the Interior, shall provide an annual report to Congress with the President's budget on the estimated cumulative increase in Federal royalty receipts (if any) resulting from the implementation of this subtitle. The initial report under this paragraph shall be submitted in the first President's budget following the completion of the first annual plan required under this subsection.

(f) AWARDS.—

(1) IN GENERAL.—Upon approval of the Secretary the program consortium shall make awards to research performers to carry out research, development, demonstration, and commercial application activities under the program under this section. The program consortium shall not be eligible to receive such awards, but provided that conflict of interest procedures in section 999B(c)(3) are followed, entities who are members of the program consortium are not precluded from receiving research awards as either individual research performers or as research performers who are members of a research collaboration.

(2) PROPOSALS.—Upon approval of the Secretary the program consortium shall solicit proposals for awards under this subsection in such manner and at such time as the Secretary may prescribe, in consultation with the program consortium.

(3) OVERSIGHT.—

(A) IN GENERAL.—The program consortium shall oversee the implementation of awards under this subsection, consistent with the annual plan under subsection (e), including disbursing funds and monitoring activities carried out under such awards for compliance with the terms and conditions of the awards.

(B) EFFECT.—Nothing in subparagraph (A) shall limit the authority or responsibility of the Secretary to oversee awards, or limit the authority of the Secretary to review or revoke awards.

(g) ADMINISTRATIVE COSTS.—

(1) IN GENERAL.—To compensate the program consortium for carrying out its activities under this section, the Secretary shall provide to the program consortium funds sufficient to administer the program. This compensation may include a management fee consistent with Department of Energy contracting practices and procedures.

(2) ADVANCE.—The Secretary shall advance funds to the program consortium upon selection of the consortium, which shall be deducted from amounts to be provided under paragraph (1).

(h) AUDIT.—The Secretary shall retain an independent auditor, which shall include a review by the General Accountability Office, to determine the extent to which funds provided to the program consortium, and funds provided under awards made under subsection (f), have been expended in a manner consistent with the purposes and requirements of this subtitle. The auditor shall transmit a report (including any review by the General Accountability Office) annually to the Secretary, who shall transmit the report to Congress, along with a plan to remedy any deficiencies cited in the report.

(i) ACTIVITIES BY THE UNITED STATES GEOLOGICAL SURVEY.—The Secretary of the Interior, through the United States Geological Survey, shall, where appropriate, carry out programs of long-term research to complement the programs under this section.

(j) PROGRAM REVIEW AND OVERSIGHT.—The National Energy Technology Laboratory, on behalf of the Secretary, shall (1) issue a competitive solicitation for the program consortium, (2) evaluate, select, and award a contract or other agreement to a qualified program consortium, and (3) have primary review and oversight responsibility for the program consortium, including review and approval of research awards proposed to be made by the program consortium, to

ensure that its activities are consistent with the purposes and requirements described in this subtitle. Up to 5 percent of program funds allocated under paragraphs (1) through (3) of section 999H(d) may be used for this purpose, including program direction and the establishment of a site office if determined to be necessary to carry out the purposes of this subsection.

SEC. 999C. ADDITIONAL REQUIREMENTS FOR AWARDS.

(a) DEMONSTRATION PROJECTS.—An application for an award under this subtitle for a demonstration project shall describe with specificity the intended commercial use of the technology to be demonstrated.

(b) FLEXIBILITY IN LOCATING DEMONSTRATION PROJECTS.—Subject to the limitation in section 999A(c), a demonstration project under this subtitle relating to an ultra-deepwater technology or an ultra-deepwater architecture may be conducted in deepwater depths.

(c) INTELLECTUAL PROPERTY AGREEMENTS.—If an award under this subtitle is made to a consortium (other than the program consortium), the consortium shall provide to the Secretary a signed contract agreed to by all members of the consortium describing the rights of each member to intellectual property used or developed under the award.

(d) TECHNOLOGY TRANSFER.—2.5 percent of the amount of each award made under this subtitle shall be designated for technology transfer and outreach activities under this subtitle.

(e) COST SHARING REDUCTION FOR INDEPENDENT PRODUCERS.—In applying the cost sharing requirements under section 988 to an award under this subtitle the Secretary may reduce or eliminate the non-Federal requirement if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in the project.

(f) INFORMATION SHARING.—All results of the research administered by the program consortium shall be made available to the public consistent with Department policy and practice on information sharing and intellectual property agreements.

SEC. 999D. ADVISORY COMMITTEES.

(a) ULTRA-DEEPWATER ADVISORY COMMITTEE.—

(1) ESTABLISHMENT.—Not later than 270 days after the date of enactment of this Act, the Secretary shall establish an advisory committee to be known as the Ultra-Deepwater Advisory Committee.

(2) MEMBERSHIP.—The Advisory Committee under this subsection shall be composed of members appointed by the Secretary, including—

(A) individuals with extensive research experience or operational knowledge of offshore natural gas and other petroleum exploration and production;

(B) individuals broadly representative of the affected interests in ultra-deepwater natural gas and other petroleum production, including interests in environmental protection and safe operations;

(C) no individuals who are Federal employees; and

(D) no individuals who are board members, officers, or employees of the program consortium.

(3) DUTIES.—The Advisory Committee under this subsection shall—

(A) advise the Secretary on the development and implementation of programs under this subtitle related to ultra-deepwater natural gas and other petroleum resources; and

(B) carry out section 999B(e)(2)(B).

(4) COMPENSATION.—A member of the Advisory Committee under this subsection shall serve without compensation but shall receive travel expenses in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

(b) UNCONVENTIONAL RESOURCES TECHNOLOGY ADVISORY COMMITTEE.—

(1) ESTABLISHMENT.—Not later than 270 days after the date of enactment of this Act, the Secretary shall establish an advisory committee to be known as the Unconventional Resources Technology Advisory Committee.

(2) MEMBERSHIP.—The Secretary shall endeavor to have a balanced representation of members on the Advisory Committee to reflect the breadth of geographic areas of potential gas supply. The Advisory Committee under this subsection shall be composed of members appointed by the Secretary, including—

(A) a majority of members who are employees or representatives of independent producers of natural gas and other petroleum, including small producers;

(B) individuals with extensive research experience or operational knowledge of unconventional natural gas and other petroleum resource exploration and production;

(C) individuals broadly representative of the affected interests in unconventional natural gas and other petroleum resource exploration and production, including interests in environmental protection and safe operations;

(D) individuals with expertise in the various geographic areas of potential supply of unconventional onshore natural gas and other petroleum in the United States;

(E) no individuals who are Federal employees; and

(F) no individuals who are board members, officers, or employees of the program consortium.

(3) DUTIES.—The Advisory Committee under this subsection shall—

(A) advise the Secretary on the development and implementation of activities under this subtitle related to unconventional natural gas and other petroleum resources; and

(B) carry out section 999B(e)(2)(B).

(4) COMPENSATION.—A member of the Advisory Committee under this subsection shall serve without compensation but shall receive travel expenses in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

(c) PROHIBITION.—No advisory committee established under this section shall make recommendations on funding awards to particular consortia or other entities, or for specific projects.

SEC. 999E. LIMITS ON PARTICIPATION.

An entity shall be eligible to receive an award under this subtitle only if the Secretary finds—

(1) that the entity's participation in the program under this subtitle would be in the economic interest of the United States; and

(2) that either—

(A) the entity is a United States-owned entity organized under the laws of the United States; or

(B) the entity is organized under the laws of the United States and has a parent entity organized under the laws of a country that affords—

(i) to United States-owned entities opportunities, comparable to those afforded to any other entity, to participate in any cooperative research venture similar to those authorized under this subtitle;

(ii) to United States-owned entities local investment opportunities comparable to those afforded to any other entity; and

(iii) adequate and effective protection for the intellectual property rights of United States-owned entities.

SEC. 999F. SUNSET.

The authority provided by this subtitle shall terminate on September 30, 2014.

SEC. 999G. DEFINITIONS.

In this subtitle:

(1) DEEPWATER.—The term "deepwater" means a water depth that is greater than 200 but less than 1,500 meters.

(2) INDEPENDENT PRODUCER OF OIL OR GAS.—

(A) IN GENERAL.—The term "independent producer of oil or gas" means any person that produces oil or gas other than a person to whom subsection (c) of section 613A of the Internal Revenue Code of 1986 does not apply by reason of paragraph (2) (relating to certain retailers) or paragraph (4) (relating to certain refiners) of section 613A(d) of such Code.

(B) RULES FOR APPLYING PARAGRAPHS (2) AND (4) OF SECTION 613A(d).—For purposes of subparagraph (A), paragraphs (2) and (4) of section 613A(d) of the Internal Revenue Code of 1986 shall be applied by substituting "calendar year" for "taxable year" each place it appears in such paragraphs.

(3) PROGRAM ADMINISTRATION FUNDS.—The term "program administration funds" means funds used by the program consortium to administer the program under this subtitle, but not to exceed 10 percent of the total funds allocated under paragraphs (1) through (3) of section 999H(d).

(4) PROGRAM CONSORTIUM.—The term "program consortium" means the consortium selected under section 999B(d).

(5) PROGRAM RESEARCH FUNDS.—The term "program research funds" means funds awarded to research performers by the program consortium consistent with the annual plan.

(6) REMOTE OR INCONSEQUENTIAL.—The term "remote or inconsequential" has the meaning given that term in regulations issued by the Office of Government Ethics under section 208(b)(2) of title 18, United States Code.

(7) SMALL PRODUCER.—The term "small producer" means an entity organized under the laws of the United States with production levels of less than 1,000 barrels per day of oil equivalent.

(8) ULTRA-DEEPWATER.—The term "ultra-deepwater" means a water depth that is equal to or greater than 1,500 meters.

(9) ULTRA-DEEPWATER ARCHITECTURE.—The term "ultra-deepwater architecture" means the integration of technologies for the exploration for, or production of, natural gas or other petroleum resources located at ultra-deepwater depths.

(10) ULTRA-DEEPWATER TECHNOLOGY.—The term "ultra-deepwater technology" means a discrete technology that is specially suited to address 1 or more challenges associated with the exploration for, or production of, natural gas or other petroleum resources located at ultra-deepwater depths.

(11) UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCE.—The term "unconventional natural gas and other petroleum resource" means natural gas and other petroleum resource located onshore in an economically inaccessible geological formation, including resources of small producers.

SEC. 999H. FUNDING.

(a) OIL AND GAS LEASE INCOME.—For each of fiscal years 2007 through 2017, from any Federal royalties, rents, and bonuses derived from Federal onshore and offshore oil and gas leases issued under the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) and the Mineral Leasing Act (30 U.S.C. 181 et seq.) which are deposited in the Treasury, and after distribution of any such funds as described in subsection (c), $50,000,000 shall be deposited into the Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund (in this section referred to as the "Fund"). For purposes of this section, the term "royalties" excludes proceeds from the sale of royalty production taken in kind and royalty production that is transferred under section 27(a)(3) of the Outer Continental Shelf Lands Act (43 U.S.C. 1353(a)(3)).

(b) OBLIGATIONAL AUTHORITY.—Monies in the Fund shall be available to the Secretary for obligation under this part without fiscal year limitation, to remain available until expended.

(c) PRIOR DISTRIBUTIONS.—The distributions described in subsection (a) are those required by law—

(1) to States and to the Reclamation Fund under the Mineral Leasing Act (30 U.S.C. 191(a)); and

(2) to other funds receiving monies from Federal oil and gas leasing programs, including—

(A) any recipients pursuant to section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g));

(B) the Land and Water Conservation Fund, pursuant to section 2(c) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-5(c));

(C) the Historic Preservation Fund, pursuant to section 108 of the National Historic Preservation Act (16 U.S.C. 470h); and

(D) the coastal impact assistance program established under section 31 of the Outer Continental Shelf Lands Act (as amended by section 384).

(d) ALLOCATION.—Amounts obligated from the Fund under subsection (a)(1) in each fiscal year shall be allocated as follows:

(1) 35 percent shall be for activities under section 999A(b)(1).

(2) 32.5 percent shall be for activities under section 999A(b)(2).

(3) 7.5 percent shall be for activities under section 999A(b)(3).

(4) 25 percent shall be for complementary research under section 999A(b)(4) and other activities under section 999A(b) to include program direction funds, overall program oversight, contract management, and the establishment and operation of a technical committee to ensure that in-house research activities funded under section 999A(b)(4) are technically complementary to, and not duplicative of, research conducted under paragraphs (1), (2), and (3) of section 999A(b).

(e) AUTHORIZATION OF APPROPRIATIONS.—In addition to other amounts that are made available to carry out this section, there is authorized to be appropriated to carry out this section $100,000,000 for each of fiscal years 2007 through 2016.

(f) FUND.—There is hereby established in the Treasury of the United States a separate fund to be known as the "Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund".

TITLE X—DEPARTMENT OF ENERGY MANAGEMENT

SEC. 1001. IMPROVED TECHNOLOGY TRANSFER OF ENERGY TECHNOLOGIES.

(a) TECHNOLOGY TRANSFER COORDINATOR.—The Secretary shall appoint a Technology Transfer Coordinator to be the principal advisor to the Secretary on all matters relating to technology transfer and commercialization.

(b) QUALIFICATIONS.—The Coordinator shall be an individual who, by reason of professional background and experience, is specially qualified to advise the Secretary on matters pertaining to technology transfer at the Department.

(c) DUTIES OF THE COORDINATOR.—The Coordinator shall oversee—

(1) the activities of the Technology Transfer Working Group established under subsection (d);

(2) the expenditure of funds allocated for technology transfer within the Department;

(3) the activities of each technology partnership ombudsman appointed under section 11 of the Technology Transfer Commercialization Act of 2000 (42 U.S.C. 7261c); and

(4) efforts to engage private sector entities, including venture capital companies.

(d) TECHNOLOGY TRANSFER WORKING GROUP.—The Secretary shall establish a Technology Transfer Working Group, which shall consist of representatives of the National Laboratories and single-purpose research facilities, to—

(1) coordinate technology transfer activities occurring at National Laboratories and single-purpose research facilities;

(2) exchange information about technology transfer practices, including alternative approaches to resolution of disputes involving intellectual property rights and other technology transfer matters; and

(3) develop and disseminate to the public and prospective technology partners information about opportunities and procedures for technology transfer with the Department, including opportunities and procedures related to alternative approaches to resolution of disputes involving intellectual property rights and other technology transfer matters.

(e) TECHNOLOGY COMMERCIALIZATION FUND.—The Secretary shall establish an Energy Technology Commercialization Fund, using 0.9 percent of the amount made available to the Department for applied energy research, development, demonstration, and commercial application for each fiscal year, to be used to provide matching funds with private partners to promote promising energy technologies for commercial purposes.

(f) TECHNOLOGY TRANSFER RESPONSIBILITY.—Nothing in this section affects the technology transfer responsibilities of Federal employees under the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.).

(g) PLANNING AND REPORTING.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary shall submit to Congress a technology transfer execution plan.

(2) UPDATES.—Each year after the submission of the plan under paragraph (1), the Secretary shall submit to Congress an updated execution plan and reports that describe progress toward meeting goals set forth in the execution plan and the funds expended under subsection (e).

SEC. 1002. TECHNOLOGY INFRASTRUCTURE PROGRAM.

(a) DEFINITIONS.—In this section:

(1) PROGRAM.—The term "Program" means the Technology Infrastructure Program established under subsection (b).

(2) TECHNOLOGY CLUSTER.—The term "technology cluster" means a concentration of technology-related business concerns, institutions of higher education, or nonprofit institutions, that reinforce each other's performance in the areas of technology development through formal or informal relationships.

(3) TECHNOLOGY-RELATED BUSINESS CONCERN.—The term "technology-related business concern" means a for-profit corporation, company, association, firm, partnership, or small business concern that—

(A) conducts scientific or engineering research;

(B) develops new technologies;

(C) manufactures products based on new technologies; or

(D) performs technological services.

(b) ESTABLISHMENT.—The Secretary shall establish a Technology Infrastructure Program in accordance with this section.

(c) PURPOSE.—The purpose of the Program shall be to improve the ability of National Laboratories and single-purpose research facilities to support departmental missions by—

(1) stimulating the development of technology clusters that can support departmental missions at the National Laboratories or single-purpose research facilities;

(2) improving the ability of National Laboratories and single-purpose research facilities to leverage and benefit from commercial research, technology, products, processes, and services; and

(3) encouraging the exchange of scientific and technological expertise between—

(A) National Laboratories or single-purpose research facilities; and

(B) entities that can support departmental missions at the National Laboratories or single-purpose research facilities, such as—

(i) institutions of higher education;

(ii) technology-related business concerns;

(iii) nonprofit institutions; and

(iv) agencies of State, tribal, or local governments.

(d) PROJECTS.—The Secretary shall authorize the director of each National Laboratory or single-purpose research facility to implement the Program at the National Laboratory or facility through 1 or more projects that meet the requirements of subsections (e) and (f).

(e) PROGRAM REQUIREMENTS.—

(1) IN GENERAL.—Each project funded under this section shall meet the requirements of this subsection.

(2) ENTITIES.—Each project shall include at least 1 of each of the following entities:

(A) A business.

(B) An institution of higher education.

(C) A nonprofit institution.

(D) An agency of a State, local, or tribal government.

(3) COST-SHARING.—

(A) IN GENERAL.—The costs of carrying out projects under this section shall be shared in accordance with section 988.

(B) SOURCES.—The calculation of costs paid by the non-Federal sources for a project shall include cash, personnel, services, equipment, and other resources expended on the project after the commencement of the project.

(C) RESEARCH AND DEVELOPMENT EXPENSES.—Independent research and development expenses of Government contractors that qualify for reimbursement under section 31.205–18(e) of title 48, Code of Federal Regulations, issued pursuant to section 25(c)(1) of the Office of Federal Procurement Policy Act (41 U.S.C. 421(c)(1)), may be credited towards costs paid by non-Federal sources to a project, if the expenses meet the other requirements of this section.

(4) COMPETITIVE SELECTION.—A project under this section shall be competitively selected using procedures determined by the Secretary.

(5) ACCOUNTING.—Any participant that receives funds under this section may use generally accepted accounting principles for maintaining accounts, books, and records relating to the project.

(6) DURATION.—No Federal funds shall be made available under this section for a construction project or for any project with a duration of more than 5 years.

(f) SELECTION CRITERIA.—

(1) DEPARTMENTAL MISSIONS.—The Secretary shall allocate funds under this section only if the Director of the National Laboratory or single-purpose research facility managing the project determines that the project is likely to improve the ability of the National Laboratory or single-purpose research facility to achieve technical success in meeting departmental missions.

(2) OTHER CRITERIA.—In selecting a project to receive Federal funds, the Secretary shall consider—

(A) the potential of the project to promote the development of a commercially sustainable technology cluster following the period of investment by the Department, which will derive most of the demand for its products or services from the private sector, and which will support departmental missions at the participating National Laboratory or single-purpose research facility;

(B) the potential of the project to promote the use of commercial research, technology, products, processes, and services by the participating National Laboratory or single-purpose research facility to achieve its mission or the commercial development of technological innovations made at the participating National Laboratory or single-purpose research facility;

(C) the extent to which the project involves a wide variety and number of institutions of higher education, nonprofit institutions, and technology-related business concerns that can support the missions of the participating National Laboratory or single-purpose research facility and that will make substantive contributions to achieving the goals of the project;

(D) the extent to which the project focuses on promoting the development of technology-related business concerns that are small businesses or involves such small businesses substantively in the project; and

(E) such other criteria as the Secretary determines to be appropriate.

(g) ALLOCATION.—In allocating funds for projects approved under this section, the Secretary shall provide—

(1) the Federal share of the project costs; and

(2) additional funds to the National Laboratory or single-purpose research facility managing the project to permit the National Laboratory or single-purpose research facility to carry out activities relating to the project, and to coordinate the activities with the project.

(h) REPORT TO CONGRESS.—Not later than July 1, 2008, the Secretary shall submit to Congress a report on whether the Program should be continued and, if so, how the program should be managed.

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for activities under this section $10,000,000 for each of fiscal years 2006 through 2008.

SEC. 1003. SMALL BUSINESS ADVOCACY AND ASSISTANCE.

(a) SMALL BUSINESS ADVOCATE.—The Secretary shall require the Director of each National Laboratory, and may require the Director of a single-purpose research facility, to designate a small business advocate to—

(1) increase the participation of small business concerns, including socially and economically disadvantaged small business concerns (as defined in section 8(a)(4) of the Small Business Act (15 U.S.C. 637(a)(4))), in procurement, collaborative research, technology licensing, and technology transfer activities conducted by the National Laboratory or single-purpose research facility;

(2) report to the Director of the National Laboratory or single-purpose research facility on the actual participation of small business concerns in procurement and collaborative research along with recommendations, if appropriate, on how to improve participation;

(3) make available to small business concerns training, mentoring, and information on how to participate in procurement and collaborative research activities;

(4) increase the awareness inside the National Laboratory or single-purpose research facility of the capabilities and opportunities presented by small business concerns; and

(5) establish guidelines for the program under subsection (b) and report on the effectiveness of the program to the Director of the National Laboratory or single-purpose research facility.

(b) ESTABLISHMENT OF SMALL BUSINESS ASSISTANCE PROGRAM.—The Secretary shall require the Director of each National Laboratory, and may require the Director of a single-purpose research facility, to establish a program to provide small business concerns with—

(1) assistance directed at making the small business concerns more effective and efficient subcontractors or suppliers to the National Laboratory or single-purpose research facilities; or

(2) general technical assistance, the cost of which shall not exceed $10,000 per instance of assistance, to improve the products or services of the small business concern.

(c) USE OF FUNDS.—None of the funds expended under subsection (b) may be used for direct grants to small business concerns.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary for activities under this section $5,000,000 for each of fiscal years 2006 through 2008.

SEC. 1004. OUTREACH.

The Secretary shall ensure that each program authorized by this Act or an amendment made by this Act includes an outreach component to provide information, as appropriate, to manufacturers, consumers, engineers, architects, builders, energy service companies, institutions of higher education, facility planners and managers, State and local governments, and other entities.

SEC. 1005. RELATIONSHIP TO OTHER LAWS.

Except as otherwise provided in this Act or an amendment made by this Act, the Secretary shall carry out the research, development, demonstration, and commercial application programs, projects, and activities authorized by this Act or an amendment made by this Act in accordance with the applicable provisions of—

(1) the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.);

(2) the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5901 et seq.);

(3) the Energy Policy Act of 1992 (42 U.S.C. 13201 et seq.);

(4) the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.);

(5) chapter 18 of title 35, United States Code (commonly known as the ''Bayh-Dole Act''); and

(6) any other Act under which the Secretary is authorized to carry out the programs, projects, and activities.

SEC. 1006. IMPROVED COORDINATION AND MANAGEMENT OF CIVILIAN SCIENCE AND TECHNOLOGY PROGRAMS.

(a) EFFECTIVE TOP-LEVEL COORDINATION OF RESEARCH AND DEVELOPMENT PROGRAMS.—Section 202 of the Department of Energy Organization Act (42 U.S.C. 7132) is amended by striking subsection (b) and inserting the following:

''(b)(1) There shall be in the Department an Under Secretary for Science, who shall be appointed by the President, by and with the advice and consent of the Senate.

''(2) The Under Secretary shall be compensated at the rate provided for level III of the Executive Schedule under section 5314 of title 5, United States Code.

''(3) The Under Secretary for Science shall be appointed from among persons who—

''(A) have extensive background in scientific or engineering fields; and

''(B) are well qualified to manage the civilian research and development programs of the Department.

''(4) The Under Secretary for Science shall—

''(A) serve as the Science and Technology Advisor to the Secretary;

''(B) monitor the research and development programs of the Department in order to advise the Secretary with respect to any undesirable duplication or gaps in the programs;

''(C) advise the Secretary with respect to the well-being and management of the multipurpose laboratories under the jurisdiction of the Department;

''(D) advise the Secretary with respect to education and training activities required for effective short- and long-term basic and applied research activities of the Department;

''(E) advise the Secretary with respect to grants and other forms of financial assistance required for effective short- and long-term basic and applied research activities of the Department;

''(F) advise the Secretary with respect to long-term planning, coordination, and development of a strategic framework for Department research and development activities; and

''(G) carry out such additional duties assigned to the Under Secretary by the Secretary relating to basic and applied research, including supervision or support of research activities carried out by any of the Assistant Secretaries designated by section 203 of this Act, as the Secretary considers advantageous.''.

(b) ADDITIONAL ASSISTANT SECRETARY POSITION.—

(1) IN GENERAL.—Section 203(a) of the Department of Energy Organization Act (42 U.S.C. 7133(a)) is amended in the first sentence by striking ''six Assistant Secretaries'' and inserting ''7 Assistant Secretaries''.

(2) ASSISTANT SECRETARY LEVEL.—It is the sense of Congress that the leadership for departmental missions in nuclear energy should be at the Assistant Secretary level.

(c) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Section 202 of the Department of Energy Organization Act (42 U.S.C. 7132) is amended by adding at the end the following:

''(d)(1) There shall be in the Department an Under Secretary, who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall perform such functions and duties as the Secretary shall prescribe, consistent with this section.

''(2) The Under Secretary shall be compensated at the rate provided for level III of the Executive Schedule under section 5314 of title 5, United States Code.

''(e)(1) There shall be in the Department a General Counsel, who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall perform such functions and duties as the Secretary shall prescribe.

''(2) The General Counsel shall be compensated at the rate provided for level IV of the Executive Schedule under section 5315 of title 5, United States Code.''.

(2) Section 5314 of title 5, United States Code, is amended by striking ''Under Secretaries of Energy (2)'' and inserting ''Under Secretaries of Energy (3)''.

(3) Section 5315 of title 5, United States Code, is amended by striking ''Assistant Secretaries of Energy (6)'' and inserting ''Assistant Secretaries of Energy (7)''.

(4) Section 209(b) of the Department of Energy Organization Act (42 U.S.C. 7139(b)) is amended by striking paragraph (6) and inserting the following:

''(6) to carry out such additional duties assigned to the Office by the Secretary.''.

SEC. 1007. OTHER TRANSACTIONS AUTHORITY.

Section 646 of the Department of Energy Organization Act (42 U.S.C. 7256) is amended by adding at the end the following:

''(g)(1) In addition to authority granted to the Secretary under any other provision of law, the Secretary may exercise the same authority to enter into transactions (other than contracts, cooperative agreements, and grants), subject to the same terms and conditions as the Secretary of Defense under section 2371 of title 10, United States Code (other than subsections (b) and (f) of that section).

''(2) In applying section 2371 of title 10, United States Code, to the Secretary under paragraph (1)—

''(A) the term 'basic' shall be replaced by the term 'research';

''(B) the term 'applied' shall be replaced by the term 'development'; and

"(C) the terms 'advanced research projects' and 'advanced research' shall be replaced by the term 'demonstration projects'.

"(3) The authority of the Secretary under paragraph (1) shall not be subject to—

"(A) section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908); or

"(B) section 152 of the Atomic Energy Act of 1954 (42 U.S.C. 2182).

"(4)(A) The Secretary shall use such competitive, merit-based selection procedures in entering into transactions under paragraph (1), as the Secretary determines in writing to be practicable.

"(B) A transaction under paragraph (1) shall relate to a research, development, or demonstration project only if the Secretary determines in writing that the use of a standard contract, grant, or cooperative agreement for the project is not feasible or appropriate.

"(5) The Secretary may protect from disclosure, for up to 5 years after the date on which the information is developed, any information developed pursuant to a transaction under paragraph (1) that would be protected from disclosure under section 552(b)(4) of title 5, United States Code, if obtained from a person other than a Federal agency.

"(6)(A) Not later than 90 days after the date of enactment of this subsection, the Secretary shall issue guidelines for transactions under paragraph (1).

"(B) The guidelines shall be published in the Federal Register for public comment in accordance with rulemaking procedures of the Department.

"(C) The Secretary shall not have authority to carry out transactions under paragraph (1) until the guidelines for transactions required under subparagraph (A) are final.

"(7) The annual report of the head of an executive agency under section 2371(h) of title 10, United States Code, shall be submitted to Congress.

"(8)(A) In this paragraph, the term 'nontraditional Government contractor' has the meaning given the term 'nontraditional defense contractor' in section 845(f) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 10 U.S.C. 2371 note).

"(B) Not later than 1 year after the date on which the final guidelines are published under paragraph (6), the Comptroller General of the United States shall submit to Congress a report describing—

"(i) the use by the Department of authorities under this section, including the ability to attract nontraditional Government contractors; and

"(ii) whether additional safeguards are necessary to carry out the authorities.

"(9) The authority of the Secretary under this subsection may be delegated only to an officer of the Department who is appointed by the President by and with the advice and consent of the Senate.

"(10) Notwithstanding any other provision of law, the authority to enter into transactions under paragraph (1) shall terminate on September 30, 2010.".

SEC. 1008. PRIZES FOR ACHIEVEMENT IN GRAND CHALLENGES OF SCIENCE AND TECHNOLOGY.

(a) Authority.—The Secretary may carry out a program to award cash prizes in recognition of breakthrough achievements in research, development, demonstration, and commercial application that have the potential for application to the performance of the mission of the Department.

(b) Competition Requirements.—The program under subsection (a) may include prizes for the achievement of goals articulated by the Secretary in a specific area through a widely advertised solicitation of submission of results for research, development, demonstration, or commercial application projects.

(c) Prizes for Processes and Technologies to Reduce Dependence on Imported Oil.—The Secretary, in cooperation with the Freedom Prize Foundation, shall support a program of awarding prizes, to be known as Freedom Prizes, to encourage and recognize the development and deployment of processes and technologies that serve to reduce the dependence of the United States on imported oil.

(d) Relationship to Other Authority.—The program under subsection (a) may be carried out in conjunction with or in addition to the exercise of any other authority of the Secretary to acquire, support, or stimulate research, development, demonstration, or commercial application projects.

(e) Authorization of Appropriations.—There are authorized to be appropriated—

(1) $10,000,000 to carry out the program under subsection (a); and

(2) $5,000,000 to carry out the program under subsection (c).

SEC. 1009. TECHNICAL CORRECTIONS.

(a) Coal Research and Development.—

(1) In general.—Public Law 86–599 (30 U.S.C. 661 et seq.) is amended—

(A) by striking the first section (30 U.S.C. 661) and inserting the following:

"Sec. 1. (a) This Act may be cited as the 'Coal Research and Development Act of 1960'.

"(b) In this Act:

"(1) The term 'research' means scientific, technical, and economic research and the practical application of that research.

"(2) The term 'Secretary' means the Secretary of Energy.";

(B) in section 2 (30 U.S.C. 662), by striking "shall establish within" and all that follows through "such Office";

(C) by striking sections 3, 4, and 7 (30 U.S.C. 663, 664, 667); and

(D) by redesignating sections 5, 6, and 8 (30 U.S.C. 665, 666, 668) as sections 3, 4, and 5, respectively.

(2) Patents.—Section 210(a)(8) of title 35, United States Code, is amended by striking "Coal Research Development Act of 1960" and inserting "Coal Research and Development Act of 1960".

(b) Nonnuclear Energy Research and Development.—

(1) Short title; definitions.—Section 1 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5902) is amended to read as follows:

"SHORT TITLE AND DEFINITIONS

"Sec. 1. (a) This Act may be cited as the 'Federal Nonnuclear Energy Research and Development Act of 1974'.

"(b) In this Act:

"(1) The term 'Department' means the Department of Energy.

"(2) The term 'Secretary' means the Secretary of Energy.".

(2) Statement of policy.—Section 3(b) of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5902(b)) is amended—

(A) in paragraph (1), by striking "Energy Research and Development Administration" and inserting "Department";

(B) in paragraph (2), by striking "Administrator of the Energy Research and Development Administration (hereinafter in this Act referred to as the 'Administrator')" and inserting "Secretary"; and

(C) in paragraph (3)—

(i) by striking "Administrator" and inserting "Secretary"; and

(ii) by inserting "Demonstration" after "Cooling".

(3) Duties and authorities.—Section 4 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5903) is amended—

(A) by striking the section heading and inserting the following: "DUTIES AND AUTHORITIES OF THE SECRETARY"; and

(B) in the matter preceding subsection (a), by striking "Administrator" and inserting "Secretary".

(4) Comprehensive planning and programming.—Section 6 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5905) is amended—

(A) by striking "Administrator" each place it appears and inserting "Secretary"; and

(B) in subsection (b)(3)—

(i) in subparagraph (I), by inserting "Demonstration" after "Cooling"; and

(ii) in subparagraph (L), by inserting "Energy" after "Solar".

(5) Forms of federal assistance.—Section 7 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5906) is amended—

(A) by striking "Administrator" each place it appears and inserting "Secretary"; and

(B) in subsection (a)(4), by striking "of the section".

(6) Demonstrations.—Section 8 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5907) is amended—

(A) in subsections (a) through (c), by striking "Administrator" each place it appears and inserting "Secretary";

(B) in subsection (d)—

(i) in the first sentence of paragraph (1), by inserting "of the Energy Research and Development Administration" after "Administrator"; and

(ii) in paragraph (3), by striking "Administrator" and inserting "Secretary"; and

(C) in subsection (f)—

(i) by striking "Administrator" each place it appears and inserting "Secretary"; and

(ii) in the proviso of the first sentence, by striking "Administrator's" and inserting "Secretary's".

(7) Patent policy.—Section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908) is amended—

(A) by striking "Administration" each place it appears and inserting "Department";

(B) by striking "Administrator" each place it appears and inserting "Secretary"; and

(C) in subsection (c)(3), by striking "Administration's" and inserting "Department's".

(8) Acquisition of essential materials.—Section 12 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5911) is amended by striking subsection (b) and inserting the following:

"(b) A rule or order under subsection (a) shall be considered to be a major rule subject to chapter 8 of title 5, United States Code.".

(9) Water resource evaluation.—Section 13 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5912) is amended by striking "Administrator" each place it appears and inserting "Secretary".

(10) Authorization of appropriations.—Section 16 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5915) is amended—

(A) by striking the section heading and inserting the following: "AUTHORIZATION OF APPROPRIATIONS";

(B) by striking "(a) There may be appropriated to the Administrator" and inserting "There may be appropriated to the Secretary"; and

(C) by striking subsections (b) and (c).

(11) Central source of nonnuclear energy information.—Section 17 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5916) is amended—

(A) by striking "Administrator" each place it appears and inserting "Secretary";

(B) in the first sentence, by striking "Administrator's";

(C) in the second sentence, by striking "he" and inserting "the Secretary";

(D) in the third sentence—

(i) in paragraph (2) of the first proviso, by striking "section 1905 or title 18" and inserting "section 1905 of title 18"; and

(ii) in subparagraph (B) of the second proviso—

(I) by striking "the Federal Energy Administration,";

(II) by striking "the Federal Power Commission," and inserting "the Federal Energy Regulatory Commission"; and

(III) by striking "General Accounting Office" and inserting "Government Accountability Office"; and

(E) in the last sentence, by inserting "or ranking minority member" after "chairman".

(12) ENERGY INFORMATION, LOAN GUARANTEES, AND FINANCIAL SUPPORT.—Sections 18 through 20 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5917 through 5920) are repealed.

(c) STEVENSON-WYDLER TECHNOLOGY INNOVATION ACT OF 1980.—Section 20 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3712) is amended by striking "and the National Science Foundation" and inserting ", the Secretary of Energy, and the Director of the National Science Foundation".

SEC. 1010. UNIVERSITY COLLABORATION.

Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit to the Congress a report that examines the feasibility of promoting collaborations between major universities and other colleges and universities in grants, contracts, and cooperative agreements made by the Secretary for energy projects. For purposes of this section, major universities are schools listed by the Carnegie Foundation as Doctoral Research Extensive Universities. The Secretary shall also consider providing incentives to increase the inclusion of small institutions of higher education, including minority-serving institutions, in energy grants, contracts, and cooperative agreements.

SEC. 1011. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the Secretary should develop and implement more stringent procurement and inventory controls, including controls on the purchase card program, to prevent waste, fraud, and abuse of taxpayer funds by employees and contractors of the Department; and

(2) the Department's Inspector General should continue to closely review purchase card purchases and other procurement and inventory practices at the Department.

TITLE XI—PERSONNEL AND TRAINING

SEC. 1101. WORKFORCE TRENDS AND TRAINEESHIP GRANTS.

(a) DEFINITIONS.—In this section:

(1) ENERGY TECHNOLOGY INDUSTRY.—The term "energy technology industry" includes—

(A) a renewable energy industry;

(B) a company that develops or commercializes a device to increase energy efficiency;

(C) the oil and gas industry;

(D) the nuclear power industry;

(E) the coal industry;

(F) the electric utility industry; and

(G) any other industrial sector, as the Secretary determines to be appropriate.

(2) SKILLED TECHNICAL PERSONNEL.—The term "skilled technical personnel" means—

(A) journey- and apprentice-level workers who are enrolled in, or have completed, a federally-recognized or State-recognized apprenticeship program; and

(B) other skilled workers in energy technology industries, as determined by the Secretary.

(b) WORKFORCE TRENDS.—

(1) MONITORING.—The Secretary, in consultation with, and using data collected by, the Secretary of Labor, shall monitor trends in the workforce of—

(A) skilled technical personnel that support energy technology industries; and

(B) electric power and transmission engineers.

(2) REPORT ON TRENDS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to Congress a report on current trends under paragraph (1), with recommendations (as appropriate) to meet the future labor requirements for the energy technology industries.

(3) REPORT ON SHORTAGE.—As soon as practicable after the date on which the Secretary identifies or predicts a significant national shortage of skilled technical personnel in 1 or more energy technology industries, the Secretary shall submit to Congress a report describing the shortage.

(c) TRAINEESHIP GRANTS FOR SKILLED TECHNICAL PERSONNEL.—The Secretary, in consultation with the Secretary of Labor, may establish programs in the appropriate offices of the Department under which the Secretary provides grants to enhance training (including distance learning) for any workforce category for which a shortage is identified or predicted under subsection (b)(2).

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $20,000,000 for each of fiscal years 2006 through 2008.

SEC. 1102. EDUCATIONAL PROGRAMS IN SCIENCE AND MATHEMATICS.

(a) SCIENCE EDUCATION ENHANCEMENT FUND.—Section 3164 of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381a) is amended by adding at the end:

"(c) SCIENCE EDUCATION ENHANCEMENT FUND.—The Secretary shall use not less than 0.3 percent of the amount made available to the Department for research, development, demonstration, and commercial application for fiscal year 2006 and each fiscal year thereafter to carry out activities authorized by this part.".

(b) AUTHORIZED EDUCATION ACTIVITIES.—Section 3165 of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381b) is amended by adding at the end the following:

"(14) Support competitive events for students under the supervision of teachers, designed to encourage student interest and knowledge in science and mathematics.

"(15) Support competitively-awarded, peer-reviewed programs to promote professional development for mathematics teachers and science teachers who teach in grades from kindergarten through grade 12 at Department research and development facilities.

"(16) Support summer internships at Department research and development facilities, for mathematics teachers and science teachers who teach in grades from kindergarten through grade 12.

"(17) Sponsor and assist in educational and training activities identified as critical skills needs for future workforce development at Department research and development facilities.".

(c) EDUCATIONAL PARTNERSHIPS.—Section 3166(b) of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381c(b)) is amended—

(1) by striking paragraph (1) and inserting the following:

"(1) loaning or transferring equipment to the institution;";

(2) in paragraph (5), by striking "and" at the end;

(3) in paragraph (6), by striking the period at the end and inserting "; and"; and

(4) by adding at the end the following:

"(7) providing funds to educational institutions to hire personnel to facilitate interactions between local school systems, Department research and development facilities, and corporate and governmental entities.".

(d) DEFINITION OF DEPARTMENT RESEARCH AND DEVELOPMENT FACILITIES.—Section 3167(3) of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381d(3)) is amended by striking "from the Office of Science of the Department of Energy" and inserting "by the Department of Energy".

(e) STUDY.—

(1) IN GENERAL.—The Secretary, in consultation with the Secretary of Education, shall enter into an arrangement with the National Academy of Public Administration to conduct a study of the priorities, quality, local and regional flexibility, and plans for educational programs at Department research and development facilities.

(2) INCLUSION.—The study shall recommend measures that the Secretary may take to improve Department-wide coordination of educational, workforce development, and critical skills development activities.

(3) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to Congress a report on the results of the study conducted under this subsection.

SEC. 1103. TRAINING GUIDELINES FOR NONNUCLEAR ELECTRIC ENERGY INDUSTRY PERSONNEL.

(a) IN GENERAL.—The Secretary of Labor, in consultation with the Secretary and in conjunction with the electric industry and recognized employee representatives, shall develop model personnel training guidelines to support the reliability and safety of the nonnuclear electric system.

(b) REQUIREMENTS.—The training guidelines under subsection (a) shall, at a minimum—

(1) include training requirements for workers engaged in the construction, operation, inspection, or maintenance of nonnuclear electric generation, transmission, or distribution systems, including requirements relating to—

(A) competency;

(B) certification; and

(C) assessment, including—

(i) initial and continuous evaluation of workers;

(ii) recertification procedures; and

(iii) methods for examining or testing the qualification of an individual who performs a covered task; and

(2) consolidate training guidelines in existence on the date on which the guidelines under subsection (a) are developed relating to the construction, operation, maintenance, and inspection of nonnuclear electric generation, transmission, and distribution facilities, such as guidelines established by the National Electric Safety Code and other industry consensus standards.

SEC. 1104. NATIONAL CENTER FOR ENERGY MANAGEMENT AND BUILDING TECHNOLOGIES.

The Secretary shall support the ongoing activities of and explore opportunities for expansion of the National Center for Energy Management and Building Technologies to carry out research, education, and training activities to facilitate the improvement of energy efficiency, indoor environmental quality, and security of industrial, commercial, residential, and public buildings.

SEC. 1105. IMPROVED ACCESS TO ENERGY-RELATED SCIENTIFIC AND TECHNICAL CAREERS.

(a) SCIENCE EDUCATION PROGRAMS.—Section 3164 of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381a) (as *amended by section 1102(a)) is amended by adding at the end the following:*

"(d) PROGRAMS FOR STUDENTS FROM UNDER-REPRESENTED GROUPS.—In carrying out a program under subsection (a), the Secretary shall give priority to activities that are designed to encourage students from under-represented groups to pursue scientific and technical careers.".

(b) PARTNERSHIPS WITH HISTORICALLY BLACK COLLEGES AND UNIVERSITIES, HISPANIC-SERVICING INSTITUTIONS, AND TRIBAL COLLEGES.—The Department of Energy Science Education Enhancement Act (42 U.S.C. 7381 et seq.) is amended—

(1) by redesignating sections 3167 and 3168 as sections 3168 and 3169, respectively; and

(2) by inserting after section 3166 the following:

"SEC. 3167. PARTNERSHIPS WITH HISTORICALLY BLACK COLLEGES AND UNIVERSITIES, HISPANIC-SERVING INSTITUTIONS, AND TRIBAL COLLEGES.

"(a) DEFINITIONS.—In this section:

"(1) HISPANIC-SERVING INSTITUTION.—The term 'Hispanic-serving institution' has the meaning given the term in section 502(a) of the Higher Education Act of 1965 (20 U.S.C. 1101a(a)).

"(2) HISTORICALLY BLACK COLLEGE OR UNIVERSITY.—The term 'historically Black college or university' has the meaning given the term 'part B institution' in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

"(3) NATIONAL LABORATORY.—The term 'National Laboratory' has the meaning given the term in section 2 of the Energy Policy Act of 2005.

"(4) SCIENCE FACILITY.—The term 'science facility' has the meaning given the term 'single-purpose research facility' in section 903 of the Energy Policy Act of 2005.

"(5) TRIBAL COLLEGE.—The term 'tribal college' has the meaning given the term 'tribally controlled college or university' in section 2(a) of the Tribally Controlled College Assistance Act of 1978 (25 U.S.C. 1801(a)).

"(b) EDUCATION PARTNERSHIP.—The Secretary shall require the director of each National Laboratory, and may require the head of any science facility, to increase the participation of historically Black colleges or universities, Hispanic-serving institutions, or tribal colleges in any activity that increases the capacity of the historically Black colleges or universities, Hispanic-serving institutions, or tribal colleges to train personnel in science or engineering.

"(c) ACTIVITIES.—An activity described in subsection (b) includes—

"(1) collaborative research;

"(2) equipment transfer;

"(3) training activities carried out at a National Laboratory or science facility; and

"(4) mentoring activities carried out at a National Laboratory or science facility.

"(d) REPORT.—Not later than 2 years after the date of enactment of this subsection, the Secretary shall submit to Congress a report describing the activities carried out under this section.".

SEC. 1106. NATIONAL POWER PLANT OPERATIONS TECHNOLOGY AND EDUCATIONAL CENTER.

(a) ESTABLISHMENT.—The Secretary shall support the establishment of a National Power Plant Operations Technology and Education Center (referred to in this section as the "Center"), to address the need for training and educating certified operators and technicians for the electric power industry.

(b) LOCATION OF CENTER.—The Secretary shall support the establishment of the Center at an institution of higher education that has—

(1) expertise in providing degree programs in electric power generation, transmission, and distribution technologies;

(2) expertise in providing onsite and Internet-based training; and

(3) demonstrated responsiveness to workforce and training requirements in the electric power industry.

(c) TRAINING AND CONTINUING EDUCATION.—

(1) IN GENERAL.—The Center shall provide training and continuing education in electric power generation, transmission, and distribution technologies and operations.

(2) LOCATION.—The Center shall carry out training and education activities under paragraph (1)—

(A) at the Center; and

(B) through Internet-based information technologies that allow for learning at remote sites.

TITLE XII—ELECTRICITY

SEC. 1201. SHORT TITLE.

This title may be cited as the "Electricity Modernization Act of 2005".

Subtitle A—Reliability Standards

SEC. 1211. ELECTRIC RELIABILITY STANDARDS.

(a) IN GENERAL.—Part II of the Federal Power Act (16 U.S.C 824 et seq.) is amended by adding at the end the following:

"SEC. 215. ELECTRIC RELIABILITY.

"(a) DEFINITIONS.—For purposes of this section:

"(1) The term 'bulk-power system' means—

"(A) facilities and control systems necessary for operating an interconnected electric energy transmission network (or any portion thereof); and

"(B) electric energy from generation facilities needed to maintain transmission system reliability.

The term does not include facilities used in the local distribution of electric energy.

"(2) The terms 'Electric Reliability Organization' and 'ERO' mean the organization certified by the Commission under subsection (c) the purpose of which is to establish and enforce reliability standards for the bulk-power system, subject to Commission review.

"(3) The term 'reliability standard' means a requirement, approved by the Commission under this section, to provide for reliable operation of the bulk-power system. The term includes requirements for the operation of existing bulk-power system facilities, including cybersecurity protection, and the design of planned additions or modifications to such facilities to the extent necessary to provide for reliable operation of the bulk-power system, but the term does not include any requirement to enlarge such facilities or to construct new transmission capacity or generation capacity.

"(4) The term 'reliable operation' means operating the elements of the bulk-power system within equipment and electric system thermal, voltage, and stability limits so that instability, uncontrolled separation, or cascading failures of such system will not occur as a result of a sudden disturbance, including a cybersecurity incident, or unanticipated failure of system elements.

"(5) The term 'Interconnection' means a geographic area in which the operation of bulk-power system components is synchronized such that the failure of 1 or more of such components may adversely affect the ability of the operators of other components within the system to maintain reliable operation of the facilities within their control.

"(6) The term 'transmission organization' means a Regional Transmission Organization, Independent System Operator, independent transmission provider, or other transmission organization finally approved by the Commission for the operation of transmission facilities.

"(7) The term 'regional entity' means an entity having enforcement authority pursuant to subsection (e)(4).

"(8) The term 'cybersecurity incident' means a malicious act or suspicious event that disrupts, or was an attempt to disrupt, the operation of those programmable electronic devices and communication networks including hardware, software and data that are essential to the reliable operation of the bulk power system.

"(b) JURISDICTION AND APPLICABILITY.—(1) The Commission shall have jurisdiction, within the United States, over the ERO certified by the Commission under subsection (c), any regional entities, and all users, owners and operators of the bulk-power system, including but not limited to the entities described in section 201(f), for purposes of approving reliability standards established under this section and enforcing compliance with this section. All users, owners and operators of the bulk-power system shall comply with reliability standards that take effect under this section.

"(2) The Commission shall issue a final rule to implement the requirements of this section not later than 180 days after the date of enactment of this section.

"(c) CERTIFICATION.—Following the issuance of a Commission rule under subsection (b)(2), any person may submit an application to the Commission for certification as the Electric Reliability Organization. The Commission may certify 1 such ERO if the Commission determines that such ERO—

"(1) has the ability to develop and enforce, subject to subsection (e)(2), reliability standards that provide for an adequate level of reliability of the bulk-power system; and

"(2) has established rules that—

"(A) assure its independence of the users and owners and operators of the bulk-power system, while assuring fair stakeholder representation in the selection of its directors and balanced decisionmaking in any ERO committee or subordinate organizational structure;

"(B) allocate equitably reasonable dues, fees, and other charges among end users for all activities under this section;

"(C) provide fair and impartial procedures for enforcement of reliability standards through the imposition of penalties in accordance with subsection (e) (including limitations on activities, functions, or operations, or other appropriate sanctions);

"(D) provide for reasonable notice and opportunity for public comment, due process, openness, and balance of interests in developing reliability standards and otherwise exercising its duties; and

"(E) provide for taking, after certification, appropriate steps to gain recognition in Canada and Mexico.

"(d) RELIABILITY STANDARDS.—(1) The Electric Reliability Organization shall file each reliability standard or modification to a reliability standard that it proposes to be made effective under this section with the Commission.

"(2) The Commission may approve, by rule or order, a proposed reliability standard or modification to a reliability standard if it determines that the standard is just, reasonable, not unduly discriminatory or preferential, and in the public interest. The Commission shall give due weight to the technical expertise of the Electric Reliability Organization with respect to the content of a proposed standard or modification to a reliability standard and to the technical expertise of a regional entity organized on an Interconnection-wide basis with respect to a reliability standard to be applicable within that Interconnection, but shall not defer with respect to the effect of a standard on competition. A proposed standard or modification shall take effect upon approval by the Commission.

"(3) The Electric Reliability Organization shall rebuttably presume that a proposal from a regional entity organized on an Interconnection-wide basis for a reliability standard or

modification to a reliability standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest.

“(4) The Commission shall remand to the Electric Reliability Organization for further consideration a proposed reliability standard or a modification to a reliability standard that the Commission disapproves in whole or in part.

“(5) The Commission, upon its own motion or upon complaint, may order the Electric Reliability Organization to submit to the Commission a proposed reliability standard or a modification to a reliability standard that addresses a specific matter if the Commission considers such a new or modified reliability standard appropriate to carry out this section.

“(6) The final rule adopted under subsection (b)(2) shall include fair processes for the identification and timely resolution of any conflict between a reliability standard and any function, rule, order, tariff, rate schedule, or agreement accepted, approved, or ordered by the Commission applicable to a transmission organization. Such transmission organization shall continue to comply with such function, rule, order, tariff, rate schedule or agreement accepted approved, or ordered by the Commission until—

“(A) the Commission finds a conflict exists between a reliability standard and any such provision;

“(B) the Commission orders a change to such provision pursuant to section 206 of this part; and

“(C) the ordered change becomes effective under this part.

If the Commission determines that a reliability standard needs to be changed as a result of such a conflict, it shall order the ERO to develop and file with the Commission a modified reliability standard under paragraph (4) or (5) of this subsection.

“(e) Enforcement.—(1) The ERO may impose, subject to paragraph (2), a penalty on a user or owner or operator of the bulk-power system for a violation of a reliability standard approved by the Commission under subsection (d) if the ERO, after notice and an opportunity for a hearing—

“(A) finds that the user or owner or operator has violated a reliability standard approved by the Commission under subsection (d); and

“(B) files notice and the record of the proceeding with the Commission.

“(2) A penalty imposed under paragraph (1) may take effect not earlier than the 31st day after the ERO files with the Commission notice of the penalty and the record of proceedings. Such penalty shall be subject to review by the Commission, on its own motion or upon application by the user, owner or operator that is the subject of the penalty filed within 30 days after the date such notice is filed with the Commission. Application to the Commission for review, or the initiation of review by the Commission on its own motion, shall not operate as a stay of such penalty unless the Commission otherwise orders upon its own motion or upon application by the user, owner or operator that is the subject of such penalty. In any proceeding to review a penalty imposed under paragraph (1), the Commission, after notice and opportunity for hearing (which hearing may consist solely of the record before the ERO and opportunity for the presentation of supporting reasons to affirm, modify, or set aside the penalty), shall by order affirm, set aside, reinstate, or modify the penalty, and, if appropriate, remand to the ERO for further proceedings. The Commission shall implement expedited procedures for such hearings.

“(3) On its own motion or upon complaint, the Commission may order compliance with a reliability standard and may impose a penalty against a user or owner or operator of the bulk-power system if the Commission finds, after notice and opportunity for a hearing, that the user or owner or operator of the bulk-power system has engaged or is about to engage in any acts or practices that constitute or will constitute a violation of a reliability standard.

“(4) The Commission shall issue regulations authorizing the ERO to enter into an agreement to delegate authority to a regional entity for the purpose of proposing reliability standards to the ERO and enforcing reliability standards under paragraph (1) if—

“(A) the regional entity is governed by—

“(i) an independent board;

“(ii) a balanced stakeholder board; or

“(iii) a combination independent and balanced stakeholder board.

“(B) the regional entity otherwise satisfies the provisions of subsection (c)(1) and (2); and

“(C) the agreement promotes effective and efficient administration of bulk-power system reliability.

The Commission may modify such delegation. The ERO and the Commission shall rebuttably presume that a proposal for delegation to a regional entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk-power system reliability and should be approved. Such regulation may provide that the Commission may assign the ERO's authority to enforce reliability standards under paragraph (1) directly to a regional entity consistent with the requirements of this paragraph.

“(5) The Commission may take such action as is necessary or appropriate against the ERO or a regional entity to ensure compliance with a reliability standard or any Commission order affecting the ERO or a regional entity.

“(6) Any penalty imposed under this section shall bear a reasonable relation to the seriousness of the violation and shall take into consideration the efforts of such user, owner, or operator to remedy the violation in a timely manner.

“(f) Changes in Electric Reliability Organization Rules.—The Electric Reliability Organization shall file with the Commission for approval any proposed rule or proposed rule change, accompanied by an explanation of its basis and purpose. The Commission, upon its own motion or complaint, may propose a change to the rules of the ERO. A proposed rule or proposed rule change shall take effect upon a finding by the Commission, after notice and opportunity for comment, that the change is just, reasonable, not unduly discriminatory or preferential, is in the public interest, and satisfies the requirements of subsection (c).

“(g) Reliability Reports.—The ERO shall conduct periodic assessments of the reliability and adequacy of the bulk-power system in North America.

“(h) Coordination With Canada and Mexico.—The President is urged to negotiate international agreements with the governments of Canada and Mexico to provide for effective compliance with reliability standards and the effectiveness of the ERO in the United States and Canada or Mexico.

“(i) Savings Provisions.—(1) The ERO shall have authority to develop and enforce compliance with reliability standards for only the bulk-power system.

“(2) This section does not authorize the ERO or the Commission to order the construction of additional generation or transmission capacity or to set and enforce compliance with standards for adequacy or safety of electric facilities or services.

“(3) Nothing in this section shall be construed to preempt any authority of any State to take action to ensure the safety, adequacy, and reliability of electric service within that State, as long as such action is not inconsistent with any reliability standard, except that the State of New York may establish rules that result in greater reliability within that State, as long as such action does not result in lesser reliability outside the State than that provided by the reliability standards.

“(4) Within 90 days of the application of the Electric Reliability Organization or other affected party, and after notice and opportunity for comment, the Commission shall issue a final order determining whether a State action is inconsistent with a reliability standard, taking into consideration any recommendation of the ERO.

“(5) The Commission, after consultation with the ERO and the State taking action, may stay the effectiveness of any State action, pending the Commission's issuance of a final order.

“(j) Regional Advisory Bodies.—The Commission shall establish a regional advisory body on the petition of at least ⅔ of the States within a region that have more than ½ of their electric load served within the region. A regional advisory body shall be composed of 1 member from each participating State in the region, appointed by the Governor of each State, and may include representatives of agencies, States, and provinces outside the United States. A regional advisory body may provide advice to the Electric Reliability Organization, a regional entity, or the Commission regarding the governance of an existing or proposed regional entity within the same region, whether a standard proposed to apply within the region is just, reasonable, not unduly discriminatory or preferential, and in the public interest, whether fees proposed to be assessed within the region are just, reasonable, not unduly discriminatory or preferential, and in the public interest and any other responsibilities requested by the Commission. The Commission may give deference to the advice of any such regional advisory body if that body is organized on an Interconnection-wide basis.

“(k) Alaska and Hawaii.—The provisions of this section do not apply to Alaska or Hawaii.”.

(b) Status of ERO.—The Electric Reliability Organization certified by the Federal Energy Regulatory Commission under section 215(c) of the Federal Power Act and any regional entity delegated enforcement authority pursuant to section 215(e)(4) of that Act are not departments, agencies, or instrumentalities of the United States Government.

(c) Access Approvals by Federal Agencies.—Federal agencies responsible for approving access to electric transmission or distribution facilities located on lands within the United States shall, in accordance with applicable law, expedite any Federal agency approvals that are necessary to allow the owners or operators of such facilities to comply with any reliability standard, approved by the Commission under section 215 of the Federal Power Act, that pertains to vegetation management, electric service restoration, or resolution of situations that imminently endanger the reliability or safety of the facilities.

Subtitle B—Transmission Infrastructure Modernization

SEC. 1221. SITING OF INTERSTATE ELECTRIC TRANSMISSION FACILITIES.

(a) In General.—Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

“SEC. 216. SITING OF INTERSTATE ELECTRIC TRANSMISSION FACILITIES.

“(a) Designation of National Interest Electric Transmission Corridors.—(1) Not later than 1 year after the date of enactment of this section and every 3 years thereafter, the Secretary of Energy (referred to in this section as the ‘Secretary’), in consultation with affected States, shall conduct a study of electric transmission congestion.

“(2) After considering alternatives and recommendations from interested parties (including an opportunity for comment from affected States), the Secretary shall issue a report, based on the study, which may designate any geographic area experiencing electric energy transmission capacity constraints or congestion that adversely affects consumers as a national interest electric transmission corridor.

“(3) The Secretary shall conduct the study and issue the report in consultation with any appropriate regional entity referred to in section 215.

“(4) In determining whether to designate a national interest electric transmission corridor under paragraph (2), the Secretary may consider whether—

“(A) the economic vitality and development of the corridor, or the end markets served by the corridor, may be constrained by lack of adequate or reasonably priced electricity;

“(B)(i) economic growth in the corridor, or the end markets served by the corridor, may be jeopardized by reliance on limited sources of energy; and

“(ii) a diversification of supply is warranted;

“(C) the energy independence of the United States would be served by the designation;

“(D) the designation would be in the interest of national energy policy; and

“(E) the designation would enhance national defense and homeland security.

“(b) Construction Permit.—Except as provided in subsection (i), the Commission may, after notice and an opportunity for hearing, issue 1 or more permits for the construction or modification of electric transmission facilities in a national interest electric transmission corridor designated by the Secretary under subsection (a) if the Commission finds that—

“(1)(A) a State in which the transmission facilities are to be constructed or modified does not have authority to—

“(i) approve the siting of the facilities; or

“(ii) consider the interstate benefits expected to be achieved by the proposed construction or modification of transmission facilities in the State;

“(B) the applicant for a permit is a transmitting utility under this Act but does not qualify to apply for a permit or siting approval for the proposed project in a State because the applicant does not serve end-use customers in the State; or

“(C) a State commission or other entity that has authority to approve the siting of the facilities has—

“(i) withheld approval for more than 1 year after the filing of an application seeking approval pursuant to applicable law or 1 year after the designation of the relevant national interest electric transmission corridor, whichever is later; or

“(ii) conditioned its approval in such a manner that the proposed construction or modification will not significantly reduce transmission congestion in interstate commerce or is not economically feasible;

“(2) the facilities to be authorized by the permit will be used for the transmission of electric energy in interstate commerce;

“(3) the proposed construction or modification is consistent with the public interest;

“(4) the proposed construction or modification will significantly reduce transmission congestion in interstate commerce and protects or benefits consumers;

“(5) the proposed construction or modification is consistent with sound national energy policy and will enhance energy independence; and

“(6) the proposed modification will maximize, to the extent reasonable and economical, the transmission capabilities of existing towers or structures.

“(c) Permit Applications.—(1) Permit applications under subsection (b) shall be made in writing to the Commission.

“(2) The Commission shall issue rules specifying—

“(A) the form of the application;

“(B) the information to be contained in the application; and

“(C) the manner of service of notice of the permit application on interested persons.

“(d) Comments.—In any proceeding before the Commission under subsection (b), the Commission shall afford each State in which a transmission facility covered by the permit is or will be located, each affected Federal agency and Indian tribe, private property owners, and other interested persons, a reasonable opportunity to present their views and recommendations with respect to the need for and impact of a facility covered by the permit.

“(e) Rights-of-Way.—(1) In the case of a permit under subsection (b) for electric transmission facilities to be located on property other than property owned by the United States or a State, if the permit holder cannot acquire by contract, or is unable to agree with the owner of the property to the compensation to be paid for, the necessary right-of-way to construct or modify the transmission facilities, the permit holder may acquire the right-of-way by the exercise of the right of eminent domain in the district court of the United States for the district in which the property concerned is located, or in the appropriate court of the State in which the property is located.

“(2) Any right-of-way acquired under paragraph (1) shall be used exclusively for the construction or modification of electric transmission facilities within a reasonable period of time after the acquisition.

“(3) The practice and procedure in any action or proceeding under this subsection in the district court of the United States shall conform as nearly as practicable to the practice and procedure in a similar action or proceeding in the courts of the State in which the property is located.

“(4) Nothing in this subsection shall be construed to authorize the use of eminent domain to acquire a right-of-way for any purpose other than the construction, modification, operation, or maintenance of electric transmission facilities and related facilities. The right-of-way cannot be used for any other purpose, and the right-of-way shall terminate upon the termination of the use for which the right-of-way was acquired.

“(f) Compensation.—(1) Any right-of-way acquired pursuant to subsection (e) shall be considered a taking of private property for which just compensation is due.

“(2) Just compensation shall be an amount equal to the fair market value (including applicable severance damages) of the property taken on the date of the exercise of eminent domain authority.

“(g) State Law.—Nothing in this section precludes any person from constructing or modifying any transmission facility in accordance with State law.

“(h) Coordination of Federal Authorizations for Transmission Facilities.—(1) In this subsection:

“(A) The term ‘Federal authorization’ means any authorization required under Federal law in order to site a transmission facility.

“(B) The term ‘Federal authorization’ includes such permits, special use authorizations, certifications, opinions, or other approvals as may be required under Federal law in order to site a transmission facility.

“(2) The Department of Energy shall act as the lead agency for purposes of coordinating all applicable Federal authorizations and related environmental reviews of the facility.

“(3) To the maximum extent practicable under applicable Federal law, the Secretary shall coordinate the Federal authorization and review process under this subsection with any Indian tribes, multistate entities, and State agencies that are responsible for conducting any separate permitting and environmental reviews of the facility, to ensure timely and efficient review and permit decisions.

“(4)(A) As head of the lead agency, the Secretary, in consultation with agencies responsible for Federal authorizations and, as appropriate, with Indian tribes, multistate entities, and State agencies that are willing to coordinate their own separate permitting and environmental reviews with the Federal authorization and environmental reviews, shall establish prompt and binding intermediate milestones and ultimate deadlines for the review of, and Federal authorization decisions relating to, the proposed facility.

“(B) The Secretary shall ensure that, once an application has been submitted with such data as the Secretary considers necessary, all permit decisions and related environmental reviews under all applicable Federal laws shall be completed—

“(i) within 1 year; or

“(ii) if a requirement of another provision of Federal law does not permit compliance with clause (i), as soon thereafter as is practicable.

“(C) The Secretary shall provide an expeditious pre-application mechanism for prospective applicants to confer with the agencies involved to have each such agency determine and communicate to the prospective applicant not later than 60 days after the prospective applicant submits a request for such information concerning—

“(i) the likelihood of approval for a potential facility; and

“(ii) key issues of concern to the agencies and public.

“(5)(A) As lead agency head, the Secretary, in consultation with the affected agencies, shall prepare a single environmental review document, which shall be used as the basis for all decisions on the proposed project under Federal law.

“(B) The Secretary and the heads of other agencies shall streamline the review and permitting of transmission within corridors designated under section 503 of the Federal Land Policy and Management Act (43 U.S.C. 1763) by fully taking into account prior analyses and decisions relating to the corridors.

“(C) The document shall include consideration by the relevant agencies of any applicable criteria or other matters as required under applicable law.

“(6)(A) If any agency has denied a Federal authorization required for a transmission facility, or has failed to act by the deadline established by the Secretary pursuant to this section for deciding whether to issue the authorization, the applicant or any State in which the facility would be located may file an appeal with the President, who shall, in consultation with the affected agency, review the denial or failure to take action on the pending application.

“(B) Based on the overall record and in consultation with the affected agency, the President may—

“(i) issue the necessary authorization with any appropriate conditions; or

“(ii) deny the application.

“(C) The President shall issue a decision not later than 90 days after the date of the filing of the appeal.

“(D) In making a decision under this paragraph, the President shall comply with applicable requirements of Federal law, including any requirements of—

“(i) the National Forest Management Act of 1976 (16 U.S.C. 472a et seq.);

"(ii) the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

"(iii) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.);

"(iv) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

"(v) the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.).

"(7)(A) Not later than 18 months after the date of enactment of this section, the Secretary shall issue any regulations necessary to implement this subsection.

"(B)(i) Not later than 1 year after the date of enactment of this section, the Secretary and the heads of all Federal agencies with authority to issue Federal authorizations shall enter into a memorandum of understanding to ensure the timely and coordinated review and permitting of electricity transmission facilities.

"(ii) Interested Indian tribes, multistate entities, and State agencies may enter the memorandum of understanding.

"(C) The head of each Federal agency with authority to issue a Federal authorization shall designate a senior official responsible for, and dedicate sufficient other staff and resources to ensure, full implementation of the regulations and memorandum required under this paragraph.

"(8)(A) Each Federal land use authorization for an electricity transmission facility shall be issued—

"(i) for a duration, as determined by the Secretary, commensurate with the anticipated use of the facility; and

"(ii) with appropriate authority to manage the right-of-way for reliability and environmental protection.

"(B) On the expiration of the authorization (including an authorization issued before the date of enactment of this section), the authorization shall be reviewed for renewal taking fully into account reliance on such electricity infrastructure, recognizing the importance of the authorization for public health, safety, and economic welfare and as a legitimate use of Federal land.

"(9) In exercising the responsibilities under this section, the Secretary shall consult regularly with—

"(A) the Federal Energy Regulatory Commission;

"(B) electric reliability organizations (including related regional entities) approved by the Commission; and

"(C) Transmission Organizations approved by the Commission.

"(i) Interstate Compacts.—(1) The consent of Congress is given for 3 or more contiguous States to enter into an interstate compact, subject to approval by Congress, establishing regional transmission siting agencies to—

"(A) facilitate siting of future electric energy transmission facilities within those States; and

"(B) carry out the electric energy transmission siting responsibilities of those States.

"(2) The Secretary may provide technical assistance to regional transmission siting agencies established under this subsection.

"(3) The regional transmission siting agencies shall have the authority to review, certify, and permit siting of transmission facilities, including facilities in national interest electric transmission corridors (other than facilities on property owned by the United States).

"(4) The Commission shall have no authority to issue a permit for the construction or modification of an electric transmission facility within a State that is a party to a compact, unless the members of the compact are in disagreement and the Secretary makes, after notice and an opportunity for a hearing, the finding described in subsection (b)(1)(C).

"(j) Relationship to Other Laws.—(1) Except as specifically provided, nothing in this section affects any requirement of an environmental law of the United States, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

"(2) Subsection (h)(6) shall not apply to any unit of the National Park System, the National Wildlife Refuge System, the National Wild and Scenic Rivers System, the National Trails System, the National Wilderness Preservation System, or a National Monument.

"(k) ERCOT.—This section shall not apply within the area referred to in section 212(k)(2)(A).".

(b) Reports to Congress on Corridors and Rights of Way on Federal Lands.—Not later than 90 days after the date of enactment of this Act, the Secretary of the Interior, the Secretary, the Secretary of Agriculture, and the Chairman of the Council on Environmental Quality shall submit to Congress a joint report identifying—

(1)(A) all existing designated transmission and distribution corridors on Federal land and the status of work related to proposed transmission and distribution corridor designations under title V of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.);

(B) the schedule for completing the work;

(C) any impediments to completing the work; and

(D) steps that Congress could take to expedite the process;

(2)(A) the number of pending applications to locate transmission facilities on Federal land;

(B) key information relating to each such facility;

(C) how long each application has been pending;

(D) the schedule for issuing a timely decision as to each facility; and

(E) progress in incorporating existing and new such rights-of-way into relevant land use and resource management plans or the equivalent of those plans; and

(3)(A) the number of existing transmission and distribution rights-of-way on Federal land that will come up for renewal within the following 5-, 10-, and 15-year periods; and

(B) a description of how the Secretaries plan to manage the renewals.

SEC. 1222. THIRD-PARTY FINANCE.

(a) Existing Facilities.—The Secretary, acting through the Administrator of the Western Area Power Administration (hereinafter in this section referred to as "WAPA"), or through the Administrator of the Southwestern Power Administration (hereinafter in this section referred to as "SWPA"), or both, may design, develop, construct, operate, maintain, or own, or participate with other entities in designing, developing, constructing, operating, maintaining, or owning, an electric power transmission facility and related facilities ("Project") needed to upgrade existing transmission facilities owned by SWPA or WAPA if the Secretary, in consultation with the applicable Administrator, determines that the proposed Project—

(1)(A) is located in a national interest electric transmission corridor designated under section 216(a) of the Federal Power Act and will reduce congestion of electric transmission in interstate commerce; or

(B) is necessary to accommodate an actual or projected increase in demand for electric transmission capacity;

(2) is consistent with—

(A) transmission needs identified, in a transmission expansion plan or otherwise, by the appropriate Transmission Organization (as defined in the Federal Power Act), if any, or approved regional reliability organization; and

(B) efficient and reliable operation of the transmission grid; and

(3) would be operated in conformance with prudent utility practice.

(b) New Facilities.—The Secretary, acting through WAPA or SWPA, or both, may design, develop, construct, operate, maintain, or own, or participate with other entities in designing, developing, constructing, operating, maintaining, or owning, a new electric power transmission facility and related facilities ("Project") located within any State in which WAPA or SWPA operates if the Secretary, in consultation with the applicable Administrator, determines that the proposed Project—

(1)(A) is located in an area designated under section 216(a) of the Federal Power Act and will reduce congestion of electric transmission in interstate commerce; or

(B) is necessary to accommodate an actual or projected increase in demand for electric transmission capacity;

(2) is consistent with—

(A) transmission needs identified, in a transmission expansion plan or otherwise, by the appropriate Transmission Organization (as defined in the Federal Power Act) if any, or approved regional reliability organization; and

(B) efficient and reliable operation of the transmission grid;

(3) will be operated in conformance with prudent utility practice;

(4) will be operated by, or in conformance with the rules of, the appropriate (A) Transmission Organization, if any, or (B) if such an organization does not exist, regional reliability organization; and

(5) will not duplicate the functions of existing transmission facilities or proposed facilities which are the subject of ongoing or approved siting and related permitting proceedings.

(c) Other Funds.—

(1) In General.—In carrying out a Project under subsection (a) or (b), the Secretary may accept and use funds contributed by another entity for the purpose of carrying out the Project.

(2) Availability.—The contributed funds shall be available for expenditure for the purpose of carrying out the Project—

(A) without fiscal year limitation; and

(B) as if the funds had been appropriated specifically for that Project.

(3) Allocation of costs.—In carrying out a Project under subsection (a) or (b), any costs of the Project not paid for by contributions from another entity shall be collected through rates charged to customers using the new transmission capability provided by the Project and allocated equitably among these project beneficiaries using the new transmission capability.

(d) Relationship to Other Laws.—Nothing in this section affects any requirement of—

(1) any Federal environmental law, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(2) any Federal or State law relating to the siting of energy facilities; or

(3) any existing authorizing statutes.

(e) Savings Clause.—Nothing in this section shall constrain or restrict an Administrator in the utilization of other authority delegated to the Administrator of WAPA or SWPA.

(f) Secretarial Determinations.—Any determination made pursuant to subsections (a) or (b) shall be based on findings by the Secretary using the best available data.

(g) Maximum Funding Amount.—The Secretary shall not accept and use more than $100,000,000 under subsection (c)(1) for the period encompassing fiscal years 2006 through 2015.

SEC. 1223. ADVANCED TRANSMISSION TECHNOLOGIES.

(a) Definition of Advanced Transmission Technology.—In this section, the term "advanced transmission technology" means a technology that increases the capacity, efficiency, or reliability of an existing or new transmission facility, including—

(1) high-temperature lines (including superconducting cables);

(2) underground cables;

(3) advanced conductor technology (including advanced composite conductors, high-temperature low-sag conductors, and fiber optic temperature sensing conductors);

(4) high-capacity ceramic electric wire, connectors, and insulators;

(5) optimized transmission line configurations (including multiple phased transmission lines);

(6) modular equipment;

(7) wireless power transmission;

(8) ultra-high voltage lines;

(9) high-voltage DC technology;

(10) flexible AC transmission systems;

(11) energy storage devices (including pumped hydro, compressed air, superconducting magnetic energy storage, flywheels, and batteries);

(12) controllable load;

(13) distributed generation (including PV, fuel cells, and microturbines);

(14) enhanced power device monitoring;

(15) direct system state sensors;

(16) fiber optic technologies;

(17) power electronics and related software (including real time monitoring and analytical software);

(18) mobile transformers and mobile substations; and

(19) any other technologies the Commission considers appropriate.

(b) AUTHORITY.—In carrying out the Federal Power Act (16 U.S.C. 791a et seq.) and the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.), the Commission shall encourage, as appropriate, the deployment of advanced transmission technologies.

SEC. 1224. ADVANCED POWER SYSTEM TECHNOLOGY INCENTIVE PROGRAM.

(a) PROGRAM.—The Secretary is authorized to establish an Advanced Power System Technology Incentive Program to support the deployment of certain advanced power system technologies and to improve and protect certain critical governmental, industrial, and commercial processes. Funds provided under this section shall be used by the Secretary to make incentive payments to eligible owners or operators of advanced power system technologies to increase power generation through enhanced operational, economic, and environmental performance. Payments under this section may only be made upon receipt by the Secretary of an incentive payment application establishing an applicant as either—

(1) a qualifying advanced power system technology facility; or

(2) a qualifying security and assured power facility.

(b) INCENTIVES.—Subject to availability of funds, a payment of 1.8 cents per kilowatt-hour shall be paid to the owner or operator of a qualifying advanced power system technology facility under this section for electricity generated at such facility. An additional 0.7 cents per kilowatt-hour shall be paid to the owner or operator of a qualifying security and assured power facility for electricity generated at such facility. Any facility qualifying under this section shall be eligible for an incentive payment for up to, but not more than, the first 10,000,000 kilowatt-hours produced in any fiscal year.

(c) ELIGIBILITY.—For purposes of this section:

(1) QUALIFYING ADVANCED POWER SYSTEM TECHNOLOGY FACILITY.—The term "qualifying advanced power system technology facility" means a facility using an advanced fuel cell, turbine, or hybrid power system or power storage system to generate or store electric energy.

(2) QUALIFYING SECURITY AND ASSURED POWER FACILITY.—The term "qualifying security and assured power facility" means a qualifying advanced power system technology facility determined by the Secretary, in consultation with the Secretary of Homeland Security, to be in critical need of secure, reliable, rapidly available, high-quality power for critical governmental, industrial, or commercial applications.

(d) AUTHORIZATION.—There are authorized to be appropriated to the Secretary for the purposes of this section, $10,000,000 for each of the fiscal years 2006 through 2012.

Subtitle C—Transmission Operation Improvements

SEC. 1231. OPEN NONDISCRIMINATORY ACCESS.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by inserting after section 211 (16 U.S.C. 824j) the following:

"SEC. 211A. OPEN ACCESS BY UNREGULATED TRANSMITTING UTILITIES.

"(a) DEFINITION OF UNREGULATED TRANSMITTING UTILITY.—In this section, the term 'unregulated transmitting utility' means an entity that—

"(1) owns or operates facilities used for the transmission of electric energy in interstate commerce; and

"(2) is an entity described in section 201(f).

"(b) TRANSMISSION OPERATION SERVICES.—Subject to section 212(h), the Commission may, by rule or order, require an unregulated transmitting utility to provide transmission services—

"(1) at rates that are comparable to those that the unregulated transmitting utility charges itself; and

"(2) on terms and conditions (not relating to rates) that are comparable to those under which the unregulated transmitting utility provides transmission services to itself and that are not unduly discriminatory or preferential.

"(c) EXEMPTION.—The Commission shall exempt from any rule or order under this section any unregulated transmitting utility that—

"(1) sells not more than 4,000,000 megawatt hours of electricity per year;

"(2) does not own or operate any transmission facilities that are necessary for operating an interconnected transmission system (or any portion of the system); or

"(3) meets other criteria the Commission determines to be in the public interest.

"(d) LOCAL DISTRIBUTION FACILITIES.—The requirements of subsection (b) shall not apply to facilities used in local distribution.

"(e) EXEMPTION TERMINATION.—If the Commission, after an evidentiary hearing held on a complaint and after giving consideration to reliability standards established under section 215, finds on the basis of a preponderance of the evidence that any exemption granted pursuant to subsection (c) unreasonably impairs the continued reliability of an interconnected transmission system, the Commission shall revoke the exemption granted to the transmitting utility.

"(f) APPLICATION TO UNREGULATED TRANSMITTING UTILITIES.—The rate changing procedures applicable to public utilities under subsections (c) and (d) of section 205 are applicable to unregulated transmitting utilities for purposes of this section.

"(g) REMAND.—In exercising authority under subsection (b)(1), the Commission may remand transmission rates to an unregulated transmitting utility for review and revision if necessary to meet the requirements of subsection (b).

"(h) OTHER REQUESTS.—The provision of transmission services under subsection (b) does not preclude a request for transmission services under section 211.

"(i) LIMITATION.—The Commission may not require a State or municipality to take action under this section that would violate a private activity bond rule for purposes of section 141 of the Internal Revenue Code of 1986.

"(j) TRANSFER OF CONTROL OF TRANSMITTING FACILITIES.—Nothing in this section authorizes the Commission to require an unregulated transmitting utility to transfer control or operational control of its transmitting facilities to a Transmission Organization that is designated to provide nondiscriminatory transmission access.".

SEC. 1232. FEDERAL UTILITY PARTICIPATION IN TRANSMISSION ORGANIZATIONS.

(a) DEFINITIONS.—In this section:

(1) APPROPRIATE FEDERAL REGULATORY AUTHORITY.—The term "appropriate Federal regulatory authority" means—

(A) in the case of a Federal power marketing agency, the Secretary, except that the Secretary may designate the Administrator of a Federal power marketing agency to act as the appropriate Federal regulatory authority with respect to the transmission system of the Federal power marketing agency; and

(B) in the case of the Tennessee Valley Authority, the Board of Directors of the Tennessee Valley Authority.

(2) FEDERAL POWER MARKETING AGENCY.—The term "Federal power marketing agency" has the meaning given the term in section 3 of the Federal Power Act (16 U.S.C. 796).

(3) FEDERAL UTILITY.—The term "Federal utility" means—

(A) a Federal power marketing agency; or

(B) the Tennessee Valley Authority.

(4) TRANSMISSION ORGANIZATION.—The term "Transmission Organization" has the meaning given the term in section 3 of the Federal Power Act (16 U.S.C. 796).

(5) TRANSMISSION SYSTEM.—The term "transmission system" means an electric transmission facility owned, leased, or contracted for by the United States and operated by a Federal utility.

(b) TRANSFER.—The appropriate Federal regulatory authority may enter into a contract, agreement, or other arrangement transferring control and use of all or part of the transmission system of a Federal utility to a Transmission Organization.

(c) CONTENTS.—The contract, agreement, or arrangement shall include—

(1) performance standards for operation and use of the transmission system that the head of the Federal utility determines are necessary or appropriate, including standards that ensure—

(A) recovery of all of the costs and expenses of the Federal utility related to the transmission facilities that are the subject of the contract, agreement, or other arrangement;

(B) consistency with existing contracts and third-party financing arrangements; and

(C) consistency with the statutory authorities, obligations, and limitations of the Federal utility;

(2) provisions for monitoring and oversight by the Federal utility of the Transmission Organization's terms and conditions of the contract, agreement, or other arrangement, including a provision for the resolution of disputes through arbitration or other means with the Transmission Organization or with other participants, notwithstanding the obligations and limitations of any other law regarding arbitration; and

(3) a provision that allows the Federal utility to withdraw from the Transmission Organization and terminate the contract, agreement, or other arrangement in accordance with its terms.

(d) COMMISSION.—Neither this section, actions taken pursuant to this section, nor any other transaction of a Federal utility participating in a Transmission Organization shall confer on the Commission jurisdiction or authority over—

(1) the electric generation assets, electric capacity, or energy of the Federal utility that the Federal utility is authorized by law to market; or

(2) the power sales activities of the Federal utility.

(e) EXISTING STATUTORY AND OTHER OBLIGATIONS.—

(1) SYSTEM OPERATION REQUIREMENTS.—No statutory provision requiring or authorizing a

Federal utility to transmit electric power or to construct, operate, or maintain the transmission system of the Federal utility prohibits a transfer of control and use of the transmission system pursuant to, and subject to, the requirements of this section.

(2) OTHER OBLIGATIONS.—This subsection does not—

(A) suspend, or exempt any Federal utility from, any provision of Federal law in effect on the date of enactment of this Act, including any requirement or direction relating to the use of the transmission system of the Federal utility, environmental protection, fish and wildlife protection, flood control, navigation, water delivery, or recreation; or

(B) authorize abrogation of any contract or treaty obligation.

(3) CONFORMING AMENDMENT.—Section 311 of the Energy and Water Development Appropriations Act, 2001 (16 U.S.C. 824n) is repealed.

SEC. 1233. NATIVE LOAD SERVICE OBLIGATION.

(a) IN GENERAL.—Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 217. NATIVE LOAD SERVICE OBLIGATION.

"(a) DEFINITIONS.—In this section:

"(1) The term 'distribution utility' means an electric utility that has a service obligation to end-users or to a State utility or electric cooperative that, directly or indirectly, through 1 or more additional State utilities or electric cooperatives, provides electric service to end-users.

"(2) The term 'load-serving entity' means a distribution utility or an electric utility that has a service obligation.

"(3) The term 'service obligation' means a requirement applicable to, or the exercise of authority granted to, an electric utility under Federal, State, or local law or under long-term contracts to provide electric service to end-users or to a distribution utility.

"(4) The term 'State utility' means a State or any political subdivision of a State, or any agency, authority, or instrumentality of any 1 or more of the foregoing, or a corporation that is wholly owned, directly or indirectly, by any 1 or more of the foregoing, competent to carry on the business of developing, transmitting, utilizing, or distributing power.

"(b) MEETING SERVICE OBLIGATIONS.—(1) Paragraph (2) applies to any load-serving entity that, as of the date of enactment of this section—

"(A) owns generation facilities, markets the output of Federal generation facilities, or holds rights under 1 or more wholesale contracts to purchase electric energy, for the purpose of meeting a service obligation; and

"(B) by reason of ownership of transmission facilities, or 1 or more contracts or service agreements for firm transmission service, holds firm transmission rights for delivery of the output of the generation facilities or the purchased energy to meet the service obligation.

"(2) Any load-serving entity described in paragraph (1) is entitled to use the firm transmission rights, or, equivalent tradable or financial transmission rights, in order to deliver the output or purchased energy, or the output of other generating facilities or purchased energy to the extent deliverable using the rights, to the extent required to meet the service obligation of the load-serving entity.

"(3)(A) To the extent that all or a portion of the service obligation covered by the firm transmission rights or equivalent tradable or financial transmission rights is transferred to another load-serving entity, the successor load-serving entity shall be entitled to use the firm transmission rights or equivalent tradable or financial transmission rights associated with the transferred service obligation.

"(B) Subsequent transfers to another load-serving entity, or back to the original load-serving entity, shall be entitled to the same rights.

"(4) The Commission shall exercise the authority of the Commission under this Act in a manner that facilitates the planning and expansion of transmission facilities to meet the reasonable needs of load-serving entities to satisfy the service obligations of the load-serving entities, and enables load-serving entities to secure firm transmission rights (or equivalent tradable or financial rights) on a long term basis for long term power supply arrangements made, or planned, to meet such needs.

"(c) ALLOCATION OF TRANSMISSION RIGHTS.—Nothing in subsections (b)(1), (b)(2) and (b)(3) of this section shall affect any existing or future methodology employed by a Transmission Organization for allocating or auctioning transmission rights if such Transmission Organization was authorized by the Commission to allocate or auction financial transmission rights on its system as of January 1, 2005, and the Commission determines that any future allocation or auction is just, reasonable and not unduly discriminatory or preferential, provided, however, that if such a Transmission Organization never allocated financial transmission rights on its system that pertained to a period before January 1, 2005, with respect to any application by such Transmission Organization that would change its methodology the Commission shall exercise its authority in a manner consistent with the Act and that takes into account the policies expressed in subsections (b)(1), (b)(2) and (b)(3) as applied to firm transmission rights held by a load-serving entity as of January 1, 2005, to the extent the associated generation ownership or power purchase arrangements remain in effect.

"(d) CERTAIN TRANSMISSION RIGHTS.—The Commission may exercise authority under this Act to make transmission rights not used to meet an obligation covered by subsection (b) available to other entities in a manner determined by the Commission to be just, reasonable, and not unduly discriminatory or preferential.

"(e) OBLIGATION TO BUILD.—Nothing in this Act relieves a load-serving entity from any obligation under State or local law to build transmission or distribution facilities adequate to meet the service obligations of the load-serving entity.

"(f) CONTRACTS.—Nothing in this section shall provide a basis for abrogating any contract or service agreement for firm transmission service or rights in effect as of the date of the enactment of this subsection. If an ISO in the Western Interconnection had allocated financial transmission rights prior to the date of enactment of this section but had not done so with respect to one or more load-serving entities' firm transmission rights held under contracts to which the preceding sentence applies (or held by reason of ownership or future ownership of transmission facilities), such load-serving entities may not be required, without their consent, to convert such firm transmission rights to tradable or financial rights, except where the load-serving entity has voluntarily joined the ISO as a participating transmission owner (or its successor) in accordance with the ISO tariff.

"(g) WATER PUMPING FACILITIES.—The Commission shall ensure that any entity described in section 201(f) that owns transmission facilities used predominately to support its own water pumping facilities shall have, with respect to the facilities, protections for transmission service comparable to those provided to load-serving entities pursuant to this section.

"(h) ERCOT.—This section shall not apply within the area referred to in section 212(k)(2)(A).

"(i) JURISDICTION.—This section does not authorize the Commission to take any action not otherwise within the jurisdiction of the Commission.

"(j) TVA AREA.—(1) Subject to paragraphs (2) and (3), for purposes of subsection (b)(1)(B), a load-serving entity that is located within the service area of the Tennessee Valley Authority and that has a firm wholesale power supply contract with the Tennessee Valley Authority shall be considered to hold firm transmission rights for the transmission of the power provided.

"(2) Nothing in this subsection affects the requirements of section 212(j).

"(3) The Commission shall not issue an order on the basis of this subsection that is contrary to the purposes of section 212(j).

"(k) EFFECT OF EXERCISING RIGHTS.—An entity that to the extent required to meet its service obligations exercises rights described in subsection (b) shall not be considered by such action as engaging in undue discrimination or preference under this Act".

(b) FERC RULEMAKING ON LONG-TERM TRANSMISSION RIGHTS IN ORGANIZED MARKETS.—Within one year after the date of enactment of this section and after notice and an opportunity for comment, the Commission shall by rule or order, implement section 217(b)(4) of the Federal Power Act in Transmission Organizations, as defined by that Act with organized electricity markets.

SEC. 1234. STUDY ON THE BENEFITS OF ECONOMIC DISPATCH.

(a) STUDY.—The Secretary, in coordination and consultation with the States, shall conduct a study on—

(1) the procedures currently used by electric utilities to perform economic dispatch;

(2) identifying possible revisions to those procedures to improve the ability of nonutility generation resources to offer their output for sale for the purpose of inclusion in economic dispatch; and

(3) the potential benefits to residential, commercial, and industrial electricity consumers nationally and in each state if economic dispatch procedures were revised to improve the ability of nonutility generation resources to offer their output for inclusion in economic dispatch.

(b) DEFINITION.—The term "economic dispatch" when used in this section means the operation of generation facilities to produce energy at the lowest cost to reliably serve consumers, recognizing any operational limits of generation and transmission facilities.

(c) REPORT TO CONGRESS AND THE STATES.—Not later than 90 days after the date of enactment of this Act, and on a yearly basis following, the Secretary shall submit a report to Congress and the States on the results of the study conducted under subsection (a), including recommendations to Congress and the States for any suggested legislative or regulatory changes.

SEC. 1235. PROTECTION OF TRANSMISSION CONTRACTS IN THE PACIFIC NORTHWEST.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 218. PROTECTION OF TRANSMISSION CONTRACTS IN THE PACIFIC NORTHWEST.

"(a) DEFINITION OF ELECTRIC UTILITY OR PERSON.—In this section, the term 'electric utility or person' means an electric utility or person that—

"(1) as of the date of enactment of the Energy Policy Act of 2005 holds firm transmission rights pursuant to contract or by reason of ownership of transmission facilities; and

"(2) is located—

"(A) in the Pacific Northwest, as that region is defined in section 3 of the Pacific Northwest Electric Power Planning and Conservation Act (16 U.S.C. 839a); or

"(B) in that portion of a State included in the geographic area proposed for a regional transmission organization in Commission Docket

Number RT01–35 on the date on which that docket was opened.

"(b) PROTECTION OF TRANSMISSION CONTRACTS.—Nothing in this Act confers on the Commission the authority to require an electric utility or person to convert to tradable or financial rights—

"(1) firm transmission rights described in subsection (a); or

"(2) firm transmission rights obtained by exercising contract or tariff rights associated with the firm transmission rights described in subsection (a).".

SEC. 1236. SENSE OF CONGRESS REGARDING LOCATIONAL INSTALLED CAPACITY MECHANISM.

(a) FINDINGS.—Congress finds that—

(1) in regard to a proposal to develop and implement a specific type of locational installed capacity mechanism in New England pending before the Federal Energy Regulatory Commission; and

(2) the Governors of the States have objected to the proposed mechanism, arguing that the mechanism—

(A) would not provide adequate assurance that necessary electric generation capacity or reliability will be provided; and

(B) would impose a high cost on consumers and have a significant negative economic impact.

(b) SENSE OF CONGRESS.—Congress—

(1) notes the concerns of the New England States to the proposed mechanism; and

(2) declares that it is the sense of Congress that the Federal Energy Regulatory Commission should carefully consider the States' objections.

Subtitle D—Transmission Rate Reform

SEC. 1241. TRANSMISSION INFRASTRUCTURE INVESTMENT.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 219. TRANSMISSION INFRASTRUCTURE INVESTMENT.

"(a) RULEMAKING REQUIREMENT.—Not later than 1 year after the date of enactment of this section, the Commission shall establish, by rule, incentive-based (including performance-based) rate treatments for the transmission of electric energy in interstate commerce by public utilities for the purpose of benefitting consumers by ensuring reliability and reducing the cost of delivered power by reducing transmission congestion.

"(b) CONTENTS.—The rule shall—

"(1) promote reliable and economically efficient transmission and generation of electricity by promoting capital investment in the enlargement, improvement, maintenance, and operation of all facilities for the transmission of electric energy in interstate commerce, regardless of the ownership of the facilities;

"(2) provide a return on equity that attracts new investment in transmission facilities (including related transmission technologies);

"(3) encourage deployment of transmission technologies and other measures to increase the capacity and efficiency of existing transmission facilities and improve the operation of the facilities; and

"(4) allow recovery of—

"(A) all prudently incurred costs necessary to comply with mandatory reliability standards issued pursuant to section 215; and

"(B) all prudently incurred costs related to transmission infrastructure development pursuant to section 216.

"(c) INCENTIVES.—In the rule issued under this section, the Commission shall, to the extent within its jurisdiction, provide for incentives to each transmitting utility or electric utility that joins a Transmission Organization. The Commission shall ensure that any costs recoverable pursuant to this subsection may be recovered by such utility through the transmission rates charged by such utility or through the transmission rates charged by the Transmission Organization that provides transmission service to such utility.

"(d) JUST AND REASONABLE RATES.—All rates approved under the rules adopted pursuant to this section, including any revisions to the rules, are subject to the requirements of sections 205 and 206 that all rates, charges, terms, and conditions be just and reasonable and not unduly discriminatory or preferential.".

SEC. 1242. FUNDING NEW INTERCONNECTION AND TRANSMISSION UPGRADES.

The Commission may approve a participant funding plan that allocates costs related to transmission upgrades or new generator interconnection, without regard to whether an applicant is a member of a Commission-approved Transmission Organization, if the plan results in rates that—

(1) are just and reasonable;

(2) are not unduly discriminatory or preferential; and

(3) are otherwise consistent with sections 205 and 206 of the Federal Power Act (16 U.S.C. 824d, 824e).

Subtitle E—Amendments to PURPA

SEC. 1251. NET METERING AND ADDITIONAL STANDARDS.

(a) ADOPTION OF STANDARDS.—Section 111(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

"(11) NET METERING.—Each electric utility shall make available upon request net metering service to any electric consumer that the electric utility serves. For purposes of this paragraph, the term 'net metering service' means service to an electric consumer under which electric energy generated by that electric consumer from an eligible on-site generating facility and delivered to the local distribution facilities may be used to offset electric energy provided by the electric utility to the electric consumer during the applicable billing period.

"(12) FUEL SOURCES.—Each electric utility shall develop a plan to minimize dependence on 1 fuel source and to ensure that the electric energy it sells to consumers is generated using a diverse range of fuels and technologies, including renewable technologies.

"(13) FOSSIL FUEL GENERATION EFFICIENCY.—Each electric utility shall develop and implement a 10-year plan to increase the efficiency of its fossil fuel generation.".

(b) COMPLIANCE.—

(1) TIME LIMITATIONS.—Section 112(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

"(3)(A) Not later than 2 years after the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 111, or set a hearing date for such consideration, with respect to each standard established by paragraphs (11) through (13) of section 111(d).

"(B) Not later than 3 years after the date of the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to each standard established by paragraphs (11) through (13) of section 111(d).".

(2) FAILURE TO COMPLY.—Section 112(c) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(c)) is amended by adding at the end the following: "In the case of each standard established by paragraphs (11) through (13) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraphs (11) through (13).".

(3) PRIOR STATE ACTIONS.—

(A) IN GENERAL.—Section 112 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622) is amended by adding at the end the following:

"(d) PRIOR STATE ACTIONS.—Subsections (b) and (c) of this section shall not apply to the standards established by paragraphs (11) through (13) of section 111(d) in the case of any electric utility in a State if, before the enactment of this subsection—

"(1) the State has implemented for such utility the standard concerned (or a comparable standard);

"(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility; or

"(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility.".

(B) CROSS REFERENCE.—Section 124 of such Act (16 U.S.C. 2634) is amended by adding the following at the end thereof: "In the case of each standard established by paragraphs (11) through (13) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraphs (11) through (13).".

SEC. 1252. SMART METERING.

(a) IN GENERAL.—Section 111(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

"(14) TIME-BASED METERING AND COMMUNICATIONS.—(A) Not later than 18 months after the date of enactment of this paragraph, each electric utility shall offer each of its customer classes, and provide individual customers upon customer request, a time-based rate schedule under which the rate charged by the electric utility varies during different time periods and reflects the variance, if any, in the utility's costs of generating and purchasing electricity at the wholesale level. The time-based rate schedule shall enable the electric consumer to manage energy use and cost through advanced metering and communications technology.

"(B) The types of time-based rate schedules that may be offered under the schedule referred to in subparagraph (A) include, among others—

"(i) time-of-use pricing whereby electricity prices are set for a specific time period on an advance or forward basis, typically not changing more often than twice a year, based on the utility's cost of generating and/or purchasing such electricity at the wholesale level for the benefit of the consumer. Prices paid for energy consumed during these periods shall be pre-established and known to consumers in advance of such consumption, allowing them to vary their demand and usage in response to such prices and manage their energy costs by shifting usage to a lower cost period or reducing their consumption overall;

"(ii) critical peak pricing whereby time-of-use prices are in effect except for certain peak days, when prices may reflect the costs of generating and/or purchasing electricity at the wholesale level and when consumers may receive additional discounts for reducing peak period energy consumption;

"(iii) real-time pricing whereby electricity prices are set for a specific time period on an advanced or forward basis, reflecting the utility's cost of generating and/or purchasing electricity at the wholesale level, and may change as often as hourly; and

"(iv) credits for consumers with large loads who enter into pre-established peak load reduction agreements that reduce a utility's planned capacity obligations.

"(C) Each electric utility subject to subparagraph (A) shall provide each customer requesting a time-based rate with a time-based meter capable of enabling the utility and customer to offer and receive such rate, respectively.

"(D) For purposes of implementing this paragraph, any reference contained in this section to the date of enactment of the Public Utility Regulatory Policies Act of 1978 shall be deemed to be a reference to the date of enactment of this paragraph.

"(E) In a State that permits third-party marketers to sell electric energy to retail electric consumers, such consumers shall be entitled to receive the same time-based metering and communications device and service as a retail electric consumer of the electric utility.

"(F) Notwithstanding subsections (b) and (c) of section 112, each State regulatory authority shall, not later than 18 months after the date of enactment of this paragraph conduct an investigation in accordance with section 115(i) and issue a decision whether it is appropriate to implement the standards set out in subparagraphs (A) and (C).".

(b) State Investigation of Demand Response and Time-Based Metering.—Section 115 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2625) is amended as follows:

(1) By inserting in subsection (b) after the phrase "the standard for time-of-day rates established by section 111(d)(3)" the following: "and the standard for time-based metering and communications established by section 111(d)(14)".

(2) By inserting in subsection (b) after the phrase "are likely to exceed the metering" the following: "and communications".

(3) By adding the at the end the following:

"(i) Time-Based Metering and Communications.—In making a determination with respect to the standard established by section 111(d)(14), the investigation requirement of section 111(d)(14)(F) shall be as follows: Each State regulatory authority shall conduct an investigation and issue a decision whether or not it is appropriate for electric utilities to provide and install time-based meters and communications devices for each of their customers which enable such customers to participate in time-based pricing rate schedules and other demand response programs.".

(c) Federal Assistance on Demand Response.—Section 132(a) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2642(a)) is amended by striking "and" at the end of paragraph (3), striking the period at the end of paragraph (4) and inserting "; and", and by adding the following at the end thereof:

"(5) technologies, techniques, and rate-making methods related to advanced metering and communications and the use of these technologies, techniques and methods in demand response programs.".

(d) Federal Guidance.—Section 132 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2642) is amended by adding the following at the end thereof:

"(d) Demand Response.—The Secretary shall be responsible for—

"(1) educating consumers on the availability, advantages, and benefits of advanced metering and communications technologies, including the funding of demonstration or pilot projects;

"(2) working with States, utilities, other energy providers and advanced metering and communications experts to identify and address barriers to the adoption of demand response programs; and

"(3) not later than 180 days after the date of enactment of the Energy Policy Act of 2005, providing Congress with a report that identifies and quantifies the national benefits of demand response and makes a recommendation on achieving specific levels of such benefits by January 1, 2007.".

(e) Demand Response and Regional Coordination.—

(1) In general.—It is the policy of the United States to encourage States to coordinate, on a regional basis, State energy policies to provide reliable and affordable demand response services to the public.

(2) Technical assistance.—The Secretary shall provide technical assistance to States and regional organizations formed by 2 or more States to assist them in—

(A) identifying the areas with the greatest demand response potential;

(B) identifying and resolving problems in transmission and distribution networks, including through the use of demand response;

(C) developing plans and programs to use demand response to respond to peak demand or emergency needs; and

(D) identifying specific measures consumers can take to participate in these demand response programs.

(3) Report.—Not later than 1 year after the date of enactment of the Energy Policy Act of 2005, the Commission shall prepare and publish an annual report, by appropriate region, that assesses demand response resources, including those available from all consumer classes, and which identifies and reviews—

(A) saturation and penetration rate of advanced meters and communications technologies, devices and systems;

(B) existing demand response programs and time-based rate programs;

(C) the annual resource contribution of demand resources;

(D) the potential for demand response as a quantifiable, reliable resource for regional planning purposes;

(E) steps taken to ensure that, in regional transmission planning and operations, demand resources are provided equitable treatment as a quantifiable, reliable resource relative to the resource obligations of any load-serving entity, transmission provider, or transmitting party; and

(F) regulatory barriers to improved customer participation in demand response, peak reduction and critical period pricing programs.

(f) Federal Encouragement of Demand Response Devices.—It is the policy of the United States that time-based pricing and other forms of demand response, whereby electricity customers are provided with electricity price signals and the ability to benefit by responding to them, shall be encouraged, the deployment of such technology and devices that enable electricity customers to participate in such pricing and demand response systems shall be facilitated, and unnecessary barriers to demand response participation in energy, capacity and ancillary service markets shall be eliminated. It is further the policy of the United States that the benefits of such demand response that accrue to those not deploying such technology and devices, but who are part of the same regional electricity entity, shall be recognized.

(g) Time Limitations.—Section 112(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

"(4)(A) Not later than 1 year after the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 111, or set a hearing date for such consideration, with respect to the standard established by paragraph (14) of section 111(d).

"(B) Not later than 2 years after the date of the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to the standard established by paragraph (14) of section 111(d).".

(h) Failure to Comply.—Section 112(c) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(c)) is amended by adding at the end the following:

"In the case of the standard established by paragraph (14) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraph (14).".

(i) Prior State Actions Regarding Smart Metering Standards.—

(1) In general.—Section 112 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622) is amended by adding at the end the following:

"(e) Prior State Actions.—Subsections (b) and (c) of this section shall not apply to the standard established by paragraph (14) of section 111(d) in the case of any electric utility in a State if, before the enactment of this subsection—

"(1) the State has implemented for such utility the standard concerned (or a comparable standard);

"(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility within the previous 3 years; or

"(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility within the previous 3 years.".

(2) Cross reference.—Section 124 of such Act (16 U.S.C. 2634) is amended by adding the following at the end thereof: "In the case of the standard established by paragraph (14) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraph (14).".

SEC. 1253. COGENERATION AND SMALL POWER PRODUCTION PURCHASE AND SALE REQUIREMENTS.

(a) Termination of Mandatory Purchase and Sale Requirements.—Section 210 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 824a–3) is amended by adding at the end the following:

"(m) Termination of Mandatory Purchase and Sale Requirements.—

"(1) Obligation to purchase.—After the date of enactment of this subsection, no electric utility shall be required to enter into a new contract or obligation to purchase electric energy from a qualifying cogeneration facility or a qualifying small power production facility under this section if the Commission finds that the qualifying cogeneration facility or qualifying small power production facility has nondiscriminatory access to—

"(A)(i) independently administered, auction-based day ahead and real time wholesale markets for the sale of electric energy; and (ii) wholesale markets for long-term sales of capacity and electric energy; or

"(B)(i) transmission and interconnection services that are provided by a Commission-approved regional transmission entity and administered pursuant to an open access transmission tariff that affords nondiscriminatory treatment to all customers; and (ii) competitive wholesale markets that provide a meaningful opportunity

to sell capacity, including long-term and short-term sales, and electric energy, including long-term, short-term and real-time sales, to buyers other than the utility to which the qualifying facility is interconnected. In determining whether a meaningful opportunity to sell exists, the Commission shall consider, among other factors, evidence of transactions within the relevant market; or

‘‘(C) wholesale markets for the sale of capacity and electric energy that are, at a minimum, of comparable competitive quality as markets described in subparagraphs (A) and (B).

‘‘(2) REVISED PURCHASE AND SALE OBLIGATION FOR NEW FACILITIES.—(A) After the date of enactment of this subsection, no electric utility shall be required pursuant to this section to enter into a new contract or obligation to purchase from or sell electric energy to a facility that is not an existing qualifying cogeneration facility unless the facility meets the criteria for qualifying cogeneration facilities established by the Commission pursuant to the rulemaking required by subsection (n).

‘‘(B) For the purposes of this paragraph, the term ‘existing qualifying cogeneration facility’ means a facility that—

‘‘(i) was a qualifying cogeneration facility on the date of enactment of subsection (m); or

‘‘(ii) had filed with the Commission a notice of self-certification, self recertification or an application for Commission certification under 18 C.F.R. 292.207 prior to the date on which the Commission issues the final rule required by subsection (n).

‘‘(3) COMMISSION REVIEW.—Any electric utility may file an application with the Commission for relief from the mandatory purchase obligation pursuant to this subsection on a service territory-wide basis. Such application shall set forth the factual basis upon which relief is requested and describe why the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) of this subsection have been met. After notice, including sufficient notice to potentially affected qualifying cogeneration facilities and qualifying small power production facilities, and an opportunity for comment, the Commission shall make a final determination within 90 days of such application regarding whether the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) have been met.

‘‘(4) REINSTATEMENT OF OBLIGATION TO PURCHASE.—At any time after the Commission makes a finding under paragraph (3) relieving an electric utility of its obligation to purchase electric energy, a qualifying cogeneration facility, a qualifying small power production facility, a State agency, or any other affected person may apply to the Commission for an order reinstating the electric utility's obligation to purchase electric energy under this section. Such application shall set forth the factual basis upon which the application is based and describe why the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) of this subsection are no longer met. After notice, including sufficient notice to potentially affected utilities, and opportunity for comment, the Commission shall issue an order within 90 days of such application reinstating the electric utility's obligation to purchase electric energy under this section if the Commission finds that the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) which relieved the obligation to purchase, are no longer met.

‘‘(5) OBLIGATION TO SELL.—After the date of enactment of this subsection, no electric utility shall be required to enter into a new contract or obligation to sell electric energy to a qualifying cogeneration facility or a qualifying small power production facility under this section if the Commission finds that—

‘‘(A) competing retail electric suppliers are willing and able to sell and deliver electric energy to the qualifying cogeneration facility or qualifying small power production facility; and

‘‘(B) the electric utility is not required by State law to sell electric energy in its service territory.

‘‘(6) NO EFFECT ON EXISTING RIGHTS AND REMEDIES.—Nothing in this subsection affects the rights or remedies of any party under any contract or obligation, in effect or pending approval before the appropriate State regulatory authority or non-regulated electric utility on the date of enactment of this subsection, to purchase electric energy or capacity from or to sell electric energy or capacity to a qualifying cogeneration facility or qualifying small power production facility under this Act (including the right to recover costs of purchasing electric energy or capacity).

‘‘(7) RECOVERY OF COSTS.—(A) The Commission shall issue and enforce such regulations as are necessary to ensure that an electric utility that purchases electric energy or capacity from a qualifying cogeneration facility or qualifying small power production facility in accordance with any legally enforceable obligation entered into or imposed under this section recovers all prudently incurred costs associated with the purchase.

‘‘(B) A regulation under subparagraph (A) shall be enforceable in accordance with the provisions of law applicable to enforcement of regulations under the Federal Power Act (16 U.S.C. 791a et seq.).

‘‘(n) RULEMAKING FOR NEW QUALIFYING FACILITIES.—(1)(A) Not later than 180 days after the date of enactment of this section, the Commission shall issue a rule revising the criteria in 18 C.F.R. 292.205 for new qualifying cogeneration facilities seeking to sell electric energy pursuant to section 210 of this Act to ensure—

‘‘(i) that the thermal energy output of a new qualifying cogeneration facility is used in a productive and beneficial manner;

‘‘(ii) the electrical, thermal, and chemical output of the cogeneration facility is used fundamentally for industrial, commercial, or institutional purposes and is not intended fundamentally for sale to an electric utility, taking into account technological, efficiency, economic, and variable thermal energy requirements, as well as State laws applicable to sales of electric energy from a qualifying facility to its host facility; and

‘‘(iii) continuing progress in the development of efficient electric energy generating technology.

‘‘(B) The rule issued pursuant to paragraph (1)(A) of this subsection shall be applicable only to facilities that seek to sell electric energy pursuant to section 210 of this Act. For all other purposes, except as specifically provided in subsection (m)(2)(A), qualifying facility status shall be determined in accordance with the rules and regulations of this Act.

‘‘(2) Notwithstanding rule revisions under paragraph (1), the Commission's criteria for qualifying cogeneration facilities in effect prior to the date on which the Commission issues the final rule required by paragraph (1) shall continue to apply to any cogeneration facility that—

‘‘(A) was a qualifying cogeneration facility on the date of enactment of subsection (m), or

‘‘(B) had filed with the Commission a notice of self-certification, self-recertification or an application for Commission certification under 18 C.F.R. 292.207 prior to the date on which the Commission issues the final rule required by paragraph (1).’’.

(b) ELIMINATION OF OWNERSHIP LIMITATIONS.—

(1) QUALIFYING SMALL POWER PRODUCTION FACILITY.—Section 3(17)(C) of the Federal Power Act (16 U.S.C. 796(17)(C)) is amended to read as follows:

‘‘(C) ‘qualifying small power production facility’ means a small power production facility that the Commission determines, by rule, meets such requirements (including requirements respecting fuel use, fuel efficiency, and reliability) as the Commission may, by rule, prescribe;’’.

(2) QUALIFYING COGENERATION FACILITY.—Section 3(18)(B) of the Federal Power Act (16 U.S.C. 796(18)(B)) is amended to read as follows:

‘‘(B) ‘qualifying cogeneration facility’ means a cogeneration facility that the Commission determines, by rule, meets such requirements (including requirements respecting minimum size, fuel use, and fuel efficiency) as the Commission may, by rule, prescribe;’’.

SEC. 1254. INTERCONNECTION.

(a) ADOPTION OF STANDARDS.—Section 111(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621 (d)) is amended by adding at the end the following:

‘‘(15) INTERCONNECTION.—Each electric utility shall make available, upon request, interconnection service to any electric consumer that the electric utility serves. For purposes of this paragraph, the term ‘interconnection service’ means service to an electric consumer under which an on-site generating facility on the consumer's premises shall be connected to the local distribution facilities. Interconnection services shall be offered based upon the standards developed by the Institute of Electrical and Electronics Engineers: IEEE Standard 1547 for Interconnecting Distributed Resources with Electric Power Systems, as they may be amended from time to time. In addition, agreements and procedures shall be established whereby the services are offered shall promote current best practices of interconnection for distributed generation, including but not limited to practices stipulated in model codes adopted by associations of state regulatory agencies. All such agreements and procedures shall be just and reasonable, and not unduly discriminatory or preferential.’’.

(b) COMPLIANCE.—

(1) TIME LIMITATIONS.—Section 112(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

‘‘(5)(A) Not later than one year after the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated utility shall commence the consideration referred to in section 111, or set a hearing date for consideration, with respect to the standard established by paragraph (15) of section 111(d).

‘‘(B) Not later than two years after the date of the enactment of the this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to each standard established by paragraph (15) of section 111(d).’’.

(2) FAILURE TO COMPLY.—Section 112(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622 (c)) is amended by adding at the end the following: ‘‘In the case of the standard established by paragraph (15), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of paragraph (15).’’.

(3) PRIOR STATE ACTIONS.—

(A) IN GENERAL.—Section 112 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622) is amended by adding at the end the following:

‘‘(f) PRIOR STATE ACTIONS.—Subsections (b) and (c) of this section shall not apply to the standard established by paragraph (15) of section 111(d) in the case of any electric utility in

a State if, before the enactment of this subsection—

"(1) the State has implemented for such utility the standard concerned (or a comparable standard);

"(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility; or

"(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility.".

(B) CROSS REFERENCE.—Section 124 of such Act (16 U.S.C. 2634) is amended by adding the following at the end thereof: "In the case of each standard established by paragraph (15) of section 111(d), the reference contained in this subsection to the date of enactment of the Act shall be deemed to be a reference to the date of enactment of paragraph (15).".

Subtitle F—Repeal of PUHCA

SEC. 1261. SHORT TITLE.

This subtitle may be cited as the "Public Utility Holding Company Act of 2005".

SEC. 1262. DEFINITIONS.

For purposes of this subtitle:

(1) AFFILIATE.—The term "affiliate" of a company means any company, 5 percent or more of the outstanding voting securities of which are owned, controlled, or held with power to vote, directly or indirectly, by such company.

(2) ASSOCIATE COMPANY.—The term "associate company" of a company means any company in the same holding company system with such company.

(3) COMMISSION.—The term "Commission" means the Federal Energy Regulatory Commission.

(4) COMPANY.—The term "company" means a corporation, partnership, association, joint stock company, business trust, or any organized group of persons, whether incorporated or not, or a receiver, trustee, or other liquidating agent of any of the foregoing.

(5) ELECTRIC UTILITY COMPANY.—The term "electric utility company" means any company that owns or operates facilities used for the generation, transmission, or distribution of electric energy for sale.

(6) EXEMPT WHOLESALE GENERATOR AND FOREIGN UTILITY COMPANY.—The terms "exempt wholesale generator" and "foreign utility company" have the same meanings as in sections 32 and 33, respectively, of the Public Utility Holding Company Act of 1935 (15 U.S.C. 79z-5a, 79z-5b), as those sections existed on the day before the effective date of this subtitle.

(7) GAS UTILITY COMPANY.—The term "gas utility company" means any company that owns or operates facilities used for distribution at retail (other than the distribution only in enclosed portable containers or distribution to tenants or employees of the company operating such facilities for their own use and not for resale) of natural or manufactured gas for heat, light, or power.

(8) HOLDING COMPANY.—

(A) IN GENERAL.—The term "holding company" means—

(i) any company that directly or indirectly owns, controls, or holds, with power to vote, 10 percent or more of the outstanding voting securities of a public-utility company or of a holding company of any public-utility company; and

(ii) any person, determined by the Commission, after notice and opportunity for hearing, to exercise directly or indirectly (either alone or pursuant to an arrangement or understanding with 1 or more persons) such a controlling influence over the management or policies of any public-utility company or holding company as to make it necessary or appropriate for the rate protection of utility customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this subtitle upon holding companies.

(B) EXCLUSIONS.—The term "holding company" shall not include—

(i) a bank, savings association, or trust company, or their operating subsidiaries that own, control, or hold, with the power to vote, public utility or public utility holding company securities so long as the securities are—

(I) held as collateral for a loan;

(II) held in the ordinary course of business as a fiduciary; or

(III) acquired solely for purposes of liquidation and in connection with a loan previously contracted for and owned beneficially for a period of not more than two years; or

(ii) a broker or dealer that owns, controls, or holds with the power to vote public utility or public utility holding company securities so long as the securities are—

(I) not beneficially owned by the broker or dealer and are subject to any voting instructions which may be given by customers or their assigns; or

(II) acquired within 12 months in the ordinary course of business as a broker, dealer, or underwriter with the bona fide intention of effecting distribution of the specific securities so acquired.

(9) HOLDING COMPANY SYSTEM.—The term "holding company system" means a holding company, together with its subsidiary companies.

(10) JURISDICTIONAL RATES.—The term "jurisdictional rates" means rates accepted or established by the Commission for the transmission of electric energy in interstate commerce, the sale of electric energy at wholesale in interstate commerce, the transportation of natural gas in interstate commerce, and the sale in interstate commerce of natural gas for resale for ultimate public consumption for domestic, commercial, industrial, or any other use.

(11) NATURAL GAS COMPANY.—The term "natural gas company" means a person engaged in the transportation of natural gas in interstate commerce or the sale of such gas in interstate commerce for resale.

(12) PERSON.—The term "person" means an individual or company.

(13) PUBLIC UTILITY.—The term "public utility" means any person who owns or operates facilities used for transmission of electric energy in interstate commerce or sales of electric energy at wholesale in interstate commerce.

(14) PUBLIC-UTILITY COMPANY.—The term "public-utility company" means an electric utility company or a gas utility company.

(15) STATE COMMISSION.—The term "State commission" means any commission, board, agency, or officer, by whatever name designated, of a State, municipality, or other political subdivision of a State that, under the laws of such State, has jurisdiction to regulate public utility companies.

(16) SUBSIDIARY COMPANY.—The term "subsidiary company" of a holding company means—

(A) any company, 10 percent or more of the outstanding voting securities of which are directly or indirectly owned, controlled, or held with power to vote, by such holding company; and

(B) any person, the management or policies of which the Commission, after notice and opportunity for hearing, determines to be subject to a controlling influence, directly or indirectly, by such holding company (either alone or pursuant to an arrangement or understanding with 1 or more other persons) so as to make it necessary for the rate protection of utility customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this subtitle upon subsidiary companies of holding companies.

(17) VOTING SECURITY.—The term "voting security" means any security presently entitling the owner or holder thereof to vote in the direction or management of the affairs of a company.

SEC. 1263. REPEAL OF THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935.

The Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.) is repealed.

SEC. 1264. FEDERAL ACCESS TO BOOKS AND RECORDS.

(a) IN GENERAL.—Each holding company and each associate company thereof shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records as the Commission determines are relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(b) AFFILIATE COMPANIES.—Each affiliate of a holding company or of any subsidiary company of a holding company shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records with respect to any transaction with another affiliate, as the Commission determines are relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(c) HOLDING COMPANY SYSTEMS.—The Commission may examine the books, accounts, memoranda, and other records of any company in a holding company system, or any affiliate thereof, as the Commission determines are relevant to costs incurred by a public utility or natural gas company within such holding company system and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(d) CONFIDENTIALITY.—No member, officer, or employee of the Commission shall divulge any fact or information that may come to his or her knowledge during the course of examination of books, accounts, memoranda, or other records as provided in this section, except as may be directed by the Commission or by a court of competent jurisdiction.

SEC. 1265. STATE ACCESS TO BOOKS AND RECORDS.

(a) IN GENERAL.—Upon the written request of a State commission having jurisdiction to regulate a public-utility company in a holding company system, the holding company or any associate company or affiliate thereof, other than such public-utility company, wherever located, shall produce for inspection books, accounts, memoranda, and other records that—

(1) have been identified in reasonable detail in a proceeding before the State commission;

(2) the State commission determines are relevant to costs incurred by such public-utility company; and

(3) are necessary for the effective discharge of the responsibilities of the State commission with respect to such proceeding.

(b) LIMITATION.—Subsection (a) does not apply to any person that is a holding company solely by reason of ownership of 1 or more qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.).

(c) CONFIDENTIALITY OF INFORMATION.—The production of books, accounts, memoranda, and other records under subsection (a) shall be subject to such terms and conditions as may be necessary and appropriate to safeguard against unwarranted disclosure to the public of any trade secrets or sensitive commercial information.

(d) EFFECT ON STATE LAW.—Nothing in this section shall preempt applicable State law concerning the provision of books, accounts, memoranda, and other records, or in any way limit the rights of any State to obtain books, accounts, memoranda, and other records under any other Federal law, contract, or otherwise.

(e) COURT JURISDICTION.—Any United States district court located in the State in which the State commission referred to in subsection (a) is located shall have jurisdiction to enforce compliance with this section.

SEC. 1266. EXEMPTION AUTHORITY.

(a) RULEMAKING.—Not later than 90 days after the effective date of this subtitle, the Commission shall issue a final rule to exempt from the requirements of section 1264 (relating to Federal access to books and records) any person that is a holding company, solely with respect to 1 or more—

(1) qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.);

(2) exempt wholesale generators; or

(3) foreign utility companies.

(b) OTHER AUTHORITY.—The Commission shall exempt a person or transaction from the requirements of section 1264 (relating to Federal access to books and records) if, upon application or upon the motion of the Commission—

(1) the Commission finds that the books, accounts, memoranda, and other records of any person are not relevant to the jurisdictional rates of a public utility or natural gas company; or

(2) the Commission finds that any class of transactions is not relevant to the jurisdictional rates of a public utility or natural gas company.

SEC. 1267. AFFILIATE TRANSACTIONS.

(a) COMMISSION AUTHORITY UNAFFECTED.—Nothing in this subtitle shall limit the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) to require that jurisdictional rates are just and reasonable, including the ability to deny or approve the pass through of costs, the prevention of cross-subsidization, and the issuance of such rules and regulations as are necessary or appropriate for the protection of utility consumers.

(b) RECOVERY OF COSTS.—Nothing in this subtitle shall preclude the Commission or a State commission from exercising its jurisdiction under otherwise applicable law to determine whether a public-utility company, public utility, or natural gas company may recover in rates any costs of an activity performed by an associate company, or any costs of goods or services acquired by such public-utility company from an associate company.

SEC. 1268. APPLICABILITY.

Except as otherwise specifically provided in this subtitle, no provision of this subtitle shall apply to, or be deemed to include—

(1) the United States;

(2) a State or any political subdivision of a State;

(3) any foreign governmental authority not operating in the United States;

(4) any agency, authority, or instrumentality of any entity referred to in paragraph (1), (2), or (3); or

(5) any officer, agent, or employee of any entity referred to in paragraph (1), (2), (3), or (4) acting as such in the course of his or her official duty.

SEC. 1269. EFFECT ON OTHER REGULATIONS.

Nothing in this subtitle precludes the Commission or a State commission from exercising its jurisdiction under otherwise applicable law to protect utility customers.

SEC. 1270. ENFORCEMENT.

The Commission shall have the same powers as set forth in sections 306 through 317 of the Federal Power Act (16 U.S.C. 825e–825p) to enforce the provisions of this subtitle.

SEC. 1271. SAVINGS PROVISIONS.

(a) IN GENERAL.—Nothing in this subtitle, or otherwise in the Public Utility Holding Company Act of 1935, or rules, regulations, or orders thereunder, prohibits a person from engaging in or continuing to engage in activities or transactions in which it is legally engaged or authorized to engage on the date of enactment of this Act, if that person continues to comply with the terms (other than an expiration date or termination date) of any such authorization, whether by rule or by order.

(b) EFFECT ON OTHER COMMISSION AUTHORITY.—Nothing in this subtitle limits the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) or the Natural Gas Act (15 U.S.C. 717 et seq.).

(c) TAX TREATMENT.—Tax treatment under section 1081 of the Internal Revenue Code of 1986 as a result of transactions ordered in compliance with the Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.) shall not be affected in any manner due to the repeal of that Act and the enactment of the Public Utility Holding Company Act of 2005.

SEC. 1272. IMPLEMENTATION.

Not later than 4 months after the date of enactment of this subtitle, the Commission shall—

(1) issue such regulations as may be necessary or appropriate to implement this subtitle (other than section 1265, relating to State access to books and records); and

(2) submit to Congress detailed recommendations on technical and conforming amendments to Federal law necessary to carry out this subtitle and the amendments made by this subtitle.

SEC. 1273. TRANSFER OF RESOURCES.

All books and records that relate primarily to the functions transferred to the Commission under this subtitle shall be transferred from the Securities and Exchange Commission to the Commission.

SEC. 1274. EFFECTIVE DATE.

(a) IN GENERAL.—Except for section 1272 (relating to implementation), this subtitle shall take effect 6 months after the date of enactment of this subtitle.

(b) COMPLIANCE WITH CERTAIN RULES.—If the Commission approves and makes effective any final rulemaking modifying the standards of conduct governing entities that own, operate, or control facilities for transmission of electricity in interstate commerce or transportation of natural gas in interstate commerce prior to the effective date of this subtitle, any action taken by a public-utility company or utility holding company to comply with the requirements of such rulemaking shall not subject such public-utility company or utility holding company to any regulatory requirement applicable to a holding company under the Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.).

SEC. 1275. SERVICE ALLOCATION.

(a) DEFINITION OF PUBLIC UTILITY.—In this section, the term "public utility" has the meaning given the term in section 201(e) of the Federal Power Act (16 U.S.C. 824(e)).

(b) FERC REVIEW.—In the case of non-power goods or administrative or management services provided by an associate company organized specifically for the purpose of providing such goods or services to any public utility in the same holding company system, at the election of the system or a State commission having jurisdiction over the public utility, the Commission, after the effective date of this subtitle, shall review and authorize the allocation of the costs for such goods or services to the extent relevant to that associate company.

(c) EFFECT ON FEDERAL AND STATE LAW.—Nothing in this section shall affect the authority of the Commission or a State commission under other applicable law.

(d) RULES.—Not later than 4 months after the date of enactment of this Act, the Commission shall issue rules (which rules shall be effective no earlier than the effective date of this subtitle) to exempt from the requirements of this section any company in a holding company system whose public utility operations are confined substantially to a single State and any other class of transactions that the Commission finds is not relevant to the jurisdictional rates of a public utility.

SEC. 1276. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such funds as may be necessary to carry out this subtitle.

SEC. 1277. CONFORMING AMENDMENTS TO THE FEDERAL POWER ACT.

(a) CONFLICT OF JURISDICTION.—Section 318 of the Federal Power Act (16 U.S.C. 825q) is repealed.

(b) DEFINITIONS.—(1) Section 201(g)(5) of the Federal Power Act (16 U.S.C. 824(g)(5)) is amended by striking "1935" and inserting "2005".

(2) Section 214 of the Federal Power Act (16 U.S.C. 824m) is amended by striking "1935" and inserting "2005".

Subtitle G—Market Transparency, Enforcement, and Consumer Protection

SEC. 1281. ELECTRICITY MARKET TRANSPARENCY.

Part II of the Federal Power Act is amended by adding at the end the following:

"SEC. 220. ELECTRICITY MARKET TRANSPARENCY RULES.

"(a)(1) The Commission is directed to facilitate price transparency in markets for the sale and transmission of electric energy in interstate commerce, having due regard for the public interest, the integrity of those markets, fair competition, and the protection of consumers.

"(2) The Commission may prescribe such rules as the Commission determines necessary and appropriate to carry out the purposes of this section. The rules shall provide for the dissemination, on a timely basis, of information about the availability and prices of wholesale electric energy and transmission service to the Commission, State commissions, buyers and sellers of wholesale electric energy, users of transmission services, and the public.

"(3) The Commission may—

"(A) obtain the information described in paragraph (2) from any market participant; and

"(B) rely on entities other than the Commission to receive and make public the information, subject to the disclosure rules in subsection (b).

"(4) In carrying out this section, the Commission shall consider the degree of price transparency provided by existing price publishers and providers of trade processing services, and shall rely on such publishers and services to the maximum extent possible. The Commission may establish an electronic information system if it determines that existing price publications are not adequately providing price discovery or market transparency. Nothing in this section, however, shall affect any electronic information filing requirements in effect under this Act as of the date of enactment of this section.

"(b)(1) Rules described in subsection (a)(2), if adopted, shall exempt from disclosure information the Commission determines would, if disclosed, be detrimental to the operation of an effective market or jeopardize system security.

"(2) In determining the information to be made available under this section and time to make the information available, the Commission shall seek to ensure that consumers and competitive markets are protected from the adverse effects of potential collusion or other anticompetitive behaviors that can be facilitated by

untimely public disclosure of transaction-specific information.

"(c)(1) Within 180 days of enactment of this section, the Commission shall conclude a memorandum of understanding with the Commodity Futures Trading Commission relating to information sharing, which shall include, among other things, provisions ensuring that information requests to markets within the respective jurisdiction of each agency are properly coordinated to minimize duplicative information requests, and provisions regarding the treatment of proprietary trading information.

"(2) Nothing in this section may be construed to limit or affect the exclusive jurisdiction of the Commodity Futures Trading Commission under the Commodity Exchange Act (7 U.S.C. 1 et seq.).

"(d) The Commission shall not require entities who have a de minimis market presence to comply with the reporting requirements of this section.

"(e)(1) Except as provided in paragraph (2), no person shall be subject to any civil penalty under this section with respect to any violation occurring more than 3 years before the date on which the person is provided notice of the proposed penalty under section 316A.

"(2) Paragraph (1) shall not apply in any case in which the Commission finds that a seller that has entered into a contract for the sale of electric energy at wholesale or transmission service subject to the jurisdiction of the Commission has engaged in fraudulent market manipulation activities materially affecting the contract in violation of section 222.

"(f) This section shall not apply to a transaction for the purchase or sale of wholesale electric energy or transmission services within the area described in section 212(k)(2)(A).".

SEC. 1282. FALSE STATEMENTS.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 221. PROHIBITION ON FILING FALSE INFORMATION.

"No entity (including an entity described in section 201(f)) shall willfully and knowingly report any information relating to the price of electricity sold at wholesale or the availability of transmission capacity, which information the person or any other entity knew to be false at the time of the reporting, to a Federal agency with intent to fraudulently affect the data being compiled by the Federal agency.".

SEC. 1283. MARKET MANIPULATION.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 222. PROHIBITION OF ENERGY MARKET MANIPULATION.

"(a) IN GENERAL.—It shall be unlawful for any entity (including an entity described in section 201(f)), directly or indirectly, to use or employ, in connection with the purchase or sale of electric energy or the purchase or sale of transmission services subject to the jurisdiction of the Commission, any manipulative or deceptive device or contrivance (as those terms are used in section 10(b) of the Securities Exchange Act of 1934 (15 U.S.C. 78j(b))), in contravention of such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of electric ratepayers.

"(b) NO PRIVATE RIGHT OF ACTION.—Nothing in this section shall be construed to create a private right of action.".

SEC. 1284. ENFORCEMENT.

(a) COMPLAINTS.—Section 306 of the Federal Power Act (16 U.S.C. 825e) is amended—

(1) by inserting "electric utility," after "Any person,"; and

(2) by inserting ", transmitting utility," after "licensee" each place it appears.

(b) INVESTIGATIONS.—Section 307(a) of the Federal Power Act (16 U.S.C. 825f(a)) is amended—

(1) by inserting ", electric utility, transmitting utility, or other entity" after "person" each place it appears; and

(2) in the first sentence, by inserting before the period at the end the following: ", or in obtaining information about the sale of electric energy at wholesale in interstate commerce and the transmission of electric energy in interstate commerce".

(c) REVIEW OF COMMISSION ORDERS.—Section 313(a) of the Federal Power Act (16 U.S.C. 825l) is amended by inserting "electric utility," after "person," in the first 2 places it appears and by striking "any person unless such person" and inserting "any entity unless such entity".

(d) CRIMINAL PENALTIES.—Section 316 of the Federal Power Act (16 U.S.C. 825o) is amended—

(1) in subsection (a)—

(A) by striking "$5,000" and inserting "$1,000,000"; and

(B) by striking "two years" and inserting "5 years";

(2) in subsection (b), by striking "$500" and inserting "$25,000"; and

(3) by striking subsection (c).

(e) CIVIL PENALTIES.—Section 316A of the Federal Power Act (16 U.S.C. 825o–1) is amended—

(1) by striking "section 211, 212, 213, or 214" each place it appears and inserting "part II"; and

(2) in subsection (b), by striking "$10,000" and inserting "$1,000,000".

SEC. 1285. REFUND EFFECTIVE DATE.

Section 206(b) of the Federal Power Act (16 U.S.C. 824e(b)) is amended as follows:

(1) By striking "the date 60 days after the filing of such complaint nor later than 5 months after the expiration of such 60-day period" in the second sentence and inserting "the date of the filing of such complaint nor later than 5 months after the filing of such complaint".

(2) By striking "60 days after" in the third sentence and inserting "of".

(3) By striking "expiration of such 60-day period" in the third sentence and inserting "publication date".

(4) By striking the fifth sentence and inserting the following: "If no final decision is rendered by the conclusion of the 180-day period commencing upon initiation of a proceeding pursuant to this section, the Commission shall state the reasons why it has failed to do so and shall state its best estimate as to when it reasonably expects to make such decision.".

SEC. 1286. REFUND AUTHORITY.

Section 206 of the Federal Power Act (16 U.S.C. 824e) is amended by adding at the end the following:

"(e)(1) In this subsection:

"(A) The term 'short-term sale' means an agreement for the sale of electric energy at wholesale in interstate commerce that is for a period of 31 days or less (excluding monthly contracts subject to automatic renewal).

"(B) The term 'applicable Commission rule' means a Commission rule applicable to sales at wholesale by public utilities that the Commission determines after notice and comment should also be applicable to entities subject to this subsection.

"(2) If an entity described in section 201(f) voluntarily makes a short-term sale of electric energy through an organized market in which the rates for the sale are established by Commission-approved tariff (rather than by contract) and the sale violates the terms of the tariff or applicable Commission rules in effect at the time of the sale, the entity shall be subject to the refund authority of the Commission under this section with respect to the violation.

"(3) This section shall not apply to—

"(A) any entity that sells in total (including affiliates of the entity) less than 8,000,000 megawatt hours of electricity per year; or

"(B) an electric cooperative.

"(4)(A) The Commission shall have refund authority under paragraph (2) with respect to a voluntary short term sale of electric energy by the Bonneville Power Administration only if the sale is at an unjust and unreasonable rate.

"(B) The Commission may order a refund under subparagraph (A) only for short-term sales made by the Bonneville Power Administration at rates that are higher than the highest just and reasonable rate charged by any other entity for a short-term sale of electric energy in the same geographic market for the same, or most nearly comparable, period as the sale by the Bonneville Power Administration.

"(C) In the case of any Federal power marketing agency or the Tennessee Valley Authority, the Commission shall not assert or exercise any regulatory authority or power under paragraph (2) other than the ordering of refunds to achieve a just and reasonable rate.".

SEC. 1287. CONSUMER PRIVACY AND UNFAIR TRADE PRACTICES.

(a) PRIVACY.—The Federal Trade Commission may issue rules protecting the privacy of electric consumers from the disclosure of consumer information obtained in connection with the sale or delivery of electric energy to electric consumers.

(b) SLAMMING.—The Federal Trade Commission may issue rules prohibiting the change of selection of an electric utility except with the informed consent of the electric consumer or if approved by the appropriate State regulatory authority.

(c) CRAMMING.—The Federal Trade Commission may issue rules prohibiting the sale of goods and services to an electric consumer unless expressly authorized by law or the electric consumer.

(d) RULEMAKING.—The Federal Trade Commission shall proceed in accordance with section 553 of title 5, United States Code, when prescribing a rule under this section.

(e) STATE AUTHORITY.—If the Federal Trade Commission determines that a State's regulations provide equivalent or greater protection than the provisions of this section, such State regulations shall apply in that State in lieu of the regulations issued by the Commission under this section.

(f) DEFINITIONS.—For purposes of this section:

(1) STATE REGULATORY AUTHORITY.—The term "State regulatory authority" has the meaning given that term in section 3(21) of the Federal Power Act (16 U.S.C. 796(21)).

(2) ELECTRIC CONSUMER AND ELECTRIC UTILITY.—The terms "electric consumer" and "electric utility" have the meanings given those terms in section 3 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2602).

SEC. 1288. AUTHORITY OF COURT TO PROHIBIT INDIVIDUALS FROM SERVING AS OFFICERS, DIRECTORS, AND ENERGY TRADERS.

Section 314 of the Federal Power Act (16 U.S.C. 825m) is amended by adding at the end the following:

"(d) In any proceedings under subsection (a), the court may prohibit, conditionally or unconditionally, and permanently or for such period of time as the court determines, any individual who is engaged or has engaged in practices constituting a violation of section 221 (and related rules and regulations) from—

"(1) acting as an officer or director of an electric utility; or

"(2) engaging in the business of purchasing or selling—

"(A) electric energy; or

"(B) transmission services subject to the jurisdiction of the Commission.".

SEC. 1289. MERGER REVIEW REFORM.

(a) IN GENERAL.—Section 203(a) of the Federal Power Act (16 U.S.C. 824b(a)) is amended to read as follows:

"(a)(1) No public utility shall, without first having secured an order of the Commission authorizing it to do so—

"(A) sell, lease, or otherwise dispose of the whole of its facilities subject to the jurisdiction of the Commission, or any part thereof of a value in excess of $10,000,000;

"(B) merge or consolidate, directly or indirectly, such facilities or any part thereof with those of any other person, by any means whatsoever;

"(C) purchase, acquire, or take any security with a value in excess of $10,000,000 of any other public utility; or

"(D) purchase, lease, or otherwise acquire an existing generation facility—

"(i) that has a value in excess of $10,000,000; and

"(ii) that is used for interstate wholesale sales and over which the Commission has jurisdiction for ratemaking purposes.

"(2) No holding company in a holding company system that includes a transmitting utility or an electric utility shall purchase, acquire, or take any security with a value in excess of $10,000,000 of, or, by any means whatsoever, directly or indirectly, merge or consolidate with, a transmitting utility, an electric utility company, or a holding company in a holding company system that includes a transmitting utility, or an electric utility company, with a value in excess of $10,000,000 without first having secured an order of the Commission authorizing it to do so.

"(3) Upon receipt of an application for such approval the Commission shall give reasonable notice in writing to the Governor and State commission of each of the States in which the physical property affected, or any part thereof, is situated, and to such other persons as it may deem advisable.

"(4) After notice and opportunity for hearing, the Commission shall approve the proposed disposition, consolidation, acquisition, or change in control, if it finds that the proposed transaction will be consistent with the public interest, and will not result in cross-subsidization of a non-utility associate company or the pledge or encumbrance of utility assets for the benefit of an associate company, unless the Commission determines that the cross-subsidization, pledge, or encumbrance will be consistent with the public interest.

"(5) The Commission shall, by rule, adopt procedures for the expeditious consideration of applications for the approval of dispositions, consolidations, or acquisitions, under this section. Such rules shall identify classes of transactions, or specify criteria for transactions, that normally meet the standards established in paragraph (4). The Commission shall provide expedited review for such transactions. The Commission shall grant or deny any other application for approval of a transaction not later than 180 days after the application is filed. If the Commission does not act within 180 days, such application shall be deemed granted unless the Commission finds, based on good cause, that further consideration is required to determine whether the proposed transaction meets the standards of paragraph (4) and issues an order tolling the time for acting on the application for not more than 180 days, at the end of which additional period the Commission shall grant or deny the application.

"(6) For purposes of this subsection, the terms 'associate company', 'holding company', and 'holding company system' have the meaning given those terms in the Public Utility Holding Company Act of 2005.".

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect 6 months after the date of enactment of this Act.

(c) TRANSITION PROVISION.—The amendments made by subsection (a) shall not apply to any application under section 203 of the Federal Power Act (16 U.S.C. 824b) that was filed on or before the date of enactment of this Act.

SEC. 1290. RELIEF FOR EXTRAORDINARY VIOLATIONS.

(a) APPLICATION.—This section applies to any contract entered into the Western Interconnection prior to June 20, 2001, with a seller of wholesale electricity that the Commission has—

(1) found to have manipulated the electricity market resulting in unjust and unreasonable rates; and

(2) revoked the seller's authority to sell any electricity at market-based rates.

(b) RELIEF.—Notwithstanding section 222 of the Federal Power Act (as added by section 1262), any provision of title 11, United States Code, or any other provision of law, in the case of a contract described in subsection (a), the Commission shall have exclusive jurisdiction under the Federal Power Act (16 U.S.C. 791a et seq.) to determine whether a requirement to make termination payments for power not delivered by the seller, or any successor in interest of the seller, is not permitted under a rate schedule (or contract under such a schedule) or is otherwise unlawful on the grounds that the contract is unjust and unreasonable or contrary to the public interest.

(c) APPLICABILITY.—This section applies to any proceeding pending on the date of enactment of this section involving a seller described in subsection (a) in which there is not a final, nonappealable order by the Commission or any other jurisdiction determining the respective rights of the seller.

Subtitle H—Definitions

SEC. 1291. DEFINITIONS.

(a) COMMISSION.—In this title, the term "Commission" means the Federal Energy Regulatory Commission.

(b) AMENDMENT.—Section 3 of the Federal Power Act (16 U.S.C. 796) is amended—

(1) by striking paragraphs (22) and (23) and inserting the following:

"(22) ELECTRIC UTILITY.—(A) The term 'electric utility' means a person or Federal or State agency (including an entity described in section 201(f)) that sells electric energy.

"(B) The term 'electric utility' includes the Tennessee Valley Authority and each Federal power marketing administration.

"(23) TRANSMITTING UTILITY.—The term 'transmitting utility' means an entity (including an entity described in section 201(f)) that owns, operates, or controls facilities used for the transmission of electric energy—

"(A) in interstate commerce;

"(B) for the sale of electric energy at wholesale."; and

(2) by adding at the end the following:

"(26) ELECTRIC COOPERATIVE.—The term 'electric cooperative' means a cooperatively owned electric utility.

"(27) RTO.—The term 'Regional Transmission Organization' or 'RTO' means an entity of sufficient regional scope approved by the Commission—

"(A) to exercise operational or functional control of facilities used for the transmission of electric energy in interstate commerce; and

"(B) to ensure nondiscriminatory access to the facilities.

"(28) ISO.—The term 'Independent System Operator' or 'ISO' means an entity approved by the Commission—

"(A) to exercise operational or functional control of facilities used for the transmission of electric energy in interstate commerce; and

"(B) to ensure nondiscriminatory access to the facilities.

"(29) TRANSMISSION ORGANIZATION.—The term 'Transmission Organization' means a Regional Transmission Organization, Independent System Operator, independent transmission provider, or other transmission organization finally approved by the Commission for the operation of transmission facilities.".

(c) APPLICABILITY.—Section 201(f) of the Federal Power Act (16 U.S.C. 824(f)) is amended by striking "political subdivision of a state," and inserting "political subdivision of a State, an electric cooperative that receives financing under the Rural Electrification Act of 1936 (7 U.S.C. 901 et seq.) or that sells less than 4,000,000 megawatt hours of electricity per year,".

Subtitle I—Technical and Conforming Amendments

SEC. 1295. CONFORMING AMENDMENTS.

(a) Section 201 of the Federal Power Act (16 U.S.C. 824) is amended—

(1) in subsection (b)(2)—

(A) in the first sentence—

(i) by striking "The" and inserting "Notwithstanding section 201(f), the"; and

(ii) by striking "210, 211, and 212" and inserting "203(a)(2), 206(e), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, and 222"; and

(B) in the second sentence—

(i) by inserting "or rule" after "any order"; and

(ii) by striking "210 or 211" and inserting "203(a)(2), 206(e), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, or 222"; and

(2) in subsection (e), by striking "210, 211, or 212" and inserting "206(e), 206(f), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, or 222".

(b) Section 206 of the Federal Power Act (16 U.S.C. 824e) is amended—

(1) in the first sentence of subsection (a), by striking "hearing had" and inserting "hearing held"; and

(2) in the seventh sentence of subsection (b), by striking "the public utility to make".

(c) Section 211 of the Federal Power Act (16 U.S.C. 824j) is amended—

(1) in subsection (c)—

(A) by striking "(2)";

(B) by striking "(A)" and inserting "(1)"

(C) by striking "(B)" and inserting "(2)"; and

(D) by striking "termination of modification" and inserting "termination or modification"; and

(2) in the second sentence of subsection (d)(1), by striking "electric utility" the second place it appears and inserting "transmitting utility".

(d) Section 315(c) of the Federal Power Act (16 U.S.C. 825n(c)) is amended by striking "subsection" and inserting "section".

Subtitle J—Economic Dispatch

SEC. 1298. ECONOMIC DISPATCH.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 223. JOINT BOARDS ON ECONOMIC DISPATCH.

"(a) IN GENERAL.—The Commission shall convene joint boards on a regional basis pursuant to section 209 of this Act to study the issue of security constrained economic dispatch for the various market regions. The Commission shall designate the appropriate regions to be covered by each such joint board for purposes of this section.

"(b) MEMBERSHIP.—The Commission shall request each State to nominate a representative for the appropriate regional joint board, and shall designate a member of the Commission to *chair and participate as a member of each such board.*

"(c) Powers.—The sole authority of each joint board convened under this section shall be to consider issues relevant to what constitutes 'security constrained economic dispatch' and how such a mode of operating an electric energy system affects or enhances the reliability and affordability of service to customers in the region concerned and to make recommendations to the Commission regarding such issues.

"(d) Report to the Congress.—Within one year after enactment of this section, the Commission shall issue a report and submit such report to the Congress regarding the recommendations of the joint boards under this section and the Commission may consolidate the recommendations of more than one such regional joint board, including any consensus recommendations for statutory or regulatory reform.".

TITLE XIII—ENERGY POLICY TAX INCENTIVES

SEC. 1300. SHORT TITLE; AMENDMENT OF 1986 CODE.

(a) Short Title.—This title may be cited as the "Energy Tax Incentives Act of 2005".

(b) Amendment of 1986 Code.—Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

Subtitle A—Electricity Infrastructure

SEC. 1301. EXTENSION AND MODIFICATION OF RENEWABLE ELECTRICITY PRODUCTION CREDIT.

(a) 2-Year Extension for Certain Facilities.—Section 45(d) (relating to qualified facilities) is amended—

(1) by striking "January 1, 2006" each place it appears in paragraphs (1), (2), (3), (5), (6), and (7) and inserting "January 1, 2008", and

(2) by striking "January 1, 2006" in paragraph (4) and inserting "January 1, 2008 (January 1, 2006, in the case of a facility using solar energy)".

(b) Increase in Credit Period.—Section 45(b)(4)(B) (relating to credit period) is amended—

(1) by inserting "or clause (iii)" after "clause (ii)" in clause (i), and

(2) by adding at the end the following:

"(iii) Termination.—Clause (i) shall not apply to any facility placed in service after the date of the enactment of this clause.".

(c) Expansion of Qualified Resources to Certain Hydropower.—

(1) In General.—Section 45(c)(1) (defining qualified energy resources) is amended by striking "and" at the end of subparagraph (F), by striking the period at the end of subparagraph (G) and inserting ", and", and by adding at the end the following new subparagraph:

"(H) qualified hydropower production.".

(2) Credit Rate.—Section 45(b)(4)(A) (relating to credit rate) is amended by striking "or (7)" and inserting "(7), or (9)".

(3) Definition of Resources.—Section 45(c) (relating to qualified energy resources and refined coal) is amended by adding at the end the following new paragraph:

"(8) Qualified Hydropower Production.—

"(A) In General.—The term 'qualified hydropower production' means—

"(i) in the case of any hydroelectric dam which was placed in service on or before the date of the enactment of this paragraph, the incremental hydropower production for the taxable year, and

"(ii) in the case of any nonhydroelectric dam described in subparagraph (C), the hydropower production from the facility for the taxable year.

"(B) Determination of Incremental Hydropower Production.—

"(i) In General.—For purposes of subparagraph (A), incremental hydropower production for any taxable year shall be equal to the percentage of average annual hydropower production at the facility attributable to the efficiency improvements or additions of capacity placed in service after the date of the enactment of this paragraph, determined by using the same water flow information used to determine an historic average annual hydropower production baseline for such facility. Such percentage and baseline shall be certified by the Federal Energy Regulatory Commission.

"(ii) Operational Changes Disregarded.—For purposes of clause (i), the determination of incremental hydropower production shall not be based on any operational changes at such facility not directly associated with the efficiency improvements or additions of capacity.

"(C) Nonhydroelectric Dam.—For purposes of subparagraph (A), a facility is described in this subparagraph if—

"(i) the facility is licensed by the Federal Energy Regulatory Commission and meets all other applicable environmental, licensing, and regulatory requirements,

"(ii) the facility was placed in service before the date of the enactment of this paragraph and did not produce hydroelectric power on the date of the enactment of this paragraph, and

"(iii) turbines or other generating devices are to be added to the facility after such date to produce hydroelectric power, but only if there is not any enlargement of the diversion structure, or construction or enlargement of a bypass channel, or the impoundment or any withholding of any additional water from the natural stream channel.".

(4) Facilities.—Section 45(d) (relating to qualified facilities) is amended by adding at the end the following new paragraph:

"(9) Qualified Hydropower Facility.—In the case of a facility producing qualified hydroelectric production described in subsection (c)(8), the term 'qualified facility' means—

"(A) in the case of any facility producing incremental hydropower production, such facility but only to the extent of its incremental hydropower production attributable to efficiency improvements or additions to capacity described in subsection (c)(8)(B) placed in service after the date of the enactment of this paragraph and before January 1, 2008, and

"(B) any other facility placed in service after the date of the enactment of this paragraph and before January 1, 2008.

"(C) Credit Period.—In the case of a qualified facility described in subparagraph (A), the 10-year period referred to in subsection (a) shall be treated as beginning on the date the efficiency improvements or additions to capacity are placed in service.".

(d) Indian Coal.—

(1) Production Facilities.—Subsection (e) of section 45 (relating to definitions and special rules) is amended by adding at the end the following new paragraph:

"(10) Indian Coal Production Facilities.—

"(A) Determination of Credit Amount.—In the case of a producer of Indian coal, the credit determined under this section (without regard to this paragraph) for any taxable year shall be increased by an amount equal to the applicable dollar amount per ton of Indian coal—

"(i) produced by the taxpayer at an Indian coal production facility during the 7-year period beginning on January 1, 2006, and

"(ii) sold by the taxpayer—

"(I) to an unrelated person, and

"(II) during such 7-year period and such taxable year.

"(B) Applicable Dollar Amount.—

"(i) In General.—The term 'applicable dollar amount' for any taxable year beginning in a calendar year means—

"(I) $1.50 in the case of calendar years 2006 through 2009, and

"(II) $2.00 in the case of calendar years beginning after 2009.

"(ii) Inflation Adjustment.—In the case of any calendar year after 2006, each of the dollar amounts under clause (i) shall be equal to the product of such dollar amount and the inflation adjustment factor determined under paragraph (2)(B) for the calendar year, except that such paragraph shall be applied by substituting '2005' for '1992'.

"(C) Application of Rules.—Rules similar to the rules of the subsection (b)(3) and paragraphs (1), (3), (4), and (5) of this subsection shall apply for purposes of determining the amount of any increase under this paragraph.

"(D) Treatment as Specified Credit.—The increase in the credit determined under subsection (a) by reason of this paragraph with respect to any facility shall be treated as a specified credit for purposes of section 38(c)(4)(A) during the 4-year period beginning on the later of January 1, 2006, or the date on which such facility is placed in service by the taxpayer.".

(2) Resource.—Subsection (c) of section 45 (relating to qualified energy resources and refined coal), as amended by this Act, is amended by adding at the end the following new paragraph:

"(9) Indian Coal.—

"(A) In General.—The term 'Indian coal' means coal which is produced from coal reserves which, on June 14, 2005—

"(i) were owned by an Indian tribe, or

"(ii) were held in trust by the United States for the benefit of an Indian tribe or its members.

"(B) Indian Tribe.—For purposes of this paragraph, the term 'Indian tribe' has the meaning given such term by section 7871(c)(3)(E)(ii).".

(3) Indian Coal Production Facility.—Subsection (d) of section 45, as amended by this Act, is amended by adding at the end the following new paragraph:

"(10) Indian Coal Production Facility.—The term 'Indian coal production facility' means a facility which is placed in service before January 1, 2009.".

(4) Conforming Amendment.—The heading for section 45(c) is amended by striking "Qualified Energy Resources and Refined Coal" and inserting "Resources".

(e) Technical Amendment Related to Trash Combustion Facilities.—Section 45(d)(7) (relating to trash combustion facilities) is amended by adding at the end the following: "Such term shall include a new unit placed in service in connection with a facility placed in service on or before the date of the enactment of this paragraph, but only to the extent of the increased amount of electricity produced at the facility by reason of such new unit.".

(f) Additional Technical Amendments Related to Section 710 of the American Jobs Creation Act of 2004.—

(1) Clause (ii) of section 45(b)(4)(B) is amended by striking "the date of the enactment of this Act" and inserting "January 1, 2005,".

(2) Clause (ii) of section 45(c)(3)(A) is amended by inserting "or any nonhazardous lignin waste material" after "cellulosic waste material".

(3) Subsection (e) of section 45 is amended by striking paragraph (6).

(4)(A) Paragraph (9) of section 45(e) is amended to read as follows:

"(9) Coordination With Credit for Producing Fuel From a Nonconventional Source.—

"(A) In General.—The term 'qualified facility' shall not include any facility which produces electricity from gas derived from the biodegradation of municipal solid waste if such

biodegradation occurred in a facility (within the meaning of section 29) the production from which is allowed as a credit under section 29 for the taxable year or any prior taxable year.

“(B) REFINED COAL FACILITIES.—The term ‘refined coal production facility’ shall not include any facility the production from which is allowed as a credit under section 29 for the taxable year or any prior taxable year.”.

(B) Subparagraph (C) of section 45(e)(8) is amended by striking “and (9)”.

(5) Subclause (I) of section 168(e)(3)(B)(vi) is amended to read as follows:

“(I) is described in subparagraph (A) of section 48(a)(3) (or would be so described if ‘solar and wind’ were substituted for ‘solar’ in clause (i) thereof and the last sentence of such section did not apply to such subparagraph),”.

(6) Paragraph (4) of section 710(g) of the American Jobs Creation Act of 2004 is amended by striking “January 1, 2004” and inserting “January 1, 2005”.

(g) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall take effect of the date of the enactment of this Act.

(2) TECHNICAL AMENDMENTS.—The amendments made by subsections (e) and (f) shall take effect as if included in the amendments made by section 710 of the American Jobs Creation Act of 2004.

SEC. 1302. APPLICATION OF SECTION 45 CREDIT TO AGRICULTURAL COOPERATIVES.

(a) IN GENERAL.—Section 45(e) (relating to definitions and special rules), as amended by this Act, is amended by adding at the end the following:

“(11) ALLOCATION OF CREDIT TO PATRONS OF AGRICULTURAL COOPERATIVE.—

“(A) ELECTION TO ALLOCATE.—

“(i) IN GENERAL.—In the case of an eligible cooperative organization, any portion of the credit determined under subsection (a) for the taxable year may, at the election of the organization, be apportioned among patrons of the organization on the basis of the amount of business done by the patrons during the taxable year.

“(ii) FORM AND EFFECT OF ELECTION.—An election under clause (i) for anu taxable year shall be made on a timely filed return for such year. Such election, once made, shall be irrevocable for such taxable year. Such election shall not take effect unless the organization designates the apportionment as such in a written notice mailed to its patrons during the payment period described in section 1382(d).

“(B) TREATMENT OF ORGANIZATIONS AND PATRONS.—The amount of the credit apportioned to any patrons under subparagraph (A)—

“(i) shall not be included in the amount determined under subsection (a) with respect to the organization for the taxable year, and

“(ii) shall be included in the amount determined under subsection (a) for the first taxable year of each patron ending on or after the last day of the payment period (as defined in section 1382(d)) for the taxable year of the organization or, if earlier, for the taxable year of each patron ending on or after the date on which the patron receives notice from the cooperative of the apportionment.

“(C) SPECIAL RULES FOR DECREASE IN CREDITS FOR TAXABLE YEAR.—If the amount of the credit of a cooperative organization determined under subsection (a) for a taxable year is less than the amount of such credit shown on the return of the cooperative organization for such year, an amount equal to the excess of—

“(i) such reduction, over

“(ii) the amount not apportioned to such patrons under subparagraph (A) for the taxable year,

shall be treated as an increase in tax imposed by this chapter on the organization. Such increase shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit under this chapter.

“(D) ELIGIBLE COOPERATIVE DEFINED.—For purposes of this section the term ‘eligible cooperative’ means a cooperative organization described in section 1381(a) which is owned more than 50 percent by agricultural producers or by entities owned by agricultural producers. For this purpose an entity owned by an agricultural producer is one that is more than 50 percent owned by agricultural producers.”.

(b) CONFORMING AMENDMENT.—The last sentence of section 55(c)(1) is amended by inserting “45(e)(11)(C),” after “section”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years of cooperative organizations ending after the date of the enactment of this Act.

SEC. 1303. CLEAN RENEWABLE ENERGY BONDS.

(a) IN GENERAL.—Part IV of subchapter A of chapter 1 (relating to credits against tax) is amended by adding at the end the following new subpart:

“Subpart H—Nonrefundable Credit to Holders of Certain Bonds

“Sec. 54. Credit to holders of clean renewable energy bonds.

“SEC. 54. CREDIT TO HOLDERS OF CLEAN RENEWABLE ENERGY BONDS.

“(a) ALLOWANCE OF CREDIT.—If a taxpayer holds a clean renewable energy bond on 1 or more credit allowance dates of the bond occurring during any taxable year, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of the credits determined under subsection (b) with respect to such dates.

“(b) AMOUNT OF CREDIT.—

“(1) IN GENERAL.—The amount of the credit determined under this subsection with respect to any credit allowance date for a clean renewable energy bond is 25 percent of the annual credit determined with respect to such bond.

“(2) ANNUAL CREDIT.—The annual credit determined with respect to any clean renewable energy bond is the product of—

“(A) the credit rate determined by the Secretary under paragraph (3) for the day on which such bond was sold, multiplied by

“(B) the outstanding face amount of the bond.

“(3) DETERMINATION.—For purposes of paragraph (2), with respect to any clean renewable energy bond, the Secretary shall determine daily or cause to be determined daily a credit rate which shall apply to the first day on which there is a binding, written contract for the sale or exchange of the bond. The credit rate for any day is the credit rate which the Secretary or the Secretary's designee estimates will permit the issuance of clean renewable energy bonds with a specified maturity or redemption date without discount and without interest cost to the qualified issuer.

“(4) CREDIT ALLOWANCE DATE.—For purposes of this section, the term ‘credit allowance date’ means—

“(A) March 15,

“(B) June 15,

“(C) September 15, and

“(D) December 15.

Such term also includes the last day on which the bond is outstanding.

“(5) SPECIAL RULE FOR ISSUANCE AND REDEMPTION.—In the case of a bond which is issued during the 3-month period ending on a credit allowance date, the amount of the credit determined under this subsection with respect to such credit allowance date shall be a ratable portion of the credit otherwise determined based on the portion of the 3-month period during which the bond is outstanding. A similar rule shall apply when the bond is redeemed or matures.

“(c) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for any taxable year shall not exceed the excess of—

“(1) the sum of the regular tax liability (as defined in section 26(b)) plus the tax imposed by section 55, over

“(2) the sum of the credits allowable under this part (other than subpart C and this section).

“(d) CLEAN RENEWABLE ENERGY BOND.—For purposes of this section—

“(1) IN GENERAL.—The term ‘clean renewable energy bond’ means any bond issued as part of an issue if—

“(A) the bond is issued by a qualified issuer pursuant to an allocation by the Secretary to such issuer of a portion of the national clean renewable energy bond limitation under subsection (f)(2),

“(B) 95 percent or more of the proceeds of such issue are to be used for capital expenditures incurred by qualified borrowers for 1 or more qualified projects,

“(C) the qualified issuer designates such bond for purposes of this section and the bond is in registered form, and

“(D) the issue meets the requirements of subsection (h).

“(2) QUALIFIED PROJECT; SPECIAL USE RULES.—

“(A) IN GENERAL.—The term ‘qualified project’ means any qualified facility (as determined under section 45(d) without regard to paragraph (10) and to any placed in service date) owned by a qualified borrower.

“(B) REFINANCING RULES.—For purposes of paragraph (1)(B), a qualified project may be refinanced with proceeds of a clean renewable energy bond only if the indebtedness being refinanced (including any obligation directly or indirectly refinanced by such indebtedness) was originally incurred by a qualified borrower after the date of the enactment of this section.

“(C) REIMBURSEMENT.—For purposes of paragraph (1)(B), a clean renewable energy bond may be issued to reimburse a qualified borrower for amounts paid after the date of the enactment of this section with respect to a qualified project, but only if—

“(i) prior to the payment of the original expenditure, the qualified borrower declared its intent to reimburse such expenditure with the proceeds of a clean renewable energy bond,

“(ii) not later than 60 days after payment of the original expenditure, the qualified issuer adopts an official intent to reimburse the original expenditure with such proceeds, and

“(iii) the reimbursement is made not later than 18 months after the date the original expenditure is paid.

“(D) TREATMENT OF CHANGES IN USE.—For purposes of paragraph (1)(B), the proceeds of an issue shall not be treated as used for a qualified project to the extent that a qualified borrower or qualified issuer takes any action within its control which causes such proceeds not to be used for a qualified project. The Secretary shall prescribe regulations specifying remedial actions that may be taken (including conditions to taking such remedial actions) to prevent an action described in the preceding sentence from causing a bond to fail to be a clean renewable energy bond.

“(e) MATURITY LIMITATIONS.—

“(1) DURATION OF TERM.—A bond shall not be treated as a clean renewable energy bond if the maturity of such bond exceeds the maximum term determined by the Secretary under paragraph (2) with respect to such bond.

“(2) MAXIMUM TERM.—During each calendar month, the Secretary shall determine the maximum term permitted under this paragraph for bonds issued during the following calendar month. Such maximum term shall be the term *which the Secretary estimates will result in the present value of the obligation to repay the principal on the bond being equal to 50 percent of the face amount of such bond. Such present value shall be determined without regard to the requirements of subsection (l)(6) and using as a discount rate the average annual interest rate of tax-exempt obligations having a term of 10 years or more which are issued during the month. If the term as so determined is not a multiple of a whole year, such term shall be rounded to the next highest whole year.*

"(f) LIMITATION ON AMOUNT OF BONDS DESIGNATED.—

"(1) NATIONAL LIMITATION.—There is a national clean renewable energy bond limitation of $800,000,000.

"(2) ALLOCATION BY SECRETARY.—The Secretary shall allocate the amount described in paragraph (1) among qualified projects in such manner as the Secretary determines appropriate, except that the Secretary may not allocate more than $500,000,000 of the national clean renewable energy bond limitation to finance qualified projects of qualified borrowers which are governmental bodies.

"(g) CREDIT INCLUDED IN GROSS INCOME.—Gross income includes the amount of the credit allowed to the taxpayer under this section (determined without regard to subsection (c)) and the amount so included shall be treated as interest income.

"(h) SPECIAL RULES RELATING TO EXPENDITURES.—

"(1) IN GENERAL.—An issue shall be treated as meeting the requirements of this subsection if, as of the date of issuance, the qualified issuer reasonably expects—

"(A) at least 95 percent of the proceeds of such issue are to be spent for 1 or more qualified projects within the 5-year period beginning on the date of issuance of the clean energy bond,

"(B) a binding commitment with a third party to spend at least 10 percent of the proceeds of such issue will be incurred within the 6-month period beginning on the date of issuance of the clean energy bond or, in the case of a clean energy bond the proceeds of which are to be loaned to 2 or more qualified borrowers, such binding commitment will be incurred within the 6-month period beginning on the date of the loan of such proceeds to a qualified borrower, and

"(C) such projects will be completed with due diligence and the proceeds of such issue will be spent with due diligence.

"(2) EXTENSION OF PERIOD.—Upon submission of a request prior to the expiration of the period described in paragraph (1)(A), the Secretary may extend such period if the qualified issuer establishes that the failure to satisfy the 5-year requirement is due to reasonable cause and the related projects will continue to proceed with due diligence.

"(3) FAILURE TO SPEND REQUIRED AMOUNT OF BOND PROCEEDS WITHIN 5 YEARS.—To the extent that less than 95 percent of the proceeds of such issue are expended by the close of the 5-year period beginning on the date of issuance (or if an extension has been obtained under paragraph (2), by the close of the extended period), the qualified issuer shall redeem all of the nonqualified bonds within 90 days after the end of such period. For purposes of this paragraph, the amount of the nonqualified bonds required to be redeemed shall be determined in the same manner as under section 142.

"(i) SPECIAL RULES RELATING TO ARBITRAGE.—A bond which is part of an issue shall not be treated as a clean renewable energy bond unless, with respect to the issue of which the bond is a part, the qualified issuer satisfies the arbitrage requirements of section 148 with respect to proceeds of the issue.

"(j) COOPERATIVE ELECTRIC COMPANY; QUALIFIED ENERGY TAX CREDIT BOND LENDER; GOVERNMENTAL BODY; QUALIFIED BORROWER.—For purposes of this section—

"(1) COOPERATIVE ELECTRIC COMPANY.—The term 'cooperative electric company' means a mutual or cooperative electric company described in section 501(c)(12) or section 1381(a)(2)(C), or a not-for-profit electric utility which has received a loan or loan guarantee under the Rural Electrification Act.

"(2) CLEAN RENEWABLE ENERGY BOND LENDER.—The term 'clean renewable energy bond lender' means a lender which is a cooperative which is owned by, or has outstanding loans to, 100 or more cooperative electric companies and is in existence on February 1, 2002, and shall include any affiliated entity which is controlled by such lender.

"(3) GOVERNMENTAL BODY.—The term 'governmental body' means any State, territory, possession of the United States, the District of Columbia, Indian tribal government, and any political subdivision thereof.

"(4) QUALIFIED ISSUER.—The term 'qualified issuer' means—

"(A) a clean renewable energy bond lender,

"(B) a cooperative electric company, or

"(C) a governmental body.

"(5) QUALIFIED BORROWER.—The term 'qualified borrower' means—

"(A) a mutual or cooperative electric company described in section 501(c)(12) or 1381(a)(2)(C), or

"(B) a governmental body.

"(k) SPECIAL RULES RELATING TO POOL BONDS.—No portion of a pooled financing bond may be allocable to any loan unless the borrower has entered into a written loan commitment for such portion prior to the issue date of such issue.

"(l) OTHER DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) BOND.—The term 'bond' includes any obligation.

"(2) POOLED FINANCING BOND.—The term 'pooled financing bond' shall have the meaning given such term by section 149(f)(4)(A).

"(3) PARTNERSHIP; S CORPORATION; AND OTHER PASS-THRU ENTITIES.—

"(A) IN GENERAL.—Under regulations prescribed by the Secretary, in the case of a partnership, trust, S corporation, or other pass-thru entity, rules similar to the rules of section 41(g) shall apply with respect to the credit allowable under subsection (a).

"(B) NO BASIS ADJUSTMENT.—In the case of a bond held by a partnership or an S corporation, rules similar to the rules under section 1397E(i) shall apply.

"(4) BONDS HELD BY REGULATED INVESTMENT COMPANIES.—If any clean renewable energy bond is held by a regulated investment company, the credit determined under subsection (a) shall be allowed to shareholders of such company under procedures prescribed by the Secretary.

"(5) TREATMENT FOR ESTIMATED TAX PURPOSES.—Solely for purposes of sections 6654 and 6655, the credit allowed by this section (determined without regard to subsection (c)) to a taxpayer by reason of holding a clean renewable energy bond on a credit allowance date shall be treated as if it were a payment of estimated tax made by the taxpayer on such date.

"(6) RATABLE PRINCIPAL AMORTIZATION REQUIRED.—A bond shall not be treated as a clean renewable energy bond unless it is part of an issue which provides for an equal amount of principal to be paid by the qualified issuer during each calendar year that the issue is outstanding.

"(7) REPORTING.—Issuers of clean renewable energy bonds shall submit reports similar to the reports required under section 149(e).

"(m) TERMINATION.—This section shall not apply with respect to any bond issued after December 31, 2007.".

(b) REPORTING.—Subsection (d) of section 6049 (relating to returns regarding payments of interest) is amended by adding at the end the following new paragraph:

"(8) REPORTING OF CREDIT ON CLEAN RENEWABLE ENERGY BONDS.—

"(A) IN GENERAL.—For purposes of subsection (a), the term 'interest' includes amounts includible in gross income under section 54(g) and such amounts shall be treated as paid on the credit allowance date (as defined in section 54(b)(4)).

"(B) REPORTING TO CORPORATIONS, ETC.—Except as otherwise provided in regulations, in the case of any interest described in subparagraph (A), subsection (b)(4) shall be applied without regard to subparagraphs (A), (H), (I), (J), (K), and (L)(i) of such subsection.

"(C) REGULATORY AUTHORITY.—The Secretary may prescribe such regulations as are necessary or appropriate to carry out the purposes of this paragraph, including regulations which require more frequent or more detailed reporting.".

(c) CONFORMING AMENDMENTS.—

(1) The table of subparts for part IV of subchapter A of chapter 1 is amended by adding at the end the following new item:

"SUBPART H. NONREFUNDABLE CREDIT TO HOLDERS OF CERTAIN BONDS.".

(2) Section 1397E(c)(2) is amended by inserting ", and subpart H thereof" after "refundable credits".

(3) Subsection (h) of section 1397E is amended to read as follows:

"(h) CREDIT TREATED AS NONREFUNDABLE BONDHOLDER CREDIT.—For purposes of this title, the credit allowed by this section shall be treated as a credit allowable under subpart H of part IV of subchapter A of this chapter.".

(4) Section 6401(b)(1) is amended by striking "and G" and inserting "G, and H".

(d) ISSUANCE OF REGULATIONS.—The Secretary of Treasury shall issue regulations required under section 54 of the Internal Revenue Code of 1986 (as added by this section) not later than 120 days after the date of the enactment of this Act.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to bonds issued after December 31, 2005.

SEC. 1304. TREATMENT OF INCOME OF CERTAIN ELECTRIC COOPERATIVES.

(a) ELIMINATION OF SUNSET ON TREATMENT OF INCOME FROM OPEN ACCESS AND NUCLEAR DECOMMISSIONING TRANSACTIONS.—Section 501(c)(12)(C) is amended by striking the last sentence.

(b) ELIMINATION OF SUNSET ON TREATMENT OF INCOME FROM LOAD LOSS TRANSACTIONS.—Section 501(c)(12)(H) is amended by striking clause (x).

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act.

SEC. 1305. DISPOSITIONS OF TRANSMISSION PROPERTY TO IMPLEMENT FERC RESTRUCTURING POLICY.

(a) IN GENERAL.—Section 451(i)(3) (defining qualifying electric transmission transaction) is amended by striking "2007" and inserting "2008".

(b) TECHNICAL AMENDMENT RELATED TO SECTION 909 OF THE AMERICAN JOBS CREATION ACT OF 2004.—Clause (ii) of section 451(i)(4)(B) is amended by striking "the close of the period applicable under subsection (a)(2)(B) as extended under paragraph (2)" and inserting "December 31, 2007".

(c) EFFECTIVE DATES.—

(1) IN GENERAL.—The amendment made by subsection (a) shall apply to transactions occurring after the date of the enactment of this Act.

(2) TECHNICAL AMENDMENT.—The amendment made by subsection (b) shall take effect as if included in the amendments made by section 909 of the American Jobs Creation Act of 2004.

SEC. 1306. CREDIT FOR PRODUCTION FROM ADVANCED NUCLEAR POWER FACILITIES.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business related credits) is amended by adding after section 45I the following new section:

"SEC. 45J. CREDIT FOR PRODUCTION FROM ADVANCED NUCLEAR POWER FACILITIES.

"(a) GENERAL RULE.—For purposes of section 38, the advanced nuclear power facility production credit of any taxpayer for any taxable year is equal to the product of—

"(1) 1.8 cents, multiplied by

"(2) the kilowatt hours of electricity—

"(A) produced by the taxpayer at an advanced nuclear power facility during the 8-year period beginning on the date the facility was originally placed in service, and

"(B) sold by the taxpayer to an unrelated person during the taxable year.

"(b) NATIONAL LIMITATION.—

"(1) IN GENERAL.—The amount of credit which would (but for this subsection and subsection (c)) be allowed with respect to any facility for any taxable year shall not exceed the amount which bears the same ratio to such amount of credit as—

"(A) the national megawatt capacity limitation allocated to the facility, bears to

"(B) the total megawatt nameplate capacity of such facility.

"(2) AMOUNT OF NATIONAL LIMITATION.—The national megawatt capacity limitation shall be 6,000 megawatts.

"(3) ALLOCATION OF LIMITATION.—The Secretary shall allocate the national megawatt capacity limitation in such manner as the Secretary may prescribe.

"(4) REGULATIONS.—Not later than 6 months after the date of the enactment of this section, the Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of this subsection. Such regulations shall provide a certification process under which the Secretary, after consultation with the Secretary of Energy, shall approve and allocate the national megawatt capacity limitation.

"(c) OTHER LIMITATIONS.—

"(1) ANNUAL LIMITATION.—The amount of the credit allowable under subsection (a) (after the application of subsection (b)) for any taxable year with respect to any facility shall not exceed an amount which bears the same ratio to $125,000,000 as—

"(A) the national megawatt capacity limitation allocated under subsection (b) to the facility, bears to

"(B) 1,000.

"(2) OTHER LIMITATIONS.—Rules similar to the rules of section 45(b)(1) shall apply for purposes of this section.

"(d) ADVANCED NUCLEAR POWER FACILITY.—For purposes of this section—

"(1) IN GENERAL.—The term 'advanced nuclear power facility' means any advanced nuclear facility—

"(A) which is owned by the taxpayer and which uses nuclear energy to produce electricity, and

"(B) which is placed in service after the date of the enactment of this paragraph and before January 1, 2021.

"(2) ADVANCED NUCLEAR FACILITY.—For purposes of paragraph (1), the term 'advanced nuclear facility' means any nuclear facility the reactor design for which is approved after December 31, 1993, by the Nuclear Regulatory Commission (and such design or a substantially similar design of comparable capacity was not approved on or before such date).

"(e) OTHER RULES TO APPLY.—Rules similar to the rules of paragraphs (1), (2), (3), (4), and (5) of section 45(e) shall apply for purposes of this section.".

(b) CREDIT TREATED AS BUSINESS CREDIT.—Section 38(b), as amended by the Transportation Equity Act: A Legacy for Users, is amended by striking "plus" at the end of paragraph (19), by striking the period at the end of paragraph (20) and inserting ", plus", and by adding at the end the following:

"(21) the advanced nuclear power facility production credit determined under section 45J(a).".

(c) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1 is amended by adding at the end the following:

"Sec. 45J. Credit for production from advanced nuclear power facilities.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to production in taxable years beginning after the date of the enactment of this Act.

SEC. 1307. CREDIT FOR INVESTMENT IN CLEAN COAL FACILITIES.

(a) IN GENERAL.—Section 46 (relating to amount of credit) is amended by striking "and" at the end of paragraph (1), by striking the period at the end of paragraph (2), and by adding at the end the following new paragraphs:

"(3) the qualifying advanced coal project credit, and

"(4) the qualifying gasification project credit.".

(b) AMOUNT OF CREDITS.—Subpart E of part IV of subchapter A of chapter 1 (relating to rules for computing investment credit) is amended by inserting after section 48 the following new sections:

"SEC. 48A. QUALIFYING ADVANCED COAL PROJECT CREDIT.

"(a) IN GENERAL.—For purposes of section 46, the qualifying advanced coal project credit for any taxable year is an amount equal to—

"(1) 20 percent of the qualified investment for such taxable year in the case of projects described in subsection (d)(3)(B)(i), and

"(2) 15 percent of the qualified investment for such taxable year in the case of projects described in subsection (d)(3)(B)(ii).

"(b) QUALIFIED INVESTMENT.—

"(1) IN GENERAL.—For purposes of subsection (a), the qualified investment for any taxable year is the basis of eligible property placed in service by the taxpayer during such taxable year which is part of a qualifying advanced coal project—

"(A)(i) the construction, reconstruction, or erection of which is completed by the taxpayer, or

"(ii) which is acquired by the taxpayer if the original use of such property commences with the taxpayer, and

"(B) with respect to which depreciation (or amortization in lieu of depreciation) is allowable.

"(2) SPECIAL RULE FOR CERTAIN SUBSIDIZED PROPERTY.—Rules similar to section 48(a)(4) shall apply for purposes of this section.

"(3) CERTAIN QUALIFIED PROGRESS EXPENDITURES RULES MADE APPLICABLE.—Rules similar to the rules of subsections (c)(4) and (d) of section 46 (as in effect on the day before the enactment of the Revenue Reconciliation Act of 1990) shall apply for purposes of this section.

"(c) DEFINITIONS.—For purposes of this section—

"(1) QUALIFYING ADVANCED COAL PROJECT.—The term 'qualifying advanced coal project' means a project which meets the requirements of subsection (e).

"(2) ADVANCED COAL-BASED GENERATION TECHNOLOGY.—The term 'advanced coal-based generation technology' means a technology which meets the requirements of subsection (f).

"(3) ELIGIBLE PROPERTY.—The term 'eligible property' means—

"(A) in the case of any qualifying advanced coal project using an integrated gasification combined cycle, any property which is a part of such project and is necessary for the gasification of coal, including any coal handling and gas separation equipment, and

"(B) in the case of any other qualifying advanced coal project, any property which is a part of such project.

"(4) COAL.—The term 'coal' means anthracite, bituminous coal, subbituminous coal, lignite, and peat.

"(5) GREENHOUSE GAS CAPTURE CAPABILITY.—The term 'greenhouse gas capture capability' means an integrated gasification combined cycle technology facility capable of adding components which can capture, separate on a long-term basis, isolate, remove, and sequester greenhouse gases which result from the generation of electricity.

"(6) ELECTRIC GENERATION UNIT.—The term 'electric generation unit' means any facility at least 50 percent of the total annual net output of which is electrical power, including an otherwise eligible facility which is used in an industrial application.

"(7) INTEGRATED GASIFICATION COMBINED CYCLE.—The term 'integrated gasification combined cycle' means an electric generation unit which produces electricity by converting coal to synthesis gas which is used to fuel a combined-cycle plant which produces electricity from both a combustion turbine (including a combustion turbine/fuel cell hybrid) and a steam turbine.

"(d) QUALIFYING ADVANCED COAL PROJECT PROGRAM.—

"(1) ESTABLISHMENT.—Not later than 180 days after the date of enactment of this section, the Secretary, in consultation with the Secretary of Energy, shall establish a qualifying advanced coal project program for the deployment of advanced coal-based generation technologies.

"(2) CERTIFICATION.—

"(A) APPLICATION PERIOD.—Each applicant for certification under this paragraph shall submit an application meeting the requirements of subparagraph (B). An applicant may only submit an application during the 3-year period beginning on the date the Secretary establishes the program under paragraph (1).

"(B) REQUIREMENTS FOR APPLICATIONS FOR CERTIFICATION.—An application under subparagraph (A) shall contain such information as the Secretary may require in order to make a determination to accept or reject an application for certification as meeting the requirements under subsection (e)(1). Any information contained in the application shall be protected as provided in section 552(b)(4) of title 5, United States Code.

"(C) TIME TO ACT UPON APPLICATIONS FOR CERTIFICATION.—The Secretary shall issue a determination as to whether an applicant has met the requirements under subsection (e)(1) within 60 days following the date of submittal of the application for certification.

"(D) TIME TO MEET CRITERIA FOR CERTIFICATION.—Each applicant for certification shall have 2 years from the date of acceptance by the Secretary of the application during which to provide to the Secretary evidence that the criteria set forth in subsection (e)(2) have been met.

"(E) PERIOD OF ISSUANCE.—An applicant which receives a certification shall have 5 years from the date of issuance of the certification in order to place the project in service and if such project is not placed in service by that time period then the certification shall no longer be valid.

"(3) AGGREGATE CREDITS.—

"(A) IN GENERAL.—The aggregate credits allowed under subsection (a) for projects certified by the Secretary under paragraph (2) may not exceed $1,300,000,000.

"(B) PARTICULAR PROJECTS.—Of the dollar amount in subparagraph (A), the Secretary is authorized to certify—

"(i) $800,000,000 for integrated gasification combined cycle projects, and

"(ii) $500,000,000 for projects which use other advanced coal-based generation technologies.

"(4) REVIEW AND REDISTRIBUTION.—

"(A) REVIEW.—Not later than 6 years after the date of enactment of this section, the Secretary shall review the credits allocated under this section as of the date which is 6 years after the date of enactment of this section.

"(B) REDISTRIBUTION.—The Secretary may reallocate credits available under clauses (i) and (ii) of paragraph (3)(B) if the Secretary determines that—

"(i) there is an insufficient quantity of qualifying applications for certification pending at the time of the review, or

"(ii) any certification made pursuant to subsection paragraph (2) has been revoked pursuant to subsection paragraph (2)(D) because the project subject to the certification has been delayed as a result of third party opposition or litigation to the proposed project.

"(C) REALLOCATION.—If the Secretary determines that credits under clause (i) or (ii) of paragraph (3)(B) are available for reallocation pursuant to the requirements set forth in paragraph (2), the Secretary is authorized to conduct an additional program for applications for certification.

"(e) QUALIFYING ADVANCED COAL PROJECTS.—

"(1) REQUIREMENTS.—For purposes of subsection (c)(1), a project shall be considered a qualifying advanced coal project that the Secretary may certify under subsection (d)(2) if the Secretary determines that, at a minimum—

"(A) the project uses an advanced coal-based generation technology—

"(i) to power a new electric generation unit, or

"(ii) to retrofit or repower an existing electric generation unit (including an existing natural gas-fired combined cycle unit),

"(B) the fuel input for the project, when completed, is at least 75 percent coal,

"(C) the project, consisting of one or more electric generation units at one site, will have a total nameplate generating capacity of at least 400 megawatts;

"(D) the applicant provides evidence that a majority of the output of the project is reasonably expected to be acquired or utilized;

"(E) the applicant provides evidence of ownership or control of a site of sufficient size to allow the proposed project to be constructed and to operate on a long-term basis; and

"(F) the project will be located in the United States.

"(2) REQUIREMENTS FOR CERTIFICATION.—For the purpose of subsection (d)(2)(D), a project shall be eligible for certification only if the Secretary determines that—

"(A) the applicant for certification has received all Federal and State environmental authorizations or reviews necessary to commence construction of the project; and

"(B) the applicant for certification, except in the case of a retrofit or repower of an existing electric generation unit, has purchased or entered into a binding contract for the purchase of the main steam turbine or turbines for the project, except that such contract may be contingent upon receipt of a certification under subsection (d)(2).

"(3) PRIORITY FOR INTEGRATED GASIFICATION COMBINED CYCLE PROJECTS.—In determining which qualifying advanced coal projects to certify under subsection (d)(2), the Secretary shall—

"(A) certify capacity, in accordance with the procedures set forth in subsection (d), in relatively equal amounts to—

"(i) projects using bituminous coal as a primary feedstock,

"(ii) projects using subbituminous coal as a primary feedstock, and

"(iii) projects using lignite as a primary feedstock, and

"(B) give high priority to projects which include, as determined by the Secretary—

"(i) greenhouse gas capture capability,

"(ii) increased by-product utilization, and

"(iii) other benefits.

"(f) ADVANCED COAL-BASED GENERATION TECHNOLOGY.—

"(1) IN GENERAL.—For the purpose of this section, an electric generation unit uses advanced coal-based generation technology if—

"(A) the unit—

"(i) uses integrated gasification combined cycle technology, or

"(ii) except as provided in paragraph (3), has a design net heat rate of 8530 Btu/kWh (40 percent efficiency), and

"(B) the unit is designed to meet the performance requirements in the following table:

Performance characteristic:	**Design level for project:**
SO$_2$ (percent removal)	99 percent
NO$_x$ (emissions)	0.07 lbs/MMBTU
PM* (emissions)	0.015 lbs/MMBTU
Hg (percent removal)	90 percent

"(2) DESIGN NET HEAT RATE.—For purposes of this subsection, design net heat rate with respect to an electric generation unit shall—

"(A) be measured in Btu per kilowatt hour (higher heating value),

"(B) be based on the design annual heat input to the unit and the rated net electrical power, fuels, and chemicals output of the unit (determined without regard to the cogeneration of steam by the unit),

"(C) be adjusted for the heat content of the design coal to be used by the unit—

"(i) if the heat content is less than 13,500 Btu per pound, but greater than 7,000 Btu per pound, according to the following formula: design net heat rate = unit net heat rate x [1-[((13,500-design coal heat content, Btu per pound)/1,000)* 0.013]], and

"(ii) if the heat content is less than or equal to 7,000 Btu per pound, according to the following formula: design net heat rate = unit net heat rate x [1-[((13,500-design coal heat content, Btu per pound)/1,000)* 0.018]], and

"(D) be corrected for the site reference conditions of—

"(i) elevation above sea level of 500 feet,

"(ii) air pressure of 14.4 pounds per square inch absolute,

"(iii) temperature, dry bulb of 63/o/F,

"(iv) temperature, wet bulb of 54/o/F, and

"(v) relative humidity of 55 percent.

"(3) EXISTING UNITS.—In the case of any electric generation unit in existence on the date of the enactment of this section, such unit uses advanced coal-based generation technology if, in lieu of the requirements under paragraph (1)(A)(ii), such unit achieves a minimum efficiency of 35 percent and an overall thermal design efficiency improvement, compared to the efficiency of the unit as operated, of not less than—

"(A) 7 percentage points for coal of more than 9,000 Btu,

"(B) 6 percentage points for coal of 7,000 to 9,000 Btu, or

"(C) 4 percentage points for coal of less than 7,000 Btu.

"(g) APPLICABILITY.—No use of technology (or level of emission reduction solely by reason of the use of the technology), and no achievement of any emission reduction by the demonstration of any technology or performance level, by or at one or more facilities with respect to which a credit is allowed under this section, shall be considered to indicate that the technology or performance level is—

"(1) adequately demonstrated for purposes of section 111 of the Clean Air Act (42 U.S. C. 7411);

"(2) achievable for purposes of section 169 of that Act (42 U.S. C. 7479); or

"(3) achievable in practice for purposes of section 171 of such Act (42 U.S.C. 7501).

"SEC. 48B. QUALIFYING GASIFICATION PROJECT CREDIT.

"(a) IN GENERAL.—For purposes of section 46, the qualifying gasification project credit for any taxable year is an amount equal to 20 percent of the qualified investment for such taxable year.

"(b) QUALIFIED INVESTMENT.—

"(1) IN GENERAL.—For purposes of subsection (a), the qualified investment for any taxable year is the basis of eligible property placed in service by the taxpayer during such taxable year which is part of a qualifying gasification project—

"(A)(i) the construction, reconstruction, or erection of which is completed by the taxpayer, or

"(ii) which is acquired by the taxpayer if the original use of such property commences with the taxpayer, and

"(B) with respect to which depreciation (or amortization in lieu of depreciation) is allowable.

"(2) SPECIAL RULE FOR CERTAIN SUBSIDIZED PROPERTY.—Rules similar to section 48(a)(4) shall apply for purposes of this section.

"(3) CERTAIN QUALIFIED PROGRESS EXPENDITURES RULES MADE APPLICABLE.—Rules similar to the rules of subsections (c)(4) and (d) of section 46 (as in effect on the day before the enactment of the Revenue Reconciliation Act of 1990) shall apply for purposes of this section.

"(c) DEFINITIONS.—For purposes of this section—

"(1) QUALIFYING GASIFICATION PROJECT.—The term 'qualifying gasification project' means any project which—

"(A) employs gasification technology,

"(B) will be carried out by an eligible entity, and

"(C) any portion of the qualified investment of which is certified under the qualifying gasification program as eligible for credit under this section in an amount (not to exceed $650,000,000) determined by the Secretary.

"(2) GASIFICATION TECHNOLOGY.—The term 'gasification technology' means any process which converts a solid or liquid product from coal, petroleum residue, biomass, or other materials which are recovered for their energy or feedstock value into a synthesis gas composed primarily of carbon monoxide and hydrogen for direct use or subsequent chemical or physical conversion.

"(3) ELIGIBLE PROPERTY.—The term 'eligible property' means any property which is a part of a qualifying gasification project and is necessary for the gasification technology of such project.

"(4) BIOMASS.—

"(A) IN GENERAL.—The term 'biomass' means any—

"(i) agricultural or plant waste,

"(ii) byproduct of wood or paper mill operations, including lignin in spent pulping liquors, and

"(iii) other products of forestry maintenance.

"(B) EXCLUSION.—The term 'biomass' does not include paper which is commonly recycled.

''(5) CARBON CAPTURE CAPABILITY.—The term 'carbon capture capability' means a gasification plant design which is determined by the Secretary to reflect reasonable consideration for, and be capable of, accommodating the equipment likely to be necessary to capture carbon dioxide from the gaseous stream, for later use or sequestration, which would otherwise be emitted in the flue gas from a project which uses a nonrenewable fuel.

''(6) COAL.—The term 'coal' means anthracite, bituminous coal, subbituminous coal, lignite, and peat.

''(7) ELIGIBLE ENTITY.—The term 'eligible entity' means any person whose application for certification is principally intended for use in a domestic project which employs domestic gasification applications related to—

''(A) chemicals,

''(B) fertilizers,

''(C) glass,

''(D) steel,

''(E) petroleum residues,

''(F) forest products, and

''(G) agriculture, including feedlots and dairy operations.

''(8) PETROLEUM RESIDUE.—The term 'petroleum residue' means the carbonized product of high-boiling hydrocarbon fractions obtained in petroleum processing.

''(d) QUALIFYING GASIFICATION PROJECT PROGRAM.—

''(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this section, the Secretary, in consultation with the Secretary of Energy, shall establish a qualifying gasification project program to consider and award certifications for qualified investment eligible for credits under this section to qualifying gasification project sponsors under this section. The total amounts of credit that may be allocated under the program shall not exceed $350,000,000 under rules similar to the rules of section 48A(d)(4).

''(2) PERIOD OF ISSUANCE.—A certificate of eligibility under paragraph (1) may be issued only during the 10-fiscal year period beginning on October 1, 2005.

''(3) SELECTION CRITERIA.—The Secretary shall not make a competitive certification award for qualified investment for credit eligibility under this section unless the recipient has documented to the satisfaction of the Secretary that—

''(A) the award recipient is financially viable without the receipt of additional Federal funding associated with the proposed project,

''(B) the recipient will provide sufficient information to the Secretary for the Secretary to ensure that the qualified investment is spent efficiently and effectively,

''(C) a market exists for the products of the proposed project as evidenced by contracts or written statements of intent from potential customers,

''(D) the fuels identified with respect to the gasification technology for such project will comprise at least 90 percent of the fuels required by the project for the production of chemical feedstocks, liquid transportation fuels, or coproduction of electricity,

''(E) the award recipient's project team is competent in the construction and operation of the gasification technology proposed, with preference given to those recipients with experience which demonstrates successful and reliable operations of the technology on domestic fuels so identified, and

''(F) the award recipient has met other criteria established and published by the Secretary.

''(e) DENIAL OF DOUBLE BENEFIT.—A credit shall not be allowed under this section for any qualified investment for which a credit is allowed under section 48A.''.

(c) CONFORMING AMENDMENTS.—

(1) Section 49(a)(1)(C) is amended by striking ''and'' at the end of clause (ii), by striking clause (iii), and by adding after clause (ii) the following new clauses:

''(iii) the basis of any property which is part of a qualifying advanced coal project under section 48A, and

''(iv) the basis of any property which is part of a qualifying gasification project under section 48B.''.

(2) The table of sections for subpart E of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 48 the following new items:

''Sec. 48A. Qualifying advanced coal project credit.

''Sec. 48B. Qualifying gasification project credit.''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to periods after the date of the enactment of this Act, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

SEC. 1308. ELECTRIC TRANSMISSION PROPERTY TREATED AS 15-YEAR PROPERTY.

(a) IN GENERAL.—Subparagraph (E) of section 168(e)(3) (relating to classification of certain property) is amended by striking ''and'' at the end of clause (v), by striking the period at the end of clause (vi) and inserting '', and'', and by adding at the end the following new clause:

''(vii) any section 1245 property (as defined in section 1245(a)(3)) used in the transmission at 69 or more kilovolts of electricity for sale and the original use of which commences with the taxpayer after April 11, 2005.''.

(b) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) (relating to special rule for certain property assigned to classes) is amended by inserting after the item relating to subparagraph (E)(vi) the following new item:

''(E)(vii) .... 30''.

(c) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply to property placed in service after April 11, 2005.

(2) EXCEPTION.—The amendments made by this section shall not apply to any property with respect to which the taxpayer or a related party has entered into a binding contract for the construction thereof on or before April 11, 2005, or, in the case of self-constructed property, has started construction on or before such date.

SEC. 1309. EXPANSION OF AMORTIZATION FOR CERTAIN ATMOSPHERIC POLLUTION CONTROL FACILITIES IN CONNECTION WITH PLANTS FIRST PLACED IN SERVICE AFTER 1975.

(a) ELIGIBILITY OF POST-1975 POLLUTION CONTROL FACILITIES.—Subsection (d) of section 169 (relating to definitions) is amended by adding at the end the following:

''(5) SPECIAL RULE RELATING TO CERTAIN ATMOSPHERIC POLLUTION CONTROL FACILITIES.—In the case of any atmospheric pollution control facility which is placed in service after April 11, 2005, and used in connection with an electric generation plant or other property which is primarily coal fired—

''(A) paragraph (1) shall be applied without regard to the phrase 'in operation before January 1, 1976', and

''(B) this section shall be applied by substituting '84' for '60' each place it appears in subsections (a) and (b).''.

(b) TREATMENT AS NEW IDENTIFIABLE TREATMENT FACILITY.—Subparagraph (B) of section 169(d)(4) is amended to read as follows:

''(B) CERTAIN FACILITIES PLACED IN OPERATION AFTER APRIL 11, 2005.—In the case of any facility described in paragraph (1) solely by reason of paragraph (5), subparagraph (A) shall be applied by substituting 'April 11, 2005' for 'December 31, 1968' each place it appears therein.''.

(c) CONFORMING AMENDMENT.—The heading for section 169(d) is amended by inserting ''AND SPECIAL RULES'' after ''DEFINITIONS''.

(d) TECHNICAL AMENDMENT.—Section 169(d)(3) is amended by striking ''Health, Education, and Welfare'' and inserting ''Health and Human Services''.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to facilities placed in service after April 11, 2005.

SEC. 1310. MODIFICATIONS TO SPECIAL RULES FOR NUCLEAR DECOMMISSIONING COSTS.

(a) REPEAL OF LIMITATION ON DEPOSITS INTO FUND BASED ON COST OF SERVICE; CONTRIBUTIONS AFTER FUNDING PERIOD.—Subsection (b) of section 468A (relating to special rules for nuclear decommissioning costs) is amended to read as follows:

''(b) LIMITATION ON AMOUNTS PAID INTO FUND.—The amount which a taxpayer may pay into the Fund for any taxable year shall not exceed the ruling amount applicable to such taxable year.''.

(b) TREATMENT OF CERTAIN DECOMMISSIONING COSTS.—

(1) IN GENERAL.—Section 468A is amended by redesignating subsections (f) and (g) as subsections (g) and (h), respectively, and by inserting after subsection (e) the following new subsection:

''(f) TRANSFERS INTO QUALIFIED FUNDS.—

''(1) IN GENERAL.—Notwithstanding subsection (b), any taxpayer maintaining a Fund to which this section applies with respect to a nuclear power plant may transfer into such Fund not more than an amount equal to the present value of the portion of the total nuclear decommissioning costs with respect to such nuclear power plant previously excluded for such nuclear power plant under subsection (d)(2)(A) as in effect immediately before the date of the enactment of this subsection.

''(2) DEDUCTION FOR AMOUNTS TRANSFERRED.—

''(A) IN GENERAL.—Except as provided in subparagraph (C), the deduction allowed by subsection (a) for any transfer permitted by this subsection shall be allowed ratably over the remaining estimated useful life (within the meaning of subsection (d)(2)(A)) of the nuclear power plant beginning with the taxable year during which the transfer is made.

''(B) DENIAL OF DEDUCTION FOR PREVIOUSLY DEDUCTED AMOUNTS.—No deduction shall be allowed for any transfer under this subsection of an amount for which a deduction was previously allowed to the taxpayer (or a predecessor) or a corresponding amount was not included in gross income of the taxpayer (or a predecessor). For purposes of the preceding sentence, a ratable portion of each transfer shall be treated as being from previously deducted or excluded amounts to the extent thereof.

''(C) TRANSFERS OF QUALIFIED FUNDS.—If—

''(i) any transfer permitted by this subsection is made to any Fund to which this section applies, and

''(ii) such Fund is transferred thereafter,

any deduction under this subsection for taxable years ending after the date that such Fund is transferred shall be allowed to the transferor for the taxable year which includes such date.

''(D) SPECIAL RULES.—

''(i) GAIN OR LOSS NOT RECOGNIZED ON TRANSFERS TO FUND.—No gain or loss shall be recognized on any transfer described in paragraph (1).

''(ii) TRANSFERS OF APPRECIATED PROPERTY TO FUND.—If appreciated property is transferred in a transfer described in paragraph (1), the *amount of the deduction shall not exceed the adjusted basis of such property.*

"(3) NEW RULING AMOUNT REQUIRED.—Paragraph (1) shall not apply to any transfer unless the taxpayer requests from the Secretary a new schedule of ruling amounts in connection with such transfer.

"(4) NO BASIS IN QUALIFIED FUNDS.—Notwithstanding any other provision of law, the taxpayer's basis in any Fund to which this section applies shall not be increased by reason of any transfer permitted by this subsection.".

(2) NEW RULING AMOUNT TO TAKE INTO ACCOUNT TOTAL COSTS.—Subparagraph (A) of section 468A(d)(2) (defining ruling amount) is amended to read as follows:

"(A) fund the total nuclear decommissioning costs with respect to such power plant over the estimated useful life of such power plant, and".

(c) NEW RULING AMOUNT REQUIRED UPON LICENSE RENEWAL.—Paragraph (1) of section 468A(d) (relating to request required) is amended by adding at the end the following new sentence: "For purposes of the preceding sentence, the taxpayer shall request a schedule of ruling amounts upon each renewal of the operating license of the nuclear powerplant.".

(d) CONFORMING AMENDMENT.—Section 468A(e)(3) (relating to review of amount) is amended by striking "The Fund" and inserting "Except as provided in subsection (f), the Fund".

(e) TECHNICAL AMENDMENTS.—Section 468A(e)(2) (relating to taxation of Fund) is amended—

(1) by striking "rate set forth in subparagraph (B)" in subparagraph (A) and inserting "rate of 20 percent",

(2) by striking subparagraph (B), and

(3) by redesignating subparagraphs (C) and (D) as subparagraphs (B) and (C), respectively.

(f) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2005.

SEC. 1311. 5-YEAR NET OPERATING LOSS CARRYOVER FOR CERTAIN LOSSES.

Paragraph (1) of section 172(b) (relating to net operating loss carrybacks and carryovers) is amended by adding at the end the following new subparagraph:

"(I) TRANSMISSION PROPERTY AND POLLUTION CONTROL INVESTMENT.—

"(i) IN GENERAL.—At the election of the taxpayer in any taxable year ending after December 31, 2005, and before January 1, 2009, in the case of a net operating loss in a taxable year ending after December 31, 2002, and before January 1, 2006, there shall be a net operating loss carryback to each of the 5 years preceding the taxable year of such loss to the extent that such loss does not exceed 20 percent of the sum of electric transmission property capital expenditures and pollution control facility capital expenditures of the taxpayer for the taxable year preceding the taxable year in which such election is made.

"(ii) LIMITATIONS.—For purposes of this subsection—

"(I) not more than one election may be made under clause (i) with respect to any net operating loss in a taxable year, and

"(II) an election may not be made under clause (i) for more than 1 taxable year beginning in any calendar year.

"(iii) COORDINATION WITH ORDERING RULE.—For purposes of applying subsection (b)(2), the portion of any loss which is carried back 5 years by reason of clause (i) shall be treated in a manner similar to the manner in which a specified liability loss is treated.

"(iv) APPLICATION FOR ADJUSTMENT.—In the case of any portion of a net operating loss to which an election under clause (i) applies, an application under section 6411(a) with respect to such loss shall not fail to be treated as timely filed if filed within 24 months after the due date specified under such section.

"(v) SPECIAL RULES RELATING TO REFUND.—For purposes of a net operating loss to which an election under clause (i) applies, references in sections 6501(h), 6511(d)(2)(A), and 6611(f)(1) to the taxable year in which such net operating loss arises or result in a net loss carryback shall be treated as references to the taxable year in which such election occurs.

"(vi) DEFINITIONS.—For purposes of this subparagraph—

"(I) ELECTRIC TRANSMISSION PROPERTY CAPITAL EXPENDITURES.—The term 'electric transmission property capital expenditures' means any expenditure, chargeable to capital account, made by the taxpayer which is attributable to electric transmission property used by the taxpayer in the transmission at 69 or more kilovolts of electricity for sale. Such term shall not include any expenditure which may be refunded or the purpose of which may be modified at the option of the taxpayer so as to cease to be treated as an expenditure within the meaning of such term.

"(II) POLLUTION CONTROL FACILITY CAPITAL EXPENDITURES.—The term 'pollution control facility capital expenditures' means any expenditure, chargeable to capital account, made by an electric utility company (as defined in section 2(3) of the Public Utility Holding Company Act (15 U.S.C. 79b(3)), as in effect on the day before the date of the enactment of the Energy Tax Incentives Act of 2005) which is attributable to a facility which will qualify as a certified pollution control facility as determined under section 169(d)(1) by striking 'before January 1, 1976,' and by substituting 'an identifiable' for 'a new identifiable'. Such term shall not include any expenditure which may be refunded or the purpose of which may be modified at the option of the taxpayer so as to cease to be treated as an expenditure within the meaning of such term.'

Subtitle B—Domestic Fossil Fuel Security

SEC. 1321. EXTENSION OF CREDIT FOR PRODUCING FUEL FROM A NONCONVENTIONAL SOURCE FOR FACILITIES PRODUCING COKE OR COKE GAS.

(a) IN GENERAL.—Section 29 (relating to credit for producing fuel from a nonconventional source) is amended by adding at the end the following new subsection:

"(h) EXTENSION FOR FACILITIES PRODUCING COKE OR COKE GAS.—Notwithstanding subsection (f)—

"(1) IN GENERAL.—In the case of a facility for producing coke or coke gas which was placed in service before January 1, 1993, or after June 30, 1998, and before January 1, 2010, this section shall apply with respect to coke and coke gas produced in such facility and sold during the period—

"(A) beginning on the later of January 1, 2006, or the date that such facility is placed in service, and

"(B) ending on the date which is 4 years after the date such period began.

"(2) SPECIAL RULES.—In determining the amount of credit allowable under this section solely by reason of this subsection—

"(A) DAILY LIMIT.—The amount of qualified fuels sold during any taxable year which may be taken into account by reason of this subsection with respect to any facility shall not exceed an average barrel-of-oil equivalent of 4,000 barrels per day. Days before the date the facility is placed in service shall not be taken into account in determining such average.

"(B) EXTENSION PERIOD TO COMMENCE WITH UNADJUSTED CREDIT AMOUNT.—For purposes of applying subsection (b)(2) to the $3 amount in subsection (a), in the case of fuels sold after 2005, subsection (d)(2)(B) shall be applied by substituting '2004' for '1979'.

"(C) DENIAL OF DOUBLE BENEFIT.—This subsection shall not apply to any facility producing qualified fuels for which a credit was allowed under this section for the taxable year or any preceding taxable year by reason of subsection (g).".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to fuel produced and sold after December 31, 2005, in taxable years ending after such date.

SEC. 1322. MODIFICATION OF CREDIT FOR PRODUCING FUEL FROM A NONCONVENTIONAL SOURCE.

(a) TREATMENT AS BUSINESS CREDIT.—

(1) CREDIT MOVED TO SUBPART RELATING TO BUSINESS RELATED CREDITS.—The Internal Revenue Code of 1986 is amended by redesignating section 29 as section 45K and by moving section 45K (as so redesignated) from subpart B of part IV of subchapter A of chapter 1 to the end of subpart D of part IV of subchapter A of chapter 1.

(2) CREDIT TREATED AS BUSINESS CREDIT.—Section 38(b), as amended by this Act, is amended by striking "plus" at the end of paragraph (20), by striking the period at the end of paragraph (21) and inserting ", plus", and by adding at the end the following:

"(22) the nonconventional source production credit determined under section 45K(a).".

(3) CONFORMING AMENDMENTS.—

(A) Section 30(b)(3)(A) is amended by striking "sections 27 and 29" and inserting "section 27".

(B) Sections 43(b)(2), 45I(b)(2)(C)(i), and 613A(c)(6)(C) are each amended by striking "section 29(d)(2)(C)" and inserting "section 45K(d)(2)(C)".

(C) Section 45(e)(9), as added by this Act, is amended—

(i) by striking "section 29" each place it appears and inserting "section 45K", and

(ii) by inserting "(or under section 29, as in effect on the day before the date of enactment of the Energy Tax Incentives Act of 2005, for any prior taxable year)" before the period at the end thereof.

(D) Section 45I is amended—

(i) in subsection (c)(2)(A) by striking "section 29(d)(5))" and inserting "section 45K(d)(5))", and

(ii) in subsection (d)(3) by striking "section 29" both places it appears and inserting "section 45K".

(E) Section 45K(a), as redesignated by paragraph (1), is amended by striking "There shall be allowed as a credit against the tax imposed by this chapter for the taxable year" and inserting "For purposes of section 38, if the taxpayer elects to have this section apply, the nonconventional source production credit determined under this section for the taxable year is".

(F) Section 45K(b), as so redesignated, is amended by striking paragraph (6).

(G) Section 53(d)(1)(B)(iii) is amended by striking "under section 29" and all that follows through "or not allowed".

(H) Section 55(c)(3) is amended by striking "29(b)(6),".

(I) Subsection (a) of section 772 is amended by inserting "and" at the end of paragraph (9), by striking paragraph (10), and by redesignating paragraph (11) as paragraph (10).

(J) Paragraph (5) of section 772(d) is amended by striking "the foreign tax credit, and the credit allowable under section 29" and inserting "and the foreign tax credit".

(K) The table of sections for subpart B of part IV of subchapter A of chapter 1 is amended by striking the item relating to section 29.

(L) The table of sections for subpart D of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 45I the following new item:

"Sec. 45K. Credit for producing fuel from a nonconventional source.".

(b) AMENDMENTS CONFORMING TO THE REPEAL OF THE NATURAL GAS POLICY ACT OF 1978.—

(1) IN GENERAL.—Section 29(c)(2)(A) (before redesignation under subsection (a) and as amended by section 1321) is amended—

(A) by inserting "(as in effect before the repeal of such section)" after "1978", and

(B) by striking subsection (e) and redesignating subsections (f), (g), and (h) as subsections (e), (f), and (g), respectively.

(2) CONFORMING AMENDMENTS.—Section 29(g)(1)(before redesignation under subsection (a) and paragraph (1) of this subsection) is amended—

(A) in subparagraph (A) by striking "subsection (f)(1)(B)" and inserting "subsection (e)(1)(B)", and

(B) in subparagraph (B) by striking "subsection (f)" and inserting "subsection (e)".

(c) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to credits determined under the Internal Revenue Code of 1986 for taxable years ending after December 31, 2005.

(2) SUBSECTION (b).—The amendments made by subsection (b) shall take effect on the date of the enactment of this Act.

SEC. 1323. TEMPORARY EXPENSING FOR EQUIPMENT USED IN REFINING OF LIQUID FUELS.

(a) IN GENERAL.—Part VI of subchapter B of chapter 1 is amended by inserting after section 179B the following new section:

"SEC. 179C. ELECTION TO EXPENSE CERTAIN REFINERIES.

"(a) TREATMENT AS EXPENSES.—A taxpayer may elect to treat 50 percent of the cost of any qualified refinery property as an expense which is not chargeable to capital account. Any cost so treated shall be allowed as a deduction for the taxable year in which the qualified refinery property is placed in service.

"(b) ELECTION.—

"(1) IN GENERAL.—An election under this section for any taxable year shall be made on the taxpayer's return of the tax imposed by this chapter for the taxable year. Such election shall be made in such manner as the Secretary may by regulations prescribe.

"(2) ELECTION IRREVOCABLE.—Any election made under this section may not be revoked except with the consent of the Secretary.

"(c) QUALIFIED REFINERY PROPERTY.—

"(1) IN GENERAL.—The term 'qualified refinery property' means any portion of a qualified refinery—

"(A) the original use of which commences with the taxpayer,

"(B) which is placed in service by the taxpayer after the date of the enactment of this section and before January 1, 2012,

"(C) in the case any portion of a qualified refinery (other than a qualified refinery which is separate from any existing refinery), which meets the requirements of subsection (e),

"(D) which meets all applicable environmental laws in effect on the date such portion was placed in service,

"(E) no written binding contract for the construction of which was in effect on or before June 14, 2005, and

"(F)(i) the construction of which is subject to a written binding construction contract entered into before January 1, 2008,

"(ii) which is placed in service before January 1, 2008, or

"(iii) in the case of self-constructed property, the construction of which began after June 14, 2005, and before January 1, 2008.

"(2) SPECIAL RULE FOR SALE-LEASEBACKS.—For purposes of paragraph (1)(A), if property is—

"(A) originally placed in service after the date of the enactment of this section by a person, and

"(B) sold and leased back by such person within 3 months after the date such property was originally placed in service,

such property shall be treated as originally placed in service not earlier than the date on which such property is used under the leaseback referred to in subparagraph (B).

"(3) EFFECT OF WAIVER UNDER CLEAN AIR ACT.—A waiver under the Clean Air Act shall not be taken into account in determining whether the requirements of paragraph (1)(D) are met.

"(d) QUALIFIED REFINERY.—For purposes of this section, the term 'qualified refinery' means any refinery located in the United States which is designed to serve the primary purpose of processing liquid fuel from crude oil or qualified fuels (as defined in section 45K(c)).

"(e) PRODUCTION CAPACITY.—The requirements of this subsection are met if the portion of the qualified refinery—

"(1) enables the existing qualified refinery to increase total volume output (determined without regard to asphalt or lube oil) by 5 percent or more on an average daily basis, or

"(2) enables the existing qualified refinery to process qualified fuels (as defined in section 45K(c)) at a rate which is equal to or greater than 25 percent of the total throughput of such qualified refinery on an average daily basis.

"(f) INELIGIBLE REFINERY PROPERTY.—No deduction shall be allowed under subsection (a) for any qualified refinery property—

"(1) the primary purpose of which is for use as a topping plant, asphalt plant, lube oil facility, crude or product terminal, or blending facility, or

"(2) which is built solely to comply with consent decrees or projects mandated by Federal, State, or local governments.

"(g) ELECTION TO ALLOCATE DEDUCTION TO COOPERATIVE OWNER.—

"(1) IN GENERAL.—If—

"(A) a taxpayer to which subsection (a) applies is an organization to which part I of subchapter T applies, and

"(B) one or more persons directly holding an ownership interest in the taxpayer are organizations to which part I of subchapter T apply,

the taxpayer may elect to allocate all or a portion of the deduction allowable under subsection (a) to such persons. Such allocation shall be equal to the person's ratable share of the total amount allocated, determined on the basis of the person's ownership interest in the taxpayer. The taxable income of the taxpayer shall not be reduced under section 1382 by reason of any amount to which the preceding sentence applies.

"(2) FORM AND EFFECT OF ELECTION.—An election under paragraph (1) for any taxable year shall be made on a timely filed return for such year. Such election, once made, shall be irrevocable for such taxable year.

"(3) WRITTEN NOTICE TO OWNERS.—If any portion of the deduction available under subsection (a) is allocated to owners under paragraph (1), the cooperative shall provide any owner receiving an allocation written notice of the amount of the allocation. Such notice shall be provided before the date on which the return described in paragraph (2) is due.

"(h) REPORTING.—No deduction shall be allowed under subsection (a) to any taxpayer for any taxable year unless such taxpayer files with the Secretary a report containing such information with respect to the operation of the refineries of the taxpayer as the Secretary shall require.".

(b) CONFORMING AMENDMENTS.—

(1) Section 1245(a) is amended by inserting "179C," after "179B," both places it appears in paragraphs (2)(C) and (3)(C).

(2) Section 263(a)(1) is amended by striking "or" at the end of subparagraph (H), by striking the period at the end of subparagraph (I) and inserting ", or", and by inserting after subparagraph (I) the following new subparagraph:

"(J) expenditures for which a deduction is allowed under section 179C.".

(3) Section 312(k)(3)(B) is amended by striking "179 179A, or 179B" each place it appears in the heading and text and inserting "179, 179A, 179B, or 179C".

(4) The table of sections for part VI of subchapter B of chapter 1 is amended by inserting after the item relating to section 179B the following new item:

"Sec. 179C. Election to expense certain refineries.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to properties placed in service after the date of the enactment of this Act.

SEC. 1324. PASS THROUGH TO OWNERS OF DEDUCTION FOR CAPITAL COSTS INCURRED BY SMALL REFINER COOPERATIVES IN COMPLYING WITH ENVIRONMENTAL PROTECTION AGENCY SULFUR REGULATIONS.

(a) IN GENERAL.—Section 179B (relating to deduction for capital costs incurred in complying with Environmental Protection Agency sulfur regulations) is amended by adding at the end the following new subsection:

"(e) ELECTION TO ALLOCATE DEDUCTION TO COOPERATIVE OWNER.—

"(1) IN GENERAL.—If—

"(A) a small business refiner to which subsection (a) applies is an organization to which part I of subchapter T applies, and

"(B) one or more persons directly holding an ownership interest in the refiner are organizations to which part I of subchapter T apply,

the refiner may elect to allocate all or a portion of the deduction allowable under subsection (a) to such persons. Such allocation shall be equal to the person's ratable share of the total amount allocated, determined on the basis of the person's ownership interest in the taxpayer. The taxable income of the refiner shall not be reduced under section 1382 by reason of any amount to which the preceding sentence applies.

"(2) FORM AND EFFECT OF ELECTION.—An election under paragraph (1) for any taxable year shall be made on a timely filed return for such year. Such election, once made, shall be irrevocable for such taxable year.

"(3) WRITTEN NOTICE TO OWNERS.—If any portion of the deduction available under subsection (a) is allocated to owners under paragraph (1), the cooperative shall provide any owner receiving an allocation written notice of the amount of the allocation. Such notice shall be provided before the date on which the return described in paragraph (2) is due.".

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect as if included in the amendment made by section 338(a) of the American Jobs Creation Act of 2004.

SEC. 1325. NATURAL GAS DISTRIBUTION LINES TREATED AS 15-YEAR PROPERTY.

(a) IN GENERAL.—Section 168(e)(3)(E) (defining 15-year property), as amended by this Act, is amended by striking "and" at the end of clause (vi), by striking the period at the end of clause (vii) and by inserting ", and", and by adding at the end the following new clause:

"(viii) any natural gas distribution line the original use of which commences with the taxpayer after April 11, 2005, and which is placed in service before January 1, 2011.".

(b) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) (relating to special rule for certain property assigned to classes), as amended by this Act, is amended by inserting after the item relating to subparagraph (E)(vii) the following new item:

"(E)(viii) .... 35".

(c) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply to property placed in service after April 11, 2005.

(2) EXCEPTION.—The amendments made by this section shall not apply to any property with respect to which the taxpayer or a related party has entered into a binding contract for the construction thereof on or before April 11, 2005, or, in the case of self-constructed property, has started construction on or before such date.

SEC. 1326. NATURAL GAS GATHERING LINES TREATED AS 7-YEAR PROPERTY.

(a) IN GENERAL.—Subparagraph (C) of section 168(e)(3) (relating to classification of certain property) is amended by striking ''and'' at the end of clause (iii), by redesignating clause (iv) as clause (v), and by inserting after clause (iii) the following new clause:

''(iv) any natural gas gathering line the original use of which commences with the taxpayer after April 11, 2005, and''.

(b) NATURAL GAS GATHERING LINE.—Subsection (i) of section 168 is amended by inserting after paragraph (16) the following new paragraph:

''(17) NATURAL GAS GATHERING LINE.—The term 'natural gas gathering line' means—

''(A) the pipe, equipment, and appurtenances determined to be a gathering line by the Federal Energy Regulatory Commission, and

''(B) the pipe, equipment, and appurtenances used to deliver natural gas from the wellhead or a commonpoint to the point at which such gas first reaches—

''(i) a gas processing plant,

''(ii) an interconnection with a transmission pipeline for which a certificate as an interstate transmission pipeline has been issued by the Federal Energy Regulatory Commission,

''(iii) an interconnection with an intrastate transmission pipeline, or

''(iv) a direct interconnection with a local distribution company, a gas storage facility, or an industrial consumer.''.

(c) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) (relating to special rule for certain property assigned to classes), as amended by this Act, is amended by inserting after the item relating to subparagraph (C)(iii) the following new item:

''(C)(iv) .... 14''.

(d) ALTERNATIVE MINIMUM TAX EXCEPTION.—Subparagraph (B) of section 56(a)(1) is amended by inserting before the period the following: '', or in section 168(e)(3)(C)(iv)''.

(e) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply to property placed in service after April 11, 2005.

(2) EXCEPTION.—The amendments made by this section shall not apply to any property with respect to which the taxpayer or a related party has entered into a binding contract for the construction thereof on or before April 11, 2005, or, in the case of self-constructed property, has started construction on or before such date.

SEC. 1327. ARBITRAGE RULES NOT TO APPLY TO PREPAYMENTS FOR NATURAL GAS.

(a) IN GENERAL.—Subsection (b) of section 148 (relating to higher yielding investments) is amended by adding at the end the following new paragraph:

''(4) SAFE HARBOR FOR PREPAID NATURAL GAS.—

''(A) IN GENERAL.—The term 'investment-type property' does not include a prepayment under a qualified natural gas supply contract.

''(B) QUALIFIED NATURAL GAS SUPPLY CONTRACT.—For purposes of this paragraph, the term 'qualified natural gas supply contract' means any contract to acquire natural gas for resale by a utility owned by a governmental unit if the amount of gas permitted to be acquired under the contract by the utility during any year does not exceed the sum of—

''(i) the annual average amount during the testing period of natural gas purchased (other than for resale) by customers of such utility who are located within the service area of such utility, and

''(ii) the amount of natural gas to be used to transport the prepaid natural gas to the utility during such year.

''(C) NATURAL GAS USED TO GENERATE ELECTRICITY.—Natural gas used to generate electricity shall be taken into account in determining the average under subparagraph (B)(i)—

''(i) only if the electricity is generated by a utility owned by a governmental unit, and

''(ii) only to the extent that the electricity is sold (other than for resale) to customers of such utility who are located within the service area of such utility.

''(D) ADJUSTMENTS FOR CHANGES IN CUSTOMER BASE.—

''(i) NEW BUSINESS CUSTOMERS.—If—

''(I) after the close of the testing period and before the date of issuance of the issue, the utility owned by a governmental unit enters into a contract to supply natural gas (other than for resale) for a business use at a property within the service area of such utility, and

''(II) the utility did not supply natural gas to such property during the testing period or the ratable amount of natural gas to be supplied under the contract is significantly greater than the ratable amount of gas supplied to such property during the testing period,

then a contract shall not fail to be treated as a qualified natural gas supply contract by reason of supplying the additional natural gas under the contract referred to in subclause (I).

''(ii) LOST CUSTOMERS.—The average under subparagraph (B)(i) shall not exceed the annual amount of natural gas reasonably expected to be purchased (other than for resale) by persons who are located within the service area of such utility and who, as of the date of issuance of the issue, are customers of such utility.

''(E) RULING REQUESTS.—The Secretary may increase the average under subparagraph (B)(i) for any period if the utility owned by the governmental unit establishes to the satisfaction of the Secretary that, based on objective evidence of growth in natural gas consumption or population, such average would otherwise be insufficient for such period.

''(F) ADJUSTMENT FOR NATURAL GAS OTHERWISE ON HAND.—

''(i) IN GENERAL.—The amount otherwise permitted to be acquired under the contract for any period shall be reduced by—

''(I) the applicable share of natural gas held by the utility on the date of issuance of the issue, and

''(II) the natural gas (not taken into account under subclause (I)) which the utility has a right to acquire during such period (determined as of the date of issuance of the issue).

''(ii) APPLICABLE SHARE.—For purposes of the clause (i), the term 'applicable share' means, with respect to any period, the natural gas allocable to such period if the gas were allocated ratably over the period to which the prepayment relates.

''(G) INTENTIONAL ACTS.—Subparagraph (A) shall cease to apply to any issue if the utility owned by the governmental unit engages in any intentional act to render the volume of natural gas acquired by such prepayment to be in excess of the sum of—

''(i) the amount of natural gas needed (other than for resale) by customers of such utility who are located within the service area of such utility, and

''(ii) the amount of natural gas used to transport such natural gas to the utility.

''(H) TESTING PERIOD.—For purposes of this paragraph, the term 'testing period' means, with respect to an issue, the most recent 5 calendar years ending before the date of issuance of the issue.

''(I) SERVICE AREA.—For purposes of this paragraph, the service area of a utility owned by a governmental unit shall be comprised of—

''(i) any area throughout which such utility provided at all times during the testing period—

''(I) in the case of a natural gas utility, natural gas transmission or distribution services, and

''(II) in the case of an electric utility, electricity distribution services,

''(ii) any area within a county contiguous to the area described in clause (i) in which retail customers of such utility are located if such area is not also served by another utility providing natural gas or electricity services, as the case may be, and

''(iii) any area recognized as the service area of such utility under State or Federal law.''.

(b) PRIVATE LOAN FINANCING TEST NOT TO APPLY TO PREPAYMENTS FOR NATURAL GAS.—Paragraph (2) of section 141(c) (providing exceptions to the private loan financing test) is amended by striking ''or'' at the end of subparagraph (A), by striking the period at the end of subparagraph (B) and inserting '', or'', and by adding at the end the following new subparagraph:

''(C) is a qualified natural gas supply contract (as defined in section 148(b)(4)).''.

(c) EXCEPTION FOR QUALIFIED ELECTRIC AND NATURAL GAS SUPPLY CONTRACTS.—Section 141(d) is amended by adding at the end the following new paragraph:

''(7) EXCEPTION FOR QUALIFIED ELECTRIC AND NATURAL GAS SUPPLY CONTRACTS.—The term 'nongovernmental output property' shall not include any contract for the prepayment of electricity or natural gas which is not investment property under section 148(b)(2).''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to obligations issued after the date of the enactment of this Act.

SEC. 1328. DETERMINATION OF SMALL REFINER EXCEPTION TO OIL DEPLETION DEDUCTION.

(a) IN GENERAL.—Paragraph (4) of section 613A(d) (relating to limitations on application of subsection (c)) is amended to read as follows:

''(4) CERTAIN REFINERS EXCLUDED.—If the taxpayer or 1 or more related persons engages in the refining of crude oil, subsection (c) shall not apply to the taxpayer for a taxable year if the average daily refinery runs of the taxpayer and such persons for the taxable year exceed 75,000 barrels. For purposes of this paragraph, the average daily refinery runs for any taxable year shall be determined by dividing the aggregate refinery runs for the taxable year by the number of days in the taxable year.''.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years ending after the date of the enactment of this Act.

SEC. 1329. AMORTIZATION OF GEOLOGICAL AND GEOPHYSICAL EXPENDITURES.

(a) IN GENERAL.—Section 167 (relating to depreciation) is amended by redesignating subsection (h) as subsection (i) and by inserting after subsection (g) the following new subsection:

''(h) AMORTIZATION OF GEOLOGICAL AND GEOPHYSICAL EXPENDITURES.—

''(1) IN GENERAL.—Any geological and geophysical expenses paid or incurred in connection with the exploration for, or development of, oil or gas within the United States (as defined in section 638) shall be allowed as a deduction ratably over the 24-month period beginning on the date that such expense was paid or incurred.

''(2) HALF-YEAR CONVENTION.—For purposes of paragraph (1), any payment paid or incurred

during the taxable year shall be treated as paid or incurred on the mid-point of such taxable year.

"(3) EXCLUSIVE METHOD.—Except as provided in this subsection, no depreciation or amortization deduction shall be allowed with respect to such payments.

"(4) TREATMENT UPON ABANDONMENT.—If any property with respect to which geological and geophysical expenses are paid or incurred is retired or abandoned during the 24-month period described in paragraph (1), no deduction shall be allowed on account of such retirement or abandonment and the amortization deduction under this subsection shall continue with respect to such payment.".

(b) CONFORMING AMENDMENT.—Section 263A(c)(3) is amended by inserting "167(h)," after "under section".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts paid or incurred in taxable years beginning after the date of the enactment of this Act.

Subtitle C—Conservation and Energy Efficiency Provisions

SEC. 1331. ENERGY EFFICIENT COMMERCIAL BUILDINGS DEDUCTION.

(a) IN GENERAL.—Part VI of subchapter B of chapter 1 (relating to itemized deductions for individuals and corporations), as amended by this Act, is amended by inserting after section 179C the following new section:

"SEC. 179D. ENERGY EFFICIENT COMMERCIAL BUILDINGS DEDUCTION.

"(a) IN GENERAL.—There shall be allowed as a deduction an amount equal to the cost of energy efficient commercial building property placed in service during the taxable year.

"(b) MAXIMUM AMOUNT OF DEDUCTION.—The deduction under subsection (a) with respect to any building for any taxable year shall not exceed the excess (if any) of—

"(1) the product of—

"(A) $1.80, and

"(B) the square footage of the building, over

"(2) the aggregate amount of the deductions under subsection (a) with respect to the building for all prior taxable years.

"(c) DEFINITIONS.—For purposes of this section—

"(1) ENERGY EFFICIENT COMMERCIAL BUILDING PROPERTY.—The term 'energy efficient commercial building property' means property—

"(A) with respect to which depreciation (or amortization in lieu of depreciation) is allowable,

"(B) which is installed on or in any building which is—

"(i) located in the United States, and

"(ii) within the scope of Standard 90.1–2001,

"(C) which is installed as part of—

"(i) the interior lighting systems,

"(ii) the heating, cooling, ventilation, and hot water systems, or

"(iii) the building envelope, and

"(D) which is certified in accordance with subsection (d)(6) as being installed as part of a plan designed to reduce the total annual energy and power costs with respect to the interior lighting systems, heating, cooling, ventilation, and hot water systems of the building by 50 percent or more in comparison to a reference building which meets the minimum requirements of Standard 90.1–2001 using methods of calculation under subsection (d)(2).

"(2) STANDARD 90.1–2001.—The term 'Standard 90.1–2001' means Standard 90.1–2001 of the American Society of Heating, Refrigerating, and Air Conditioning Engineers and the Illuminating Engineering Society of North America (as in effect on April 2, 2003).

"(d) SPECIAL RULES.—

"(1) PARTIAL ALLOWANCE.—

"(A) IN GENERAL.—Except as provided in subsection (f), if—

"(i) the requirement of subsection (c)(1)(D) is not met, but

"(ii) there is a certification in accordance with paragraph (6) that any system referred to in subsection (c)(1)(C) satisfies the energy-savings targets established by the Secretary under subparagraph (B) with respect to such system,

then the requirement of subsection (c)(1)(D) shall be treated as met with respect to such system, and the deduction under subsection (a) shall be allowed with respect to energy efficient commercial building property installed as part of such system and as part of a plan to meet such targets, except that subsection (b) shall be applied to such property by substituting '$.60' for '$1.80'.

"(B) REGULATIONS.—The Secretary, after consultation with the Secretary of Energy, shall establish a target for each system described in subsection (c)(1)(C) which, if such targets were met for all such systems, the building would meet the requirements of subsection (c)(1)(D).

"(2) METHODS OF CALCULATION.—The Secretary, after consultation with the Secretary of Energy, shall promulgate regulations which describe in detail methods for calculating and verifying energy and power consumption and cost, based on the provisions of the 2005 California Nonresidential Alternative Calculation Method Approval Manual.

"(3) COMPUTER SOFTWARE.—

"(A) IN GENERAL.—Any calculation under paragraph (2) shall be prepared by qualified computer software.

"(B) QUALIFIED COMPUTER SOFTWARE.—For purposes of this paragraph, the term 'qualified computer software' means software—

"(i) for which the software designer has certified that the software meets all procedures and detailed methods for calculating energy and power consumption and costs as required by the Secretary,

"(ii) which provides such forms as required to be filed by the Secretary in connection with energy efficiency of property and the deduction allowed under this section, and

"(iii) which provides a notice form which documents the energy efficiency features of the building and its projected annual energy costs.

"(4) ALLOCATION OF DEDUCTION FOR PUBLIC PROPERTY.—In the case of energy efficient commercial building property installed on or in property owned by a Federal, State, or local government or a political subdivision thereof, the Secretary shall promulgate a regulation to allow the allocation of the deduction to the person primarily responsible for designing the property in lieu of the owner of such property. Such person shall be treated as the taxpayer for purposes of this section.

"(5) NOTICE TO OWNER.—Each certification required under this section shall include an explanation to the building owner regarding the energy efficiency features of the building and its projected annual energy costs as provided in the notice under paragraph (3)(B)(iii).

"(6) CERTIFICATION.—

"(A) IN GENERAL.—The Secretary shall prescribe the manner and method for the making of certifications under this section.

"(B) PROCEDURES.—The Secretary shall include as part of the certification process procedures for inspection and testing by qualified individuals described in subparagraph (C) to ensure compliance of buildings with energy-savings plans and targets. Such procedures shall be comparable, given the difference between commercial and residential buildings, to the requirements in the Mortgage Industry National Accreditation Procedures for Home Energy Rating Systems.

"(C) QUALIFIED INDIVIDUALS.—Individuals qualified to determine compliance shall be only those individuals who are recognized by an organization certified by the Secretary for such purposes.

"(e) BASIS REDUCTION.—For purposes of this subtitle, if a deduction is allowed under this section with respect to any energy efficient commercial building property, the basis of such property shall be reduced by the amount of the deduction so allowed.

"(f) INTERIM RULES FOR LIGHTING SYSTEMS.—Until such time as the Secretary issues final regulations under subsection (d)(1)(B) with respect to property which is part of a lighting system—

"(1) IN GENERAL.—The lighting system target under subsection (d)(1)(A)(ii) shall be a reduction in lighting power density of 25 percent (50 percent in the case of a warehouse) of the minimum requirements in Table 9.3.1.1 or Table 9.3.1.2 (not including additional interior lighting power allowances) of Standard 90.1–2001.

"(2) REDUCTION IN DEDUCTION IF REDUCTION LESS THAN 40 PERCENT.—

"(A) IN GENERAL.—If, with respect to the lighting system of any building other than a warehouse, the reduction in lighting power density of the lighting system is not at least 40 percent, only the applicable percentage of the amount of deduction otherwise allowable under this section with respect to such property shall be allowed.

"(B) APPLICABLE PERCENTAGE.—For purposes of subparagraph (A), the applicable percentage is the number of percentage points (not greater than 100) equal to the sum of—

"(i) 50, and

"(ii) the amount which bears the same ratio to 50 as the excess of the reduction of lighting power density of the lighting system over 25 percentage points bears to 15.

"(C) EXCEPTIONS.—This subsection shall not apply to any system—

"(i) the controls and circuiting of which do not comply fully with the mandatory and prescriptive requirements of Standard 90.1–2001 and which do not include provision for bilevel switching in all occupancies except hotel and motel guest rooms, store rooms, restrooms, and public lobbies, or

"(ii) which does not meet the minimum requirements for calculated lighting levels as set forth in the Illuminating Engineering Society of North America Lighting Handbook, Performance and Application, Ninth Edition, 2000.

"(g) REGULATIONS.—The Secretary shall promulgate such regulations as necessary—

"(1) to take into account new technologies regarding energy efficiency and renewable energy for purposes of determining energy efficiency and savings under this section, and

"(2) to provide for a recapture of the deduction allowed under this section if the plan described in subsection (c)(1)(D) or (d)(1)(A) is not fully implemented.

"(h) TERMINATION.—This section shall not apply with respect to property placed in service after December 31, 2007.".

(b) CONFORMING AMENDMENTS.—

(1) Section 1016(a) is amended by striking "and" at the end of paragraph (30), by striking the period at the end of paragraph (31) and inserting ", and", and by adding at the end the following new paragraph:

"(32) to the extent provided in section 179D(e).".

(2) Section 1245(a), as amended by this Act, is amended by inserting "179D," after "179C," both places it appears in paragraphs (2)(C) and (3)(C).

(3) Section 1250(b)(3) is amended by inserting before the period at the end of the first sentence "or by section 179D".

(4) Section 263(a)(1), as amended by this Act, is amended by striking "or" at the end of subparagraph (I), by striking the period at the end of subparagraph (J) and inserting ", or", and

by inserting after subparagraph (J) the following new subparagraph:

"(K) expenditures for which a deduction is allowed under section 179D.".

(5) Section 312(k)(3)(B), as amended by this Act, is amended by striking "179, 179A, 179B, or 179C" each place it appears in the heading and text and inserting "179, 179A, 179B, 179C, or 179D".

(c) CLERICAL AMENDMENT.—The table of sections for part VI of subchapter B of chapter 1, as amended by this Act, is amended by inserting after section 179C the following new item:

"Sec. 179D. Energy efficient commercial buildings deduction.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after December 31, 2005.

SEC. 1332. CREDIT FOR CONSTRUCTION OF NEW ENERGY EFFICIENT HOMES.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business related credits), as amended by this Act, is amended by adding at the end the following new section:

"SEC. 45L. NEW ENERGY EFFICIENT HOME CREDIT.

"(a) ALLOWANCE OF CREDIT.—

"(1) IN GENERAL.—For purposes of section 38, in the case of an eligible contractor, the new energy efficient home credit for the taxable year is the applicable amount for each qualified new energy efficient home which is—

"(A) constructed by the eligible contractor, and

"(B) acquired by a person from such eligible contractor for use as a residence during the taxable year.

"(2) APPLICABLE AMOUNT.—For purposes of paragraph (1), the applicable amount is an amount equal to—

"(A) in the case of a dwelling unit described in paragraph (1) or (2) of subsection (c), $2,000, and

"(B) in the case of a dwelling unit described in paragraph (3) of subsection (c), $1,000.

"(b) DEFINITIONS.—For purposes of this section—

"(1) ELIGIBLE CONTRACTOR.—The term 'eligible contractor' means—

"(A) the person who constructed the qualified new energy efficient home, or

"(B) in the case of a qualified new energy efficient home which is a manufactured home, the manufactured home producer of such home.

"(2) QUALIFIED NEW ENERGY EFFICIENT HOME.—The term 'qualified new energy efficient home' means a dwelling unit—

"(A) located in the United States,

"(B) the construction of which is substantially completed after the date of the enactment of this section, and

"(C) which meets the energy saving requirements of subsection (c).

"(3) CONSTRUCTION.—The term 'construction' includes substantial reconstruction and rehabilitation.

"(4) ACQUIRE.—The term 'acquire' includes purchase.

"(c) ENERGY SAVING REQUIREMENTS.—A dwelling unit meets the energy saving requirements of this subsection if such unit is—

"(1) certified—

"(A) to have a level of annual heating and cooling energy consumption which is at least 50 percent below the annual level of heating and cooling energy consumption of a comparable dwelling unit—

"(i) which is constructed in accordance with the standards of chapter 4 of the 2003 International Energy Conservation Code, as such Code (including supplements) is in effect on the date of the enactment of this section, and

"(ii) for which the heating and cooling equipment efficiencies correspond to the minimum allowed under the regulations established by the Department of Energy pursuant to the National Appliance Energy Conservation Act of 1987 and in effect at the time of completion of construction, and

"(B) to have building envelope component improvements account for at least ⅕ of such 50 percent.

"(2) a manufactured home which conforms to Federal Manufactured Home Construction and Safety Standards (section 3280 of title 24, Code of Federal Regulations) and which meets the requirements of paragraph (1), or

"(3) a manufactured home which conforms to Federal Manufactured Home Construction and Safety Standards (section 3280 of title 24, Code of Federal Regulations) and which—

"(A) meets the requirements of paragraph (1) applied by substituting '30 percent' for '50 percent' both places it appears therein and by substituting '⅓' for '⅕' in subparagraph (B) thereof, or

"(B) meets the requirements established by the Administrator of the Environmental Protection Agency under the Energy Star Labeled Homes program.

"(d) CERTIFICATION.—

"(1) METHOD OF CERTIFICATION.—A certification described in subsection (c) shall be made in accordance with guidance prescribed by the Secretary, after consultation with the Secretary of Energy. Such guidance shall specify procedures and methods for calculating energy and cost savings.

"(2) FORM.—Any certification described in subsection (c) shall be made in writing in a manner which specifies in readily verifiable fashion the energy efficient building envelope components and energy efficient heating or cooling equipment installed and their respective rated energy efficiency performance.

"(e) BASIS ADJUSTMENT.—For purposes of this subtitle, if a credit is allowed under this section in connection with any expenditure for any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so determined.

"(f) COORDINATION WITH INVESTMENT CREDIT.—For purposes of this section, expenditures taken into account under section 47 or 48(a) shall not be taken into account under this section.

"(g) TERMINATION.—This section shall not apply to any qualified new energy efficient home acquired after December 31, 2007.".

(b) CREDIT MADE PART OF GENERAL BUSINESS CREDIT.—Section 38(b) (relating to current year business credit), as amended by this Act, is amended by striking "plus" at the end of paragraph (21), by striking the period at the end of paragraph (22) and inserting ", plus", and by adding at the end the following new paragraph:

"(23) the new energy efficient home credit determined under section 45L(a).".

(c) BASIS ADJUSTMENT.—Subsection (a) of section 1016, as amended by this Act, is amended by striking "and" at the end of paragraph (31), by striking the period at the end of paragraph (32) and inserting ", and", and by adding at the end the following new paragraph:

"(33) to the extent provided in section 45L(e), in the case of amounts with respect to which a credit has been allowed under section 45L.".

(d) DEDUCTION FOR CERTAIN UNUSED BUSINESS CREDITS.—Section 196(c) (defining qualified business credits) is amended by striking "and" at the end of paragraph (11), by striking the period at the end of paragraph (12) and inserting ", and", and by adding after paragraph (12) the following new paragraph:

"(13) the new energy efficient home credit determined under section 45L(a).".

(e) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following new item:

"Sec. 45L. New energy efficient home credit.".

(f) EFFECTIVE DATE.—The amendments made by this section shall apply to qualified new energy efficient homes acquired after December 31, 2005, in taxable years ending after such date.

SEC. 1333. CREDIT FOR CERTAIN NONBUSINESS ENERGY PROPERTY.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 (relating to nonrefundable personal credits) is amended by inserting after section 25B the following new section:

"SEC. 25C. NONBUSINESS ENERGY PROPERTY.

"(a) ALLOWANCE OF CREDIT.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

"(1) 10 percent of the amount paid or incurred by the taxpayer for qualified energy efficiency improvements installed during such taxable year, and

"(2) the amount of the residential energy property expenditures paid or incurred by the taxpayer during such taxable year.

"(b) LIMITATIONS.—

"(1) LIFETIME LIMITATION.—The credit allowed under this section with respect to any taxpayer for any taxable year shall not exceed the excess (if any) of $500 over the aggregate credits allowed under this section with respect to such taxpayer for all prior taxable years.

"(2) WINDOWS.—In the case of amounts paid or incurred for components described in subsection (c)(3)(B) by any taxpayer for any taxable year, the credit allowed under this section with respect to such amounts for such year shall not exceed the excess (if any) of $200 over the aggregate credits allowed under this section with respect to such amounts for all prior taxable years.

"(3) LIMITATION ON RESIDENTIAL ENERGY PROPERTY EXPENDITURES.—The amount of the credit allowed under this section by reason of subsection (a)(2) shall not exceed—

"(A) $50 for any advanced main air circulating fan,

"(B) $150 for any qualified natural gas, propane, or oil furnace or hot water boiler, and

"(C) $300 for any item of energy-efficient building property.

"(c) QUALIFIED ENERGY EFFICIENCY IMPROVEMENTS.—For purposes of this section—

"(1) IN GENERAL.—The term 'qualified energy efficiency improvements' means any energy efficient building envelope component which meets the prescriptive criteria for such component established by the 2000 International Energy Conservation Code, as such Code (including supplements) is in effect on the date of the enactment of this section (or, in the case of a metal roof with appropriate pigmented coatings which meet the Energy Star program requirements), if—

"(A) such component is installed in or on a dwelling unit located in the United States and owned and used by the taxpayer as the taxpayer's principal residence (within the meaning of section 121),

"(B) the original use of such component commences with the taxpayer, and

"(C) such component reasonably can be expected to remain in use for at least 5 years.

"(2) BUILDING ENVELOPE COMPONENT.—The term 'building envelope component' means—

"(A) any insulation material or system which is specifically and primarily designed to reduce the heat loss or gain of a dwelling unit when installed in or on such dwelling unit,

"(B) exterior windows (including skylights),

"(C) exterior doors, and

"(D) any metal roof installed on a dwelling unit, but only if such roof has appropriate pigmented coatings which are specifically and primarily designed to reduce the heat gain of such dwelling unit.

"(3) MANUFACTURED HOMES INCLUDED.—The term 'dwelling unit' includes a manufactured home which conforms to Federal Manufactured Home Construction and Safety Standards (section 3280 of title 24, Code of Federal Regulations).

"(d) RESIDENTIAL ENERGY PROPERTY EXPENDITURES.—For purposes of this section—

"(1) IN GENERAL.—The term 'residential energy property expenditures' means expenditures made by the taxpayer for qualified energy property which is—

"(A) installed on or in connection with a dwelling unit located in the United States and owned and used by the taxpayer as the taxpayer's principal residence (within the meaning of section 121), and

"(B) originally placed in service by the taxpayer.

Such term includes expenditures for labor costs properly allocable to the onsite preparation, assembly, or original installation of the property.

"(2) QUALIFIED ENERGY PROPERTY.—

"(A) IN GENERAL.—The term 'qualified energy property' means—

"(i) energy-efficient building property,

"(ii) a qualified natural gas, propane, or oil furnace or hot water boiler, or

"(iii) an advanced main air circulating fan.

"(B) PERFORMANCE AND QUALITY STANDARDS.—Property described under subparagraph (A) shall meet the performance and quality standards, and the certification requirements (if any), which—

"(i) have been prescribed by the Secretary by regulations (after consultation with the Secretary of Energy or the Administrator of the Environmental Protection Agency, as appropriate), and

"(ii) are in effect at the time of the acquisition of the property, or at the time of the completion of the construction, reconstruction, or erection of the property, as the case may be.

"(C) REQUIREMENTS FOR STANDARDS.—The standards and requirements prescribed by the Secretary under subparagraph (B)—

"(i) in the case of the energy efficiency ratio (EER) for central air conditioners and electric heat pumps—

"(I) shall require measurements to be based on published data which is tested by manufacturers at 95 degrees Fahrenheit, and

"(II) may be based on the certified data of the Air Conditioning and Refrigeration Institute that are prepared in partnership with the Consortium for Energy Efficiency, and

"(ii) in the case of geothermal heat pumps—

"(I) shall be based on testing under the conditions of ARI/ISO Standard 13256–1 for Water Source Heat Pumps or ARI 870 for Direct Expansion GeoExchange Heat Pumps (DX), as appropriate, and

"(II) shall include evidence that water heating services have been provided through a desuperheater or integrated water heating system connected to the storage water heater tank.

"(3) ENERGY-EFFICIENT BUILDING PROPERTY.—The term 'energy-efficient building property' means—

"(A) an electric heat pump water heater which yields an energy factor of at least 2.0 in the standard Department of Energy test procedure,

"(B) an electric heat pump which has a heating seasonal performance factor (HSPF) of at least 9, a seasonal energy efficiency ratio (SEER) of at least 15, and an energy efficiency ratio (EER) of at least 13,

"(C) a geothermal heat pump which—

"(i) in the case of a closed loop product, has an energy efficiency ratio (EER) of at least 14.1 and a heating coefficient of performance (COP) of at least 3.3,

"(ii) in the case of an open loop product, has an energy efficiency ratio (EER) of at least 16.2 and a heating coefficient of performance (COP) of at least 3.6, and

"(iii) in the case of a direct expansion (DX) product, has an energy efficiency ratio (EER) of at least 15 and a heating coefficient of performance (COP) of at least 3.5,

"(D) a central air conditioner which achieves the highest efficiency tier established by the Consortium for Energy Efficiency, as in effect on January 1, 2006, and

"(E) a natural gas, propane, or oil water heater which has an energy factor of at least 0.80.

"(4) QUALIFIED NATURAL GAS, PROPANE, OR OIL FURNACE OR HOT WATER BOILER.—The term 'qualified natural gas, propane, or oil furnace or hot water boiler' means a natural gas, propane, or oil furnace or hot water boiler which achieves an annual fuel utilization efficiency rate of not less than 95.

"(5) ADVANCED MAIN AIR CIRCULATING FAN.—The term 'advanced main air circulating fan' means a fan used in a natural gas, propane, or oil furnace and which has an annual electricity use of no more than 2 percent of the total annual energy use of the furnace (as determined in the standard Department of Energy test procedures).

"(e) SPECIAL RULES.—For purposes of this section—

"(1) APPLICATION OF RULES.—Rules similar to the rules under paragraphs (4), (5), (6), (7), (8), and (9) of section 25D(e) shall apply.

"(2) JOINT OWNERSHIP OF ENERGY ITEMS.—

"(A) IN GENERAL.—Any expenditure otherwise qualifying as an expenditure under this section shall not be treated as failing to so qualify merely because such expenditure was made with respect to 2 or more dwelling units.

"(B) LIMITS APPLIED SEPARATELY.—In the case of any expenditure described in subparagraph (A), the amount of the credit allowable under subsection (a) shall (subject to paragraph (1)) be computed separately with respect to the amount of the expenditure made for each dwelling unit.

"(f) BASIS ADJUSTMENTS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

"(g) TERMINATION.—This section shall not apply with respect to any property placed in service after December 31, 2007.".

(b) CONFORMING AMENDMENTS.—

(1) Subsection (a) of section 1016, as amended by this Act, is amended by striking "and" at the end of paragraph (32), by striking the period at the end of paragraph (33) and inserting ", and", and by adding at the end the following new paragraph:

"(34) to the extent provided in section 25C(e), in the case of amounts with respect to which a credit has been allowed under section 25C.".

(2) The table of sections for subpart A of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 25B the following new item:

"Sec. 25C. Nonbusiness energy property.".

(c) EFFECTIVE DATES.—The amendments made by this section shall apply to property placed in service after December 31, 2005.

SEC. 1334. CREDIT FOR ENERGY EFFICIENT APPLIANCES.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business-related credits), as amended by this Act, is amended by adding at the end the following new section:

"SEC. 45M. ENERGY EFFICIENT APPLIANCE CREDIT.

"(a) GENERAL RULE.—

"(1) IN GENERAL.—For purposes of section 38, the energy efficient appliance credit determined under this section for any taxable year is an amount equal to the sum of the credit amounts determined under paragraph (2) for each type of qualified energy efficient appliance produced by the taxpayer during the calendar year ending with or within the taxable year.

"(2) CREDIT AMOUNTS.—The credit amount determined for any type of qualified energy efficient appliance is—

"(A) the applicable amount determined under subsection (b) with respect to such type, multiplied by

"(B) the eligible production for such type.

"(b) APPLICABLE AMOUNT.—

"(1) IN GENERAL.—For purposes of subsection (a)—

"(A) DISHWASHERS.—The applicable amount is the energy savings amount in the case of a dishwasher which—

"(i) is manufactured in calendar year 2006 or 2007, and

"(ii) meets the requirements of the Energy Star program which are in effect for dishwashers in 2007.

"(B) CLOTHES WASHERS.—The applicable amount is $100 in the case of a clothes washer which—

"(i) is manufactured in calendar year 2006 or 2007, and

"(ii) meets the requirements of the Energy Star program which are in effect for clothes washers in 2007.

"(C) REFRIGERATORS.—

"(i) 15 PERCENT SAVINGS.—The applicable amount is $75 in the case of a refrigerator which—

"(I) is manufactured in calendar year 2006, and

"(II) consumes at least 15 percent but not more than 20 percent less kilowatt hours per year than the 2001 energy conservation standards.

"(ii) 20 PERCENT SAVINGS.—The applicable amount is $125 in the case of a refrigerator which—

"(I) is manufactured in calendar year 2006 or 2007, and

"(II) consumes at least 20 percent but not more than 25 percent less kilowatt hours per year than the 2001 energy conservation standards.

"(iii) 25 PERCENT SAVINGS.—The applicable amount is $175 in the case of a refrigerator which—

"(I) is manufactured in calendar year 2006 or 2007, and

"(II) consumes at least 25 percent less kilowatt hours per year than the 2001 energy conservation standards.

"(2) ENERGY SAVINGS AMOUNT.—For purposes of paragraph (1)(A)—

"(A) IN GENERAL.—The energy savings amount is the lesser of—

"(i) the product of—

"(I) $3, and

"(II) 100 multiplied by the energy savings percentage, or

"(ii) $100.

"(B) ENERGY SAVINGS PERCENTAGE.—For purposes of subparagraph (A), the energy savings percentage is the ratio of—

"(i) the EF required by the Energy Star program for dishwashers in 2007 minus the EF required by the Energy Star program for dishwashers in 2005, to

"(ii) the EF required by the Energy Star program for dishwashers in 2007.

"(c) ELIGIBLE PRODUCTION.—

"(1) IN GENERAL.—Except as provided in paragraphs (2), the eligible production in a calendar year with respect to each type of energy efficient appliance is the excess of—

"(A) the number of appliances of such type which are produced by the taxpayer in the United States during such calendar year, over

"(B) the average number of appliances of such type which were produced by the taxpayer (or any predecessor) in the United States during the preceding 3-calendar year period.

"(2) SPECIAL RULE FOR REFRIGERATORS.—The eligible production in a calendar year with respect to each type of refrigerator described in subsection (b)(1)(C) is the excess of—

"(A) the number of appliances of such type which are produced by the taxpayer in the United States during such calendar year, over

"(B) 110 percent of the average number of appliances of such type which were produced by the taxpayer (or any predecessor) in the United States during the preceding 3-calendar year period.

"(d) TYPES OF ENERGY EFFICIENT APPLIANCE.—For purposes of this section, the types of energy efficient appliances are—

"(1) dishwashers described in subsection (b)(1)(A),

"(2) clothes washers described in subsection (b)(1)(B),

"(3) refrigerators described in subsection (b)(1)(C)(i),

"(4) refrigerators described in subsection (b)(1)(C)(ii), and

"(5) refrigerators described in subsection (b)(1)(C)(iii).

"(e) LIMITATIONS.—

"(1) AGGREGATE CREDIT AMOUNT ALLOWED.—The aggregate amount of credit allowed under subsection (a) with respect to a taxpayer for any taxable year shall not exceed $75,000,000 reduced by the amount of the credit allowed under subsection (a) to the taxpayer (or any predecessor) for all prior taxable years.

"(2) AMOUNT ALLOWED FOR 15 PERCENT SAVINGS REFRIGERATORS.—In the case of refrigerators described in subsection (b)(1)(C)(i), the aggregate amount of the credit allowed under subsection (a) with respect to a taxpayer for any taxable year shall not exceed $20,000,000.

"(3) LIMITATION BASED ON GROSS RECEIPTS.—The credit allowed under subsection (a) with respect to a taxpayer for the taxable year shall not exceed an amount equal to 2 percent of the average annual gross receipts of the taxpayer for the 3 taxable years preceding the taxable year in which the credit is determined.

"(4) GROSS RECEIPTS.—For purposes of this subsection, the rules of paragraphs (2) and (3) of section 448(c) shall apply.

"(f) DEFINITIONS.—For purposes of this section—

"(1) QUALIFIED ENERGY EFFICIENT APPLIANCE.—The term 'qualified energy efficient appliance' means—

"(A) any dishwasher described in subsection (b)(1)(A),

"(B) any clothes washer described in subsection (b)(1)(B), and

"(C) any refrigerator described in subsection (b)(1)(C).

"(2) DISHWASHER.—The term 'dishwasher' means a residential dishwasher subject to the energy conservation standards established by the Department of Energy.

"(3) CLOTHES WASHER.—The term 'clothes washer' means a residential model clothes washer, including a residential style coin operated washer.

"(4) REFRIGERATOR.—The term 'refrigerator' means a residential model automatic defrost refrigerator-freezer which has an internal volume of at least 16.5 cubic feet.

"(5) EF.—The term 'EF' means the energy factor established by the Department of Energy for compliance with the Federal energy conservation standards.

"(6) PRODUCED.—The term 'produced' includes manufactured.

"(7) 2001 ENERGY CONSERVATION STANDARD.—The term '2001 energy conservation standard' means the energy conservation standards promulgated by the Department of Energy and effective July 1, 2001.

"(g) SPECIAL RULES.—For purposes of this section—

"(1) IN GENERAL.—Rules similar to the rules of subsections (c), (d), and (e) of section 52 shall apply.

"(2) CONTROLLED GROUP.—

"(A) IN GENERAL.—All persons treated as a single employer under subsection (a) or (b) of section 52 or subsection (m) or (o) of section 414 shall be treated as a single producer.

"(B) INCLUSION OF FOREIGN CORPORATIONS.—For purposes of subparagraph (A), in applying subsections (a) and (b) of section 52 to this section, section 1563 shall be applied without regard to subsection (b)(2)(C) thereof.

"(3) VERIFICATION.—No amount shall be allowed as a credit under subsection (a) with respect to which the taxpayer has not submitted such information or certification as the Secretary, in consultation with the Secretary of Energy, determines necessary.".

(b) CONFORMING AMENDMENT.—Section 38(b) (relating to general business credit), as amended by this Act, is amended by striking "plus" at the end of paragraph (22), by striking the period at the end of paragraph (23) and inserting ", plus", and by adding at the end the following new paragraph:

"(24) the energy efficient appliance credit determined under section 45M(a).".

(c) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following new item:

"Sec. 45M. Energy efficient appliance credit.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to appliances produced after December 31, 2005.

SEC. 1335. CREDIT FOR RESIDENTIAL ENERGY EFFICIENT PROPERTY.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 (relating to nonrefundable personal credits), as amended by this Act, is amended by inserting after section 25C the following new section:

"SEC. 25D. RESIDENTIAL ENERGY EFFICIENT PROPERTY.

"(a) ALLOWANCE OF CREDIT.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

"(1) 30 percent of the qualified photovoltaic property expenditures made by the taxpayer during such year,

"(2) 30 percent of the qualified solar water heating property expenditures made by the taxpayer during such year, and

"(3) 30 percent of the qualified fuel cell property expenditures made by the taxpayer during such year.

"(b) LIMITATIONS.—

"(1) MAXIMUM CREDIT.—The credit allowed under subsection (a) for any taxable year shall not exceed—

"(A) $2,000 with respect to any qualified photovoltaic property expenditures,

"(B) $2,000 with respect to any qualified solar water heating property expenditures, and

"(C) $500 with respect to each half kilowatt of capacity of qualified fuel cell property (as defined in section 48(c)(1)) for which qualified fuel cell property expenditures are made.

"(2) CERTIFICATION OF SOLAR WATER HEATING PROPERTY.—No credit shall be allowed under this section for an item of property described in subsection (d)(1) unless such property is certified for performance by the non-profit Solar Rating Certification Corporation or a comparable entity endorsed by the government of the State in which such property is installed.

"(c) CARRYFORWARD OF UNUSED CREDIT.—If the credit allowable under subsection (a) exceeds the limitation imposed by section 26(a) for such taxable year reduced by the sum of the credits allowable under this subpart (other than this section), such excess shall be carried to the succeeding taxable year and added to the credit allowable under subsection (a) for such succeeding taxable year.

"(d) DEFINITIONS.—For purposes of this section—

"(1) QUALIFIED SOLAR WATER HEATING PROPERTY EXPENDITURE.—The term 'qualified solar water heating property expenditure' means an expenditure for property to heat water for use in a dwelling unit located in the United States and used as a residence by the taxpayer if at least half of the energy used by such property for such purpose is derived from the sun.

"(2) QUALIFIED PHOTOVOLTAIC PROPERTY EXPENDITURE.—The term 'qualified photovoltaic property expenditure' means an expenditure for property which uses solar energy to generate electricity for use in a dwelling unit located in the United States and used as a residence by the taxpayer.

"(3) QUALIFIED FUEL CELL PROPERTY EXPENDITURE.—The term 'qualified fuel cell property expenditure' means an expenditure for qualified fuel cell property (as defined in section 48(c)(1)) installed on or in connection with a dwelling unit located in the United States and used as a principal residence (within the meaning of section 121) by the taxpayer.

"(e) SPECIAL RULES.—For purposes of this section—

"(1) LABOR COSTS.—Expenditures for labor costs properly allocable to the onsite preparation, assembly, or original installation of the property described in subsection (d) and for piping or wiring to interconnect such property to the dwelling unit shall be taken into account for purposes of this section.

"(2) SOLAR PANELS.—No expenditure relating to a solar panel or other property installed as a roof (or portion thereof) shall fail to be treated as property described in paragraph (1) or (2) of subsection (d) solely because it constitutes a structural component of the structure on which it is installed.

"(3) SWIMMING POOLS, ETC., USED AS STORAGE MEDIUM.—Expenditures which are properly allocable to a swimming pool, hot tub, or any other energy storage medium which has a function other than the function of such storage shall not be taken into account for purposes of this section.

"(4) DOLLAR AMOUNTS IN CASE OF JOINT OCCUPANCY.—In the case of any dwelling unit which is jointly occupied and used during any calendar year as a residence by 2 or more individuals the following rules shall apply:

"(A) The amount of the credit allowable, under subsection (a) by reason of expenditures (as the case may be) made during such calendar year by any of such individuals with respect to such dwelling unit shall be determined by treating all of such individuals as 1 taxpayer whose taxable year is such calendar year.

"(B) There shall be allowable, with respect to such expenditures to each of such individuals, a credit under subsection (a) for the taxable year in which such calendar year ends in an amount which bears the same ratio to the amount determined under subparagraph (A) as the amount of such expenditures made by such individual during such calendar year bears to the aggregate of such expenditures made by all of such individuals during such calendar year.

"(C) Subparagraphs (A) and (B) shall be applied separately with respect to expenditures described in paragraphs (1), (2), and (3) of subsection (d).

"(5) TENANT-STOCKHOLDER IN COOPERATIVE HOUSING CORPORATION.—In the case of an individual who is a tenant-stockholder (as defined in section 216) in a cooperative housing corporation (as defined in such section), such individual shall be treated as having made his tenant-stockholder's proportionate share (as defined in section 216(b)(3)) of any expenditures of such corporation.

"(6) CONDOMINIUMS.—

"(A) IN GENERAL.—In the case of an individual who is a member of a condominium management association with respect to a condominium which the individual owns, such individual shall be treated as having made the individual's proportionate share of any expenditures of such association.

"(B) CONDOMINIUM MANAGEMENT ASSOCIATION.—For purposes of this paragraph, the term 'condominium management association' means an organization which meets the requirements of paragraph (1) of section 528(c) (other than subparagraph (E) thereof) with respect to a condominium project substantially all of the units of which are used as residences.

"(7) ALLOCATION IN CERTAIN CASES.—If less than 80 percent of the use of an item is for nonbusiness purposes, only that portion of the expenditures for such item which is properly allocable to use for nonbusiness purposes shall be taken into account.

"(8) WHEN EXPENDITURE MADE; AMOUNT OF EXPENDITURE.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), an expenditure with respect to an item shall be treated as made when the original installation of the item is completed.

"(B) EXPENDITURES PART OF BUILDING CONSTRUCTION.—In the case of an expenditure in connection with the construction or reconstruction of a structure, such expenditure shall be treated as made when the original use of the constructed or reconstructed structure by the taxpayer begins.

"(9) PROPERTY FINANCED BY SUBSIDIZED ENERGY FINANCING.—For purposes of determining the amount of expenditures made by any individual with respect to any dwelling unit, there shall not be taken into account expenditures which are made from subsidized energy financing (as defined in section 48(a)(4)(C)).

"(f) BASIS ADJUSTMENTS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

"(g) TERMINATION.—The credit allowed under this section shall not apply to property placed in service after December 31, 2007.".

(b) CONFORMING AMENDMENTS.—

(1) Section 23(c) is amended by striking "this section and section 1400C" and inserting "this section, section 25D, and section 1400C".

(2) Section 25(e)(1)(C) is amended by striking "this section and sections 23 and 1400C" and inserting "other than this section, section 23, section 25D, and section 1400C".

(3) Section 1400C(d) is amended by striking "this section" and inserting "this section and section 25D".

(4) Section 1016(a), as amended by this Act, is amended by striking "and" at the end of paragraph (33), by striking the period at the end of paragraph (34) and inserting ", and", and by adding at the end the following new paragraph:

"(35) to the extent provided in section 25D(f), in the case of amounts with respect to which a credit has been allowed under section 25D.".

(5) The table of sections for subpart A of part IV of subchapter A of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 25C the following new item:

"Sec. 25D. Residential energy efficient property.".

(c) EFFECTIVE DATES.—The amendments made by this section shall apply to property placed in service after December 31, 2005, in taxable years ending after such date.

SEC. 1336. CREDIT FOR BUSINESS INSTALLATION OF QUALIFIED FUEL CELLS AND STATIONARY MICROTURBINE POWER PLANTS.

(a) IN GENERAL.—Section 48(a)(3)(A) (defining energy property) is amended by striking "or" at the end of clause (i), by adding "or" at the end of clause (ii), and by inserting after clause (ii) the following new clause:

"(iii) qualified fuel cell property or qualified microturbine property.".

(b) QUALIFIED FUEL CELL PROPERTY; QUALIFIED MICROTURBINE PROPERTY.—Section 48 (relating to energy credit) is amended by adding at the end the following new subsection:

"(c) QUALIFIED FUEL CELL PROPERTY; QUALIFIED MICROTURBINE PROPERTY.—For purposes of this subsection—

"(1) QUALIFIED FUEL CELL PROPERTY.—

"(A) IN GENERAL.—The term 'qualified fuel cell property' means a fuel cell power plant which—

"(i) has a nameplate capacity of at least 0.5 kilowatt of electricity using an electrochemical process, and

"(ii) has an electricity-only generation efficiency greater than 30 percent.

"(B) LIMITATION.—In the case of qualified fuel cell property placed in service during the taxable year, the credit otherwise determined under paragraph (1) for such year with respect to such property shall not exceed an amount equal to $500 for each 0.5 kilowatt of capacity of such property.

"(C) FUEL CELL POWER PLANT.—The term 'fuel cell power plant' means an integrated system comprised of a fuel cell stack assembly and associated balance of plant components which converts a fuel into electricity using electrochemical means.

"(D) SPECIAL RULE.—The first sentence of the matter in subsection (a)(3) which follows subparagraph (D) thereof shall not apply to qualified fuel cell property which is used predominantly in the trade or business of the furnishing or sale of telephone service, telegraph service by means of domestic telegraph operations, or other telegraph services (other than international telegraph services).

"(E) TERMINATION.—The term 'qualified fuel cell property' shall not include any property for any period after December 31, 2007.

"(2) QUALIFIED MICROTURBINE PROPERTY.—

"(A) IN GENERAL.—The term 'qualified microturbine property' means a stationary microturbine power plant which—

"(i) has a nameplate capacity of less than 2,000 kilowatts, and

"(ii) has an electricity-only generation efficiency of not less than 26 percent at International Standard Organization conditions.

"(B) LIMITATION.—In the case of qualified microturbine property placed in service during the taxable year, the credit otherwise determined under paragraph (1) for such year with respect to such property shall not exceed an amount equal $200 for each kilowatt of capacity of such property.

"(C) STATIONARY MICROTURBINE POWER PLANT.—The term 'stationary microturbine power plant' means an integrated system comprised of a gas turbine engine, a combustor, a recuperator or regenerator, a generator or alternator, and associated balance of plant components which converts a fuel into electricity and thermal energy. Such term also includes all secondary components located between the existing infrastructure for fuel delivery and the existing infrastructure for power distribution, including equipment and controls for meeting relevant power standards, such as voltage, frequency, and power factors.

"(D) SPECIAL RULE.—The first sentence of the matter in subsection (a)(3) which follows subparagraph (D) thereof shall not apply to qualified microturbine property which is used predominantly in the trade or business of the furnishing or sale of telephone service, telegraph service by means of domestic telegraph operations, or other telegraph services (other than international telegraph services).

"(E) TERMINATION.—The term 'qualified microturbine property' shall not include any property for any period after December 31, 2007.".

(c) ENERGY PERCENTAGE.—Section 48(a)(2)(A) (relating to energy percentage) is amended to read as follows:

"(A) IN GENERAL.—The energy percentage is—

"(i) in the case of qualified fuel cell property, 30 percent, and

"(ii) in the case of any other energy property, 10 percent.".

(d) CONFORMING AMENDMENT.—Section 48(a)(1) is amended by inserting "except as provided in paragraph (1)(B) or (2)(B) of subsection (d)," before "the energy".

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to periods after December 31, 2005, in taxable years ending after such date, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

SEC. 1337. BUSINESS SOLAR INVESTMENT TAX CREDIT.

(a) INCREASE IN ENERGY PERCENTAGE.—Section 48(a)(2)(A) (relating to energy percentage), as amended by this Act, is amended to read as follows:

"(A) IN GENERAL.—The energy percentage is—

"(i) 30 percent in the case of—

"(I) qualified fuel cell property,

"(II) energy property described in paragraph (3)(A)(i) but only with respect to periods ending before January 1, 2008, and

"(III) energy property described in paragraph (3)(A)(ii), and

"(ii) in the case of any energy property to which clause (i) does not apply, 10 percent.".

(b) HYBRID SOLAR LIGHTING SYSTEMS.—Subparagraph (A) of section 48(a)(3) is amended by striking "or" at the end of clause (i), by redesignating clause (ii) as clause (iii), and by inserting after clause (i) the following new clause:

"(ii) equipment which uses solar energy to illuminate the inside of a structure using fiberoptic distributed sunlight but only with respect to periods ending before January 1, 2008, or".

(c) LIMITATION ON USE OF SOLAR ENERGY TO HEAT SWIMMING POOLS.—Clause (i) of section 48(a)(3)(A) is amended by inserting "excepting property used to generate energy for the purposes of heating a swimming pool," after "solar process heat,".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to periods after December 31, 2005, in taxable years ending after such date, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

Subtitle D—Alternative Motor Vehicles and Fuels Incentives

SEC. 1341. ALTERNATIVE MOTOR VEHICLE CREDIT.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 (relating to foreign tax credit, etc.) is amended by adding at the end the following new section:

“SEC. 30B. ALTERNATIVE MOTOR VEHICLE CREDIT.

“(a) ALLOWANCE OF CREDIT.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

“(1) the new qualified fuel cell motor vehicle credit determined under subsection (b),

“(2) the new advanced lean burn technology motor vehicle credit determined under subsection (c),

“(3) the new qualified hybrid motor vehicle credit determined under subsection (d), and

“(4) the new qualified alternative fuel motor vehicle credit determined under subsection (e).

“(b) NEW QUALIFIED FUEL CELL MOTOR VEHICLE CREDIT.—

“(1) IN GENERAL.—For purposes of subsection (a), the new qualified fuel cell motor vehicle credit determined under this subsection with respect to a new qualified fuel cell motor vehicle placed in service by the taxpayer during the taxable year is—

“(A) $8,000 ($4,000 in the case of a vehicle placed in service after December 31, 2009), if such vehicle has a gross vehicle weight rating of not more than 8,500 pounds,

“(B) $10,000, if such vehicle has a gross vehicle weight rating of more than 8,500 pounds but not more than 14,000 pounds,

“(C) $20,000, if such vehicle has a gross vehicle weight rating of more than 14,000 pounds but not more than 26,000 pounds, and

“(D) $40,000, if such vehicle has a gross vehicle weight rating of more than 26,000 pounds.

“(2) INCREASE FOR FUEL EFFICIENCY.—

“(A) IN GENERAL.—The amount determined under paragraph (1)(A) with respect to a new qualified fuel cell motor vehicle which is a passenger automobile or light truck shall be increased by—

“(i) $1,000, if such vehicle achieves at least 150 percent but less than 175 percent of the 2002 model year city fuel economy,

“(ii) $1,500, if such vehicle achieves at least 175 percent but less than 200 percent of the 2002 model year city fuel economy,

“(iii) $2,000, if such vehicle achieves at least 200 percent but less than 225 percent of the 2002 model year city fuel economy,

“(iv) $2,500, if such vehicle achieves at least 225 percent but less than 250 percent of the 2002 model year city fuel economy,

“(v) $3,000, if such vehicle achieves at least 250 percent but less than 275 percent of the 2002 model year city fuel economy,

“(vi) $3,500, if such vehicle achieves at least 275 percent but less than 300 percent of the 2002 model year city fuel economy, and

“(vii) $4,000, if such vehicle achieves at least 300 percent of the 2002 model year city fuel economy.

“(B) 2002 MODEL YEAR CITY FUEL ECONOMY.—For purposes of subparagraph (A), the 2002 model year city fuel economy with respect to a vehicle shall be determined in accordance with the following tables:

“(i) In the case of a passenger automobile:

If vehicle inertia weight class is:	***The 2002 model year city fuel economy is:***
1,500 or 1,750 lbs	*45.2 mpg*
2,000 lbs	*39.6 mpg*
2,250 lbs	*35.2 mpg*
2,500 lbs	*31.7 mpg*
2,750 lbs	*28.8 mpg*
3,000 lbs	*26.4 mpg*
3,500 lbs	*22.6 mpg*
4,000 lbs	*19.8 mpg*
4,500 lbs	*17.6 mpg*
5,000 lbs	*15.9 mpg*
5,500 lbs	*14.4 mpg*
6,000 lbs	*13.2 mpg*
6,500 lbs	*12.2 mpg*
7,000 to 8,500 lbs	*11.3 mpg.*

“(ii) In the case of a light truck:

If vehicle inertia weight class is:	***The 2002 model year city fuel economy is:***
1,500 or 1,750 lbs	*39.4 mpg*
2,000 lbs	*35.2 mpg*
2,250 lbs	*31.8 mpg*
2,500 lbs	*29.0 mpg*
2,750 lbs	*26.8 mpg*
3,000 lbs	*24.9 mpg*
3,500 lbs	*21.8 mpg*
4,000 lbs	*19.4 mpg*
4,500 lbs	*17.6 mpg*
5,000 lbs	*16.1 mpg*
5,500 lbs	*14.8 mpg*
6,000 lbs	*13.7 mpg*
6,500 lbs	*12.8 mpg*
7,000 to 8,500 lbs	*12.1 mpg.*

“(C) VEHICLE INERTIA WEIGHT CLASS.—For purposes of subparagraph (B), the term ‘vehicle inertia weight class’ has the same meaning as when defined in regulations prescribed by the Administrator of the Environmental Protection Agency for purposes of the administration of title II of the Clean Air Act (42 U.S.C. 7521 et seq.).

“(3) NEW QUALIFIED FUEL CELL MOTOR VEHICLE.—For purposes of this subsection, the term ‘new qualified fuel cell motor vehicle’ means a motor vehicle—

“(A) which is propelled by power derived from 1 or more cells which convert chemical energy directly into electricity by combining oxygen with hydrogen fuel which is stored on board the vehicle in any form and may or may not require reformation prior to use,

“(B) which, in the case of a passenger automobile or light truck, has received on or after the date of the enactment of this section a certificate that such vehicle meets or exceeds the Bin 5 Tier II emission level established in regulations prescribed by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act for that make and model year vehicle,

“(C) the original use of which commences with the taxpayer,

“(D) which is acquired for use or lease by the taxpayer and not for resale, and

“(E) which is made by a manufacturer.

“(c) NEW ADVANCED LEAN BURN TECHNOLOGY MOTOR VEHICLE CREDIT.—

“(1) IN GENERAL.—For purposes of subsection (a), the new advanced lean burn technology motor vehicle credit determined under this subsection for the taxable year is the credit amount determined under paragraph (2) with respect to a new advanced lean burn technology motor vehicle placed in service by the taxpayer during the taxable year.

“(2) CREDIT AMOUNT.—

“(A) FUEL ECONOMY.—

“(i) IN GENERAL.—The credit amount determined under this paragraph shall be determined in accordance with the following table:

In the case of a vehicle which achieves a fuel economy (expressed as a percentage of the 2002 model year city fuel economy) of—	***The credit amount is—***
At least 125 percent but less than 150 percent	*$400*
At least 150 percent but less than 175 percent	*$800*
At least 175 percent but less than 200 percent	*$1,200*
At least 200 percent but less than 225 percent	*$1,600*
At least 225 percent but less than 250 percent	*$2,000*
At least 250 percent	*$2,400.*

“(ii) 2002 MODEL YEAR CITY FUEL ECONOMY.—For purposes of clause (i), the 2002 model year city fuel economy with respect to a vehicle shall be determined on a gasoline gallon equivalent basis as determined by the Administrator of the Environmental Protection Agency using the tables provided in subsection (b)(2)(B) with respect to such vehicle.

“(B) CONSERVATION CREDIT.—The amount determined under subparagraph (A) with respect to a new advanced lean burn technology motor vehicle shall be increased by the conservation credit amount determined in accordance with the following table:

In the case of a vehicle which achieves a lifetime fuel savings (expressed in gallons of gasoline) of—	***The conservation credit amount is—***
At least 1,200 but less than 1,800	*$250*
At least 1,800 but less than 2,400	*$500*
At least 2,400 but less than 3,000	*$750*
At least 3,000	*$1,000.*

“(3) NEW ADVANCED LEAN BURN TECHNOLOGY MOTOR VEHICLE.—For purposes of this subsection, the term ‘new advanced lean burn technology motor vehicle’ means a passenger automobile or a light truck—

“(A) with an internal combustion engine which—

“(i) is designed to operate primarily using more air than is necessary for complete combustion of the fuel,

“(ii) incorporates direct injection,

“(iii) achieves at least 125 percent of the 2002 model year city fuel economy,

“(iv) for 2004 and later model vehicles, has received a certificate that such vehicle meets or exceeds—

“(I) in the case of a vehicle having a gross vehicle weight rating of 6,000 pounds or less, the Bin 5 Tier II emission standard established in regulations prescribed by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act for that make and model year vehicle, and

“(II) in the case of a vehicle having a gross vehicle weight rating of more than 6,000 pounds but not more than 8,500 pounds, the Bin 8 Tier II emission standard which is so established.

“(B) the original use of which commences with the taxpayer,

“(C) which is acquired for use or lease by the taxpayer and not for resale, and

“(D) which is made by a manufacturer.

“(4) LIFETIME FUEL SAVINGS.—For purposes of this subsection, the term ‘lifetime fuel savings’ means, in the case of any new advanced lean burn technology motor vehicle, an amount equal to the excess (if any) of—

“(A) 120,000 divided by the 2002 model year city fuel economy for the vehicle inertia weight class, over

“(B) 120,000 divided by the city fuel economy for such vehicle.

“(d) NEW QUALIFIED HYBRID MOTOR VEHICLE CREDIT.—

“(1) IN GENERAL.—For purposes of subsection (a), the new qualified hybrid motor vehicle credit determined under this subsection for the taxable year is the credit amount determined under paragraph (2) with respect to a new qualified hybrid motor vehicle placed in service by the taxpayer during the taxable year.

“(2) CREDIT AMOUNT.—

“(A) CREDIT AMOUNT FOR PASSENGER AUTOMOBILES AND LIGHT TRUCKS.—In the case of a new qualified hybrid motor vehicle which is a passenger automobile or light truck and which has a gross vehicle weight rating of not more than 8,500 pounds, the amount determined under this paragraph is the sum of the amounts determined under clauses (i) and (ii).

“(i) FUEL ECONOMY.—The amount determined under this clause is the amount which would be

determined under subsection (c)(2)(A) if such vehicle were a vehicle referred to in such subsection.

"(ii) CONSERVATION CREDIT.—The amount determined under this clause is the amount which would be determined under subsection (c)(2)(B) if such vehicle were a vehicle referred to in such subsection.

"(B) CREDIT AMOUNT FOR OTHER MOTOR VEHICLES.—

"(i) IN GENERAL.—In the case of any new qualified hybrid motor vehicle to which subparagraph (A) does not apply, the amount determined under this paragraph is the amount equal to the applicable percentage of the qualified incremental hybrid cost of the vehicle as certified under clause (v).

"(ii) APPLICABLE PERCENTAGE.—For purposes of clause (i), the applicable percentage is—

"(I) 20 percent if the vehicle achieves an increase in city fuel economy relative to a comparable vehicle of at least 30 percent but less than 40 percent,

"(II) 30 percent if the vehicle achieves such an increase of at least 40 percent but less than 50 percent, and

"(III) 40 percent if the vehicle achieves such an increase of at least 50 percent.

"(iii) QUALIFIED INCREMENTAL HYBRID COST.—For purposes of this subparagraph, the qualified incremental hybrid cost of any vehicle is equal to the amount of the excess of the manufacturer's suggested retail price for such vehicle over such price for a comparable vehicle, to the extent such amount does not exceed—

"(I) $7,500, if such vehicle has a gross vehicle weight rating of not more than 14,000 pounds,

"(II) $15,000, if such vehicle has a gross vehicle weight rating of more than 14,000 pounds but not more than 26,000 pounds, and

"(III) $30,000, if such vehicle has a gross vehicle weight rating of more than 26,000 pounds.

"(iv) COMPARABLE VEHICLE.—For purposes of this subparagraph, the term 'comparable vehicle' means, with respect to any new qualified hybrid motor vehicle, any vehicle which is powered solely by a gasoline or diesel internal combustion engine and which is comparable in weight, size, and use to such vehicle.

"(v) CERTIFICATION.—A certification described in clause (i) shall be made by the manufacturer and shall be determined in accordance with guidance prescribed by the Secretary. Such guidance shall specify procedures and methods for calculating fuel economy savings and incremental hybrid costs.

"(3) NEW QUALIFIED HYBRID MOTOR VEHICLE.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'new qualified hybrid motor vehicle' means a motor vehicle—

"(i) which draws propulsion energy from onboard sources of stored energy which are both—

"(I) an internal combustion or heat engine using consumable fuel, and

"(II) a rechargeable energy storage system,

"(ii) which, in the case of a vehicle to which paragraph (2)(A) applies, has received a certificate of conformity under the Clean Air Act and meets or exceeds the equivalent qualifying California low emission vehicle standard under section 243(e)(2) of the Clean Air Act for that make and model year, and

"(I) in the case of a vehicle having a gross vehicle weight rating of 6,000 pounds or less, the Bin 5 Tier II emission standard established in regulations prescribed by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act for that make and model year vehicle, and

"(II) in the case of a vehicle having a gross vehicle weight rating of more than 6,000 pounds but not more than 8,500 pounds, the Bin 8 Tier II emission standard which is so established,

"(iii) which has a maximum available power of at least—

"(I) 4 percent in the case of a vehicle to which paragraph (2)(A) applies,

"(II) 10 percent in the case of a vehicle which has a gross vehicle weight rating or more than 8,500 pounds and not than 14,000 pounds, and

"(III) 15 percent in the case of a vehicle in excess of 14,000 pounds,

"(iv) which, in the case of a vehicle to which paragraph (2)(B) applies, has an internal combustion or heat engine which has received a certificate of conformity under the Clean Air Act as meeting the emission standards set in the regulations prescribed by the Administrator of the Environmental Protection Agency for 2004 through 2007 model year diesel heavy duty engines or ottocycle heavy duty engines, as applicable,

"(v) the original use of which commences with the taxpayer,

"(vi) which is acquired for use or lease by the taxpayer and not for resale, and

"(vii) which is made by a manufacturer.

Such term shall not include any vehicle which is not a passenger automobile or light truck if such vehicle has a gross vehicle weight rating of less than 8,500 pounds.

"(B) CONSUMABLE FUEL.—For purposes of subparagraph (A)(i)(I), the term 'consumable fuel' means any solid, liquid, or gaseous matter which releases energy when consumed by an auxiliary power unit.

"(C) MAXIMUM AVAILABLE POWER.—

"(i) CERTAIN PASSENGER AUTOMOBILES AND LIGHT TRUCKS.—In the case of a vehicle to which paragraph (2)(A) applies, the term 'maximum available power' means the maximum power available from the rechargeable energy storage system, during a standard 10 second pulse power or equivalent test, divided by such maximum power and the SAE net power of the heat engine.

"(ii) OTHER MOTOR VEHICLES.—In the case of a vehicle to which paragraph (2)(B) applies, the term 'maximum available power' means the maximum power available from the rechargeable energy storage system, during a standard 10 second pulse power or equivalent test, divided by the vehicle's total traction power. For purposes of the preceding sentence, the term 'total traction power' means the sum of the peak power from the rechargeable energy storage system and the heat engine peak power of the vehicle, except that if such storage system is the sole means by which the vehicle can be driven, the total traction power is the peak power of such storage system.

"(e) NEW QUALIFIED ALTERNATIVE FUEL MOTOR VEHICLE CREDIT.—

"(1) ALLOWANCE OF CREDIT.—Except as provided in paragraph (5), the new qualified alternative fuel motor vehicle credit determined under this subsection is an amount equal to the applicable percentage of the incremental cost of any new qualified alternative fuel motor vehicle placed in service by the taxpayer during the taxable year.

"(2) APPLICABLE PERCENTAGE.—For purposes of paragraph (1), the applicable percentage with respect to any new qualified alternative fuel motor vehicle is—

"(A) 50 percent, plus

"(B) 30 percent, if such vehicle—

"(i) has received a certificate of conformity under the Clean Air Act and meets or exceeds the most stringent standard available for certification under the Clean Air Act for that make and model year vehicle (other than a zero emission standard), or

"(ii) has received an order certifying the vehicle as meeting the same requirements as vehicles which may be sold or leased in California and meets or exceeds the most stringent standard available for certification under the State laws of California (enacted in accordance with a waiver granted under section 209(b) of the Clean Air Act) for that make and model year vehicle (other than a zero emission standard).

For purposes of the preceding sentence, in the case of any new qualified alternative fuel motor vehicle which weighs more than 14,000 pounds gross vehicle weight rating, the most stringent standard available shall be such standard available for certification on the date of the enactment of the Energy Tax Incentives Act of 2005.

"(3) INCREMENTAL COST.—For purposes of this subsection, the incremental cost of any new qualified alternative fuel motor vehicle is equal to the amount of the excess of the manufacturer's suggested retail price for such vehicle over such price for a gasoline or diesel fuel motor vehicle of the same model, to the extent such amount does not exceed—

"(A) $5,000, if such vehicle has a gross vehicle weight rating of not more than 8,500 pounds,

"(B) $10,000, if such vehicle has a gross vehicle weight rating of more than 8,500 pounds but not more than 14,000 pounds,

"(C) $25,000, if such vehicle has a gross vehicle weight rating of more than 14,000 pounds but not more than 26,000 pounds, and

"(D) $40,000, if such vehicle has a gross vehicle weight rating of more than 26,000 pounds.

"(4) NEW QUALIFIED ALTERNATIVE FUEL MOTOR VEHICLE.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'new qualified alternative fuel motor vehicle' means any motor vehicle—

"(i) which is only capable of operating on an alternative fuel,

"(ii) the original use of which commences with the taxpayer,

"(iii) which is acquired by the taxpayer for use or lease, but not for resale, and

"(iv) which is made by a manufacturer.

"(B) ALTERNATIVE FUEL.—The term 'alternative fuel' means compressed natural gas, liquefied natural gas, liquefied petroleum gas, hydrogen, and any liquid at least 85 percent of the volume of which consists of methanol.

"(5) CREDIT FOR MIXED-FUEL VEHICLES.—

"(A) IN GENERAL.—In the case of a mixed-fuel vehicle placed in service by the taxpayer during the taxable year, the credit determined under this subsection is an amount equal to—

"(i) in the case of a 75/25 mixed-fuel vehicle, 70 percent of the credit which would have been allowed under this subsection if such vehicle was a qualified alternative fuel motor vehicle, and

"(ii) in the case of a 90/10 mixed-fuel vehicle, 90 percent of the credit which would have been allowed under this subsection if such vehicle was a qualified alternative fuel motor vehicle.

"(B) MIXED-FUEL VEHICLE.—For purposes of this subsection, the term 'mixed-fuel vehicle' means any motor vehicle described in subparagraph (C) or (D) of paragraph (3), which—

"(i) is certified by the manufacturer as being able to perform efficiently in normal operation on a combination of an alternative fuel and a petroleum-based fuel,

"(ii) either—

"(I) has received a certificate of conformity under the Clean Air Act, or

"(II) has received an order certifying the vehicle as meeting the same requirements as vehicles which may be sold or leased in California and meets or exceeds the low emission vehicle standard under section 88.105–94 of title 40, Code of Federal Regulations, for that make and model year vehicle,

"(iii) the original use of which commences with the taxpayer,

"(iv) which is acquired by the taxpayer for use or lease, but not for resale, and

"(v) which is made by a manufacturer.

"(C) 75/25 MIXED-FUEL VEHICLE.—For purposes of this subsection, the term '75/25 mixed-

fuel vehicle' means a mixed-fuel vehicle which operates using at least 75 percent alternative fuel and not more than 25 percent petroleum-based fuel.

"(D) 90/10 MIXED-FUEL VEHICLE.—For purposes of this subsection, the term '90/10 mixed-fuel vehicle' means a mixed-fuel vehicle which operates using at least 90 percent alternative fuel and not more than 10 percent petroleum-based fuel.

"(f) LIMITATION ON NUMBER OF NEW QUALIFIED HYBRID AND ADVANCED LEAN-BURN TECHNOLOGY VEHICLES ELIGIBLE FOR CREDIT.—

"(1) IN GENERAL.—In the case of a qualified vehicle sold during the phaseout period, only the applicable percentage of the credit otherwise allowable under subsection (c) or (d) shall be allowed.

"(2) PHASEOUT PERIOD.—For purposes of this subsection, the phaseout period is the period beginning with the second calendar quarter following the calendar quarter which includes the first date on which the number of qualified vehicles manufactured by the manufacturer of the vehicle referred to in paragraph (1) sold for use in the United States after December 31, 2005, is at least 60,000.

"(3) APPLICABLE PERCENTAGE.—For purposes of paragraph (1), the applicable percentage is—

"(A) 50 percent for the first 2 calendar quarters of the phaseout period,

"(B) 25 percent for the 3d and 4th calendar quarters of the phaseout period, and

"(C) 0 percent for each calendar quarter thereafter.

"(4) CONTROLLED GROUPS.—

"(A) IN GENERAL.—For purposes of this subsection, all persons treated as a single employer under subsection (a) or (b) of section 52 or subsection (m) or (o) of section 414 shall be treated as a single manufacturer.

"(B) INCLUSION OF FOREIGN CORPORATIONS.—For purposes of subparagraph (A), in applying subsections (a) and (b) of section 52 to this section, section 1563 shall be applied without regard to subsection (b)(2)(C) thereof.

"(5) QUALIFIED VEHICLE.—For purposes of this subsection, the term 'qualified vehicle' means any new qualified hybrid motor vehicle (described in subsection (d)(2)(A)) and any new advanced lean burn technology motor vehicle.

"(g) APPLICATION WITH OTHER CREDITS.—

"(1) BUSINESS CREDIT TREATED AS PART OF GENERAL BUSINESS CREDIT.—So much of the credit which would be allowed under subsection (a) for any taxable year (determined without regard to this subsection) that is attributable to property of a character subject to an allowance for depreciation shall be treated as a credit listed in section 38(b) for such taxable year (and not allowed under subsection (a)).

"(2) PERSONAL CREDIT.—The credit allowed under subsection (a) (after the application of paragraph (1)) for any taxable year shall not exceed the excess (if any) of—

"(A) the regular tax reduced by the sum of the credits allowable under subpart A and sections 27 and 30, over

"(B) the tentative minimum tax for the taxable year.

"(h) OTHER DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) MOTOR VEHICLE.—The term 'motor vehicle' has the meaning given such term by section 30(c)(2).

"(2) CITY FUEL ECONOMY.—The city fuel economy with respect to any vehicle shall be measured in a manner which is substantially similar to the manner city fuel economy is measured in accordance with procedures under part 600 of subchapter Q of chapter I of title 40, Code of Federal Regulations, as in effect on the date of the enactment of this section.

"(3) OTHER TERMS.—The terms 'automobile', 'passenger automobile', 'medium duty passenger vehicle', 'light truck', and 'manufacturer' have the meanings given such terms in regulations prescribed by the Administrator of the Environmental Protection Agency for purposes of the administration of title II of the Clean Air Act (42 U.S.C. 7521 et seq.).

"(4) REDUCTION IN BASIS.—For purposes of this subtitle, the basis of any property for which a credit is allowable under subsection (a) shall be reduced by the amount of such credit so allowed (determined without regard to subsection (g)).

"(5) NO DOUBLE BENEFIT.—The amount of any deduction or other credit allowable under this chapter—

"(A) for any incremental cost taken into account in computing the amount of the credit determined under subsection (e) shall be reduced by the amount of such credit attributable to such cost, and

"(B) with respect to a vehicle described under subsection (b) or (c), shall be reduced by the amount of credit allowed under subsection (a) for such vehicle for the taxable year.

"(6) PROPERTY USED BY TAX-EXEMPT ENTITY.—In the case of a vehicle whose use is described in paragraph (3) or (4) of section 50(b) and which is not subject to a lease, the person who sold such vehicle to the person or entity using such vehicle shall be treated as the taxpayer that placed such vehicle in service, but only if such person clearly discloses to such person or entity in a document the amount of any credit allowable under subsection (a) with respect to such vehicle (determined without regard to subsection (g)).

"(7) PROPERTY USED OUTSIDE UNITED STATES, ETC., NOT QUALIFIED.—No credit shall be allowable under subsection (a) with respect to any property referred to in section 50(b)(1) or with respect to the portion of the cost of any property taken into account under section 179.

"(8) RECAPTURE.—The Secretary shall, by regulations, provide for recapturing the benefit of any credit allowable under subsection (a) with respect to any property which ceases to be property eligible for such credit (including recapture in the case of a lease period of less than the economic life of a vehicle).

"(9) ELECTION TO NOT TAKE CREDIT.—No credit shall be allowed under subsection (a) for any vehicle if the taxpayer elects to not have this section apply to such vehicle.

"(10) INTERACTION WITH AIR QUALITY AND MOTOR VEHICLE SAFETY STANDARDS.—Unless otherwise provided in this section, a motor vehicle shall not be considered eligible for a credit under this section unless such vehicle is in compliance with—

"(A) the applicable provisions of the Clean Air Act for the applicable make and model year of the vehicle (or applicable air quality provisions of State law in the case of a State which has adopted such provision under a waiver under section 209(b) of the Clean Air Act), and

"(B) the motor vehicle safety provisions of sections 30101 through 30169 of title 49, United States Code.

"(i) REGULATIONS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary shall promulgate such regulations as necessary to carry out the provisions of this section.

"(2) COORDINATION IN PRESCRIPTION OF CERTAIN REGULATIONS.—The Secretary of the Treasury, in coordination with the Secretary of Transportation and the Administrator of the Environmental Protection Agency, shall prescribe such regulations as necessary to determine whether a motor vehicle meets the requirements to be eligible for a credit under this section.

"(j) TERMINATION.—This section shall not apply to any property purchased after—

"(1) in the case of a new qualified fuel cell motor vehicle (as described in subsection (b)), December 31, 2014,

"(2) in the case of a new advanced lean burn technology motor vehicle (as described in subsection (c)) or a new qualified hybrid motor vehicle (as described in subsection (d)(2)(A)), December 31, 2010,

"(3) in the case of a new qualified hybrid motor vehicle (as described in subsection (d)(2)(B)), December 31, 2009, and

"(4) in the case of a new qualified alternative fuel vehicle (as described in subsection (e)), December 31, 2010.".

(b) CONFORMING AMENDMENTS.—

(1) Section 38(b), as amended by this Act, is amended by striking "plus" at the end of paragraph (23), by striking the period at the end of paragraph (24) and inserting ", and", and by adding at the end the following new paragraph:

"(25) the portion of the alternative motor vehicle credit to which section 30B(g)(1) applies.".

(2) Section 1016(a), as amended by this Act, is amended by striking "and" at the end of paragraph (34), by striking the period at the end of paragraph (35) and inserting ", and", and by adding at the end the following new paragraph:

"(36) to the extent provided in section 30B(h)(4).".

(3) Section 55(c)(2), as amended by this Act, is amended by inserting "30B(g)(2)," after "30(b)(2),".

(4) Section 6501(m) is amended by inserting "30B(h)(9)," after "30(d)(4),".

(5) The table of sections for subpart B of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 30A the following new item:

"Sec. 30B. Alternative motor vehicle credit.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after December 31, 2005, in taxable years ending after such date.

SEC. 1342. CREDIT FOR INSTALLATION OF ALTERNATIVE FUELING STATIONS.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 (relating to other credits), as amended by this Act, is amended by adding at the end the following new section:

"SEC. 30C. ALTERNATIVE FUEL VEHICLE REFUELING PROPERTY CREDIT.

"(a) CREDIT ALLOWED.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to 30 percent of the cost of any qualified alternative fuel vehicle refueling property placed in service by the taxpayer during the taxable year.

"(b) LIMITATION.—The credit allowed under subsection (a) with respect to any alternative fuel vehicle refueling property shall not exceed—

"(1) $30,000 in the case of a property of a character subject to an allowance for depreciation, and

"(2) $1,000 in any other case.

"(c) QUALIFIED ALTERNATIVE FUEL VEHICLE REFUELING PROPERTY.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the term 'qualified alternative fuel vehicle refueling property' has the meaning given to such term by section 179A(d), but only with respect to any fuel—

"(A) at least 85 percent of the volume of which consists of 1 or more of the following: ethanol, natural gas, compressed natural gas, liquefied natural gas, liquefied petroleum gas, or hydrogen, or

"(B) any mixture of biodiesel (as defined in section 40A(d)(1)) and diesel fuel (as defined in section 4083(a)(3)), determined without regard to any use of kerosene and containing at least 20 percent biodiesel.

"(2) RESIDENTIAL PROPERTY.—In the case of any property installed on property which is

used as the principal residence (within the meaning of section 121) of the taxpayer, paragraph (1) of section 179A(d) shall not apply.

“(d) APPLICATION WITH OTHER CREDITS.—

“(1) BUSINESS CREDIT TREATED AS PART OF GENERAL BUSINESS CREDIT.—So much of the credit which would be allowed under subsection (a) for any taxable year (determined without regard to this subsection) that is attributable to property of a character subject to an allowance for depreciation shall be treated as a credit listed in section 38(b) for such taxable year (and not allowed under subsection (a)).

“(2) PERSONAL CREDIT.—The credit allowed under subsection (a) (after the application of paragraph (1)) for any taxable year shall not exceed the excess (if any) of—

“(A) the regular tax reduced by the sum of the credits allowable under subpart A and sections 27, 30, and 30B, over

“(B) the tentative minimum tax for the taxable year.

“(e) SPECIAL RULES.—For purposes of this section—

“(1) BASIS REDUCTION.—The basis of any property shall be reduced by the portion of the cost of such property taken into account under subsection (a).

“(2) PROPERTY USED BY TAX-EXEMPT ENTITY.—In the case of any qualified alternative fuel vehicle refueling property the use of which is described in paragraph (3) or (4) of section 50(b) and which is not subject to a lease, the person who sold such property to the person or entity using such property shall be treated as the taxpayer that placed such property in service, but only if such person clearly discloses to such person or entity in a document the amount of any credit allowable under subsection (a) with respect to such property (determined without regard to subsection (d)).

“(3) PROPERTY USED OUTSIDE UNITED STATES NOT QUALIFIED.—No credit shall be allowable under subsection (a) with respect to any property referred to in section 50(b)(1) or with respect to the portion of the cost of any property taken into account under section 179.

“(4) ELECTION NOT TO TAKE CREDIT.—No credit shall be allowed under subsection (a) for any property if the taxpayer elects not to have this section apply to such property.

“(5) RECAPTURE RULES.—Rules similar to the rules of section 179A(e)(4) shall apply.

“(f) REGULATIONS.—The Secretary shall prescribe such regulations as necessary to carry out the provisions of this section.

“(g) TERMINATION.—This section shall not apply to any property placed in service—

“(1) in the case of property relating to hydrogen, after December 31, 2014, and

“(2) in the case of any other property, after December 31, 2009.”.

(b) CONFORMING AMENDMENTS.—

(1) Section 38(b), as amended by this Act, is amended by striking “plus” at the end of paragraph (24), by striking the period at the end of paragraph (25) and inserting “, and”, and by adding at the end the following new paragraph:

“(26) the portion of the alternative fuel vehicle refueling property credit to which section 30C(d)(1) applies.”.

(2) Section 1016(a), as amended by this Act, is amended by striking “and” at the end of paragraph (35), by striking the period at the end of paragraph (36) and inserting “, and”, and by adding at the end the following new paragraph:

“(37) to the extent provided in section 30C(f).”.

(3) Section 55(c)(2), as amended by this Act, is amended by inserting “30C(d)(2),” after “30B(g)(2),”.

(4) Section 6501(m) is amended by inserting “30C(e)(5),” after “30B(h)(9),”.

(5) The table of sections for subpart B of part IV of subchapter A of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 30B the following new item:

“Sec. 30C. Clean-fuel vehicle refueling property credit.”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after December 31, 2005, in taxable years ending after such date.

SEC. 1343. REDUCED MOTOR FUEL EXCISE TAX ON CERTAIN MIXTURES OF DIESEL FUEL.

(a) IN GENERAL.—Paragraph (2) of section 4081(a) is amended by adding at the end the following:

“(D) DIESEL-WATER FUEL EMULSION.—In the case of diesel-water fuel emulsion at least 14 percent of which is water and with respect to which the emulsion additive is registered by a United States manufacturer with the Environmental Protection Agency pursuant to section 211 of the Clean Air Act (as in effect on March 31, 2003), subparagraph (A)(iii) shall be applied by substituting ‘19.7 cents’ for ‘24.3 cents’. The preceding sentence shall not apply to the removal, sale, or use of diesel-water fuel emulsion unless the person so removing, selling, or using such fuel is registered under section 4101.”.

(b) SPECIAL RULES FOR DIESEL-WATER FUEL EMULSIONS.—

(1) REFUNDS FOR TAX-PAID PURCHASES.—Section 6427 is amended by redesignating subsections (m) through (p) as subsections (n) through (q), respectively, and by inserting after subsection (l) the following new subsection:

“(m) DIESEL FUEL USED TO PRODUCE EMULSION.—

“(1) IN GENERAL.—Except as provided in subsection (k), if any diesel fuel on which tax was imposed by section 4081 at the regular tax rate is used by any person in producing an emulsion described in section 4081(a)(2)(D) which is sold or used in such person's trade or business, the Secretary shall pay (without interest) to such person an amount equal to the excess of the regular tax rate over the incentive tax rate with respect to such fuel.

“(2) DEFINITIONS.—For purposes of paragraph (1)—

“(A) REGULAR TAX RATE.—The term ‘regular tax rate’ means the aggregate rate of tax imposed by section 4081 determined without regard to section 4081(a)(2)(D).

“(B) INCENTIVE TAX RATE.—The term ‘incentive tax rate’ means the aggregate rate of tax imposed by section 4081 determined with regard to section 4081(a)(2)(D).”.

(2) LATER SEPARATION OF FUEL.—Section 4081 (relating to imposition of tax) is amended by inserting after subsection (b) the following new subsection:

“(c) LATER SEPARATION OF FUEL FROM DIESEL-WATER FUEL EMULSION.—If any person separates the taxable fuel from a diesel-water fuel emulsion on which tax was imposed under subsection (a) at a rate determined under subsection (a)(2)(D) (or with respect to which a credit or payment was allowed or made by reason of section 6427), such person shall be treated as the refiner of such taxable fuel. The amount of tax imposed on any removal of such fuel by such person shall be reduced by the amount of tax imposed (and not credited or refunded) on any prior removal or entry of such fuel.”.

(3) CREDIT CLAIMS.—Paragraphs (1) and (2) of section 6427(i) are both amended by inserting “(m),” after “(l),”.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 2006.

SEC. 1344. EXTENSION OF EXCISE TAX PROVISIONS AND INCOME TAX CREDIT FOR BIODIESEL.

(a) IN GENERAL.—Sections 40A(e), 6426(c)(6), and 6427(e)(4)(B) are each amended by striking “2006” and inserting “2008”.

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act.

SEC. 1345. SMALL AGRI-BIODIESEL PRODUCER CREDIT.

(a) IN GENERAL.—Subsection (a) of section 40A (relating to biodiesel used as a fuel) is amended to read as follows:

“(a) GENERAL RULE.—For purposes of section 38, the biodiesel fuels credit determined under this section for the taxable year is an amount equal to the sum of—

“(1) the biodiesel mixture credit, plus

“(2) the biodiesel credit, plus

“(3) in the case of an eligible small agri-biodiesel producer, the small agri-biodiesel producer credit.”.

(b) SMALL AGRI-BIODIESEL PRODUCER CREDIT DEFINED.—Section 40A(b) (relating to definition of biodiesel mixture credit and biodiesel credit) is amended by adding at the end the following new paragraph:

“(5) SMALL AGRI-BIODIESEL PRODUCER CREDIT.—

“(A) IN GENERAL.—The small agri-biodiesel producer credit of any eligible small agri-biodiesel producer for any taxable year is 10 cents for each gallon of qualified agri-biodiesel production of such producer.

“(B) QUALIFIED AGRI-BIODIESEL PRODUCTION.—For purposes of this paragraph, the term ‘qualified agri-biodiesel production’ means any agri-biodiesel (determined without regard to the last sentence of subsection (d)(2)) which is produced by an eligible small agri-biodiesel producer, and which during the taxable year—

“(i) is sold by such producer to another person—

“(I) for use by such other person in the production of a qualified biodiesel mixture in such other person's trade or business (other than casual off-farm production),

“(II) for use by such other person as a fuel in a trade or business, or

“(III) who sells such agri-biodiesel at retail to another person and places such agri-biodiesel in the fuel tank of such other person, or

“(ii) is used or sold by such producer for any purpose described in clause (i).

“(C) LIMITATION.—The qualified agri-biodiesel production of any producer for any taxable year shall not exceed 15,000,000 gallons.”.

(c) DEFINITIONS AND SPECIAL RULES.—Section 40A is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following new subsection:

“(e) DEFINITIONS AND SPECIAL RULES FOR SMALL AGRI-BIODIESEL PRODUCER CREDIT.—For purposes of this section—

“(1) ELIGIBLE SMALL AGRI-BIODIESEL PRODUCER.—The term ‘eligible small agri-biodiesel producer’ means a person who, at all times during the taxable year, has a productive capacity for agri-biodiesel not in excess of 60,000,000 gallons.

“(2) AGGREGATION RULE.—For purposes of the 15,000,000 gallon limitation under subsection (b)(5)(C) and the 60,000,000 gallon limitation under paragraph (1), all members of the same controlled group of corporations (within the meaning of section 267(f)) and all persons under common control (within the meaning of section 52(b) but determined by treating an interest of more than 50 percent as a controlling interest) shall be treated as 1 person.

“(3) PARTNERSHIP, S CORPORATION, AND OTHER PASS-THRU ENTITIES.—In the case of a partnership, trust, S corporation, or other pass-thru entity, the limitations contained in subsection (b)(5)(C) and paragraph (1) shall be applied at the entity level and at the partner or similar level.

“(4) ALLOCATION.—For purposes of this subsection, in the case of a facility in which more than 1 person has an interest, productive capacity shall be allocated among such persons in such manner as the Secretary may prescribe.

"(5) Regulations.—The Secretary may prescribe such regulations as may be necessary—

"(A) to prevent the credit provided for in subsection (a)(3) from directly or indirectly benefiting any person with a direct or indirect productive capacity of more than 60,000,000 gallons of agri-biodiesel during the taxable year, or

"(B) to prevent any person from directly or indirectly benefiting with respect to more than 15,000,000 gallons during the taxable year.

"(6) Allocation of small agri-biodiesel credit to patrons of cooperative.—

"(A) Election to allocate.—

"(i) In general.—In the case of a cooperative organization described in section 1381(a), any portion of the credit determined under subsection (a)(3) for the taxable year may, at the election of the organization, be apportioned pro rata among patrons of the organization on the basis of the quantity or value of business done with or for such patrons for the taxable year.

"(ii) Form and effect of election.—An election under clause (i) for any taxable year shall be made on a timely filed return for such year. Such election, once made, shall be irrevocable for such taxable year. Such election shall not take effect unless the organization designates the apportionment as such in a written notice mailed to its patrons during the payment period described in section 1382(d).

"(B) Treatment of organizations and patrons.—

"(i) Organizations.—The amount of the credit not apportioned to patrons pursuant to subparagraph (A) shall be included in the amount determined under subsection (a)(3) for the taxable year of the organization.

"(ii) Patrons.—The amount of the credit apportioned to patrons pursuant to subparagraph (A) shall be included in the amount determined under such subsection for the first taxable year of each patron ending on or after the last day of the payment period (as defined in section 1382(d)) for the taxable year of the organization or, if earlier, for the taxable year of each patron ending on or after the date on which the patron receives notice from the cooperative of the apportionment.

"(iii) Special rules for decrease in credits for taxable year.—If the amount of the credit of the organization determined under such subsection for a taxable year is less than the amount of such credit shown on the return of the organization for such year, an amount equal to the excess of—

"(I) such reduction, over

"(II) the amount not apportioned to such patrons under subparagraph (A) for the taxable year, shall be treated as an increase in tax imposed by this chapter on the organization. Such increase shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit under this chapter or for purposes of section 55.".

(d) Conforming Amendments.—

(1) Paragraph (4) of section 40A(b) is amended by striking "this section" and inserting "paragraph (1) or (2) of subsection (a)".

(2) The heading of subsection (b) of section 40A is amended by striking "and Biodiesel Credit" and inserting ", Biodiesel Credit, and Small Agri-biodiesel Producer Credit".

(3) Paragraph (3) of section 40A(d) is amended by redesignating subparagraph (C) as subparagraph (D) and by inserting after subparagraph (B) the following new subparagraph:

"(C) Producer credit.—If—

"(i) any credit was determined under subsection (a)(3), and

"(ii) any person does not use such fuel for a purpose described in subsection (b)(5)(B), then there is hereby imposed on such person a tax equal to 10 cents a gallon for each gallon of such agri-biodiesel.".

(e) Effective Date.—The amendments made by this section shall apply to taxable years ending after the date of the enactment of this Act.

SEC. 1346. RENEWABLE DIESEL.

(a) In General.—Section 40A (relating to biodiesel used as fuel), as amended by this Act, is amended by redesignating subsection (f) as subsection (g) and by inserting after subsection (e) the following new subsection:

"(f) Renewable Diesel.—For purposes of this title—

"(1) Treatment in the same manner as biodiesel.—Except as provided in paragraph (2), renewable diesel shall be treated in the same manner as biodiesel.

"(2) Exceptions.—

"(A) Rate of credit.—Subsections (b)(1)(A) and (b)(2)(A) shall be applied with respect to renewable diesel by substituting '$1.00' for '50 cents'.

"(B) Nonapplication of certain credits.—Subsections (b)(3) and (b)(5) shall not apply with respect to renewable diesel.

"(3) Renewable diesel defined.—The term 'renewable diesel' means diesel fuel derived from biomass (as defined in section 45K(c)(3)) using a thermal depolymerization process which meets—

"(A) the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545), and

"(B) the requirements of the American Society of Testing and Materials D975 or D396.".

(b) Clerical Amendments.—

(1) The heading for section 40A is amended by inserting "**and RENEWABLE diesel**" after "**BIODIESEL**".

(2) The item in the table of contents for subpart D of part IV of subchapter A of chapter 1 relating to section 40A is amended to read as follows:

"Sec. 40A. Biodiesel and renewable diesel used as fuel.".

(c) Effective Date.—The amendment made by subsection (a) shall apply with respect to fuel sold or used after December 31, 2005.

SEC. 1347. MODIFICATION OF SMALL ETHANOL PRODUCER CREDIT.

(a) Definition of Small Ethanol Producer.—Section 40(g) (relating to definitions and special rules for eligible small ethanol producer credit) is amended by striking "30,000,000" each place it appears and inserting "60,000,000".

(b) Written Notice of Election to Allocate Credit to Patrons.—Section 40(g)(6)(A)(ii) (relating to form and effect of election) is amended by adding at the end the following new sentence: "Such election shall not take effect unless the organization designates the apportionment as such in a written notice mailed to its patrons during the payment period described in section 1382(d).".

(c) Effective Date.—The amendments made by this section shall apply to taxable years ending after the date of the enactment of this Act.

SEC. 1348. SUNSET OF DEDUCTION FOR CLEAN-FUEL VEHICLES AND CERTAIN REFUELING PROPERTY.

Subsection (f) of section 179A (relating to termination) is amended by striking "December 31, 2006" and inserting "December 31, 2005".

Subtitle E—Additional Energy Tax Incentives

SEC. 1351. EXPANSION OF RESEARCH CREDIT.

(a) Credit for Expenses Attributable to Certain Collaborative Energy Research Consortia.—

(1) In general.—Section 41(a) (relating to credit for increasing research activities) is amended by striking "and" at the end of paragraph (1), by striking the period at the end of paragraph (2) and inserting ", and", and by adding at the end the following new paragraph:

"(3) 20 percent of the amounts paid or incurred by the taxpayer in carrying on any trade or business of the taxpayer during the taxable year (including as contributions) to an energy research consortium.".

(2) Energy research consortium defined.—Section 41(f) (relating to special rules) is amended by adding at the end the following new paragraph:

"(6) Energy research consortium.—

"(A) In general.—The term 'energy research consortium' means any organization—

"(i) which is—

"(I) described in section 501(c)(3) and is exempt from tax under section 501(a) and is organized and operated primarily to conduct energy research, or

"(II) organized and operated primarily to conduct energy research in the public interest (within the meaning of section 501(c)(3)),

"(ii) which is not a private foundation,

"(iii) to which at least 5 unrelated persons paid or incurred during the calendar year in which the taxable year of the organization begins amounts (including as contributions) to such organization for energy research, and

"(iv) to which no single person paid or incurred (including as contributions) during such calendar year an amount equal to more than 50 percent of the total amounts received by such organization during such calendar year for energy research.

"(B) Treatment of persons.—All persons treated as a single employer under subsection (a) or (b) of section 52 shall be treated as related persons for purposes of subparagraph (A)(iii) and as a single person for purposes of subparagraph (A)(iv).".

(3) Conforming amendment.—Section 41(b)(3)(C) is amended by inserting "(other than an energy research consortium)" after "organization".

(b) Repeal of Limitation on Contract Research Expenses Paid to Small Businesses, Universities, and Federal Laboratories.—Section 41(b)(3) (relating to contract research expenses) is amended by adding at the end the following new subparagraph:

"(D) Amounts paid to eligible small businesses, universities, and federal laboratories.—

"(i) In general.—In the case of amounts paid by the taxpayer to—

"(I) an eligible small business,

"(II) an institution of higher education (as defined in section 3304(f)), or

"(III) an organization which is a Federal laboratory,

for qualified research which is energy research, subparagraph (A) shall be applied by substituting '100 percent' for '65 percent'.

"(ii) Eligible small business.—For purposes of this subparagraph, the term 'eligible small business' means a small business with respect to which the taxpayer does not own (within the meaning of section 318) 50 percent or more of—

"(I) in the case of a corporation, the outstanding stock of the corporation (either by vote or value), and

"(II) in the case of a small business which is not a corporation, the capital and profits interests of the small business.

"(iii) Small business.—For purposes of this subparagraph—

"(I) In general.—The term 'small business' means, with respect to any calendar year, any person if the annual average number of employees employed by such person during either of the 2 preceding calendar years was 500 or fewer. For purposes of the preceding sentence, a preceding calendar year may be taken into account only if the person was in existence throughout the year.

''(II) STARTUPS, CONTROLLED GROUPS, AND PREDECESSORS.—Rules similar to the rules of subparagraphs (B) and (D) of section 220(c)(4) shall apply for purposes of this clause.

''(iv) FEDERAL LABORATORY.—For purposes of this subparagraph, the term 'Federal laboratory' has the meaning given such term by section 4(6) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3703(6)), as in effect on the date of the enactment of the Energy Tax Incentives Act of 2005.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts paid or incurred after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 1352. NATIONAL ACADEMY OF SCIENCES STUDY AND REPORT.

(a) STUDY.—Not later than 60 days after the date of the enactment of this Act, the Secretary of the Treasury shall enter into an agreement with the National Academy of Sciences under which the National Academy of Sciences shall conduct a study to define and evaluate the health, environmental, security, and infrastructure external costs and benefits associated with the production and consumption of energy that are not or may not be fully incorporated into the market price of such energy, or into the Federal tax or fee or other applicable revenue measure related to such production or consumption.

(b) REPORT.—Not later than 2 years after the date on which the agreement under subsection (a) is entered into, the National Academy of Sciences shall submit to Congress a report on the study conducted under subsection (a).

SEC. 1353. RECYCLING STUDY.

(a) STUDY.—The Secretary of the Treasury, in consultation with the Secretary of Energy, shall conduct a study—

(1) to determine and quantify the energy savings achieved through the recycling of glass, paper, plastic, steel, aluminum, and electronic devices, and

(2) to identify tax incentives which would encourage recycling of such material.

(b) REPORT.—Not later than one year after the date of the enactment of this Act, the Secretary of the Treasury shall submit to Congress a report on the study conducted under subsection (a).

Subtitle F—Revenue Raising Provisions

SEC. 1361. OIL SPILL LIABILITY TRUST FUND FINANCING RATE.

Section 4611(f) (relating to application of oil spill liability trust fund financing rate) is amended to read as follows:

''(f) APPLICATION OF OIL SPILL LIABILITY TRUST FUND FINANCING RATE.—

''(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), the Oil Spill Liability Trust Fund financing rate under subsection (c) shall apply on and after April 1, 2006, or if later, the date which is 30 days after the last day of any calendar quarter for which the Secretary estimates that, as of the close of that quarter, the unobligated balance in the Oil Spill Liability Trust Fund is less than $2,000,000,000.

''(2) FUND BALANCE.—The Oil Spill Liability Trust Fund financing rate shall not apply during a calendar quarter if the Secretary estimates that, as of the close of the preceding calendar quarter, the unobligated balance in the Oil Spill Liability Trust Fund exceeds $2,700,000,000.

''(3) TERMINATION.—The Oil Spill Liability Trust Fund financing rate shall not apply after December 31, 2014.''.

SEC. 1362. EXTENSION OF LEAKING UNDERGROUND STORAGE TANK TRUST FUND FINANCING RATE.

(a) IN GENERAL.—Paragraph (3) of section 4081(d) (relating to Leaking Underground Storage Tank Trust Fund financing rate) is amended by striking ''2005'' and inserting ''2011''.

(b) NO EXEMPTIONS FROM TAX EXCEPT FOR EXPORTS.—

(1) IN GENERAL.—Section 4082(a) (relating to exemptions for diesel fuel and kerosene) is amended by inserting ''(other than such tax at the Leaking Underground Storage Tank Trust Fund financing rate imposed in all cases other than for export)'' after ''section 4081''.

(2) AMENDMENTS RELATING TO SECTION 4041.—

(A) Subsections (a)(1)(B), (a)(2)(A), and (c)(2) of section 4041 are each amended by inserting ''(other than such tax at the Leaking Underground Storage Tank Trust Fund financing rate)'' after ''section 4081''.

(B) Section 4041(b)(1)(A) is amended by striking ''or (d)(1))''.

(C) Section 4041(d) is amended by adding at the end the following new paragraph:

''(5) NONAPPLICATION OF EXEMPTIONS OTHER THAN FOR EXPORTS.—For purposes of this section, the tax imposed under this subsection shall be determined without regard to subsections (f), (g) (other than with respect to any sale for export under paragraph (3) thereof), (h), and (l).''.

(3) NO REFUND.—

(A) IN GENERAL.—Subchapter B of chapter 65 is amended by adding at the end the following new section:

"SEC. 6430. TREATMENT OF TAX IMPOSED AT LEAKING UNDERGROUND STORAGE TANK TRUST FUND FINANCING RATE.

''No refunds, credits, or payments shall be made under this subchapter for any tax imposed at the Leaking Underground Storage Tank Trust Fund financing rate, except in the case of fuels destined for export.''.

(B) CLERICAL AMENDMENT.—The table of sections for subchapter B of chapter 65 is amended by adding at the end the following new item:

''Sec. 6430. Treatment of tax imposed at Leaking Underground Storage Tank Trust Fund financing rate.''.

(c) CERTAIN REFUNDS AND CREDITS NOT CHARGED TO LUST TRUST FUND.—Subsection (c) of section 9508 (relating to Leaking Underground Storage Tank Trust Fund) is amended to read as follows:

''(c) EXPENDITURES.—Amounts in the Leaking Underground Storage Tank Trust Fund shall be available, as provided in appropriation Acts, only for purposes of making expenditures to carry out section 9003(h) of the Solid Waste Disposal Act as in effect on the date of the enactment of the Superfund Amendments and Reauthorization Act of 1986.''.

(d) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall take effect on October 1, 2005.

(2) NO EXEMPTION.—The amendments made by subsection (b) shall apply to fuel entered, removed, or sold after September 30, 2005.

SEC. 1363. MODIFICATION OF RECAPTURE RULES FOR AMORTIZABLE SECTION 197 INTANGIBLES.

(a) IN GENERAL.—Subsection (b) of section 1245 (relating to gain from dispositions of certain depreciable property) is amended by adding at the end the following new paragraph:

''(9) DISPOSITION OF AMORTIZABLE SECTION 197 INTANGIBLES.—

''(A) IN GENERAL.—If a taxpayer disposes of more than 1 amortizable section 197 intangible (as defined in section 197(c)) in a transaction or a series of related transactions, all such amortizable 197 intangibles shall be treated as 1 section 1245 property for purposes of this section.

''(B) EXCEPTION.—Subparagraph (A) shall not apply to any amortizable section 197 intangible (as so defined) with respect to which the adjusted basis exceeds the fair market value.''.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to dispositions of property after the date of the enactment of this Act.

SEC. 1364. CLARIFICATION OF TIRE EXCISE TAX.

(a) IN GENERAL.—Section 4072(e) (defining super single tire) is amended by adding at the end the following: ''Such term shall not include any tire designed for steering.''

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect as if included in section 869 of the American Jobs Creation Act of 2004.

(c) STUDY.—

(1) IN GENERAL.—With respect to the 1-year period beginning on January 1, 2006, the Secretary of the Treasury shall conduct a study to determine—

(A) the amount of tax collected during such period under section 4071 of the Internal Revenue Code of 1986 with respect to each class of tire, and

(B) the number of tires in each such class on which tax is imposed under such section during such period.

(2) REPORT.—Not later than July 1, 2007, the Secretary of the Treasury shall submit to Congress a report on the study conducted under paragraph (1).

TITLE XIV—MISCELLANEOUS

Subtitle A—In General

SEC. 1401. SENSE OF CONGRESS ON RISK ASSESSMENTS.

Subtitle B of title XXX of the Energy Policy Act of 1992 is amended by adding at the end the following new section:

"SEC. 3022. SENSE OF CONGRESS ON RISK ASSESSMENTS.

''It is the sense of Congress that Federal agencies conducting assessments of risks to human health and the environment from energy technology, production, transport, transmission, distribution, storage, use, or conservation activities shall use sound and objective scientific practices in assessing such risks, shall consider the best available science (including peer reviewed studies), and shall include a description of the weight of the scientific evidence concerning such risks.''.

SEC. 1402. ENERGY PRODUCTION INCENTIVES.

(a) IN GENERAL.—A State may provide to any entity—

(1) a credit against any tax or fee owed to the State under a State law, or

(2) any other tax incentive,

determined by the State to be appropriate, in the amount calculated under and in accordance with a formula determined by the State, for production described in subsection (b) in the State by the entity that receives such credit or such incentive.

(b) ELIGIBLE ENTITIES.—Subsection (a) shall apply with respect to the production in the State of electricity from coal mined in the State and used in a facility, if such production meets all applicable Federal and State laws and if such facility uses scrubbers or other forms of clean coal technology.

(c) EFFECT ON INTERSTATE COMMERCE.—Any action taken by a State in accordance with this section with respect to a tax or fee payable, or incentive applicable, for any period beginning after the date of the enactment of this Act shall—

(1) be considered to be a reasonable regulation of commerce; and

(2) not be considered to impose an undue burden on interstate commerce or to otherwise impair, restrain, or discriminate, against interstate commerce.

SEC. 1403. REGULATION OF CERTAIN OIL USED IN TRANSFORMERS.

Notwithstanding any other provision of law, or rule promulgated by the Environmental Protection Agency, vegetable oil made from soybeans and used in electric transformers as thermal insulation shall not be regulated as an oil identified under section 2(a)(1)(B) of the Edible Oil Regulatory Reform Act (33 U.S.C. 2720(a)(1)(B)).

SEC. 1404. PETROCHEMICAL AND OIL REFINERY FACILITY HEALTH ASSESSMENT.

(a) ESTABLISHMENT.—The Secretary shall conduct a study of direct and significant health impacts to persons resulting from living in proximity to petrochemical and oil refinery facilities. The Secretary shall consult with the Director of the National Cancer Institute and other Federal Government bodies with expertise in the field it deems appropriate in the design of such study. The study shall be conducted according to sound and objective scientific practices and present the weight of the scientific evidence. The Secretary shall obtain scientific peer review of the draft study.

(b) REPORT TO CONGRESS.—The Secretary shall transmit the results of the study to Congress within 6 months of the enactment of this section.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for activities under this section such sums as are necessary for the completion of the study.

SEC. 1405. NATIONAL PRIORITY PROJECT DESIGNATION.

(a) DESIGNATION OF NATIONAL PRIORITY PROJECTS.—

(1) IN GENERAL.—There is established the National Priority Project Designation (referred to in this section as the "Designation"), which shall be evidenced by a medal bearing the inscription "National Priority Project".

(2) DESIGN AND MATERIALS.—The medal shall be of such design and materials and bear such additional inscriptions as the President may prescribe.

(b) MAKING AND PRESENTATION OF DESIGNATION.—

(1) IN GENERAL.—The President, on the basis of recommendations made by the Secretary, shall annually designate organizations that have—

(A) advanced the field of renewable energy technology and contributed to North American energy independence; and

(B) been certified by the Secretary under subsection (e).

(2) PRESENTATION.—The President shall designate projects with such ceremonies as the President may prescribe.

(3) USE OF DESIGNATION.—An organization that receives a Designation under this section may publicize the Designation of the organization as a National Priority Project in advertising.

(4) CATEGORIES IN WHICH THE DESIGNATION MAY BE GIVEN.—Separate Designations shall be made to qualifying projects in each of the following categories:

(A) Wind and biomass energy generation projects.

(B) Photovoltaic and fuel cell energy generation projects.

(C) Energy efficient building and renewable energy projects.

(D) First-in-Class projects.

(c) SELECTION CRITERIA.—

(1) IN GENERAL.—Certification and selection of the projects to receive the Designation shall be based on criteria established under this subsection.

(2) WIND, BIOMASS, AND BUILDING PROJECTS.—In the case of a wind, biomass, or building project, the project shall demonstrate that the project will install not less than 30 megawatts of renewable energy generation capacity.

(3) SOLAR PHOTOVOLTAIC AND FUEL CELL PROJECTS.—In the case of a solar photovoltaic or fuel cell project, the project shall demonstrate that the project will install not less than 3 megawatts of renewable energy generation capacity.

(4) ENERGY EFFICIENT BUILDING AND RENEWABLE ENERGY PROJECTS.—In the case of an energy efficient building or renewable energy project, in addition to meeting the criteria established under paragraph (2), each building project shall demonstrate that the project will—

(A) comply with third-party certification standards for high-performance, sustainable buildings;

(B) use whole-building integration of energy efficiency and environmental performance design and technology, including advanced building controls;

(C) use renewable energy for at least 50 percent of the energy consumption of the project;

(D) comply with applicable Energy Star standards; and

(E) include at least 5,000,000 square feet of enclosed space.

(5) FIRST-IN-CLASS USE.—Notwithstanding paragraphs (2) through (4), a new building project may qualify under this section if the Secretary determines that the project—

(A) represents a First-In-Class use of renewable energy; or

(B) otherwise establishes a new paradigm of building integrated renewable energy use or energy efficiency.

(d) APPLICATION.—

(1) INITIAL APPLICATIONS.—No later than 120 days after the date of enactment of this Act, and annually thereafter, the Secretary shall publish in the Federal Register an invitation and guidelines for submitting applications, consistent with this section.

(2) CONTENTS.—The application shall describe the project, or planned project, and the plans to meet the criteria established under subsection (c).

(e) CERTIFICATION.—

(1) IN GENERAL.—Not later than 60 days after the application period described in subsection (d), and annually thereafter, the Secretary shall certify projects that are reasonably expected to meet the criteria established under subsection (c).

(2) CERTIFIED PROJECTS.—The Secretary shall designate personnel of the Department to work with persons carrying out each certified project and ensure that the personnel—

(A) provide each certified project with guidance in meeting the criteria established under subsection (c);

(B) identify programs of the Department, including National Laboratories and Technology Centers, that will assist each project in meeting the criteria established under subsection (c); and

(C) ensure that knowledge and transfer of the most current technology between the applicable resources of the Federal Government (including the National Laboratories and Technology Centers, the Department, and the Environmental Protection Agency) and the certified projects is being facilitated to accelerate commercialization of work developed through those resources.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section for each of fiscal years 2006 through 2010.

SEC. 1406. COLD CRACKING.

(a) STUDY.—The Secretary shall conduct a study of the application of radiation to petroleum at standard temperature and pressure to refine petroleum products, whose objective shall be to increase the economic yield from each barrel of oil.

(b) GOALS.—The goals of the study shall include—

(1) increasing the value of our current oil supply;

(2) reducing the capital investment cost for cracking oil;

(3) reducing the operating energy cost for cracking oil; and

(4) reducing sulfur content using an environmentally responsible method.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section $250,000 for fiscal year 2006.

SEC. 1407. OXYGEN-FUEL.

(a) PROGRAM.—The Secretary shall establish a program on oxygen-fuel systems. If feasible, the program shall include renovation of at least one existing large unit and one existing small unit, and construction of one new large unit and one new small unit.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section—

(1) $100,000,000 for fiscal year 2006;

(2) $100,000,000 for fiscal year 2007; and

(3) $100,000,000 for fiscal year 2008.

(c) DEFINITIONS.—For purposes of this section—

(1) the term "large unit" means a unit with a generating capacity of 100 megawatts or more;

(2) the term "oxygen-fuel systems" means systems that utilize fuel efficiency benefits of oil, gas, coal, and biomass combustion using substantially pure oxygen, with high flame temperatures and the exclusion of air from the boiler, in industrial or electric utility steam generating units; and

(3) the term "small unit" means a unit with a generating capacity in the 10-50 megawatt range.

Subtitle B—Set America Free

SEC. 1421. SHORT TITLE.

This subtitle may be cited as the "Set America Free Act of 2005" or the "SAFE Act".

SEC. 1422. PURPOSE.

The purpose of this subtitle is to establish a United States commission to make recommendations for a coordinated and comprehensive North American energy policy that will achieve energy self-sufficiency by 2025 within the three contiguous North American nation area of Canada, Mexico, and the United States.

SEC. 1423. UNITED STATES COMMISSION ON NORTH AMERICAN ENERGY FREEDOM.

(a) ESTABLISHMENT.—There is hereby established the United States Commission on North American Energy Freedom (in this subtitle referred to as the "Commission"). The Federal Advisory Committee Act (5 U.S.C. App.), except sections 3, 7, and 12, does not apply to the Commission.

(b) MEMBERSHIP.—

(1) APPOINTMENT.—The Commission shall be composed of 16 members appointed by the President from among individuals described in paragraph (2) who are knowledgeable on energy issues, including oil and gas exploration and production, crude oil refining, oil and gas pipelines, electricity production and transmission, coal, unconventional hydrocarbon resources, fuel cells, motor vehicle power systems, nuclear energy, renewable energy, biofuels, energy efficiency, and energy conservation. The membership of the Commission shall be balanced by area of expertise to the extent consistent with maintaining the highest level of expertise on the Commission. Members of the Commission may be citizens of Canada, Mexico, or the United States, and the President shall ensure that citizens of all three nations are appointed to the Commission.

(2) NOMINATIONS.—The President shall appoint the members of the Commission within 60 days after the effective date of this Act, including individuals nominated as follows:

(A) Four members shall be appointed from amongst individuals independently determined by the President to be qualified for appointment.

(B) Four members shall be appointed from a list of eight individuals who shall be nominated by the majority leader of the Senate in consultation with the chairman of the Committee on Energy and Natural Resources of the Senate.

(C) Four members shall be appointed from a list of eight individuals who shall be nominated by the Speaker of the House of Representatives in consultation with the chairmen of the Committees on Energy and Commerce and Resources of the House of Representatives.

(D) Two members shall be appointed from a list of four individuals who shall be nominated by the minority leader of the Senate in consultation with the ranking Member of the Committee on Energy and Natural Resources of the Senate.

(E) Two members shall be appointed from a list of four individuals who shall be nominated by the minority leader of the House in consultation with the ranking Members of the Committees on Energy and Commerce and Resources of the House of Representatives.

(3) Chairman.—The chairman of the Commission shall be selected by the President. The chairman of the Commission shall be responsible for—

(A) the assignment of duties and responsibilities among staff personnel and their continuing supervision; and

(B) the use and expenditure of funds available to the Commission.

(4) Vacancies.—Any vacancy on the Commission shall be filled in the same manner as the original incumbent was appointed.

(c) Resources.—In carrying out its functions under this section, the Commission—

(1) is authorized to secure directly from any Federal agency or department any information it deems necessary to carry out its functions under this Act, and each such agency or department is authorized to cooperate with the Commission and, to the extent permitted by law, to furnish such information (other than information described in section 552(b)(1)(A) of title 5, United States Code) to the Commission, upon the request of the Commission;

(2) may enter into contracts, subject to the availability of appropriations for contracting, and employ such staff experts and consultants as may be necessary to carry out the duties of the Commission, as provided by section 3109 of title 5, United States Code; and

(3) shall establish a multidisciplinary science and technical advisory panel of experts in the field of energy to assist the Commission in preparing its report, including ensuring that the scientific and technical information considered by the Commission is based on the best scientific and technical information available.

(d) Staffing.—The chairman of the Commission may, without regard to the civil service laws and regulations, appoint and terminate an executive director and such other additional personnel as may be necessary for the Commission to perform its duties. The executive director shall be compensated at a rate not to exceed the rate payable for Level IV of the Executive Schedule under chapter 5136 of title 5, United States Code. The chairman shall select staff from among qualified citizens of Canada, Mexico, and the United States of America.

(e) Meetings.—

(1) Administration.—All meetings of the Commission shall be open to the public, except that a meeting or any portion of it may be closed to the public if it concerns matters or information described in section 552b(c) of title 5, United States Code. Interested persons shall be permitted to appear at open meetings and present oral or written statements on the subject matter of the meeting. The Commission may administer oaths or affirmations to any person appearing before it.

(2) Notice; minutes; public availability of documents.—

(A) Notice.—All open meetings of the Commission shall be preceded by timely public notice in the Federal Register of the time, place, and subject of the meeting.

(B) Minutes.—Minutes of each meeting shall be kept and shall contain a record of the people present, a description of the discussion that occurred, and copies of all statements filed. Subject to section 552 of title 5, United States Code, the minutes and records of all meetings and other documents that were made available to or prepared for the Commission shall be available for public inspection and copying at a single location in the offices of the Commission.

(3) Initial meeting.—The Commission shall hold its first meeting within 30 days after all 16 members have been appointed.

(f) Report.—Within 12 months after the effective date of this Act, the Commission shall submit to Congress and the President a final report of its findings and recommendations regarding North American energy freedom.

(g) Administrative Procedure for Report and Review.—Chapter 5 and chapter 7 of title 5, United States Code, do not apply to the preparation, review, or submission of the report required by subsection (f).

(h) Termination.—The Commission shall cease to exist 90 days after the date on which it submits its final report.

(i) Authorization of Appropriations.—There is authorized to be appropriated to carry out this chapter a total of $10,000,000 for the 2 fiscal-year period beginning with fiscal year 2005, such sums to remain available until expended.

SEC. 1424. NORTH AMERICAN ENERGY FREEDOM POLICY.

Within 90 days after receiving and considering the report and recommendations of the Commission under section 1423, the President shall submit to Congress a statement of proposals to implement or respond to the Commission's recommendations for a coordinated, comprehensive, and long-range national policy to achieve North American energy freedom by 2025.

TITLE XV—ETHANOL AND MOTOR FUELS

Subtitle A—General Provisions

SEC. 1501. RENEWABLE CONTENT OF GASOLINE.

(a) In General.—Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended—

(1) by redesignating subsection (o) as subsection (r); and

(2) by inserting after subsection (n) the following:

"(o) Renewable Fuel Program.—

"(1) Definitions.—In this section:

"(A) Cellulosic biomass ethanol.—The term 'cellulosic biomass ethanol' means ethanol derived from any lignocellulosic or hemicellulosic matter that is available on a renewable or recurring basis, including—

"(i) dedicated energy crops and trees;

"(ii) wood and wood residues;

"(iii) plants;

"(iv) grasses;

"(v) agricultural residues;

"(vi) fibers;

"(vii) animal wastes and other waste materials; and

"(viii) municipal solid waste.

The term also includes any ethanol produced in facilities where animal wastes or other waste materials are digested or otherwise used to displace 90 percent or more of the fossil fuel normally used in the production of ethanol.

"(B) Waste derived ethanol.—The term 'waste derived ethanol' means ethanol derived from—

"(i) animal wastes, including poultry fats and poultry wastes, and other waste materials; or

"(ii) municipal solid waste.

"(C) Renewable fuel.—

"(i) In general.—The term 'renewable fuel' means motor vehicle fuel that—

"(I)(aa) is produced from grain, starch, oilseeds, vegetable, animal, or fish materials including fats, greases, and oils, sugarcane, sugar beets, sugar components, tobacco, potatoes, or other biomass; or

"(bb) is natural gas produced from a biogas source, including a landfill, sewage waste treatment plant, feedlot, or other place where decaying organic material is found; and

"(II) is used to replace or reduce the quantity of fossil fuel present in a fuel mixture used to operate a motor vehicle.

"(ii) Inclusion.—The term 'renewable fuel' includes—

"(I) cellulosic biomass ethanol and 'waste derived ethanol'; and

"(II) biodiesel (as defined in section 312(f) of the Energy Policy Act of 1992 (42 U.S.C. 13220(f))) and any blending components derived from renewable fuel (provided that only the renewable fuel portion of any such blending component shall be considered part of the applicable volume under the renewable fuel program established by this subsection).

"(D) Small refinery.—The term 'small refinery' means a refinery for which the average aggregate daily crude oil throughput for a calendar year (as determined by dividing the aggregate throughput for the calendar year by the number of days in the calendar year) does not exceed 75,000 barrels.

"(2) Renewable fuel program.—

"(A) Regulations.—

"(i) In general.—Not later than 1 year after the date of enactment of this paragraph, the Administrator shall promulgate regulations to ensure that gasoline sold or introduced into commerce in the United States (except in noncontiguous States or territories), on an annual average basis, contains the applicable volume of renewable fuel determined in accordance with subparagraph (B).

"(ii) Noncontiguous state opt-in.—

"(I) In general.—On the petition of a noncontiguous State or territory, the Administrator may allow the renewable fuel program established under this subsection to apply in the noncontiguous State or territory at the same time or any time after the Administrator promulgates regulations under this subparagraph.

"(II) Other actions.—In carrying out this clause, the Administrator may—

"(aa) issue or revise regulations under this paragraph;

"(bb) establish applicable percentages under paragraph (3);

"(cc) provide for the generation of credits under paragraph (5); and

"(dd) take such other actions as are necessary to allow for the application of the renewable fuels program in a noncontiguous State or territory.

"(iii) Provisions of regulations.—Regardless of the date of promulgation, the regulations promulgated under clause (i)—

"(I) shall contain compliance provisions applicable to refineries, blenders, distributors, and importers, as appropriate, to ensure that the requirements of this paragraph are met; but

"(II) shall not—

"(aa) restrict geographic areas in which renewable fuel may be used; or

"(bb) impose any per-gallon obligation for the use of renewable fuel.

"(iv) Requirement in case of failure to promulgate regulations.—If the Administrator does not promulgate regulations under clause (i), the percentage of renewable fuel in gasoline sold or dispensed to consumers in the United States, on a volume basis, shall be 2.78 percent for calendar year 2006.

"(B) Applicable volume.—

"(i) CALENDAR YEARS 2006 THROUGH 2012.—For the purpose of subparagraph (A), the applicable volume for any of calendar years 2006 through 2012 shall be determined in accordance with the following table:

"Calendar year:	***Applicable volume of renewable fuel (in billions of gallons):***
2006	*4.0*
2007	*4.7*
2008	*5.4*
2009	*6.1*
2010	*6.8*
2011	*7.4*
2012	*7.5.*

"(ii) CALENDAR YEAR 2013 AND THEREAFTER.—Subject to clauses (iii) and (iv), for the purposes of subparagraph (A), the applicable volume for calendar year 2013 and each calendar year thereafter shall be determined by the Administrator, in coordination with the Secretary of Agriculture and the Secretary of Energy, based on a review of the implementation of the program during calendar years 2006 through 2012, including a review of—

"(I) the impact of the use of renewable fuels on the environment, air quality, energy security, job creation, and rural economic development; and

"(II) the expected annual rate of future production of renewable fuels, including cellulosic ethanol.

"(iii) MINIMUM QUANTITY DERIVED FROM CELLULOSIC BIOMASS.—For calendar year 2013 and each calendar year thereafter—

"(I) the applicable volume referred to in clause (ii) shall contain a minimum of 250,000,000 gallons that are derived from cellulosic biomass; and

"(II) the 2.5-to-1 ratio referred to in paragraph (4) shall not apply.

"(iv) MINIMUM APPLICABLE VOLUME.—For the purpose of subparagraph (A), the applicable volume for calendar year 2013 and each calendar year thereafter shall be equal to the product obtained by multiplying—

"(I) the number of gallons of gasoline that the Administrator estimates will be sold or introduced into commerce in the calendar year; and

"(II) the ratio that—

"(aa) 7,500,000,000 gallons of renewable fuel; bears to

"(bb) the number of gallons of gasoline sold or introduced into commerce in calendar year 2012.

"(3) APPLICABLE PERCENTAGES.—

"(A) PROVISION OF ESTIMATE OF VOLUMES OF GASOLINE SALES.—Not later than October 31 of each of calendar years 2005 through 2011, the Administrator of the Energy Information Administration shall provide to the Administrator of the Environmental Protection Agency an estimate, with respect to the following calendar year, of the volumes of gasoline projected to be sold or introduced into commerce in the United States.

"(B) DETERMINATION OF APPLICABLE PERCENTAGES.—

"(i) IN GENERAL.—Not later than November 30 of each of calendar years 2005 through 2012, based on the estimate provided under subparagraph (A), the Administrator of the Environmental Protection Agency shall determine and publish in the Federal Register, with respect to the following calendar year, the renewable fuel obligation that ensures that the requirements of paragraph (2) are met.

"(ii) REQUIRED ELEMENTS.—The renewable fuel obligation determined for a calendar year under clause (i) shall—

"(I) be applicable to refineries, blenders, and importers, as appropriate;

"(II) be expressed in terms of a volume percentage of gasoline sold or introduced into commerce in the United States; and

"(III) subject to subparagraph (C)(i), consist of a single applicable percentage that applies to all categories of persons specified in subclause (I).

"(C) ADJUSTMENTS.—In determining the applicable percentage for a calendar year, the Administrator shall make adjustments—

"(i) to prevent the imposition of redundant obligations on any person specified in subparagraph (B)(ii)(I); and

"(ii) to account for the use of renewable fuel during the previous calendar year by small refineries that are exempt under paragraph (9).

"(4) CELLULOSIC BIOMASS ETHANOL OR WASTE DERIVED ETHANOL.—For the purpose of paragraph (2), 1 gallon of cellulosic biomass ethanol or waste derived ethanol shall be considered to be the equivalent of 2.5 gallons of renewable fuel.

"(5) CREDIT PROGRAM.—

"(A) IN GENERAL.—The regulations promulgated under paragraph (2)(A) shall provide—

"(i) for the generation of an appropriate amount of credits by any person that refines, blends, or imports gasoline that contains a quantity of renewable fuel that is greater than the quantity required under paragraph (2);

"(ii) for the generation of an appropriate amount of credits for biodiesel; and

"(iii) for the generation of credits by small refineries in accordance with paragraph (9)(C).

"(B) USE OF CREDITS.—A person that generates credits under subparagraph (A) may use the credits, or transfer all or a portion of the credits to another person, for the purpose of complying with paragraph (2).

"(C) DURATION OF CREDITS.—A credit generated under this paragraph shall be valid to show compliance for the 12 months as of the date of generation.

"(D) INABILITY TO GENERATE OR PURCHASE SUFFICIENT CREDITS.—The regulations promulgated under paragraph (2)(A) shall include provisions allowing any person that is unable to generate or purchase sufficient credits to meet the requirements of paragraph (2) to carry forward a renewable fuel deficit on condition that the person, in the calendar year following the year in which the renewable fuel deficit is created—

"(i) achieves compliance with the renewable fuel requirement under paragraph (2); and

"(ii) generates or purchases additional renewable fuel credits to offset the renewable fuel deficit of the previous year.

"(6) SEASONAL VARIATIONS IN RENEWABLE FUEL USE.—

"(A) STUDY.—For each of calendar years 2006 through 2012, the Administrator of the Energy Information Administration shall conduct a study of renewable fuel blending to determine whether there are excessive seasonal variations in the use of renewable fuel.

"(B) REGULATION OF EXCESSIVE SEASONAL VARIATIONS.—If, for any calendar year, the Administrator of the Energy Information Administration, based on the study under subparagraph (A), makes the determinations specified in subparagraph (C), the Administrator of the Environmental Protection Agency shall promulgate regulations to ensure that 25 percent or more of the quantity of renewable fuel necessary to meet the requirements of paragraph (2) is used during each of the 2 periods specified in subparagraph (D) of each subsequent calendar year.

"(C) DETERMINATIONS.—The determinations referred to in subparagraph (B) are that—

"(i) less than 25 percent of the quantity of renewable fuel necessary to meet the requirements of paragraph (2) has been used during 1 of the 2 periods specified in subparagraph (D) of the calendar year;

"(ii) a pattern of excessive seasonal variation described in clause (i) will continue in subsequent calendar years; and

"(iii) promulgating regulations or other requirements to impose a 25 percent or more seasonal use of renewable fuels will not prevent or interfere with the attainment of national ambient air quality standards or significantly increase the price of motor fuels to the consumer.

"(D) PERIODS.—The 2 periods referred to in this paragraph are—

"(i) April through September; and

"(ii) January through March and October through December.

"(E) EXCLUSION.—Renewable fuel blended or consumed in calendar year 2006 in a State that has received a waiver under section 209(b) shall not be included in the study under subparagraph (A).

"(F) STATE EXEMPTION FROM SEASONALITY REQUIREMENTS.—Notwithstanding any other provision of law, the seasonality requirement relating to renewable fuel use established by this paragraph shall not apply to any State that has received a waiver under section 209(b) or any State dependent on refineries in such State for gasoline supplies.

"(7) WAIVERS.—

"(A) IN GENERAL.—The Administrator, in consultation with the Secretary of Agriculture and the Secretary of Energy, may waive the requirements of paragraph (2) in whole or in part on petition by 1 or more States by reducing the national quantity of renewable fuel required under paragraph (2)—

"(i) based on a determination by the Administrator, after public notice and opportunity for comment, that implementation of the requirement would severely harm the economy or environment of a State, a region, or the United States; or

"(ii) based on a determination by the Administrator, after public notice and opportunity for comment, that there is an inadequate domestic supply.

"(B) PETITIONS FOR WAIVERS.—The Administrator, in consultation with the Secretary of Agriculture and the Secretary of Energy, shall approve or disapprove a State petition for a waiver of the requirements of paragraph (2) within 90 days after the date on which the petition is received by the Administrator.

"(C) TERMINATION OF WAIVERS.—A waiver granted under subparagraph (A) shall terminate after 1 year, but may be renewed by the Administrator after consultation with the Secretary of Agriculture and the Secretary of Energy.

"(8) STUDY AND WAIVER FOR INITIAL YEAR OF PROGRAM.—

"(A) IN GENERAL.—Not later than 180 days after the date of enactment of this paragraph, the Secretary of Energy shall conduct for the Administrator a study assessing whether the renewable fuel requirement under paragraph (2) will likely result in significant adverse impacts on consumers in 2006, on a national, regional, or State basis.

"(B) REQUIRED EVALUATIONS.—The study shall evaluate renewable fuel—

"(i) supplies and prices;

"(ii) blendstock supplies; and

"(iii) supply and distribution system capabilities.

"(C) RECOMMENDATIONS BY THE SECRETARY.—Based on the results of the study, the Secretary of Energy shall make specific recommendations to the Administrator concerning waiver of the requirements of paragraph (2), in whole or in part, to prevent any adverse impacts described in subparagraph (A).

"(D) WAIVER.—

"(i) IN GENERAL.—Not later than 270 days after the date of enactment of this paragraph, the Administrator shall, if and to the extent recommended by the Secretary of Energy under subparagraph (C), waive, in whole or in part, the renewable fuel requirement under paragraph (2) by reducing the national quantity of

renewable fuel required under paragraph (2) in calendar year 2006.

"(ii) NO EFFECT ON WAIVER AUTHORITY.—Clause (i) does not limit the authority of the Administrator to waive the requirements of paragraph (2) in whole, or in part, under paragraph (7).

"(9) SMALL REFINERIES.—

"(A) TEMPORARY EXEMPTION.—

"(i) IN GENERAL.—The requirements of paragraph (2) shall not apply to small refineries until calendar year 2011.

"(ii) EXTENSION OF EXEMPTION.—

"(I) STUDY BY SECRETARY OF ENERGY.—Not later than December 31, 2008, the Secretary of Energy shall conduct for the Administrator a study to determine whether compliance with the requirements of paragraph (2) would impose a disproportionate economic hardship on small refineries.

"(II) EXTENSION OF EXEMPTION.—In the case of a small refinery that the Secretary of Energy determines under subclause (I) would be subject to a disproportionate economic hardship if required to comply with paragraph (2), the Administrator shall extend the exemption under clause (i) for the small refinery for a period of not less than 2 additional years.

"(B) PETITIONS BASED ON DISPROPORTIONATE ECONOMIC HARDSHIP.—

"(i) EXTENSION OF EXEMPTION.—A small refinery may at any time petition the Administrator for an extension of the exemption under subparagraph (A) for the reason of disproportionate economic hardship.

"(ii) EVALUATION OF PETITIONS.—In evaluating a petition under clause (i), the Administrator, in consultation with the Secretary of Energy, shall consider the findings of the study under subparagraph (A)(ii) and other economic factors.

"(iii) DEADLINE FOR ACTION ON PETITIONS.—The Administrator shall act on any petition submitted by a small refinery for a hardship exemption not later than 90 days after the date of receipt of the petition.

"(C) CREDIT PROGRAM.—If a small refinery notifies the Administrator that the small refinery waives the exemption under subparagraph (A), the regulations promulgated under paragraph (2)(A) shall provide for the generation of credits by the small refinery under paragraph (5) beginning in the calendar year following the date of notification.

"(D) OPT-IN FOR SMALL REFINERIES.—A small refinery shall be subject to the requirements of paragraph (2) if the small refinery notifies the Administrator that the small refinery waives the exemption under subparagraph (A).

"(10) ETHANOL MARKET CONCENTRATION ANALYSIS.—

"(A) ANALYSIS.—

"(i) IN GENERAL.—Not later than 180 days after the date of enactment of this paragraph, and annually thereafter, the Federal Trade Commission shall perform a market concentration analysis of the ethanol production industry using the Herfindahl-Hirschman Index to determine whether there is sufficient competition among industry participants to avoid price-setting and other anticompetitive behavior.

"(ii) SCORING.—For the purpose of scoring under clause (i) using the Herfindahl-Hirschman Index, all marketing arrangements among industry participants shall be considered.

"(B) REPORT.—Not later than December 1, 2005, and annually thereafter, the Federal Trade Commission shall submit to Congress and the Administrator a report on the results of the market concentration analysis performed under subparagraph (A)(i).".

(b) PENALTIES AND ENFORCEMENT.—Section 211(d) of the Clean Air Act (42 U.S.C. 7545(d)) is amended—

(1) in paragraph (1)—

(A) in the first sentence, by striking "or (n)" each place it appears and inserting "(n), or (o)"; and

(B) in the second sentence, by striking "or (m)" and inserting "(m), or (o)"; and

(2) in the first sentence of paragraph (2), by striking "and (n)" each place it appears and inserting "(n), and (o)".

(c) EXCLUSION FROM ETHANOL WAIVER.—Section 211(h) of the Clean Air Act (42 U.S.C. 7545(h)) is amended—

(1) by redesignating paragraph (5) as paragraph (6); and

(2) by inserting after paragraph (4) the following:

"(5) EXCLUSION FROM ETHANOL WAIVER.—

"(A) PROMULGATION OF REGULATIONS.—Upon notification, accompanied by supporting documentation, from the Governor of a State that the Reid vapor pressure limitation established by paragraph (4) will increase emissions that contribute to air pollution in any area in the State, the Administrator shall, by regulation, apply, in lieu of the Reid vapor pressure limitation established by paragraph (4), the Reid vapor pressure limitation established by paragraph (1) to all fuel blends containing gasoline and 10 percent denatured anhydrous ethanol that are sold, offered for sale, dispensed, supplied, offered for supply, transported, or introduced into commerce in the area during the high ozone season.

"(B) DEADLINE FOR PROMULGATION.—The Administrator shall promulgate regulations under subparagraph (A) not later than 90 days after the date of receipt of a notification from a Governor under that subparagraph.

"(C) EFFECTIVE DATE.—

"(i) IN GENERAL.—With respect to an area in a State for which the Governor submits a notification under subparagraph (A), the regulations under that subparagraph shall take effect on the later of—

"(I) the first day of the first high ozone season for the area that begins after the date of receipt of the notification; or

"(II) 1 year after the date of receipt of the notification.

"(ii) EXTENSION OF EFFECTIVE DATE BASED ON DETERMINATION OF INSUFFICIENT SUPPLY.—

"(I) IN GENERAL.—If, after receipt of a notification with respect to an area from a Governor of a State under subparagraph (A), the Administrator determines, on the Administrator's own motion or on petition of any person and after consultation with the Secretary of Energy, that the promulgation of regulations described in subparagraph (A) would result in an insufficient supply of gasoline in the State, the Administrator, by regulation—

"(aa) shall extend the effective date of the regulations under clause (i) with respect to the area for not more than 1 year; and

"(bb) may renew the extension under item (aa) for 2 additional periods, each of which shall not exceed 1 year.

"(II) DEADLINE FOR ACTION ON PETITIONS.—The Administrator shall act on any petition submitted under subclause (I) not later than 180 days after the date of receipt of the petition.".

(d) SURVEY OF RENEWABLE FUEL MARKET.—

(1) SURVEY AND REPORT.—Not later than December 1, 2006, and annually thereafter, the Administrator of the Environmental Protection Agency (in consultation with the Secretary acting through the Administrator of the Energy Information Administration) shall—

(A) conduct, with respect to each conventional gasoline use area and each reformulated gasoline use area in each State, a survey to determine the market shares of—

(i) conventional gasoline containing ethanol;

(ii) reformulated gasoline containing ethanol;

(iii) conventional gasoline containing renewable fuel; and

(iv) reformulated gasoline containing renewable fuel; and

(B) submit to Congress, and make publicly available, a report on the results of the survey under subparagraph (A).

(2) RECORDKEEPING AND REPORTING REQUIREMENTS.—The Administrator of the Environmental Protection Agency (hereinafter in this subsection referred to as the "Administrator") may require any refiner, blender, or importer to keep such records and make such reports as are necessary to ensure that the survey conducted under paragraph (1) is accurate. The Administrator, to avoid duplicative requirements, shall rely, to the extent practicable, on existing reporting and recordkeeping requirements and other information available to the Administrator including gasoline distribution patterns that include multistate use areas.

(3) APPLICABLE LAW.—Activities carried out under this subsection shall be conducted in a manner designed to protect confidentiality of individual responses.

SEC. 1502. FINDINGS.

Congress finds that—

(1) since 1979, methyl tertiary butyl ether (hereinafter in this section referred to as "MTBE") has been used nationwide at low levels in gasoline to replace lead as an octane booster or anti-knocking agent;

(2) Public Law 101-549 (commonly known as the "Clean Air Act Amendments of 1990") (42 U.S.C. 7401 et seq.) established a fuel oxygenate standard under which reformulated gasoline must contain at least 2 percent oxygen by weight; and

(3) the fuel industry responded to the fuel oxygenate standard established by Public Law 101-549 by making substantial investments in—

(A) MTBE production capacity; and

(B) systems to deliver MTBE-containing gasoline to the marketplace.

SEC. 1503. CLAIMS FILED AFTER ENACTMENT.

Claims and legal actions filed after the date of enactment of this Act related to allegations involving actual or threatened contamination of methyl tertiary butyl ether (MTBE) may be removed to the appropriate United States district court.

SEC. 1504. ELIMINATION OF OXYGEN CONTENT REQUIREMENT FOR REFORMULATED GASOLINE.

(a) ELIMINATION.—

(1) IN GENERAL.—Section 211(k) of the Clean Air Act (42 U.S.C. 7545(k)) is amended—

(A) in paragraph (2)—

(i) in the second sentence of subparagraph (A), by striking "(including the oxygen content requirement contained in subparagraph (B))";

(ii) by striking subparagraph (B); and

(iii) by redesignating subparagraphs (C) and (D) as subparagraphs (B) and (C), respectively;

(B) in paragraph (3)(A), by striking clause (v); and

(C) in paragraph (7)—

(i) in subparagraph (A)—

(I) by striking clause (i); and

(II) by redesignating clauses (ii) and (iii) as clauses (i) and (ii), respectively; and

(ii) in subparagraph (C)—

(I) by striking clause (ii); and

(II) by redesignating clause (iii) as clause (ii).

(2) APPLICABILITY.—The amendments made by paragraph (1) apply—

(A) in the case of a State that has received a waiver under section 209(b) of the Clean Air Act (42 U.S.C. 7543(b)), beginning on the date of enactment of this Act; and

(B) in the case of any other State, beginning 270 days after the date of enactment of this Act.

(b) MAINTENANCE OF TOXIC AIR POLLUTANT EMISSION REDUCTIONS.—Section 211(k)(1) of the Clean Air Act (42 U.S.C. 7545(k)(1)) is amended—

(1) by striking "Within 1 year after the enactment of the Clean Air Act Amendments of 1990," and inserting the following:

"(A) IN GENERAL.—Not later than November 15, 1991,"; and

(2) by adding at the end the following:

"(B) MAINTENANCE OF TOXIC AIR POLLUTANT EMISSIONS REDUCTIONS FROM REFORMULATED GASOLINE.—

"(i) DEFINITION OF PADD.—In this subparagraph the term 'PADD' means a Petroleum Administration for Defense District.

"(ii) REGULATIONS CONCERNING EMISSIONS OF TOXIC AIR POLLUTANTS.—Not later than 270 days after the date of enactment of this subparagraph, the Administrator shall establish by regulation, for each refinery or importer (other than a refiner or importer in a State that has received a waiver under section 209(b) with respect to gasoline produced for use in that State), standards for toxic air pollutants from use of the reformulated gasoline produced or distributed by the refiner or importer that maintain the reduction of the average annual aggregate emissions of toxic air pollutants for reformulated gasoline produced or distributed by the refiner or importer during calendar years 2001 and 2002 (as determined on the basis of data collected by the Administrator with respect to the refiner or importer).

"(iii) STANDARDS APPLICABLE TO SPECIFIC REFINERIES OR IMPORTERS.—

"(I) APPLICABILITY OF STANDARDS.—For any calendar year, the standards applicable to a refiner or importer under clause (ii) shall apply to the quantity of gasoline produced or distributed by the refiner or importer in the calendar year only to the extent that the quantity is less than or equal to the average annual quantity of reformulated gasoline produced or distributed by the refiner or importer during calendar years 2001 and 2002.

"(II) APPLICABILITY OF OTHER STANDARDS.—For any calendar year, the quantity of gasoline produced or distributed by a refiner or importer that is in excess of the quantity subject to subclause (I) shall be subject to standards for emissions of toxic air pollutants promulgated under subparagraph (A) and paragraph (3)(B).

"(iv) CREDIT PROGRAM.—The Administrator shall provide for the granting and use of credits for emissions of toxic air pollutants in the same manner as provided in paragraph (7).

"(v) REGIONAL PROTECTION OF TOXICS REDUCTION BASELINES.—

"(I) IN GENERAL.—Not later than 60 days after the date of enactment of this subparagraph, and not later than April 1 of each calendar year that begins after that date of enactment, the Administrator shall publish in the Federal Register a report that specifies, with respect to the previous calendar year—

"(aa) the quantity of reformulated gasoline produced that is in excess of the average annual quantity of reformulated gasoline produced in 2001 and 2002; and

"(bb) the reduction of the average annual aggregate emissions of toxic air pollutants in each PADD, based on retail survey data or data from other appropriate sources.

"(II) EFFECT OF FAILURE TO MAINTAIN AGGREGATE TOXICS REDUCTIONS.—If, in any calendar year, the reduction of the average annual aggregate emissions of toxic air pollutants in a PADD fails to meet or exceed the reduction of the average annual aggregate emissions of toxic air pollutants in the PADD in calendar years 2001 and 2002, the Administrator, not later than 90 days after the date of publication of the report for the calendar year under subclause (I), shall—

"(aa) identify, to the maximum extent practicable, the reasons for the failure, including the sources, volumes, and characteristics of reformulated gasoline that contributed to the failure; and

"(bb) promulgate revisions to the regulations promulgated under clause (ii), to take effect not earlier than 180 days but not later than 270 days after the date of promulgation, to provide that, notwithstanding clause (iii)(II), all reformulated gasoline produced or distributed at each refiner or importer shall meet the standards applicable under clause (iii)(I) beginning not later than April 1 of the calendar year following publication of the report under subclause (I) and in each calendar year thereafter.

"(vi) Not later than July 1, 2007, the Administrator shall promulgate final regulations to control hazardous air pollutants from motor vehicles and motor vehicle fuels, as provided for in section 80.1045 of title 40, Code of Federal Regulations (as in effect on the date of enactment of this subparagraph), and as authorized under section 202(l) of the Clean Air Act. If the Administrator promulgates by such date, final regulations to control hazardous air pollutants from motor vehicles and motor vehicle fuels that achieve and maintain greater overall reductions in emissions of air toxics from reformulated gasoline than the reductions that would be achieved under section 211(k)(1)(B) of the Clean Air Act as amended by this clause, then sections 211(k)(1)(B)(i) through 211(k)(1)(B)(v) shall be null and void and regulations promulgated thereunder shall be rescinded and have no further effect.".

(c) CONSOLIDATION IN REFORMULATED GASOLINE REGULATIONS.—Not later than 180 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency shall revise the reformulated gasoline regulations under subpart D of part 80 of title 40, Code of Federal Regulations, to consolidate the regulations applicable to VOC-Control Regions 1 and 2 under section 80.41 of that title by eliminating the less stringent requirements applicable to gasoline designated for VOC-Control Region 2 and instead applying the more stringent requirements applicable to gasoline designated for VOC-Control Region 1.

(d) SAVINGS CLAUSE.—

(1) IN GENERAL.—Nothing in this section or any amendment made by this section affects or prejudices any legal claim or action with respect to regulations promulgated by the Administrator before the date of enactment of this Act regarding—

(A) emissions of toxic air pollutants from motor vehicles; or

(B) the adjustment of standards applicable to a specific refinery or importer made under those regulations.

(2) ADJUSTMENT OF STANDARDS.—

(A) APPLICABILITY.—The Administrator may apply any adjustments to the standards applicable to a refinery or importer under subparagraph (B)(iii)(I) of section 211(k)(1) of the Clean Air Act (as added by subsection (b)(2)), except that—

(i) the Administrator shall revise the adjustments to be based only on calendar years 1999 and 2000;

(ii) any such adjustment shall not be made at a level below the average percentage of reductions of emissions of toxic air pollutants for reformulated gasoline supplied to PADD I during calendar years 1999 and 2000; and

(iii) in the case of an adjustment based on toxic air pollutant emissions from reformulated gasoline significantly below the national annual average emissions of toxic air pollutants from all reformulated gasoline—

(I) the Administrator may revise the adjustment to take account of the scope of the prohibition on methyl tertiary butyl ether imposed by a State; and

(II) any such adjustment shall require the refiner or importer, to the maximum extent practicable, to maintain the reduction achieved during calendar years 1999 and 2000 in the average annual aggregate emissions of toxic air pollutants from reformulated gasoline produced or distributed by the refiner or importer.

SEC. 1505. PUBLIC HEALTH AND ENVIRONMENTAL IMPACTS OF FUELS AND FUEL ADDITIVES.

Section 211(b) of the Clean Air Act (42 U.S.C. 7545(b)) is amended—

(1) in paragraph (2)—

(A) by striking "may also" and inserting "shall, on a regular basis,"; and

(B) by striking subparagraph (A) and inserting the following:

"(A) to conduct tests to determine potential public health and environmental effects of the fuel or additive (including carcinogenic, teratogenic, or mutagenic effects); and"; and

(2) by adding at the end the following:

"(4) STUDY ON CERTAIN FUEL ADDITIVES AND BLENDSTOCKS.—

"(A) IN GENERAL.—Not later than 2 years after the date of enactment of this paragraph, the Administrator shall—

"(i) conduct a study on the effects on public health (including the effects on children, pregnant women, minority or low-income communities, and other sensitive populations), air quality, and water resources of increased use of, and the feasibility of using as substitutes for methyl tertiary butyl ether in gasoline—

"(I) ethyl tertiary butyl ether;

"(II) tertiary amyl methyl ether;

"(III) di-isopropyl ether;

"(IV) tertiary butyl alcohol;

"(V) other ethers and heavy alcohols, as determined by then Administrator;

"(VI) ethanol;

"(VII) iso-octane; and

"(VIII) alkylates; and

"(ii) conduct a study on the effects on public health (including the effects on children, pregnant women, minority or low-income communities, and other sensitive populations), air quality, and water resources of the adjustment for ethanol-blended reformulated gasoline to the volatile organic compounds performance requirements that are applicable under paragraphs (1) and (3) of section 211(k); and

"(iii) submit to the Committee on Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House of Representatives a report describing the results of the studies under clauses (i) and (ii).

"(B) CONTRACTS FOR STUDY.—In carrying out this paragraph, the Administrator may enter into 1 or more contracts with nongovernmental entities such as—

"(i) the national energy laboratories; and

"(ii) institutions of higher education (as defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)).".

SEC. 1506. ANALYSES OF MOTOR VEHICLE FUEL CHANGES.

Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended by inserting after subsection (p) the following:

"(q) ANALYSES OF MOTOR VEHICLE FUEL CHANGES AND EMISSIONS MODEL.—

"(1) ANTI-BACKSLIDING ANALYSIS.—

"(A) DRAFT ANALYSIS.—Not later than 4 years after the date of enactment of this paragraph, the Administrator shall publish for public comment a draft analysis of the changes in emissions of air pollutants and air quality due to the use of motor vehicle fuel and fuel additives resulting from implementation of the amendments made by the Energy Policy Act of 2005.

"(B) FINAL ANALYSIS.—After providing a reasonable opportunity for comment but not later than 5 years after the date of enactment of this paragraph, the Administrator shall publish the analysis in final form.

"(2) EMISSIONS MODEL.—For the purposes of this section, not later than 4 years after the date of enactment of this paragraph, the Administrator shall develop and finalize an emissions model that reflects, to the maximum extent practicable, the effects of gasoline characteristics or components on emissions from vehicles in the motor vehicle fleet during calendar year 2007.

"(3) PERMEATION EFFECTS STUDY.—

"(A) IN GENERAL.—Not later than 1 year after the date of enactment of this paragraph, the Administrator shall conduct a study, and report to Congress the results of the study, on the effects of ethanol content in gasoline on permeation, the process by which fuel molecules migrate through the elastomeric materials (rubber and plastic parts) that make up the fuel and fuel vapor systems of a motor vehicle.

"(B) EVAPORATIVE EMISSIONS.—The study shall include estimates of the increase in total evaporative emissions likely to result from the use of gasoline with ethanol content in a motor vehicle, and the fleet of motor vehicles, due to permeation.".

SEC. 1507. ADDITIONAL OPT-IN AREAS UNDER REFORMULATED GASOLINE PROGRAM.

Section 211(k)(6) of the Clean Air Act (42 U.S.C. 7545(k)(6)) is amended—

(1) by striking "(6) OPT-IN AREAS.—(A) Upon" and inserting the following:

"(6) OPT-IN AREAS.—

"(A) CLASSIFIED AREAS.—

"(i) IN GENERAL.—Upon";

(2) in subparagraph (B), by striking "(B) If" and inserting the following:

"(ii) EFFECT OF INSUFFICIENT DOMESTIC CAPACITY TO PRODUCE REFORMULATED GASOLINE.—If";

(3) in subparagraph (A)(ii) (as redesignated by paragraph (2))—

(A) in the first sentence, by striking "subparagraph (A)" and inserting "clause (i)"; and

(B) in the second sentence, by striking "this paragraph" and inserting "this subparagraph"; and

(4) by adding at the end the following:

"(B) OZONE TRANSPORT REGION.—

"(i) APPLICATION OF PROHIBITION.—

"(I) IN GENERAL.—On application of the Governor of a State in the ozone transport region established by section 184(a), the Administrator, not later than 180 days after the date of receipt of the application, shall apply the prohibition specified in paragraph (5) to any area in the State (other than an area classified as a marginal, moderate, serious, or severe ozone nonattainment area under subpart 2 of part D of title I) unless the Administrator determines under clause (iii) that there is insufficient capacity to supply reformulated gasoline.

"(II) PUBLICATION OF APPLICATION.—As soon as practicable after the date of receipt of an application under subclause (I), the Administrator shall publish the application in the Federal Register.

"(ii) PERIOD OF APPLICABILITY.—Under clause (i), the prohibition specified in paragraph (5) shall apply in a State—

"(I) commencing as soon as practicable but not later than 2 years after the date of approval by the Administrator of the application of the Governor of the State; and

"(II) ending not earlier than 4 years after the commencement date determined under subclause (I).

"(iii) EXTENSION OF COMMENCEMENT DATE BASED ON INSUFFICIENT CAPACITY.—

"(I) IN GENERAL.—If, after receipt of an application from a Governor of a State under clause (i), the Administrator determines, on the Administrator's own motion or on petition of any person, after consultation with the Secretary of Energy, that there is insufficient capacity to supply reformulated gasoline, the Administrator, by regulation—

"(aa) shall extend the commencement date with respect to the State under clause (ii)(I) for not more than 1 year; and

"(bb) may renew the extension under item (aa) for 2 additional periods, each of which shall not exceed 1 year.

"(II) DEADLINE FOR ACTION ON PETITIONS.—The Administrator shall act on any petition submitted under subclause (I) not later than 180 days after the date of receipt of the petition.".

SEC. 1508. DATA COLLECTION.

Section 205 of the Department of Energy Organization Act (42 U.S.C. 7135) is amended by adding at the end the following:

"(m) RENEWABLE FUELS SURVEY.—(1) In order to improve the ability to evaluate the effectiveness of the Nation's renewable fuels mandate, the Administrator shall conduct and publish the results of a survey of renewable fuels demand in the motor vehicle fuels market in the United States monthly, and in a manner designed to protect the confidentiality of individual responses. In conducting the survey, the Administrator shall collect information both on a national and regional basis, including each of the following:

"(A) The quantity of renewable fuels produced.

"(B) The quantity of renewable fuels blended.

"(C) The quantity of renewable fuels imported.

"(D) The quantity of renewable fuels demanded.

"(E) Market price data.

"(F) Such other analyses or evaluations as the Administrator finds are necessary to achieve the purposes of this section.

"(2) The Administrator shall also collect or estimate information both on a national and regional basis, pursuant to subparagraphs (A) through (F) of paragraph (1), for the 5 years prior to implementation of this subsection.

"(3) This subsection does not affect the authority of the Administrator to collect data under section 52 of the Federal Energy Administration Act of 1974 (15 U.S.C. 790a).".

SEC. 1509. FUEL SYSTEM REQUIREMENTS HARMONIZATION STUDY.

(a) STUDY.—

(1) IN GENERAL.—The Administrator of the Environmental Protection Agency and the Secretary shall jointly conduct a study of Federal, State, and local requirements concerning motor vehicle fuels, including—

(A) requirements relating to reformulated gasoline, volatility (measured in Reid vapor pressure), oxygenated fuel, and diesel fuel; and

(B) other requirements that vary from State to State, region to region, or locality to locality.

(2) REQUIRED ELEMENTS.—The study shall assess—

(A) the effect of the variety of requirements described in paragraph (1) on the supply, quality, and price of motor vehicle fuels available to the consumer;

(B) the effect of the requirements described in paragraph (1) on achievement of—

(i) national, regional, and local air quality standards and goals; and

(ii) related environmental and public health protection standards and goals (including the protection of children, pregnant women, minority or low-income communities, and other sensitive populations);

(C) the effect of Federal, State, and local motor vehicle fuel regulations, including multiple motor vehicle fuel requirements, on—

(i) domestic refiners;

(ii) the fuel distribution system; and

(iii) industry investment in new capacity;

(D) the effect of the requirements described in paragraph (1) on emissions from vehicles, refiners, and fuel handling facilities;

(E) the feasibility of developing national or regional motor vehicle fuel slates for the 48 contiguous States that, while protecting and improving air quality at the national, regional, and local levels, could—

(i) enhance flexibility in the fuel distribution infrastructure and improve fuel fungibility;

(ii) reduce price volatility and costs to consumers and producers;

(iii) provide increased liquidity to the gasoline market; and

(iv) enhance fuel quality, consistency, and supply;

(F) the feasibility of providing incentives, and the need for the development of national standards necessary, to promote cleaner burning motor vehicle fuel; and

(G) the extent to which improvements in air quality and any increases or decreases in the price of motor fuel can be projected to result from the Environmental Protection Agency's Tier II requirements for conventional gasoline and vehicle emission systems, on-road and off-road diesel rules, the reformulated gasoline program, the renewable content requirements established by this subtitle, State programs regarding gasoline volatility, and any other requirements imposed by the Federal Government, States or localities affecting the composition of motor fuel.

(b) REPORT.—

(1) IN GENERAL.—Not later than June 1, 2008, the Administrator of the Environmental Protection Agency and the Secretary shall submit to Congress a report on the results of the study conducted under subsection (a).

(2) RECOMMENDATIONS.—

(A) IN GENERAL.—The report shall contain recommendations for legislative and administrative actions that may be taken—

(i) to improve air quality;

(ii) to reduce costs to consumers and producers; and

(iii) to increase supply liquidity.

(B) REQUIRED CONSIDERATIONS.—The recommendations under subparagraph (A) shall take into account the need to provide advance notice of required modifications to refinery and fuel distribution systems in order to ensure an adequate supply of motor vehicle fuel in all States.

(3) CONSULTATION.—In developing the report, the Administrator of the Environmental Protection Agency and the Secretary shall consult with—

(A) the Governors of the States;

(B) automobile manufacturers;

(C) State and local air pollution control regulators;

(D) public health experts;

(E) motor vehicle fuel producers and distributors; and

(F) the public.

SEC. 1510. COMMERCIAL BYPRODUCTS FROM MUNICIPAL SOLID WASTE AND CELLULOSIC BIOMASS LOAN GUARANTEE PROGRAM.

(a) DEFINITION OF MUNICIPAL SOLID WASTE.—In this section, the term "municipal solid waste" has the meaning given the term "solid waste" in section 1004 of the Solid Waste Disposal Act (42 U.S.C. 6903).

(b) ESTABLISHMENT OF PROGRAM.—The Secretary shall establish a program to provide guarantees of loans by private institutions for the construction of facilities for the processing and conversion of municipal solid waste and cellulosic biomass into fuel ethanol and other commercial byproducts.

(c) REQUIREMENTS.—The Secretary may provide a loan guarantee under subsection (b) to an applicant if—

(1) without a loan guarantee, credit is not available to the applicant under reasonable terms or conditions sufficient to finance the construction of a facility described in subsection (b);

(2) the prospective earning power of the applicant and the character and value of the security pledged provide a reasonable assurance of repayment of the loan to be guaranteed in accordance with the terms of the loan; and

(3) the loan bears interest at a rate determined by the Secretary to be reasonable, taking into account the current average yield on outstanding obligations of the United States with remaining periods of maturity comparable to the maturity of the loan.

(d) CRITERIA.—In selecting recipients of loan guarantees from among applicants, the Secretary shall give preference to proposals that—

(1) meet all applicable Federal and State permitting requirements;

(2) are most likely to be successful; and

(3) are located in local markets that have the greatest need for the facility because of—

(A) the limited availability of land for waste disposal;

(B) the availability of sufficient quantities of cellulosic biomass; or

(C) a high level of demand for fuel ethanol or other commercial byproducts of the facility.

(e) MATURITY.—A loan guaranteed under subsection (b) shall have a maturity of not more than 20 years.

(f) TERMS AND CONDITIONS.—The loan agreement for a loan guaranteed under subsection (b) shall provide that no provision of the loan agreement may be amended or waived without the consent of the Secretary.

(g) ASSURANCE OF REPAYMENT.—The Secretary shall require that an applicant for a loan guarantee under subsection (b) provide an assurance of repayment in the form of a performance bond, insurance, collateral, or other means acceptable to the Secretary in an amount equal to not less than 20 percent of the amount of the loan.

(h) GUARANTEE FEE.—The recipient of a loan guarantee under subsection (b) shall pay the Secretary an amount determined by the Secretary to be sufficient to cover the administrative costs of the Secretary relating to the loan guarantee.

(i) FULL FAITH AND CREDIT.—The full faith and credit of the United States is pledged to the payment of all guarantees made under this section. Any such guarantee made by the Secretary shall be conclusive evidence of the eligibility of the loan for the guarantee with respect to principal and interest. The validity of the guarantee shall be incontestable in the hands of a holder of the guaranteed loan.

(j) REPORTS.—Until each guaranteed loan under this section has been repaid in full, the Secretary shall annually submit to Congress a report on the activities of the Secretary under this section.

(k) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section.

(l) TERMINATION OF AUTHORITY.—The authority of the Secretary to issue a loan guarantee under subsection (b) terminates on the date that is 10 years after the date of enactment of this Act.

SEC. 1511. RENEWABLE FUEL.

The Clean Air Act is amended by inserting after section 211 (42 U.S.C. 7411) the following:

"SEC. 212. RENEWABLE FUEL.

"(a) DEFINITIONS.—In this section:

"(1) MUNICIPAL SOLID WASTE.—The term 'municipal solid waste' has the meaning given the term 'solid waste' in section 1004 of the Solid Waste Disposal Act (42 U.S.C. 6903).

"(2) RFG STATE.—The term 'RFG State' means a State in which is located 1 or more covered areas (as defined in section 211(k)(10)(D)).

"(3) SECRETARY.—The term 'Secretary' means the Secretary of Energy.

"(b) CELLULOSIC BIOMASS ETHANOL AND MUNICIPAL SOLID WASTE LOAN GUARANTEE PROGRAM.—

"(1) IN GENERAL.—Funds may be provided for the cost (as defined in the Federal Credit Reform Act of 1990 (2 U.S.C. 661 et seq.)) of loan guarantees issued under title XIV of the Energy Policy Act to carry out commercial demonstration projects for celluosic biomass and sucrose-derived ethanol.

"(2) DEMONSTRATION PROJECTS.—

"(A) IN GENERAL.—The Secretary shall issue loan guarantees under this section to carry out not more than 4 projects to commercially demonstrate the feasibility and viability of producing cellulosic biomass ethanol or sucrose-derived ethanol, including at least 1 project that uses cereal straw as a feedstock and 1 project that uses municipal solid waste as a feedstock.

"(B) DESIGN CAPACITY.—Each project shall have a design capacity to produce at least 30,000,000 gallons of cellulosic biomass ethanol each year.

"(3) APPLICANT ASSURANCES.—An applicant for a loan guarantee under this section shall provide assurances, satisfactory to the Secretary, that—

"(A) the project design has been validated through the operation of a continuous process facility with a cumulative output of at least 50,000 gallons of ethanol;

"(B) the project has been subject to a full technical review;

"(C) the project is covered by adequate project performance guarantees;

"(D) the project, with the loan guarantee, is economically viable; and

"(E) there is a reasonable assurance of repayment of the guaranteed loan.

"(4) LIMITATIONS.—

"(A) MAXIMUM GUARANTEE.—Except as provided in subparagraph (B), a loan guarantee under this section may be issued for up to 80 percent of the estimated cost of a project, but may not exceed $250,000,000 for a project.

"(B) ADDITIONAL GUARANTEES.—

"(i) IN GENERAL.—The Secretary may issue additional loan guarantees for a project to cover up to 80 percent of the excess of actual project cost over estimated project cost but not to exceed 15 percent of the amount of the original guarantee.

"(ii) PRINCIPAL AND INTEREST.—Subject to subparagraph (A), the Secretary shall guarantee 100 percent of the principal and interest of a loan made under subparagraph (A).

"(5) EQUITY CONTRIBUTIONS.—To be eligible for a loan guarantee under this section, an applicant for the loan guarantee shall have binding commitments from equity investors to provide an initial equity contribution of at least 20 percent of the total project cost.

"(6) INSUFFICIENT AMOUNTS.—If the amount made available to carry out this section is insufficient to allow the Secretary to make loan guarantees for 3 projects described in subsection (b), the Secretary shall issue loan guarantees for 1 or more qualifying projects under this section in the order in which the applications for the projects are received by the Secretary.

"(7) APPROVAL.—An application for a loan guarantee under this section shall be approved or disapproved by the Secretary not later than 90 days after the application is received by the Secretary.

"(c) AUTHORIZATION OF APPROPRIATIONS FOR RESOURCE CENTER.—There is authorized to be appropriated, for a resource center to further develop bioconversion technology using low-cost biomass for the production of ethanol at the Center for Biomass-Based Energy at the Mississippi State University and the Oklahoma State University, $4,000,000 for each of fiscal years 2005 through 2007.

"(d) RENEWABLE FUEL PRODUCTION RESEARCH AND DEVELOPMENT GRANTS.—

"(1) IN GENERAL.—The Administrator shall provide grants for the research into, and development and implementation of, renewable fuel production technologies in RFG States with low rates of ethanol production, including low rates of production of cellulosic biomass ethanol.

"(2) ELIGIBILITY.—

"(A) IN GENERAL.—The entities eligible to receive a grant under this subsection are academic institutions in RFG States, and consortia made up of combinations of academic institutions, industry, State government agencies, or local government agencies in RFG States, that have proven experience and capabilities with relevant technologies.

"(B) APPLICATION.—To be eligible to receive a grant under this subsection, an eligible entity shall submit to the Administrator an application in such manner and form, and accompanied by such information, as the Administrator may specify.

"(3) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this subsection $25,000,000 for each of fiscal years 2006 through 2010.

"(e) CELLULOSIC BIOMASS ETHANOL CONVERSION ASSISTANCE.—

"(1) IN GENERAL.—The Secretary may provide grants to merchant producers of cellulosic biomass ethanol in the United States to assist the producers in building eligible production facilities described in paragraph (2) for the production of cellulosic biomass ethanol.

"(2) ELIGIBLE PRODUCTION FACILITIES.—A production facility shall be eligible to receive a grant under this subsection if the production facility—

"(A) is located in the United States; and

"(B) uses cellulosic biomass feedstocks derived from agricultural residues or municipal solid waste.

"(3) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this subsection—

"(A) $250,000,000 for fiscal year 2006; and

"(B) $400,000,000 for fiscal year 2007.".

SEC. 1512. CONVERSION ASSISTANCE FOR CELLULOSIC BIOMASS, WASTE-DERIVED ETHANOL, APPROVED RENEWABLE FUELS.

Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended by adding at the end the following:

"(r) CONVERSION ASSISTANCE FOR CELLULOSIC BIOMASS, WASTE-DERIVED ETHANOL, APPROVED RENEWABLE FUELS.—

"(1) IN GENERAL.—The Secretary of Energy may provide grants to merchant producers of cellulosic biomass ethanol, waste-derived ethanol, and approved renewable fuels in the United States to assist the producers in building eligible production facilities described in paragraph (2) for the production of ethanol or approved renewable fuels.

"(2) ELIGIBLE PRODUCTION FACILITIES.—A production facility shall be eligible to receive a grant under this subsection if the production facility—

"(A) is located in the United States; and

"(B) uses cellulosic or renewable biomass or waste-derived feedstocks derived from agricultural residues, wood residues, municipal solid waste, or agricultural byproducts.

"(3) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated the following amounts to carry out this subsection:

"(A) $100,000,000 for fiscal year 2006.

"(B) $250,000,000 for fiscal year 2007.

"(C) $400,000,000 for fiscal year 2008.

"(4) DEFINITIONS.—For the purposes of this subsection:

"(A) The term 'approved renewable fuels' are fuels and components of fuels that have been approved by the Department of Energy, as defined in section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211), which have been made from renewable biomass.

"(B) The term 'renewable biomass' is, as defined in Presidential Executive Order 13134, published in the Federal Register on August 16, 1999, any organic matter that is available on a renewable or recurring basis (excluding old-growth timber), including dedicated energy crops and trees, agricultural food and feed crop residues, aquatic plants, animal wastes, wood and wood residues, paper and paper residues, and other vegetative waste materials. Old-growth timber means timber of a forest from the late successional stage of forest development.".

SEC. 1513. BLENDING OF COMPLIANT REFORMULATED GASOLINES.

Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended by adding at the end the following:

"(s) BLENDING OF COMPLIANT REFORMULATED GASOLINES.—

"(1) IN GENERAL.—Notwithstanding subsections (h) and (k) and subject to the limitations in paragraph (2) of this subsection, it shall not be a violation of this subtitle for a gasoline retailer, during any month of the year, to blend at a retail location batches of ethanol-blended and non-ethanol-blended reformulated gasoline, provided that—

"(A) each batch of gasoline to be blended has been individually certified as in compliance with subsections (h) and (k) prior to being blended;

"(B) the retailer notifies the Administrator prior to such blending, and identifies the exact location of the retail station and the specific tank in which such blending will take place;

"(C) the retailer retains and, as requested by the Administrator or the Administrator's designee, makes available for inspection such certifications accounting for all gasoline at the retail outlet; and

"(D) the retailer does not, between June 1 and September 15 of each year, blend a batch of VOC-controlled, or 'summer', gasoline with a batch of non-VOC-controlled, or 'winter', gasoline (as these terms are defined under subsections (h) and (k)).

"(2) LIMITATIONS.—

"(A) FREQUENCY LIMITATION.—A retailer shall only be permitted to blend batches of compliant reformulated gasoline under this subsection a maximum of two blending periods between May 1 and September 15 of each calendar year.

"(B) DURATION OF BLENDING PERIOD.—Each blending period authorized under subparagraph (A) shall extend for a period of no more than 10 consecutive calendar days.

"(3) SURVEYS.—A sample of gasoline taken from a retail location that has blended gasoline within the past 30 days and is in compliance with subparagraphs (A), (B), (C), and (D) of paragraph (1) shall not be used in a VOC survey mandated by 40 C.F.R. Part 80.

"(4) STATE IMPLEMENTATION PLANS.—A State shall be held harmless and shall not be required to revise its State implementation plan under section 110 to account for the emissions from blended gasoline authorized under paragraph (1).

"(5) PRESERVATION OF STATE LAW.—Nothing in this subsection shall—

"(A) preempt existing State laws or regulations regulating the blending of compliant gasolines; or

"(B) prohibit a State from adopting such restrictions in the future.

"(6) REGULATIONS.—The Administrator shall promulgate, after notice and comment, regulations implementing this subsection within one year after the date of enactment of this subsection.

"(7) EFFECTIVE DATE.—This subsection shall become effective 15 months after the date of its enactment and shall apply to blended batches of reformulated gasoline on or after that date, regardless of whether the implementing regulations required by paragraph (6) have been promulgated by the Administrator by that date.

"(8) LIABILITY.—No person other than the person responsible for blending under this subsection shall be subject to an enforcement action or penalties under subsection (d) solely arising from the blending of compliant reformulated gasolines by the retailers.

"(9) FORMULATION OF GASOLINE.—This subsection does not grant authority to the Administrator or any State (or any subdivision thereof) to require reformulation of gasoline at the refinery to adjust for potential or actual emissions increases due to the blending authorized by this subsection.".

SEC. 1514. ADVANCED BIOFUEL TECHNOLOGIES PROGRAM.

(a) IN GENERAL.—Subject to the availability of appropriations under subsection (d), the Administrator of the Environmental Protection Agency shall, in consultation with the Secretary of Agriculture and the Biomass Research and Development Technical Advisory Committee established under section 306 of the Biomass Research and Development Act of 2000 (Public Law 106–224; 7 U.S.C. 8101 note), establish a program, to be known as the "Advanced Biofuel Technologies Program", to demonstrate advanced technologies for the production of alternative transportation fuels.

(b) PRIORITY.—In carrying out the program under subsection (a), the Administrator shall give priority to projects that enhance the geographical diversity of alternative fuels production and utilize feedstocks that represent 10 percent or less of ethanol or biodiesel fuel production in the United States during the previous fiscal year.

(c) DEMONSTRATION PROJECTS.—

(1) IN GENERAL.—As part of the program under subsection (a), the Administrator shall fund demonstration projects—

(A) to develop not less than 4 different conversion technologies for producing cellulosic biomass ethanol; and

(B) to develop not less than 5 technologies for coproducing value-added bioproducts (such as fertilizers, herbicides, and pesticides) resulting from the production of biodiesel fuel.

(2) ADMINISTRATION.—Demonstration projects under this subsection shall be—

(A) conducted based on a merit-reviewed, competitive process; and

(B) subject to the cost-sharing requirements of section 988.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section $110,000,000 for each of fiscal years 2005 through 2009.

SEC. 1515. WASTE-DERIVED ETHANOL AND BIODIESEL.

Section 312(f)(1) of the Energy Policy Act of 1992 (42 U.S.C. 13220(f)(1)) is amended—

(1) by striking "'biodiesel' means" and inserting the following: "'biodiesel'—

"(A) means"; and

(2) in subparagraph (A) (as designated by paragraph (1)) by striking "and" at the end and inserting the following:

"(B) includes biodiesel derived from—

"(i) animal wastes, including poultry fats and poultry wastes, and other waste materials; or

"(ii) municipal solid waste and sludges and oils derived from wastewater and the treatment of wastewater; and"."

SEC. 1516. SUGAR ETHANOL LOAN GUARANTEE PROGRAM.

(a) IN GENERAL.—Funds may be provided for the cost (as defined in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a)) of loan guarantees issued under title XIV to carry out commercial demonstration projects for ethanol derived from sugarcane, bagasse, and other sugarcane byproducts.

(b) DEMONSTRATION PROJECTS.—The Secretary may issue loan guarantees under this section to projects to demonstrate commercially the feasibility and viability of producing ethanol using sugarcane, sugarcane bagasse, and other sugarcane byproducts as a feedstock.

(c) REQUIREMENTS.—An applicant for a loan guarantee under this section may provide assurances, satisfactory to the Secretary, that—

(1) the project design has been validated through the operation of a continuous process facility;

(2) the project has been subject to a full technical review;

(3) the project, with the loan guarantee, is economically viable; and

(4) there is a reasonable assurance of repayment of the guaranteed loan.

(d) LIMITATIONS.—

(1) MAXIMUM GUARANTEE.—Except as provided in paragraph (2), a loan guarantee under this section—

(A) may be issued for up to 80 percent of the estimated cost of a project; but

(B) shall not exceed $50,000,000 for any 1 project.

(2) ADDITIONAL GUARANTEES.—

(A) IN GENERAL.—The Secretary may issue additional loan guarantees for a project to cover—

(i) up to 80 percent of the excess of actual project costs; but

(ii) not to exceed 15 percent of the amount of the original loan guarantee.

(B) PRINCIPAL AND INTEREST.—Subject to subparagraph (A), the Secretary shall guarantee 100 percent of the principal and interest of a loan guarantee made under subparagraph (A).

Subtitle B—Underground Storage Tank Compliance

SEC. 1521. SHORT TITLE.

This subtitle may be cited as the "Underground Storage Tank Compliance Act ".

SEC. 1522. LEAKING UNDERGROUND STORAGE TANKS.

(a) IN GENERAL.—Section 9004 of the Solid Waste Disposal Act (42 U.S.C. 6991c) is amended by adding at the end the following:

"(f) TRUST FUND DISTRIBUTION.—

"(1) IN GENERAL.—

"(A) AMOUNT AND PERMITTED USES OF DISTRIBUTION.—The Administrator shall distribute to States not less than 80 percent of the funds from the Trust Fund that are made available to the Administrator under section 9014(2)(A) for each fiscal year for use in paying the reasonable costs, incurred under a cooperative agreement with any State for—

"(i) corrective actions taken by the State under section 9003(h)(7)(A);

"(ii) necessary administrative expenses, as determined by the Administrator, that are directly related to State fund or State assurance programs under subsection (c)(1); or

"(iii) enforcement, by a State or a local government, of State or local regulations pertaining to underground storage tanks regulated under this subtitle.

"(B) USE OF FUNDS FOR ENFORCEMENT.—In addition to the uses of funds authorized under subparagraph (A), the Administrator may use funds from the Trust Fund that are not distributed to States under subparagraph (A) for enforcement of any regulation promulgated by the Administrator under this subtitle.

"(C) PROHIBITED USES.—Funds provided to a State by the Administrator under subparagraph (A) shall not be used by the State to provide financial assistance to an owner or operator to meet any requirement relating to underground storage tanks under subparts B, C, D, H, and G of part 280 of title 40, Code of Federal Regulations (as in effect on the date of enactment of this subsection).

"(2) Allocation.—

"(A) Process.—Subject to subparagraphs (B) and (C), in the case of a State with which the Administrator has entered into a cooperative agreement under section 9003(h)(7)(A), the Administrator shall distribute funds from the Trust Fund to the State using an allocation process developed by the Administrator.

"(B) Diversion of State funds.—The Administrator shall not distribute funds under subparagraph (A)(iii) of subsection (f)(1) to any State that has diverted funds from a State fund or State assurance program for purposes other than those related to the regulation of underground storage tanks covered by this subtitle, with the exception of those transfers that had been completed earlier than the date of enactment of this subsection.

"(C) Revisions to process.—The Administrator may revise the allocation process referred to in subparagraph (A) after—

"(i) consulting with State agencies responsible for overseeing corrective action for releases from underground storage tanks; and

"(ii) taking into consideration, at a minimum, each of the following:

"(I) The number of confirmed releases from federally regulated leaking underground storage tanks in the States.

"(II) The number of federally regulated underground storage tanks in the States.

"(III) The performance of the States in implementing and enforcing the program.

"(IV) The financial needs of the States.

"(V) The ability of the States to use the funds referred to in subparagraph (A) in any year.

"(3) Distributions to State agencies.—Distributions from the Trust Fund under this subsection shall be made directly to a State agency that—

"(A) enters into a cooperative agreement referred to in paragraph (2)(A); or

"(B) is enforcing a State program approved under this section.".

(b) Withdrawal of Approval of State Funds.—Section 9004(c) of the Solid Waste Disposal Act (42 U.S.C. 6991c(c)) is amended by inserting the following new paragraph at the end thereof:

"(6) Withdrawal of approval.—After an opportunity for good faith, collaborative efforts to correct financial deficiencies with a State fund, the Administrator may withdraw approval of any State fund or State assurance program to be used as a financial responsibility mechanism without withdrawing approval of a State underground storage tank program under section 9004(a).".

(c) Ability to Pay.—Section 9003(h)(6) of the Solid Waste Disposal Act (42 U.S.C. 6591a(h)(6)) is amended by adding the following new subparagraph at the end thereof:

"(E) Inability or limited ability to pay.—

"(i) In general.—In determining the level of recovery effort, or amount that should be recovered, the Administrator (or the State pursuant to paragraph (7)) shall consider the owner or operator's ability to pay. An inability or limited ability to pay corrective action costs must be demonstrated to the Administrator (or the State pursuant to paragraph (7)) by the owner or operator.

"(ii) Considerations.—In determining whether or not a demonstration is made under clause (i), the Administrator (or the State pursuant to paragraph (7)) shall take into consideration the ability of the owner or operator to pay corrective action costs and still maintain its basic business operations, including consideration of the overall financial condition of the owner or operator and demonstrable constraints on the ability of the owner or operator to raise revenues.

"(iii) Information.—An owner or operator requesting consideration under this subparagraph shall promptly provide the Administrator (or the State pursuant to paragraph (7)) with all relevant information needed to determine the ability of the owner or operator to pay corrective action costs.

"(iv) Alternative payment methods.—The Administrator (or the State pursuant to paragraph (7)) shall consider alternative payment methods as may be necessary or appropriate if the Administrator (or the State pursuant to paragraph (7)) determines that an owner or operator cannot pay all or a portion of the costs in a lump sum payment.

"(v) Misrepresentation.—If an owner or operator provides false information or otherwise misrepresents their financial situation under clause (ii), the Administrator (or the State pursuant to paragraph (7)) shall seek full recovery of the costs of all such actions pursuant to the provisions of subparagraph (A) without consideration of the factors in subparagraph (B).".

SEC. 1523. INSPECTION OF UNDERGROUND STORAGE TANKS.

(a) Inspection Requirements.—Section 9005 of the Solid Waste Disposal Act (42 U.S.C. 6991d) is amended by inserting the following new subsection at the end thereof:

"(c) Inspection Requirements.—

"(1) Uninspected tanks.—In the case of underground storage tanks regulated under this subtitle that have not undergone an inspection since December 22, 1998, not later than 2 years after the date of enactment of this subsection, the Administrator or a State that receives funding under this subtitle, as appropriate, shall conduct on-site inspections of all such tanks to determine compliance with this subtitle and the regulations under this subtitle (40 C.F.R. 280) or a requirement or standard of a State program developed under section 9004.

"(2) Periodic inspections.—After completion of all inspections required under paragraph (1), the Administrator or a State that receives funding under this subtitle, as appropriate, shall conduct on-site inspections of each underground storage tank regulated under this subtitle at least once every 3 years to determine compliance with this subtitle and the regulations under this subtitle (40 C.F.R. 280) or a requirement or standard of a State program developed under section 9004. The Administrator may extend for up to one additional year the first 3-year inspection interval under this paragraph if the State demonstrates that it has insufficient resources to complete all such inspections within the first 3-year period.

"(3) Inspection authority.—Nothing in this section shall be construed to diminish the Administrator's or a State's authorities under section 9005(a).".

(b) Study of Alternative Inspection Programs.—The Administrator of the Environmental Protection Agency, in coordination with a State, shall gather information on compliance assurance programs that could serve as an alternative to the inspection programs under section 9005(c) of the Solid Waste Disposal Act (42 U.S.C. 6991d(c)) and shall, within 4 years after the date of enactment of this Act, submit a report to the Congress containing the results of such study.

SEC. 1524. OPERATOR TRAINING.

(a) In General.—Section 9010 of the Solid Waste Disposal Act (42 U.S.C. 6991i) is amended to read as follows:

"SEC. 9010. OPERATOR TRAINING.

"(a) Guidelines.—

"(1) In general.—Not later than 2 years after the date of enactment of the Underground Storage Tank Compliance Act , in consultation and cooperation with States and after public notice and opportunity for comment, the Administrator shall publish guidelines that specify training requirements for—

"(A) persons having primary responsibility for on-site operation and maintenance of underground storage tank systems;

"(B) persons having daily on-site responsibility for the operation and maintenance of underground storage tanks systems; and

"(C) daily, on-site employees having primary responsibility for addressing emergencies presented by a spill or release from an underground storage tank system.

"(2) Considerations.—The guidelines described in paragraph (1) shall take into account—

"(A) State training programs in existence as of the date of publication of the guidelines;

"(B) training programs that are being employed by tank owners and tank operators as of the date of enactment of the Underground Storage Tank Compliance Act ;

"(C) the high turnover rate of tank operators and other personnel;

"(D) the frequency of improvement in underground storage tank equipment technology;

"(E) the nature of the businesses in which the tank operators are engaged;

"(F) the substantial differences in the scope and length of training needed for the different classes of persons described in subparagraphs (A), (B), and (C) of paragraph (1); and

"(G) such other factors as the Administrator determines to be necessary to carry out this section.

"(b) State Programs.—

"(1) In general.—Not later than 2 years after the date on which the Administrator publishes the guidelines under subsection (a)(1), each State that receives funding under this subtitle shall develop State-specific training requirements that are consistent with the guidelines developed under subsection (a)(1).

"(2) Requirements.—State requirements described in paragraph (1) shall—

"(A) be consistent with subsection (a);

"(B) be developed in cooperation with tank owners and tank operators;

"(C) take into consideration training programs implemented by tank owners and tank operators as of the date of enactment of this section; and

"(D) be appropriately communicated to tank owners and operators.

"(3) Financial incentive.—The Administrator may award to a State that develops and implements requirements described in paragraph (1), in addition to any funds that the State is entitled to receive under this subtitle, not more than $200,000, to be used to carry out the requirements.

"(c) Training.—All persons that are subject to the operator training requirements of subsection (a) shall—

"(1) meet the training requirements developed under subsection (b); and

"(2) repeat the applicable requirements developed under subsection (b), if the tank for which they have primary daily on-site management responsibilities is determined to be out of compliance with—

"(A) a requirement or standard promulgated by the Administrator under section 9003; or

"(B) a requirement or standard of a State program approved under section 9004.".

(b) State Program Requirement.—Section 9004(a) of the Solid Waste Disposal Act (42 U.S.C. 6991c(a)) is amended by striking "and" at the end of paragraph (7), by striking the period at the end of paragraph (8) and inserting "; and", and by adding the following new paragraph at the end thereof:

"(9) State-specific training requirements as required by section 9010.".

(c) Enforcement.—Section 9006(d)(2) of such Act (42 U.S.C. 6991e) is amended as follows:

(1) By striking "or" at the end of subparagraph (B).

(2) By adding the following new subparagraph after subparagraph (C):

"(D) the training requirements established by States pursuant to section 9010 (relating to operator training); or".

(d) TABLE OF CONTENTS.—The item relating to section 9010 in table of contents for the Solid Waste Disposal Act is amended to read as follows:

"Sec. 9010. Operator training".

SEC. 1525. REMEDIATION FROM OXYGENATED FUEL ADDITIVES.

Section 9003(h) of the Solid Waste Disposal Act (42 U.S.C. 6991b(h)) is amended as follows:

(1) In paragraph (7)(A)—

(A) by striking "paragraphs (1) and (2) of this subsection" and inserting "paragraphs (1), (2), and (12)"; and

(B) by striking "and including the authorities of paragraphs (4), (6), and (8) of this subsection" and inserting "and the authority under sections 9011 and 9012 and paragraphs (4), (6), and (8),".

(2) By adding at the end the following:

"(12) REMEDIATION OF OXYGENATED FUEL CONTAMINATION.—

"(A) IN GENERAL.—The Administrator and the States may use funds made available under section 9014(2)(B) to carry out corrective actions with respect to a release of a fuel containing an oxygenated fuel additive that presents a threat to human health or welfare or the environment.

"(B) APPLICABLE AUTHORITY.—The Administrator or a State shall carry out subparagraph (A) in accordance with paragraph (2), and in the case of a State, in accordance with a cooperative agreement entered into by the Administrator and the State under paragraph (7).".

SEC. 1526. RELEASE PREVENTION, COMPLIANCE, AND ENFORCEMENT.

(a) RELEASE PREVENTION AND COMPLIANCE.—Subtitle I of the Solid Waste Disposal Act (42 U.S.C. 6991 et seq.) is amended by adding at the end the following:

"SEC. 9011. USE OF FUNDS FOR RELEASE PREVENTION AND COMPLIANCE.

"Funds made available under section 9014(2)(D) from the Trust Fund may be used to conduct inspections, issue orders, or bring actions under this subtitle—

"(1) by a State, in accordance with a grant or cooperative agreement with the Administrator, of State regulations pertaining to underground storage tanks regulated under this subtitle; and

"(2) by the Administrator, for tanks regulated under this subtitle (including under a State program approved under section 9004).".

(b) GOVERNMENT-OWNED TANKS.—Section 9003 of the Solid Waste Disposal Act (42 U.S.C. 6991b) is amended by adding at the end the following:

"(i) GOVERNMENT-OWNED TANKS.—

"(1) STATE COMPLIANCE REPORT.—(A) Not later than 2 years after the date of enactment of this subsection, each State that receives funding under this subtitle shall submit to the Administrator a State compliance report that—

"(i) lists the location and owner of each underground storage tank described in subparagraph (B) in the State that, as of the date of submission of the report, is not in compliance with section 9003; and

"(ii) specifies the date of the last inspection and describes the actions that have been and will be taken to ensure compliance of the underground storage tank listed under clause (i) with this subtitle.

"(B) An underground storage tank described in this subparagraph is an underground storage tank that is—

"(i) regulated under this subtitle; and

"(ii) owned or operated by the Federal, State, or local government.

"(C) The Administrator shall make each report, received under subparagraph (A), available to the public through an appropriate media.

"(2) FINANCIAL INCENTIVE.—The Administrator may award to a State that develops a report described in paragraph (1), in addition to any other funds that the State is entitled to receive under this subtitle, not more than $50,000, to be used to carry out the report.

"(3) NOT A SAFE HARBOR.—This subsection does not relieve any person from any obligation or requirement under this subtitle.".

(c) PUBLIC RECORD.—Section 9002 of the Solid Waste Disposal Act (42 U.S.C. 6991a) is amended by adding at the end the following:

"(d) PUBLIC RECORD.—

"(1) IN GENERAL.—The Administrator shall require each State that receives Federal funds to carry out this subtitle to maintain, update at least annually, and make available to the public, in such manner and form as the Administrator shall prescribe (after consultation with States), a record of underground storage tanks regulated under this subtitle.

"(2) CONSIDERATIONS.—To the maximum extent practicable, the public record of a State, respectively, shall include, for each year—

"(A) the number, sources, and causes of underground storage tank releases in the State;

"(B) the record of compliance by underground storage tanks in the State with—

"(i) this subtitle; or

"(ii) an applicable State program approved under section 9004; and

"(C) data on the number of underground storage tank equipment failures in the State.".

(d) INCENTIVE FOR PERFORMANCE.—Section 9006 of the Solid Waste Disposal Act (42 U.S.C. 6991e) is amended by adding at the end the following:

"(e) INCENTIVE FOR PERFORMANCE.—Both of the following may be taken into account in determining the terms of a civil penalty under subsection (d):

"(1) The compliance history of an owner or operator in accordance with this subtitle or a program approved under section 9004.

"(2) Any other factor the Administrator considers appropriate.".

(e) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by adding the following new item at the end thereof:

"Sec. 9011. Use of funds for release prevention and compliance".

SEC. 1527. DELIVERY PROHIBITION.

(a) IN GENERAL.—Subtitle I of the Solid Waste Disposal Act (42 U.S.C. 6991 et seq.) is amended by adding at the end the following:

"SEC. 9012. DELIVERY PROHIBITION.

"(a) REQUIREMENTS.—

"(1) PROHIBITION OF DELIVERY OR DEPOSIT.—Beginning 2 years after the date of enactment of this section, it shall be unlawful to deliver to, deposit into, or accept a regulated substance into an underground storage tank at a facility which has been identified by the Administrator or a State implementing agency to be ineligible for such delivery, deposit, or acceptance.

"(2) GUIDANCE.—Within 1 year after the date of enactment of this section, the Administrator shall, in consultation with the States, underground storage tank owners, and product delivery industries, publish guidelines detailing the specific processes and procedures they will use to implement the provisions of this section. The processes and procedures include, at a minimum—

"(A) the criteria for determining which underground storage tank facilities are ineligible for delivery, deposit, or acceptance of a regulated substance;

"(B) the mechanisms for identifying which facilities are ineligible for delivery, deposit, or acceptance of a regulated substance to the underground storage tank owning and fuel delivery industries;

"(C) the process for reclassifying ineligible facilities as eligible for delivery, deposit, or acceptance of a regulated substance;

"(D) one or more processes for providing adequate notice to underground storage tank owners and operators and supplier industries that an underground storage tank has been determined to be ineligible for delivery, deposit, or acceptance or a regulated substance; and

"(E) a delineation of, or a process for determining, the specified geographic areas subject to paragraph (4).

"(3) COMPLIANCE.—States that receive funding under this subtitle shall, at a minimum, comply with the processes and procedures published under paragraph (2).

"(4) CONSIDERATION.—

"(A) RURAL AND REMOTE AREAS.—Subject to subparagraph (B), the Administrator or a State may consider not treating an underground storage tank as ineligible for delivery, deposit or acceptance of a regulated substance if such treatment would jeopardize the availability of, or access to, fuel in any rural and remote areas unless an urgent threat to public health, as determined by the Administrator, exists.

"(B) APPLICABILITY.—Subparagraph (A) shall apply only during the 180-day period following the date of a determination by the Administrator or the appropriate State under subparagraph (A).

"(b) EFFECT ON STATE AUTHORITY.—Nothing in this section shall affect or preempt the authority of a State to prohibit the delivery, deposit, or acceptance of a regulated substance to an underground storage tank.

"(c) DEFENSE TO VIOLATION.—A person shall not be in violation of subsection (a)(1) if the person has not been provided with notice pursuant to subsection (a)(2)(D) of the ineligibility of a facility for delivery, deposit, or acceptance of a regulated substance as determined by the Administrator or a State, as appropriate, under this section.".

(b) ENFORCEMENT.—Section 9006(d)(2) of such Act (42 U.S.C. 6991e(d)(2)) is amended as follows:

(1) By adding the following new subparagraph after subparagraph (D):

"(E) the delivery prohibition requirement established by section 9012,".

(2) By adding the following new sentence at the end thereof: "Any person making or accepting a delivery or deposit of a regulated substance to an underground storage tank at an ineligible facility in violation of section 9012 shall also be subject to the same civil penalty for each day of such violation.".

(c) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by adding the following new item at the end thereof:

"Sec. 9012. Delivery prohibition".

SEC. 1528. FEDERAL FACILITIES.

Section 9007 of the Solid Waste Disposal Act (42 U.S.C. 6991f) is amended to read as follows:

"SEC. 9007. FEDERAL FACILITIES.

"(a) IN GENERAL.—Each department, agency, and instrumentality of the executive, legislative, and judicial branches of the Federal Government (1) having jurisdiction over any underground storage tank or underground storage tank system, or (2) engaged in any activity resulting, or which may result, in the installation, operation, management, or closure of any underground storage tank, release response activities related thereto, or in the delivery, acceptance, or deposit of any regulated substance to an underground storage tank or underground storage tank system shall be subject to, and comply with, all Federal, State, interstate, and local requirements, both substantive and procedural (including any requirement for permits or

reporting or any provisions for injunctive relief and such sanctions as may be imposed by a court to enforce such relief), respecting underground storage tanks in the same manner, and to the same extent, as any person is subject to such requirements, including the payment of reasonable service charges. The Federal, State, interstate, and local substantive and procedural requirements referred to in this subsection include, but are not limited to, all administrative orders and all civil and administrative penalties and fines, regardless of whether such penalties or fines are punitive or coercive in nature or are imposed for isolated, intermittent, or continuing violations. The United States hereby expressly waives any immunity otherwise applicable to the United States with respect to any such substantive or procedural requirement (including, but not limited to, any injunctive relief, administrative order or civil or administrative penalty or fine referred to in the preceding sentence, or reasonable service charge). The reasonable service charges referred to in this subsection include, but are not limited to, fees or charges assessed in connection with the processing and issuance of permits, renewal of permits, amendments to permits, review of plans, studies, and other documents, and inspection and monitoring of facilities, as well as any other nondiscriminatory charges that are assessed in connection with a Federal, State, interstate, or local underground storage tank regulatory program. Neither the United States, nor any agent, employee, or officer thereof, shall be immune or exempt from any process or sanction of any State or Federal Court with respect to the enforcement of any such injunctive relief. No agent, employee, or officer of the United States shall be personally liable for any civil penalty under any Federal, State, interstate, or local law concerning underground storage tanks with respect to any act or omission within the scope of the official duties of the agent, employee, or officer. An agent, employee, or officer of the United States shall be subject to any criminal sanction (including, but not limited to, any fine or imprisonment) under any Federal or State law concerning underground storage tanks, but no department, agency, or instrumentality of the executive, legislative, or judicial branch of the Federal Government shall be subject to any such sanction. The President may exempt any underground storage tank of any department, agency, or instrumentality in the executive branch from compliance with such a requirement if he determines it to be in the paramount interest of the United States to do so. No such exemption shall be granted due to lack of appropriation unless the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriation. Any exemption shall be for a period not in excess of one year, but additional exemptions may be granted for periods not to exceed one year upon the President's making a new determination. The President shall report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with his reason for granting each such exemption.

"(b) REVIEW OF AND REPORT ON FEDERAL UNDERGROUND STORAGE TANKS.—

"(1) REVIEW.—Not later than 12 months after the date of enactment of the Underground Storage Tank Compliance Act , each Federal agency that owns or operates 1 or more underground storage tanks, or that manages land on which 1 or more underground storage tanks are located, shall submit to the Administrator, the Committee on Energy and Commerce of the United States House of Representatives, and the Committee on the Environment and Public Works of the United States Senate a compliance strategy report that—

"(A) lists the location and owner of each underground storage tank described in this paragraph;

"(B) lists all tanks that are not in compliance with this subtitle that are owned or operated by the Federal agency;

"(C) specifies the date of the last inspection by a State or Federal inspector of each underground storage tank owned or operated by the agency;

"(D) lists each violation of this subtitle respecting any underground storage tank owned or operated by the agency;

"(E) describes the operator training that has been provided to the operator and other persons having primary daily on-site management responsibility for the operation and maintenance of underground storage tanks owned or operated by the agency; and

"(F) describes the actions that have been and will be taken to ensure compliance for each underground storage tank identified under subparagraph (B).

"(2) NOT A SAFE HARBOR.—This subsection does not relieve any person from any obligation or requirement under this subtitle.".

SEC. 1529. TANKS ON TRIBAL LANDS.

(a) IN GENERAL.—Subtitle I of the Solid Waste Disposal Act (42 U.S.C. 6991 et seq.) is amended by adding the following at the end thereof:

"SEC. 9013. TANKS ON TRIBAL LANDS.

"(a) STRATEGY.—The Administrator, in coordination with Indian tribes, shall, not later than 1 year after the date of enactment of this section, develop and implement a strategy—

"(1) giving priority to releases that present the greatest threat to human health or the environment, to take necessary corrective action in response to releases from leaking underground storage tanks located wholly within the boundaries of—

"(A) an Indian reservation; or

"(B) any other area under the jurisdiction of an Indian tribe; and

"(2) to implement and enforce requirements concerning underground storage tanks located wholly within the boundaries of—

"(A) an Indian reservation; or

"(B) any other area under the jurisdiction of an Indian tribe.

"(b) REPORT.—Not later than 2 years after the date of enactment of this section, the Administrator shall submit to Congress a report that summarizes the status of implementation and enforcement of this subtitle in areas located wholly within—

"(1) the boundaries of Indian reservations; and

"(2) any other areas under the jurisdiction of an Indian tribe.

The Administrator shall make the report under this subsection available to the public.

"(c) NOT A SAFE HARBOR.—This section does not relieve any person from any obligation or requirement under this subtitle.

"(d) STATE AUTHORITY.—Nothing in this section applies to any underground storage tank that is located in an area under the jurisdiction of a State, or that is subject to regulation by a State, as of the date of enactment of this section.".

(b) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by adding the following new item at the end thereof:

"Sec. 9013. Tanks on Tribal lands".

SEC. 1530. ADDITIONAL MEASURES TO PROTECT GROUNDWATER.

(a) IN GENERAL.—Section 9003 of the Solid Waste Disposal Act (42 U.S.C. 6991b) is amended by adding the following new subsection at the end:

"(i) ADDITIONAL MEASURES TO PROTECT GROUNDWATER FROM CONTAMINATION.—The Administrator shall require each State that receives funding under this subtitle to require one of the following:

"(1) TANK AND PIPING SECONDARY CONTAINMENT.—(A) Each new underground storage tank, or piping connected to any such new tank, installed after the effective date of this subsection, or any existing underground storage tank, or existing piping connected to such existing tank, that is replaced after the effective date of this subsection, shall be secondarily contained and monitored for leaks if the new or replaced underground storage tank or piping is within 1,000 feet of any existing community water system or any existing potable drinking water well.

"(B) In the case of a new underground storage tank system consisting of one or more underground storage tanks and connected by piping, subparagraph (A) shall apply to all underground storage tanks and connected pipes comprising such system.

"(C) In the case of a replacement of an existing underground storage tank or existing piping connected to the underground storage tank, subparagraph (A) shall apply only to the specific underground storage tank or piping being replaced, not to other underground storage tanks and connected pipes comprising such system.

"(D) Each installation of a new motor fuel dispenser system, after the effective date of this subsection, shall include under-dispenser spill containment if the new dispenser is within 1,000 feet of any existing community water system or any existing potable drinking water well.

"(E) This paragraph shall not apply to repairs to an underground storage tank, piping, or dispenser that are meant to restore a tank, pipe, or dispenser to operating condition.

"(F) As used in this subsection:

"(i) The term 'secondarily contained' means a release detection and prevention system that meets the requirements of 40 CFR 280.43(g), but shall not include under-dispenser spill containment or control systems.

"(ii) The term 'underground storage tank' has the meaning given to it in section 9001, except that such term does not include tank combinations or more than a single underground pipe connected to a tank.

"(iii) The term 'installation of a new motor fuel dispenser system' means the installation of a new motor fuel dispenser and the equipment necessary to connect the dispenser to the underground storage tank system, but does not mean the installation of a motor fuel dispenser installed separately from the equipment need to connect the dispenser to the underground storage tank system.

"(2) EVIDENCE OF FINANCIAL RESPONSIBILITY AND CERTIFICATION.—

"(A) MANUFACTURER AND INSTALLER FINANCIAL RESPONSIBILITY.—A person that manufactures an underground storage tank or piping for an underground storage tank system or that installs an underground storage tank system is required to maintain evidence of financial responsibility under section 9003(d) in order to provide for the costs of corrective actions directly related to releases caused by improper manufacture or installation unless the person can demonstrate themselves to be already covered as an owner or operator of an underground storage tank under section 9003.

"(B) INSTALLER CERTIFICATION.—The Administrator and each State that receives funding under this subtitle, as appropriate, shall require that a person that installs an underground storage tank system is—

"(i) certified or licensed by the tank and piping manufacturer;

"(ii) certified or licensed by the Administrator or a State, as appropriate;

"(iii) has their underground storage tank system installation certified by a registered professional engineer with education and experience in underground storage tank system installation;

"(iv) has had their installation of the underground storage tank inspected and approved by the Administrator or the State, as appropriate;

"(v) compliant with a code of practice developed by a nationally recognized association or independent testing laboratory and in accordance with the manufacturer's instructions; or

"(vi) compliant with another method that is determined by the Administrator or a State, as appropriate, to be no less protective of human health and the environment.

"(C) SAVINGS CLAUSE.—Nothing in subparagraph (A) alters or affects the liability of any owner or operator of an underground storage tank.".

(b) EFFECTIVE DATE.—This subsection shall take effect 18 months after the date of enactment of this subsection.

(c) PROMULGATION OF REGULATIONS OR GUIDELINES.—The Administrator shall issue regulations or guidelines implementing the requirements of this subsection, including guidance to differentiate between the terms "repair" and "replace" for the purposes of section 9003(i)(1) of the Solid Waste Disposal Act.

(d) PENALTIES.—Section 9006(d)(2) of such Act (42 U.S.C. 6991e(d)(2)) is amended as follows:

(1) By striking "or" at the end of subparagraph (B).

(2) By inserting "; or" at the end of subparagraph (C).

(3) By adding the following new subparagraph after subparagraph (C):

"(D) the requirements established in section 9003(i),".

SEC. 1531. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—Subtitle I of the Solid Waste Disposal Act (42 U.S.C. 6991 et seq.) is amended by adding at the end the following:

"SEC. 9014. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated to the Administrator the following amounts:

"(1) To carry out subtitle I (except sections 9003(h), 9005(c), 9011 and 9012) $50,000,000 for each of fiscal years 2005 through 2009.

"(2) From the Trust Fund, notwithstanding section 9508(c)(1) of the Internal Revenue Code of 1986:

"(A) to carry out section 9003(h) (except section 9003(h)(12)) $200,000,000 for each of fiscal years 2005 through 2009;

"(B) to carry out section 9003(h)(12), $200,000,000 for each of fiscal years 2005 through 2009;

"(C) to carry out sections 9003(i), 9004(f), and 9005(c) $100,000,000 for each of fiscal years 2005 through 2009; and

"(D) to carry out sections 9010, 9011, 9012, and 9013 $55,000,000 for each of fiscal years 2005 through 2009.".

(b) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by adding the following new item at the end thereof:

"Sec. 9014. Authorization of appropriations".

SEC. 1532. CONFORMING AMENDMENTS.

(a) IN GENERAL.—Section 9001 of the Solid Waste Disposal Act (42 U.S.C. 6991) is amended as follows:

(1) By striking "For the purposes of this subtitle—" and inserting "In this subtitle:".

(2) By redesignating paragraphs (1), (2), (3), (4), (5), (6), (7), and (8) as paragraphs (10), (7), (4), (3), (8), (5), (2), and (6), respectively.

(3) By inserting before paragraph (2) (as redesignated by paragraph (2) of this subsection) the following:

"(1) INDIAN TRIBE.—

"(A) IN GENERAL.—The term 'Indian tribe' means any Indian tribe, band, nation, or other organized group or community that is recognized as being eligible for special programs and services provided by the United States to Indians because of their status as Indians.

"(B) INCLUSIONS.—The term 'Indian tribe' includes an Alaska Native village, as defined in or established under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.); and".

(4) By inserting after paragraph (8) (as redesignated by paragraph (2) of this subsection) the following:

"(9) TRUST FUND.—The term 'Trust Fund' means the Leaking Underground Storage Tank Trust Fund established by section 9508 of the Internal Revenue Code of 1986.".

(b) CONFORMING AMENDMENTS.—The Solid Waste Disposal Act (42 U.S.C. 6901 and following) is amended as follows:

(1) Section 9003(f) (42 U.S.C. 6991b(f)) is amended—

(A) in paragraph (1), by striking "9001(2)(B)" and inserting "9001(7)(B)"; and

(B) in paragraphs (2) and (3), by striking "9001(2)(A)" each place it appears and inserting "9001(7)(A)".

(2) Section 9003(h) (42 U.S.C. 6991b(h)) is amended in paragraphs (1), (2)(C), (7)(A), and (11) by striking "Leaking Underground Storage Tank Trust Fund" each place it appears and inserting "Trust Fund".

(3) Section 9009 (42 U.S.C. 6991h) is amended—

(A) in subsection (a), by striking "9001(2)(B)" and inserting "9001(7)(B)"; and

(B) in subsection (d), by striking "section 9001(1) (A) and (B)" and inserting "subparagraphs (A) and (B) of section 9001(10)".

SEC. 1533. TECHNICAL AMENDMENTS.

The Solid Waste Disposal Act is amended as follows:

(1) Section 9001(4)(A) (42 U.S.C. 6991(4)(A)) is amended by striking "sustances" and inserting "substances".

(2) Section 9003(f)(1) (42 U.S.C. 6991b(f)(1)) is amended by striking "subsection (c) and (d) of this section" and inserting "subsections (c) and (d)".

(3) Section 9004(a) (42 U.S.C. 6991c(a)) is amended by striking "in 9001(2) (A) or (B) or both" and inserting "in subparagraph (A) or (B) of section 9001(7)".

(4) Section 9005 (42 U.S.C. 6991d) is amended—

(A) in subsection (a), by striking "study taking" and inserting "study, taking";

(B) in subsection (b)(1), by striking "relevent" and inserting "relevant"; and

(C) in subsection (b)(4), by striking "Evironmental" and inserting "Environmental".

Subtitle C—Boutique Fuels

SEC. 1541. REDUCING THE PROLIFERATION OF BOUTIQUE FUELS.

(a) TEMPORARY WAIVERS DURING SUPPLY EMERGENCIES.—Section 211(c)(4)(C) of the Clean Air Act (42 U.S.C. 7545(c)(4)(C)) is amended by inserting "(i)" after "(C)" and by adding the following new clauses at the end thereof:

"(ii) The Administrator may temporarily waive a control or prohibition respecting the use of a fuel or fuel additive required or regulated by the Administrator pursuant to subsection (c), (h), (i), (k), or (m) of this section or prescribed in an applicable implementation plan under section 110 approved by the Administrator under clause (i) of this subparagraph if, after consultation with, and concurrence by, the Secretary of Energy, the Administrator determines that—

"(I) extreme and unusual fuel or fuel additive supply circumstances exist in a State or region of the Nation which prevent the distribution of an adequate supply of the fuel or fuel additive to consumers;

"(II) such extreme and unusual fuel and fuel additive supply circumstances are the result of a natural disaster, an Act of God, a pipeline or refinery equipment failure, or another event that could not reasonably have been foreseen or prevented and not the lack of prudent planning on the part of the suppliers of the fuel or fuel additive to such State or region; and

"(III) it is in the public interest to grant the waiver (for example, when a waiver is necessary to meet projected temporary shortfalls in the supply of the fuel or fuel additive in a State or region of the Nation which cannot otherwise be compensated for).

"(iii) If the Administrator makes the determinations required under clause (ii), such a temporary extreme and unusual fuel and fuel additive supply circumstances waiver shall be permitted only if—

"(I) the waiver applies to the smallest geographic area necessary to address the extreme and unusual fuel and fuel additive supply circumstances;

"(II) the waiver is effective for a period of 20 calendar days or, if the Administrator determines that a shorter waiver period is adequate, for the shortest practicable time period necessary to permit the correction of the extreme and unusual fuel and fuel additive supply circumstances and to mitigate impact on air quality;

"(III) the waiver permits a transitional period, the exact duration of which shall be determined by the Administrator (but which shall be for the shortest practicable period), after the termination of the temporary waiver to permit wholesalers and retailers to blend down their wholesale and retail inventory;

"(IV) the waiver applies to all persons in the motor fuel distribution system; and

"(V) the Administrator has given public notice to all parties in the motor fuel distribution system, and local and State regulators, in the State or region to be covered by the waiver.

The term 'motor fuel distribution system' as used in this clause shall be defined by the Administrator through rulemaking.

"(iv) Within 180 days of the date of enactment of this clause, the Administrator shall promulgate regulations to implement clauses (ii) and (iii).

"(v) Nothing in this subparagraph shall—

"(I) limit or otherwise affect the application of any other waiver authority of the Administrator pursuant to this section or pursuant to a regulation promulgated pursuant to this section; and

"(II) subject any State or person to an enforcement action, penalties, or liability solely arising from actions taken pursuant to the issuance of a waiver under this subparagraph.".

(b) LIMIT ON NUMBER OF BOUTIQUE FUELS.—Section 211(c)(4)(C) of the Clean Air Act (42 U.S.C. 7545(c)(4)), as amended by subsection (a), is further amended by adding at the end the following:

"(v)(I) The Administrator shall have no authority, when considering a State implementation plan or a State implementation plan revision, to approve under this paragraph any fuel included in such plan or revision if the effect of such approval increases the total number of fuels approved under this paragraph as of September 1, 2004, in all State implementation plans.

"(II) The Administrator, in consultation with the Secretary of Energy, shall determine the total number of fuels approved under this paragraph as of September 1, 2004, in all State implementation plans and shall publish a list of such fuels, including the states and Petroleum Administration for Defense District in which they are used, in the Federal Register for public review and comment no later than 90 days after enactment.

"(III) The Administrator shall remove a fuel from the list published under subclause (II) if a fuel ceases to be included in a State implementation plan or if a fuel in a State implementation plan is identical to a Federal fuel formulation implemented by the Administrator, but the Administrator shall not reduce the total number of fuels authorized under the list published under subclause (II).

"(IV) Subclause (I) shall not limit the Administrator's authority to approve a control or prohibition respecting any new fuel under this paragraph in a State implementation plan or revision to a State implementation plan if such new fuel:

"(aa) completely replaces a fuel on the list published under subclause (II); or

"(bb) does not increase the total number of fuels on the list published under subclause (II) as of September 1, 2004.

In the event that the total number of fuels on the list published under subclause (II) at the time of the Administrator's consideration of a control or prohibition respecting a new fuel is lower than the total number of fuels on such list as of September 1, 2004, the Administrator may approve a control or prohibition respecting a new fuel under this subclause if the Administrator, after consultation with the Secretary of Energy, publishes in the Federal Register after notice and comment a finding that, in the Administrator's judgment, such control or prohibition respecting a new fuel will not cause fuel supply or distribution interruptions or have a significant adverse impact on fuel producibility in the affected area or contiguous areas.

"(V) The Administrator shall have no authority under this paragraph, when considering any particular State's implementation plan or a revision to that State's implementation plan, to approve any fuel unless that fuel was, as of the date of such consideration, approved in at least one State implementation plan in the applicable Petroleum Administration for Defense District. However, the Administrator may approve as part of a State implementation plan or State implementation plan revision a fuel with a summertime Reid Vapor Pressure of 7.0 psi. In no event shall such approval by the Administrator cause an increase in the total number of fuels on the list published under subclause (II).

"(VI) Nothing in this clause shall be construed to have any effect regarding any available authority of States to require the use of any fuel additive registered in accordance with subsection (b), including any fuel additive registered in accordance with subsection (b) after the enactment of this subclause.".

(c) STUDY AND REPORT TO CONGRESS ON BOUTIQUE FUELS.—

(1) JOINT STUDY.—The Administrator of the Environmental Protection Agency and the Secretary shall undertake a study of the effects on air quality, on the number of fuel blends, on fuel availability, on fuel fungibility, and on fuel costs of the State plan provisions adopted pursuant to section 211(c)(4)(C) of the Clean Air Act (42 U.S.C. 7545(c)(4)(C)).

(2) FOCUS OF STUDY.—The primary focus of the study required under paragraph (1) shall be to determine how to develop a Federal fuels system that maximizes motor fuel fungibility and supply, addresses air quality requirements, and reduces motor fuel price volatility including that which has resulted from the proliferation of boutique fuels, and to recommend to Congress such legislative changes as are necessary to implement such a system. The study should include the impacts on overall energy supply, distribution, and use as a result of the legislative changes recommended.

(3) CONDUCT OF STUDY.—In carrying out their joint duties under this section, the Administrator and the Secretary shall use sound science and objective science practices, shall consider the best available science, shall use data collected by accepted means and shall consider and include a description of the weight of the scientific evidence. The Administrator and the Secretary shall coordinate the study required by this section with other studies required by the act.

(4) RESPONSIBILITY OF ADMINISTRATOR.—In carrying out the study required by this section, the Administrator shall coordinate obtaining comments from affected parties interested in the air quality impact assessment portion of the study.

(5) RESPONSIBILITY OF SECRETARY.—In carrying out the study required by this section, the Secretary shall coordinate obtaining comments from affected parties interested in the fuel availability, number of fuel blends, fuel fungibility and fuel costs portion of the study.

(6) REPORT TO CONGRESS.—The Administrator and the Secretary jointly shall submit the results of the study required by this section in a report to the Congress not later than 12 months after the date of the enactment of this Act, together with any recommended regulatory and legislative changes. Such report shall be submitted to the Committee on Energy and Commerce of the United States House of Representatives and the Committees on Energy and Natural Resources and on Environment and Public Works of the United States Senate.

(7) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated jointly to the Administrator and the Secretary $500,000 for the completion of the study required under this subsection.

(d) DEFINITIONS.—In this section:

(1) The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) The term "fuel" means gasoline, diesel fuel, and any other liquid petroleum product commercially known as gasoline and diesel fuel for use in highway and nonroad motor vehicles.

(3) The term "a control or prohibition respecting a new fuel" means a control or prohibition on the formulation, composition, or emissions characteristics of a fuel that would require the increase or decrease of a constituent in gasoline or diesel fuel.

TITLE XVI—CLIMATE CHANGE

Subtitle A—National Climate Change Technology Deployment

SEC. 1601. GREENHOUSE GAS INTENSITY REDUCING TECHNOLOGY STRATEGIES.

Title XVI of the Energy Policy Act of 1992 (42 U.S.C. 13381 et seq.) is amended by adding at the end the following:

"SEC. 1610. GREENHOUSE GAS INTENSITY REDUCING STRATEGIES.

"(a) DEFINITIONS.—In this section:

"(1) ADVISORY COMMITTEE.—The term 'Advisory Committee' means the Climate Change Technology Advisory Committee established under subsection (f)(1).

"(2) CARBON SEQUESTRATION.—The term 'carbon sequestration' means the capture of carbon dioxide through terrestrial, geological, biological, or other means, which prevents the release of carbon dioxide into the atmosphere.

"(3) COMMITTEE.—The term 'Committee' means the Committee on Climate Change Technology established under subsection (b)(1).

"(4) DEVELOPING COUNTRY.—The term 'developing country' has the meaning given the term in section 1608(m).

"(5) GREENHOUSE GAS.—The term 'greenhouse gas' means—

"(A) carbon dioxide;

"(B) methane;

"(C) nitrous oxide;

"(D) hydrofluorocarbons;

"(E) perfluorocarbons; and

"(F) sulfur hexafluoride.

"(6) GREENHOUSE GAS INTENSITY.—The term 'greenhouse gas intensity' means the ratio of greenhouse gas emissions to economic output.

"(7) NATIONAL LABORATORY.—The term 'National Laboratory' has the meaning given the term in section 3(3) of the Energy Policy Act of 2005.

"(b) COMMITTEE ON CLIMATE CHANGE TECHNOLOGY.—

"(1) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the President shall establish a Committee on Climate Change Technology to—

"(A) integrate current Federal climate reports; and

"(B) coordinate Federal climate change technology activities and programs carried out in furtherance of the strategy developed under subsection (c)(1).

"(2) MEMBERSHIP.—The Committee shall be composed of at least 7 members, including—

"(A) the Secretary, who shall chair the Committee;

"(B) the Secretary of Commerce;

"(C) the Chairman of the Council on Environmental Quality;

"(D) the Secretary of Agriculture;

"(E) the Administrator of the Environmental Protection Agency;

"(F) the Secretary of Transportation;

"(G) the Director of the Office of Science and Technology Policy; and

"(H) other representatives as may be determined by the President.

"(3) STAFF.—The members of the Committee shall provide such personnel as are necessary to enable the Committee to perform its duties.

"(c) NATIONAL CLIMATE CHANGE TECHNOLOGY POLICY.—

"(1) IN GENERAL.—Not later than 18 months after the date of enactment of this section, the Committee shall, based on applicable Federal climate reports, submit to the Secretary and the President a national strategy to promote the deployment and commercialization of greenhouse gas intensity reducing technologies and practices developed through research and development programs conducted by the National Laboratories, other Federal research facilities, institutions of higher education, and the private sector.

"(2) UPDATES.—The Committee shall—

"(A) at the time of submission of the strategy to the President under paragraph (1), also make the strategy available to the public; and

"(B) update the strategy every 5 years, or more frequently as the Committee determines to be necessary.

"(d) CLIMATE CHANGE TECHNOLOGY PROGRAM.—Not later than 180 days after the date on which the Committee is established under subsection (b)(1), the Secretary, in consultation with the Committee, shall establish within the Department of Energy the Climate Change Technology Program to—

"(1) assist the Committee in the interagency coordination of climate change technology research, development, demonstration, and deployment to reduce greenhouse gas intensity; and

"(2) carry out the programs authorized under this section.

"(e) TECHNOLOGY INVENTORY.—

"(1) IN GENERAL.—The Secretary shall conduct and make public an inventory and evaluation of greenhouse gas intensity reducing technologies that have been developed, or are under development, by the National Laboratories, other Federal research facilities, institutions of higher education, and the private sector to determine which technologies are suitable for commercialization and deployment.

"(2) REPORT.—Not later than 180 days after the completion of the inventory under paragraph (1), the Secretary shall submit to Congress

a report that includes the results of the completed inventory and any recommendations of the Secretary.

‘‘(3) USE.—The Secretary shall use the results of the inventory as guidance in the commercialization and deployment of greenhouse gas intensity reducing technologies.

‘‘(4) UPDATED INVENTORY.—The Secretary shall—

‘‘(A) periodically update the inventory under paragraph (1), including when determined necessary by the Committee; and

‘‘(B) make the updated inventory available to the public.

‘‘(f) CLIMATE CHANGE TECHNOLOGY ADVISORY COMMITTEE.—

‘‘(1) IN GENERAL.—The Secretary, in consultation with the Committee, may establish under section 624 of the Department of Energy Organization Act (42 U.S.C. 7234) a Climate Change Technology Advisory Committee to identify statutory, regulatory, economic, and other barriers to the commercialization and deployment of greenhouse gas intensity reducing technologies and practices in the United States.

‘‘(2) COMPOSITION.—The Advisory Committee shall be composed of the following members, to be appointed by the Secretary, in consultation with the Committee:

‘‘(A) 1 representative shall be appointed from each National Laboratory.

‘‘(B) 3 members shall be representatives of energy-producing trade organizations.

‘‘(C) 3 members shall represent energy-intensive trade organizations.

‘‘(D) 3 members shall represent groups that represent end-use energy and other consumers.

‘‘(E) 3 members shall be employees of the Federal Government who are experts in energy technology, intellectual property, and tax.

‘‘(F) 3 members shall be representatives of institutions of higher education with expertise in energy technology development that are recommended by the National Academy of Engineering.

‘‘(3) REPORT.—Not later than 1 year after the date of enactment of this section and annually thereafter, the Advisory Committee shall submit to the Committee a report that describes—

‘‘(A) the findings of the Advisory Committee; and

‘‘(B) any recommendations of the Advisory Committee for the removal or reduction of barriers to commercialization, deployment, and increasing the use of greenhouse gas intensity reducing technologies and practices.

‘‘(g) GREENHOUSE GAS INTENSITY REDUCING TECHNOLOGY DEPLOYMENT.—

‘‘(1) IN GENERAL.—Based on the strategy developed under subsection (c)(1), the technology inventory conducted under subsection (e)(1), the greenhouse gas intensity reducing technology study report submitted under subsection (e)(2), and reports under subsection (f)(3), if any, the Committee shall develop recommendations that would provide for the removal of domestic barriers to the commercialization and deployment of greenhouse gas intensity reducing technologies and practices.

‘‘(2) REQUIREMENTS.—In developing the recommendations under paragraph (1), the Committee shall consider in the aggregate—

‘‘(A) the cost-effectiveness of the technology;

‘‘(B) fiscal and regulatory barriers;

‘‘(C) statutory and other barriers; and

‘‘(D) intellectual property issues.

‘‘(3) DEMONSTRATION PROJECTS.—In developing recommendations under paragraph (1), the Committee may identify the need for climate change technology demonstration projects.

‘‘(4) REPORT.—Not later than 18 months after the date of enactment of this section, the Committee shall submit to the President and Congress a report that—

‘‘(A) identifies, based on the report submitted under subsection (f)(3), any barriers to, and commercial risks associated with, the deployment of greenhouse gas intensity reducing technologies; and

‘‘(B) includes a plan for carrying out demonstration projects.

‘‘(5) UPDATES.—The Committee shall—

‘‘(A) at the time of submission of the report to Congress under paragraph (4), also make the report available to the public; and

‘‘(B) update the report every 5 years, or more frequently as the Committee determines to be necessary.

‘‘(h) PROCEDURES FOR CALCULATING, MONITORING, AND ANALYZING GREENHOUSE GAS INTENSITY.—The Secretary, in collaboration with the Committee and the National Institute of Standards and Technology, and after public notice and opportunity for comment, shall develop standards and best practices for calculating, monitoring, and analyzing greenhouse gas intensity.

‘‘(i) DEMONSTRATION PROJECTS.—

‘‘(1) IN GENERAL.—The Secretary shall, subject to the availability of appropriations, support demonstration projects that—

‘‘(A) increase the reduction of the greenhouse gas intensity to levels below that which would be achieved by technologies being used in the United States as of the date of enactment of this section;

‘‘(B) maximize the potential return on Federal investment;

‘‘(C) demonstrate distinct roles in public-private partnerships;

‘‘(D) produce a large-scale reduction of greenhouse gas intensity if commercialization occurred; and

‘‘(E) support a diversified portfolio to mitigate the uncertainty associated with a single technology.

‘‘(2) COST SHARING.—In supporting a demonstration project under this subsection, the Secretary shall require cost-sharing in accordance with section 988 of the Energy Policy Act of 2005.

‘‘(3) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this subsection.

‘‘(j) COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENTS.—In carrying out greenhouse gas intensity reduction research and technology deployment activities under this subtitle, the Secretary may enter into cooperative research and development agreements under section 12 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a).’’.

Subtitle B—Climate Change Technology Deployment in Developing Countries

SEC. 1611. CLIMATE CHANGE TECHNOLOGY DEPLOYMENT IN DEVELOPING COUNTRIES.

The Global Environmental Protection Assistance Act of 1989 (Public Law 101–240; 103 Stat. 2521) is amending by adding at the end the following:

‘‘PART C—TECHNOLOGY DEPLOYMENT IN DEVELOPING COUNTRIES

‘‘SEC. 731. DEFINITIONS.

‘‘In this part:

‘‘(1) CARBON SEQUESTRATION.—The term ‘carbon sequestration’ means the capture of carbon dioxide through terrestrial, geological, biological, or other means, which prevents the release of carbon dioxide into the atmosphere.

‘‘(2) GREENHOUSE GAS.—The term ‘greenhouse gas’ means carbon dioxide, methane, nitrous oxide, hydrofluorocarbons, perfluorocarbons, and sulfur hexafluoride.

‘‘(3) GREENHOUSE GAS INTENSITY.—The term ‘greenhouse gas intensity’ means the ratio of greenhouse gas emissions to economic output.

‘‘SEC. 732. REDUCTION OF GREENHOUSE GAS INTENSITY.

‘‘(a) LEAD AGENCY.—

‘‘(1) IN GENERAL.—The Department of State shall act as the lead agency for integrating into United States foreign policy the goal of reducing greenhouse gas intensity in developing countries.

‘‘(2) REPORTS.—

‘‘(A) INITIAL REPORT.—Not later than 180 days after the date of enactment of this part, the Secretary of State shall submit to the appropriate authorizing and appropriating committees of Congress an initial report, based on the most recent information available to the Secretary from reliable public sources, that identifies the 25 developing countries that are the largest greenhouse gas emitters, including for each country—

‘‘(i) an estimate of the quantity and types of energy used;

‘‘(ii) an estimate of the greenhouse gas intensity of the energy, manufacturing, agricultural, and transportation sectors;

‘‘(iii) a description the progress of any significant projects undertaken to reduce greenhouse gas intensity;

‘‘(iv) a description of the potential for undertaking projects to reduce greenhouse gas intensity;

‘‘(v) a description of any obstacles to the reduction of greenhouse gas intensity; and

‘‘(vi) a description of the best practices learned by the Agency for International Development from conducting previous pilot and demonstration projects to reduce greenhouse gas intensity.

‘‘(B) UPDATE.—Not later than 18 months after the date on which the initial report is submitted under subparagraph (A), the Secretary shall submit to the appropriate authorizing and appropriating committees of Congress, based on the best information available to the Secretary, an update of the information provided in the initial report.

‘‘(C) USE.—

‘‘(i) INITIAL REPORT.—The Secretary of State shall use the initial report submitted under subparagraph (A) to establish baselines for the developing countries identified in the report with respect to the information provided under clauses (i) and (ii) of that subparagraph.

‘‘(ii) ANNUAL REPORTS.—The Secretary of State shall use the annual reports prepared under subparagraph (B) and any other information available to the Secretary to track the progress of the developing countries with respect to reducing greenhouse gas intensity.

‘‘(b) PROJECTS.—The Secretary of State, in coordination with Administrator of the United States Agency for International Development, shall (directly or through agreements with the World Bank, the International Monetary Fund, the Overseas Private Investment Corporation, and other development institutions) provide assistance to developing countries specifically for projects to reduce greenhouse gas intensity, including projects to—

‘‘(1) leverage, through bilateral agreements, funds for reduction of greenhouse gas intensity;

‘‘(2) increase private investment in projects and activities to reduce greenhouse gas intensity; and

‘‘(3) expedite the deployment of technology to reduce greenhouse gas intensity.

‘‘(c) FOCUS.—In providing assistance under subsection (b), the Secretary of State shall focus on—

‘‘(1) promoting the rule of law, property rights, contract protection, and economic freedom; and

‘‘(2) increasing capacity, infrastructure, and training.

‘‘(d) PRIORITY.—In providing assistance under subsection (b), the Secretary of State shall give priority to projects in the 25 developing countries identified in the report submitted under subsection (a)(2)(A).

"SEC. 733. TECHNOLOGY INVENTORY FOR DEVELOPING COUNTRIES.

"(a) In General.—The Secretary of Energy, in coordination with the Secretary of State and the Secretary of Commerce, shall conduct an inventory of greenhouse gas intensity reducing technologies that are developed, or under development in the United States, to identify technologies that are suitable for transfer to, deployment in, and commercialization in the developing countries identified in the report submitted under section 732(a)(2)(A).

"(b) Report.—Not later than 180 days after the completion of the inventory under subsection (a), the Secretary of State and the Secretary of Energy shall jointly submit to Congress a report that—

"(1) includes the results of the completed inventory;

"(2) identifies obstacles to the transfer, deployment, and commercialization of the inventoried technologies;

"(3) includes results from previous Federal reports related to the inventoried technologies; and

"(4) includes an analysis of market forces related to the inventoried technologies.

"SEC. 734. TRADE-RELATED BARRIERS TO EXPORT OF GREENHOUSE GAS INTENSITY REDUCING TECHNOLOGIES.

"(a) In General.—Not later than 1 year after the date of enactment of this part, the United States Trade Representative shall (as appropriate and consistent with applicable bilateral, regional, and mutual trade agreements)—

"(1) identify trade-relations barriers maintained by foreign countries to the export of greenhouse gas intensity reducing technologies and practices from the United States to the developing countries identified in the report submitted under section 732(a)(2)(A); and

"(2) negotiate with foreign countries for the removal of those barriers.

"(b) Annual Report.—Not later than 1 year after the date on which a report is submitted under subsection (a)(1) and annually thereafter, the United States Trade Representative shall submit to Congress a report that describes any progress made with respect to removing the barriers identified by the United States Trade Representative under subsection (a)(1).

"SEC. 735. GREENHOUSE GAS INTENSITY REDUCING TECHNOLOGY EXPORT INITIATIVE.

"(a) In General.—There is established an interagency working group to carry out a Greenhouse Gas Intensity Reducing Technology Export Initiative to—

"(1) promote the export of greenhouse gas intensity reducing technologies and practices from the United States;

"(2) identify developing countries that should be designated as priority countries for the purpose of exporting greenhouse gas intensity reducing technologies and practices, based on the report submitted under section 732(a)(2)(A);

"(3) identify potential barriers to adoption of exported greenhouse gas intensity reducing technologies and practices based on the reports submitted under section 734; and

"(4) identify previous efforts to export energy technologies to learn best practices.

"(b) Composition.—The working group shall be composed of—

"(1) the Secretary of State, who shall act as the head of the working group;

"(2) the Administrator of the United States Agency for International Development;

"(3) the United States Trade Representative;

"(4) a designee of the Secretary of Energy;

"(5) a designee of the Secretary of Commerce; and

"(6) a designee of the Administrator of the Environmental Protection Agency.

"(c) Performance Reviews and Reports.—Not later than 180 days after the date of enactment of this part and each year thereafter, the interagency working group shall—

"(1) conduct a performance review of actions taken and results achieved by the Federal Government (including each of the agencies represented on the interagency working group) to promote the export of greenhouse gas intensity reducing technologies and practices from the United States; and

"(2) submit to the appropriate authorizing and appropriating committees of Congress a report that describes the results of the performance reviews and evaluates progress in promoting the export of greenhouse gas intensity reducing technologies and practices from the United States, including any recommendations for increasing the export of the technologies and practices.

"SEC. 736. TECHNOLOGY DEMONSTRATION PROJECTS.

"(a) In General.—The Secretary of State, in coordination with the Secretary of Energy and the Administrator of the United States Agency for International Development, shall promote the adoption of technologies and practices that reduce greenhouse gas intensity in developing countries in accordance with this section.

"(b) Demonstration Projects.—

"(1) In general.—The Secretaries and the Administrator shall plan, coordinate, and carry out, or provide assistance for the planning, coordination, or carrying out of, demonstration projects under this section in at least 10 eligible countries, as determined by the Secretaries and the Administrator.

"(2) Eligibility.—A country shall be eligible for assistance under this subsection if the Secretaries and the Administrator determine that the country has demonstrated a commitment to—

"(A) just governance, including—

"(i) promoting the rule of law;

"(ii) respecting human and civil rights;

"(iii) protecting private property rights; and

"(iv) combating corruption; and

"(B) economic freedom, including economic policies that—

"(i) encourage citizens and firms to participate in global trade and international capital markets;

"(ii) promote private sector growth and the sustainable management of natural resources; and

"(iii) strengthen market forces in the economy.

"(3) Selection.—In determining which eligible countries to provide assistance to under paragraph (1), the Secretaries and the Administrator shall consider—

"(A) the opportunity to reduce greenhouse gas intensity in the eligible country; and

"(B) the opportunity to generate economic growth in the eligible country.

"(4) Types of projects.—Demonstration projects under this section may include—

"(A) coal gasification, coal liquefaction, and clean coal projects;

"(B) carbon sequestration projects;

"(C) cogeneration technology initiatives;

"(D) renewable projects; and

"(E) lower emission transportation.

"SEC. 737. FELLOWSHIP AND EXCHANGE PROGRAMS.

"The Secretary of State, in coordination with the Secretary of Energy, the Secretary of Commerce, and the Administrator of the Environmental Protection Agency, shall carry out fellowship and exchange programs under which officials from developing countries visit the United States to acquire expertise and knowledge of best practices to reduce greenhouse gas intensity in their countries.

"SEC. 738. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated such sums as are necessary to carry out this part.

"SEC. 739. EFFECTIVE DATE.

"Except as otherwise provided in this part, this part takes effect on October 1, 2005.".

TITLE XVII—INCENTIVES FOR INNOVATIVE TECHNOLOGIES

SEC. 1701. DEFINITIONS.

In this title:

(1) Commercial technology.—

(A) In general.—The term "commercial technology" means a technology in general use in the commercial marketplace.

(B) Inclusions.—The term "commercial technology" does not include a technology solely by use of the technology in a demonstration project funded by the Department.

(2) Cost.—The term "cost" has the meaning given the term "cost of a loan guarantee" within the meaning of section 502(5)(C) of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a(5)(C)).

(3) Eligible project.—The term "eligible project" means a project described in section 1703.

(4) Guarantee.—

(A) In general.—The term "guarantee" has the meaning given the term "loan guarantee" in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a).

(B) Inclusion.—The term "guarantee" includes a loan guarantee commitment (as defined in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a)).

(5) Obligation.—The term "obligation" means the loan or other debt obligation that is guaranteed under this section.

SEC. 1702. TERMS AND CONDITIONS.

(a) In General.—Except for division C of Public Law 108–324, the Secretary shall make guarantees under this or any other Act for projects on such terms and conditions as the Secretary determines, after consultation with the Secretary of the Treasury, only in accordance with this section.

(b) Specific Appropriation or Contribution.—No guarantee shall be made unless—

(1) an appropriation for the cost has been made; or

(2) the Secretary has received from the borrower a payment in full for the cost of the obligation and deposited the payment into the Treasury.

(c) Amount.—Unless otherwise provided by law, a guarantee by the Secretary shall not exceed an amount equal to 80 percent of the project cost of the facility that is the subject of the guarantee, as estimated at the time at which the guarantee is issued.

(d) Repayment.—

(1) In general.—No guarantee shall be made unless the Secretary determines that there is reasonable prospect of repayment of the principal and interest on the obligation by the borrower.

(2) Amount.—No guarantee shall be made unless the Secretary determines that the amount of the obligation (when combined with amounts available to the borrower from other sources) will be sufficient to carry out the project.

(3) Subordination.—The obligation shall be subject to the condition that the obligation is not subordinate to other financing.

(e) Interest Rate.—An obligation shall bear interest at a rate that does not exceed a level that the Secretary determines appropriate, taking into account the prevailing rate of interest in the private sector for similar loans and risks.

(f) Term.—The term of an obligation shall require full repayment over a period not to exceed the lesser of—

(1) 30 years; or

(2) 90 percent of the projected useful life of the physical asset to be financed by the obligation (as determined by the Secretary).

(g) Defaults.—

(1) PAYMENT BY SECRETARY.—

(A) IN GENERAL.—If a borrower defaults on the obligation (as defined in regulations promulgated by the Secretary and specified in the guarantee contract), the holder of the guarantee shall have the right to demand payment of the unpaid amount from the Secretary.

(B) PAYMENT REQUIRED.—Within such period as may be specified in the guarantee or related agreements, the Secretary shall pay to the holder of the guarantee the unpaid interest on, and unpaid principal of the obligation as to which the borrower has defaulted, unless the Secretary finds that there was no default by the borrower in the payment of interest or principal or that the default has been remedied.

(C) FORBEARANCE.—Nothing in this subsection precludes any forbearance by the holder of the obligation for the benefit of the borrower which may be agreed upon by the parties to the obligation and approved by the Secretary.

(2) SUBROGATION.—

(A) IN GENERAL.—If the Secretary makes a payment under paragraph (1), the Secretary shall be subrogated to the rights of the recipient of the payment as specified in the guarantee or related agreements including, where appropriate, the authority (notwithstanding any other provision of law) to—

(i) complete, maintain, operate, lease, or otherwise dispose of any property acquired pursuant to such guarantee or related agreements; or

(ii) permit the borrower, pursuant to an agreement with the Secretary, to continue to pursue the purposes of the project if the Secretary determines this to be in the public interest.

(B) SUPERIORITY OF RIGHTS.—The rights of the Secretary, with respect to any property acquired pursuant to a guarantee or related agreements, shall be superior to the rights of any other person with respect to the property.

(C) TERMS AND CONDITIONS.—A guarantee agreement shall include such detailed terms and conditions as the Secretary determines appropriate to—

(i) protect the interests of the United States in the case of default; and

(ii) have available all the patents and technology necessary for any person selected, including the Secretary, to complete and operate the project.

(3) PAYMENT OF PRINCIPAL AND INTEREST BY SECRETARY.—With respect to any obligation guaranteed under this section, the Secretary may enter into a contract to pay, and pay, holders of the obligation, for and on behalf of the borrower, from funds appropriated for that purpose, the principal and interest payments which become due and payable on the unpaid balance of the obligation if the Secretary finds that—

(A)(i) the borrower is unable to meet the payments and is not in default;

(ii) it is in the public interest to permit the borrower to continue to pursue the purposes of the project; and

(iii) the probable net benefit to the Federal Government in paying the principal and interest will be greater than that which would result in the event of a default;

(B) the amount of the payment that the Secretary is authorized to pay shall be no greater than the amount of principal and interest that the borrower is obligated to pay under the agreement being guaranteed; and

(C) the borrower agrees to reimburse the Secretary for the payment (including interest) on terms and conditions that are satisfactory to the Secretary.

(4) ACTION BY ATTORNEY GENERAL.—

(A) NOTIFICATION.—If the borrower defaults on an obligation, the Secretary shall notify the Attorney General of the default.

(B) RECOVERY.—On notification, the Attorney General shall take such action as is appropriate to recover the unpaid principal and interest due from—

(i) such assets of the defaulting borrower as are associated with the obligation; or

(ii) any other security pledged to secure the obligation.

(h) FEES.—

(1) IN GENERAL.—The Secretary shall charge and collect fees for guarantees in amounts the Secretary determines are sufficient to cover applicable administrative expenses.

(2) AVAILABILITY.—Fees collected under this subsection shall—

(A) be deposited by the Secretary into the Treasury; and

(B) remain available until expended, subject to such other conditions as are contained in annual appropriations Acts.

(i) RECORDS; AUDITS.—

(1) IN GENERAL.—A recipient of a guarantee shall keep such records and other pertinent documents as the Secretary shall prescribe by regulation, including such records as the Secretary may require to facilitate an effective audit.

(2) ACCESS.—The Secretary and the Comptroller General of the United States, or their duly authorized representatives, shall have access, for the purpose of audit, to the records and other pertinent documents.

(j) FULL FAITH AND CREDIT.—The full faith and credit of the United States is pledged to the payment of all guarantees issued under this section with respect to principal and interest.

SEC. 1703. ELIGIBLE PROJECTS.

(a) IN GENERAL.—The Secretary may make guarantees under this section only for projects that—

(1) avoid, reduce, or sequester air pollutants or anthropogenic emissions of greenhouse gases; and

(2) employ new or significantly improved technologies as compared to commercial technologies in service in the United States at the time the guarantee is issued.

(b) CATEGORIES.—Projects from the following categories shall be eligible for a guarantee under this section:

(1) Renewable energy systems.

(2) Advanced fossil energy technology (including coal gasification meeting the criteria in subsection (d)).

(3) Hydrogen fuel cell technology for residential, industrial or –transportation applications.

(4) Advanced nuclear energy facilities.

(5) Carbon capture and sequestration practices and technologies, including agricultural and forestry practices that store and sequester carbon.

(6) Efficient electrical generation, transmission, and distribution technologies.

(7) Efficient end-use energy technologies.

(8) Production facilities for fuel efficient vehicles, including hybrid and advanced diesel vehicles.

(9) Pollution control equipment.

(10) Refineries, meaning facilities at which crude oil is refined into gasoline.

(c) GASIFICATION PROJECTS.—The Secretary may make guarantees for the following gasification projects:

(1) INTEGRATED GASIFICATION COMBINED CYCLE PROJECTS.—Integrated gasification combined cycle plants meeting the emission levels under subsection (d), including—

(A) projects for the generation of electricity—

(i) for which, during the term of the guarantee—

(I) coal, biomass, petroleum coke, or a combination of coal, biomass, and petroleum coke will account for at least 65 percent of annual heat input; and

(II) electricity will account for at least 65 percent of net useful annual energy output;

(ii) that have a design that is determined by the Secretary to be capable of accommodating the equipment likely to be necessary to capture the carbon dioxide that would otherwise be emitted in flue gas from the plant;

(iii) that have an assured revenue stream that covers project capital and operating costs (including servicing all debt obligations covered by the guarantee) that is approved by the Secretary and the relevant State public utility commission; and

(iv) on which construction commences not later than the date that is 3 years after the date of the issuance of the guarantee;

(B) a project to produce energy from coal (of not more than 13,000 Btu/lb and mined in the western United States) using appropriate advanced integrated gasification combined cycle technology that minimizes and offers the potential to sequester carbon dioxide emissions and that—

(i) may include repowering of existing facilities;

(ii) may be built in stages;

(iii) shall have a combined output of at least 100 megawatts;

(iv) shall be located in a western State at an altitude greater than 4,000 feet; and

(v) shall demonstrate the ability to use coal with an energy content of not more than 9,000 Btu/lb;

(C) a project located in a taconite-producing region of the United States that is entitled under the law of the State in which the plant is located to enter into a long-term contract approved by a State public utility commission to sell at least 450 megawatts of output to a utility;

(D) facilities that—

(i) generate 1 or more hydrogen-rich and carbon monoxide-rich product streams from the gasification of coal or coal waste; and

(ii) use those streams to facilitate the production of ultra clean premium fuels through the Fischer-Tropsch process; and

(E) a project to produce energy and clean fuels, using appropriate coal liquefaction technology, from Western bituminous or subbituminous coal, that—

(i) is owned by a State government; and

(ii) may include tribal and private coal resources.

(2) INDUSTRIAL GASIFICATION PROJECTS.—Facilities that gasify coal, biomass, or petroleum coke in any combination to produce synthesis gas for use as a fuel or feedstock and for which electricity accounts for less than 65 percent of the useful energy output of the facility.

(3) PETROLEUM COKE GASIFICATION PROJECTS.—The Secretary is encouraged to make loan guarantees under this title available for petroleum coke gasification projects.

(4) LIQUIFACTION PROJECT.—Notwithstanding any other provision of law, funds awarded under the clean coal power initiative under subtitle A of title IV for coal-to-oil liquefaction projects may be used to finance the cost of loan guarantees for projects awarded such funds.

(d) EMISSION LEVELS.—In addition to any other applicable Federal or State emission limitation requirements, a project shall attain at least—

(1) total sulfur dioxide emissions in flue gas from the project that do not exceed 0.05 lb/mmBTU;

(2) a 90-percent removal rate (including any fuel pretreatment) of mercury from the coal-derived gas, and any other fuel, combusted by the project;

(3) total nitrogen oxide emissions in the flue gas from the project that do not exceed 0.08 lb/mmBTU; and

(4) total particulate emissions in the flue gas from the project that do not exceed 0.01 lb/mmBTU.

(e) QUALIFICATION OF FACILITIES RECEIVING TAX CREDITS.—A project that receives tax credits for clean coal technology shall not be disqualified from receiving a guarantee under this title.

SEC. 1704. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated such sums as are necessary to provide the cost of guarantees under this title.

(b) USE OF OTHER APPROPRIATED FUNDS.—The Department may use amounts awarded under the clean coal power initiative under subtitle A of title IV to carry out the project described in section 1703(c)(1)(C), on the request of the recipient of such award, for a loan guarantee, to the extent that the amounts have not yet been disbursed to, or have been repaid by, the recipient.

TITLE XVIII—STUDIES

SEC. 1801. STUDY ON INVENTORY OF PETROLEUM AND NATURAL GAS STORAGE.

(a) DEFINITION.—For purposes of this section "petroleum" means crude oil, motor gasoline, jet fuel, distillates, and propane.

(b) STUDY.—The Secretary shall conduct a study on petroleum and natural gas storage capacity and operational inventory levels, nationwide and by major geographical regions.

(c) CONTENTS.—The study shall address—

(1) historical normal ranges for petroleum and natural gas inventory levels;

(2) historical and projected storage capacity trends;

(3) estimated operation inventory levels below which outages, delivery slowdown, rationing, interruptions in service, or other indicators of shortage begin to appear;

(4) explanations for inventory levels dropping below normal ranges; and

(5) the ability of industry to meet United States demand for petroleum and natural gas without shortages or price spikes, when inventory levels are below normal ranges.

(d) REPORT TO CONGRESS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit a report to Congress on the results of the study, including findings and any recommendations for preventing future supply shortages.

SEC. 1802. STUDY OF ENERGY EFFICIENCY STANDARDS.

The Secretary shall contract with the National Academy of Sciences for a study, to be completed within 1 year after the date of enactment of this Act, to examine whether the goals of energy efficiency standards are best served by measurement of energy consumed, and efficiency improvements, at the actual site of energy consumption, or through the full fuel cycle, beginning at the source of energy production. The Secretary shall submit the report to Congress.

SEC. 1803. TELECOMMUTING STUDY.

(a) STUDY REQUIRED.—The Secretary, in consultation with the Commission, the Director of the Office of Personnel Management, the Administrator of General Services, and the Administrator of NTIA, shall conduct a study of the energy conservation implications of the widespread adoption of telecommuting by Federal employees in the United States.

(b) REQUIRED SUBJECTS OF STUDY.—The study required by subsection (a) shall analyze the following subjects in relation to the energy saving potential of telecommuting by Federal employees:

(1) Reductions of energy use and energy costs in commuting and regular office heating, cooling, and other operations.

(2) Other energy reductions accomplished by telecommuting.

(3) Existing regulatory barriers that hamper telecommuting, including barriers to broadband telecommunications services deployment.

(4) Collateral benefits to the environment, family life, and other values.

(c) REPORT REQUIRED.—The Secretary shall submit to the President and Congress a report on the study required by this section not later than 6 months after the date of enactment of this Act. Such report shall include a description of the results of the analysis of each of the subject described in subsection (b).

(d) DEFINITIONS.—As used in this section:

(1) COMMISSION.—The term "Commission" means the Federal Communications Commission.

(2) NTIA.—The term "NTIA" means the National Telecommunications and Information Administration of the Department of Commerce.

(3) TELECOMMUTING.—The term "telecommuting" means the performance of work functions using communications technologies, thereby eliminating or substantially reducing the need to commute to and from traditional worksites.

(4) FEDERAL EMPLOYEE.—The term "Federal employee" has the meaning provided the term "employee" by section 2105 of title 5, United States Code.

SEC. 1804. LIHEAP REPORT.

Not later than 1 year after the date of enactment of this Act, the Secretary of Health and Human Services shall transmit to Congress a report on how the Low-Income Home Energy Assistance Program could be used more effectively to prevent loss of life from extreme temperatures. In preparing such report, the Secretary shall consult with appropriate officials in all 50 States and the District of Columbia.

SEC. 1805. OIL BYPASS FILTRATION TECHNOLOGY.

The Secretary and the Administrator of the Environmental Protection Agency shall—

(1) conduct a joint study of the benefits of oil bypass filtration technology in reducing demand for oil and protecting the environment;

(2) examine the feasibility of using oil bypass filtration technology in Federal motor vehicle fleets; and

(3) include in such study, prior to any determination of the feasibility of using oil bypass filtration technology, the evaluation of products and various manufacturers.

SEC. 1806. TOTAL INTEGRATED THERMAL SYSTEMS.

The Secretary shall—

(1) conduct a study of the benefits of total integrated thermal systems in reducing demand for oil and protecting the environment; and

(2) examine the feasibility of using total integrated thermal systems in Department of Defense and other Federal motor vehicle fleets.

SEC. 1807. REPORT ON ENERGY INTEGRATION WITH LATIN AMERICA.

The Secretary shall submit an annual report to the Committee on Energy and Commerce of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate concerning the status of energy export development in Latin America and efforts by the Secretary and other departments and agencies of the United States to promote energy integration with Latin America. The report shall contain a detailed analysis of the status of energy export development in Mexico and a description of all significant efforts by the Secretary and other departments and agencies to promote a constructive relationship with Mexico regarding the development of that nation's energy capacity. In particular this report shall outline efforts the Secretary and other departments and agencies have made to ensure that regulatory approval and oversight of United States/Mexico border projects that result in the expansion of Mexican energy capacity are effectively coordinated across departments and with the Mexican government.

SEC. 1808. LOW-VOLUME GAS RESERVOIR STUDY.

(a) STUDY.—The Secretary shall make a grant to an organization of oil and gas producing States, specifically those containing significant numbers of marginal oil and natural gas wells, for conducting an annual study of low-volume natural gas reservoirs. Such organization shall work with the State geologist of each State being studied.

(b) CONTENTS.—The studies under this section shall—

(1) determine the status and location of marginal wells and gas reservoirs;

(2) gather the production information of these marginal wells and reservoirs;

(3) estimate the remaining producible reserves based on variable pipeline pressures;

(4) locate low-pressure gathering facilities and pipelines;

(5) recommend incentives which will enable the continued production of these resources;

(6) produce maps and literature to disseminate to States to promote conservation of natural gas reserves; and

(7) evaluate the amount of natural gas that is being wasted through the practice of venting or flaring of natural gas produced in association with crude oil well production.

(c) DATA ANALYSIS.—Data development and analysis under this section shall be performed by an institution of higher education with GIS capabilities. If the organization receiving the grant under subsection (a) does not have GIS capabilities, such organization shall contract with one or more entities with—

(1) technological capabilities and resources to perform advanced image processing, GIS programming, and data analysis; and

(2) the ability to—

(A) process remotely sensed imagery with high spatial resolution;

(B) deploy global positioning systems;

(C) process and synthesize existing, variable-format gas well, pipeline, gathering facility, and reservoir data;

(D) create and query GIS databases with infrastructure location and attribute information;

(E) write computer programs to customize relevant GIS software;

(F) generate maps, charts, and graphs which summarize findings from data research for presentation to different audiences; and

(G) deliver data in a variety of formats, including Internet Map Server for query and display, desktop computer display, and access through handheld personal digital assistants.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section—

(1) $1,500,000 for fiscal year 2006; and

(2) $450,000 for each of the fiscal years 2007 through 2010.

(e) DEFINITIONS.—For purposes of this section, the term "GIS" means geographic information systems technology that facilitates the organization and management of data with a geographic component.

SEC. 1809. INVESTIGATION OF GASOLINE PRICES.

(a) INVESTIGATION.—Not later than 90 days after the date of enactment of this Act, the Federal Trade Commission shall conduct an investigation to determine if the price of gasoline is being artificially manipulated by reducing refinery capacity or by any other form of market manipulation or price gouging practices.

(b) EVALUATION AND ANALYSIS.—The Secretary shall direct the National Petroleum Council to conduct an evaluation and analysis to determine whether, and to what extent, environmental and other regulations affect new domestic refinery construction and significant expansion of existing refinery capacity.

(c) REPORTS TO CONGRESS.—

(1) INVESTIGATION.—On completion of the investigation under subsection (a), the Federal Trade Commission shall submit to Congress a report that describes—

(A) the results of the investigation; and

(B) any recommendations of the Federal Trade Commission.

(2) Evaluation and analysis.—On completion of the evaluation and analysis under subsection (b), the Secretary shall submit to Congress a report that describes—

(A) the results of the evaluation and analysis; and

(B) any recommendations of the National Petroleum Council.

SEC. 1810. ALASKA NATURAL GAS PIPELINE.

Not later than 180 days after the date of enactment of this Act, and every 180 days thereafter until the Alaska natural gas pipeline commences operation, the Federal Energy Regulatory Commission shall submit to Congress a report describing—

(1) the progress made in licensing and constructing the pipeline; and

(2) any issue impeding that progress.

SEC. 1811. COAL BED METHANE STUDY.

(a) Study.—

(1) In general.—The Secretary of the Interior, in consultation with the Administrator of the Environmental Protection Agency, shall enter into an arrangement under which the National Academy of Sciences shall conduct a study on the effect of coalbed natural gas production on surface and ground water resources, including ground water aquifiers, in the States of Montana, Wyoming, Colorado, New Mexico, North Dakota, and Utah.

(2) Matters to be addressed.—The study shall address the effectiveness of—

(A) the management of coal bed methane produced water;

(B) the use of best management practices; and

(C) various production techniques for coal bed methane natural gas in minimizing impacts on water resources.

(b) Data Analysis.—The study shall analyze available hydrologic, geologic and water quality data, along with—

(1) production techniques, produced water management techniques, best management practices, and other factors that can mitigate effects of coal bed methane development;

(2) the costs associated with mitigation techniques;

(3) effects on surface or ground water resources, including drinking water, associated with surface or subsurface disposal of waters produced during extraction of coal bed methane; and

(4) any other significant effects on surface or ground water resources associated with production of coal-bed methane.

(c) Recommendations.—The study shall analyze the effectiveness of current mitigation practices of coal bed methane produced water handling in relation to existing Federal and State laws and regulations, and make recommendations as to changes, if any, to Federal law necessary to address adverse impacts to surface or ground water resources associated with coal bed methane development.

(d) Completion of Study.—The National Academy of Sciences shall submit the findings and recommendations of the study to the Secretary of the Interior and the Administrator of the Environmental Protection Agency within 12 months after the date of enactment of this Act, and shall upon completion make the results of the study available to the public.

(e) Report to Congress.—The Secretary of the Interior and the Administrator of the Environmental Protection Agency, after consulting with States, shall report to the Congress within 6 months after receiving the results of the study on—

(1) the findings and recommendations of the study;

(2) the agreement or disagreement of the Secretary of the Interior and the Administrator of the Environmental Protection Agency with each of its findings and recommendations; and

(3) any recommended changes in funding to address the effects of coal bed methane production on surface and ground water resources.

SEC. 1812. BACKUP FUEL CAPABILITY STUDY.

(a) Study.—

(1) In general.—The Secretary shall conduct a study of the effect of obtaining and maintaining liquid and other fuel backup capability at—

(A) gas-fired power generation facilities; and

(B) other gas-fired industrial facilities.

(2) Contents.—The study under paragraph (1) shall address—

(A) the costs and benefits of adding a different fuel capability to a power gas-fired power generating or industrial facility, taking into consideration regional differences;

(B) methods of the Federal Government and State governments to encourage gas-fired power generators and industries to develop the capability to power the facilities using a backup fuel;

(C) the effect on the supply and cost of natural gas of—

(i) a balanced portfolio of fuel choices in power generation and industrial applications; and

(ii) State regulations that permit agencies in the State to carry out policies that encourage the use of other backup fuels in gas-fired power generation; and

(D) changes required in the Clean Air Act (42 U.S.C. 7401 et seq.) to allow natural gas generators to add clean backup fuel capabilities.

(b) Report to Congress.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to Congress a report on the results of the study under subsection (a), including recommendations regarding future activity of the Federal Government relating to backup fuel capability.

SEC. 1813. INDIAN LAND RIGHTS-OF-WAY.

(a) Study.—

(1) In general.—The Secretary and the Secretary of the Interior (referred to in this section as the "Secretaries") shall jointly conduct a study of issues regarding energy rights-of-way on tribal land (as defined in section 2601 of the Energy Policy Act of 1992 (as amended by section 503)) (referred to in this section as "tribal land").

(2) Consultation.—In conducting the study under paragraph (1), the Secretaries shall consult with Indian tribes, the energy industry, appropriate governmental entities, and affected businesses and consumers.

(b) Report.—Not later than 1 year after the date of enactment of this Act, the Secretaries shall submit to Congress a report on the findings of the study, including—

(1) an analysis of historic rates of compensation paid for energy rights-of-way on tribal land;

(2) recommendations for appropriate standards and procedures for determining fair and appropriate compensation to Indian tribes for grants, expansions, and renewals of energy rights-of-way on tribal land;

(3) an assessment of the tribal self-determination and sovereignty interests implicated by applications for the grant, expansion, or renewal of energy rights-of-way on tribal land; and

(4) an analysis of relevant national energy transportation policies relating to grants, expansions, and renewals of energy rights-of-way on tribal land.

SEC. 1814. MOBILITY OF SCIENTIFIC AND TECHNICAL PERSONNEL.

Not later than 2 years after the date of enactment of this section, the Secretary shall transmit to Congress a report that—

(1) identifies any policies or procedures of a contractor operating a National Laboratory or single-purpose research facility that create disincentives to the temporary or permanent transfer of scientific and technical personnel among the contractor-operated National Laboratories or contractor-operated single-purpose research facilities; and

(2) provides recommendations for improving interlaboratory exchange of scientific and technical personnel.

SEC. 1815. INTERAGENCY REVIEW OF COMPETITION IN THE WHOLESALE AND RETAIL MARKETS FOR ELECTRIC ENERGY.

(a) Task Force.—There is established an inter-agency task force, to be known as the "Electric Energy Market Competition Task Force" (referred to in this section as the "task force"), consisting of 5 members—

(1) 1 of whom shall be an employee of the Department of Justice, to be appointed by the Attorney General of the United States;

(2) 1 of whom shall be an employee of the Federal Energy Regulatory Commission, to be appointed by the Chairperson of that Commission;

(3) 1 of whom shall be an employee of the Federal Trade Commission, to be appointed by the Chairperson of that Commission;

(4) 1 of whom shall be an employee of the Department, to be appointed by the Secretary; and

(5) 1 of whom shall be an employee of the Rural Utilities Service, to be appointed by the Secretary of Agriculture.

(b) Study and Report.—

(1) Study.—The task force shall conduct a study and analysis of competition within the wholesale and retail market for electric energy in the United States.

(2) Report.—

(A) Final report.—Not later than 1 year after the date of enactment of this Act, the task force shall submit to Congress a final report on the findings of the task force under paragraph (1).

(B) Public comment.—Not later than the date that is 60 days before a final report is submitted to Congress under subparagraph (A), the task force shall—

(i) publish in the Federal Register a draft of the report; and

(ii) provide an opportunity for public comment on the report.

(c) Consultation.—In conducting the study under subsection (b), the task force shall consult with and solicit comments from any advisory entity of the task force, the States, representatives of the electric power industry, and the public.

SEC. 1816. STUDY OF RAPID ELECTRICAL GRID RESTORATION.

(a) Study.—

(1) In general.—The Secretary shall conduct a study of the benefits of using mobile transformers and mobile substations to rapidly restore electrical service to areas subjected to blackouts as a result of—

(A) equipment failure;

(B) natural disasters;

(C) acts of terrorism; or

(D) war.

(2) Contents.—The study under paragraph (1) shall contain an analysis of—

(A) the feasibility of using mobile transformers and mobile substations to reduce dependence on foreign entities for key elements of the electrical grid system of the United States;

(B) the feasibility of using mobile transformers and mobile substations to rapidly restore electrical power to—

(i) military bases;

(ii) the Federal Government;

(iii) communications industries;

(iv) first responders; and

(v) other critical infrastructures, as determined by the Secretary;

(C) the quantity of mobile transformers and mobile substations necessary—

(i) to eliminate dependence on foreign sources for key electrical grid components in the United States;

(ii) to rapidly deploy technology to fully restore full electrical service to prioritized Governmental functions; and

(iii) to identify manufacturing sources in existence on the date of enactment of this Act that have previously manufactured specialized mobile transformer or mobile substation products for Federal agencies.

(b) Report.—

(1) In general.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to the President and Congress a report on the study under subsection (a).

(2) Inclusion.—The report shall include a description of the results of the analysis under subsection (a)(2).

SEC. 1817. STUDY OF DISTRIBUTED GENERATION.

(a) Study.—

(1) In general.—

(A) Potential benefits.—The Secretary, in consultation with the Federal Energy Regulatory Commission, shall conduct a study of the potential benefits of cogeneration and small power production.

(B) Recipients.—The benefits described in subparagraph (A) include benefits that are received directly or indirectly by—

(i) an electricity distribution or transmission service provider;

(ii) other customers served by an electricity distribution or transmission service provider; and

(iii) the general public in the area served by the public utility in which the cogenerator or small power producer is located.

(2) Inclusions.—The study shall include an analysis of—

(A) the potential benefits of—

(i) increased system reliability;

(ii) improved power quality;

(iii) the provision of ancillary services;

(iv) reduction of peak power requirements through onsite generation;

(v) the provision of reactive power or volt-ampere reactives;

(vi) an emergency supply of power;

(vii) offsets to investments in generation, transmission, or distribution facilities that would otherwise be recovered through rates;

(viii) diminished land use effects and right-of-way acquisition costs; and

(ix) reducing the vulnerability of a system to terrorism; and

(B) any rate-related issue that may impede or otherwise discourage the expansion of cogeneration and small power production facilities, including a review of whether rates, rules, or other requirements imposed on the facilities are comparable to rates imposed on customers of the same class that do not have cogeneration or small power production.

(3) Valuation of benefits.—In carrying out the study, the Secretary shall determine an appropriate method of valuing potential benefits under varying circumstances for individual cogeneration or small power production units.

(b) Report.—Not later than 18 months after the date of enactment of this Act, the Secretary shall—

(1) complete the study;

(2) provide an opportunity for public comment on the results of the study; and

(3) submit to the President and Congress a report describing—

(A) the results of the study; and

(B) information relating to the public comments received under paragraph (2).

(c) Publication.—After submission of the report under subsection (b) to the President and Congress, the Secretary shall publish the report.

SEC. 1818. NATURAL GAS SUPPLY SHORTAGE REPORT.

(a) In General.—Not later than 180 days after the date of enactment of this Act, the Secretary shall submit to Congress a report on natural gas supplies and demand.

(b) Purpose.—The purpose of the report under subsection (a) is to develop recommendations for achieving a balance between natural gas supply and demand in order to—

(1) provide residential consumers with natural gas at reasonable and stable prices;

(2) accommodate long-term maintenance and growth of domestic natural gas-dependent industrial, manufacturing, and commercial enterprises;

(3) facilitate the attainment of national ambient air quality standards under the Clean Air Act (43 U.S.C. 7401 et seq.);

(4) achieve continued progress in reducing the emissions associated with electric power generation; and

(5) support the development of the preliminary phases of hydrogen-based energy technologies.

(c) Comprehensive Analysis.—The report shall include a comprehensive analysis of, for the period beginning on January 1, 2004, and ending on December 31, 2015, natural gas supply and demand in the United States, including—

(1) estimates of annual domestic demand for natural gas, taking into consideration the effect of Federal policies and actions that are likely to increase or decrease the demand for natural gas;

(2) projections of annual natural gas supplies, from domestic and foreign sources, under Federal policies in existence on the date of enactment of this Act;

(3) an identification of estimated natural gas supplies that are not available under those Federal policies;

(4) scenarios for decreasing natural gas demand and increasing natural gas supplies that compare the relative economic and environmental impacts of Federal policies that—

(A) encourage or require the use of natural gas to meet air quality, carbon dioxide emission reduction, or energy security goals;

(B) encourage or require the use of energy sources other than natural gas, including coal, nuclear, and renewable sources;

(C) support technologies to develop alternative sources of natural gas and synthetic gas, including coal gasification technologies;

(D) encourage or require the use of energy conservation and demand side management practices; and

(E) affect access to domestic natural gas supplies; and

(5) recommendations for Federal actions to achieve the purposes described in subsection (b), including recommendations that—

(A) encourage or require the use of energy sources other than natural gas, including coal, nuclear, and renewable sources;

(B) encourage or require the use of energy conservation or demand side management practices;

(C) support technologies for the development of alternative sources of natural gas and synthetic gas, including coal gasification technologies; and

(D) would improve access to domestic natural gas supplies.

(d) Consultation.—In preparing the report under subsection (a), the Secretary shall consult with—

(1) experts in natural gas supply and demand; and

(2) representatives of—

(A) State and local governments;

(B) tribal organizations; and

(C) consumer and other organizations.

(e) Hearings.—In preparing the report under subsection (a), the Secretary may hold public hearings and provide other opportunities for public comment, as the Secretary considers appropriate.

SEC. 1819. HYDROGEN PARTICIPATION STUDY.

Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to Congress a report evaluating methodologies to ensure the widest participation practicable in setting goals and milestones under the hydrogen program of the Department, including international participants.

SEC. 1820. OVERALL EMPLOYMENT IN A HYDROGEN ECONOMY.

(a) Study.—

(1) In general.—The Secretary shall carry out a study of the likely effects of a transition to a hydrogen economy on overall employment in the United States.

(2) Contents.—In completing the study, the Secretary shall take into consideration—

(A) the replacement effects of new goods and services;

(B) international competition;

(C) workforce training requirements;

(D) multiple possible fuel cycles, including usage of raw materials;

(E) rates of market penetration of technologies; and

(F) regional variations based on geography.

(b) Report.—Not later than 18 months after the date of enactment of this Act, the Secretary shall submit to Congress a report describing the findings, conclusions, and recommendations of the study under subsection (a).

SEC. 1821. STUDY OF BEST MANAGEMENT PRACTICES FOR ENERGY RESEARCH AND DEVELOPMENT PROGRAMS.

(a) In General.—The Secretary shall enter into an arrangement with the National Academy of Public Administration under which the Academy shall conduct a study to assess management practices for research, development, and demonstration programs at the Department.

(b) Scope of the Study.—The study shall consider—

(1) management practices that act as barriers between the Office of Science and offices conducting mission-oriented research;

(2) recommendations for management practices that would improve coordination and bridge the innovation gap between the Office of Science and offices conducting mission-oriented research;

(3) the applicability of the management practices used by the Department of Defense Advanced Research Projects Agency to research programs at the Department;

(4) the advisability of creating an agency within the Department modeled after the Department of Defense Advanced Research Projects Agency;

(5) recommendations for management practices that could best encourage innovative research and efficiency at the Department; and

(6) any other relevant considerations.

(c) Report.—Not later than 18 months after the date of enactment of this Act, the Secretary shall submit to Congress a report on the study conducted under this section.

SEC. 1822. EFFECT OF ELECTRICAL CONTAMINANTS ON RELIABILITY OF ENERGY PRODUCTION SYSTEMS.

Not later than 180 days after the date of enactment of this Act, the Secretary shall enter into a contract with the National Academy of Sciences under which the National Academy of Sciences shall determine the effect that electrical contaminants (such as tin whiskers) may have on the reliability of energy production systems, including nuclear energy.

SEC. 1823. ALTERNATIVE FUELS REPORTS.

(a) In General.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to Congress reports on the potential for each of biodiesel and hythane to become major, sustainable, alternative fuels.

(b) Biodiesel Report.—The report relating to biodiesel submitted under subsection (a) shall—

(1) provide a detailed assessment of—

(A) potential biodiesel markets and manufacturing capacity; and

(B) environmental and energy security benefits with respect to the use of biodiesel;

(2) identify any impediments, especially in infrastructure needed for production, distribution, and storage, to biodiesel becoming a substantial source of fuel for conventional diesel and heating oil applications;

(3) identify strategies to enhance the commercial deployment of biodiesel; and

(4) include an examination and recommendations, as appropriate, of the ways in which biodiesel may be modified to be a cleaner-burning fuel.

(c) Hythane Report.—The report relating to hythane submitted under subsection (a) shall—

(1) provide a detailed assessment of potential hythane markets and the research and development activities that are necessary to facilitate the commercialization of hythane as a competitive, environmentally friendly transportation fuel;

(2) address—

(A) the infrastructure necessary to produce, blend, distribute, and store hythane for widespread commercial purposes; and

(B) other potential market barriers to the commercialization of hythane;

(3) examine the viability of producing hydrogen using energy-efficient, environmentally friendly methods so that the hydrogen can be blended with natural gas to produce hythane; and

(4) include an assessment of the modifications that would be required to convert compressed natural gas vehicle engines to engines that use hythane as fuel.

(d) Grants for Report Completion.—The Secretary may use such sums as are available to the Secretary to provide, to 1 or more colleges or universities selected by the Secretary, grants for use in carrying out research to assist the Secretary in preparing the reports required to be submitted under subsection (a).

SEC. 1824. FINAL ACTION ON REFUNDS FOR EXCESSIVE CHARGES.

FERC shall—

(1) seek to conclude its investigation into the unjust or unreasonable charges incurred by California during the 2000–2001 electricity crisis as soon as possible;

(2) seek to ensure that refunds the Commission determines are owed to the State of California are paid to the State of California; and

(3) submit to Congress a report by December 31, 2005, describing the actions taken by the Commission to date under this section and timetables for further actions.

SEC. 1825. FUEL CELL AND HYDROGEN TECHNOLOGY STUDY.

(a) In General.—As soon as practicable after the date of enactment of this Act, the Secretary shall enter into a contract with the National Academy of Sciences and the National Research Council to carry out a study of fuel cell technologies that provides a budget roadmap for the development of fuel cell technologies and the transition from petroleum to hydrogen in a significant percentage of the vehicles sold by 2020.

(b) Requirements.—In carrying out the study, the National Academy of Sciences and the National Research Council shall—

(1) establish as a goal the maximum percentage practicable of vehicles that the National Academy of Sciences and the National Research Council determines can be fueled by hydrogen by 2020;

(2) determine the amount of Federal and private funding required to meet the goal established under paragraph (1);

(3) determine what actions are required to meet the goal established under paragraph (1);

(4) examine the need for expanded and enhanced Federal research and development programs, changes in regulations, grant programs, partnerships between the Federal Government and industry, private sector investments, infrastructure investments by the Federal Government and industry, educational and public information initiatives, and Federal and State tax incentives to meet the goal established under paragraph (1);

(5) consider whether other technologies would be less expensive or could be more quickly implemented than fuel cell technologies to achieve significant reductions in carbon dioxide emissions;

(6) take into account any reports relating to fuel cell technologies and hydrogen-fueled vehicles, including—

(A) the report prepared by the National Academy of Engineering and the National Research Council in 2004 entitled "Hydrogen Economy: Opportunities, Costs, Barriers, and R&D Needs"; and

(B) the report prepared by the U.S. Fuel Cell Council in 2003 entitled "Fuel Cells and Hydrogen: The Path Forward";

(7) consider the challenges, difficulties, and potential barriers to meeting the goal established under paragraph (1); and

(8) with respect to the budget roadmap—

(A) specify the amount of funding required on an annual basis from the Federal Government and industry to carry out the budget roadmap; and

(B) specify the advantages and disadvantages to moving toward the transition to hydrogen in vehicles in accordance with the timeline established by the budget roadmap.

SEC. 1826. PASSIVE SOLAR TECHNOLOGIES.

(a) Definition of Passive Solar Technology.—In this section, the term "passive solar technology" means a passive solar technology, including daylighting, that—

(1) is used exclusively to avoid electricity use; and

(2) can be metered to determine energy savings.

(b) Study.—The Secretary shall conduct a study to determine—

(1) the range of levelized costs of avoided electricity for passive solar technologies;

(2) the quantity of electricity displaced using passive solar technologies in the United States as of the date of enactment of this Act; and

(3) the projected energy savings from passive solar technologies in 5, 10, 15, 20, and 25 years after the date of enactment of this Act if—

(A) incentives comparable to the incentives provided for electricity generation technologies were provided for passive solar technologies; and

(B) no new incentives for passive solar technologies were provided.

(c) Report.—Not later than 120 days after the date of enactment of this Act, the Secretary shall submit to Congress a report that describes the results of the study under subsection (b).

SEC. 1827. STUDY OF LINK BETWEEN ENERGY SECURITY AND INCREASES IN VEHICLE MILES TRAVELED.

(a) In General.—The Secretary shall enter into an arrangement with the National Academy of Sciences under which the Academy shall conduct a study to assess the implications on energy use and efficiency of land development patterns in the United States.

(b) Scope.—The study shall consider—

(1) the correlation, if any, between land development patterns and increases in vehicle miles traveled;

(2) whether petroleum use in the transportation sector can be reduced through changes in the design of development patterns;

(3) the potential benefits of—

(A) information and education programs for State and local officials (including planning officials) on the potential for energy savings through planning, design, development, and infrastructure decisions;

(B) incorporation of location efficiency models in transportation infrastructure planning and investments; and

(C) transportation policies and strategies to help transportation planners manage the demand for the number and length of vehicle trips, including trips that increase the viability of other means of travel; and

(4) such other considerations relating to the study topic as the National Academy of Sciences finds appropriate.

(c) Report.—Not later than 2 years after the date of enactment of this Act, the National Academy of Sciences shall submit to the Secretary and Congress a report on the study conducted under this section.

SEC. 1828. SCIENCE STUDY ON CUMULATIVE IMPACTS OF MULTIPLE OFFSHORE LIQUEFIED NATURAL GAS FACILITIES.

(a) In General.—The Secretary (in consultation with the National Oceanic Atmospheric Administration, the Commandant of the Coast Guard, affected recreational and commercial fishing industries, and affected energy and transportation stakeholders) shall carry out a study and compile existing science (including studies and data) to determine the risks or benefits presented by cumulative impacts of multiple offshore liquefied natural gas facilities reasonably assumed to be constructed in an area of the Gulf of Mexico using the open-rack vaporization system.

(b) Accuracy.—In carrying out subsection (a), the Secretary shall verify the accuracy of available science and develop a science-based evaluation of significant short-term and long-term cumulative impacts, both adverse and beneficial, of multiple offshore liquefied natural gas facilities reasonably assumed to be constructed in an area of the Gulf of Mexico using or proposing the open-rack vaporization system on the fisheries and marine populations in the vicinity of the facility.

SEC. 1829. ENERGY AND WATER SAVING MEASURES IN CONGRESSIONAL BUILDINGS.

(a) In General.—The Architect of the Capitol, as part of the process of updating the Master Plan Study for the Capitol complex, shall—

(1) carry out a study to evaluate the energy infrastructure of the Capitol complex to determine how to augment the infrastructure to become more energy efficient—

(A) by using unconventional and renewable energy resources;

(B) by—

(i) incorporating new technologies to implement effective green building solutions;

(ii) adopting computer-based building management systems; and

(iii) recommending strategies based on end-user behavioral changes to implement low-cost environmental gains; and

(C) in a manner that would enable the Capitol complex to have reliable utility service in the event of power fluctuations, shortages, or outages;

(2) carry out a study to explore the feasibility of installing energy and water conservation measures on the rooftop of the Dirksen Senate Office Building, including the area directly above the food service facilities in the center of the building, including the installation of—

(A) a vegetative covering area, using native species to the maximum extent practicable, to—

(i) insulate and increase the energy efficiency of the building;

(ii) reduce precipitation runoff and conserve water for landscaping or other uses;

(iii) increase, and provide more efficient use of, available outdoor space through management of the rooftop of the center of the building

as a park or garden area for occupants of the building; and

(iv) improve the aesthetics of the building; and

(B) onsite renewable energy and other state-of-the-art technologies to—

(i) improve the energy efficiency and energy security of the building or the Capitol complex by providing additional or backup sources of power in the event of a power shortage or other emergency;

(ii) reduce the use of resources by the building; or

(iii) enhance worker productivity; and

(C) not later than 180 days after the date of enactment of this Act, submit to Congress a report describing the findings and recommendations of the study under subparagraph (B).

(b) Authorization of Appropriations.—There is authorized to be appropriated to the Architect of the Capitol to carry out this section $2,000,000 for each of fiscal years 2006 through 2010.

SEC. 1830. STUDY OF AVAILABILITY OF SKILLED WORKERS.

(a) In General.—The Secretary shall enter into an arrangement with the National Academy of Sciences under which the National Academy of Sciences shall conduct a study of the short-term and long-term availability of skilled workers to meet the energy and mineral security requirements of the United States.

(b) Inclusions.—The study shall include an analysis of—

(1) the need for and availability of workers for the oil, gas, and mineral industries;

(2) the availability of skilled labor at both entry level and more senior levels; and

(3) recommendations for future actions needed to meet future labor requirements.

(c) Report.—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to Congress a report that describes the results of the study.

SEC. 1831. REVIEW OF ENERGY POLICY ACT OF 1992 PROGRAMS.

(a) In General.—Not later than 180 days after the date of enactment of this section, the Secretary shall complete a study to determine the effect that titles III, IV, and V of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.) have had on—

(1) the development of alternative fueled vehicle technology;

(2) the availability of that technology in the market; and

(3) the cost of alternative fueled vehicles.

(b) Topics.—As part of the study under subsection (a), the Secretary shall specifically identify—

(1) the number of alternative fueled vehicles acquired by fleets or covered persons required to acquire alternative fueled vehicles;

(2) the quantity, by type, of alternative fuel actually used in alternative fueled vehicles acquired by fleets or covered persons;

(3) the quantity of petroleum displaced by the use of alternative fuels in alternative fueled vehicles acquired by fleets or covered persons;

(4) the direct and indirect costs of compliance with requirements under titles III, IV, and V of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.), including—

(A) vehicle acquisition requirements imposed on fleets or covered persons;

(B) administrative and recordkeeping expenses;

(C) fuel and fuel infrastructure costs;

(D) associated training and employee expenses; and

(E) any other factors or expenses the Secretary determines to be necessary to compile reliable estimates of the overall costs and benefits of complying with programs under those titles for fleets, covered persons, and the national economy;

(5) the existence of obstacles preventing compliance with vehicle acquisition requirements and increased use of alternative fuel in alternative fueled vehicles acquired by fleets or covered persons; and

(6) the projected impact of amendments to the Energy Policy Act of 1992 made by this title.

(c) Report.—Upon completion of the study under this section, the Secretary shall submit to Congress a report that describes the results of the study and includes any recommendations of the Secretary for legislative or administrative changes concerning the alternative fueled vehicle requirements under titles III, IV and V of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.).

SEC. 1832. STUDY ON THE BENEFITS OF ECONOMIC DISPATCH.

(a) Study.—The Secretary, in coordination and consultation with the States, shall conduct a study on—

(1) the procedures currently used by electric utilities to perform economic dispatch;

(2) identifying possible revisions to those procedures to improve the ability of nonutility generation resources to offer their output for sale for the purpose of inclusion in economic dispatch; and

(3) the potential benefits to residential, commercial, and industrial electricity consumers nationally and in each state if economic dispatch procedures were revised to improve the ability of nonutility generation resources to offer their output for inclusion in economic dispatch.

(b) Definition.—The term "economic dispatch" when used in this section means the operation of generation facilities to produce energy at the lowest cost to reliably serve consumers, recognizing any operational limits of generation and transmission facilities.

(c) Report to Congress and the States.—Not later than 90 days after the date of enactment of this Act, and on a yearly basis following, the Secretary shall submit a report to Congress and the States on the results of the study conducted under subsection (a), including recommendations to Congress and the States for any suggested legislative or regulatory changes.

SEC. 1833. RENEWABLE ENERGY ON FEDERAL LAND.

(a) National Academy of Sciences Study.—Not later than 90 days after the date of enactment of this Act, the Secretary of the Interior shall enter into a contract with the National Academy of Sciences under which the National Academy of Sciences shall—

(1) study the potential of developing wind, solar, and ocean energy resources (including tidal, wave, and thermal energy) on Federal land available for those uses under current law and the outer Continental Shelf;

(2) assess any Federal law (including regulations) relating to the development of those resources that is in existence on the date of enactment of this Act; and

(3) recommend statutory and regulatory mechanisms for developing those resources.

(b) Submission to Congress.—Not later than 2 years after the date of enactment of this Act, the Secretary of the Interior shall submit to Congress the results of the study under subsection (a).

SEC. 1834. INCREASED HYDROELECTRIC GENERATION AT EXISTING FEDERAL FACILITIES.

(a) In General.—The Secretary of the Interior, the Secretary, and the Secretary of the Army shall jointly conduct a study of the potential for increasing electric power production capability at federally owned or operated water regulation, storage, and conveyance facilities.

(b) Content.—The study under this section shall include identification and description in detail of each facility that is capable, with or without modification, of producing additional hydroelectric power, including estimation of the existing potential for the facility to generate hydroelectric power.

(c) Report.—The Secretaries shall submit to the Committees on Energy and Commerce, Resources, and Transportation and Infrastructure of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the findings, conclusions, and recommendations of the study under this section by not later than 18 months after the date of the enactment of this Act. The report shall include each of the following:

(1) The identifications, descriptions, and estimations referred to in subsection (b).

(2) A description of activities currently conducted or considered, or that could be considered, to produce additional hydroelectric power from each identified facility.

(3) A summary of prior actions taken by the Secretaries to produce additional hydroelectric power from each identified facility.

(4) The costs to install, upgrade, or modify equipment or take other actions to produce additional hydroelectric power from each identified facility and the level of Federal power customer involvement in the determination of such costs.

(5) The benefits that would be achieved by such installation, upgrade, modification, or other action, including quantified estimates of any additional energy or capacity from each facility identified under subsection (b).

(6) A description of actions that are planned, underway, or might reasonably be considered to increase hydroelectric power production by replacing turbine runners, by performing generator upgrades or rewinds, or construction of pumped storage facilities.

(7) The impact of increased hydroelectric power production on irrigation, water supply, fish, wildlife, Indian tribes, river health, water quality, navigation, recreation, fishing, and flood control.

(8) Any additional recommendations to increase hydroelectric power production from, and reduce costs and improve efficiency at, federally owned or operated water regulation, storage, and conveyance facilities.

SEC. 1835. SPLIT-ESTATE FEDERAL OIL AND GAS LEASING AND DEVELOPMENT PRACTICES.

(a) Review.—In consultation with affected private surface owners, oil and gas industry, and other interested parties, the Secretary of the Interior shall undertake a review of the current policies and practices with respect to management of Federal subsurface oil and gas development activities and their effects on the privately owned surface. This review shall include—

(1) a comparison of the rights and responsibilities under existing mineral and land law for the owner of a Federal mineral lease, the private surface owners and the Department;

(2) a comparison of the surface owner consent provisions in section 714 of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1304) concerning surface mining of Federal coal deposits and the surface owner consent provisions for oil and gas development, including coalbed methane production; and

(3) recommendations for administrative or legislative action necessary to facilitate reasonable access for Federal oil and gas activities while addressing surface owner concerns and minimizing impacts to private surface.

(b) Report.—The Secretary of the Interior shall report the results of such review to Congress not later than 180 days after the date of enactment of this Act.

SEC. 1836. RESOLUTION OF FEDERAL RESOURCE DEVELOPMENT CONFLICTS IN THE POWDER RIVER BASIN.

(a) REVIEW.—The Secretary of the Interior shall review Federal and State laws in existence on the date of enactment of this Act in order to resolve any conflict relating to the Powder River Basin in Wyoming and Montana between—

(1) the development of Federal coal; and

(2) the development of Federal and non-Federal coalbed methane.

(b) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretary of the Interior shall submit to Congress a report that—

(1) describes methods of resolving a conflict described in subsection (a); and

(2) identifies a method preferred by the Secretary of the Interior, including proposed legislative language, if any, required to implement the method.

SEC. 1837. NATIONAL SECURITY REVIEW OF INTERNATIONAL ENERGY REQUIREMENTS.

(a) STUDY.—The Secretary, in consultation with the Secretary of Defense and Secretary of Homeland Security, shall conduct a study of the growing energy requirements of the People's Republic of China and the implications of such growth on the political, strategic, economic, or national security interests of the United States, including—

(1) an assessment of the type, nationality, and location of energy assets that have been sought for investment by entities located in the People's Republic of China;

(2) an assessment of the extent to which investment in energy assets by entities located in the People's Republic of China has been on market-based terms and free from subsidies from the People's Republic of China;

(3) an assessment of the effect of investment in energy assets by entities located in the People's Republic of China on the control by the United States of dual-use and export-controlled technologies, including the effect on current and future access to foreign and domestic sources of rare earth elements used to produce such technologies;

(4) an assessment of the relationship between the Government of the People's Republic of China and energy-related businesses located in the People's Republic of China;

(5) an assessment of the impact on the world energy market of the common practice of entities located in the People's Republic of China of removing the energy assets owned or controlled by such entities from the competitive market, with emphasis on the effect if such practice expands along with the growth in energy consumption of the People's Republic of China;

(6) an examination of the United States energy policy and foreign policy as it relates to ensuring a competitive global energy market;

(7) an examination of the relationship between the United States and the People's Republic of China as it relates to pursuing energy interests in a manner that avoids conflicts; and

(8) a comparison of the appropriate laws and regulations of other nations to determine whether a United States company would be permitted to purchase, acquire, merge, or otherwise establish a joint relationship with an entity whose primary place of business is in that other nation, including the laws and regulations of the People's Republic of China.

(b) REPORT AND RECOMMENDATIONS.—Not later than 120 days after the date of the enactment of this Act, the Secretary, in consultation with the Secretary of Defense, shall report to the President and the Congress on the findings of the study described in subsection (a) and any recommendations the Secretaries consider appropriate.

(c) REGULATORY EFFECT.—Notwithstanding any other provision of law, any instrumentality of the United States vested with authority to review a transaction that includes an investment in a United States domestic corporation may not conclude a national security review related to an investment in the energy assets of a United States domestic corporation by an entity owned or controlled by the government of the People's Republic of China for 21 days after the report to the President and the Congress, and until the President certifies that he has received the report described in subsection (b).

SEC. 1838. USED OIL RE-REFINING STUDY.

The Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall undertake a study of the energy and environmental benefits of the re-refining of used lubricating oil and report to Congress within 90 days after enactment of this Act including recommendations of specific steps that can be taken to improve collections of used lubricating oil and increase re-refining and other beneficial re-use of such oil.

SEC. 1839. TRANSMISSION SYSTEM MONITORING.

Within 6 months after the date of enactment of this Act, the Secretary and the Federal Energy Regulatory Commission shall study and report to Congress on the steps which must be taken to establish a system to make available to all transmission system owners and Regional Transmission Organizations (as defined in the Federal Power Act) within the Eastern and Western Interconnections real-time information on the functional status of all transmission lines within such Interconnections. In such study, the Commission shall assess technical means for implementing such transmission information system and identify the steps the Commission or Congress must take to require the implementation of such system.

SEC. 1840. REPORT IDENTIFYING AND DESCRIBING THE STATUS OF POTENTIAL HYDROPOWER FACILITIES.

(a) REPORT REQUIREMENT.—Not later than 90 days after the date of enactment of this Act, the Secretary of the Interior, acting through the Bureau of Reclamation, shall submit to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report identifying and describing the status of potential hydropower facilities included in water surface storage studies undertaken by the Secretary for projects that have not been completed or authorized for construction.

(b) REPORT CONTENTS.—The report shall include the following:

(1) Identification of all surface storage studies authorized by Congress since the enactment of the Reclamation Project Act of 1939 (43 U.S.C. 485 et seq.).

(2) The purposes of each project included within each study identified under paragraph (1).

(3) The status of each study identified under paragraph (1), including for each study—

(A) whether the study is completed or, if not completed, still authorized;

(B) the level of analyses conducted at the feasibility and reconnaissance levels of review;

(C) identifiable environmental impacts of each project included in the study, including to fish and wildlife, water quality, and recreation;

(D) projected water yield from each such project;

(E) beneficiaries of each such project;

(F) the amount authorized and expended;

(G) projected funding needs and timelines for completing the study (if applicable);

(H) anticipated costs of each such project; and

(I) other factors that might interfere with construction of any such project.

(4) An identification of potential hydroelectric facilities that might be developed pursuant to each study identified under paragraph (1).

(5) Applicable costs and benefits associated with potential hydroelectric production pursuant to each study.

And the Senate agree to the same.

From the Committee on Energy and Commerce, for consideration of the House bill and the Senate amendment, and modifications committed to conference:

Joe Barton,
Ralph M. Hall,
Mike Bilirakis,
Fred Upton,
Cliff Stearns,
Paul Gillmor,
John Shimkus,
John Shadegg,
Chip Pickering,
Roy Blunt,
Charles F. Bass,
John D. Dingell,
Rick Boucher,
Bart Stupak,
Albert R. Wynn,

From the Committee on Agriculture, for consideration of secs. 332, 344, 346, 1701, 1806, 2008, 2019, 2024, 2029, and 2030 of the House bill, and secs. 251–253, 264, 303, 319, 342, 343, 345, and 347 of the Senate amendment, and modifications committed to conference:

Bob Goodlatte,
Frank D. Lucas,
Collin C. Peterson,

From the Committee on Armed Services, for consideration of secs. 104, 231, 601–607, 609–612, and 661 of the House bill, and secs. 104, 281, 601–607, 609, 610, 625, 741–743, 1005, and 1006 of the Senate amendment, and modifications committed to conference:

Duncan Hunter,
Curt Weldon,
Ike Skelton,

From the Committee on Education and the Workforce, for consideration of secs. 121, 632, 640, 2206, and 2209 of the House bill, and secs. 625, 1103, 1104, and 1106 of the Senate amendment, and modifications committed to conference:

Charlie Norwood,
Sam Johnson,

From the Committee on Financial Services, for consideration of secs. 141–149 of the House bill, and secs. 161–164 and 505 of the Senate amendment, and modifications committed to conference:

Michael G. Oxley,
Bob Ney,

From the Committee on Government Reform, for consideration of secs. 102, 104, 105, 203, 205, 502, 624, 632, 701, 704, 1002, 1227, and 2304 of the House bill, and secs. 102, 104, 105, 108, 203, 502, 625, 701–703, 723–725, 741–743, 939, and 1011 of the Senate amendment, and modifications committed to conference:

Tom Davis,
Darrell Issa,
Diane E. Watson,

From the Committee on the Judiciary, for consideration of secs. 320, 377, 612, 625, 632, 663, 665, 1221, 1265, 1270, 1283, 1442, 1502, and 2208 of the House bill, and secs. 137, 211, 328, 384, 389, 625, 1221, 1264, 1269, 1270, 1275, 1280, and 1402 of the Senate amendment, and modifications committed to conference:

F. James Sensenbrenner, Jr.,
Steve Chabot,

From the Committee on Resources, for consideration of secs. 204, 231, 330, 344, 346, 355, 358, 377, 379, Title V, secs. 969–976, 1701, 1702, Title XVIII, secs. 1902, 2001–2019, 2022–2031, 2033, 2041, 2042, 2051–2055, Title XXI, Title XXII, and Title XXIV of the House bill, and secs. 241–245, 252, 253, 261–270, 281, 311–317, 319–323, 326, 327, 342–346, 348, 371, 387, 391, 411–414, 416, and 501–506 of the Senate amendment, and modifications committed to conference:

RICHARD POMBO,
BARBARA CUBIN,
NICK RAHALL,

From the Committee on Rules, for consideration of sec. 713 of the Senate amendment, and modifications committed to conference:

DAVID DREIER,
LINCOLN DIAZ-BALART,
LOUISE SLAUGHTER,

From the Committee on Science, for consideration of secs. 108, 126, 205, 209, 302, 401–404, 411, 416, 441, 601-607, 609-612, 631, 651, 652, 661, 711, 712, 721–724, 731, 741–744, 751, 754, 757, 759, 801-811, Title IX, secs. 1002, 1225-1227, 1451, 1452, 1701, 1820, and Title XXIV of the House bill, and secs. 125, 126, 142, 212, 230–232, 251–253, 302, 318, 327, 346, 401-407, 415, 503, 601-607, 609, 610, 624, 631–635, 706, 721, 722, 725, 731, 734, 751, 752, 757, 801, Title IX, Title X, secs. 1102, 1103, 1105, 1106, 1224, Title XIV, secs. 1601, 1602, and 1611 of the Senate amendment, and modifications committed to conference:

SHERWOOD BOEHLERT,
JUDY BIGGERT,
BART GORDON,

Provided that Mr. Costello is appointed in lieu of Mr. Gordon for consideration of secs. 401-404, 411, 416, and 441 of the House bill, and secs. 401–407 and 415 of the Senate amendment, and modifications committed to conference:

JERRY F. COSTELLO,

From the Committee on Transportation and Infrastructure, for consideration of secs. 101–103, 105, 108, 109, 137, 205, 208, 231, 241, 242, 320, 328–330, 377, 379, 721–724, 741–744, 751, 755, 756, 758, 811, 1211, 1221, 1231, 1234, 1236, 1241, 1281–1283, 1285, 1295, 1442, 1446, 2008, 2010, 2026, 2029, 2030, 2207, and 2210 of the House bill, and secs. 101-103, 105, 107, 108, 281, 325, 344, 345, 383, 731–733, 752, 1211, 1221, 1231, 1233, 1235, 1261, 1263, 1266, and 1291 of the Senate amendment, and modifications committed to conference:

DON YOUNG,
TOM PETRI,

From the Committee on Ways and Means, for consideration of Title XII of the House bill, and secs. 135, 405, Title XV, and sec. 1611 of the Senate amendment, and modifications committed to conference:

WILLIAM THOMAS,
DAVE CAMP,
Managers on the Part of the House.

PETE DOMENICI,
LARRY E. CRAIG,
CRAIG THOMAS,
LAMAR ALEXANDER,
LISA MURKOWSKI,
JEFF BINGAMAN,
DANIEL D. AKAKA,
BYRON L. DORGAN,
RICHARD M. BURR,
TIM JOHNSON,
CHUCK GRASSLEY,
ORRIN HATCH,
MAX BAUCUS,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The Managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill H.R. 6, to ensure jobs for our future with secure, affordable, and reliable energy, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the Managers and recommended in the accompanying conference report:

The Senate amendment to the text of the bill struck all of the House bill after the enacting clause, and inserted a substitute text.

The House recess from its disagreement to the amendment of the Senate with an amendment that is a substitute for the House bill and the Senate amendment.

The mangers on the Part of the House and Senate met on July 14, July 19, July 21, July 24, and July 25, 2005.

From the Committee on Energy and Commerce, for consideration of the House bill and the Senate amendment, and modifications committed to conference:

JOE BARTON,
RALPH M. HALL,
MIKE BILIRAKIS,
FRED UPTON,
CLIFF STEARNS,
PAUL GILLMAR,
JOHN SHIMKUS,
JOHN SHADEGG,
CHIP PICKERING,
ROY BLUNT,
CHARLES F. BASS,
JOHN D. DINGELL,
RICH BOUCHER,
BART STUPAK,
ALBERT R. WYNN,

From the Committee on Agriculture, for consideration of secs. 332, 344, 346, 1701, 1806, 2008, 2019, 2024, 2029, and 2030 of the House bill, and secs. 251-253, 264, 303, 319, 342, 343, 345, and 347 of the Senate amendment, and modifications committed to conference:

BOB GOODLATTE,
FRANK D. LUCAS,
COLLIN C. PETERSON,

From the Committee on Armed Services, for consideration of secs. 104, 231, 601-607, 609-612, and 661 of the House bill, and secs. 104, 281, 601-607, 609, 625, 741-743, 1005, and 1006 of the Senate amendment, and modifications committed to conference:

DUNCAN HUNTER,
CURT WELDON,
IKE SKELTON,

From the Committee on Education and the Workforce, for consideration of secs. 121, 632, 640, 2206, and 2209 of the House bill, and secs. 625, 1103, 1104, and 1106 of the Senate amendment, and modifications committed to conference:

CHARLIE NORWOOD,
SAM JOHNSON,

From the Committee on Financial Services, for consideration of secs. 141–149, of the House bill, and secs. 161-164, and 505 of the Senate amendment, and modifications committed to conference:

MICHAEL G. OXLEY,
BOB NEY,

From the Committee on Government Reform, for consideration of secs. 102, 104, 105, 203, 205, 502, 624, 632, 701, 704, 1002, 1227, and 2304 of the House bill, and secs. 102, 104, 105, 108, 203, 502, 625, 701-703, 723-725, 741-743, 939, and 1011 of the Senate amendment, and modifications committed to conference:

TOM DAVIS,
DARRELL ISSA,
DIANE E. WATSON,

From the Committee on Judiciary, for consideration of secs. 320, 377, 612, 625, 632, 663, 665, 1221, 1265, 1270, 1283, 1442, 1502, and 2208 of the House bill, and secs. 137, 211, 328, 384, 389, 625, 1221, 1264, 1269, 1270, 1275, 1280, and 1402 of the Senate amendment, and modifications committed to conference:

F. JAMES SENSENBRENNER
Jr.,
STEVE CHABOT,

From the Committee on Resources, for consideration of secs. 204, 231, 330, 344, 346, 355, 358, 377, 379, Title V, secs. 969–976, 1701, 1702, Title XVII, secs. 1902, 2001-2019, 2022-2031, 2033, 2041, 2042, 2051-2055, Title XXI, Title XXII, and Title XXIV of the House bill, and secs. 241–245, 252, 253, 261–270, 281, 311–317, 319–323, 326, 327, 342–346, 348, 371, 387, 391, 411–414, 416, and 501–506 of the Senate amendment, and modifications committed to conference:

RICHARD POMBO,
BARBARA CUBIN,
NICK RAHALL,

From the Committee on Rules, for consideration of secs. 713 of the Senate amendment, and modifications committed to conference:

DAVID DREIER,
LINCOLN DIAZ-BALART,
LOUISE SLAUGTER,

From the Committee on Science, for consideration of secs. 108, 126, 205, 209, 302, 401–404, 411, 416, 441, 601-607, 609-612, 631, 651, 652, 661, 711, 712, 721–724, 731, 741–744, 751, 754, 757, 759, 801-811, Title IX, secs. 1002, 1225-1777, 1451, 1452, 1701, 1820, and Title XXIV of the House bill, and secs. 125, 126, 142, 212, 230–232, 251–253, 302, 318, 327, 346, 401-407, 415, 503, 601-607, 609, 610, 624, 631–635, 706, 721, 722, 725, 731, 734, 751, 752, 757, 801, Title IX, Title X, secs. 1102, 1103, 1105, 1106, 1224, Title XIV, secs. 1601, 1602, and 1611 of the Senate amendment, and modifications committed to conference:

SHERWOOD BOEHLERT,
JUDY BIGGERT,
BART GORDON,

Provided that Mr. Costello is appointed in lieu of Mr. Gordon for consideration of secs. 401-404, 411, 416, and 441 of the House bill, and secs. 401–407 and 415 of the Senate amendment, and modifications committed to conference:

JERRY F. COSTELLO,

From the Committee on Transportation and Infrastructure, for consideration of secs. 101–103, 105, 108, 109, 137, 205, 208, 231, 241, 242, 320, 328–330, 377, 379, 721–724, 741–744, 751, 755, 756, 758, 811, 1211, 1221, 1231, 1234, 1236, 1241, 1281–1283, 1285, 1295, 1442, 1446, 2008, 2010, 2026, 2029, 2030, 2207, and 2210 of the House bill, and secs. 101-103, 105, 107, 108, 281, 325, 344, 345, 383, 731–733, 752, 1211, 1221, 1231, 1233, 1235, 1261, 1263, 1266, and 1291 of the Senate amendment, and modifications committed to conference:

DON YOUNG,
TOM PETRI,

From the Committee on Ways and Means, for consideration of Title XIII of the House bill, and secs. 135, 405, Title XV, and sec. 1611 of the Senate amendment, and modifications committed to conference:

WILLIAM THOMAS,
DAVE CAMP,
Managers on the Part of the House.

Managers on the Part of the Senate.

CONDEMNING TERRORIST ATTACKS IN SHARM EL-SHEIKH, EGYPT, ON JULY 23, 2005

Ms. ROS-LEHTINEN. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 384) condemning in the strongest terms the terrorist attacks in Sharm el-Sheikh, Egypt, on July 23, 2005, and for other purposes.

The Clerk read as follows:

H. RES. 384

Whereas on July 23, 2005, a series of explosions at tourist facilities in Sharm el-Sheikh, Egypt, planned and carried out by terrorists, resulted in the death of scores of civilians and the injury of hundreds of others;

Whereas the people of Egypt have been subjected to several other terrorist deadly attacks over the past year;

Whereas Egypt's appointed ambassador to Iraq, Dr. Ihab al-Sherif, was kidnapped and executed by terrorists in Baghdad during July 2005; and

Whereas President George W. Bush expressed the solidarity of the people and Government of the United States with the people and Government of Egypt during his visit to the Embassy of Egypt: Now, therefore, be it

Resolved, That the House of Representatives—

(1) condemns in the strongest terms the terrorist attacks on Sharm el-Sheikh, Egypt and other terrorist attacks directed against Egypt;

(2) expresses its condolences to the families and friends of those individuals who were killed in the attacks and expresses its sympathies to those individuals who have been injured;

(3) joins with President George W. Bush in expressing the solidarity of the people and Government of the United States with the people and Government of Egypt as they recover from these cowardly and inhuman attacks; and

(4) expresses its readiness to support the Egyptian authorities in their efforts to bring to justice those individuals responsible for the recent attacks in Egypt and to pursue, disrupt, undermine, and dismantle the networks which plan and carry out such attacks.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Florida (Ms. ROS-LEHTINEN) and the gentleman from California (Mr. LANTOS) each will control 20 minutes.

The Chair recognizes the gentlewoman from Florida (Ms. ROS-LEHTINEN).

GENERAL LEAVE

Ms. ROS-LEHTINEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H. Res. 384.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Florida?

There was no objection.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, it is highly regrettable that the House must once again be in the position of having to express its outrage at yet another terrorist incident. Again, that incident is linked to a terrible distortion or perversion of Islam, a perversion that resulted in the killing of scores of Egyptians and their foreign guests, including an American, at Sharm el-Sheikh last weekend.

Two weeks ago we were sharing in the loss of scores of British citizens after the treacherous attacks in London. Today through this resolution we share in the mourning of Egyptians. Our feeling of sympathy is common to both peoples who share with us, most of all, our humanity, and whom we mourn just as we mourn all others who are lost in terrorists attacks around the world.

Despite our differences with certain policies pursued by the Government of Egypt, the killing of innocents must be strongly condemned, and we stand ready to support Egyptian authorities in bringing to justice those responsible for the recent attacks. We must unite with the Government and the people of Egypt to help fight a common enemy.

Mr. Speaker, I reserve the balance of my time.

Mr. LANTOS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of this resolution. The recent deadly terrorist attacks in Egypt culminating in last week's assault on Sharm el-Sheikh have proven once again that the extreme ideology of violent Islamic fundamentalism poses a danger not only to the Western world, but to peace-loving people everywhere. The terrorists do not distinguish between Christians, Jews or Muslims in their search to destroy the core values of civilized society.

Mr. Speaker, at this difficult time we extend our deepest sympathies to the people of Egypt and to the loved ones of those many nations who perished in the bombing. Egypt has suffered several recent losses at the hands of violent fanatics. Earlier this month, Egypt's ambassador-designate in Iraq, Ambassador Ihab al-Sharif, was kidnapped and murdered. This courageous diplomat was to have been the first Arab ambassador accredited to the newly liberated Iraq, and his murder is a tragedy for all decent people.

In that spirit, let me express my profound concern over reports just this morning from Iraq that two recently kidnapped Algerian diplomats also may have been assassinated. I sincerely hope that these reports may not be true.

Mr. Speaker, we want the Egyptian people to know that they have our full support as they seek to hunt down those who planned and implemented the heinous attack at Sharm el-Sheikh, and as they seek to eradicate the scourge of fundamentalist violent Islam that has afflicted Egypt in several spasms over recent years, the same horrendous scourge that took the life of the late President Anwar Sadat, one of the towering figures of the 20th century.

I believe, Mr. Speaker, that the ultimate answer to this problem lies in education, improved health, economic development, and political reform. But now is not the time to debate those issues. Now is the time to defeat and to destroy the terrorists and those who have created them.

Today, Mr. Speaker, we stand as one with the Egyptian people and the Egyptian Government in opposing and rejecting the violent ideology of extremist Islamic hate of which Egypt has been the latest victim. I support this resolution strongly. I urge all of my colleagues to do so.

Mr. Speaker, I reserve the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia (Mr. TOM DAVIS), the distinguished chairman of the House Committee on Government Reform.

Mr. TOM DAVIS of Virginia. Mr. Speaker, last Saturday July 23, 2005, was a dreadful day for the entire civilized world. The multiple bombings in the Egyptian city of Sharm el-Sheikh that killed dozens constituted the deadliest act of terrorism in Egypt's history.

I want to assure the victims of the attack, their families, and all Egyptian people that the House of Representatives and the American people stand with them during this time of loss.

As we know all too well, terrorists remain committed to senseless killing of innocent people. Their evil must be defeated. That a suicide attacker would ram a pick-up truck packed with 660 pounds of explosives into a hotel is just the most recent demonstration of the viciousness of these killers.

Last weekend's attack is not an isolated incident. A suicide bomber exploded a bomb in a Cairo market on April 7 this year, killing three, including one American. On April 30, two women fired several gunshots into a tour bus in Cairo wounding seven people. And on July 7, Egypt's Ambassador to Iraq, Dr. Ihab al-Sharif, was kidnapped and killed by a group associated with al Qaeda.

☐ 1400

The July 23 attack is a heartbreaking reminder of the human toll in the war on terror, but it will only serve to steel the resolve of America, Egypt, and our allies. The U.S. Government will continue its cooperation with Egyptian President Hosni Mubarak to track down the terrorists involved in these attacks. America and our allies do not distinguish between terrorist acts aimed at interrupting the Israeli-Palestinian appeals process, those attacking the operations of the new Iraqi government, or those that result in the murder of innocent sightseers in Sharm el-Sheikh.

Mr. Speaker, as this legislation resolves all to do, I am proud to join President Bush in expressing the solidarity of the American people with the Egyptian people in the aftermath of the July 23 attacks. I strongly support House Resolution 384.

Mr. LANTOS. Mr. Speaker, I am very pleased to yield 3 minutes to the gentleman from Florida (Mr. WEXLER), a member of the Committee on International Relations.

Mr. WEXLER. Mr. Speaker, I want to thank the very eloquent ranking member of the Committee on International Relations, the gentleman from California (Mr. LANTOS), for yielding me this time; and I would first like to associate myself with both his remarks and the remarks of the gentlewoman from Florida (Ms. ROS-LEHTINEN) as they very aptly expressed the sentiments of the American people in regard to the most recent attacks in Egypt.

The attacks in Sharm el-Sheikh were unconscionable acts of tragedy and terror. At this difficult time, the American people stand shoulder to shoulder with the people of Egypt in condemning these reprehensible and senseless acts. As partners in the war against terror, the United States and Egypt are united in our struggle against al Qaeda and the desire for security and peace.

In the past decade, Sharm el-Sheikh has served as an embodiment of hope for the future of the Middle East. It has been a popular tourist destination for Israelis and Europeans and for people worldwide, and the site of high-level peace talks regarding the Arab-Israeli conflict and the future of Iraq. It is my hope that Sharm el-Sheikh will continue to serve as a haven for the hope of peace, irrespective of this tragic event. This is the only way to ensure that the victims of this atrocity will not have died in vain.

I join my colleagues in condemning these horrific acts, expressing condolences to the families of those lost, and reaffirming the long-standing partnership between the United States and Egypt. The gentleman from California (Mr. LANTOS) very eloquently and aptly said: "At such a time, it is not the time for debate regarding policy. It is a time for humanity to come together in the quest for the victory of freedom and democracy."

It would be naive, however, Mr. Speaker, not to acknowledge that these attacks come in a political context. And I would hope, as a result of these attacks, that Egypt continue its efforts, as it has done in the past year, in returning its ambassador to Israel and implementing the QIZ legislation requiring and promoting joint investment between business people in Egypt and Israel for the betterment of Egyptian workers, that Egypt progress on a path of both political and economic reform. That ultimately will provide the victory of freedom and democracy that both Americans and Egyptians justly deserve and the terrorists that committed these heinous acts most definitely oppose.

Mr. LANTOS. Mr. Speaker, I yield myself such time as I may consume.

In this global struggle between chaos and civilization, there is no doubt in my mind that civilization will prevail; yet every time we are confronted with a tragedy, whether it be London or Sharm el-Sheikh, in Jerusalem or elsewhere, we must express our solidarity with the victims, with the survivors, and with the governments that stand with us against global terrorism.

Our support for the Egyptian people and for the government of Egypt is offered without any reservation or qualification. This House is united in expressing our sympathy and our condolences.

Mr. Speaker, I yield back the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I have no further requests for time; but before yielding back my time, I would like to express my personal best wishes to Danielle Simonetta, who is back here, and who will end her exceptional service with the House this week. With her warm good spirits and a depth of managerial skills, she has conducted the legislative agenda on this side of the aisle, frequently under tremendous pressure from many quarters, though not, of course, from Members.

I know I speak for Members on both sides of the aisle when I say, Thank you, Danielle. We are going to miss you, and we welcome you back to our congressional family at any time.

Mr. ISSA. Mr. Speaker, I rise today in support of H. Res. 384, "Condemning in the strongest terms the terrorist attacks in Sharm el-Sheikh, Egypt, on July 23, 2005."

I wish to express my condolences to the families of those killed in last week's terrorist attacks, and my sympathy to those injured in the bombings. I would also like to join with Presdient's George W. Bush in expressing the solidarity of the people and government of the United States with the people and government of Egypt. The United States stands ready to support the Egyptian authorities in their efforts to bring to justice those responsible for these cowardly attacks.

These attacks, again, make plain the fact that the Global War on Terrorism is not a way of the West against the Muslim world but a war being fought between those who value freedom and democracy and respect for human rights and those who kill innocent civilians.

Egypt is a friend and ally of the United States. The people of the United States stand by the people of Egypt at this time tragedy.

Mr. HOLT. Mr. Speaker, I rise today in support of H. Res. 384. This legislation condemns the vicious terrorist attacks in Sharm el-Sheikh, Egypt on July 23, 2005. Those tragic blasts left 88 innocent civilians dead and 119 other injured and were the result of a coordinated plan to build fear in the hearts of the Egyptian people and rob them of their liberty.

These acts and many others have been perpetrated by individuals who claim they are acting in the name of Islam. Nothing could be further from the truth. Islam is a religion of peace and tolerance. It is an insult to Muslim Americans and Muslims worldwide to suggest that their chosen religion has anything to do with these terrorist attacks. Let me be clear, those who kill innocents and even themselves in the name of Islam are perverting their religion.

When I talk to Muslim leaders in my district they tell me that the only good thing to come out of these attacks is the raised awareness of their religion and their resulting ability to educate many for the first time on the true tenants of their faith. I am proud of the many Muslims in New Jersey for the work they do everyday to promote peace and religious tolerance. I look forward to a day when all Americans will know the true values of Islam, and understand the hateful and perverted "faith" of those who would commit these deadly attacks.

Terrorism sadly has become a tragic trend in our day and age. The targeting of innocent civilians in brutal attacks throughout the world, in London, New York, Washington, Madrid, the Middle East, and the latest attacks in Sharm El-Sheikh, Egypt all make us a little less secure as human beings. These attacks cannot be allowed to continue. They rob us all of our life and liberty. We cannot let terrorism become a commonplace aspect of our lives. Consequently, I support this resolution to affirm the solidarity of all Americans with the Egyptian people, and condemn these terrorists attacks.

Mr. DINGELL. Mr. Speaker, I rise to express my condolences to the victims and their families after last Saturday's depraved and savage terrorist attacks in Sharm el-Sheikh; Egypt. I also rise to pledge my and the rest of the House of Representative's steadfast support of the people of Egypt as they stand resolute in the face of terror.

On July 23, 2005, a series of explosions throughout Sharm el-Sheikh; Egypt, resulted in the death of eighty four civilians and injured hundreds of others.

These murderers, whoever they are, have an absolute disregard for human life. They deliberately kill innocent people. These explosions were strategically placed in public areas, to kill the maximum number of people.

Sadly, we should not be surprised by the barbaric attacks in Sharm el-Sheikh. We have seen it before. We experienced our own tragedy from terrorism, losing 3,000 of our own citizens in one awful morning. Across the ocean that same fashion evil touched London, and fifty two people died with hundreds of others injured.

We are engaged in a global struggle against an apocalyptical radicalism that will take not only military power, but also the power of our ideology that values freedom and diversity. The latest attack in Egypt changes nothing. We still stand strong in the face of terror. We remain loyal to finding the terrorist wherever they may be, and capturing them from behind the rocks and shadows where they hide.

Egypt has been a strong and faithful ally throughout the war on terror. Her resolve is only strengthened by this latest attack. Our Egyptian friends will continue to fight terrorist with the same devotion they have already shown. Today we see the character Egyptians share. Many Egyptians returned to their public facilities the very next day, unafraid of the terrorists.

I have no doubt that our two nations will continue to face down terrorists and extremists. Our cause, which speaks to the noblest parts of the human soul, will win, just as it has throughout our shared times past.

May God bless America and Egypt.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. FOLEY). The question is on the motion offered by the gentlewoman from Florida (Ms. ROS-LEHTINEN) that the House suspend the rules and agree to the resolution, H. Res. 384.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Ms. ROS-LEHTINEN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on certain questions previously postponed. Votes will be taken in the following order:

ordering the previous question on House Resolution 387, by the yeas and nays;

adopting House Resolution 387, if ordered;

suspending the rules on S. 544, by the yeas and nays;

suspending the rules on S. 45, by the yeas and nays.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

PROVIDING FOR CONSIDERATION OF H.R. 3283, UNITED STATES TRADE RIGHTS ENFORCEMENT ACT

The SPEAKER pro tempore. The pending business is the vote on ordering the previous question on House Resolution 387 on which the yeas and nays are ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The vote was taken by electronic device, and there were—yeas 226, nays 202, not voting 5, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. FOLEY) (during the vote). Members are advised 2 minutes remain in this vote.

☐ 1429

Mr. BONILLA changed his vote from "nay" to "yea."

So the previous question was ordered.

The result of the vote was announced as above recorded.

Stated for:

Mr. JOHNSON of Illinois. Mr. Speaker, on rollcall No. 432 I was unavoidably detained. Had I been present, I would have voted "yea."

Mr. ISSA. Mr. Speaker, on rollcall No. 432, I was chair of a subcommittee and had to complete the Record. Had I been present, I would have voted "yea."

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. McGOVERN. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 228, noes 200, not voting 5, as follows:

Murphy

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. FOLEY) (during the vote). Members are advised that 2 minutes remain in this vote.

□ 1455

So (two thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2567

Mr. GEORGE MILLER of California. Madam Speaker, I ask unanimous consent to have my name removed as a cosponsor of H.R. 2567.

The SPEAKER pro tempore (Mrs. BIGGERT). Is there objection to the request of the gentleman from California?

There was no objection.

UNITED STATES TRADE RIGHTS ENFORCEMENT ACT

Mr. ENGLISH of Pennsylvania. Madam Speaker, pursuant to House Resolution 387, I call up the bill (H.R. 3283) to enhance resources to enforce United States trade rights, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 387, the bill is considered read.

The text of H.R. 3283 is as follows:

H.R. 3283

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "United States Trade Rights Enforcement Act".

SEC. 2. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) United States producers that believe they are injured by subsidized imports from nonmarket economy countries have not been able to obtain relief through countervailing duty actions because the Department of Commerce has declined to make countervailing duty determinations for nonmarket economy countries in part because it lacks explicit legal authority to do so;

(2) explicitly making the countervailing duty law under subtitle A of title VII of the Tariff Act of 1930 (19 U.S.C. 1671 et seq.) applicable to actions by nonmarket economy countries would give United States producers access to import relief measures that directly target government subsidies;

(3) the Bureau of Customs and Border Protection of the Department of Homeland Security has encountered particular problems in collecting countervailing and antidumping duties from new shippers who default on their bonding obligations;

(4) this behavior may detract from the ability of United States companies to recover from competition found to be unfair under international trade laws;

(5) accordingly, it is appropriate, for a test period, to suspend the availability of bonds for new shippers and instead require cash deposits;

(6) more analysis and assessment is needed to determine the appropriate policy to respond to this and other problems experienced in the collection of duties and the impact that policy changes could have on legitimate United States trade and United States trade obligations;

(7) given the developments in the ongoing World Trade Organization (WTO) negotiations relating to trade remedies, Congress reiterates its resolve as expressed in House Concurrent Resolution 262 (107th Congress), which was overwhelmingly approved by the House of Representatives on November 7, 2001, by a vote of 410 to 4;

(8) the United States Trade Representative should monitor compliance by United States trading partners with their trade obligations and systematically identify areas of noncompliance;

(9) the United States Trade Representative should then aggressively resolve noncompliance through consultations with United States trading partners;

(10) however, should efforts to resolve disputes through consultation fail, the United States Trade Representative should vigorously pursue United States rights through dispute settlement in every available forum;

(11) given the huge growth in trade with the People's Republic of China, its impact on the United States economy, and the complaints voiced by many United States interests that China is not complying with its international trade obligations, the United States Trade Representative should place particular emphasis on identifying and resolving disputes with China that limit United States exports, particularly concerning compliance with obligations relating to intellectual property rights and enforcement, tariff and nontariff barriers, subsidies, technical barriers to trade, sanitary and phytosanitary issues, nonmarket-based industrial policies, distribution rights, and regulatory transparency;

(12) in addition, the United States Trade Representative should place particular emphasis on trade barriers imposed by Japan, specifically the Japanese trade ban on United States beef without scientific justification, the Japanese sanitary and phytosanitary restrictions on United States agricultural products, Japanese policies on pharmaceutical and medical device reference pricing, insurance cross-subsidization, and privatization in a variety of sectors that discriminate against United States companies;

(13) the fixed exchange rate that the People's Republic of China currently maintains is a substantial distortion to world markets, blocking the price mechanism and impeding adjustment of international imbalances, and it is also a source of large and increasing risk to the Chinese economy;

(14) the People's Republic of China has completed significant preparations over the last two years for adoption of a more flexible, market-oriented exchange rate;

(15) the People's Republic of China is now ready to move to a more flexible exchange rate and it should move to such an exchange rate as soon as possible;

(16) the Secretary of the Treasury, in the annual report reviewing developments in international economic policy, including exchange rate policy, under the Omnibus Trade and Competitiveness Act of 1988, appropriately concluded that "current Chinese policies are highly distortionary and pose a risk to China's economy, its trading partners, and global economic growth";

(17) moreover, the rapid growth of credit and very high rate of investment risk undermine the progress that the People's Republic of China has made in reforming its banking system by creating new flows of non-performing loans;

(18) such behavior effectively prevents market forces from operating efficiently in the People's Republic of China, which distorts world trade;

(19) furthermore, based on the fact that the Secretary of the Treasury has determined the currency policy of the People's Republic of China to be "distortionary", the United States Trade Representative and the Secretary of the Treasury should place particular emphasis on determining whether China is violating its international obligations and identify to Congress the actions it is taking to address distortions to world trade;

(20) in addition, Japan's policy of intervening to influence the value of its currency and its prolific barriers to trade create distortions that disadvantage United States exporters;

(21) this adverse impact is magnified by Japan's role in the global marketplace, combined with its chronic surplus, weak economy, deflationary economy, low growth rate, and lack of consumer spending; and

(22) accordingly, the United States Trade Representative should have additional resources in the Office of the General Counsel, the Office of Monitoring and Enforcement, the Office of China Affairs, and the Office of Japan, Korea, and APEC Affairs to address a variety of needs that will best enable United States companies, farmers, and workers to benefits from the trade agreements to which the United States has around the world.

SEC. 3. APPLICATION OF COUNTERVAILING DUTIES TO NONMARKET ECONOMY COUNTRIES.

(a) AMENDMENTS.—

(1) COUNTERVAILING DUTIES IMPOSED.—Section 701(a)(1) of the Tariff Act of 1930 (19 U.S.C. 1671(a)(1)) is amended by inserting "(including a nonmarket economy country)" after "country" each place it appears.

(2) DEFINITION OF COUNTERVAILABLE SUBSIDY.—Section 771(5)(E) of such Act (19 U.S.C. 1677(5)(E)) is amended by adding at the end the following new sentences: "With respect to the People's Republic of China, if the administering authority encounters special difficulties in calculating the amount of a benefit under clause (i), (ii), (iii), or (iv) of this subparagraph, the administering authority may use methodologies for identifying and measuring the subsidy benefit which take into account the possibility that prevailing terms and conditions in China may not always be available as appropriate benchmarks. When applying such methodologies, the administering authority should adjust such prevailing terms and conditions before considering the use of terms and conditions prevailing outside China.".

(b) PROHIBITION ON DOUBLE COUNTING.—In applying section 701(a)(1) of the Tariff Act of 1930, as amended by subsection (a), to a class or kind of merchandise of a nonmarket economy country, the administering authority shall ensure that—

(1) any countervailable subsidy is not double counted in an antidumping order under section 731 of such Act (19 U.S.C. 1673) on the same class or kind of merchandise of the country; and

(2) the application of section 701(a)(1) of such Act is consistent with the international obligations of the United States.

(c) EFFECTIVE DATE.—The amendments made by subsection (a) apply to any petition filed under section 702 of the Tariff Act of 1930 (19 U.S.C. 1671a) on or after 30 days after the date of the enactment of this Act, and the provisions contained in subsection (b) apply to any subsequent determination made under section 733, 735, or 751 of such Act (19 U.S.C. 1673b, 1673d, or 1675).

SEC. 4. NEW SHIPPER REVIEW AMENDMENT.

(a) SUSPENSION OF THE AVAILABILITY OF BONDS TO NEW SHIPPERS.—Clause (iii) of section 751(a)(2)(B) of the Tariff Act of 1930 (19 U.S.C. 1675(a)(2)(B)(iii)) shall not be effective during the 3-year period beginning on the date of the enactment of this Act.

(b) REPORT ON THE IMPACT OF THE SUSPENSION.—Not later than 2 years after the date of the enactment of this Act, the Secretary of the Treasury, in consultation with the Secretary of Commerce, the United States Trade Representative, and the Secretary of Homeland Security, shall submit to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives a report containing—

(1) recommendations on whether the suspension of the effectiveness of section 751(a)(2)(B)(iii) of the Tariff Act of 1930 should be extended beyond the date provided in subsection (a) of this section; and

(2) assessments of the effectiveness of any administrative measures that have been implemented to address the difficulties giving rise to the suspension under subsection (a) of this section, including—

(A) problems in assuring the collection of antidumping duties on imports from new shippers; and

(B) burdens imposed on legitimate trade and commerce by the suspension of availability of bonds to new shippers by reason of the suspension under subsection (a).

(c) REPORT ON COLLECTION PROBLEMS AND ANALYSIS OF PROPOSED SOLUTIONS.—

(1) REPORT.—Not later than 90 days after the date of the enactment of this Act, the Secretary of the Treasury, in consultation with the Commissioner of the Bureau of Customs and Border Protection and the Secretary of Commerce, shall submit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report describing the major problems experienced in the collection of duties, including fraudulent activities intended to avoid payment of duties, with an estimate of the total amount of uncollected duties for the previous fiscal year and a breakdown across product lines describing the reasons duties were uncollected.

(2) RECOMMENDATIONS.—The report shall make recommendations on additional actions to address remaining problems related to duty collections and, for each recommendation, provide an analysis of how the recommendation would address the specific problem or problems cited and the impact that implementing the recommendation would have on international trade and commerce (including any additional costs imposed on United States businesses and whether the implementation of the revision is likely to violate any international trade laws).

SEC. 5. COMPREHENSIVE MONITORING OF COMPLIANCE BY THE PEOPLE'S REPUBLIC OF CHINA WITH ITS INTERNATIONAL TRADE OBLIGATIONS.

(a) INTELLECTUAL PROPERTY RIGHTS COMPLIANCE.—

(1) IN GENERAL.—In accordance with the terms of the Agreement of WTO Accession for the People's Republic of China, subsequent agreements by Chinese authorities through the U.S.-China Joint Commission on Commerce and Trade (JCCT), and other obligations by Chinese officials related to its trade obligations, the United States Trade Representative and the Secretary of Commerce shall undertake to ensure that the Government of the People's Republic China has taken the following steps:

(A) The Chinese Government has increased the number of civil and criminal prosecutions of intellectual property rights violators by the end of 2005 to a level that significantly decreases the current amount of infringing products for sale within China.

(B) China's Supreme People's Court, Supreme People's Procuratorate, and Ministry of Public Security have issued draft guidelines for public comment to ensure the timely referral of intellectual property rights violations from administrative bodies to criminal prosecution.

(C) The Chinese Ministry of Public Security and the General Administration of Customs have issued regulations to ensure the timely transfer of intellectual property rights cases for criminal investigation.

(D) The Chinese Ministry of Public Security has established a leading group responsible for overall research, planning, and coordination of all intellectual property rights criminal enforcement to ensure a focused and coordinated nationwide enforcement effort.

(E) The Chinese Government has established a bilateral intellectual property rights law enforcement working group in cooperation with the United States whose members will cooperate on enforcement activities to reduce cross-border infringing activities.

(F) The Chinese Government has aggressively countered movie piracy by dedicating enforcement teams to pursue enforcement actions against pirates and has regularly instructed enforcement authorities nationwide that copies of films and audio-visual products still in censorship or import review or otherwise not yet authorized for distribution are deemed pirated and subject to enhanced enforcement.

(G) By the end of 2005, the Chinese Government has completed its legalization program to ensure that all central, provincial, and local government offices are using only licensed software and by the end of 2006 has extended the program to enterprises (including state-owned enterprises).

(H) The Chinese Government, having declared that software end-user piracy is considered to constitute "harm to the public interest" and as such will be subject to administrative penalties nationwide, has initiated civil and criminal prosecutions of software end-user violators.

(I) The Chinese Government has appointed an Intellectual Property Rights Ombudsman at the Chinese Embassy in Washington, D.C., to serve as the point of contact for United States companies, particularly small- and medium-sized businesses, seeking to secure and enforce their intellectual property rights in China or experiencing intellectual property rights problems in China.

(J) The relevant Chinese agencies, including the Ministry of Commerce, the China Trademark Office, the State Intellectual Property Office, and the National Copyright Administration of China have significantly improved intellectual property rights enforcement at trade shows and issued new regulations to achieve this goal.

(K) Not later than June 30, 2006, the Chinese State Council has submitted to the National People's Congress the legislative package needed for China to accede to the World Intellectual Property Organization (WIPO) Internet treaties.

(L) The Chinese Government has taken steps to enforce intellectual property right laws against Internet piracy, including through enforcement at Internet cafes.

(M) The Chinese Government, having confirmed that the criminal penalty thresholds in the 2004 Judicial Interpretation are applicable to sound recordings, has instituted civil and criminal prosecutions against such violators.

(N) The Chinese Government has initiated civil and criminal prosecutions against exporters of infringing recordings.

(2) DISPUTE SETTLEMENT PROCEEDINGS IN WTO.—If the President determines that the People's Republic of China has not met each of the obligations described in subparagraphs (A) through (N) of paragraph (1) or taken steps that result in significant improvements in protection of intellectual property rights in accordance with its trade obligations, then the President shall assign such resources as are necessary to collect evidence of such trade agreement violations for use in dispute settlement proceedings against China in the World Trade Organization.

(b) ACCESS FOR EXPORTS OF UNITED STATES GOODS.—In accordance with the terms of the Agreement of WTO Accession for the People's Republic of China, subsequent agreements by Chinese authorities through the U.S.-China Joint Commission on Commerce and Trade (JCCT), and other obligations by Chinese officials related to its trade obligations, the United States Trade Representative and the Secretary of Commerce shall undertake to ensure that the Government of the People's Republic of China has taken the following steps:

(1) China has taken steps to ensure that United States products can be freely distributed in China, including by approving a significant backlog of distribution license applications and by preparing a regulatory guide for businesses seeking to acquire distribution rights that expands on the guidelines announced in April 2005.

(2) Chinese officials have permitted all enterprises in China, including those located in bonded zones, to acquire licenses to distribute goods throughout China.

(3) The Chinese Government has submitted regulations on management of direct selling to the Chinese State Council for review and taken any additional steps necessary to provide a legal basis for United States direct sales firms to sell United States goods directly to households in China.

(4) The Chinese Government has issued final regulations on direct selling, including with respect to distribution of imported goods and fixed location requirements.

(c) ACCESS FOR EXPORTS OF UNITED STATES SERVICES.—In accordance with the terms of the Agreement of WTO Accession for the People's Republic of China, subsequent agreements by Chinese authorities through the U.S.-China Joint Commission on Commerce and Trade (JCCT), and other obligations by Chinese officials related to its trade obligations, the United States Trade Representative and the Secretary of Commerce shall undertake to ensure that the Government of the People's Republic of China has taken the following steps:

(1) The Chinese Government has convened a meeting of the U.S.-China Insurance Dialogue before the end of 2005 to discuss regulatory concerns and barriers to further liberalization of the sector.

(2) The Chinese Government has made senior level officials available to meet under the JCCT Information Technology Working Group to discuss capitalization requirements, resale services, and other issues as agreed to by the two sides.

(d) ACCESS FOR UNITED STATES AGRICULTURE.—In accordance with the terms of the Agreement of WTO Accession for the People's Republic of China, subsequent agreements by Chinese authorities through the U.S.-China Joint Commission on Commerce and Trade (JCCT), and other obligations by Chinese officials related to its trade obligations, the United States Trade Representative and the Secretary of Agriculture shall undertake to ensure that the Government of the People's Republic of China has taken the following steps:

(1) China has completed the regulatory approval process for a United States-produced corn biotech variety.

(2) China's Administration of Quality Supervision, Inspection and Quarantine has implemented the 2005 Memorandum of Understanding between the United States and China designed to facilitate cooperation on animal and plant health safety issues and improve efforts to expand United States access to China's markets for agricultural commodities.

(e) ACCOUNTING OF CHINESE SUBSIDIES.—In accordance with the terms of the Agreement of WTO Accession for the People's Republic of China, subsequent agreements by Chinese authorities through the U.S.-China Joint Commission on Commerce and Trade (JCCT), and other obligations by Chinese officials related to its trade obligations, the United States Trade Representative and the Secretary of Commerce shall undertake to ensure that the Government of the People's Republic of China has provided a detailed accounting of its subsidies to the World Trade Organization by the end of 2005.

(f) REPORTS.—

(1) BIANNUAL REPORT.—Not later than six months after the date of the enactment of this Act, and every six months thereafter, the President should transmit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report that contains—

(A) a description of the specific steps taken by the Government of the People's Republic of China to meet its obligations described in subsections (a) through (e) of this section (other than obligations described in subsections (a)(1)(A) and (G), (b)(1), (c)(1), and (e));

(B) an analysis of the extent to which Chinese officials are attempting in good faith to meet such obligations; and

(C) a description of the actions, if any, the President will take to obtain compliance by China if the President determines that the Chinese Government is failing to meet such obligations, including pursuing United States rights under the dispute settlement provisions of the World Trade Organization, as appropriate.

(2) MONTHLY REPORT.—Not later than 30 days after the date of the enactment of this Act, and every 30 days thereafter, the President should transmit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report that contains—

(A) a description of the specific steps taken by the Government of the People's Republic of China to meet its obligations described in subsections (a)(1)(A) and (G), (b)(1), (c)(1), and (e);

(B) an analysis of the extent to which Chinese officials are attempting in good faith to meet such obligations; and

(C) a description of the actions, if any, the President will take to obtain compliance by China if the President determines that the Chinese Government is failing to meet such obligations, including pursuing United States rights under the dispute settlement provisions of the World Trade Organization, as appropriate.

SEC. 6. REPORT ON CURRENCY MANIPULATION BY FOREIGN COUNTRIES.

Not later than 60 days after the date of the enactment of this Act, the Secretary of the Treasury shall submit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report that—

(1) defines currency manipulation;

(2) describes actions of foreign countries that will be considered to be currency manipulation; and

(3) describes how statutory provisions addressing currency manipulation by trading partners of the United States contained in, and relating to, section 40 of the Bretton Woods Agreements Act (22 U.S.C. 286y) and sections 3004 and 3005 of the Exchange Rates and International Economic Policy Coordination Act of 1988 (22 U.S.C. 5304 and 5305) can be better clarified administratively to provide for improved and more predictable evaluation.

SEC. 7. AUTHORIZATION OF APPROPRIATIONS FOR THE OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE.

(a) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—Section 141(g)(1)(A) of the Trade Act of 1974 (19 U.S.C. 2171(g)(1)(A)) is amended by striking clauses (i) and (ii) and inserting the following:

"(i) $44,779,000 for fiscal year 2006.

"(ii) $47,018,000 for fiscal year 2007.".

(2) RULE OF CONSTRUCTION.—The amendment made by paragraph (1) shall not be construed to affect the availability of funds appropriated pursuant to section 141(g)(1)(A) of the Trade Act of 1974 before the date of the enactment of this Act.

(b) AUTHORIZATION OF APPROPRIATIONS FOR THE OFFICE OF THE GENERAL COUNSEL AND CERTAIN OTHER OFFICES.—There are authorized to be appropriated to the Office of the United States Trade Representative for the appointment of additional staff in or enhanced activities by the Office of the General Counsel, the Office of Monitoring and Enforcement, the Office of China Affairs, and the Office of Japan, Korea, and APEC Affairs—

(1) $4,000,000 for fiscal year 2006; and

(2) $4,000,000 for fiscal year 2007.

SEC. 8. AUTHORIZATION OF APPROPRIATIONS FOR THE UNITED STATES INTERNATIONAL TRADE COMMISSION.

(a) AUTHORIZATION OF APPROPRIATIONS.—Section 330(e)(2)(A) of the Tariff Act of 1930 (19 U.S.C. 1330(e)(2)(A)) is amended by striking clauses (i) and (ii) and inserting the following:

"(i) $62,752,000 for fiscal year 2006.

"(ii) $65,890,000 for fiscal year 2007.".

(b) RULE OF CONSTRUCTION.—The amendment made by subsection (a) shall not be construed to affect the availability of funds appropriated pursuant to section section 330(e)(2)(A) of the Tariff Act of 1930 before the date of the enactment of this Act.

(c) STUDY AND REPORT ON TRADE AND ECONOMIC RELATIONS WITH CHINA.—

(1) STUDY.—

(A) IN GENERAL.—The United States International Trade Commission shall carry out a comprehensive study on trade and economic relations between the United States and the People's Republic of China which focuses on China's macroeconomic policy, including its fixed exchange rate policy, the competitiveness of its industries, the composition and nature of its trade patterns, and the impact of these elements on the United States trade account, industry, competitiveness, and employment.

(B) REQUIREMENTS.—In carrying out the study under subparagraph (A), the United States International Trade Commission shall undertake the following:

(i) An analysis of the United States trade and investment relationship with China, with a focus on the United States-China trade balance and trends affecting particular industries, products, and sectors in agriculture, manufacturing, and services. The analysis shall provide context for understanding the U.S.-China trade and investment relationship, by including information regarding China's economic relationships with third countries and China's changing policy regime and business environment. The analysis shall include a focus on United States-China trade in goods and services, United States direct investment in China, China's foreign direct investment in the United States, and the relationship between trade and investment. The analysis shall make adjustments, where possible, for merchandise passed through Hong Kong.

(ii) An analysis of the competitive conditions in China affecting United States exports and United States direct investment. The analysis shall take into account, to the extent feasible, significant factors including tariffs and non-tariff measures, competition from Chinese domestic firms and foreign-based companies operating in China, the Chinese regulatory environment, including specific regulations and overall regulatory transparency, and other Chinese industrial and financial policies. In addition, the analysis shall examine the specific competitive conditions facing United States producers in key industries, products, and sectors, potentially including computer and telecommunications hardware, textiles, grains, cotton, and financial services.

(iii) An examination of the role and importance of intellectual property rights issues, such as patents, copyrights, and licensing, in specific industries in China, including the pharmaceutical industry, the software industry, and the entertainment industry.

(iv) An analysis of the effects on global commodity markets of China's growing demand for energy and raw materials.

(v) An examination of whether or not increased United States imports from China reflect displacement of United States imports from third countries or United States domestic production, and the role of intermediate and value-added goods processing in China's pattern of trade.

(2) REPORT.—Not later than one year after the date of the enactment of this Act, the United States International Trade Commission shall submit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report that contains the results of the study carried out under paragraph (1).

SEC. 9. SENSE OF CONGRESS REGARDING EXPANSION OF MEMBERSHIP IN THE AGREEMENT ON GOVERNMENT PROCUREMENT OF THE WTO.

(a) FINDINGS.—Congress finds the following:

(1) Nondiscriminatory, procompetitive, merit-based, and technology-neutral procurement of goods and services is essential so that governments can acquire the best goods to meet their needs for the best value.

(2) The Agreement on Government Procurement (GPA) of the World Trade Organization (WTO) provides a multilateral framework of rights and obligations founded on such principles.

(3) The United States is a member of the GPA, along with Canada, the European Union (including its 25 member States: Austria, Belgium, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxemburg, Malta, the Netherlands, Poland, Portugal, Slovak Republic, Slovenia, Spain, Sweden, and the United Kingdom), Hong Kong, Iceland, Israel, Japan, Korea, Liechtenstein, the Netherlands with respect to Aruba, Norway, Singapore, and Switzerland.

(4) Albania, Bulgaria, Georgia, Jordan, the Kyrgyz Republic, Moldova, Oman, Panama, and Taiwan are currently negotiating to accede to the GPA.

(5) The People's Republic of China joined the WTO in December 2001, signaling to the international community its commitment to greater openness.

(6) When China joined the WTO, it committed, in its protocol of accession, to negotiate entry into the GPA "as soon as possible".

(7) More than 3 years after its entry into the WTO, China has not commenced negotiations to join the GPA.

(8) Recent legal developments in China illustrate the importance and urgency of expanding membership in the GPA.

(9) In 2002, China enacted a law on government procurement that incorporates preferences for domestic goods and services.

(10) The first sector for which the Chinese Government has sought to implement the new government procurement law is computer software.

(11) In March 2005 the Chinese Government released draft regulations governing the procurement of computer software.

(12) The draft regulations require that non-Chinese software companies meet conditions relating to outsourcing of software development work to China, technology transfer, and similar requirements, in order to be eligible to participate in the Chinese Government market.

(13) As a result of the proposed regulations, it appears likely that a very substantial amount of American software will be excluded from the government procurement process in China. The draft software regulations threatened to close off a market with a potential value of more than $8 billion to United States firms.

(14) United States software companies have made a substantial commitment to the Chinese market and have made a substantial contribution to the development of China's software industry.

(15) The outright exclusion of substantial amounts of software not of Chinese origin that is apparently contemplated in the regulations is out of step with domestic preferences that exist in the procurement laws and practices of other WTO member countries, including the United States.

(16) The draft regulations do not adhere to the principles of nondiscriminatory, procompetitive, merit-based, and technology-neutral procurement embodied in the GPA.

(17) The software piracy rate in China has never fallen below 90 percent over the past 10 years.

(18) Chinese Government entities represent a very significant portion of the software market in China that is not dominated by piracy.

(19) The combined effect of rampant software piracy and the proposed discriminatory government procurement regulations will be a nearly impenetrable barrier to market access for the United States software industry in China.

(20) The United States trade deficit with China in 2004 was $162,000,000,000, the highest with any economy in the world, and a 12.4 percent increase over 2003.

(21) China's Premier, Wen Jiabao, has committed to rectify this serious imbalance by increasing China's imports of goods and services from the United States.

(22) The proposed software procurement regulations that were described by the Chinese Government in November 2004 incorporate policies that are fully at odds with Premier Wen's commitment to increase China's imports from the United States, and will add significantly to the trade imbalance between the United States and China.

(23) Once it is fully implemented, the discriminatory aspects of China's government procurement law will apply to all goods and services that the government procures.

(24) Other developing countries may follow the lead of China.

(25) In July 2005, senior officials of the Chinese Government announced at the U.S.-China Joint Committee on Commerce and Trade that China would accelerate its efforts to join the GPA and toward this end will initiate technical consultations with other WTO member countries and accordingly delay issuing draft regulations on software procurement, as it further considers public comments and makes revisions in light of WTO rules.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Government of the United States should strive to expand membership in the Agreement on Government Procurement of the World Trade Organization (WTO);

(2) the Government of the United States should ensure that the Government of the People's Republic of China meets its WTO obligations as recently affirmed through its commitment in July 2005 through the U.S.-China Joint Committee on Commerce and Trade, to join the WTO Agreement on Government Procurement.

(3) the Government of the United States should seek a commitment from the Government of the People's Republic of China to maintain its suspension of the implementation of its law on government procurement, pending the conclusion of negotiations to accede to the Agreement on Government Procurement of the WTO;

(4) the Government of the United States should seek commitments from the Government of the People's Republic of China and other countries that are not yet members of the Agreement on Government Procurement of the WTO to implement the principles of openness, transparency, fair competition based on merit, nondiscrimination, and accountability in their government procurement as embodied in that agreement; and

(5) the President should direct all appropriate officials of the United States to raise these concerns with appropriate officials of the People's Republic of China and other trading partners.

The SPEAKER pro tempore. The amendment printed in House Report 109–187 is adopted.

The text of H.R. 3283, as amended pursuant to House Resolution 387, is as follows:

SECTION 1. SHORT TITLE.

This Act may be cited as the "United States Trade Rights Enforcement Act".

SEC. 2. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) United States producers that believe they are injured by subsidized imports from nonmarket economy countries have not been able to obtain relief through countervailing duty actions because the Department of Commerce has declined to make countervailing duty determinations for nonmarket economy countries in part because it lacks explicit legal authority to do so;

(2) explicitly making the countervailing duty law under subtitle A of title VII of the Tariff Act of 1930 (19 U.S.C. 1671 et seq.) applicable to actions by nonmarket economy countries would give United States producers access to import relief measures that directly target government subsidies;

(3) the Bureau of Customs and Border Protection of the Department of Homeland Security has encountered particular problems in collecting countervailing and antidumping duties from new shippers who default on their bonding obligations;

(4) this behavior may detract from the ability of United States companies to recover from competition found to be unfair under international trade laws;

(5) accordingly, it is appropriate, for a test period, to suspend the availability of bonds for new shippers and instead require cash deposits;

(6) more analysis and assessment is needed to determine the appropriate policy to respond to this and other problems experienced in the collection of duties and the impact that policy changes could have on legitimate United States trade and United States trade obligations;

(7) given the developments in the ongoing World Trade Organization (WTO) negotiations relating to trade remedies, Congress reiterates its resolve as expressed in House Concurrent Resolution 262 (107th Congress), which was overwhelmingly approved by the House of Representatives on November 7, 2001, by a vote of 410 to 4;

(8) the United States Trade Representative should monitor compliance by United States trading partners with their trade obligations and systematically identify areas of noncompliance;

(9) the United States Trade Representative should then aggressively resolve noncompliance through consultations with United States trading partners;

(10) however, should efforts to resolve disputes through consultation fail, the United States Trade Representative should vigorously pursue United States rights through dispute settlement in every available forum;

(11) given the huge growth in trade with the People's Republic of China, its impact on the United States economy, and the complaints voiced by many United States interests that China is not complying with its international trade obligations, the United States Trade Representative should place particular emphasis on identifying and resolving disputes with China that limit United States exports, particularly concerning compliance with obligations relating to intellectual property rights and enforcement, tariff and nontariff barriers, subsidies, technical barriers to trade, sanitary and phytosanitary issues, nonmarket-based industrial policies, distribution rights, and regulatory transparency;

(12) in addition, the United States Trade Representative should place particular emphasis on trade barriers imposed by Japan, specifically the Japanese trade ban on United States beef without scientific justification, the Japanese sanitary and phytosanitary restrictions on United States agricultural products, Japanese policies on pharmaceutical and medical device reference pricing, insurance cross-subsidization, and privatization in a variety of sectors that discriminate against United States companies;

(13) the fixed exchange rate that the People's Republic of China has maintained until recently has been a substantial distortion to world markets, blocking the price mechanism, impeding adjustment of international imbalances, and serving as a source of large and increasing risk to the Chinese economy;

(14) such behavior has effectively prevented market forces from operating efficiently in the People's Republic of China, distorting world trade;

(15) in a welcome move, the People's Republic of China has now begun to move to a more flexible exchange rate, and it should continue to so move to a market-based exchange rate as soon as possible;

(16) in light of this recent positive development, the Secretary of Treasury should provide to Congress a periodic assessment of the mechanism adopted by the Chinese Government to relate its currency to a basket of foreign currencies and the degree to which the application of this mechanism moves the currency closer to a market-based representation of its value;

(17) in addition, Japan's policy of intervening to influence the value of its currency and its prolific barriers to trade create distortions that disadvantage United States exporters;

(18) this adverse impact is magnified by Japan's role in the global marketplace, combined with its chronic surplus, weak economy, deflationary economy, low growth rate, and lack of consumer spending; and

(19) accordingly, the United States Trade Representative should have additional resources in the Office of the General Counsel, the Office of Monitoring and Enforcement, the Office of China Affairs, and the Office of Japan, Korea, and APEC Affairs to address a variety of needs that will best enable United States companies, farmers, and workers to benefits from the trade agreements to which the United States has around the world.

SEC. 3. APPLICATION OF COUNTERVAILING DUTIES TO NONMARKET ECONOMY COUNTRIES.

(a) AMENDMENTS.—

(1) COUNTERVAILING DUTIES IMPOSED.—Section 701(a)(1) of the Tariff Act of 1930 (19 U.S.C. 1671(a)(1)) is amended by inserting "(including a nonmarket economy country)" after "country" each place it appears.

(2) DEFINITION OF COUNTERVAILABLE SUBSIDY.—Section 771(5)(E) of such Act (19 U.S.C. 1677(5)(E)) is amended by adding at the end the following new sentences: "With respect to the People's Republic of China, if the administering authority encounters special difficulties in calculating the amount of a benefit under clause (i), (ii), (iii), or (iv) of this subparagraph, the administering authority may use methodologies for identifying and measuring the subsidy benefit which take into account the possibility that prevailing terms and conditions in China may not always be available as appropriate benchmarks. When applying such methodologies, where practicable, the administering authority should adjust such prevailing terms and conditions before considering the use of terms and conditions prevailing outside China.".

(b) PROHIBITION ON DOUBLE COUNTING.—In applying section 701(a)(1) of the Tariff Act of 1930, as amended by subsection (a), to a class or kind of merchandise of a nonmarket economy country, the administering authority shall ensure that—

(1) any countervailable subsidy is not double counted in an antidumping order under section 731 of such Act (19 U.S.C. 1673) on the same class or kind of merchandise of the country; and

(2) the application of section 701(a)(1) of such Act is consistent with the international obligations of the United States.

(c) EFFECTIVE DATE.—The amendments made by subsection (a) apply to any petition filed under section 702 of the Tariff Act of 1930 (19 U.S.C. 1671a) on or after 30 days after the date of the enactment of this Act, and the provisions contained in subsection (b) apply to any subsequent determination made under section 733, 735, or 751 of such Act (19 U.S.C. 1673b, 1673d, or 1675).

SEC. 4. NEW SHIPPER REVIEW AMENDMENT.

(a) SUSPENSION OF THE AVAILABILITY OF BONDS TO NEW SHIPPERS.—Clause (iii) of section 751(a)(2)(B) of the Tariff Act of 1930 (19 U.S.C. 1675(a)(2)(B)(iii)) shall not be effective during the 3-year period beginning on the date of the enactment of this Act.

(b) REPORT ON THE IMPACT OF THE SUSPENSION.—Not later than 2 years after the date of the enactment of this Act, the Secretary of the Treasury, in consultation with the Secretary of Commerce, the United States Trade Representative, and the Secretary of Homeland Security, shall submit to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives a report containing—

(1) recommendations on whether the suspension of the effectiveness of section 751(a)(2)(B)(iii) of the Tariff Act of 1930 should be extended beyond the date provided in subsection (a) of this section; and

(2) assessments of the effectiveness of any administrative measures that have been implemented to address the difficulties giving rise to the suspension under subsection (a) of this section, including—

(A) problems in assuring the collection of antidumping duties on imports from new shippers; and

(B) burdens imposed on legitimate trade and commerce by the suspension of availability of bonds to new shippers by reason of the suspension under subsection (a).

(c) REPORT ON COLLECTION PROBLEMS AND ANALYSIS OF PROPOSED SOLUTIONS.—

(1) REPORT.—Not later than 90 days after the date of the enactment of this Act, the Secretary of the Treasury, in consultation with the Commissioner of the Bureau of Customs and Border Protection and the Secretary of Commerce, shall submit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report describing the major problems experienced in the collection of duties, including fraudulent activities intended to avoid payment of duties, with an estimate of the total amount of uncollected duties for the previous fiscal year and a breakdown across product lines describing the reasons duties were uncollected.

(2) RECOMMENDATIONS.—The report shall make recommendations on additional actions to address remaining problems related to duty collections and, for each recommendation, provide an analysis of how the recommendation would address the specific problem or problems cited and the impact that implementing the recommendation would have on international trade and commerce (including any additional costs imposed on United States businesses and whether the implementation of the revision is likely to violate any international trade obligations).

SEC. 5. COMPREHENSIVE MONITORING OF COMPLIANCE BY THE PEOPLE'S REPUBLIC OF CHINA WITH ITS INTERNATIONAL TRADE OBLIGATIONS.

(a) INTELLECTUAL PROPERTY RIGHTS COMPLIANCE.—

(1) IN GENERAL.—In accordance with the terms of the Agreement of WTO Accession for the People's Republic of China, subsequent agreements by Chinese authorities through the U.S.-China Joint Commission on Commerce and Trade (JCCT), and other obligations by Chinese officials related to its trade obligations, the United States Trade Representative and the Secretary of Commerce shall undertake to ensure that the Government of the People's Republic China has taken the following steps:

(A) The Chinese Government has increased the number of civil and criminal prosecutions of intellectual property rights violators by the end of 2005 to a level that significantly decreases the current amount of infringing products for sale within China.

(B) China's Supreme People's Court, Supreme People's Procuratorate, and Ministry of Public Security have issued draft guidelines for public comment to ensure the timely referral of intellectual property rights violations from administrative bodies to criminal prosecution.

(C) The Chinese Ministry of Public Security and the General Administration of Customs have issued regulations to ensure the timely transfer of intellectual property rights cases for criminal investigation.

(D) The Chinese Ministry of Public Security has established a leading group responsible for overall research, planning, and coordination of all intellectual property rights criminal enforcement to ensure a focused and coordinated nationwide enforcement effort.

(E) The Chinese Government has established a bilateral intellectual property rights law enforcement working group in cooperation with the United States whose members will cooperate on enforcement activities to reduce cross-border infringing activities.

(F) The Chinese Government has aggressively countered movie piracy by dedicating enforcement teams to pursue enforcement actions against pirates and has regularly instructed enforcement authorities nationwide that copies of films and audio-visual products still in censorship or import review or otherwise not yet authorized for distribution are deemed pirated and subject to enhanced enforcement.

(G) By the end of 2005, the Chinese Government has completed its legalization program to ensure that all central, provincial, and local government offices are using only licensed software and by the end of 2006 has extended the program to enterprises (including state-owned enterprises).

(H) The Chinese Government, having declared that software end-user piracy is considered to constitute "harm to the public interest" and as such will be subject to administrative penalties nationwide, has initiated civil and criminal prosecutions of software end-user violators.

(I) The Chinese Government has appointed an Intellectual Property Rights Ombudsman at the Chinese Embassy in Washington, D.C., to serve as the point of contact for United States companies, particularly small- and medium-sized businesses, seeking to secure and enforce their intellectual property rights in China or experiencing intellectual property rights problems in China.

(J) The relevant Chinese agencies, including the Ministry of Commerce, the China Trademark Office, the State Intellectual Property Office, and the National Copyright Administration of China have significantly improved intellectual property rights enforcement at trade shows and issued new regulations to achieve this goal.

(K) Not later than June 30, 2006, the Chinese State Council has submitted to the National People's Congress the legislative package needed for China to accede to the World Intellectual Property Organization (WIPO) Internet treaties.

(L) The Chinese Government has taken steps to enforce intellectual property right laws against Internet piracy, including through enforcement at Internet cafes.

(M) The Chinese Government, having confirmed that the criminal penalty thresholds in the 2004 Judicial Interpretation are applicable to sound recordings, has instituted civil and criminal prosecutions against such violators.

(N) The Chinese Government has initiated civil and criminal prosecutions against exporters of infringing recordings.

(2) Dispute Settlement Proceedings in WTO.—If the President determines that the People's Republic of China has not met each of the obligations described in subparagraphs (A) through (N) of paragraph (1) or taken steps that result in significant improvements in protection of intellectual property rights in accordance with its trade obligations, then the President shall assign such resources as are necessary to collect evidence of such trade agreement violations for use in dispute settlement proceedings against China in the World Trade Organization.

(b) Access for Exports of United States Goods.—In accordance with the terms of the Agreement of WTO Accession for the People's Republic of China, subsequent agreements by Chinese authorities through the U.S.-China Joint Commission on Commerce and Trade (JCCT), and other obligations by Chinese officials related to its trade obligations, the United States Trade Representative and the Secretary of Commerce shall undertake to ensure that the Government of the People's Republic of China has taken the following steps:

(1) China has taken steps to ensure that United States products can be freely distributed in China, including by approving a significant backlog of distribution license applications and by preparing a regulatory guide for businesses seeking to acquire distribution rights that expands on the guidelines announced in April 2005.

(2) Chinese officials have permitted all enterprises in China, including those located in bonded zones, to acquire licenses to distribute goods throughout China.

(3) The Chinese Government has submitted regulations on management of direct selling to the Chinese State Council for review and taken any additional steps necessary to provide a legal basis for United States direct sales firms to sell United States goods directly to households in China.

(4) The Chinese Government has issued final regulations on direct selling, including with respect to distribution of imported goods and fixed location requirements.

(c) Access for Exports of United States Services.—In accordance with the terms of the Agreement of WTO Accession for the People's Republic of China, subsequent agreements by Chinese authorities through the U.S.-China Joint Commission on Commerce and Trade (JCCT), and other obligations by Chinese officials related to its trade obligations, the United States Trade Representative and the Secretary of Commerce shall undertake to ensure that the Government of the People's Republic of China has taken the following steps:

(1) The Chinese Government has convened a meeting of the U.S.-China Insurance Dialogue before the end of 2005 to discuss regulatory concerns and barriers to further liberalization of the sector.

(2) The Chinese Government has made senior level officials available to meet under the JCCT Information Technology Working Group to discuss capitalization requirements, resale services, and other issues as agreed to by the two sides.

(d) Access for United States Agriculture.—In accordance with the terms of the Agreement of WTO Accession for the People's Republic of China, subsequent agreements by Chinese authorities through the U.S.-China Joint Commission on Commerce and Trade (JCCT), and other obligations by Chinese officials related to its trade obligations, the United States Trade Representative and the Secretary of Agriculture shall undertake to ensure that the Government of the People's Republic of China has taken the following steps:

(1) China has completed the regulatory approval process for a United States-produced corn biotech variety.

(2) China's Administration of Quality Supervision, Inspection and Quarantine has implemented the 2005 Memorandum of Understanding between the United States and China designed to facilitate cooperation on animal and plant health safety issues and improve efforts to expand United States access to China's markets for agricultural commodities.

(e) Accounting of Chinese Subsidies.—In accordance with the terms of the Agreement of WTO Accession for the People's Republic of China, subsequent agreements by Chinese authorities through the U.S.-China Joint Commission on Commerce and Trade (JCCT), and other obligations by Chinese officials related to its trade obligations, the United States Trade Representative and the Secretary of Commerce shall undertake to ensure that the Government of the People's Republic of China has provided a detailed accounting of its subsidies to the World Trade Organization by the end of 2005.

(f) Reports.—

(1) Biannual report.—Not later than six months after the date of the enactment of this Act, and every six months thereafter, the President should transmit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report that contains—

(A) a description of the specific steps taken by the Government of the People's Republic of China to meet its obligations described in subsections (a) through (e) of this section (other than obligations described in subsections (a)(1)(A) and (G), (b)(1), (c)(1), and (e));

(B) an analysis of the extent to which Chinese officials are attempting in good faith to meet such obligations; and

(C) a description of the actions, if any, the President will take to obtain compliance by China if the President determines that the Chinese Government is failing to meet such obligations, including pursuing United States rights under the dispute settlement provisions of the World Trade Organization, as appropriate.

(2) Monthly report.—Not later than 30 days after the date of the enactment of this Act, and every 30 days thereafter, the President should transmit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report that contains—

(A) a description of the specific steps taken by the Government of the People's Republic of China to meet its obligations described in subsections (a)(1)(A) and (G), (b)(1), (c)(1), and (e);

(B) an analysis of the extent to which Chinese officials are attempting in good faith to meet such obligations; and

(C) a description of the actions, if any, the President will take to obtain compliance by China if the President determines that the Chinese Government is failing to meet such obligations, including pursuing United States rights under the dispute settlement provisions of the World Trade Organization, as appropriate.

SEC. 6. REPORTS ON CURRENCY MANIPULATION BY FOREIGN COUNTRIES.

(a) Report on Currency Manipulation.—Not later than 60 days after the date of the enactment of this Act, the Secretary of the Treasury shall submit to the appropriate congressional committees a report that—

(1) defines currency manipulation;

(2) describes actions of foreign countries that will be considered to be currency manipulation; and

(3) describes how statutory provisions addressing currency manipulation by trading partners of the United States contained in, and relating to, section 40 of the Bretton Woods Agreements Act (22 U.S.C. 286y) and sections 3004 and 3005 of the Exchange Rates and International Economic Policy Coordination Act of 1988 (22 U.S.C. 5304 and 5305) can be better clarified administratively to provide for improved and more predictable evaluation.

(b) Report on Actions by China.—

(1) In general.—In light of the recent positive announcement by the Government of the People's Republic of China with respect to increased exchange rate flexibility, the Secretary of the Treasury shall submit to the appropriate congressional committees a report that examines the mechanism adopted by the Chinese Government to relate its currency to a basket of foreign currencies and the degree to which the application of this mechanism moves the currency closer to a market-based representation of its value.

(2) Deadline.— The initial report required by this subsection shall be submitted to the appropriate congressional committees not later than 180 days after the date of the enactment of this Act and subsequent reports shall be included in the report required under section 3005 of the Exchange Rates and International Economic Policy Coordination Act of 1988 (22 U.S.C. 5305).

(c) Definition.—In this section, the term "appropriate congressional committees" means—

(1) the Committee on Ways and Means and the Committee on Financial Services of the House of Representatives; and

(2) the Committee on Finance and the Committee on Banking, Housing, and Urban Affairs of the Senate

SEC. 7. AUTHORIZATION OF APPROPRIATIONS FOR THE OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE.

(a) Authorization of Appropriations.—

(1) In general.—Section 141(g)(1)(A) of the Trade Act of 1974 (19 U.S.C. 2171(g)(1)(A)) is amended by striking clauses (i) and (ii) and inserting the following:

"(i) $44,779,000 for fiscal year 2006.

"(ii) $47,018,000 for fiscal year 2007.".

(2) Rule of construction.—The amendment made by paragraph (1) shall not be construed to affect the availability of funds appropriated pursuant to section 141(g)(1)(A) of the Trade Act of 1974 before the date of the enactment of this Act.

(b) Authorization of Appropriations for the Office of the General Counsel and Certain Other Offices.—There are authorized to be appropriated to the Office of the United States Trade Representative for the appointment of additional staff in or enhanced activities by the Office of the General Counsel, the Office of Monitoring and Enforcement, the Office of China Affairs, and the Office of Japan, Korea, and APEC Affairs—

(1) $4,000,000 for fiscal year 2006; and

(2) $4,000,000 for fiscal year 2007.

(c) Sense of Congress.—It is the sense of the Congress that the enforcement of United States rights and of obligations of United States trading partners under trade agreements has gained such significance that the United States Trade Representative should determine which of its current positions is most responsible for carrying out these important enforcement duties and should assign that position, in addition to any other title, the title of Chief Enforcement Officer.

SEC. 8. AUTHORIZATION OF APPROPRIATIONS FOR THE UNITED STATES INTERNATIONAL TRADE COMMISSION.

(a) Authorization of Appropriations.—Section 330(e)(2)(A) of the Tariff Act of 1930 (19 U.S.C. 1330(e)(2)(A)) is amended by striking clauses (i) and (ii) and inserting the following:

"(i) $62,752,000 for fiscal year 2006.

"(ii) $65,890,000 for fiscal year 2007.".

(b) Rule of Construction.—The amendment made by subsection (a) shall not be construed to affect the availability of funds appropriated pursuant to section section 330(e)(2)(A) of the Tariff Act of 1930 before the date of the enactment of this Act.

(c) Study and Report on Trade and Economic Relations With China.—

(1) Study.—

(A) In general.—The United States International Trade Commission shall carry out a comprehensive study on trade and economic relations between the United States and the People's Republic of China which addresses China's economic policies, including its exchange rate policy, the competitiveness of its industries, the composition and nature of its trade patterns, and other elements impacting the United States trade account, industry, competitiveness, and employment.

(B) Requirements.—In carrying out the study under subparagraph (A), the United States International Trade Commission shall undertake the following:

(i) An analysis of the United States trade and investment relationship with China, with a focus on the United States-China trade balance and trends affecting particular industries, products, and sectors in agriculture, manufacturing, and services. The analysis shall provide context for understanding the U.S.-China trade and investment relationship, by including information regarding China's economic relationships with third countries and China's changing policy regime and business environment. The analysis shall include a focus on United States-China trade in goods and services, United States direct investment in China, China's foreign direct investment in the United States, and the relationship between trade and investment. The analysis shall make adjustments, where possible, for merchandise passed through Hong Kong.

(ii) An analysis of the competitive conditions in China affecting United States exports and United States direct investment. The analysis shall take into account, to the extent feasible, significant factors including tariffs and non-tariff measures, competition from Chinese domestic firms and foreign-based companies operating in China, the Chinese regulatory environment, including specific regulations and overall regulatory transparency, and other Chinese industrial and financial policies. In addition, the analysis shall examine the specific competitive conditions facing United States producers in key industries, products, services, and sectors, potentially including computer and telecommunications hardware, textiles, grains, cotton, and financial services based on trade and investment flows.

(iii) An examination of the role and importance of intellectual property rights issues, such as patents, copyrights, and licensing, in specific industries in China, including the pharmaceutical industry, the software industry, and the entertainment industry.

(iv) An analysis of the effects on global commodity markets of China's growing demand for energy and raw materials.

(v) An examination of whether or not increased United States imports from China reflect displacement of United States imports from third countries or United States domestic production, and the role of intermediate and value-added goods processing in China's pattern of trade.

(2) Report.—Not later than one year after the date of the enactment of this Act, the United States International Trade Commission shall submit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report that contains the results of the study carried out under paragraph (1).

SEC. 9. SENSE OF CONGRESS REGARDING EXPANSION OF MEMBERSHIP IN THE AGREEMENT ON GOVERNMENT PROCUREMENT OF THE WTO.

(a) Findings.—Congress finds the following:

(1) Nondiscriminatory, procompetitive, merit-based, and technology-neutral procurement of goods and services is essential so that governments can acquire the best goods to meet their needs for the best value.

(2) The Agreement on Government Procurement (GPA) of the World Trade Organization (WTO) provides a multilateral framework of rights and obligations founded on such principles.

(3) The United States is a member of the GPA, along with Canada, the European Union (including its 25 member States: Austria, Belgium, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxemburg, Malta, the Netherlands, Poland, Portugal, Slovak Republic, Slovenia, Spain, Sweden, and the United Kingdom), Hong Kong, Iceland, Israel, Japan, Korea, Liechtenstein, the Netherlands with respect to Aruba, Norway, Singapore, and Switzerland.

(4) Albania, Bulgaria, Georgia, Jordan, the Kyrgyz Republic, Moldova, Oman, Panama, and Taiwan are currently negotiating to accede to the GPA.

(5) The People's Republic of China joined the WTO in December 2001, signaling to the international community its commitment to greater openness.

(6) When China joined the WTO, it committed, in its protocol of accession, to negotiate entry into the GPA "as soon as possible".

(7) More than 3 years after its entry into the WTO, China has not commenced negotiations to join the GPA.

(8) Recent legal developments in China illustrate the importance and urgency of expanding membership in the GPA.

(9) In 2002, China enacted a law on government procurement that incorporates preferences for domestic goods and services.

(10) The first sector for which the Chinese Government has sought to implement the new government procurement law is computer software.

(11) In March 2005 the Chinese Government released draft regulations governing the procurement of computer software.

(12) The draft regulations require that non-Chinese software companies meet conditions relating to outsourcing of software development work to China, technology transfer, and similar requirements, in order to be eligible to participate in the Chinese Government market.

(13) As a result of the proposed regulations, it appears likely that a very substantial amount of American software will be excluded from the government procurement process in China. The draft software regulations threatened to close off a market with a potential value of more than $8 billion to United States firms.

(14) United States software companies have made a substantial commitment to the Chinese market and have made a substantial contribution to the development of China's software industry.

(15) The outright exclusion of substantial amounts of software not of Chinese origin that is apparently contemplated in the regulations is out of step with domestic preferences that exist in the procurement laws and practices of other WTO member countries, including the United States.

(16) The draft regulations do not adhere to the principles of nondiscriminatory, procompetitive, merit-based, and technology-neutral procurement embodied in the GPA.

(17) The software piracy rate in China has never fallen below 90 percent over the past 10 years.

(18) Chinese Government entities represent a very significant portion of the software market in China that is not dominated by piracy.

(19) The combined effect of rampant software piracy and the proposed discriminatory government procurement regulations will be a nearly impenetrable barrier to market access for the United States software industry in China.

(20) The United States trade deficit with China in 2004 was $162,000,000,000, the highest with any economy in the world, and a 12.4 percent increase over 2003.

(21) China's Premier, Wen Jiabao, has committed to rectify this serious imbalance by increasing China's imports of goods and services from the United States.

(22) The proposed software procurement regulations that were described by the Chinese Government in November 2004 incorporate policies that are fully at odds with Premier Wen's commitment to increase China's imports from the United States, and will add significantly to the trade imbalance between the United States and China.

(23) Once it is fully implemented, the discriminatory aspects of China's government procurement law will apply to all goods and services that the government procures.

(24) Other developing countries may follow the lead of China.

(25) In July 2005, senior officials of the Chinese Government announced at the U.S.-China Joint Committee on Commerce and Trade that China would accelerate its efforts to join the GPA and toward this end will initiate technical consultations with other WTO member countries and accordingly delay issuing draft regulations on software procurement, as it further considers public comments and makes revisions in light of WTO rules.

(b) Sense of Congress.—It is the sense of Congress that—

(1) the Government of the United States should strive to expand membership in the Agreement on Government Procurement of the World Trade Organization (WTO);

(2) the Government of the United States should ensure that the Government of the People's Republic of China meets its WTO obligations as recently affirmed through its commitment in July 2005 through the U.S.-

China Joint Committee on Commerce and Trade, to join the WTO Agreement on Government Procurement.

(3) the Government of the United States should seek a commitment from the Government of the People's Republic of China to maintain its suspension of the implementation of its law on government procurement, pending the conclusion of negotiations to accede to the Agreement on Government Procurement of the WTO;

(4) the Government of the United States should seek commitments from the Government of the People's Republic of China and other countries that are not yet members of the Agreement on Government Procurement of the WTO to implement the principles of openness, transparency, fair competition based on merit, nondiscrimination, and accountability in their government procurement as embodied in that agreement; and

(5) the President should direct all appropriate officials of the United States to raise these concerns with appropriate officials of the People's Republic of China and other trading partners.

The SPEAKER pro tempore. The gentleman from Pennsylvania (Mr. ENGLISH) and the gentleman from Maryland (Mr. CARDIN) each will control 30 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. ENGLISH).

Mr. ENGLISH of Pennsylvania. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, today the House has yet another opportunity to vote on a very important bill, which, in my view, takes the largest step towards strengthening our trade remedy laws in over 15 years.

☐ 1500

Madam Speaker, this bill is a comprehensive approach toward eliminating many of the inequities that exist in our existing trade relationships, and particularly the U.S.-China bilateral trade relationship. This legislation would hold China accountable and create tough mechanisms to ensure compliance, providing tools for us to use to gain compliance, should China fail to do so, on its fundamental trade obligations.

Voting for this bill today, Madam Speaker, will send a strong signal to Beijing that Congress will not sit idly by while China's mercantilist trade policy injures U.S. employers and destroys jobs, particularly in our vital manufacturing sector. Voting for this bill today, Madam Speaker, will send a strong signal to China and to every country that this Congress will do what it takes to ensure that our trading partners fully abide by the rules and are not rewarded with unfettered access to our market when they are not prepared to make the tough choices that they are obligated to, to follow the rules.

Let me make it very clear, given the experience with this bill with the minority as this bill was brought up yesterday, it has to be clear, Madam Speaker, that voting against this bill will send a dangerous signal that this Congress is willing to turn a blind eye to Chinese complacency, and we continue with the status quo which, ultimately, puts many of our most important parts of the economy at risk.

I believe this bill is strong, responsible, and comprehensive. This legislation would, among other things, close an existing loophole which bars the use of the countervailing duty law against nonmarket economies such as China. Right now a major tool in our arsenal is unavailable when dealing with Communist countries. To my mind, it is absurd that when we are able to determine that products come in from France, Japan, Brazil, or Taiwan containing subsidies, we can use the countervailing duty law to strip the benefits of those subsidies, but, by contrast, we cannot do so if we discover that China or Vietnam have subsidized products that are entering our market.

This is an absurd situation. It is one that is the result of a court decision from the 1980s, the so-called Georgetown case, and for years I have advocated that we close this loophole. This is the core of this bill and the single most important reform that we have included.

Second of all, this bill would establish a strong and external system to audit China on its compliance with trade obligations on important issues like intellectual property rights, market access, and transparency. What is more, this legislation would place Congress strongly on record as opposing attempts to use the WTO to water down our domestic trade law protections.

This legislation would require the Treasury Department to define currency manipulation and clarify legal protections against China, an important initiative and language that we have refined in light of the developments of a week ago in Chinese currency policy.

This legislation would also authorize increased funding for the United States Trade Representative to create more trade cops to improve enforcement of existing trade laws.

This legislation would also replace the current bonds that are used by new shippers and antidumping cases with cash deposits, and, over the next 3 years, in a sunset situation, would effectively close a loophole that particularly the Chinese have been using to avoid antidumping penalties in certain cases.

Finally, this legislation would authorize funding for the International Trade Commission to provide help in expediting its dealings with all trade issues.

This is a responsible, WTO-consistent initiative that I realize has been described by the other side as a fig leaf, a smoke screen, or something else. I must say, this is very much a mainstream initiative that is designed to show the strongest possible support in this Chamber for challenging China on its mercantilist trade policies.

I regret the vote of yesterday in which I think, in a very shortsighted fashion, many in the minority chose to put up a vote to slow us down here and, in the process, reduce the opportunity, if not eliminate the opportunity, for quick Senate action on this bill. I believe we should have voted yesterday to pass this bill. But the other side has one more opportunity to set the record right and make very clear that they are prepared to work with us to deal with the problem of China trade.

I believe that passage of this legislation is essential for the economic future of the next generation, for the future of good-paying jobs in places like my native northwestern Pennsylvania, where we make things for a living, and we need to get this policy right. That is why I strongly urge my colleagues to support and swiftly pass this important measure.

Madam Speaker, I reserve the balance of my time.

Mr. CARDIN. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I normally am in agreement with my friend, the gentleman from Pennsylvania, when it comes to antidumping and countervailing duty laws. We have worked together to try to improve those laws. But I disagree with him in regards to this legislation.

Madam Speaker, I disagree with the gentleman's assessment of this legislation. I think it is an inconsequential bill. I do not believe it will do very much one way or the other. It will certainly not hold China accountable. There is nothing in this bill that would hold China accountable for its violations of its international trade obligations.

So, Madam Speaker, let me try to get the Members to focus on what is in this bill and not what people who may be coming to this well say is in this bill. I would urge my colleagues to please read the legislation that is before us. It is not the original bill that was filed by the gentleman from Pennsylvania (Mr. ENGLISH), a bill that was supported by the industry, that would have extended countervailing duty laws to China and nonmarket economies. Instead, what this bill does in section 2 is a "sense of Congress." Now, a sense of Congress resolution is exactly that. It expresses our concerns, but takes no action.

The first section that takes any action at all in changing law is section 3, and section 3 does deal with the countervailing duty provisions. It extends countervailing duties to nonmarket economies. That is good. Countervailing duties are imposed when a country inappropriately subsidizes its products that go into international trade. And China and nonmarket economies should be held to our countervailing duty laws. Unfortunately, they are not today.

The problem is that the amended bill then puts 2 hurdles in being able to apply those countervailing duty provisions. It first does what is known as double-counting and prevents from using on the countervailing duties the import and export subsidies by the country involved. Now, that is a different standard than we have for market economies, where you only have to double-count export subsidies. The change here is dramatic, and that is why the industries that are affected by the countervailing duty statute that we would hope would help in regards to China oppose this provision.

Nu Car, which is one of the companies that asked us to apply the countervailing duty law to China, has written us in opposition to this section, because it will not help them remedy the situation of subsidized product coming from China into the United States. That is why the Committee to Support U.S. Trade Laws, the committee of business groups that have joined together in order to strengthen our antidumping and countervailing duty laws, oppose this section. It will not help companies that are hurt by subsidized, manufactured product coming into the United States. That is section 3. That is why I say, you try to help in one respect, but you take it away by putting obstacles in the way.

You also put a second test that is not currently required, a certification of compliance of international law. That is not required today for a market economy violation for us to file a countervailing duty claim. That is section 3.

Let us go to section 4. Section 4 deals with the new shipper review amendment. Well, here we have a problem with Chinese exporters who are not getting an adequate security when they come into our market. You provided a temporary fix for 3 years. We should do it permanently. It should be done permanently.

Going to section 5, section 5 talks about monitoring compliance with the People's Republic of China with international trade obligations. Read what is here. There is no action. There is review, but no action. We should not be doing this now, the review. The administration does this already. There is nothing new that is added to the requirements that we are going to be able to take action against China for violating intellectual property rights or access to market for services, or access to market for goods. We should be taking action under our safeguards in that regard. But no, there is no action at all taken in section 5. If I am wrong, please correct me on this point.

Then we move to section 6. Section 6 is probably the most egregious section in the bill: report on currency manipulation by foreign countries. Read it. It is only a couple lines. You are asking Treasury to define currency manipulation. We have already had Treasury report to us and fail to take action against China. China is manipulating its currency. We all know that. So why do we not take action against China? No. This bill does, again, nothing in regards to China currency.

Then, in section 7, you talk about providing more money for the USTR. You are not providing more money for the USTR. The amount that you have here in authorized levels has already been provided in the appropriations bill. There is no new money here.

Then, in section 8, you talk about more money for the U.S. International Trade Commission. Again, it is equal to the amount that we have already provided through the appropriation process. There is no new money here in either section 7 or section 8.

I want to give you credit in section 9, talking about sense of Congress regarding the expansion of membership in the agreement on government procurement of the WTO. I support that section. I think we should be asking for broader participation in government procurement under the WTO. No action here again, strictly a sense of Congress.

So, Madam Speaker, I take this time to go through section by section because I challenge Members who come and speak on this bill to please speak about the facts of what is in this bill. There are only two sections that actually provide any change in law or action. One deals with countervailing duty, and I have already pointed out how there is negative along with the positive, and the other deals with a temporary fix of the exporter license issue, which is certainly not the major problem that we are having with China today.

As I said earlier, this bill is a missed opportunity. It is a missed opportunity because the overwhelming majority of the Members of this body would like to vote on a bill that would provide real relief to the problems that we have in China living up to its international trade responsibilities. That legislation just happens to be H.R. 3306, which has been introduced by the gentleman from New York (Mr. RANGEL). I regret that we do not have an opportunity to debate that bill and do what is right for the people of this country in enforcing our trade rules against the People's Republic of China.

Madam Speaker, I reserve the balance of my time.

Mr. ENGLISH of Pennsylvania. Madam Speaker, I yield myself 1½ minutes, first off, to invite my opponent, or my colleague, to actually read the bill.

I think this is sort of amusing. He criticizes us for dealing with the problem of double-counting, and yet the GAO conceded that this was a serious problem. Our bill has dealt with it directly, and this is an issue I have been involved in for years, and, honestly, our friends from the Committee on Ways and Means on the other side have not been.

Yes, our language encourages compliance with the WTO, but it is not self-executing, so I think that is actually a good thing.

He criticizes us for having a sunset on bonds. I thought the other side loved sunset provisions, particularly in the PATRIOT Act. We need to revisit this issue in a few years and see if it is having a negative impact.

We also, may I point out, do require the Treasury to revisit its current definition on currency manipulation, which, I would submit, is the principal problem with the application of the current law as it applies to currency manipulation.

□ 1515

Finally, we authorize funds, which is within the jurisdiction of our committee. Their bill does not authorize funds. In my view it is appropriate for us to specify through the authorization process how USTR is going to apply this money to new trade cops.

And, finally, may I point out, the gentleman claims that people in affected industries are opposing this legislation. Actually, this has been endorsed by the National Association of Manufacturers, the American Forest and Paper Association, the Forging Industry Association, the North American Die Casting Association, the Industrial Fasteners Institute, and the Vanadium Producers and Reclaimers Association.

The final point I would make is that when it comes to government procurement, we lifted Mr. RANGEL's provisions. So I am not sure where their criticism is coming from.

Madam Speaker, I yield 2½ minutes to the gentleman from Arizona (Mr. HAYWORTH).

Mr. HAYWORTH. Madam Speaker, I come to the well again, and it seems like only yesterday we were here. In fact, it was yesterday, was it not? And, Madam Speaker, I think we have just seen why my colleague, the gentleman from Pennsylvania (Mr. ENGLISH), is one of the most able members of the Ways and Means Committee, because he put to rest many of the criticisms offered by my friend, the gentleman from Maryland (Mr. CARDIN).

It was interesting to pick up on one of the criticisms. Let us just deal with it, lamenting the fact that this bill conveys a sense of Congress to the People's Republic of China, that it carries little consequence.

Well, I would invite every Member of this House, including my colleague from Maryland, to think back just a couple of weeks ago when a bipartisan sense of the Congress was offered on this floor from Democrats and Republicans alike, dealing with a possible Chinese purchase of Unocal.

It so incensed the Chinese Government, they told us to butt out. Now, that is very interesting, because if it is only a sense of the Congress, if it is only a useless exercise, it certainly awakened those in the Chinese Polit Bureau in Beijing; and I stand in this well again supporting this legislation today because the facts have not changed from yesterday.

The fact is, this legislation puts the Communist Chinese on notice: if you want to get in the game, you better start playing by the rules. And, Madam Speaker, I say this in all candor. As one who opposed the most favored nation trade status for China, I believe this is important legislation. At the end of the day, this is the dilemma for my friends on the other side: Does the upcoming midterm election and political posturing win out to make the perfect the enemy of the good, or do they stand with us, as they did in this well 2 weeks ago, not only conveying the sense of Congress, but putting teeth behind our policy to tell the Chinese enough is enough?

Support this legislation. Do not deal with domestic political obstruction. Strike a blow for freedom and putting Communist China on notice.

Mr. CARDIN. Madam Speaker, I yield myself 30 seconds to respond to the gentleman from Pennsylvania (Mr. ENGLISH).

I think the gentleman pointed out that there are no sections other than the two I mentioned that are action sections in your bill. And I point out again that the double-counting provision will make the application of countervailing duties much more difficult, if not impossible, in a nonmarket economy; and that is not helpful to companies that have been hurt by subsidized products coming from China.

Madam Speaker, I yield 3 minutes to the gentleman from Washington (Mr. MCDERMOTT).

Mr. MCDERMOTT. Madam Speaker, the Republicans have another installment in their blame game before us today. The trade deficit is rising higher and faster than the Space Shuttle because of policies blasted through the Congress by the Republicans. But they want to blame someone else. They say it is the fault of the Chinese, failing to remember their massive cuts in education and job training programs. They fail to remember that our trade deficit occurred because foreigners are financing our budget deficit.

When the Republicans took control of the Congress over a decade ago, they came in as the party of free trade and free enterprise and balanced budgets. Well, now we have got companies and workers racing out of this country because of high energy and high health care costs. We have got employers leaving this country because they cannot find better skilled employees in this country than they can find elsewhere. And what do the Republicans do?

They blame the patients and the courts for higher health care costs. They blame environmentalists for the high price of crude oil, and they blame workers when their jobs are outsourced. They blame everyone but themselves for our problems and avoid doing anything that can improve the situation. And that is what this bill is today.

This bill does not really require the administration to do anything to level the playing field with China. Does this bill invest in the American workforce so they can better compete in the global economy? The answer is no.

Does this bill do something about the explosive energy prices that eat away at our competitiveness? No. Does this bill significantly invest in research and development so that the new services and products consumed around the world are created here at home by Americans? The answer is no.

And does this bill do anything to combat health care costs that are spiraling out of control and force companies to reconsider whether they want to incorporate here or in Canada? The answer is no. Does this bill do anything to improve the security of America's working people? The answer is no.

This is just a mechanism the Republicans would use to point their fingers elsewhere, to China. They will not even put this bill before the Ways and Means Committee for an honest discussion. That is because this bill is not about solving America's problems or supporting America's workers. It is to make the workers believe that they are supporting them.

This bill is about bashing the Chinese in order to divert attention from the fact that the next bill up is CAFTA. The Republicans have ignored making America competitive in the world economy. This is a sop. This bill is out here first for a sop, for those Members who are going to vote for CAFTA, but want something to balance it off when they go home.

I was strong against China, but I did shift some stuff down to Central America; but please do not hold that against me, because I was strong against China. This is a sop. There are no teeth in this. There are no teeth at all. This is simply China bashing. And that does not make us more competitive in the world, and it does not make us deal with our deficit.

We have to deal with the budget in this country if we are going to be serious about the Chinese investing in our bonds. They own big chunks of America, and they are going to continue it as long as the Republicans run the kind of deficits that they seem to think do not make any difference any more.

I remember guys out here talking about, oh, my goodness, we have to have a balanced budget amendment. This country is going to go to the dogs if we do not have a balanced budget amendment. Then they got in charge, and they started spending like there was no end to their credit card. Stop it. Do not bash the Chinese.

Mr. ENGLISH of Pennsylvania. Madam Speaker, I yield 2 minutes to the gentlewoman from Pennsylvania (Ms. HART).

Ms. HART. Madam Speaker, I thank the gentleman for yielding me this time.

Clearly, I am in support of the U.S. Trade Rights Enforcement Act; and as yesterday, I stood somewhat flummoxed at the lack of support on the other side of the aisle where they claim to care about workers in the United States, but will not support this legislation.

I stand here again to explain how this certainly is the best way available to us today to help workers in the United States. I visit many plants in the communities I represent in western Pennsylvania; and when people talk to me about their top issue, there are several, but one that always recurs, no matter the size of the manufacturer, are concerns about China.

Their concerns deal with market access, they deal with piracy of products, they deal with dumping of products in the American market, and they deal with Chinese currency manipulation. Our U.S. Government has put a significant amount of pressure on China, but not enough.

This bill gives our government the tools to put that real pressure on China and to actually deal with them. It gives them teeth. Currently, U.S. companies can only file antidumping trade cases against companies in market economies. We need to deal with nonmarket economies like China. This bill helps us to do that. The other issue of piracy is one that we have struggled with in the Judiciary Committee trying to find ways to protect the intellectual property that we create here in the United States to make sure that those creators get the benefit of their ideas.

We have now under this bill tools to fight piracy, to enforce our laws; dumping of products, a huge concern for manufacturers, especially of commodity products. This bill helps us deal with dumping. Finally, China made a step in the right direction on currency manipulation last week.

This bill helps us to monitor the results of what they have done and to push them to do even more to make sure that their currency floats. This legislation, the United States Trade Rights Enforcement Act, is a very broad and very helpful piece of legislation to our manufacturers, our farmers and our service providers in the United

States. It will help us get into that economy in China to sell our products there, to protect our products that are created here. It will monitor their system. It will enforce the laws that they have agreed to follow.

It gives our United States Trade Representative the opportunity to make sure that the atmosphere here in the United States only gets better and our access to Chinese markets improves significantly.

Mr. CARDIN. Madam Speaker, I yield myself 30 seconds just to respond to gentlewoman's comments.

Madam Speaker, there is nothing in this bill that deals with dumping and enforcement in China. There is nothing in this bill that takes action against China for currency manipulation. And there is nothing in this bill that takes action against China for intellectual property failures. On the countervailing duties, I have already commented on that.

Madam Speaker, I yield 4½ minutes to the gentleman from Michigan (Mr. LEVIN), the former ranking Democrat on trade, the senior member of the Ways and Means Committee.

Mr. LEVIN. Madam Speaker, the gentleman from Maryland (Mr. CARDIN) has done such a splendid job, I am not sure what more needs to be said.

Mr. CARDIN, you want me to say it again.

You and I have spoken on this earlier, and it is unbelievable the hyperbole that we hear. I mean, if people want to vote for hyperbole, I guess this is a good way to do it. If they want to vote for this as a balance to vote for CAFTA, my suggestion is no one is going to buy that. They are going to see right through it.

I mean, you already responded. It has been said that there are tools here. I mean, I have been looking in this bill. You have read it carefully. And you have not been able to find the tool.

And I looked at it, and I cannot find anything that resembles a tool to do anything. On piracy, I am not sure what we are talking about. It is an immense problem. This administration has had years to do something about it, years. When I was last in China, I walked out of the hotel for the first time and immediately someone said, I have got a DVD, it is brand new, for $1. And I said, I do not want it. And the gentleman was kind of insulted that I did not want to buy a DVD that was brand new for just a buck.

You come here with all of these problems and say this bill is going to do anything about that? Really? On currency, it is mind-boggling.

□ 1530

You say you want reports. You want reports. Every 6 months the Treasury Department sends us a report. How thick is it? I forget. They are like this or like this. If we had brought these reports over from the last few years, I would guess they would be maybe a foot and a half high.

I say to the gentleman from Pennsylvania (Mr. ENGLISH), we do not need reports. We need some serious discussion and then action in this place. And I read the sense of the Congress provisions. The hyperbole we hear is that we are somehow going to impact somebody. I will use that word carefully.

I read, for example, subparagraph 12, regarding Japan. This is in section 2, sense of the Congress. It says: In addition the USTR should place particular emphasis on trade barriers imposed by Japan.

My word, we need more than words. We have been urging this administration to take action against nontariff barriers put up by Japan from the day they came into office, and nothing has happened. And you think some words here will impact?

I close with a comment about the bonds. Look, I remember sitting in the Committee on Ways and Means years ago talking about this problem, and it was only within the last 12 months that once again we asked the majority to take action against this evasion, and you refused to do it. So now you come here with something that is temporary. Why not make it permanent? We have been studying this darn problem for years. This is such a lame bill that it does not really get out of the starting gate.

So do not paint this as what it is not. Do not paint this as some turning point. What this is more than anything else is an effort to say to some people, we will give you this vote in return for your vote on CAFTA. Some people have been biting on that apple. Do not do it.

If you want to vote for a bill that is so short of what we have introduced, and by the way, I say to the gentleman from Florida (Mr. SHAW), it does not violate the WTO requirements in any respects, the bill of the gentleman from New York (Mr. RANGEL). If you want to vote for this thinking it does something, go ahead. Do not vote for it as an excuse to vote for something else.

Mr. ENGLISH of Pennsylvania. Madam Speaker, I yield myself 45 seconds.

First of all, if I am guilty of hyperbole, that certainly was not my intent.

I would also like to point out there are some that share my view of the importance of this legislation. Endorsing this bill from the National Association of Manufacturers, John Engler, their president, wrote, This bill would give U.S. companies the ability to offset unfair subsidies that benefit many of their competitors in China and other nations. For the first time, it will give Americans the same trade rights guaranteed to others under the World Trade Organization rules.

For those who wonder why the other side voted en masse against this bill yesterday, in today's Hill, according to the spokesman for the Ways and Means Democrats, "The minority's near unified opposition to the bill stemmed as much from its role in the CAFTA battle as from the strength of its content."

Now that to me is cynicism, and I think puts it into context.

Madam Speaker, I yield 4 minutes to the gentleman from Florida (Mr. SHAW), the chairman of the Subcommittee on Trade of the Committee on Ways and Means.

Mr. SHAW. Madam Speaker, I thank the gentleman from Pennsylvania (Mr. ENGLISH) for yielding me this time, and I congratulate him on his leadership for bringing this bill to the floor.

My friend from Michigan who just left the well has been critical of this bill regarding to intellectual property rights. Well, sometimes we should go to the bill and read the bill. And I am going to read it. It says, "Dispute settlement proceedings in World Trade Organization. If the President determines that the People's Republic of China has not met each of the obligations described in A through N, paragraph one," and that is the provision in there that talks about the trade obligations. It then goes on to say, "or taken steps that result in significant improvements or protection of intellectual property rights in accordance with its trade obligations, then the President shall assign such resources as necessary to collect such evidence of trade agreement violations for use in dispute settlement agreements against China in the World Trade Organization."

In other words, it says the President will proceed in accordance with the law through the World Trade Organization to obtain sanctions. That is what the World Trade Organization is about. It is not about unilateral sanctions. It is simply about that.

This bill has got a lot of teeth in it, and for anyone to get to the well and say, hey, this does not have teeth in it really is misstating what this bill actually does. It takes us a long way down the road in solving some of the problems with China.

This is not the end of the legislative process as it relates to China. I think every Member of this Congress should know that. This does not cut off further debate on China. This does not cut off or set aside the possibility of new legislation dealing with the problems of China. We are all concerned about the tremendous increase in the deficit as it goes from China, but most of that deficit, if not all of it, is actually taking trade out of Japan and taking it out of Korea, South Korea.

When you look at the trade deficit as it is to that part of the world, it is pretty flat. But China's part is increasing, and the other countries' are decreasing. That is concern for alarm. And I am concerned about some of the trade practices of China which are very sloppy and, quite frankly, not dealing entirely honestly with the trading partners.

So I would ask that Members put aside the politics and all the rhetoric, read the bill. If you like what is in the bill, it moves us further down the road. If you do not think we have gone far enough, that does not mean that you vote no on this particular bill. If you are interested in going forward with legislation that will control the violation of law committed by China, vote yes.

Mr. CARDIN. Madam Speaker, I yield myself 2 minutes.

Madam Speaker, in response to my friend from Florida's (Mr. SHAW) comments on the intellectual property problems that we are having with China, and they are substantial, China is violating intellectual property rights every day not only with videos and tapes, but also with industrial products. Listen to what the gentleman from Florida (Mr. SHAW) said. Listen to the action required by the President if China violates intellectual property to gather information.

We already have that, Madam Speaker. Action is filing a claim under the WTO. That is following the requirements of the WTO dispute settlement resolution process. There is no action whatsoever in this bill. The gentleman from Michigan (Mr. LEVIN) got it right. This is a bill about saying things about China that people might feel good about. And if you are so inclined to feel good about it and want to vote for it, fine. But to say that this is taking action against China is just wrong. It does not take action against China.

The administration tomorrow could file a claim against China on intellectual property against China if it wanted to, and it should have. The administration yesterday should have filed claims against China for currency manipulation, and it has not, and then allow the WTO process to proceed. But for us to say that we are requiring the administration to make a finding and then collect information which they already have is being tough on China, come on now. Let us be straightforward on this bill.

It is a bill that says things about China that many Members might feel good about, but as far as taking action against China, this bill comes out short.

Madam Speaker, I reserve the balance of my time.

Mr. ENGLISH of Pennsylvania. Madam Speaker, how much time is remaining?

The SPEAKER pro tempore (Mrs. BIGGERT). The gentleman from Pennsylvania (Mr. ENGLISH) has 14 minutes remaining. The gentleman from Maryland (Mr. CARDIN) has 12 minutes remaining.

Mr. ENGLISH of Pennsylvania. Madam Speaker, I yield 2 minutes to the gentleman from Ohio (Mr. TURNER), a very distinguished Member of the House, who in a short period of time has become a real fighter for fair trade.

Mr. TURNER. Madam Speaker, I support H.R. 3283, the United States Trade Rights Enforcement Act, because it is necessary to send a strong message to foreign governments who are unfairly dumping product on our shores and manipulating their currency rates.

In June, I hosted my second Manufacturing and Jobs Forum in my district. I invited manufacturers from southwest Ohio to share their concerns about their businesses. The gentleman from Pennsylvania (Mr. ENGLISH) joined me for my first forum, and the gentleman from Illinois (Mr. MANZULLO) joined me in Dayton for the second forum. I would like to thank both gentlemen for their leadership on the issue of trade fairness.

Madam Speaker, the manufacturers I spoke with during both forums shared a common concern about the survival of their businesses, the American economy, and unfair trade practices of China, including the undervaluing of China's currency. Congress must continue to work to level the playing field for manufacturers.

Last Thursday the Chinese Government announced that they would no longer peg their currency to the American dollar. Chinese currency will be given room to float among a bundle of foreign currency rates. Mr. Speaker, this is an important first step; however, this adjustment will still result in an undervalued Chinese currency.

H.R. 3283 will take further steps to enforce our trade rights. H.R. 3283 will require the Secretary of the Treasury to submit a report to Congress defining currency manipulation and describing the actions of foreign countries who are manipulating their currency. This important provision, along with others included in the bill, will help Ohio manufacturers who are continually harmed by unfair trade practices. I urge my colleagues to vote for this bill.

Mr. CARDIN. Madam Speaker, I yield myself 2 minutes. In response on the currency issue, section 6 in this legislation deals with currency manipulation. It does not deal with China specifically. And it requires the Secretary of the Treasury to define currency manipulation and describe actions of foreign countries that will be considered to be currency manipulation.

The problem is Treasury has already done this and found that China was not manipulating its currency despite the fact that we know it undervalues its currency between 15 percent and 40 percent. So I appreciate the gentleman's concern about the competitive problems that we have with American manufacturers and producers trying to compete with an undervalued Chinese currency, but this bill comes up very short.

But I very much appreciate what the gentleman said because we will be come back in a little bit and offer him an opportunity to really do something about the manipulation of China's currency.

Madam Speaker, let me also point out while I am on the floor that legislation filed by the gentleman from New York (Mr. RANGEL), H.R. 3306, would take action in this area by requiring the administration to initiate a WTO action to address China's currency manipulation.

Now, that would bring action consistent with our obligations under the World Trade Organization because we would act under the World Trade Organization. That is what we should be doing.

Let me suggest that when you file an action under the WTO, it is not the end of issues, it is the beginning of a process. To ask the Secretary of the Treasury to do another study or come up with another definition, all we do is delay for another year any action against China. And to suggest that there are minor adjustments that they made is in any way dealing with the underlying problems of currency manipulation is just unreal. China announced today that they do not intend to do more. So we need to take action against China.

☐ 1545

American jobs are at stake. We can compete if it is on a fair, level playing field. It is not. This bill does not deal with the China currency issue.

Madam Speaker, I reserve the balance of my time.

Mr. ENGLISH of Pennsylvania. Madam Speaker, I yield myself 1½ minutes to clarify a few points raised by the gentleman from Maryland (Mr. CARDIN) and the prior speaker.

First of all, this legislation does have a significant approach not only to dealing with some of the loopholes in the antidumping, as spoken for in the bond provision, but also dealing with the problem of subsidies, where we do not apply countervailing duties in cases where communist countries are found to be sending products into our market currently. I believe, as I will make clear in a colloquy in a few minutes, that this language does not create additional loopholes but, in fact, I think provides a real and substantial solution.

I would also point out that this legislation does do something meaningful on the currency issue by requiring the Treasury to revisit how they define currency. I will concede in the bill that was belatedly filed by the other side, when we had already announced our bill, there is a provision using a 301 to deal with currency. But I must tell you, Madam Speaker, that even that procedure has a potential loophole to allow an administration to wiggle out.

So substantively, it is not clear to me there is a major difference.

I believe with the limited move forward that China has already evidenced, the time has come to give them an opportunity to indicate to us by action whether they are sincere or not. I think the currency language in our bill is adequate to allow that to happen.

Madam Speaker, I yield 3 minutes to the gentleman from Georgia (Mr. GINGREY), who in two terms in the House has already made clear he is a leader on trade issues and on economic issues.

Mr. GINGREY. Madam Speaker, I thank the gentleman for yielding me this time, and I want to thank my colleague, the gentleman from Pennsylvania (Mr. ENGLISH), for introducing H.R. 3283, the United States Trade Enforcement Act. I believe this legislation is a positive step in addressing our trade discrepancies with the People's Republic of China; and, yes, it does serve as a great precursor for the debate on the Dominican Republic and Central American Free Trade Agreement.

The district I represent in western Georgia has a rich history of manufacturing textiles from the Swift Denim Company in Columbus, Georgia, to Mt. Vernon Mills in Trion, Georgia, which has been in business since the 1840s and currently employs 1,800 associates. The textile industry, Madam Speaker, continues to provide quality jobs for the citizens of Georgia's 11th Congressional District. I make this point because many of these employees have established a culture and a community around textile manufacturing.

Although the administration is working diligently to enforce our trade policies, I remain concerned that our country has not taken the most aggressive position needed to prevent the People's Republic of China or any other nation from ignoring their trade responsibilities and agreements. If we continue to allow abuses such as currency manipulation and violations of intellectual property rights, an entire way of life in these textile communities will be endangered. When ratifying trade agreements, it is important to encourage both free and fair trade. We cannot afford to lose any more textile jobs, especially those lost due to the unfair practices of the Communist Government on Mainland China.

Madam Speaker, I encourage the passage of H.R. 3283 mandating stronger enforcement of our trade policies.

Mr. ENGLISH of Pennsylvania. Madam Speaker, I yield such time as he may consume to the gentleman from Utah (Mr. BISHOP) in order to engage in a colloquy on some of the issues raised by this debate.

Mr. BISHOP of Utah. Madam Speaker, I thank the gentleman from Pennsylvania for yielding me this time.

The legislation drafted by the gentleman specifies that the Commerce Department shall ensure that the application of countervailing duty law to nonmarket economies is consistent with international obligations to the United States. Some Members have expressed concern that this legislation would give the WTO special influence over U.S. law. Is that true?

Mr. ENGLISH of Pennsylvania. Mr. Speaker, will the gentleman yield?

Mr. BISHOP of Utah. I yield to the gentleman from Pennsylvania.

Mr. ENGLISH of Pennsylvania. No, and I thank the gentleman for raising this issue, Madam Speaker, because it has been raised during this debate. It is well understood that World Trade Organization agreements and WTO dispute settlement decisions are not self-executing, that is, they are not binding on the United States in and of themselves. Congress must enact any changes to U.S. law resulting from WTO agreements or WTO decisions.

Mr. BISHOP of Utah. Reclaiming my time, Madam Speaker, and to further clarify, to implement any WTO agreement or a decision of a WTO panel or the appellate body, the United States must enact the agreement or the implementation changes through congressional action?

Mr. ENGLISH of Pennsylvania. If the gentleman will continue to yield, that is correct.

Mr. BISHOP of Utah. Is this provision in H.R. 3283, therefore, intended to change this fact in any way or to impose any new obligations on the Commerce Department or the United States beyond those already set forth in U.S. law?

Mr. ENGLISH of Pennsylvania. No, and I thank the gentleman. This provision does not force the Commerce Department to do anything inconsistent with U.S. law. Instead, it is designed to provide flexibility to Commerce in interpreting the law.

Mr. BISHOP of Utah. Therefore, where H.R. 3283 says that "the Commerce shall ensure that the application of CVD law is consistent with the international obligations of the United States," am I correct that Commerce, which administers both U.S. antidumping law and U.S. countervailing duty law, may reach this determination of consistency on its own?

Mr. ENGLISH of Pennsylvania. That is correct.

Mr. BISHOP of Utah. So, does H.R. 3283 require Commerce to take additional steps to ensure consistency?

Mr. ENGLISH of Pennsylvania. No. Agencies are presumed to act in good faith when implementing a statute in accordance with international obligations. There is no additional requirement.

Mr. BISHOP of Utah. Madam Speaker, I thank the gentleman from Pennsylvania for his kindness and his information.

Mr. CARDIN. Madam Speaker, I yield myself 1 minute to respond to the textile issue that was recently mentioned on the other side.

When we negotiated our WTO accession agreement with China, we provided certain safeguards against the flooding of a market on textiles, knowing that the textile quota would be expiring. The concern many of us have had with China is that our government has not exercised the safeguards that are currently available to us under the agreement negotiated with China. We would like to see the administration be more aggressive in making sure that we do not get a flooded market either here or with trading partners that would have an adverse impact on the textile industry.

That is a major concern in our relationship with the People's Republic of China. The concern is that this legislation does absolutely nothing about that. So I appreciate the comments of my colleague on the other side of the aisle that there is no provision in this bill that would require action against China consistent with the provisions of the WTO accession agreement.

Madam Speaker, I reserve the balance of my time.

Mr. ENGLISH of Pennsylvania. Madam Speaker, I have no further requests for time, and I believe I have the right to close.

The SPEAKER pro tempore (Mrs. BIGGERT). That is correct.

Mr. CARDIN. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I very much appreciate the discussion that we have had. One of the advantages of the consideration of this bill under a rule as restrictive and repressive as the rule was, is that we do have a chance to have a more open and full debate, and I appreciate that.

I appreciate also the fact that we have been able to go through many of the provisions, including the colloquy that was just recently put on the record. I found that colloquy helpful, because I must tell you I shared the same concerns as to whether we were turning over to dispute settlement panels a decision as to whether we would bring future cases using countervailing duties. And if I understand my friend, the gentleman from Pennsylvania (Mr. ENGLISH), that would be a determination made solely by our Commerce Department consistent with U.S. interests, and I certainly agree with that interpretation.

I regret that we have not had the chance to consider amendments or consider a substitute, because I do think that there is general sentiment among the overwhelming majority of the Members of this body to take action against China for its failure to comply with international trading rules. China has violated currency manipulation, which has worked to the disadvantage of American manufacturers, farmers, and producers. China has not enforced intellectual property issues, which has worked to the disadvantage of our entertainment industry, and to our engineering and manufacturing industries.

China has flooded the markets, contrary to its trade agreements on textiles, which has worked to the disadvantage of the U.S. markets. China over and over again has denied access on services and many other areas that require action. So it is appropriate that we should be considering legislation to address the shortcomings of China's compliance with international trade rules.

Now, I think we could have come up with a much stronger bill. The gentleman from New York (Mr. RANGEL), as I pointed out earlier, introduced H.R. 3306. And when you compare H.R. 3306 with the bill that is before us, you cannot help but feel that we should have done a much better job.

H.R. 3306 would have applied U.S. countervailing duty laws to China and other nonmarket economies without the additional burdens imposed by the underlying bill. The gentleman from Pennsylvania (Mr. ENGLISH) quoted from some sources that support that provision. Let me just tell you that Nucor, which is, as you know, a steel company that has to live with subsidized steel from China coming into the U.S. market, opposes the provision. Nucor believes that the extra burden of trying to establish the amount of subsidy when you have to factor additionally for nonmarket economies domestic subsidies, it is a burden that will make the new countervailing duty application meaningless as it relates to China. That is a specific company telling us, who supported the original English bill, they oppose this provision because of the problems.

I could cite other examples, Madam Speaker, but on one hand the bill gives some relief for countervailing duties to nonmarket economies; but on the other, the bill imposes new restrictions that really make it very difficult if it provides any help at all.

The Rangel bill would require the administration to initiate WTO action to address China's currency manipulation. Instead, the underlying bill provides for another study generally by Treasury which will delay action taken against China by another period of time. H.R. 3306, the Rangel bill, would strengthen special China safeguard laws. The underlying bill does nothing on that at all.

So, Madam Speaker, we have a bill that contains the sense of Congress and provisions that I think most of the Members of this body would agree with. It contains some other provisions that are well intended, and I think the majority of the Members of this body would agree with. But I want to make it clear that for those who are claiming this bill is tough on China or tough on enforcing our trade rules with China, it does not do that.

It does say certain things about China that most Members of this body would agree with. The main purpose of this bill was to deal with countervailing duties to nonmarket economies, and it does that in a way that probably will provide no relief. It provides authorizations for additional funds for two agencies that deal with trade, but we have already taken care of that in the appropriation bill.

So I come back to the point of the gentleman from Michigan (Mr. LEVIN). If you want to feel good and vote for this bill, go ahead and do it. But if you think you are taking action against China, if you believe that this bill will speak to the trade imbalance we currently have with China because of China's failure to adhere to their international responsibilities under the WTO or under the accession agreement with the United States, if you believe that, this bill does not do that. This bill is a missed opportunity because we were not able to have a free and open rule.

So I regret, Madam Speaker, that we are sort of in a dilemma with this bill as to what advice we should give Members. If you look at it as a resolution expressing the sense of Congress, there is nothing wrong with this bill. But if you look at it as a bill to provide action against China, there is really nothing in it to do that.

Mr. ENGLISH of Pennsylvania. Mr. Speaker, I yield myself the balance of my time.

First of all, I would like to thank the chairman of the Committee on Ways and Means, the gentleman from California (Mr. THOMAS), for giving us the opportunity to have a debate and have a vote on this bill at a time when I think it is particularly important that this Congress go on record deliberately challenging China in many of its mercantilist trade policies.

□ 1600

As I sat down with the gentleman from California (Mr. THOMAS), I worked closely with him to come up with a bill that would not be a panacea, would be a compromise, and would be a compromise that we could pass in the House by a wide margin and also pass in the United States Senate.

We have heard some sentiment from the other side of the aisle, and I think it is sincere, that wishes we could have gone further in this bill. I must say part of me also wishes to have gone further in this bill, but I believe this is a practical bill, but also a substantial bill that we can pass and can make a tangible start in strengthening our trade policy. That, I believe, makes it a very important bill in itself.

I congratulate the gentleman from Maryland (Mr. CARDIN), whom I have worked with on so many trade issues, and I am sorry to be disagreeing with him on this bill. I believe on the face of it, this bill is substantial. It is strong, responsible, comprehensive, and it moves in the right direction. It closes a loophole dealing with countervailing duties, a loophole that has for years been out there, and Congress has lacked the will to take it on.

We would for the first time apply countervailing duties where we determine Communist countries like China are involved in subsidizing their products. This would add a major tool in our arsenal in dealing with these countries and making them play by the rules. To me it is absurd when we find a subsidized product coming in from France, Brazil, Japan or Taiwan, we can apply countervailing duties to strip them of the benefit of their subsidy, but we cannot do it with China or Vietnam.

This bill moves forward and with clear language, but without double counting, which was not our intent; deals with this issue in a direct and refined way.

This bill also would establish a strong auditing system to make sure that China is complying with the trade agreements for which we are already a party, and deal with their trade obligations on intellectual property rights, market access and transparency.

This legislation does include resolution language dealing with issues like the current rules negotiation on the WTO, but it also requires the Treasury Department to do more than a study. It requires the Treasury Department to revisit its current definition of currency manipulation so as to make the current laws already on the books against currency manipulation something other than a dead letter.

We do increase funding, but we do it in the form of an authorization, and that is so important because that spells out how the U.S. Trade Representative can use the money, and it specifies that we are going to use that additional money for trade cops that are going to improve the enforcement of existing trade laws and the tracking of existing treaties, and that is essential if we are going to have a more balanced approach to that important trade relationship we have with China as well as with other countries.

This legislation would also close the current loophole dealing with antidumping cases in which some use bonds and then skip out on them in order to avoid paying their obligations. This is something I know the other side of the aisle agrees with because they included it in their last-minute legislation as well.

I was disappointed to hear my colleague on the other side of the aisle suggest that this is all reports and not action items. As is clear from a plain reading of the provisions of this bill, these are all action items, and they are all substantial, and they all move our trade policy substantially forward, a trade policy that, after all, we depend on energy in the executive to enforce, but ultimately Congress needs to inform, and it is our constitutional obligation to take an active role in shaping our trade policy.

With record trade deficits that are now exceeding 6 percent of GDP every year, we cannot go forward with the status quo, and this legislation is a substantial, modest, but achievable piece of legislation that will allow us to begin to deal with these problems in a much more direct and aggressive way.

I would hope that having listened to the debate, everyone in this Chamber would think carefully before doing what some in the minority did yesterday, and that is registering a vote against this legislation. This legislation was designed to be a consensus bill. It should not be wrapped up in any other debate, but I do not control the timing of that.

I believe it is fairly clear that our friends in Beijing will look at this debate, will look at how we respond to this legislation, and if we do not overwhelmingly pass this bill, they will conclude that we are not committed to dealing with these problems.

Mr. Speaker, I encourage all of my colleagues to vote for this bill and to send a clear message to our trading partners that we are not prepared to see the status quo go forward.

Mr. Speaker, I reserve the balance of my time.

Mr. CARDIN. Mr. Speaker, I yield to the gentlewoman from Ohio (Ms. KAPTUR) for the purpose of a unanimous consent request.

Ms. KAPTUR. Mr. Speaker, I rise in opposition to the English bill, which will only create more red ink with Red China in our global trade.

Our job and trade deficit with China is exploding with more jobs being lost every day. Our red ink in jobs and trade give new meaning to the name "Red China." We need strong and effective laws to make China follow the rules to which we hold everyone else responsible.

This bill does not give us those strong and effective rules.

Instead of demanding action, the Republican bill calls for more reports, more studies, and more dialogue. It fails to include real solutions proposed by members on both sides of aisle. These include strengthening remedies for American industries hurt by export surges caused by Chinese imports and requiring the administration to take action to bring down China's trade barriers. Further, the English bill actually adds new loopholes that gut the effect of the bill. The bill would harm U.S. trade laws by giving direct effect to the World Trade Organization to impose its decisions against U.S. laws and would create harmful precedents on U.S. sovereignty.

I support subjecting China and other nonmarket economies to our subsidy laws. But this bill actually places restrictions on the Department of Commerce's ability to go after those very illegal government subsidies.

In fact, this bill may give China an advantage in this situation. This bill places a greater burden on the U.S. Department of Commerce than current U.S. law or WTO rules to protect the U.S. against unfair competition from China's subsidies. By further limiting counting of subsidies, this places China in a special category above all other trading partners. It also places such a burden on the agency that the costs of doing this far outweigh the gains.

There is a provision in this bill that says that DoC must ensure that trade law is implemented consistent with U.S. international trade obligations. This hasn't appeared in U.S. trade law before and could give the WTO special influence over U.S. law. Are we an independent Nation or are we but a client State for multinational giants?

This bill fails to address the real problem of our growing deficit with China. In fact, sadly, it appears that this bill is simply a cover for some Members to vote for CAFTA later today. They can say they spoke out about our widening trade deficits, but actually then make them worse by voting for CAFTA.

I ask Members to consider their conscience. Why use this fig leaf of a bill that will lead to more job loss, poorer working conditions and more misery for working people in the U.S. and in China, and ultimately with Central America.

Mr. POMEROY. Mr. Speaker, I rise today to say that I will be voting against H.R. 3283.

While I too am concerned about China's compliance with its trade commitments and the surge of Chinese imports into the United States, the legislation being considered today is unfortunately a false promise to address those concerns instead of real action that will become law and bring China to the table to correct these problems. In particular, the bill does nothing to address currency manipulation.

I remain strongly supportive of strengthening our trade laws and enforcing the laws we currently have on the books. In particular, I have been supportive of taking action to require cash deposits from new shippers of goods in anti-dumping cases to avoid defaults. This provision affects several domestic industries, and it is certainly important to honey producers in North Dakota and the nation. I hope this provision is passed as a stand-alone bill or included in legislation in the near future that addresses the compliance issues with our trading partners in a meaningful way.

Mr. CARDIN. Mr. Speaker, I would like to address some of the comments made during the colloquy between the gentleman from Pennsylvania, Mr. ENGLISH, and the gentlemen from Utah, Mr. BISHOP, regarding H.R. 3283. In particular, I would like to respond to my colleagues' assertions concerning the application of section 3(b)(2) of the Act, which states that when applying the U.S. countervailing duty law to nonmarket economies, the Department of Commerce "shall ensure that . . . the application [of the law] is consistent with the international obligations of the United States." Mr. Speaker, despite my colleagues' efforts to provide reassurance about this provision, I remain deeply concerned following their exchange—and in some ways, even more so.

First, the exchange between Mr. BISHOP and Mr. ENGLISH provides no comfort to those like me that have raised concerns that section 3(b)(2) of the Act will have a chilling effect on the application of U.S. countervailing duty law. The provision clearly creates a special burden on the U.S. Department of Commerce in cases involving subsidies in nonmarket economy countries like China by requiring Commerce to make a determination about the WTO consistency of the law prior to applying it.

In every other trade remedy case, the Department of Commerce must apply U.S. law as enacted by Congress. The law is presumed to be consistent with WTO obligations unless the WTO finds otherwise.

Under Mr. ENGLISH's bill, Commerce could not apply countervailing duty laws to China and other nonmarket economies to the fullest extent authorized by Congress, but rather could apply the law only to the extent to which Commerce makes a separate determination that the law would pass muster in the WTO. As a result, it is likely that Commerce would not apply the law as intended by Congress, thereby denying American workers and businesses a remedy authorized by both WTO rules and U.S. law.

Second, and even more importantly, section 3(b)(2) of the English bill raises Constitutional issues. After the provision has been applied in a CVD investigation and were a WTO panel to rule against some aspect of the provision, the English bill would create the first directive under U.S. law that WTO decisions are to be self-implementing.

The English bill creates this self-implementing provision by directing Commerce to "ensure that the application [of the provision] is consistent" with WTO rules. In all other cases under U.S. AD/CVD law, the Uruguay Round Agreements Act of 1994 (section 129) creates a procedure for congressional consultation prior to Commerce or USTR taking any action to alter U.S. law, regulation or practice. While Congress technically would not have to approve a change to regulation or practice, in practice, neither the Clinton nor Bush administrations has ever even suggested that it would make such a change absent (bicameral and bipartisan) congressional approval.

The inclusion language in the English bill authorizing, if not directing, Commerce to change regulation or practice even absent Congressional approval undermines the broader statutory scheme carefully established in 1994, shifts the balance of action for implementing WTO decisions that affect one provision of the AD/CVD laws toward the Administration, and erodes further congressional authority over the unfair trade laws.

In simple terms, section 3(b)(2) of the English bill authorizes Commerce to take action to align U.S. law with the decisions of a WTO panel or Appellate Body—without the assent of Congress as provided under existing U.S. law (in the case of Commerce, changes to regulation or practice).

Mr. Speaker, section 3(b)(2) of H.R. 3283 is bad policy and may be unconstitutional as a matter of law. By requiring the Department of Commerce to ensure WTO compliance before acting on Chinese subsidies, the bill would prevent the Administration from vigorously enforcing our trade laws. In addition, the provision violates traditional notions of separation of powers by specifically directing the Department of Commerce to take steps to alter the application of U.S. law without an act of Congress.

Mr. Speaker, I yield back the balance of my time.

Mr. ENGLISH. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. TERRY). Pursuant to House Resolution 387, the previous question is ordered on the bill, as amended.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. CARDIN

Mr. CARDIN. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. CARDIN. I am at this time

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Cardin moves to recommit the bill H.R. 3283 to the Committee on Ways and Means with instructions that the Committee report the same back to the House forthwith with the following amendment:

Strike all after the enacting clause and insert the following:

SECTION 1. TREATMENT OF CURRENCY MANIPULATION.

(a) DEFINITION OF UNJUSTIFIABLE ACTS, POLICIES, AND PRACTICES.—Section 301(d)(4)(B) of the Trade Act of 1974 (19 U.S.C. 2411(d)(4)(B)) is amended to read as follows:

"(B)(i) Acts, policies, and practices that are unjustifiable include, but are not limited to, any act, policy, or practice described in subparagraph (A) which involves currency manipulation, or denies national or most-favored nation treatment or the right of establishment or protection of intellectual property rights.

"(ii) In this subparagraph, the term 'currency manipulation' means the protracted large-scale intervention by an authority to undervalue its currency in the exchange market that prevents effective balance of payments adjustment or gains an unfair competitive advantage over the United States.".

(b) INVESTIGATION INTO CURRENCY MANIPULATION BY THE PEOPLE'S REPUBLIC OF CHINA.—

(1) INVESTIGATION, DETERMINATIONS, ACTIONS.—The United States Trade Representative shall—

(A) conduct an investigation, under sections 302 and 303 of the Trade Act of 1974, of the currency practices of the People's Republic of China;

(B) make the applicable determinations under section 304 of that Act pursuant to that investigation; and

(C) implement any action, under section 305 of that Act, in accordance with such determinations.

(2) INITIATION OF INVESTIGATION.—The United States Trade Representative shall initiate the investigation required by paragraph (1) not later than 90 days after the date of the enactment of this Act.

SEC. 2. AMENDMENTS RELATING TO INTERNATIONAL FINANCIAL POLICY.

(a) BILATERAL NEGOTIATIONS.—Section 3004(b) of the Exchange Rates and International Economic Policy Coordination Act of 1988 (22 U.S.C. 5304(b)) is amended in the second sentence by striking "(1) have material global account surpluses; and (2)".

(b) DEFINITION OF MANIPULATION.—Section 3006 of the Exchange Rates and International Economic Policy Coordination Act of 1988 (22 U.S.C. 5306) is amended by adding at the end the following:

"(3) MANIPULATION OF RATE OF EXCHANGE.—A country shall be considered to be manipulating the rate of exchange between its currency and the United States dollar if there is a protracted large-scale intervention by an authority to undervalue its currency in the exchange market that prevents effective balance of payments adjustment or gains an unfair competitive advantage over the United States.".

(c) REPORT.—Section 3005(b) of the Exchange Rates and International Economic Policy Coordination Act of 1988 (22 U.S.C. 5305(b)) is amended—

(1) by striking "and" at the end of paragraph (7);

(2) by striking the period at the end of paragraph (8) and inserting "; and"; and

(3) by adding at the end the following:

"(9) a detailed explanation of the test the Secretary uses to determine whether or not a country is manipulating the rate of exchange between that country's currency and the dollar for purposes of preventing effective balance of payments adjustment or gaining an unfair competitive advantage over the United States.".

Mr. CARDIN (during the reading). Mr. Speaker, I ask unanimous consent that the motion to recommit be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Maryland (Mr. CARDIN) is recognized for 5 minutes in support of his motion to recommit.

Mr. CARDIN. Mr. Speaker, the only opportunity we have is on a motion to recommit, and this motion to recommit will deal with the currency manipulation issue with China, and will take real action on China's currency manipulation.

Since 1994, China has pegged its currency to the U.S. dollar. This policy has caused China's currency to become undervalued by as much as 40 percent. What this means in practice is that Chinese manufacturers have a significant unfair advantage over U.S. manufacturers because China's currency manipulation makes Chinese exports to the United States cheaper and U.S. exports to China more expensive.

It is simply unacceptable that this administration has allowed China to continue this policy, and the Chinese Government appears to realize that this administration is not serious about stopping China's currency manipulation. Just last year when the vice governor of the People's Bank of China was asked when China would change its currency policy, he stated, "China has 8,000 years of history. One year, three years, five years, or ten years, for Chinese, that is just a twinkling of an eye."

Now I know that the administration and many of those on the opposite side of the aisle will point to the fact that China reevaluated its currency by about 2 percent last week. However, I would urge them to read the report in today's Washington Post and New York Times indicating that China's Central Bank issued a statement yesterday to clarify that last week's change was a one-time event, and that we should not expect more changes any time soon.

China's continuing refusal to end its currency manipulation demands action by this body. However, the bill before us today, H.R. 3283, calls on one more report and another delay. The Treasury Department has already issued reports on Chinese currency and has not taken any action.

Mr. Speaker, I have heard my colleagues talk about taking action against China during this debate. Here is an opportunity to do that. What this motion to recommit would do would be to bring the bill immediately back with an amendment that would have the administration file a WTO claim. That is consistent with the WTO. It starts the process. It tells China we are serious. It does not do anything in violation of the WTO. It starts the process, but it tells China that this body is serious about their dealing with their currency issue. That is what China understands. We cannot justify tying a currency to another currency. That is manipulation. That is working to the disadvantage of American manufacturers.

I would hope that we could join together. I have heard many of my Republican and Democratic colleagues tell me it is time to take action against China. This does it in a responsible way. It does not require any tariff; it does not do anything inconsistent with the WTO obligations. It exercises the constitutional responsibility that we have on trade. It is the legislative branch that is responsible for trade. We delegate to the executive branch. We should be willing to assume our responsibility.

If Members believe it is wrong for China to continue to manipulate its currency to the disadvantage of U.S. manufacturers and producers and employment here in this Nation, vote for the motion to recommit so we can finally start action against China on currency manipulation.

Mr. Speaker, I yield back the balance of my time.

Mr. ENGLISH of Pennsylvania. Mr. Speaker, I rise in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman from Pennsylvania (Mr. ENGLISH) is recognized for 5 minutes.

Mr. ENGLISH of Pennsylvania. Mr. Speaker, I rise with mixed feelings because in a different setting, I might be very sympathetic to the argument the gentleman from Maryland (Mr. CARDIN) is making. I have been involved myself in the fight to specifically challenge the Chinese on currency issues, but I am disappointed in the timing of this motion, particularly in view of China's recent and very modest actions to move forward on currency, and with the fact that in this context, this motion would function effectively as a poison pill that might very well kill the bill in the Senate.

On the substance, the motion from the other side of the aisle seeks to force the administration to bring a section 301 case against China based on its old currency peg to the dollar. It would also force the administration to use a very narrow and simplistic definition of currency manipulation in its foreign exchange reports.

My understanding is the USTR rightly rejected this petition twice in the past because it would hinder the efforts to change China's former currency regime. In fact, China's recent steps in moving in the direction of a float, however limited, have made it very clear that the timing on this provision is not good.

I would argue that my bill requires that the USTR instead report to Congress every 6 months on the degree to which the new mechanism moves the currency closer to a market-based representation of its value and requires Treasury to reconsider how it currently defines currency manipulation.

The gentleman from Maryland (Mr. CARDIN) might argue that in a sense all that this does is force the United States to bring a WTO case against China on grounds that China is manipulating its currency However, the motion itself does not appear designed to force the United States to bring a WTO case. In fact, the motion's definition of currency manipulation clearly bears no relationship to the WTO rules.

Instead, this proposal from the other side of the aisle would force the United States to take unilateral action under section 301, which would potentially place us in violation of WTO rules. Section 301 mandates specific actions, including possibly trade retaliation if a foreign act or measure: one, violates or is inconsistent with a trade agreement such as the WTO agreements; or, two, is unjustifiable and burdens or restricts U.S. commerce.

These are separate grounds for taking mandatory action under section 301. The recommittal defines currency manipulation using a fabricated definition as "unjustifiable." Thus, it appears that this initiative is really intended to force the United States to take action under the second prong of section 301, not the prong intended to be used where there are potential WTO violations.

□ 1615

The intent thus appears to be to force the U.S. to impose sanctions without a WTO finding of a breach, thus allowing China to shift the focus from China's currency policies to claims of U.S. breaches of the WTO. In the current context, in my view, that would not be helpful.

Accordingly, with great regret and acknowledging that my colleague from Maryland has been serious about moving forward in the area of currency reform and challenging the Chinese, I feel that his motion to recommit comes up short, and I would urge all of my colleagues to vote it down.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. TERRY). Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. CARDIN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on the motion to recommit will be followed by 5-minute votes on the passage of H.R. 3283, if ordered; suspending the rules on House Resolution 383; and suspending the rules on House Resolution 384.

The vote was taken by electronic device, and there were—yeas 195, nays 232, not voting 6, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. TERRY) (during the vote). Members are advised that there are 2 minutes left in this vote.

☐ 1638

Messrs. LARSEN of Washington, FORBES, OTTER, SHAYS, FLAKE, HALL, MORAN of Virginia, and Mrs. WILSON of New Mexico changed their vote from "yea" to "nay."

Ms. HARMAN, Ms. MCKINNEY, and Messrs. WEXLER, COSTELLO, KANJORSKI, and GORDON changed their vote from "nay" to "yea."

So the motion to recommit was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. ENGLISH of Pennsylvania. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 255, nays 168, not voting 10, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members are advised that there are 2 minutes left in this vote.

☐ 1646

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

ENCOURAGING TRANSITIONAL NATIONAL ASSEMBLY OF IRAQ TO ADOPT A CONSTITUTION GRANTING WOMEN EQUAL RIGHTS

The SPEAKER pro tempore (Mr. TERRY). The pending business is the question of suspending the rules and agreeing to the resolution, H. Res. 383.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Florida (Ms. ROS-LEHTINEN) that the House suspend the rules and agree to the resolution, H. Res. 383, on which the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 426, nays 0, not voting 7, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members are advised 2 minutes remain in this vote.

☐ 1655

So (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. TIAHRT. Mr. Speaker, on rollcall No. 438 I was inadvertently detained. Had I been present, I would have voted "yea."

PERSONAL EXPLANATION

Mr. JENKINS. Mr. Speaker, on rollcall Nos. 436, 437 and 438 I was in a room in the Longworth building and the bell did not ring. I was unaware of votes occurring. Had I been present, I would have voted "nay" on rollcall No. 436 and "yea" on rollcall Nos. 437 and 438.

CONDEMNING TERRORIST ATTACKS IN SHARM EL-SHEIKH, EGYPT, ON JULY 23, 2005

The SPEAKER pro tempore. The pending business is the question of suspending the rules and agreeing to the resolution, H. Res. 384.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Florida (Ms. ROS-LEHTINEN) that the House suspend the rules and agree to the resolution, H. Res. 384, on which the yeas and nays are ordered.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. TERRY) (during the vote). Members are advised that there are 2 minutes remaining in this vote.

□ 1705

So (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. HASTINGS of Florida. Mr. Speaker, on the vote on H.R. 3283, I was in the Intelligence Committee when the vote was cast. Had I been present, I would have voted "no."

PROVIDING FOR CONSIDERATION OF H.R. 5, HELP EFFICIENT, ACCESSIBLE, LOW-COST, TIMELY HEALTHCARE (HEALTH) ACT OF 2005

Mr. GINGREY. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 385 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 385

Resolved, That upon the adoption of this resolution it shall be in order without intervention of any point of order to consider in the House the bill (H.R. 5) to improve patient access to health care services and provide improved medical care by reducing the excessive burden the liability system places on the health care delivery system. The bill shall be considered as read. The previous question shall be considered as ordered on the bill to final passage without intervening motion except: (1) two hours of debate on the bill equally divided and controlled by the Majority Leader and the Minority Leader or their designees; and (2) one motion to recommit.

SEC. 2. During consideration of H.R. 5 pursuant to this resolution, notwithstanding the operation of the previous question, the Chair may postpone further consideration of the bill to a time designated by the Speaker.

The SPEAKER pro tempore. The gentleman from Georgia (Mr. GINGREY) is recognized for 1 hour.

Mr. GINGREY. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Florida (Mr. HASTINGS), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 385 is a closed rule that provides 2 hours of debate in the House, equally divided and controlled by the majority leader and the minority leader or their designees. It waives all points of order against consideration of the bill, provides that notwithstanding the operation of the previous question, the Chair may postpone further consideration of the bill to a time designated by the Speaker, and it provides one motion to recommit.

Mr. Speaker, I rise today as the proud sponsor of H.R. 5, the Help Efficient, Accessible, Low Cost, Timely Health Care Act of 2005, or the Health Act, and to speak on behalf of both the rule and the underlying bill.

First, I would like to thank both the gentleman from Wisconsin (Mr. SENSENBRENNER), the chairman of the Judiciary Committee, and the gentleman from Texas (Mr. BARTON), the chairman of the Energy and Commerce Committee, for their work on this issue, as this is not the first time the House of Representatives has considered this measure.

Mr. Speaker, H.R. 5 is a good bill that has passed this House in the 108th Congress with bipartisan support. Therefore this bill and its substance have been thoroughly debated both on this floor and in committee in the previous two Congresses.

As the sponsor of H.R. 5, I am very excited about the opportunity that we have today to strengthen our health care system for the sake of every household's health and every household's pocketbook.

Mr. Speaker, H.R. 5 is without question one of the best opportunities this Congress has to address the health care crisis we face today. There is no doubt among the American people, and there should be no doubt among Members of this Congress, that we need fundamental reforms to strengthen access to health care and to control the burgeoning cost of health care.

Having practiced for almost 30 years as an OB/GYN physician, I have not forgotten the experiences and the lessons that I learned on the front lines of medicine. I came to this Congress not only with a background in health care, but also with an important charge to do all that I could to make our health care system better.

And, Mr. Speaker, I can tell you in no uncertain terms, we have a problem. We are losing too many good doctors because of the skyrocketing costs of medical liability insurance and the threat of frivolous lawsuits.

These costs have been driven up by frivolous lawsuits and runaway awards that are more about someone's ship coming in, and I do not mean the injured plaintiffs, than the provision of justice for those who are injured.

In fact, the Department of Health and Human Services reports: "The litigation system is threatening health care quality for all Americans as well as raising the cost of health care for all Americans."

While I am no economist, it does not take a financial expert to know that with fewer and fewer practicing doctors and an ever-growing number of patients, the price of health care will inevitably go up and skyrocket out of the reach of the average consumer.

These increasing costs not only create a significant burden on the American people, but also increasingly aggravate the current strain on the Federal budget resulting in bigger and bigger deficits.

Therefore, Mr. Speaker, I, along with the gentleman from Texas (Mr. SMITH), introduced H.R. 5 as a simple, straightforward solution to reform and strengthen our civil justice system as it pertains to medical liability.

Mr. Speaker, I am thankful for the other 55 Members who have joined with us to cosponsor this bill. Mr. Speaker, the HEALTH Act will not, let me repeat, it will not limit economic awards such as medical bills and lost wages.

So if, as an example, a plaintiff has $10 million in economic damages, they can still collect $10 million for their economic damages. Again, there is no limit to the economic awards. H.R. 5 would, however, limit noneconomic awards to $250,000.

Additionally, punitive damages, if assessed, would be limited to $250,000 or twice the amount of economic loss suffered, whichever of the two is greater.

And, again, Mr. Speaker, as an example, if the economic damages were $5 million, and there were cause to impose punitive damages because of someone's deliberate action, deliberately harmed a patient, then the punitive damages could be $10 million in addition to the $5 million in economic, while the noneconomic would still be limited to $250,000.

The HEALTH Act will also make liability more equitable. If one or more parties is a defendant and ordered to pay damages, then each party pays damages proportional to their fault in the case as determined by the trier of fact, the jury.

Mr. Speaker, no one should have to take the blame and pay damages for the negligence of another defendant, as under current law. That is not justice and this bill will make sure that this inequity is eliminated.

Now, I realize that there are some who have tried to cloud the issue here, and they will certainly oppose this bill. And while I am not questioning anybody's motives, I have to insist that each and everyone of us ask ourselves, Where do my loyalties lie? Do they lie with the American people and their best interests, or do they lie with those special interest trial lawyers?

Some, some, seek to game our judicial system for big bucks, of which their clients, the actual victims, see very little.

□ 1715

For this reason, H.R. 5 includes a provision that will limit the contingency fees of lawyers and health care lawsuits on a sliding-scale basis. This provision will ensure that victims actually receive fair compensation for their damages and they are not bilked and taken advantage by certain greedy trial lawyers.

I cannot stress enough the importance of this bill, Mr. Speaker. Too many of our States are now in a condition of medical liability crisis. My home State of Georgia is one of those States in crisis. And while our legislature, along with Governor Sonny Perdue, has passed meaningful medical liability reform in this past session, there is still much work to be done to undo the damage inflicted on Georgia's health care system. Specifically, according to the Alliance of Specialty Medicine, over the past 3 years, 15 of Georgia's 20 active insurance companies have stopped issuing medical malpractice policies for doctors. This fact flies in the face of the argument from the other side that suggests that greedy insurers are just overcharging doctors for their insurance coverage. And without this insurance coverage, doctors from emergency medical specialists, neurosurgeons, OB-GYN physicians, they are being chased out of their profession and leaving ordinary people without their specialty doctor and without efficient and timely health care.

Mr. Speaker, H.R. 5 is not the silver bullet to America's health care problems. However, in conjunction with things like associated health plans, which we just passed again, the Medicare Part D prescription drug benefit which will go into effect January 1 of 2006, and other important initiatives developed by the majority in this Congress, this bill is the right prescription for the American people at the right time and will put us well on the road toward recovery.

I would like to encourage my colleagues to give their full consideration to H.R. 5. This Congress has an important opportunity to pass this meaningful health care reform.

Mr. Speaker, the American people deserve no less from us. Again, I would encourage my colleagues on both sides of the aisle to support the rule and the underlying bill.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield for the purpose of making a unanimous consent request to the gentleman from Virginia (Mr. MORAN).

Mr. MORAN of Virginia. Mr. Speaker, I rise in opposition to this rule.

Mr. Speaker, I rise in opposition to H.R. 5, which purports to help stem rising medical malpractice insurance premiums and relieve health care professionals, but, in reality, will have very little effect.

What this body should be considering today is comprehensive medical malpractice reform and this measure does not even come close to achieving this important goal.

Last night, the Rules Committee did not make in order several amendments, which taken together, would have achieved true comprehensive medical malpractice reform.

Earlier this year, I, along with BRIAN BAIRD, DUTCH RUPPERSBERGER and DAN LIPINSKI, introduced the Comprehensive Medical Malpractice Reform Act of 2005, which would have achieved three key goals, namely (1) constrain the cost of medical liability insurance and reduce unwarranted litigation; (2) protect the rights of patients who have been harmed to receive proper and justified compensation; and (3) improve overall the quality of health care in our country.

Unfortunately, we, along with several other Members, were denied the opportunity to improve H.R. 5 with these amendments.

One of our amendments that was denied debate would have set reasonable limits on non-economic damages.

We all know that a cap of $250,000 on noneconomic damages is too low since some valid cases with catastrophic or lifetime injuries may merit additional compensation, particularly in the case of the negligent death of an infant.

Our amendment would have set a cap on awards for pain and suffering that is based on California's enactment into law of the Medical Injury Compensation Reform Act in 1975. Many provisions of H.R. 5, including caps on non-economic damages, are modeled after this California law.

Our amendment would have indexed noneconomic damages at the rate of inflation, which comes to about $877,000 in today's market. Certainly a far more reasonable number than $250,000.

This amendment would also have weeded out frivolous lawsuits by going after lawyers who continue to file claims that are not substantiated by evidence or expert opinion. Courts would be able to impose a "3 Strikes & You're Out" law and suspend from practice for no less than one year, lawyers who file their third frivolous lawsuit.

Our comprehensive medical malpractice reform package also considers alternative dispute resolution, as a means of avoiding litigation, while at the same time, still addressing victims' rights. We modeled this provision after a successful program at Rush Medical Center in Illinois.

This first-ever hospital based mediation program has proven to be very beneficial to the hospital and other health care providers, and brings closure for individual plaintiffs and defendants.

Over the years, the number of suits against Rush has declined and other hospitals have conducted mediations and have reported favorable results. Our amendment would have given health care institutions the training necessary to implement mediation programs.

Another rejected amendment would have given liability protection to those health care providers, who in good faith, report to report to state medical boards regarding the competence or professional conduct of a physician. These good-faith reporting health care providers would not be held responsible for attorney fees and costs incurred as a result of legal action.

According to data from the National Practitioner Data Bank from 1990 to 2002, just 5 percent of doctors were involved in 54 percent of all medical malpractice payouts, including jury awards and settlements. More startling, the data shows that of the 35,000 doctors with two or more payouts during that period, only 8 percent were disciplined by state medical boards.

Health care providers need better whistleblower protections. Currently there is an imbalance between the legal obligation health care workers have to report errors or unusual incidents and the legal protections they have against retaliation once they report these incidents.

Greater liability protections for health care workers would help to ensure that future medical errors are not made, as well as give state medical boards the opportunity to work with colleagues on weeding out those doctors that provide an inadequate quality of care to patients.

Those who are going to support H.R. 5 today will return to their respective congressional districts during the August recess and brag to the doctors that they voted in favor of medical malpractice reform.

What they will not tell their constituents is that H.R. 5 is DOA when it is sent to the Senate for consideration, and that the other body would not think of entertaining legislation with inadequate caps on awards.

Nor will proponents of this bill reveal that H.R. 5, if signed into law, would not stem rising medical malpractice insurance premiums, because not one provision contained in this bill reforms the insurance industry.

Last night our colleagues on the Rules Committee squandered a valuable opportunity to actually fix the root problem of medical malpractice.

Let us send a message to the American people that we are now prepared to take the issue of medical malpractice reform seriously. I urge all my colleagues to vote against H.R. 5.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, I thank the gentleman from Georgia (Mr. GINGREY), my friend, for yielding me the time. I should say Doctor GINGREY and that I want him to call me Attorney HASTINGS so we get it clear as to who we are around here.

Mr. Speaker, I rise today in strong opposition to this closed rule. Like a broken record, my friends on the other side on the aisle are yet again blocking every single Member of this body, Republican and Democrat, from offering an amendment to this ill-conceived legislation. I might add, no hearings were held regarding same.

Under this closed rule the majority is committing the greatest form of political malpractice. The Republican medical malpractice bill does nothing to lower the cost of health care for low- and middle-income families. Instead, insurance companies make out like bandits while the 45 million uninsured Americans continue to live without access to quality health care.

This is the third time in as many years that Republicans are bringing this incredulous bill to the floor under a closed rule. In the last 3 years, 67 amendments have been offered to the underlying bill in the Committee on Rules. Republicans have blocked all 67 of them from being considered by the House.

The gentleman from Michigan (Mr. CONYERS) and the gentleman from Michigan (Mr. DINGELL), the ranking Democrats of the two committees of jurisdiction, offered a fair and balanced substitute to this legislation last night. Their substitute takes steps to weed out frivolous lawsuits, requires insurance companies to pass their savings on to health care providers, and provides targeted assistance to physicians and communities that need it most. The House, however, will never have a chance to debate their proposal. As they have done so often in the past, what Republicans cannot defeat, they simply do not allow.

The gentleman from Illinois (Mr. EMANUEL) and the gentleman from Arkansas (Mr. BERRY) were also prohibited under the rule from offering their common-sense amendment. Their amendment would have taken out language from the underlying legislation that protects manufacturers of medical products, including pharmaceutical companies, from being sued even when they knowingly place a faulty product on the market.

For example, when Merck did an internal test on the side effects of Vioxx, it reported that only one-half of 1 percent of those tested had incurred some type of cardiovascular event. A further investigation showed that Merck had actually doctored the study when, in fact, 14.6 percent of Vioxx patients were negatively affected by the medication.

Under the Republican medical malpractice bill, those who have died or been injured when taking Vioxx will have no legal ground on which to seek compensation for Merck's outright negligence. Many at home may be asking themselves, How could Congress knowingly protect a manufacturer from being sued if it continues producing a product that it knows is faulty and can cause real harm or even death to someone? What about corporate responsibility? What about protecting the lives of innocent Americans?

To them I say, if the underlying legislation becomes law, what I just described will become the norm. The majority have made it crystal clear that they do not believe irresponsible companies and manufacturers should be held responsible for their actions no matter the harm they inflict. As my colleague and good friend on the Committee on Rules, the gentleman from Massachusetts (Mr. MCGOVERN) said last night, welcome to the Committee on Rules, where democracy goes to die.

Mr. Speaker, President Bush and the Republican Party have unfairly singled out trial lawyers as the root cause of skyrocketing medical malpractice insurance rates across the Nation. They suggest that the prevalence of "pain and suffering" awards in malpractice suits have forced insurance companies to raise their liability insurance rates and force doctors out of business. This suggestion is both superficial and wrong.

H.R. 5 does nothing to help doctors with high malpractice insurance premiums. Study after study have confirmed that while the insurance company is raising premiums for doctors at a record pace, the amount they pay out for lawsuits has remained stable. The insurance industry is price-gouging physicians and lying to the public all to justify limiting the rights of victims so that the industry can add to its already record-setting bottom line.

This bill is a distraction from the real problems that exist in America's failing health care system. Physicians and lawyers are pointing fingers at each other while insurance companies are quietly and quickly running to the bank.

Solutions to our Nation's health care woes do exist, Mr. Speaker, but they go beyond blaming one group of Americans and involve more than one easy-to-fix resolution. I urge my colleagues to oppose this closed rule and reject the underlying bill.

Mr. Speaker, I reserve the balance of my time.

Mr. GINGREY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this mention of greedy, gouging insurance companies, I just want to point out to my colleague that the only insurance company that still is offering medical malpractice insurance in the State of Georgia is Mag Mutual. And in 2004 they made $7 million on their rather conservative investment portfolio and still lost money because of the claims paid and defending all of these frivolous lawsuits.

Mr. Speaker, I yield 2 minutes to the gentlewoman from West Virginia (Mrs. CAPITO), my colleague on the Committee on Rules.

Mrs. CAPITO. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, I rise today in strong support of the Help Efficient, Accessible, Low-Cost, Timely Healthcare Act of 2005, commonly referred to as the HEALTH Act.

If it seems like you have seen me speaking on this before, that is because I have. The House of Representatives has done their part and passed this much-needed legislation several times during my service in Congress. It is my sincere hope that the other body will answer the call of millions of Americans who have been impacted with the loss of their doctor and help rein in an out-of-control medical liability system.

I am very optimistic we can achieve this goal, primarily because my home State of West Virginia has passed very similar legislation. If West Virginia's Legislature and Governor can put politics aside and work for the common good, then this Congress should be able to do the same.

Five years ago the medical liability climate in West Virginia reached a fevered pitch. Countless physicians, especially specialists, were beginning to leave the State, their home State, because of the prohibitively high cost of insurance premiums. Our largest trauma center was forced to close because of lack of physicians. Many of these physicians were orthopedists, OB-GYNs, and neurologists, and for a rural State with already limited access to specialists, this was a critical blow to health care accessibility.

Individuals throughout the State were extremely concerned about the ability to find a doctor, keep a doctor, and about the doctor that they love and trust leaving the practice of medicine. Thankfully, the leaders in West Virginia enacted sensible reforms that have stabilized our healthcare delivery system.

As a matter of fact, the hospitals in West Virginia have said one of the biggest benefits to this legislation, very similar to the legislation we have today, is that it stabilized the situation so they can now recruit and retain physicians in the State of West Virginia.

The HEALTH Act is needed on a Federal level because other States have not had the success of my State. This act puts in common-sense reforms to the tort system. I urge all to support the rule and to realize that this approach, which is similar to California's approach and West Virginia's approach, can work successfully and can be passed in a bipartisan way.

Mr. HASTINGS of Florida. Mr. Speaker, I yield 4 minutes to the distinguished gentleman from Massachusetts (Mr. McGOVERN), my good friend who serves on the Committee on Rules.

Mr. McGOVERN. Mr. Speaker, I thank the gentleman from Florida for yielding me time.

I rise in opposition to this rule and to the underlying legislation. This bill is a perfect example of the ironclad control that the pharmaceutical industry has over the Republican leadership of this House. It is so in your face, it is so out in the open, it takes my breath away.

Instead of improving the medical industry and providing protection to its consumers, H.R. 5 provides sweeping liability protections to drug manufacturers. H.R. 5 does nothing to address the dramatic escalation of insurance premiums and health care costs. Forty-five million Americans, 16 percent of our population, do not have health insurance. Placing caps on the punitive damages that could be awarded to victims of medical malpractice will not provide one single American with health insurance.

From the onset this bill has been handled improperly: no mark-ups, no amendments, no hearings. In fact, for the third time in 3 years, as the gentleman from Florida (Mr. HASTINGS) has pointed out, the Committee on Rules' Republicans have prevented any House Members from offering amendments to this bill.

Last night the committee Republicans rejected all 15 amendments offered, including an amendment that would have stripped the bill of the special protections for irresponsible drug companies. Over the past 3 years, Committee on Rules' Republicans have rejected a whopping 67 amendments to medical malpractice legislation. Eliminating amendments and shutting down debate is not how this House should operate.

Why has this bill been rushed to the floor, bypassing both the Committee on the Judiciary and the Committee on Energy and Commerce despite the abundance of startling information in the headlines regarding the misconduct of drug industry giants like Merck, the creator of the deadly drug Vioxx?

According to testimony given by FDA scientist Dr. David Graham before the Senate Committee on Finance, Vioxx may have caused as many as 55,000 deaths and 160,000 hearts attacks. Mr. Speaker, how can we reward a company that has knowingly created, marketed and distributed a drug which has caused 55,000 deaths?

Well, that is exactly what this bill does. By providing across-the-board immunities to drug and device manufacturers, the pharmaceutical industry would never be held accountable for injuring or even killing people.

Without the threat of full liability, there are no financial incentives for drug companies to keep life-threatening drugs like Vioxx off the market. Vioxx was always a dangerous drug. From its inception in 1999, Merck knew that Vioxx significantly increased the chance of hearts attacks and cardiovascular problems. In 1999 and 2000, two clinical trials showed that people taking Vioxx had a fivefold increase in hearts attacks.

☐ 1730

It was not until 2002, after multiple requests from the FDA, that Merck reluctantly change its warning label to include the severe risk of heart attack.

Mr. Speaker, this was too little, too late. Vioxx should have been pulled from the market years ago, and its victims and victims' families should have been compensated appropriately.

It was not until September 2004, after several more studies and testimonies from high-level FDA officials that Merck voluntarily withdrew Vioxx from the market. And here we are, less than a year later, considering a bill that provides immunity for drug manufacturers that create and distribute unsafe, possibly deadly, drugs.

Mr. Speaker, everyone is aware of the dangers of Vioxx, and the fact that Merck continued selling it knowing of its dangers. How can this House in good conscience reward the drug industry for bad behavior? The American people deserve a better bill, a bill that actually protects, not endangers them.

I would like to say to my friends on the other side of the aisle: if you want to protect irresponsible drug companies, that is your choice. Go right ahead and do it. But I am interested in protecting people. The least you could do is allow us to vote up or down on amendments that would hold the drug companies accountable.

There is no reason why, none whatsoever, why this rule needs to be closed. It is a disgrace that this has been brought to the House floor under a closed rule. I urge my colleagues to vote "no" on the rule and "no" on the underlying bill.

Mr. GINGREY. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Florida (Mr. WELDON), an internal medicine specialist.

Mr. WELDON of Florida. Mr. Speaker, I thank the gentleman for yielding me this time; and as he stated, I practiced internal medicine, but that was not the only type of medicine I practiced. I also practiced defensive medicine.

We can talk about medical malpractice premiums and the costs for doctors, and we can talk about suing drug companies, and we can talk about high premiums in States like West Virginia, which we heard about from the gentlewoman from West Virginia, how specialists leave the States. We had that problem in Florida. We had the neurosurgeons in Orlando threatening to leave because of the high premiums in Orlando. The trauma center would have been downgraded from a level one to a level two center.

But those are really not the issues. The real issue here is the incredible, incredible cost of defensive medicine. And I practiced it every day. I confess, I ordered extra tests to keep myself from being sued. And if you think this is just anecdotal, it is not, my colleagues. This was studied very nicely at Stanford University.

This is old data. It was published in the Quarterly Journal of Economics, 1996. They looked at California, and they looked at just two diagnostic codes, unstable angina, eschemic heart disease; and the study showed after the medical malpractice reforms went in place in California, the charges to the Medicare plan declined significantly. Guess what? Morbidity and mortality did not go up. Quality was maintained.

They estimated in that study, in 1996 dollars, that defensive medicine cost our health care delivery system $50 billion a year. It is estimated by today's dollars that it is well over $100 billion a year.

Now, my colleagues want to take care of the uninsured and they want prescription drugs for senior citizens? Then do something about this very costly system.

Mr. WELDON of Florida. Mr. Speaker, the study earlier referred to follows:

[From Forbes Magazine, Jan. 27, 1997]

RX: RADICAL LAWYERECTOMY

(By Peter Huber)

How do you trim $20 billion a year from Medicare? That's about what it will take to stave off bankruptcy. The easiest way: amputate lawyers.

It can be done. In 1995 Congress immunized community health care centers from malpractice suits. The federal government now covers the claims incurred by these federally subsidized clinics—claims are heard by a judge, not a jury, and there are no punitive awards. The clinics save an estimated $40 million in malpractice insurance. That funds treatment for an additional half-million indigent patients.

Why stop there? The country spends about $8 billion a year treating elderly heart-disease patients. Cap awards, abolish punitive damages, implement a few other direct, financial limits on medical malpractice suits, and you reduce hospital expenditures on cardiac patients by 5% to 9%.

If limits like these had been written into federal law, nationwide spending on cardiac disease in the late 1980s would have been $600 million a year lower. Extrapolate these results to medical spending generally—a debatable but reasonable enough basis for estimation—and you find that tort reform would save the country as a whole well over $50 billion a year.

But how much more negligent medicine would that encourage? How many more cardiac patients would die? How many more would get inferior treatment and suffer a second heart attack as a result? The best estimate: None at all. Nor would any true victims of negligence go uncompensated. The reforms we're talking about here don't eliminate liability, they just place sensible limits on windfalls and double-dipping. They are in fact already part of the law in many states.

The numbers I cite come from a very important paper, "Do Doctors Practice Defensive Medicine?" written by Daniel Kessler and Mark McClellan, both of Stanford University. The paper appeared in the May 1996 Quarterly Journal of Economics.

The authors analyze data on all elderly Medicare beneficiaries hospitalized for serious heart disease in 1984, 1987 and 1990. The study correlates spending for medical care with state tort laws. About three patients in five were treated in states that placed no direct limits on rights to sue. But two in five were hospitalized in states that did. Direct liability limits have clear, strong effects on medical spending, the study concludes.

But that's just the first half of the story. Previous studies—most notably one conducted by Harvard Medical School in 1990—asked panels of doctors to review patient files and attach subjective judgments about adverse outcomes and deficient treatment. Much of the "negligence" identified in this way had no significant impact on the ostensible victim. Studies like this didn't reveal much about the consequences of malpractice litigation because they didn't pin down the consequences of malpractice itself.

With elderly cardiac patients there are objective standards for assessing ineffective care: Patients die, or they end up back in a cardiac ward not long after discharge. Analyzing the record on these solid criteria, Kessler and McClellan reach a second, clear conclusion: None of the liability reforms studied "led to any consequential differences in mortality or the occurrence of serious complications."

If liability doesn't force doctors to provide better treatment, why does it boost the cost of medicine so sharply? Unlimited liability gets you more medicine, not better. Lawyer-shy doctors administer tests willy-nilly, and hand off patients to specialists with great alacrity. They know that the surest way to avoid liability is to dispatch your problem patient to someone else—a lab technician or another doctor. This can go on indefinitely. It's very expensive. And medically useless.

Congress has generally left medical malpractice reform to the states. But when Medicare and Medicaid patients sneeze, it's the federal Treasury that catches cold. No principle of federalism requires federal taxpayers in Montana to pay for Mississippi medicine ordered up by the lawyers there, not the doctors or patients.

The best place for Congress to balance the Medicare budget is on the backs of trial lawyers. These lawyers are not old, not poor and not needed.

Mr. HASTINGS of Florida. Mr. Speaker, I am very pleased to yield 3 minutes and 20 seconds to the very distinguished gentleman from Illinois (Mr. EMANUEL).

Mr. EMANUEL. Mr. Speaker, I want to thank my colleague for yielding me this time.

I was a sponsor of the Vioxx amendment, to strip out the protection of the pharmaceutical industry. As Americans are watching this debate here, here we are on the floor debating about protecting the pharmaceutical industry from all liability in a protection that no other industry in America would receive, and on the other side of the screen the American people are going to be watching the trial on Vioxx down in Texas, where a marathon runner, who was also a personal trainer, and who took Vioxx for 6 months, died a premature death. They will see what this Congress is doing on that civil case.

Now, we know from the head of FDA that by their estimate 55,000 Americans died because of Vioxx and the medication. Yet my colleagues want to deny that man's family their day at trial and give this industry, the only industry in America, a single protection.

Last year, my colleagues voted for a prescription drug bill to give the pharmaceutical industry $132 billion in extra profit, and now you want to give them liability protection. This Congress is like the gift that keeps on giving. You just do not know how to stop yourself.

Now, there is a place to redress these grievances. It is called the courtroom. With 55,000 deaths, have you no shame? Have you no respect for what is going on in America? The American people will see what is being done and understand the cost. But Merck, with Vioxx, is not the only pharmaceutical company. There is beckstra, accutane. There is phen-fen. Those are just some of the medications where other companies have not provided the FDA the material they needed to make the decision, and then, after the fact, after the consequences, those drugs get pulled.

What is ironic about this whole case and this whole piece of legislation is very simple. Just a year ago, many of our colleagues on the other side of the aisle joined us in agreeing that the FDA did not have the authority, the capability, or the funding to regulate the drug market. We were talking about in this very Chamber, on both sides of the aisle, setting up another whole entity to regulate this agency. So now what do we do in the dark of night, and nonrelevant to the medical malpractice legislation, you want to stick in a provision to protect the pharmaceutical industry because the FDA approval somehow gives them a Good Housekeeping seal when you said here in the well that the FDA was not doing its job.

George Orwell would smile upon this Chamber for the hypocrisy that runs free. You have done it with the pharmaceutical industry in the prescription drug bill last year, with $132 billion in additional profits over 10 years, and now you give them liability protection that no other industry in the Nation has, to our knowledge. And all the while Americans will watch their TVs, read in their newspapers, and listen on radio of the case of an individual's death because of the medication he took that was prescribed, and Merck, the company, had data before that drug got approved that it would lead to heart attacks and premature deaths.

The right forum is the American court. Yet my colleagues want to do this. Let us have an up-and-down vote. Do not be scared. Do not hide behind some little rule. Come on out here. Put it out on the table, and let us have a vote. The Senate knew it was wrong and pulled it out. So do not hide behind the rule. If this is what you want to do, let us have an up-and-down vote. You can put your votes right up there if you want to stand with this industry, and then the American people can see what it is all about.

I would recommend to my colleagues on the other side that there is a gift ban here. You gave them $132 billion in additional profits last year. There is a gift ban. The gift has got to stopping giving to the pharmaceutical industry.

Mr. GINGREY. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Georgia (Mr. PRICE), my physician colleague, an orthopedic surgeon.

Mr. PRICE of Georgia. Mr. Speaker, I thank the gentleman for yielding me this time, and I rise in support of the rule and the bill. This debate, this issue is about patients and the principal challenge that we have. What is the principal challenge that we have? I believe it is that it is imperative that we provide a system which allows patients to have access to the highest level of health care, and we are losing this across this Nation for a variety of reasons, but not the least of which is the lottery mentality of our court system.

Our system is woefully broken. As a physician for over 25 years, as an orthopedic surgeon, I have seen a vast array of medical and surgical problems. I have also stood back and been astounded, astounded by certain surprising occurrences.

One was with a patient who was cared for by one of my partners. Not too long ago, across this land, we asked patients to identify whether their surgery was to be on the right side or the left side so that we did not operate on the wrong leg or the wrong arm. And we asked the patient in the preoperative area to identify which side was the correct side. This one patient marked the incorrect side. The patient did. He marked the wrong side on purpose. On purpose.

Thankfully, thankfully there were enough checks and balances in place in this hospital that it was caught just before the surgery began. When asked why he marked the wrong side, he said. I thought I'd take a chance and see if I could make some money.

This is the lottery mentality. This is the climate that we are in out there. Our system is woefully broken. The mentality in the system that we have right now drives hospitals to close, and it drives doctors to end their practice. And patients, then, lose the ability to see their doctor.

To ensure Americans have access to the highest-quality care, I encourage my colleagues to support both the rule and the underlying bill.

Mr. HASTINGS of Florida. Mr. Speaker, I am very pleased to yield 4 minutes to the gentleman from Arkansas (Mr. BERRY), who is a farmer and a pharmacist.

Mr. BERRY. Mr. Speaker, I thank the gentleman from Florida for yielding me this time.

Mr. Speaker, I continue to be amazed as I listen to this debate. I can tell you this. I know the difference between butter beans and turnip greens, and I am wondering if these folks from Georgia have figured that out. They said they passed tort reform, and still the insurance companies cannot make any money. They might need to retrain their docs.

I do not know what is going on in Georgia, but I can tell you this, you guys pass this bill and you are going to live under it too. It is going to be the law of the land, and you are going to have to live under it. When your people get hurt, when your family gets damaged, when somebody that does not know what they are doing hurts your family, when a drug company sells you a bad product and kills somebody in your family, you are going to live under this bill, too. Think about it. Is that what you really want to do?

Are you so in bed with the drug companies and the insurance companies that you just cannot pass up, as my colleague from Illinois just talked about, you just cannot pass up another opportunity to give them money? It is absolutely amazing.

The pharmaceutical industry in this country has proven beyond a shadow of a doubt that they do not care about people or anything else. All they care about is money. Give us more money. And this Republican Congress and this Republican President have given them money in the most unashamed possible way that I can imagine.

If you all really believe this is going to solve the health care cost problems in the United States, I have some ocean front property in Arkansas I would love to talk to you about.

This is the most incredible thing I have ever seen. How you have the audacity to come before this body and even make the claim that that is going to happen is beyond me, and then criticize me and my side of the aisle because we are protecting trial lawyers? My goodness alive, that is just absolutely amazing.

The bottom line here is this: just like the gentleman from Massachusetts said, the Committee on Rules is where democracy goes to die in the U.S. House. You will not even let us have an up-or-down vote. Let us have a vote. If you want to protect the drug companies, let it stand alone. Let us let you be on the voting block. Let your name be public and say, I protected the drug companies. I protected the insurance companies. I want to do all I can to help those people. Be accountable.

You are so proud of this, boy, I would get up here and I would really talk about it a lot. And when you go home, you are going to meet that person that you kept from having their day in court and that you ruined their life and there was nothing they could do about it because of this law. They are going to be all over the place. Let us just hope it is not someone that is near and dear to you.

For me, there is not enough money to repay if you hurt my children or grandchildren. My grandson is sitting out here today. I have got three other grandchildren. There is not enough money in the whole wide world. And yet you all would limit their ability to be repaid to $250,000. That is, on its face, absolutely and utterly ridiculous; and why you would want to do that is beyond me.

□ 1745

And why you would want to do that is beyond me, and why you would want to do it for the drug companies is certainly beyond my ability to understand. But if you do it, you will ultimately be held accountable.

Mr. GINGREY. Mr. Speaker, I yield myself 15 seconds.

Mr. Speaker, eight States have specifically focused on pharmaceuticals and punitive damages and statutorily provide an FDA regulatory compliance defense against such damages. Those States are: Arizona, Colorado, Illinois, New Jersey, North Dakota, Ohio, Oregon and Utah.

Mr. Speaker, I yield 1 minute to the gentleman from Pennsylvania (Mr. PITTS).

Mr. PITTS. Mr. Speaker, I rise in support of the rule and the bill. Without a doubt, medical liability lawsuits and the extravagant awards drain vital resources from our health care system, and the most important resource being drained is doctors.

In Chester County, Pennsylvania, where I live, which happens to be the wealthiest county of the 67 counties in Pennsylvania, we have no more trauma surgeons. One-third of Pennsylvania doctors in high-risk specialties said they plan to leave the State because of the huge malpractice insurance rates. Seventy percent of Pennsylvania doctors have considered closing their practice because of the cost of medical malpractice insurance.

A few years back, the Lancaster Health Alliance, another county I represent, was planning to open a new clinic to serve the poor in Lancaster, but a $1.5 million hike in malpractice insurance forced them to abandon the project.

In Pennsylvania and many other States, we have a crisis on our hands, and the cost of this crisis is measured in terms of doctors leaving, hospitals closing, new clinics not being built, and patients not being served. H.R. 5 is the right answer for the crisis. I urge my colleagues to support the legislation and the rule.

Mr. HASTINGS of Florida. Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. CROWLEY).

Mr. CROWLEY. Mr. Speaker, I oppose this rule, and I oppose this overreaching bill. A lot of people on the other side of the aisle are trying to claim that caps on awards for victims of medical malpractice will help doctors. Some are claiming that caps on awards will even help patients.

The other side has one crucial fact wrong. Capping medical malpractice awards does not mean insurance rates will fall. A recent study, looking at premiums over the last 5 years, found that claims payments have been stable while premiums have more than doubled. In fact, malpractice insurers' total premiums were three times higher than total payments in 2004.

If we want to decrease medical malpractice insurance costs for doctors, let us talk about that. Let us talk about reducing medical errors by improving hospital resources and funding for graduate medical school education. Or let us talk about investigating insurance companies' pricing practices. But to pretend that this is medical malpractice awards set by juries and judges who have actually listened to victims' grievances, to put the blame for rising insurance costs on victims, that is not only cruel, it is completely false.

If we want to cap medical malpractice awards, let us call it for what it is: a gift to the insurance industry at the expense of innocent victims.

This bill hurts patients wrongly injured or killed by bad doctors, does not lower medical malpractice rates for the so many good doctors out there, and really only benefits the insurance companies. The other side would rather drive a wedge between two noble professions: doctors and lawyers. I say that is wrong-headed. Vote down this rule; and more importantly, vote down this bill.

Mr. GINGREY. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, listen to these numbers: 19, the number of States in a full-blown medical liability crisis; 72 percent, the number of Americans who favor a law that guarantees full payment for lost wages and medical expenses, but limits noneconomic damages; $70 to $127 billion a year, the cost of the defense of medicine, which could be significantly reduced by medical liability reforms; $10.2 billion, the amount of money paid out by licensed commercial insurers in 2002 for medical liability claims; 100 percent or more, the increase in liability insurance premiums that one-third of the Nation's hospitals saw in 2002; 48 percent, the proportion of America's medical students in their third or fourth year of medical school who indicated that the liability crisis was a factor in their choice of specialty, threatening patients' future access to critical services; 3.9 million, the increase in the number of Americans with health insurance if Congress were to pass common-sense reforms.

Mr. Speaker, we are not talking about anybody's right to a redress of grievances when they have been injured because of a physician or provider of care or a facility or hospital practicing below the standard of care in that local community. There are no limits on economic awards. As I said earlier, that could be $5 million. And as I said earlier, when you get into a courtroom and you listen to the plaintiff's attorney calculating the cost, the economic cost, a new home because of a disability access need costing $450,000, an au pair, a companion to go to the movies with the person that was injured, and on and on and on, these economic costs sometimes are astronomical.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield 3 minutes to the gentleman from New Jersey (Mr. PASCRELL).

Mr. PASCRELL. Mr. Speaker, I rise as an opponent to the rule that is before us, and I will vote "no" also on the bill.

I would like to go back to one of the speakers just a few moments ago who mentioned in his State Mag Mutual. Mag Mutual is one of the 12 largest monoline medical malpractice insurers in the United States. And in 2004, coincidentally, they had 216 percent above what is adequately called their surplus. They have excess surplus.

We have a crisis, we have a problem, but I personally believe that we are attacking the wrong folks in order to resolve the problem. The key words here are insurance reform. It is true that due to premium increases, the cost of practicing medicine in the State of New Jersey is rising at an unsustainable pace, but not for the reasons that the proponents of H.R. 5 are claiming.

According to the Kaiser Family Foundation, medical malpractice premiums are not rising because of claims or settlements. In fact, medical malpractice pay-outs have increased by 5.7 percent since 2001, and this is the chart to prove it. Payouts increased by 5.7 percent and 120 percent increase in premiums, you have the wrong dog in this race. Premiums nationally have risen over 120 percent in the same period. That is the real story.

Monetary caps are not the answer. You have not addressed the example that was put before this body: The Vioxx. Nobody wants to face that. Nobody wants to address that. A woman injured, cannot provide, cannot have a pregnancy, cannot give birth to a child, $250,000 cap. You have to be kidding me. I want that to be addressed. Monetary caps are not the answer.

Actually, the premiums in States without caps on damages are almost 10 percent lower than those with caps.

In California, Mississippi, Nevada, Ohio, Oklahoma, and Texas, insurers have continued to raise premiums despite the fact that these States passed caps. And what happened in California, they had Proposition 103. That is what leveled off, if we consider it leveling off, the antitrust exemption that rates began to finally come down.

It is a gift to the insurance companies, the HMOs, the medical institutions that harm patients and are filled with liability protections for manufacturers of defective or harmful health care products. This is plain and simple.

The Committee on Rules prevented any Member from offering amendments to this legislation. It is too serious. We are talking about life or death in many cases; the substitute amendment of the gentleman from Michigan (Mr. CONYERS) and the gentleman from Michigan (Mr. DINGELL) that takes steps to stop frivolous lawsuits, insurance reform and targeted assistance to the physicians in the communities who need it most. For these reasons I urge my colleagues to defeat the rule and this piece of legislation, H.R. 5.

Mr. GINGREY. Mr. Speaker, I yield myself 3 minutes.

A couple of minutes ago I was given some statistics. I want to continue in that vein. The gentleman from New Jersey (Mr. PASCRELL) just mentioned the situation in California. Of course, this bill, H.R. 5, is patterned after that very successful MICRA legislation, Medical Injury Compensation Reform Act, passed in 1979 in California. Here we are some 26 years later, and medical malpractice insurance premium rates have stabilized, growing only at about 6 percent per year.

But listen to these numbers in regard to whether people continue to get just compensation for their injuries when you do have a cap on so-called noneconomic or pain and suffering.

September 2003, 9-year-old boy, San Francisco jury awarded $70.9 million in compensatory damages after finding a hospital and a medical clinic negligent for failing to diagnose his metabolic disease.

December 2002, $84.250 million total award, Alameda County, a 5-year-old boy with cerebral palsy and quadriplegia because of delayed treatment of jaundice after birth.

January 1999, $21.789 million award, Los Angeles County, newborn girl with cerebral palsy and mental retardation because of a birth-related injury.

October 1997, $25 million total award, San Diego County, boy with severe brain damage, spastic quadriplegia, mental retardation because of too much anesthesia administered during a procedure.

November of 2000, $27.573 million, San Bernardino, California, 25-year-old woman with quadriplegia because of failure to diagnose a spinal injury.

July 2002, $12.5 million, Los Angeles County, 30-year-old homemaker with brain damage because of lack of oxygen during recovery from surgery.

Mr. Speaker, people are not being denied access to an opportunity to redress their grievances when they have been injured when someone has practiced below the standard of care. No physician member of this body, no physician in this United States would want anything like that. We want people to recover when one of our colleagues have indeed caused that harm.

Mr. Speaker, we know of cases in our own hospitals where lawsuits are brought against one of our colleagues where we know they practiced below the standard of care, and we are the biggest cheerleaders for the plaintiffs in those situations. H.R. 5 has nothing to do with that.

Mr. Speaker, we are just limiting this noneconomic so-called pain and suffering. It has worked in California, and it will work in the rest of the country.

Mr. Speaker, I reserve the balance of my time.

□ 1800

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself such time as I may consume.

I went to school and almost became a physician. I do not know what there is about some of the damages that the gentleman from Georgia calls so-called damages. I do not know how brain damage, losing my legs, double mastectomies, those kinds of things, are so-called punitive damages. If doctors commit those kinds of errors, they ought to be held accountable, and juries are the best place for that to occur.

Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Oregon (Mr. DEFAZIO).

Mr. DEFAZIO. I thank the gentleman for yielding time.

Mr. Speaker, this is a perfect bill. It must be perfect because not one amendment will be allowed, including my amendment. Now, the Republicans say free markets. We want free markets. How come we do not have a free market in insurance, I ask them? The insurance industry is exempt from the antitrust law. They can and do get together legally and collude to drive up the price of insurance for every American in every line of insurance. Not just medical malpractice. That is legal for the insurance industry. It is not legal for the two corner gas stations. They would go to Federal prison. It is not legal for any other industry in America. But they would not allow a vote on my amendment just to say, let us have a market in insurance. Let us take away their antitrust exemption. Let us have competition. Maybe that will lower prices. They seem to believe in competition until their pockets are being filled at election time by an industry that is exempt from competition. But they say they are going to solve the problem here tonight with this bill.

Now, the other thing the gentleman from Georgia is not talking much about is why we should exempt the pharmaceutical industry for deadly and dangerous drugs, people who have died and been seriously injured, from any liability. What other industry in America has that exemption? So this is sort of a perfect bill; is it not? The two largest contributors to the Republicans are the pharmaceutical and insurance industries. The insurance industry is exempt from competition and antitrust law, and now they want to exempt the pharmaceutical industry from having to pay people for having killed their spouse, their children, or having perhaps caused so-called brain damage or a so-called heart attack or something else with a defective product. That is unbelievable.

I wish the gentleman would spend the rest of his time talking about why the pharmaceutical industry needs an exemption when they have actually maimed or killed people. If we are going to extend it to the pharmaceutical industry, how about the automobile industry? We have got a lot of industries in America that could use an exemption from liability that have to pay and go to court now. But, no, they are saying the pharmaceutical industry should not have to do that, because, as we know, they have the best interests of Americans at heart. That is why they do not want to allow us to import cheaper drugs from Canada, and they are threatening the Canadian Government. That is why they are the most consistently profitable industry in America when our seniors are cutting their drugs in half. No, they need protection from this horrible scourge of being sued when they have sold a defective product like Vioxx and actually concealed the tests from the American people and perhaps from the FDA.

I wish the gentleman would spend the rest of his time defending the antitrust exemption for the insurance industry, because if he believes in free markets, he should support my amendment. It should be part of this bill. We should get to vote on that. We should say, let us have competition in insurance. That will help the doctors. It is not the total solution, there are other things that need to be done, but that certainly would help the doctors.

It would help every other American with every other line of insurance, too. Your car insurance might come down. Your homeowner insurance might come down. But they do not want to allow that vote, and now they want to have a huge new exemption for the pharmaceutical industry. I guess we know who is lining up behind their next campaign with very generous contributions.

Mr. GINGREY. Mr. Speaker, I yield myself 2 minutes.

I am sure the gentleman from Oregon was not questioning anyone's motives in his remarks. I think maybe the section of H.R. 5 that says no punitive damages to a pharmaceutical company, a drug maker or a medical products manufacturer that makes something, a drug or a medical product, that has been ruled safe, it has gone through all FDA testing, there is absolutely no reason to suspect that the drug or product is defective based on phase 1, phase 2, phase 3 trials, and then something turns up. It only relieves that manufacturer of punitive damages. As I say, Mr. Speaker, maybe we ought to call that section the Oregon model, because that is the exact same thing that exists under Oregon law.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I am very pleased to yield 1½ minutes to the gentleman from Illinois (Mr. LIPINSKI), a new Member, the son of a former Member of the United States Congress, our former colleague Bill Lipinski.

Mr. LIPINSKI. I thank the gentleman from Florida for yielding me this time.

Mr. Speaker, I rise today in opposition to the closed rule on H.R. 5 and the underlying bill. There is a need for medical malpractice reform, and the amendments offered in the Rules Committee could have made this a good bill for improving access and care. But the Rules Committee refused consideration of all the amendments, including one that I offered that would have directly reduced the number of malpractice cases in court by facilitating the use of mediation. Mediation has proven to be a cost-effective and timely way to settle malpractice cases. Rush Medical Center in Chicago now has one-third of its cases go to mediation instead of litigation. Other hospitals around the country have begun to try to attempt similar programs, but have hit the roadblock of a lack of mediators with a medical background who are available.

My amendment would have provided grants to set up mediation programs and to train medical malpractice mediators. This would have done exactly what this bill purports to do, reduce the burden of litigation.

We should have the opportunity to debate this and all the amendments proposed. I urge my colleagues to vote against this rule and vote against this bill.

Mr. GINGREY. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, in addition to about 75 percent of the American public that are in favor of placing caps on noneconomic damages, let me just list a few other organizations that are in favor of that as well: The American Academy of Family Physicians, the American Academy of Pediatricians, the American Association of Home and Services For the Aging, the American College of Emergency Physicians, the American College of Nurse Midwives, the American College of Obstetricians and Gynecologists, the American College of Surgeons, the American Health Care Association, the American Hospital Association, the American Medical Association; the absence, of course, of the American Trial Lawyers Association.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself the balance of my time.

One of the previous speakers, the gentleman from Georgia (Mr. PRICE), said that some victims have won, quote, the malpractice lottery. Tell that to, for example, Ms. Linda McDougal, who had a double mastectomy because a doctor misdiagnosed her condition and recommended this radical procedure. Does the gentleman from Georgia (Mr. PRICE) really think that Ms. McDougal has won some sort of lottery? I just cannot believe that.

Key findings from "The Growth of Physician Medical Malpractice Payments: Evidence From The National Practitioner Data Bank" show that the average annual malpractice claim payout rose only 4 percent a year from 1991 to 2003, in line with the average overall increase in the cost of health care.

Time will not permit me to go into a litany of statistics and supporters, but I do want to point out that the thought seems to be that people do not want to practice medicine. Well, the number of doctors increased throughout the Nation from 1985 to 2001, even in States with no malpractice award caps. The study showed that there were 497,140 professionally active doctors in 1985 and 709,168 in 2001. The report found little evidence that doctors are leaving one State for another State with malpractice award caps.

Mr. Speaker, I urge Members to vote "no" on the previous question so I can amend the rule to make in order the Emanuel-Berry amendment. This amendment would strike from the bill a provision granting immunity to manufacturers of medical products from being sued when it is discovered that those manufacturers withheld potentially damaging information from the FDA and the public. The amendment was offered in the Rules Committee yesterday, but, like all the rest, was defeated on a straight party-line vote.

Mr. Speaker, I ask unanimous consent to print the text of the amendment immediately prior to the vote on the previous question.

The SPEAKER pro tempore (Mr. BASS). Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. HASTINGS of Florida. Mr. Speaker, what is a provision protecting the drug companies doing in a bill that is supposed to be about doctors' malpractice premiums? How does this provision ever get into this bill in the first place? My guess is that many of my colleagues who support this bill have been asking the same question and would vote to strike it from the bill if they were given the opportunity. But because of this closed rule, the House will not have the opportunity to strike this embarrassing sop to the pharmaceutical industry from this legislation. Defeating the previous question will give Members a chance to vote on what has now been dubbed the "Merck loophole."

This section is not just bad policy, Mr. Speaker, it is almost criminal. Every day we read about more evidence that the pharmaceutical company Merck concealed information about the risks of its FDA-approved drug Vioxx. I do not think any of my colleagues want to find themselves in the position of defending people who hid information about this drug that could have saved someone's life.

Vote "no" on the previous question so we can debate this important amendment. I want to make it very clear that a "no" vote will not stop us from considering this legislation. We will still be able to consider the medical malpractice legislation on the floor today. However, a "yes" vote will prevent us from considering the Emanuel amendment to strike this ill-conceived language.

Again, vote "no" on the previous question.

Mr. Speaker, I yield back the balance of my time.

Mr. GINGREY. Mr. Speaker, I yield 1½ minutes to the gentleman from Indiana (Mr. BURTON).

Mr. BURTON of Indiana. Mr. Speaker, we had a situation a few years ago where on the homeland security bill at about 11 o'clock at night, they stuck language in the bill which prohibited class action lawsuits against the manufacturers of thimerosal, which is a preservative that is in vaccines, and 50 percent of it is ethyl mercury. We have hundreds of thousands of kids that have been damaged by ethyl mercury in vaccines. It is called thimerosal. The language in this bill, and I want to read it to you, says, "No punitive damages may be awarded against the manufacturer or distributor of a medical product, or a supplier of any component or raw material of such medical product, based on a claim that such product caused the claimant's harm where," and it goes on.

The way I read this, these people who have been damaged, and we have been fighting for years to get them the ability to get money from the Vaccine Injury Compensation Fund, one of the negotiating things that we have had is the language that is being put in this bill that is going to stop that. What this means simply is that if this passes with this language in it, the way I understand it, those people, those thousands and thousands of people that have children that have been damaged by thimerosal, mercury, in vaccines will have no recourse, and they cannot get any restitution out of the Vaccine Injury Compensation Fund the way it is right now. I do not know how this got in here, but I can tell you right now, this is not good. I want to support my chairman and the Rules Committee, but this language is not good.

Mr. DREIER. Mr. Speaker, if the gentleman will yield, there is an exception that is provided for vaccine injury in the bill. I think it is also very important to note, as the gentleman from Georgia said earlier, that this deals with equipment and pharmaceutical products that have been approved by the Food and Drug Administration. That is the reason that this is provided, because that kind of direction that has come from the FDA is included.

Mr. BURTON of Indiana. Thimerosal was approved as well. You say there is language in here that does exempt vaccines?

Mr. DREIER. Section 10, Effect on Other Laws, there is a vaccine injury exemption that is included in the bill. I have got it right here. I am happy to show it to the gentleman.

□ 1815

Mr. GINGREY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in concluding this debate on House Resolution 385, I would like to encourage my colleagues to not only support this rule but also the underlying bill. I want to thank all of those who spoke on behalf of the rule and applaud them for their willingness to address this problem in an honest and an open fashion.

Unfortunately, some opponents of this legislation seem content to demagogue the issue and pander to those special interests who are determined to keep the playing field tilted in their favor.

Mr. Speaker, I include for the RECORD letters of the many organizations that have been submitted to me in support of this bill.

LETTERS OF SUPPORT

A. PIAA (Physician Insurers Association of America)
B. American Osteopathic Association
C. American College of Obstetricians and Gynecologists
D. American Academy of Ophthalmology
E. American College of Surgeons
F. The Society of Thoracic Surgeons
G. The Doctor's Company
H. Californians Allied for Patient Protection
I. Physicians Insurance
J. JPMSLIC Insurance Company
K. American College of Physicians
L. American Society of Anesthesiologists
M. Premier Advocacy
N. American Association of Nurse Anesthetists
O. American Medical Directors Association
P. American Association of Orthopaedic Surgeons
Q. American Medical Association—Michael Maves, Executive Vice President
R. Chamber of Commerce
S. American Benefits Council
T. American College of Cardiology
U. American Academy of Otolaryngology—Head and Neck Surgery
V. American College of Osteopathic Family Physicians

Mr. Speaker, some might not want to see reform, but I have list upon list and a binder full of organizations and individuals who recognize that we have a problem, and they see H.R. 5 as the solution. Over 200 medical organizations from the American Medical Association, the American College of Surgeons, to the American Dental Association to the United States Chamber of Commerce have urged this Congress to act now, not later.

A recent survey by the Health Coalition on Liability and Access found that 72 percent of Americans favor a law that would guarantee full payment for economic losses like lost pay and medical costs, but would limit noneconomic costs. With an overwhelming majority of the American people and most health care organizations in support of the language of this legislation, we in the House of Representatives cannot stand idly by with a good commonsense solution at our fingertips.

Again, this bill in no way, shape, or form limits the amount an individual can receive in economic damages. If someone's hospital bill or lost wages costs $50,000, $500,000, or even $5 million, they can still be awarded the full amount in damages less attorneys' costs and fees. If there are punitive damages that are applicable because a physician or health care provider deliberately, deliberately, causes injury to a patient, then punitive damages can be awarded double the economic damages. So if it were $5 million worth of economic damages, then there could be $10 million worth of punitive damages.

The same thing, Mr. Speaker, is applicable to medical product manufacturers and the pharmaceutical industry that produces these drugs. The other side would make us believe that they were granted complete immunity. Absolutely not, if they knowingly withheld information. Only economic damages are limited; and punitive damages, as I say, would be calculated by a responsible formula.

Finally, H.R. 5 ensures that victims benefit from a fairer system and they receive a greater portion of their damages. Ultimately, the biggest winner in H.R. 5 is the American consumer-patient who will have better access to health care and lower health care costs. I think that alone testifies to the importance of this bill and the need to put partisanship aside for the sake of the people who sent us here to represent them. They deserve no less.

Again, I want to thank the gentleman from Wisconsin (Chairman SENSENBRENNER) and the gentleman from Texas (Mr. BARTON) for their timely consideration of this bill, as well as the gentleman from Texas (Mr. SMITH), who is the Courts, the Internet, and Intellectual Property Subcommittee chairman of the Committee on the Judiciary and floor manager of H.R. 5.

I again would encourage my colleagues to support House Resolution 385 and H.R. 5.

Mrs. CHRISTENSEN. Mr. Speaker, as most members of this body know, I am a physician, and a member of physician organizations who practiced family medicine for 21 years. So, I know this issue first hand, and I am deeply troubled about patients who will be denied just compensation under the approach this bill takes—caps on damages.

I am also outraged that physicians are being used as pawns in the game of political one-upmanship this bill plays with its narrow, misguided and ineffective focus and attack on trial lawyers.

And we all know, because we read the same reports that H.R. 5 bill will not fix the problem. The causes of high premiums are not the result of medical malpractice lawsuits or increasing payouts. In fact, a recent report commissioned by the Center for Justice and Democracy clearly demonstrates that over the last 5 years, there has been little to no increase in malpractice payouts.

Despite this, there have been humongous increases in malpractice insurance premiums. In fact, the report found that many of the leading malpractice insurers have substantially increased their premiums while decreasing their actual claims payments and reducing the amount they project to payout in the future, but significantly increasing their surplus or profits.

Let me just give you a few examples from the report so everyone understands:

1. In fact, in 2004 alone, the leading medical malpractice insurers took in about three times as much in premiums as they paid out in claims.

2. And, in 2004, the 15 leading malpractice carriers, taken in sum, increased their premiums by 9.3 percent, yet their losses fell by 21.1 percent.

3. Between 2000 and 2004, the premiums of the 15 leading medical malpractice insurers have more than doubled, yet the amount they paid out in claims during this same period remained constant. In fact, during this time frame, gross premiums increased 134.5 percent while gross payouts increased by 9.6 percent.

4. Another way to put it: between 2000 and 2004, the increase in premiums collected by the 15 leading medical malpractice insurers on a net basis was twenty-one times as great as the increase in payments on a net basis.

So not allowing for Democratic alternatives which sought to address the full scope of the malpractice problem, and provide a real remedy has precluded us from having a bill on the floor that merits our vote.

My colleagues please don't disrespect patients and their families and their pain and suffering; and do not play the hard working doctors.

Vote no on H.R. 5 and then let's pass a bill that truly addresses the crisis that many factors—like lack of insurance, language barriers, limited providers of color, inadequate funding for prevention and malpractice insurance coverage is creating.

Mr. SENSENBRENNER. Mr. Speaker, I wish to include in the CONGRESSIONAL RECORD an explanation for my decision not to participate in legislative consideration of H.R. 5, the "Help Efficient, Accessible, Low-Cost, Timely Healthcare ('HEALTH') Act of 2005."

House Rule III(1) states:

> Every Member . . . shall vote on each question put, unless he has a direct personal or pecuniary interest in the event of such question.

House precedents establish that "where the subject matter before the House affects a class rather than individuals, the personal interest of Members who belong to the class is not such as to disqualify them from voting."

As a result, House precedent has held that a Member's ownership of common stock in a corporation, "was not, under House precedents, sufficient to disqualify him from voting on" legislation that benefitted the corporation in which that Member held stock.

I currently own shares in at least two corporations that may benefit from the enactment of H.R. 5. Shares of these corporations are generally held, and do not represent "uniquely-held" financial interests. As a result, my participation in legislative consideration of H.R. 5 would not appear to violate current House Rules and established precedent. However, as in all matters susceptible to subjective examination, there are no bright line rules to determine whether a Member should not participate in legislation that may benefit that Member in a personal or financial manner.

In common parlance, the term "conflict of interest" is subject to various interpretations. However, the House Ethics Manual states that this term "is limited in meaning; it denotes a situation in which an official's conduct of his office conflicts with his private economic affairs."

The House Committee on Standards of Official Conduct has admonished all Members "to avoid situations in which even an inference might be drawn suggesting improper action."

The Committee on Standards and Ethics has also endorsed the principle that "each individual Member has the responsibility of deciding for himself whether his personal interest in pending legislation requires that he abstain from voting." I have concluded that my holdings in at least two corporations that may benefit if H.R. 5 is enacted into law, coupled with my Chairmanship of the Committee of primary jurisdiction over this legislation, raise legitimate questions concerning whether my participation in this legislation conflicts with my private economic affairs.

While this may be a gray area, questions concerning whether my participation in legislation may raise the appearance of a conflict of interest must be subject to no doubt. As a result, I wish to forcefully dispel any appearance of such a conflict by recusing myself from legislative consideration of H.R. 5.

Participation in the political process, particularly voting on legislation, is central to maintaining the official responsibilities to which Members of Congress are sworn. In all of my public life, I have striven to energetically and conscientiously discharge my official responsibilities while preserving the public trust and confidence I have been elected to uphold.

While House rules may provide an important benchmark for determining the propriety of a Member's decision to vote on legislation before the House, nothing can substitute for a Member's conscience. For this reason, I hereby recuse myself from participation in legislative consideration of H.R. 5 during the 109th Congress.

Mr. LIPINSKI. Mr. Speaker, I rise today in opposition to the closed rule on H.R. 5, the HEALTH Act. There is a need for medical malpractice reform, and the amendments offered in the Rules Committee could have made this a good bill for improving patient access and care. I am deeply disappointed that the Committee refused consideration of all the amendments, including mine that would have reduced the number of malpractice cases in court by facilitating the use of mediation. Mediation has proven to be a cost-effective and timely way to settle malpractice cases. Rush Medical Center in Chicago now has one-third of its cases go to mediation instead of litigation. Other hospitals around the country have begun to implement similar programs, but have been hindered by the lack of mediators with a medical background. My amendment would have provided grants to set up mediation programs and to train medical malpractice mediators. This would have done exactly what this bill purports to do, reduce the burden of litigation. We should have an opportunity to debate this and all the amendments proposed, so I urge my colleagues to vote against this Rule.

Mr. COSTELLO. Mr. Speaker, I rise today in opposition to the rule and to the bill, H.R. 5. Republicans on the Rules Committee blocked the consideration of several amendments offered by me and my colleagues to this bill. This body should have the right to openly discuss and to consider each of these amendments.

One of the amendments blocked was one I offered that is modeled after the state of California's 1975 reform laws (Proposition 103) which has been successful in leveling off insurance rates.

My amendment would require the insurance commissioner or a similar public body in each respective State to hold public hearings when an insurer proposes a rate increase in premiums for medical malpractice liability insurance that exceed 15 percent. If a State has a lower insurance rate than 15 percent, this legislation would not apply.

Mr. Speaker, I believe that the issue of rising medical malpractice insurance premiums is best handled at the state level, as 29 states, including Illinois, have passed legislation to address this problem.

However, if Congress is going to consider legislation, it should be comprehensive. H.R. 5 is not a balanced piece of legislation. Earlier this year, I supported the Class Action Fairness bill because it was a product of bipartisan input and compromise. The bill we are considering today does not contain input from Democrats and fails to take a comprehensive approach to the problem of rising medical malpractice rates.

H.R. 5 is a caps only bill. Numerous studies show that caps alone do not lower insurance rates. According to the Medical Liability Monitor, states with caps on damages have average insurance premiums that are 9.8 percent higher than insurance premiums in states without caps on damages.

Under H.R. 5 insurance carriers can still raise rates any amount and at any time, without justifying their rate increases. A bill that only places caps on non-economic and punitive damages but does not provide insurance reform will not solve our medical malpractice crisis today.

The insurance industry has been very clear: passing caps on non-economic damages will not result in reduced medical practice premiums. A recent study by the National Council of Insurance Commissioners revealed that medical malpractice carriers in Illinois raised their rates 13 percent last year, despite the fact that their direct losses only increased 3 percent.

Serious reform of the insurance industry must be part of any attempt to bring the cost of medical malpractice premiums down.

The material previously referred to by Mr. HASTINGS of Florida is as follows:

PREVIOUS QUESTION FOR H. RES. 385, H.R. 5—MEDICAL MALPRACTICE ("HEALTH" ACT)

In the resolution strike "and (2)" and insert the following

"(2) the amendment printed in Section 2 of this resolution if offered by Representative Emanuel of Illinois or Representative Berry of Arkansas or a designee, which shall be in order without intervention of any point of order or demand for division of the question, shall be considered as read, and shall be separately debatable for 60 minutes equally divided and controlled by the proponent and an opponent; and (3)"

At the end of the resolution add the following new section:

"SEC. 3. The amendment by Representative Emanuel of Illinois and Representative Berry of Arkansas referred to in Section 1 is as follows:

"Strike section 7(c)".

Mr. GINGREY. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore (Mr. BASS). The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. HASTINGS of Florida. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

PROVIDING FOR CONSIDERATION OF H.R. 3045, DOMINICAN REPUBLIC-CENTRAL AMERICA-UNITED STATES FREE TRADE AGREEMENT IMPLEMENTATION ACT

Mr. DREIER. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 386 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 386

Resolved, That upon the adoption of this resolution it shall be in order to consider in the House the bill (H.R. 3045) to implement the Dominican Republic-Central America-United States Free Trade Agreement. All points of order against the bill and against its consideration are waived. The bill shall be considered as read. The bill shall be debatable for two hours equally divided and controlled by the chairman and ranking minority member of the Committee on Ways and Means. Pursuant to section 151 of the Trade Act of 1974, the previous question shall be considered as ordered on the bill to final passage without intervening motion.

SEC. 2. During consideration of H.R. 3045 pursuant to this resolution, notwithstanding the operation of the previous question, the Chair may postpone further consideration of the bill to a time designated by the Speaker in consonance with section 151 of the Trade Act of 1974.

SEC. 3. A motion to proceed to consideration of H.R. 3045 pursuant to section 151 of the Trade Act of 1974 shall be in order only if offered by the Majority Leader or his designee.

The SPEAKER pro tempore. The gentleman from California (Mr. DREIER) is recognized for 1 hour.

Mr. DREIER. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Massachusetts (Mr. MCGOVERN), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. DREIER. Mr. Speaker, with today's consideration of the Dominican Republic-Central America Free Trade Agreement, we are now embarking upon debate on one of the most important national security issues of the 109th Congress. At the same time, we are addressing the extraordinarily important issues of border protection and economic growth in this country and throughout this hemisphere. These issues are becoming increasingly intertwined.

Just last week, India's Prime Minister stood right here in this Chamber and spoke very eloquently when he said the following: "Globalization has made the world so interdependent that none of us can ignore what happens elsewhere. Peace and prosperity are more indivisible than ever before in human history."

Mr. Speaker, Prime Minister Singh is absolutely right. We cannot afford to pretend that poor, political, and economic conditions outside our borders do not affect the security of our Nation. As we work to spread democracy in Iraq, Afghanistan, and elsewhere to combat global terrorism, we must not neglect the anti-democracy, anti-American forces that are at work in Latin America.

Although our neighbors to the south have chosen democracy over dictatorship, their old oppressors still refuse to go quietly. Nicaragua's former communist dictator, Daniel Ortega, wants to return to power. He has tried time and time again, Mr. Speaker, to do that. And he is staking his campaign in large part on the defeat of the Dominican Republic-Central America Free Trade Agreement. He has found good company with Venezuela's Hugo Chavez, who is actively using his nation's oil proceeds to undermine democracy, free markets, and American interests throughout this hemisphere.

Together with Tomas Borge, the former defense minister, the only surviving founding member of the Sandinista Front, they oppose this agreement because it would solidify the region's commitment to political and economic freedom, thus subverting their plans for reinstalling leftist control in Nicaragua. The only alliance they seek would bind together other anti-American parties like Cuba's Fidel Castro.

Mr. Speaker, The Washington Post editorialized just yesterday in strong support of the Dominican Republic-Central America Free Trade Agreement, and they said the following: "The defeat of CAFTA would help . . . anti-American demogogues, starting with Mr. Chavez. For them, the retreat of the United States from partnership with Central America would be a major victory."

Mr. Speaker, ceding this victory to the likes of Chavez and Ortega clearly goes against our best interests, against our national security priorities. It would be the beginning of a return to the era that Central Americans, with the help of the United States, worked so hard during the decade of the 1980s to leave behind, an era marked by totalitarianism, unrest, and the poverty that breeds desperation. This would obviously be a harsh reality for the people of Central America.

But a return to the Ortega style of government would have grave consequences for the United States of America as well. Without political and economic freedom, there can be little hope for the future. And without hope, Central Americans with families to feed will look north for economic opportunity.

Nearly all illegal immigrants to the United States come in search of work because of limited opportunity at home. In fact, Mr. Speaker, T.J. Bonner, the president of the National Border Patrol Council, estimates that 98 percent of illegal immigrants come to this country for economic opportunity, seeking a chance to feed their families.

If we want to combat illegal immigration, we must address its root causes. By providing the tools for economic growth in the region, DR-CAFTA will create new opportunities and provide hope for the future in the region where these people are. The people of Central America will have a powerful incentive to stay and build their lives in their own countries rather than make the dangerous and illegal attempt to enter our country.

Rejecting this agreement, Mr. Speaker, would simply sanction, even exacerbate, the problem of illegal immigration. We simply cannot ignore the fact that the strength of democratic and free market institutions throughout the globe, particularly in our own backyard, directly impacts our own security. By the same token, we cannot ignore the fact that the worldwide marketplace directly impacts our own economic strength.

Mr. Speaker, we all know and everyone recognizes that we have a global economy. We live in a world that continues to shrink, enabling us to, in the words of the New York Times columnist Tom Friedman, "reach around the world farther, faster, deeper, and cheaper than ever before."

Mr. Speaker, new technologies are connecting the world's entrepreneurs, risk takers, creative thinkers, and capital, including human capital. This worldwide network has been a powerful engine for growth in the United States economy. We have grown to an $11.5 trillion economy. We are the world's largest exporter and importer. We lead the global economy not just by sheer size but by the force of our innovation.

But we cannot take our global economic leadership for granted. The worldwide economy is dynamic and fast paced. China has emerged as a global powerhouse and shows no signs whatsoever of slowing down. India, as we heard from the Prime Minister, is becoming a formidable competitor in one of our core areas of strength, the high-tech sector. Passage of the Dominican Republic-Central America Free Trade Agreement represents an opportunity we simply cannot afford to forfeit, the chance to dramatically strengthen our competitiveness as a country and as a region. Further integration of our regional economy will allow us to draw upon all of our strengths and resources to produce locally and compete globally.

☐ 1830

The DR-CAFTA and U.S. economies already complement each other well. The textile and apparel industries are a great example of that, Mr. Speaker. The DR-CAFTA region represents our second largest market for fabric and our largest market for yarn. Nearly 25 percent of U.S. fabric exports and 40 percent of U.S. yarn exports are sent to the Central American countries and the Dominican Republic. The region exports nearly all of its apparel; 97 percent of its apparel comes to consumers right here in the United States of America.

As a result of this close, complementary relationship, apparel manufactured in the DR-CAFTA region is made up of 80 percent U.S.-made content. By contrast, Chinese apparel is made up of less than 2 percent U.S. content. Again, that is 80 percent versus 2 percent in terms of American-made content.

Now, I ask my colleagues, Mr. Speaker, in the face of the Chinese juggernaut, why on Earth would we turn our backs on the very region that supports U.S. industries and offers the opportunity for us to effectively compete with China and other global competitors?

Trade with the DR-CAFTA countries is so important precisely because of this global context. The U.S. economy will not be weakened as a result of the people of Latin America lifting themselves out of poverty, but it will be weakened if we reject the economic partnerships that make us strong and enable us to compete in the global economy.

In this interconnected world, isolation is simply not possible. The state of the global economy affects our economic strength. Our economic partnerships affect the prosperity of our neighbors and the security of our borders. Prosperity leads to a greater commitment to the principles of political and economic freedom; and strong, democratic institutions throughout the globe lead to greater security for our country.

National security and economic competitiveness must be addressed in a comprehensive way that fully accounts for this interconnected global context. With DR-CAFTA, we have the opportunity, Mr. Speaker, to do just that. We can enhance our competitiveness while creating new opportunities for growth in the DR-CAFTA countries. By spurring economic growth, we can reduce the incentives for illegal immigration and strengthen democracy and the rule of law in the region. And, by supporting democratic institutions, we can advance our own security and our interests.

Mr. Speaker, I urge my colleagues to support this rule and the very important vote that we are going to have on the Dominican Republic Central American Free Trade Agreement so that we can enhance the quality of life and the standard of living for the people of the United States of America, for the people of the five Central American countries impacted by this, and the people of the Dominican Republic.

Mr. Speaker, I reserve the balance of my time.

Mr. McGOVERN. Mr. Speaker, I thank the distinguished gentleman from California (Mr. DREIER), the chairman of the Committee on Rules, for yielding me the customary 30 minutes.

Mr. Speaker, I yield myself such time as I may consume.

Today the House is debating a trade agreement of tremendous import not because the markets, exports or money involved are especially significant: the six countries involved, Costa Rica, El Salvador, Nicaragua, Guatemala, Honduras, and the Dominican Republic, are smaller in combined economic clout than the average midsize American city. Most of their products already enter the United States duty free, and our exports to them are modest.

No, Mr. Speaker, this debate is important because it brings into sharp focus the differences over what our global economy should look like, of how we in the United States and our global trading partners seek to grow our national economies, create good jobs at decent wages, and generate the kind of revenue necessary to provide basic public goods and services, promote human health, and protect the environment.

That is why, Mr. Speaker, this rule is an outrage, an absolute disgrace. It is one of the most disrespectful rules issued by the Committee on Rules, which has become infamous for shutting down debate.

This rule allows for only 2 hours of debate on the CAFTA Implementation Act. That is just 60 minutes each for supporters and opponents of this agreement to make their voices heard on this very important and very controversial trade agreement.

I know that nearly every Member on this side of the aisle would like an opportunity to speak on this bill, to make clear to the American people, and especially to their constituents at home, why he or she supports or opposes this trade bill. Mr. Speaker, if every opponent wanted time to speak, then this rule would allow each of them to have just 16.8 seconds to make a statement, and the same holds true for those Members who support CAFTA. What a mockery of the democratic process.

In 1993, when the Congress debated the North American Free Trade Agreement, the rule granted Members 8 hours of debate; 8 hours, Mr. Speaker. Sadly, since Republicans have exercised control of Congress, we have seen the complete erosion of debate on trade agreements, where now just 2 hours of debate has become the standard. Well, a couple of hours might serve for a debate on a Free Trade Agreement with Australia or Jordan or even Chile or Singapore, agreements that garnered fairly broad bipartisan support and were not viewed as very controversial.

But CAFTA is arguably the most controversial trade agreement that has come before this House since NAFTA, and the Members of this House deserve much better than the shabby treatment handed to them by the Republicans of the Committee on Rules.

Mr. Speaker, this is not a debate over whether or not to trade with Central America. We already trade extensively with Central American countries and the Dominican Republic. But this is a debate, Mr. Speaker, about people's jobs, both here in the United States and in Central America. Now, maybe they do not care about jobs on the other side of the aisle, but, to the average worker, it is a big deal.

I am tired of trade agreements that do not improve workers' wage protections or benefits, but, rather, are a rush to the bottom that puts profits above people.

Since 2000, the United States has lost 2.8 million manufacturing jobs and 1 million high-technology jobs. We now have a $162 billion trade deficit with China, and a $42 billion deficit with Mexico. Clearly, the rules of international trade have failed the American worker, the American standard of living, and the American dream, and have made American jobs our number one export. CAFTA will further this trend by rewarding companies that throw U.S. workers out on the streets and by creating jobs in countries where labor is cheapest, environmental laws are weakest, and where the rights of workers are violated and scorned.

But this rule, Mr. Speaker, will deny Members the right to debate these very serious matters.

I urge my colleagues on both sides of the aisle to reject this rule and demand the right to speak.

Mr. Speaker, today the House is debating a trade agreement of tremendous import—not because the markets, exports or money involved are especially significant—the six countries involved—Costa Rica, El Salvador, Nicaragua, Guatemala, Honduras and the Dominican Republic—are smaller in combined economic clout than the average mid-size American city. Most of their products already enter the United States duty-free, and our exports to them are modest.

No, Mr. Speaker, this debate is important because it brings into sharp focus the differences over what our global economy should look like; of how we in the United States and our global trading partners seek to grow our national economies, create good jobs at decent wages, and generate the kind of revenue necessary to provide basic public goods and services, promote human health, and protect the environment.

This is not a debate over whether or not to trade with Central America. We already trade extensively with all the Central American countries and the Dominican Republic. In addition, we have special trade relations with all of them under the GSP and the Caribbean Basin Initiative.

Mr. Speaker, the months and weeks leading up to this vote have been filled with the sounds of battle between so-called "free trade" versus "fair trade." Mr. Speaker, I am more interested in "smart" trade.

Smart trade is about who gets protected under this agreement and who does not.

Smart trade provides significant gains for U.S. workers and consumers, as well as businesses.

Smart trade supports and strengthens development, democracy and the rule of law.

Smart trade guarantees economic opportunity for those who may be displaced by trade.

Smart trade is concerned about what happens to the most vulnerable—in our country and in our trading partners.

Smart trade is sustainable, both here at home and abroad, because it is created in a bipartisan fashion—and because it brings the benefits of trade to all countries, and to all the people of those countries, including the poorest.

Judged against these standards and principles, CAFTA is neither "free" nor "fair" trade, and it is certainly not "smart trade."

Mr. Speaker, since the year 2000, the United States has lost 2.8 million manufacturing jobs and one million high-technology jobs. We now have a $162 billion trade deficit with China and a $45 billion deficit with Mexico. Clearly, the rules of international trade have failed the American worker, the American standard of living and the American dream, and have made American jobs our number one export. CAFTA will further this trend by rewarding companies that throw U.S. workers out on the streets, and by creating jobs in countries where labor is cheapest, environmental laws are weakest, and where the rights of workers are violated and scorned.

Even so, CAFTA is not likely to provide any real increase in U.S. jobs or production. The six CAFTA countries together currently account for barely one percent of U.S. trade. In addition, about 80 percent of the people in CAFTA countries live at or below the poverty line—which is about two to three dollars a day—or $400 to $900 a year, depending on which country we're looking at. Almost half the population works in subsistence agriculture. The only significant export industries in these countries—with the exception of Costa Rica—are apparel and agriculture.

This is the reality of life in Central America, and it should be a sobering reminder to all of us: The overwhelming majority of people in the CAFTA–DR region are not consumers of high-value American goods—but they are extremely vulnerable to the kind of dislocation caused by such trade openings.

Mr. Speaker, we should not visit the mistakes of NAFTA upon the people of Central America. To take just one example, wages for Mexican workers are even lower today than they were before NAFTA.

And while U.S. agricultural exports to Mexico greatly increased, millions of poor Mexican farmers lost what little income they had, often even losing their small plots of land. In order to survive, they now farm even more marginal land, cut down forests, or use chemical inputs that pollute the water and poison the soil. Is this what we have in mind for Central America's campesino farmers? It is if we adopt this CAFTA agreement.

Mr. Speaker, a critical issue in strengthening democracy is to protect and expand human rights. Workers' rights are human rights. They are not a luxury. As every wealthy nation can attest, they are central to improving living standards and quality of life, and creating a broad middle class.

While there are a number of labor provisions in the CAFTA agreement, they are enforceable under only one trigger: Namely, if a country fails to enforce its own labor laws. CAFTA countries' labor laws, Mr. Speaker, are internationally recognized as weak.

Whether you are looking at reports by Human Rights Watch, Amnesty International, the International Labor Organization, the United Nations, or our own State Department Country Reports—Central American labor laws are criticized for failing to meet international standards of freedom of association, the right to organize, and the right to bargain collectively. This doesn't even begin to touch upon the lack of health and safety guarantees in the workplace.

Also universally acknowledged is that even these weak laws are not enforced. Ineffective judicial systems, coupled with the power exercised by political and economic elites, derail nearly every attempt to enforce current labor laws.

We had an opportunity under CAFTA to negotiate provisions that would have promoted the enactment of stronger labor laws and dispute mechanisms in the CAFTA region. But under the agreement before us today, that opportunity has been squandered.

Mr. Speaker, I am very familiar with the CAFTA region. I have traveled widely throughout Central America, especially in El Salvador, Guatemala and Nicaragua. I have formed deep attachments to the people of this region, and I appreciate how far these countries have come since the wars there ended. I want to see their democracies thrive; I want to see their lives and livelihoods improve; and I think a good trade agreement could make a valuable contribution to these efforts.

But this CAFTA is not such an agreement.

All the issues of concern that will be raised during today's debate are not new. They have been cited and documented for the past 3 years in anticipation of the initiation of talks between the U.S. and the Central American governments, during the negotiations, and after CAFTA was signed.

The central design for fast-track, up-or-down voting procedures on trade agreements was to place a premium on consultation and accommodation during the conception and negotiations of trade agreements—in effect, to pursue a bipartisan trade policy. But the DR–CAFTA negotiations turned its back on this process. Not just Democrats—but anyone and everyone who tried to raise issues about labor rights, or environmental protection, or transparency and participation, or the need for access by the poor to critical life-saving drugs, or the vulnerability of critical agricultural or manufacturing industries, or the need to account for the vulnerability of the rural poor—were completely and totally shut down and shut out.

This is why this trade agreement in particular has been so universally criticized throughout Central American and the United States by religious leaders and communities, labor organizations, campesino groups, environmental and women's organizations, legal advocates, small farmers, and consumer groups.

When the U.S. Trade Representative announces there is absolutely no way for CAFTA to be renegotiated, I can only ask, "Why not?" If the fast track, one-vote-is-all-you-get process results in the defeat of this CAFTA agreement, then wouldn't the House clearly be calling for a renegotiation of the agreement? Saying—Pay attention to our concerns and go back to the table? It took the Bush administration barely 1 year to negotiate this CAFTA—why not take some time to get it right?

Mr. Speaker, this agreement fails to learn from the mistakes of NAFTA. It fails poor workers and poor farmers throughout the CAFTA region, who make up the majority of the people. And most importantly, it fails our own workers, consumers and communities.

Vote it down, Mr. Speaker. Vote it down.

Mr. McGOVERN. Mr. Speaker, I reserve the balance of my time.

Mr. DREIER. Mr. Speaker, I yield myself such time as I may consume.

Let me just say that one of our colleagues on the Committee on Rules, the gentleman from Utah (Mr. BISHOP), said we should make it retroactive, the 2 hours of debate. We clearly have been debating this issue for weeks and months. Special Orders have been taken out here, and we are looking forward to a rigorous debate not only during the hour on this rule, but for an additional 2 hours, or 3 hours this evening at this point.

Mr. Speaker, I yield 2 minutes to the gentleman from Miami, Florida (Mr. LINCOLN DIAZ-BALART), my very distinguished friend, the vice chairman of the Committee on Rules, and a great champion for political pluralism and democratic institutions in this region.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, every once in a while, a vote comes before us that is evidently more than important, and this is one such vote. This is an historic vote that we are taking today on a special relationship with the countries of Central America and the Dominican Republic. Those countries, their Presidents, their Parliaments, have taken a definitive step; they have resisted the totalitarian temptations, the destabilization efforts of the axis of Ortega and Chavez with his hundreds of millions of dollars that he is pouring into these countries and the entire region to destabilize them. They have resisted that access, and they have voted for a special relationship with the United States.

Talk about pressure, I say to my colleagues, Mr. Speaker, the pressures that are genuine, that are extraordinary, are the ones that are felt by those countries, the countries of Central America and the Dominican Republic, to accept, to go forth with a totalitarian temptation, and they have rejected that.

They have provided troops to help us in the war against terrorism in Iraq. What would we be saying, Mr. Speaker, if we voted against CAFTA today? "Thank you. Thank you for your help in Iraq. Thank you for progressing with democratic reforms, for establishing democracy. Thank you, but no thanks. We do not want you to tie your histories, your destinies, your futures to the United States, which is what you have decided to do."

We have an obligation, Mr. Speaker, to say, yes, we are proud of our special relationship with our brother countries of this hemisphere. We recognize that you are our allies, you are our friends. You have stood with us in peace, you have stood with us in war, you have decided to tie your futures to us, and we say, welcome.

That is what this vote is all about, Mr. Speaker. It is a critically important historic vote. Say "yes" to the rule and say "yes" to this agreement. Say "yes" to CAFTA.

Mr. McGOVERN. Mr. Speaker, at this time I yield 5 minutes to the distinguished gentlewoman from New York (Ms. SLAUGHTER), the ranking Democrat on the Committee on Rules and someone who believes that we should have a deliberative process here in the House.

Ms. SLAUGHTER. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I am deeply concerned that as this discussion on CAFTA moves forward that the majority will, once again, succumb to the temptation to twist, bend, and break off the rules of debate and consideration in order to meet their objectives, just as they did during the Medicare debate of the 108th Congress.

During that debate the vote on final passage was held open for a shameful 3 hours while the Republican leadership twisted arms and cut deals to make up their vote deficit. The events of that night constituted one of the worst abuses of power I have witnessed in my almost 20 years in this House.

In the aftermath, allegations of bribery were leveled by a Republican Congressman, and an Ethics Committee investigation followed closely behind, one that ended in the admonishment of the majority leader of this House.

It is no secret that, just like last time, the Republican leadership is desperately scrambling to find the votes necessary to pass this bill, which I and many of my colleagues strongly oppose. But I would warn my friends in the majority that we dare not see a return to those underhanded tactics used by the leadership during the 108th Congress. There should be no votes held open for 3 hours. There should be no unethical arm-twisting on this House floor. The American people are watching this time.

Sadly, though, we are already seeing evidence that this pattern of abuse will once again carry the day. Last night in the Committee on Rules, we were given a paltry 1 hour's notice by the Republicans that we would be considering the most controversial trade agreement this body has contemplated since NAFTA. And of the three contentious bills that we considered in the Committee on Rules, not a single amendment was allowed, nor even a single substitute. It was a shut-out of democracy. And coming from a country trying to export democracy to the rest of the world, it showed us on our side of the Committee on Rules that we do not have it right yet.

Even though the House rules clearly state that 20 hours of debate is appropriate for a trade agreement, we offered to accept only 8 hours as a compromise, but that was too much democracy for this leadership. For the most contested trade agreement this body has considered in 12 years, we will have a whopping 2 hours of debate, less time than it would take you to watch "Saving Private Ryan" on a DVD.

We were actually given more time to debate the renaming of five post offices Monday. Most high school debate teams spend more time considering the serious issues that face our country than we do here in the House.

But CAFTA clearly warrants our full and undivided attention. This is a major piece of legislation that will affect the lives of every American. CAFTA threatens to export even more American jobs and encourages American companies to relocate their factories in other countries. It does not provide adequate protection for workers, it turns back the clock on labor standards, and it does not provide any safeguards for improving environmental standards.

We need trade agreements that expand our access to the new markets and raise the standard of living for American families. This legislation falls far short on each of those standards.

As the arbiters of the rules of this hallowed institution, the Committee on Rules has a special responsibility to ensure that the integrity of the democratic process is preserved. That is why last night I asked the Republicans on the Committee on Rules for their assurance that we will not again see the egregious abuses of power and the trampling of the democratic process that we experienced in the last Congress on the Medicare debate, because we should be having 8 hours of debate and a 15-minute vote, not the other way around. Their reply was that "rules would be followed," but they must not have meant the Rules of the House of Representatives when they made that promise, because what actually followed was a shut-down of any consideration of amendments to the medical malpractice bill, the prevention of any up-or-down votes on amendments to the China Trade Act, and the restriction of debate in consideration of CAFTA.

For the sake of the millions of American families depending on this Congress to spend the time and get it right on legislation, and especially on CAFTA, I hope that this time the debate lasts longer than the vote.

□ 1845

Mr. DREIER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me just say that this rule is in compliance with the 1974 Trade Act, which calls for an up-or-down vote on these agreements.

And I also believe that it is very important to note, as my colleague has just pointed out, that for more than a decade, on every single trade agreement that has come before this House, we have had 2 hours of general debate.

Mr. Speaker, I yield 3 minutes to the gentleman from Washington (Mr. HASTINGS).

Mr. HASTINGS of Washington. Mr. Speaker, I thank the gentleman for yielding me the time. I want to congratulate him on the work that he has done on free trade issues in this Congress.

Mr. Speaker, I rise in support of this rule and the underlying bill, to implement the Dominican Republic-Central America-United States Free Trade Agreement. This agreement is especially important for my State of Washington, which is one of the most trade-dependent States in the Nation.

Mr. Speaker, we live in a global economy. And while 80 percent of Central American and Dominican Republic products enter the United States duty free, American exports face tariffs of 33 to 100 percent or higher in these countries; this is simply not a level playing field.

By approving CAFTA–DR, tariffs on American exports will be drastically reduced or eliminated. In fact, under CAFTA–DR, 80 percent of U.S. exports will become duty free immediately and the remaining tariffs will be phased out over 10 years.

Mr. Speaker, more than half of current U.S. farm exports to Central America and the Dominican Republic will gain immediately duty-free access, including beef, wheat, wine, fruits, and vegetables.

In particular, the agreement includes a provision I worked for that would grant central Washington's apple, pear, and cherry growers immediate duty-free access to Central American and to Dominican Republic markets. These tariffs currently range from 14 to 25 percent. And our fruit growers' major competitor in the region, Chile, which has already signed a trade treatment with CAFTA countries, is not subject to similar duties. This does level the playing field.

Mr. Speaker, this agreement will help potato growers in central Washington fairly compete with Canadian potato exporters who are subject to lower tariffs because of favorable trade agreements reached by Canada and Costa Rica. According to the Washington State Potato Commission, central Washington and U.S. potato exports to Costa Rica have declined by 81 percent as a result of the Canada-Costa Rica agreement, and U.S. producers will continue to lose market share unless CAFTA–DR is approved.

Many associations in my State have voiced support for CAFTA–DR, including the Washington State Farm Bureau, the Northwest Horticultural Council, the Washington State Hispanic Chamber of Commerce, the Washington Apple Commission, the Washington State Potato Commission, to name only a few.

Mr. Speaker, CAFTA–DR will help level the playing field for our farmers and tree fruit growers and is a crucial step forward for agriculture and many other industries that create jobs and play important roles in the long-term growth of our economy.

The Senate has approved this agreement by a vote of 54 to 45. It is now time for the House to do the same to ensure that this measure and the benefits that it will provide will become law.

Mr. Speaker, I urge my colleagues to support the rule and the underlying bill.

Mr. McGOVERN. Mr. Speaker, I yield 3 minutes to the gentleman from Florida (Mr. HASTINGS) who believes that if 8 hours of debate was good enough for NAFTA, it should be good enough for CAFTA.

Mr. HASTINGS of Florida. I thank the gentleman for yielding me the time. Mr. Speaker, I thank him also for his articulate leadership on this issue and the others which affect working people throughout this country.

Let my say at the outset, I opposed this closed rule and the limited amount of time to debate the underlying legislation. Like the owner of the restaurant in Casablanca who feigned surprise at the illegal gambling in his club, let me just say that I am shocked, shocked that the majority would bring a bill of such importance to the House floor and only permit 2 hours of debate to be split by the 440 Members of the House of Representatives.

This is not about trade. Trade is a two-way economic street. And the simple fact of the matter is, no one can demonstrate to me what Guatemala and Nicaragua are going to be buying from Florida and elsewhere in the United States. It is a one-way agreement.

Look, NAFTA was bad for your district like it was for the State of Florida. This deal is going to make things worse. If CAFTA is like NAFTA, too many Americans will get the shafta. Ten years of NAFTA have shown just how devastating these agreements can be for working families and the environment.

Florida has lost more than 35,000 jobs because of NAFTA. Industries that once were thriving and successful in the State of Florida and elsewhere in this Nation employing tens of thousands of hard-working Americans have been shipped south of the border where labor is cheap and environmental protections are but a figment of our imagination

Mr. Speaker, I voted for NAFTA and the administration was unable to uphold the things that they said they were going to do with reference to the environment and labor standards. And I doubt very seriously if this administration can do any better than the previous one. My distinguished friend, and he is my good friend, the gentleman from California (Mr. DREIER), began his remarks this evening by saying national security and border security.

I invite the chairman to tell me how it is our border security is better on Mexico because of NAFTA, or that our national security is better. In western Palm Beach County, a region which I am proud to represent, and is our country's second most sugar cane-intensive area, unemployment is already above 15 percent.

Under CAFTA, the future of this industry, which provides more than 20,000 jobs to this area alone, will undoubtedly be in jeopardy.

Considering who wins and who loses with CAFTA, it is clear that only the most selfish of fat cats would favor this terrible agreement. I challenge any of my colleagues to raise a family on a minimum wage in America, and indeed to find a job in America when CAFTA has sucked yet more of our factories and other businesses out of our country.

But a bigger challenge would be to survive as a campesino in any Central American nation, where wages are even lower, where environmental controls are weak or non-existent, where there is little or no access to health care, and where openly complaining about working conditions could mean death or disappearance. This is what the majority claims they want to approve today. We should be ashamed of ourselves.

Mr. Speaker, I urge a "no" vote.

Mr. DREIER. Mr. Speaker, I yield 2 minutes to the gentleman from Florida (Mr. SHAW).

Mr. SHAW. Mr. Speaker, I have heard for so long we keep talking about

NAFTA as if it was somewhat of a disaster. But I think there are some statistics that have to be really examined when we are talking about NAFTA.

Sure, there have been some jobs lost in this country because of NAFTA. There have also been some jobs created. In fact, there are many more jobs created since NAFTA than there are jobs that went overseas.

Since NAFTA was formed in 1994, U.S. exports of manufacturing goods to Canada and Mexico have grown 55 percent faster than shipments to the rest of the world. And when you look down and see what has happened in Chile, actually our exports have vastly outpaced our imports from Chile.

Now, let U.S. talk about what we are trying to do here. We are just trying to have fair trade. Right now, the Central American countries have a preference where their goods come into this country without paying any meaningful tariffs, and there are very few areas where they are restricted.

We simply now say give U.S. that privilege in Central America, and Central America says, yes, we will do that, because they know that that is good for their future.

And we have another thing to do think about. What about the security interests there? I was here and the gentleman from California (Mr. DREIER) when we first came in 1981 during the Reagan administration. We had huge security problems in Central America. Communism was on the rise; Castro was having all kinds of influence in that part of the world.

Since then, wonderful things have happened. These communist countries have collapsed. They have embraced democracy. They have embraced capitalism. And they are looking where? They are looking north to the United States. There is where they find their future. There is where their future is. Let us not cut them short.

This is a good, good bill. It is well balanced. It is good for American business. It is good for American farmers. It is good for American laborers. Let us get together and pass this bill.

Mr. McGOVERN. Mr. Speaker, I yield 5 minutes to gentlewoman from California (Ms. MATSUI).

Ms. MATSUI. Mr. Speaker, I thank the gentleman from Massachusetts for yielding me this time.

Mr. Speaker, I rise in opposition to the rule and the underlying measure to implement CAFTA. As we debate CAFTA, I can only express my disappointment from the restrictive rule limiting debate to the failure of the administration to use the full force and weight of the United States in negotiating all aspects of this agreement.

Because CAFTA has sparked much debate, the House needs robust discussion of this legislation. And during the Rules Committee hearing on CAFTA, I offered an amendment to allow 8 hours of debate, the same as for NAFTA.

But the Republicans on the committee voted down the amendment. And we have a mere 2 hours to debate an agreement, which in its entirety is over 3,600 pages, the implications of which may well determine the future direction of U.S. trade policy.

As a world leader, the United States has a crucial role to play on trade. We cannot step back from the global community. However, free trade must be tempered with meaningful policy which acknowledges that each trade agreement produces winners and losers, and it is our responsibility to do right by those displaced in the process.

CAFTA falls far short in this regard and is thus fatally flawed. Those flaws are apparent throughout CAFTA's chapters and are most egregious on labor and environmental protections, for CAFTA offers only tokens and symbols.

In contrast are the intellectual property provisions where it is obvious the United States Trade Representative used the full weight of the United States to ensure protection for business interests.

This administration's handling of workers' protections relative to other issues raises troubling questions about their agenda for these negotiations. The only enforceable worker protections in CAFTA state that participating countries must enforce their own laws. It does not set any standards those laws must meet.

Yet CAFTA countries already have a history of failing to provide even minimal worker protections.

There is nothing within CAFTA to prohibit these countries from weakening their labor laws. If a CAFTA country wants to pass a law that encourages child labor, CAFTA merely requires that country to enforce its own law. These enforcement provisions are a step back from the previous accord governing trade with Central America established in 1984.

This is different than labor management debates here in the United States. This is about basic human decency and fairness. There is a reason for the bipartisan opposition to CAFTA. It cannot pass this Chamber on its merits.

I am sure no one will be surprised if this vote is held open until enough Members relent, as we have seen before. But this flawed agreement should be returned to the President to be renegotiated.

Trade is a powerful phenomenon that is capable or raising living standards, encouraging innovation, and building lasting ties between nations. And as we work to conclude the Doha Round, global trade is at a critical point.

America must promote trade policies that acknowledge the fundamental rights of workers and reassert our belief that the benefits of trade should flow throughout the population. If the House passes CAFTA, we will be abdicating this duty.

The future direction of trade will be shaped by our actions today, as the implication of the vote will resonate far beyond Latin America. While trade agreements encourage the flow of goods and services, they also embody important values and principles.

What message does it send if we start passing trade agreements that concentrate benefits in the hands of special interests and the privileged few at the expense of workers in the United States and in some of the poorest countries in the world?

I have heard some of my colleagues on the other side of the aisle hesitantly talk about this agreement saying trade is usually a good thing, so I guess I will vote for CAFTA.

I say to you, that, yes, free trade agreements are a good thing, but only when based on solid principles that reflect the concern for all parties involved. CAFTA fails to meet the standard.

I urge my colleagues to reject this inferior agreement. If we do not get CAFTA right, we risk undercutting support for all future trade agreements.

☐ 1900

Mr. DREIER. Mr. Speaker, I would say to my colleague that free trade is a good thing. The labor rights that are recognized here in the opening up of markets for U.S. workers into Central America is very important.

Mr. Speaker, I yield 2 minutes to the gentleman from Indianapolis, Indiana (Mr. BURTON), my very good friend, the distinguished chairman of the Subcommittee on the Western Hemisphere, who has been a champion for freedom and democracy in Central America for years.

Mr. BURTON of Indiana. Mr. Speaker, I thank my colleague for that very eloquent introduction. I am not sure I deserve it, but I appreciate it.

Let me say to my colleagues who are undecided and my colleagues on the Democrat side of the aisle, I voted against NAFTA, I voted against GATT, I voted against the World Trade Organization. So why am I for CAFTA? And I want to tell you why, because I think it is extremely important. There are three reasons.

First of all, right now as the gentleman from Florida (Mr. SHAW) said a minute ago, the trade balance is in favor of the countries in the Caribbean and the Central American nations because they have duty free into our country, and we have to pay a duty to sell products in their country. CAFTA will change that. It will balance it out so there will be free trade in both directions. That will encourage more trade in both directions.

Second, this is a national security issue, and the President of the United

States talked about this today, and we need to talk about it right now on this floor.

The gentleman from Florida (Mr. SHAW) talked about what went on in the early 1980s when we had wars in Nicaragua and El Salvador, and people's bodies were laying all over the place because of this insurrection and these civil wars down there. If we do not do something to stabilize those countries in Central and South America, we will see wars not only in Nicaragua and El Salvador and possibly other Central American countries, we will see them in South America. We have got governments down there that are trying to export revolution right now by undermining some of the fledgling democracies in Central and South America.

CAFTA is one of the mechanisms that we could use to stabilize those fledgling democracy by creating more jobs and helping fight poverty in those countries. It is extremely important from a national security standpoint. That is one of my biggest concerns. If there is destabilization in those Central and South American countries, you can rest assured that there will be massive flight from those countries when wars break out, and they will be coming north. We have an immigration problem right now that we must solve, and we have talked about this time and again. But the problem is going to be exacerbated and made a lot worse if we let those countries, those fledgling democracies, starting to be destabilized by revolutionaries. There are governments down there right now that are using their resources to undermine some of these democracies, and we need to do everything we can to countermand that.

This is a very important piece of legislation. It is very important. I hope my colleagues will see that and vote for it.

Mr. McGOVERN. Mr. Speaker, I yield 2 minutes to the gentleman from Massachusetts (Mr. NEAL), who believes that it is shameful that the majority has stifled debate on this important trade agreement.

Mr. NEAL of Massachusetts. Mr. Speaker, I want to make a quick note of this. Is the previous speaker arguing that NAFTA derailed illegal immigration to the United States or slowed it down?

Mr. Speaker, let me stand in opposition to the Central American Free Trade Agreement. Let me say at the outset that I do not reflexively oppose international trade. The previous speaker noted the trade agreements he has voted against. Let me talk about the trade agreements I have voted for, all of them from this administration: Australia, Singapore, Chile, Morocco; and in the past, China, GATT and WTO.

I know that done the right way with carefully balanced provisions, these agreements can expand the U.S. economy and create jobs. Trade can really be good for American workers and American businesses. Indeed, I believe we could have struck an acceptable agreement with Central America. I have no choice but to oppose this agreement because it failed to reach a crucial balance. In truth, it did not even come close.

CAFTA would exacerbate the crisis in our country's trade deficit, and it is completely unfair to U.S. workers and companies. We have already got trade deficits with every one of the CAFTA countries, and this agreement will only make that situation worse. What is more, it is the first time that the United States has negotiated a trade agreement with developing countries that have weak labor laws and histories of violent suppression of worker rights.

CAFTA should have stipulated that our trading partners adhere to basic internationally recognized labor standards like prohibitions on child labor, prison labor, and guaranteeing workers the right to organize. Instead, it only requires that those countries enforce whatever laws they happen to have on their books. Those laws are wholly inadequate, and they will only get worse because CAFTA will set off a race to the bottom. We are already seeing it. Some of the CAFTA countries have already taken steps to water down their labor laws so that they are the cheapest destination for foreign investment.

This CAFTA agreement passed up an opportunity to conduct trade the right way. It passed up an opportunity to expand the U.S. economy and create jobs. It passed up an opportunity to help our neighbors to the south develop safe and decent workplaces. It passed up an opportunity to reduce our country's trade deficit. It passed up an opportunity to do the right thing by U.S. workers and firms.

I intend to oppose this misguided agreement, and I urge the rest of the Members of this institution to do the same.

Mr. DREIER. Mr. Speaker, I yield 2½ minutes to the very distinguished gentleman from Birmingham, Alabama (Mr. BACHUS).

Mr. BACHUS. Mr. Speaker, I rise in support of the rule. Let me say that there have been several newspaper articles lately dealing with these side agreements that we had under NAFTA and China, NTPR, and the two fast tracks. And, in fact, here is one in a newspaper yesterday after the side agreement that we made on textiles. It said, The nonprofit Public Citizen reviewed past trade votes and found that 89 percent of the side deals affecting trade policy were broken. Never enacted. And, in fact, I got that information, and it is about a 40-page attachment with all the broken side agreements. Very sobering to read. Promises made in the midst of negotiations, then promises broken.

But let me just say this, and I want to be positive here. These are the trade agreements, these are the side agreements that President Bush made, and although there have been almost 89 broken agreements, President Clinton, of all the ones he has made, 3 of the over 80 have been by President Bush. The vast majority of the side agreements that President Bush has made he has kept, and they are on the books today.

So is there a difference between this and past agreements? I think the difference is that we have a President who has honored his side agreements in the past 3 or 4 years and will honor them again. That is his track record. He has made side agreements, and the vast majority of those he has abided by.

As we talk about these side agreements, and I will just say that here it says, "Democrats opposing CAFTA have warned colleagues about last-minute promises in exchange for votes. 'Side letters and so-called side agreements promised are not worth the paper they are written on,' said Sherrod Brown, Democrat of Ohio, Jan Schakowsky, Democrat of Illinois."

There is a lot of truth to that. There is a record of broken side agreements, but not by President Bush. The Business Week says, "Signed, sealed and undelivered. The history of broken side agreements." That was in the paper about CAFTA.

Again, I will say to you, this President has honored his agreements.

Mr. McGOVERN. Mr. Speaker, let me just say, if it is not in the agreement, it is not in the agreement.

Mr. Speaker, I yield 2 minutes to the distinguished gentleman from New Jersey (Mr. MENENDEZ), who believes that the debate on CAFTA should be longer than the vote on CAFTA.

Mr. MENENDEZ. Mr. Speaker, the Republican leadership has submitted a rule for CAFTA that makes a mockery of our Democratic process. The restrictive rule is part and parcel of a Republican leadership strategy to win passage of CAFTA at any cost, whatever the price to the taxpayer, whatever the damage to the fabric of our democracy. The Republican leadership has shown that when it comes to CAFTA, they will cross any line and stifle any voice.

CAFTA will hurt workers here at home and devastate the lives of the rural poor in Central America, a region where the inequality of income is the leading economic and political challenge. It will widen the gap between the haves and have-nots, weaken labor and environmental standards, and set a dangerous precedent for future trade agreements.

Carnegie Endowment points out that under NAFTA, the rural population in Mexico suffered the greatest consequences, losing 1.3 million agricultural jobs. Repeating that outcome in

Central America will leave only more of the poorest in the region to migrate north, further exacerbating the challenges we face in securing our border.

It is appalling and inexcusable how President Bush has sold the CAFTA deal with one hand while busily cutting aid that helps the poor throughout Central America with the other. Not only is this agreement bad for Central America, it also undermines labor policy and workers around the world. Under this agreement, countries get paid for the abuses suffered by workers because the fines paid for violations go to the countries in which it was committed. Some justice.

Tonight will be a defining moment for this Congress. The American people are watching this debate, and they will not stand for waking up tomorrow to read that in the darkness of the night, the leadership of this House has passed yet another bill by holding a vote open for hours while the purveyors of threats and intimidation perform their work under the cover of darkness.

This ill-conceived measure is a bad deal for workers, a bad deal for America, and a bad vote.

Mr. DREIER. Mr. Speaker, as I listen to people malign the procedure we are going under, let me just say the procedure is the procedure that is prescribed by the 1974 Trade Act, which says, "No amendment to an implementing bill or approval resolution shall be in order in either the House of Representatives or the Senate."

Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. HENSARLING), a the dear friend, a hard-working Member committed to free trade.

Mr. HENSARLING. Mr. Speaker, I rise tonight in support of the rule for CAFTA. For over 200 years America has been benefited from trade. It means American families can buy more, using less of their paycheck. Trade means more competition. Competition is the consumer's best friend, and it does not matter whether that competition comes from Houston or Honduras or El Paso or El Salvador.

Now, CAFTA is a very simple trade agreement regardless of what you hear tonight. It allows our consumers to buy a few more items from Central America, and it allows our producers to sell a whole lot more to those same countries. It creates jobs. It will help ease our trade deficit. It is more than fair trade for us.

Now, you hear some people opposing CAFTA, claiming that somehow this is actually going to hurt jobs. Yet 80 percent of Central America are already entering our country duty free. What will help us is our ability to export to those countries duty free.

Now, some are talking about labor and environmental standards; but, Mr. Speaker, by helping further impoverish Latin America, we are somehow going to help improve their labor standards? We are somehow going to help improve their environmental standards? I think not.

There is no rational economic reason, Mr. Speaker, to oppose CAFTA. Increasingly this debate against CAFTA is boiling down to raw protectionism and bitter partisanship. It is amazing how many people love competition and the products they buy, but they seem to hate competition in the products they sell. That just cheats American consumers.

And then there are those who just reflexively oppose anything that President Bush favors, anything, regardless of its merits. Mr. Speaker, we ought to all read the headlines. Everybody knows about the threats and arm-twisting taking place on the Democrat side of the aisle. It is time to put aside protectionism, put aside the bitter partisanship. It is time to vote for personal economic freedom. Vote for more American exports, and vote for the rule for the Central American Free Trade Agreement.

Mr. McGOVERN. Mr. Speaker, I would just like to point out that the little black book that the chairman of the Committee on Rules read from also said that the Rules of the House allows for up to 20 hours of debate on trade agreements.

Mr. Speaker, I yield 4 minutes to the gentleman from Maryland (Mr. CARDIN), who believes that a full and thorough debate is a good thing.

Mr. CARDIN. Mr. Speaker, let me thank my friend for yielding me time.

Mr. Speaker, I, along with many Democrats, have supported every trade agreement that has been presented. We do that because we believe trade has the potential to generate economic growth and raise the standard of living. The trick though is to make sure that we realize that potential.

During the last several decades we have really changed our focus in opening up markets for American manufacturers and producers. We have initially worked on removing tariff barriers. Now we are concerned about nontariff barriers. It does not mean we have done all we need to on tariff barriers, but the priority in our country has been to open up markets by removing nontariff barriers. That is why we spend a lot of time on intellectual property protection, on opening up opportunity for services, and, yes, Mr. Speaker, working on basic international labor standards.

I believe everybody in this body would agree with me that we do not want products coming into this country that violate child labor standards. Well, the same is true with other basic internationally recognized labor rights. We have made progress. The Caribbean Basin Initiative, the CBTPA, AGOA and GSP all have improved labor standards around the globe because we have raised the issue and raised the bar.

□ 1915

In the Central American countries today, we have the Caribbean Basin Initiative. It has worked. It gives trade preferences to the Central American countries provided that they recognize international labor standards. The failure to do so allows us to impose trade sanctions. The threat has made progress in raising international labor standards and workers' rights in the Central American countries.

Mr. Speaker, I do not expect the administration to perform miracles when they negotiate free trade agreements, but I do expect them to represent the priorities of our Nation. In the CAFTA agreement, they repeal the rights we currently have under CBI, under the Caribbean Basin Initiative. Therefore, CAFTA is left with a weaker standard than current law in regards to workers' rights.

All CAFTA provides is for a country to enforce their own laws, regardless of how they may be; and then the sanction for failure to enforce their own laws that we have under the dispute settlement resolution are weaker standards. We cannot impose trade sanctions. All we can do is impose a fine, and that fine goes back to their own country. We cannot even enforce these weak standards.

You have to draw a line somewhere, Mr. Speaker. We have the constitutional responsibility on trade. We have to make that judgment. This agreement fails in that regard.

I had hoped that we would be able to renegotiate so that we could have a strong bipartisan vote on CAFTA. After all, we did that with textiles, and we could have done that with workers' rights. But this administration chose not to do it. In a way, Mr. Speaker, it is more important for a CAFTA agreement than some of the other agreements that have passed, for Chile and Singapore, Morocco and Australia, because of the standard of living in the Central American countries. For people living in poverty, trade, if properly structured, holds out the promise of more meaningful economic opportunities and a better way of life. But trade without basic labor standards will not do that.

I think this agreement is not a good agreement for the Central American countries, and it is not a good agreement for the United States.

Mr. DREIER. Mr. Speaker, may I inquire of the Chair how much time remains on each side.

The SPEAKER pro tempore (Mr. BASS). The gentleman from California (Mr. DREIER) has 5½ minutes remaining, and the gentleman from Massachusetts (Mr. McGOVERN) has 6 minutes remaining.

Mr. DREIER. Mr. Speaker, I reserve the balance of my time.

Mr. McGOVERN. Mr. Speaker, I yield 1½ minutes to the gentleman from New

Jersey (Mr. PASCRELL), who believes that 2 hours of debate is an insult to American workers.

Mr. PASCRELL. Mr. Speaker. I rise in strong opposition to this rule. Think of the voiceless, the poor for once, and not play and pray at the alter of the multinational corporations.

I just talked to a group of folks that came back from Nicaragua, and that you have the nerve to stand before this House and talk about those six governments of purity is an insult to our intellect. Some of these politicians that run these countries are despised by the very people in their country. It is those leaders that made the deal, not the people of those countries. In every one of those countries, the majority of the people are against this deal.

Trade agreements are not just tariff levels and quotas; they are human beings. By passing this agreement, Congress is giving up more of its authority under article I, section VIII. We have done that under three Presidents in a row. Our CAFTA becomes a legally-bound treaty. It will supersede any legislation passed by this Congress.

And by the way, a slight detail: the CBO has told us that CAFTA will cost the American taxpayers $4.4 billion over the next 10 years. And since those in favor of CAFTA turn to this document, Mr. Speaker, this document shows that of the 14 agreements, the 14 agreements since Bush became the President of the United States, only three have been outrightly kept. He has as bad a record as President Clinton.

Mr. DREIER. Mr. Speaker, I yield myself 30 seconds to say that the democratically elected parliaments in El Salvador, Honduras, and Guatemala all have had votes on this issue. It was 49 to 30 in the democratically elected parliament of El Salvador; 126 to 12 in the democratically elected parliament of Guatemala; and 100 of 128 legislators in Honduras were supportive of the Central American Free Trade Agreement.

Mr. Speaker, I yield 2 minutes to the gentleman from Midland, Texas (Mr. CONAWAY), my very good friend and a hard-working new Member of Congress.

Mr. CONAWAY. Mr. Speaker, I appreciate the gentleman yielding me this time, and I rise tonight to support this rule and also the underlying document that we will vote on later on tonight.

We have heard it is important for national security issues, and it is. Strengthening these six democracies, fledgling though they may be, makes America a safer place to be.

We have heard that it is good for immigration control, and it is. Prosperity and jobs created in Central American countries will lessen the pressure of those folks trying to percolate up through Mexico and trying to get into America to get a job here.

We have heard it is good for trade, and it is. Our manufacturers and producers will no longer pay the tariffs and duties we are currently paying. Manufacturers like Kraft Macaroni & Cheese and breakfast cereals will now be able to be sold in these Central American countries with that trade.

It seems odd to me if I have a job, and a group comes to me and says we want to help you get a better job, we want you to earn more and we want the labor standards to be improved, but we want you to keep that job, well, that is the kind of idea I would like to have help with. But if I have another side that says I want to help you with labor standards and I want to help you have a better job, but in the meantime I want you to be unemployed, that does not make a lot of sense to me.

Mr. Speaker, I ask my colleagues to vote for this rule and the underlying bill.

Mr. McGOVERN. Mr. Speaker, I yield 3 minutes to the gentleman from Maryland (Mr. HOYER), the distinguished minority whip who recognizes that curtailing debate is an abuse of power.

Mr. HOYER. Mr. Speaker, I have been a strong advocate for free trade and open markets because I believe that the American businesses and workers can compete in a global market. The United States is the most powerful Nation in the world, and it is incumbent upon us to lead, to foster global trade, to engage our partners in a system based on rules and law and to work to raise the living standards of working men and women both at home and abroad.

However, the centrality of free trade in our interdependent world cannot relegate our commitment to working men and women to the peripheral. We must seek to provide a level playing field for American workers and improve living and working conditions for foreign workers by guaranteeing fair wages and basic workplace protections. I have consistently supported legislation and trade agreements that have furthered these goals.

I was hopeful the Bush administration would pursue these objectives in negotiating CAFTA and that we would ultimately be presented an agreement that advanced the cause of free trade, promoted the rule of law, and generated economic development in countries in great need, and extended to U.S. workers, farmers, and businesses the advantages of expanded access to new markets. Regrettably, the agreement before us does not meet these goals.

Specifically, CAFTA fails to ensure the implementation and enforcement of the five core internationally recognized labor rights. Compounding the problem is the failure to allow trade sanctions to enforce the deal's modest labor provisions. In other words, the enforcement structure is absent.

I am, therefore, regrettably unable to support the Central American Free Trade Agreement for its failure to guarantee basic workplace protections for Central Americans and a level playing field for American workers.

It is interesting, Mr. Speaker, that given the problems that we have with CAFTA, given the questions that have been raised, that the majority is unwilling to give sufficient debate to develop the arguments. This is a critically important issue. NAFTA was an important issue. It was 8 hours of debate. This is one-quarter of that.

We are unable to fully develop the deficiencies in this bill with the 1 hour of debate that the minority will be given. Perhaps that is the point. Perhaps that is the objective. Perhaps the meaning of this rule is to shut us up, shut us out, and shut us down. That is a shame, that my colleagues do not have the confidence in their proposition that they put on this floor to give it a full airing, a full debate in the light of day.

Why do these issues always come up in the late of night? I do not understand that. Oppose this rule. Oppose this bill. It is not good for America. It is not good for the countries that have signed it.

Mr. DREIER. Mr. Speaker, I reserve the balance of my time.

Mr. McGOVERN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, fast track up-or-down voting procedures place a premium on consultation and accommodation during the conception and negotiation of trade agreements. But the DR–CAFTA negotiations turned its back on this process. Everyone who raised concerns about labor rights, environmental standards, or the vulnerability of key agricultural and manufacturing sectors was shut out. That is why this agreement has been so universally criticized throughout Central America and the United States.

Mr. Speaker, I am very familiar with Central America. I have deep attachments to the people, and I appreciate how far these countries have come since the wars there ended. I want their democracies to thrive. I want their lives and livelihoods to improve. And I think a good trade agreement could make a valuable contribution to these efforts. But this CAFTA is not that agreement, and this rule deprives Members of their democratic rights to speak on the floor of the House on this controversial issue.

It is shameful how the Republican leadership of this House continues to use the Committee on Rules as a weapon to undermine the deliberative process. It is disrespectful to American workers that the Republican leadership is shortchanging this debate. It is a disgrace. But, sadly, that has become the norm around here. I urge all my colleagues to vote down this rule and vote down this CAFTA bill.

Mr. Speaker, I yield back the balance of my time.

Mr. DREIER. Mr. Speaker, I yield 1 minute to the gentleman from Morris, Illinois (Mr. WELLER), a hard-working member of the Committee on Ways and Means.

Mr. WELLER. Mr. Speaker, I thank the gentleman for yielding me this time, and I rise in support of the rule as well as in support of the Dominican Republic-Central American Free Trade Agreement.

Let me ask a very simple question. Next door to you is a neighbor, and you are charged by your neighbor to enter his back yard. But then when he comes over to visit your back yard, he can come in free. That is really what this trade agreement is all about.

Right now, 80 percent of all manufactured goods made in the Dominican Republic-Central America come in duty free into Illinois, into my State in the United States, and 99 percent of all farm products from the DR and Central America come into Illinois and the United States duty free.

Now, is there reciprocity under the current status quo? No. Illinois corn faces a 20 percent tariff, Illinois soybeans a 30 percent tariff, Illinois pork a 40 percent tariff. Under DR-CAFTA, those tariffs are either eliminated immediately or phased out very quickly.

We make yellow bulldozers. Caterpillar is the biggest manufacturer in the State of Illinois and the biggest employer in my district. Those yellow bulldozers made in Joliet face a 14 to 20 percent tariff under the status quo. Under DR-CAFTA it is eliminated immediately.

Vote “yes” for DR-CAFTA. It is good for Illinois workers and good for Illinois farmers.

Mr. DREIER. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, back on November 6 of 1979, Ronald Reagan announced his candidacy for President of the United States; and in that announcement, he envisaged a free trade accord of all the Americas, where we could have the free flow of goods and services and capital and ideas.

☐ 1930

This is a very important part of that vision which has not only been supported by Republicans, but President Clinton was a strong supporter of that notion, the free trade area of the Americas; back in 1993, by a 392–18 vote, passed the Caribbean Basin Initiative. Why, so rather than sending aid, we would open up the U.S. market to these struggling countries in the Caribbean.

We now have an opportunity to respond to the fact that we have provided unlimited access to our consumer market by these countries.

Mr. Speaker, it is true, the gentleman from Florida (Mr. SHAW) and I have been here for a quarter century, the gentleman from Indiana (Mr. BURTON) a little less than that. I have never witnessed greater politicization or a greater mischaracterization of a piece of legislation than I have this. For the last decade we have had 2 hours of debate on trade agreements that we have dealt with. Yes, the statute says up to 20 hours. The last time that happened was November 14, 1980. And once they started it, they pared it back.

We have been debating this issue for literally months. Special Orders and 1-minute speeches have taken place. It is time for us to vote. I believe we are going to have a great opportunity, a great opportunity, to enhance the standard of living for people in the United States and in this region. It is going to create an opportunity for us to better compete globally, and as we enhance the standard of living in Latin America, it will clearly help us with this very important problem that we have of border security and illegal immigration.

We have a win-win all of the way around. We have seen great benefits from trade. The much-maligned North American Free Trade Agreement has created a scenario whereby we have a third of a trillion dollars in trade between Mexico and the United States. Mexico's population now has a middle class that is larger than the entire Canadian population. Yes, there is poverty; yes, it needs to improve, but clearly the cause of freedom is an important one. The cause of stability in our region is a very, very important one.

I urge support of this rule. I urge support of the Dominican Republic-Central American Free Trade Agreement.

Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore (Mr. BASS). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. McGOVERN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 3304

Mr. GERLACH. Mr. Speaker, I ask unanimous consent to have my name removed as a cosponsor of H.R. 3304.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

SURFACE TRANSPORTATION EXTENSION ACT OF 2005, PART V

Mr. YOUNG of Alaska. Mr. Speaker, I ask unanimous consent that the Committee on Transportation and Infrastructure, the Committee on Ways and Means, the Committee on Science, and the Committee on Resources be discharged from further consideration of the bill (H.R. 3453) to provide an extension of highway, highway safety, motor carrier safety, transit, and other programs funded out of the Highway Trust Fund pending enactment of a law reauthorizing the Transportation Equity Act for the 21st Century, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alaska?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3453

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Surface Transportation Extension Act of 2005, Part V”

SEC. 2. ADVANCES.

(a) IN GENERAL.—Section 2(a)(1) of the Surface Transportation Extension Act of 2004, Part V (23 U.S.C. 104 note; 118 Stat. 1144; 119 Stat. 324; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking “and the Surface Transportation Extension Act of 2005, Part IV” and inserting “the Surface Transportation Extension Act of 2005, Part IV, and the Surface Transportation Extension Act of 2005, Part V”.

(b) PROGRAMMATIC DISTRIBUTIONS.—

(1) SPECIAL RULES FOR MINIMUM GUARANTEE.—Section 2(b)(4) of such Act (119 Stat. 324; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking “$2,301,370,400” and inserting “$2,324,000,000”.

(2) EXTENSION OF OFF-SYSTEM BRIDGE SET-ASIDE.—Section 144(g)(3) of title 23, United States Code, is amended by striking “July 27” and inserting “July 30”.

(c) AUTHORIZATION OF CONTRACT AUTHORITY.—Section 1101(l)(1) of the Transportation Equity Act for the 21st Century (118 Stat. 1145; 119 Stat. 324; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking “$27,968,968,718 for the period of October 1, 2004, through July 27, 2005” and inserting “$28,243,990,320 for the period of October 1, 2004, through July 30, 2005”.

(d) LIMITATION ON OBLIGATIONS.—Section 2(e) of the Surface Transportation Extension Act of 2004, Part V (118 Stat. 1146; 119 Stat. 324; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) in paragraph (1)—

(A) by striking “July 27” and inserting “July 30”;

(B) by striking “and the Surface Transportation Extension Act of 2005, Part IV” and inserting “the Surface Transportation Extension Act of 2005, Part IV, and the Surface Transportation Extension Act of 2005, Part V”; and

(C) by striking “82.2 percent” and inserting “83 percent”; and

(2) in paragraph (2)—

(A) by striking “July 27, 2005, shall not exceed $28,520,554,600” and inserting “July 30, 2005, shall not exceed $28,801,000,000”; and

(B) by striking “$525,205,602” and inserting “$530,370,000”; and

(3) in paragraph (3) by striking “July 27” and inserting “July 30”.

SEC. 3. ADMINISTRATIVE EXPENSES.

Section 4(a) of the Surface Transportation Extension Act of 2004, Part V (118 Stat. 1147; 119 Stat. 325; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$289,334,862" and inserting "$292,179,920".

SEC. 4. OTHER FEDERAL-AID HIGHWAY PROGRAMS.

(a) AUTHORIZATION OF APPROPRIATIONS UNDER TITLE I OF TEA-21.—

(1) FEDERAL LANDS HIGHWAYS.—

(A) INDIAN RESERVATION ROADS.—Section 1101(a)(8)(A) of the Transportation Equity Act for the 21st Century (112 Stat. 112; 118 Stat. 1147; 119 Stat. 325; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(i) in the first sentence by striking "$226,027,450 for the period of October 1, 2004, through July 27, 2005" and inserting "$228,250,000 for the period of October 1, 2004, through July 30, 2005"; and

(ii) in the second sentence by striking "$10,684,934" and inserting "$10,790,000".

(B) PUBLIC LANDS HIGHWAYS.—Section 1101(a)(8)(B) of such Act (112 Stat. 112; 118 Stat. 1148; 119 Stat. 325; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$202,191,828 for the period of October 1, 2004, through July 27, 2005" and inserting "$204,180,000 for the period of October 1, 2004, through July 30, 2005".

(C) PARK ROADS AND PARKWAYS.—Section 1101(a)(8)(C) of such Act (112 Stat. 112; 118 Stat. 1148; 119 Stat. 325; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$135,616,470 for the period of October 1, 2004, through July 27, 2005" and inserting "$136,950,000 for the period of October 1, 2004, through July 30, 2005".

(D) REFUGE ROADS.—Section 1101(a)(8)(D) of such Act (112 Stat. 112; 118 Stat. 1148; 119 Stat. 326; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$16,438,360 for the period of October 1, 2004, through July 27, 2005" and inserting "$16,600,000 for the period of October 1, 2004, through July 30, 2005".

(2) NATIONAL CORRIDOR PLANNING AND DEVELOPMENT AND COORDINATED BORDER INFRASTRUCTURE PROGRAMS.—Section 1101(a)(9) of such Act (112 Stat. 112; 118 Stat. 1148; 119 Stat. 326; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$115,068,520 for the period of October 1, 2004, through July 27, 2005" and inserting "$116,200,000 for the period of October 1, 2004, through July 30, 2005".

(3) CONSTRUCTION OF FERRY BOATS AND FERRY TERMINAL FACILITIES.—

(A) IN GENERAL.—Section 1101(a)(10) of such Act (112 Stat. 113; 118 Stat. 1148; 119 Stat. 326; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$31,232,884 for the period of October 1, 2004, through July 27, 2005" and inserting "$31,540,000 for the period of October 1, 2004, through July 30, 2005".

(B) SET ASIDE FOR ALASKA, NEW JERSEY, AND WASHINGTON.—Section 5(a)(3)(B) of the Surface Transportation Extension Act of 2004, Part V (118 Stat. 1148; 119 Stat. 326; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(i) in clause (i) by striking "$8,219,180" and inserting "$8,300,000";

(ii) in clause (ii) by striking "$4,109,590" and inserting "$4,150,000"; and

(iii) in clause (iii) by striking "$4,109,590" and inserting "$4,150,000".

(4) NATIONAL SCENIC BYWAYS PROGRAM.—Section 1101(a)(11) of the Transportation Equity Act for the 21st Century (112 Stat. 113; 118 Stat. 1148; 119 Stat. 326; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$21,780,827 for the period of October 1, 2004, through July 27, 2005" and inserting "$21,995,000 for the period of October 1, 2004, through July 30, 2005".

(5) VALUE PRICING PILOT PROGRAM.—Section 1101(a)(12) of such Act (112 Stat. 113; 118 Stat. 1148; 119 Stat. 326; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$9,041,098 for the period of October 1, 2004, through July 27, 2005" and inserting "$9,130,000 for the period of October 1, 2004, through July 30, 2005".

(6) HIGHWAY USE TAX EVASION PROJECTS.—Section 1101(a)(14) of such Act (112 Stat. 113; 118 Stat. 1148; 119 Stat. 326; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$4,109,590 for the period of October 1, 2004, through July 27, 2005" and inserting "$4,150,000 for the period of October 1, 2004, through July 30, 2005".

(7) COMMONWEALTH OF PUERTO RICO HIGHWAY PROGRAM.—Section 1101(a)(15) of the Transportation Equity Act for the 21st Century (112 Stat. 113; 118 Stat. 1149; 119 Stat. 326; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$90,410,980 for the period of October 1, 2004, through July 27, 2005" and inserting "$91,300,000 for the period of October 1, 2004, through July 30, 2005".

(8) SAFETY GRANTS.—Section 1212(i)(1)(D) of such Act (23 U.S.C. 402 note; 112 Stat. 196; 112 Stat. 840; 118 Stat. 1149; 119 Stat. 326; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$410,959 for the period of October 1, 2004, through July 27, 2005" and inserting "$415,000 for the period of October 1, 2004, through July 30, 2005".

(9) TRANSPORTATION AND COMMUNITY AND SYSTEM PRESERVATION PILOT PROGRAM.—Section 1221(e)(1) of such Act (23 U.S.C. 101 note; 112 Stat. 223; 118 Stat. 1149; 119 Stat. 327; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$20,547,950 for the period of October 1, 2004, through July 27, 2005" and inserting "$20,750,000 for the period of October 1, 2004, through July 30, 2005".

(10) TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION.—Section 188 of title 23, United States Code, is amended—

(A) in subsection (a)(1) by striking subparagraph (G) and inserting the following:

"(G) $107,900,000 for the period of October 1, 2004, through July 30, 2005.";

(B) in subsection (a)(2) by striking "$1,643,836 for the period of October 1, 2004, through July 27, 2005" and inserting "$1,660,000 for the period of October 1, 2004, through July 30, 2005"; and

(C) in the item relating to fiscal year 2005 in table contained in subsection (c) by striking "$2,136,986,800" and inserting "$2,158,000,000".

(11) NATIONAL SCENIC BYWAYS CLEARINGHOUSE.—Section 1215(b)(3) of the Transportation Equity Act for the 21st Century (112 Stat. 210; 118 Stat. 1149; 119 Stat. 327; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(A) by striking "$1,232,877" and inserting "$1,245,000"; and

(B) by striking "July 27" and inserting "July 30".

(b) AUTHORIZATION OF APPROPRIATIONS UNDER TITLE V OF TEA-21.—

(1) SURFACE TRANSPORTATION RESEARCH.—Section 5001(a)(1) of the Transportation Equity Act for the 21st Century (112 Stat. 419; 118 Stat. 1149; 119 Stat. 327; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$84,657,554 for the period of October 1, 2004, through July 27, 2005" and inserting "$85,490,000 for the period of October 1, 2004, through July 30, 2005".

(2) TECHNOLOGY DEPLOYMENT PROGRAM.—Section 5001(a)(2) of such Act (112 Stat. 419; 118 Stat. 1149; 119 Stat. 327; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$41,095,900 for the period of October 1, 2004, through July 27, 2005" and inserting "$41,500,000 for the period of October 1, 2004, through July 30, 2005".

(3) TRAINING AND EDUCATION.—Section 5001(a)(3) of such Act (112 Stat. 420; 118 Stat. 1150; 119 Stat. 327; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$16,438,360 for the period of October 1, 2004, through July 27, 2005" and inserting "$16,600,000 for the period of October 1, 2004, through July 30, 2005".

(4) BUREAU OF TRANSPORTATION STATISTICS.—Section 5001(a)(4) of such Act (112 Stat. 420; 118 Stat. 1150; 119 Stat. 327; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$25,479,458 for the period of October 1, 2004, through July 27, 2005" and inserting "$25,730,000 for the period of October 1, 2004, through July 30, 2005".

(5) ITS STANDARDS, RESEARCH, OPERATIONAL TESTS, AND DEVELOPMENT.—Section 5001(a)(5) of such Act (112 Stat. 420; 118 Stat. 1150; 119 Stat. 327; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$90,410,980 for the period of October 1, 2004, through July 27, 2005" and inserting "$91,300,000 for the period of October 1, 2004, through July 30, 2005".

(6) ITS DEPLOYMENT.—Section 5001(a)(6) of such Act (112 Stat. 420; 118 Stat. 1150; 119 Stat. 327; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$100,273,996 for the period of October 1, 2004, through July 27, 2005" and inserting "$101,260,000 for the period of October 1, 2004, through July 30, 2005".

(7) UNIVERSITY TRANSPORTATION RESEARCH.—Section 5001(a)(7) of such Act (112 Stat. 420; 118 Stat. 1150; 119 Stat. 328; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$21,780,827 for the period of October 1, 2004, through July 27, 2005" and inserting "$21,995,000 for the period of October 1, 2004, through July 30, 2005".

(c) METROPOLITAN PLANNING.—Section 5(c)(1) of the Surface Transportation Extension Act of 2004, Part V (118 Stat. 1150; 119 Stat. 328; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$178,767,165 for the period of October 1, 2004, through July 27, 2005" and inserting "$180,525,000 for the period of October 1, 2004, through July 30, 2005".

(d) TERRITORIES.—Section 1101(d)(1) of the Transportation Equity Act for the 21st Century (112 Stat. 111; 118 Stat. 1150; 119 Stat. 328; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$29,917,815 for the period of October 1, 2004, through July 27, 2005" and inserting "$30,212,000 for the period of October 1, 2004, through July 30, 2005".

(e) ALASKA HIGHWAY.—Section 1101(e)(1) of such Act (118 Stat. 1150; 119 Stat. 328; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$15,452,058 for the period of October 1, 2004, through July 27, 2005" and inserting "$15,604,000 for the period of October 1, 2004, through July 30, 2005".

(f) OPERATION LIFESAVER.—Section 1101(f)(1) of such Act (118 Stat. 1151; 119 Stat. 328; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$410,959 for the period of October 1, 2004, through July 27, 2005" and inserting "$415,000 for the period of October 1, 2004, through July 30, 2005".

(g) BRIDGE DISCRETIONARY.—Section 1101(g)(1) of such Act (118 Stat. 1151; 119 Stat. 328; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) by striking "$82,191,800" and inserting "$83,000,000"; and

(2) by striking "July 27" and inserting "July 30".

(h) INTERSTATE MAINTENANCE.—Section 1101(h)(1) of such Act (118 Stat. 1151; 119 Stat.

328; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) by striking "$82,191,800" and inserting "$83,000,000"; and

(2) by striking "July 27" and inserting "July 30".

(i) Recreational Trails Administrative Costs.—Section 1101(i)(1) of such Act (118 Stat. 1151; 119 Stat. 328; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$616,439 for the period of October 1, 2004, through July 27, 2005" and inserting "$622,500 for the period of October 1, 2004, through July 30, 2005".

(j) Railway-Highway Crossing Hazard Elimination in High Speed Rail Corridors.—Section 1101(j)(1) of such Act (118 Stat. 1151; 119 Stat. 328; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) by striking "$4,315,069" and inserting "$4,357,500";

(2) by striking "$205,480" and inserting "$207,500"; and

(3) by striking "July 27" each place it appears and inserting "July 30".

(k) Nondiscrimination.—Section 1101(k) of such Act (118 Stat. 1151; 119 Stat. 328; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) in paragraph (1) by striking "$8,219,180 for the period of October 1, 2004, through July 27, 2005" and inserting "$8,300,000 for the period of October 1, 2004, through July 30, 2005"; and

(2) in paragraph (2) by striking "$8,219,180 for the period of October 1, 2004, through July 27, 2005" and inserting "$8,300,000 for the period of October 1, 2004, through July 30, 2005".

(l) Administration of Funds.—Section 5(l) of the Surface Transportation Extension Act of 2004, Part V (118 Stat. 1151; 119 Stat. 329; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) by striking "and section 4 of the Surface Transportation Extension Act of 2005, Part IV" and inserting "section 4 of the Surface Transportation Extension Act of 2005, Part IV, and section 4 of the Surface Transportation Extension Act of 2005, Part V"; and

(2) by striking "and section 4(a) of the Surface Transportation Extension Act of 2005, Part IV" and inserting "section 4(a) of the Surface Transportation Extension Act of 2005, Part IV, and section 4(a) of the Surface Transportation Extension Act of 2005, Part V".

(m) Reduction of Allocated Programs.—Section 5(m) of such Act (118 Stat. 1151; 119 Stat. 329; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) by striking "and section 4 of Surface Transportation Extension Act of 2005, Part IV" and inserting "section 4 of the Surface Transportation Extension Act of 2005, Part IV, and section 4 of the Surface Transportation Extension Act of 2005, Part V";

(2) by striking "and section 4 of the Surface Transportation Extension Act, Part IV" the first place it appears and inserting "section 4 of the Surface Transportation Extension Act of 2005, Part IV, and section 4 of the Surface Transportation Extension Act of 2005, Part V"; and

(3) by striking "and section 4 of the Surface Transportation Extension Act, Part IV" the second place it appears and inserting "section 4 of the Surface Transportation Extension Act of 2005, Part IV, and section 4 of the Surface Transportation Extension Act of 2005, Part V".

(n) Program Category Reconciliation.—Section 5(n) of such Act (118 Stat. 1151; 119 Stat. 329; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "and section 4 of the Surface Transportation Extension Act, Part IV" and inserting "section 4 of the Surface Transportation Extension Act of 2005, Part IV, and section 4 of the Surface Transportation Extension Act of 2005, Part V".

SEC. 5. EXTENSION OF HIGHWAY SAFETY PROGRAMS.

(a) Chapter 1 Highway Safety Programs.—

(1) Seat belt safety incentive grants.—Section 157(g)(1) of title 23, United States Code, is amended by striking "$92,054,794 for the period of October 1, 2004, through July 27, 2005" and inserting "$92,975,342 for the period of October 1, 2004, through July 30, 2005".

(2) Prevention of intoxicated driver incentive grants.—Section 163(e)(1) of such title is amended by striking "$90,410,958 for the period of October 1, 2004, through July 27, 2005" and inserting "$91,315,068 for the period of October 1, 2004, through July 30, 2005".

(b) Chapter 4 Highway Safety Programs.—Section 2009(a)(1) of the Transportation Equity Act for the 21st Century (112 Stat. 337; 118 Stat. 1152; 119 Stat. 329; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$135,616,438 for the period of October 1, 2004, through July 27, 2005" and inserting "$136,972,603 for the period of October 1, 2004, through July 30, 2005".

(c) Highway Safety Research and Development.—Section 2009(a)(2) of such Act (112 Stat. 337; 118 Stat. 1152; 119 Stat. 329; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$59,178,082 for the period of October 1, 2004, through July 27, 2005" and inserting "$59,769,863 for the period of October 1, 2004, through July 30, 2005".

(d) Occupant Protection Incentive Grants.—Section 2009(a)(3) of such Act (112 Stat. 337; 118 Stat. 1152; 119 Stat. 329; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$16,438,356 for the period of October 1, 2004, through July 27, 2005" and inserting "$16,602,704 for the period of October 1, 2004, through July 30, 2005".

(e) Alcohol-Impaired Driving Countermeasures Incentive Grants.—Section 2009(a)(4) of such Act (112 Stat. 337; 118 Stat. 1153; 119 Stat. 329; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$32,876,712 for the period of October 1, 2004, through July 27, 2005" and inserting "$33,205,479 for the period of October 1, 2004, through July 30, 2005".

(f) National Driver Register.—

(1) Funding.—Section 2009(a)(6) of such Act (112 Stat. 338; 118 Stat. 1153; 119 Stat. 330; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$2,958,904 for the period of October 1, 2004, through July 27, 2005" and inserting "$2,988,493 for the period of October 1, 2004, through July 30, 2005".

(2) Contract authority.—Funds made available by the amendments made by paragraph (1) and by section 5(f) of the Surface Transportation Extension Act of 2005 (119 Stat. 330; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code.

SEC. 6. FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION PROGRAM.

(a) Administrative Expenses.—Section 7(a)(1) of the Surface Transportation Extension Act of 2004, Part V (118 Stat. 1153; 119 Stat. 330; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "$211,682,467 for the period of October 1, 2004, through July 27, 2005" and inserting "$213,799,290 for the period of October 1, 2004, through July 30, 2005".

(b) Motor Carrier Safety Assistance Program.—Section 31104(a)(8) of title 49, United States Code, is amended to read as follows:

"(8) Not more than $140,293,151 for the period of October 1, 2004, through July 30, 2005.".

(c) Information Systems and Commercial Driver's License Grants.—

(1) Authorization of appropriation.—Section 31107(a)(6) of such title is amended to read as follows:

"(6) $16,602,740 for the period of October 1, 2004, through July 30, 2005.".

(2) Emergency CDL grants.—Section 7(c)(2) of the Surface Transportation Extension Act of 2004, Part V (118 Stat. 1153; 119 Stat. 330; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(A) by striking "July 27" and inserting "July 30"; and

(B) by striking "$821,918" and inserting "$830,137".

(d) Crash Causation Study.—Section 7(d) of such Act (118 Stat. 1154; 119 Stat. 330; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) by striking "$821,918" and inserting "$830,137"; and

(2) by striking "July 27" and inserting "July 30".

SEC. 7. EXTENSION OF FEDERAL TRANSIT PROGRAMS.

(a) Allocating Amounts.—Section 5309(m) of title 49, United States Code, is amended—

(1) in the matter preceding subparagraph (A) of paragraph (1) by striking "July 27, 2005" and inserting "July 30, 2005";

(2) in paragraph (2)(B)(iii)—

(A) in the heading by striking "JULY 27, 2005" and inserting "JULY 30, 2005";

(B) by striking "$8,547,000" and inserting "$8,550,000"; and

(C) by striking "July 27, 2005" and inserting "July 30, 2005";

(3) in paragraph (3)(B)—

(A) by striking "$2,465,754" and inserting "$2,470,000"; and

(B) by striking "July 27, 2005" and inserting "July 30, 2005"; and

(4) in paragraph (3)(C)—

(A) by striking "$41,095,900" and inserting "$41,506,850"; and

(B) by striking "July 27, 2005" and inserting "July 30, 2005".

(b) Formula Grants Authorizations.—Section 5338(a) of title 49, United States Code, is amended—

(1) in the heading to paragraph (2) by striking "JULY 27, 2005" and inserting "JULY 30, 2005";

(2) in paragraph (2)(A)(vii)—

(A) by striking "$2,795,000,000" and inserting "$2,796,817,658"; and

(B) by striking "July 27, 2005" and inserting "July 30, 2005";

(3) in paragraph (2)(B)(vii) by striking "July 27, 2005" and inserting "July 30, 2005"; and

(4) in paragraph (2)(C) by striking "July 27, 2005" and inserting "July 30, 2005".

(c) Formula Grant Funds.—Section 8(d) of the Surface Transportation Extension Act of 2004, Part V (118 Stat. 1155; 119 Stat. 331; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) in the heading by striking "July 27, 2005" and inserting "July 30, 2005";

(2) in the matter preceding paragraph (1) by striking "July 27, 2005" and inserting "July 30, 2005";

(3) in paragraph (1) by striking "$3,986,261" and inserting "$4,026,123";

(4) in paragraph (2) by striking "$41,095,900" and inserting "$41,506,850";

(5) in paragraph (3) by striking "$79,100,000" and inserting "$79,102,926";

(6) in paragraph (4) by striking "$210,000,000" and inserting "$212,000,000"; and

(7) in paragraph (5) by striking "$5,712,330" and inserting "$5,769,452".

(d) Capital Program Authorizations.—Section 5338(b)(2) of title 49, United States Code, is amended—

(1) in the heading by striking "JULY 27, 2005" and inserting "JULY 30, 2005";

(2) in subparagraph (A)(vii)—

(A) by striking "$2,309,000,366" and inserting "$2,336,442,169"; and

(B) by striking "July 27, 2005" and inserting "July 30, 2005"; and

(3) in subparagraph (B)(vii) by striking "July 27, 2005" and inserting "July 30, 2005".

(e) Planning Authorizations and Allocations.—Section 5338(c)(2) of title 49, United States Code, is amended—

(1) in the heading by striking "JULY 27, 2005" and inserting "JULY 30, 2005";

(2) in subparagraph (A)(vii)—

(A) by striking "$49,546,681" and inserting "$50,146,668"; and

(B) by striking "July 27, 2005" and inserting "July 30, 2005"; and

(3) in subparagraph (B)(vii) by striking "July 27, 2005" and inserting "July 30, 2005".

(f) Research Authorizations.—Section 5338(d)(2) of title 49, United States Code, is amended—

(1) in the heading by striking "JULY 27, 2005" and inserting "JULY 30, 2005";

(2) in subparagraph (A)(vii)—

(A) by striking "$39,554,804" and inserting "$39,950,343"; and

(B) by striking "July 27, 2005" and inserting "July 30, 2005";

(3) in subparagraph (B)(vii) by striking "July 27, 2005" and inserting "July 30, 2005"; and

(4) in subparagraph (C) by striking "July 27, 2005" and inserting "July 30, 2005".

(g) Allocation of Research Funds.—Section 8(h) of the Surface Transportation Extension Act of 2004, Part V (118 Stat. 1156; 119 Stat. 332; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) in the heading by striking "July 27, 2005" and inserting "July 30, 2005";

(2) in the matter preceding paragraph (1) by striking "July 27, 2005" and inserting "July 30, 2005";

(3) in paragraph (1) by striking "$4,315,070" and inserting "$4,358,219";

(4) in paragraph (2) by striking "$6,780,824" and inserting "$6,848,630"; and

(5) in paragraph (3)—

(A) by striking "$3,287,672" and inserting "$3,320,548"; and

(B) by striking "$821,918" and inserting "$830,137".

(h) University Transportation Research Authorizations.—Section 5338(e)(2) of title 49, United States Code, is amended—

(1) in the heading by striking "JULY 27, 2005" and inserting "JULY 30, 2005";

(2) in subparagraph (A)—

(A) by striking "$4,131,508" and inserting "$4,180,822"; and

(B) by striking "July 27, 2005" and inserting "July 30, 2005";

(3) in subparagraph (B) by striking "July 27, 2005" and inserting "July 30, 2005"; and

(4) in subparagraphs (C)(i) and (C)(iii) by striking "July 27, 2005" and inserting "July 30, 2005".

(i) Allocation of University Transportation Research Funds.—

(1) In general.—Section 8(j) of the Surface Transportation Extension Act of 2004, Part V (118 Stat. 1157; 119 Stat. 332; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(A) in the matter preceding subparagraph (A) of paragraph (1) by striking "July 27, 2005" and inserting "July 30, 2005";

(B) in paragraph (1)(A) by striking "$1,643,836" and inserting "$1,660,274";

(C) in paragraph (1)(B) by striking "$1,643,836" and inserting "$1,660,274"; and

(D) in paragraph (2) by striking "July 27, 2005" and inserting "July 30, 2005".

(2) Conforming amendment.—Section 3015(d)(2) of the Transportation Equity Act for the 21st Century (49 U.S.C. 5338 note; 112 Stat. 857; 118 Stat. 1157; 119 Stat. 332; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "July 27, 2005" and inserting "July 30, 2005".

(j) Administration Authorizations.—Section 5338(f)(2) of title 49, United States Code, is amended—

(1) in the heading by striking "JULY 27, 2005" and inserting "JULY 30, 2005";

(2) in subparagraph (A)(vii)—

(A) by striking "$53,709,604" and inserting "$54,350,686"; and

(B) by striking "July 27, 2005" and inserting "July 30, 2005"; and

(3) in subparagraph (B)(vii) by striking "July 27, 2005" and inserting "July 30, 2005".

(k) Job Access and Reverse Commute Program.—Section 3037(l) of the Transportation Equity Act for the 21st Century (49 U.S.C. 5309 note; 112 Stat. 391; 118 Stat. 1157; 119 Stat. 333; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) in paragraph (1)(A)(vii)—

(A) by striking "$82,739,750" and inserting "$83,767,125"; and

(B) by striking "July 27, 2005" and inserting "July 30, 2005";

(2) in paragraph (1)(B)(vii) by striking "July 27, 2005" and inserting "July 30, 2005"; and

(3) in paragraph (2) by striking "July 27, 2005, not more than $8,219,180" and inserting "July 30, 2005, not more than $8,301,370".

(l) Rural Transportation Accessibility Incentive Program.—Section 3038(g) of the Transportation Equity Act for the 21st Century (49 U.S.C. 5310 note; 112 Stat. 393; 118 Stat. 1158; 119 Stat. 333; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) by striking paragraph (1)(G) and inserting the following:

"(G) $5,769,452 for the period of October 1, 2004, through July 30, 2005."; and

(2) in paragraph (2)—

(A) by striking "$1,428,082" and inserting "$1,428,124"; and

(B) by striking "July 27, 2005" and inserting "July 30, 2005".

(m) Urbanized Area Formula Grants.—Section 5307(b)(2) of title 49, United States Code, is amended—

(1) in the heading by striking "JULY 27, 2005" and inserting "JULY 30, 2005"; and

(2) in subparagraph (A) by striking "July 27, 2005" and inserting "July 30, 2005".

(n) Obligation Ceiling.—Section 3040(7) of the Transportation Equity Act for the 21st Century (112 Stat. 394; 118 Stat. 1158; 119 Stat. 333; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) by striking "$6,335,343,944" and inserting "$6,398,695,996"; and

(2) by striking "July 27, 2005" and inserting "July 30, 2005".

(o) Fuel Cell Bus and Bus Facilities Program.—Section 3015(b) of the Transportation Equity Act for the 21st Century (112 Stat. 361; 118 Stat. 1158; 119 Stat. 333; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) by striking "July 27, 2005" and inserting "July 30, 2005"; and

(2) by striking "$3,986,000" and inserting "$4,026,164".

(p) Advanced Technology Pilot Project.—Section 3015(c)(2) of the Transportation Equity Act for the 21st Century (49 U.S.C. 322 note; 112 Stat. 361; 118 Stat. 1158; 119 Stat. 334; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended—

(1) by striking "July 27, 2005" and inserting "July 30, 2005,"; and

(2) by striking "$4,100,000" and inserting "$4,150,685".

(q) Projects for New Fixed Guideway Systems and Extensions to Existing Systems.—Subsections (a), (b), and (c)(1) of section 3030 of the Transportation Equity Act for the 21st Century (112 Stat. 373; 118 Stat. 1158; 119 Stat. 334; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) are amended by striking "July 27, 2005" and inserting "July 30, 2005".

(r) New Jersey Urban Core Project.—Subparagraphs (A), (B), and (C) of section 3031(a)(3) of the Intermodal Surface Transportation Efficiency Act of 1991 (105 Stat. 2122; 118 Stat. 1158; 119 Stat. 334; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) are amended by striking "July 27, 2005" and inserting "July 30, 2005".

(s) Local Share.—Section 3011(a) of the Transportation Equity Act for the 21st Century (49 U.S.C. 5307 note; 118 Stat. 1158; 119 Stat. 334; 119 Stat. 346; 119 Stat. 379; 119 Stat. 394) is amended by striking "July 27, 2005" and inserting "July 30, 2005".

SEC. 8. SPORT FISHING AND BOATING SAFETY.

(a) Funding for National Outreach and Communications Program.—Section 4(c)(7) of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777c(c)) is amended to read as follows:

"(7) $8,301,370 for the period of October 1, 2004, through July 30, 2005;".

(b) Clean Vessel Act Funding.—Section 4(b)(4) of such Act (16 U.S.C. 777c(b)(4)) is amended to read as follows:

"(4) First 303 days of fiscal year 2005.—For the period of October 1, 2004, through July 30, 2005, of the balance of each annual appropriation remaining after making the distribution under subsection (a), an amount equal to $68,071,233, reduced by 82 percent of the amount appropriated for that fiscal year from the Boat Safety Account of the Aquatic Resources Trust Fund established by section 9504 of the Internal Revenue Code of 1986 to carry out the purposes of section 13106(a) of title 46, United States Code, shall be used as follows:

"(A) $8,301,370 shall be available to the Secretary of the Interior for 3 fiscal years for obligation for qualified projects under section 5604(c) of the Clean Vessel Act of 1992 (33 U.S.C. 1322 note).

"(B) $6,641,096 shall be available to the Secretary of the Interior for 3 fiscal years for obligation for qualified projects under section 7404(d) of the Sportfishing and Boating Safety Act of 1998 (16 U.S.C. 777g–1(d)).

"(C) The balance remaining after the application of subparagraphs (A) and (B) shall be transferred to the Secretary of Transportation and shall be expended for State recreational boating safety programs under section 13106 of title 46, United States Code.".

(c) Boat Safety Funds.—Section 13106(c) of title 46, United States Code, is amended—

(1) by striking "$4,100,000" and inserting "$4,150,685"; and

(2) by striking "$1,643,836" and inserting "$1,660,274".

SEC. 9. EXTENSION OF AUTHORIZATION FOR USE OF TRUST FUNDS FOR OBLIGATIONS UNDER TEA–21.

(a) Highway Trust Fund.—

(1) IN GENERAL.—Paragraph (1) of section 9503(c) of the Internal Revenue Code of 1986 is amended—

(A) in the matter before subparagraph (A), by striking "July 28, 2005" and inserting "July 31, 2005",

(B) by striking "or" at the end of subparagraph (N),

(C) by striking the period at the end of subparagraph (O) and inserting ", or",

(D) by inserting after subparagraph (O) the following new subparagraph:

"(P) authorized to be paid out of the Highway Trust Fund under the Surface Transportation Extension Act of 2005, Part V.", and

(E) in the matter after subparagraph (P), as added by this paragraph, by striking "Surface Transportation Extension Act of 2005, Part IV" and inserting "Surface Transportation Extension Act of 2005, Part V".

(2) MASS TRANSIT ACCOUNT.—Paragraph (3) of section 9503(e) of such Code is amended—

(A) in the matter before subparagraph (A), by striking "July 28, 2005" and inserting "July 31, 2005",

(B) in subparagraph (L), by striking "or" at the end of such subparagraph,

(C) in subparagraph (M), by inserting "or" at the end of such subparagraph,

(D) by inserting after subparagraph (M) the following new subparagraph:

"(N) the Surface Transportation Extension Act of 2005, Part V.", and

(E) in the matter after subparagraph (N), as added by this paragraph, by striking "Surface Transportation Extension Act of 2005, Part IV" and inserting "Surface Transportation Extension Act of 2005, Part V".

(3) EXCEPTION TO LIMITATION ON TRANSFERS.—Subparagraph (B) of section 9503(b)(6) of such Code is amended by striking "July 28, 2005" and inserting "July 31, 2005".

(b) AQUATIC RESOURCES TRUST FUND.—

(1) SPORT FISH RESTORATION ACCOUNT.—Paragraph (2) of section 9504(b) of the Internal Revenue Code of 1986 is amended by striking "Surface Transportation Extension Act of 2005, Part IV" each place it appears and inserting "Surface Transportation Extension Act of 2005, Part V".

(2) BOAT SAFETY ACCOUNT.—Subsection (c) of section 9504 of such Code is amended—

(A) by striking "July 28, 2005" and inserting "July 31, 2005", and

(B) by striking "Surface Transportation Extension Act of 2005, Part IV" and inserting "Surface Transportation Extension Act of 2005, Part V".

(3) EXCEPTION TO LIMITATION ON TRANSFERS.—Paragraph (2) of section 9504(d) of such Code is amended by striking "July 28, 2005" and inserting "July 31, 2005".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act.

(d) TEMPORARY RULE REGARDING ADJUSTMENTS.—During the period beginning on the date of the enactment of the Surface Transportation Extension Act of 2003 and ending on July 30, 2005, for purposes of making any estimate under section 9503(d) of the Internal Revenue Code of 1986 of receipts of the Highway Trust Fund, the Secretary of the Treasury shall treat—

(1) each expiring provision of paragraphs (1) through (4) of section 9503(b) of such Code which is related to appropriations or transfers to such Fund to have been extended through the end of the 24-month period referred to in section 9503(d)(1)(B) of such Code, and

(2) with respect to each tax imposed under the sections referred to in section 9503(b)(1) of such Code, the rate of such tax during the 24-month period referred to in section 9503(d)(1)(B) of such Code to be the same as the rate of such tax as in effect on the date of the enactment of the Surface Transportation Extension Act of 2003.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on questions previously postponed.

Votes will be taken in the following order:

Ordering the previous question on H. Res. 385, by the yeas and nays;

Adoption of H. Res. 385, if ordered;

Adoption of H. Res. 386, by the yeas and nays.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

PROVIDING FOR CONSIDERATION OF H.R. 5, HELP EFFICIENT, ACCESSIBLE, LOW-COST, TIMELY HEALTHCARE (HEALTH) ACT OF 2005

The SPEAKER pro tempore. The pending business is the question on ordering the previous question on H. Res. 385 on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question on the resolution.

Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for electronic voting, if ordered, on the question of adopting the resolution and on adopting H. Res. 386.

The vote was taken by electronic device, and there were—yeas 226, nays 200, answered "present" 1, not voting 6, as follows:

NOT VOTING—6

Brady (PA)
Carson
Davis, Jo Ann
Leach
Murphy
Sanchez, Linda T.

□ 1956

Messrs. ORTIZ, CARDOZA, CASE, DAVIS of Alabama, and DAVIS of Tennessee changed their vote from "yea" to "nay."

So the previous question was ordered.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. BASS). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. HASTINGS of Florida. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 226, noes 200, answered "present" 1, not voting 6, as follows:

Leach
Murphy

□ 2015

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. MURPHY. Mr. Speaker, due to illness, I was not present in the Chamber on Wednesday, July 27, 2005, and was regrettably unable to cast my vote on rollcall No. 432, rollcall No. 433, rollcall No. 434, rollcall No. 435, rollcall No. 436, rollcall No. 437, rollcall No. 438, rollcall No. 439, rollcall No. 440, rollcall No. 441, and rollcall No. 442.

Had I been present, I would have voted "yea" on rollcall No. 432, "yea" on rollcall No. 433, "yea" on rollcall No. 434, "yea" on rollcall No. 435, "no" on rollcall No. 436, "yea" on rollcall No. 437, "yea" on rollcall No. 438, "yea" on rollcall No. 439, "yea" on rollcall No. 440, "yea" on rollcall No. 441, and "yea" on rollcall No. 442.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed without amendment a bill of the House of the following title:

H.R. 3453. An act to provide an extension of highway, highway safety, motor carrier safety, transit, and other programs funded out of the Highway Trust Fund pending enactment of a law reauthorizing the Transportation Equity Act for the 21st Century.

The message also announced that the Senate has passed bills of the following titles in which concurrence of the House is requested:

S. 203. An act to reduce temporarily the royalty required to be paid for sodium produced, to establish certain National Heritage Areas, and for other purposes.

S. 243. An act to establish a program and criteria for National Heritage Areas in the United States, and for other purposes.

S. 285. An act to reauthorize the Children's Hospitals Graduate Medical Education Program.

S. 442. An act to provide for the Secretary of Homeland Security to be included in the line of Presidential succession.

DOMINICAN REPUBLIC-CENTRAL AMERICA-UNITED STATES FREE TRADE AGREEMENT IMPLEMENTATION ACT

Mr. THOMAS. Mr. Speaker, pursuant to House Resolution 386, I call up the bill (H.R. 3045) to implement the Dominican Republic-Central America-United States Free Trade Agreement, and ask for its immediate consideration.

The Clerk read the title of the bill.

The text of H.R. 3045 is as follows:

H.R. 3045

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION. 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Dominican Republic-Central America-United States Free Trade Agreement Implementation Act".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. Purposes.
Sec. 3. Definitions.

TITLE I—APPROVAL OF, AND GENERAL PROVISIONS RELATING TO, THE AGREEMENT

Sec. 101. Approval and entry into force of the Agreement.
Sec. 102. Relationship of the Agreement to United States and State law.
Sec. 103. Implementing actions in anticipation of entry into force and initial regulations.
Sec. 104. Consultation and layover provisions for, and effective date of, proclaimed actions.
Sec. 105. Administration of dispute settlement proceedings.
Sec. 106. Arbitration of claims.
Sec. 107. Effective dates; effect of termination.

TITLE II—CUSTOMS PROVISIONS

Sec. 201. Tariff modifications.
Sec. 202. Additional duties on certain agricultural goods.
Sec. 203. Rules of origin.
Sec. 204. Customs user fees.
Sec. 205. Retroactive application for certain liquidations and reliquidations of textile or apparel goods.
Sec. 206. Disclosure of incorrect information; false certifications of origin; denial of preferential tariff treatment.
Sec. 207. Reliquidation of entries.
Sec. 208. Recordkeeping requirements.
Sec. 209. Enforcement relating to trade in textile or apparel goods.
Sec. 210. Regulations.

TITLE III—RELIEF FROM IMPORTS

Sec. 301. Definitions.

Subtitle A—Relief From Imports Benefiting From the Agreement

Sec. 311. Commencing of action for relief.

Sec. 312. Commission action on petition.
Sec. 313. Provision of relief.
Sec. 314. Termination of relief authority.
Sec. 315. Compensation authority.
Sec. 316. Confidential business information.
Subtitle B—Textile and Apparel Safeguard Measures
Sec. 321. Commencement of action for relief.
Sec. 322. Determination and provision of relief.
Sec. 323. Period of relief.
Sec. 324. Articles exempt from relief.
Sec. 325. Rate after termination of import relief.
Sec. 326. Termination of relief authority.
Sec. 327. Compensation authority.
Sec. 328. Confidential business information.
Subtitle C—Cases Under Title II of the Trade Act of 1974
Sec. 331. Findings and action on goods of CAFTA–DR countries.
TITLE IV—MISCELLANEOUS
Sec. 401. Eligible products.
Sec. 402. Modifications to the Caribbean Basin Economic Recovery Act.
Sec. 403. Periodic reports and meetings on labor obligations and labor capacity-building provisions.

SEC. 2. PURPOSES.

The purposes of this Act are—

(1) to approve and implement the Free Trade Agreement between the United States, Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras, and Nicaragua entered into under the authority of section 2103(b) of the Bipartisan Trade Promotion Authority Act of 2002 (19 U.S.C. 3803(b));

(2) to strengthen and develop economic relations between the United States, Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras, and Nicaragua for their mutual benefit;

(3) to establish free trade between the United States, Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras, and Nicaragua through the reduction and elimination of barriers to trade in goods and services and to investment; and

(4) to lay the foundation for further cooperation to expand and enhance the benefits of the Agreement.

SEC. 3. DEFINITIONS.

In this Act:

(1) AGREEMENT.—The term "Agreement" means the Dominican Republic-Central America-United States Free Trade Agreement approved by the Congress under section 101(a)(1).

(2) CAFTA–DR COUNTRY.—Except as provided in section 203, the term "CAFTA–DR country" means—

(A) Costa Rica, for such time as the Agreement is in force between the United States and Costa Rica;

(B) the Dominican Republic, for such time as the Agreement is in force between the United States and the Dominican Republic;

(C) El Salvador, for such time as the Agreement is in force between the United States and El Salvador;

(D) Guatemala, for such time as the Agreement is in force between the United States and Guatemala;

(E) Honduras, for such time as the Agreement is in force between the United States and Honduras; and

(F) Nicaragua, for such time as the Agreement is in force between the United States and Nicaragua.

(3) COMMISSION.—The term "Commission" means the United States International Trade Commission.

(4) HTS.—The term "HTS" means the Harmonized Tariff Schedule of the United States.

(5) TEXTILE OR APPAREL GOOD.—The term "textile or apparel good" means a good listed in the Annex to the Agreement on Textiles and Clothing referred to in section 101(d)(4) of the Uruguay Round Agreements Act (19 U.S.C. 3511(d)(4)), other than a good listed in Annex 3.29 of the Agreement.

TITLE I—APPROVAL OF, AND GENERAL PROVISIONS RELATING TO, THE AGREEMENT

SEC. 101. APPROVAL AND ENTRY INTO FORCE OF THE AGREEMENT.

(a) APPROVAL OF AGREEMENT AND STATEMENT OF ADMINISTRATIVE ACTION.—Pursuant to section 2105 of the Bipartisan Trade Promotion Authority Act of 2002 (19 U.S.C. 3805) and section 151 of the Trade Act of 1974 (19 U.S.C. 2191), the Congress approves—

(1) the Dominican Republic-Central America-United States Free Trade Agreement entered into on August 5, 2004, with the Governments of Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras, and Nicaragua, and submitted to the Congress on June 23, 2005; and

(2) the statement of administrative action proposed to implement the Agreement that was submitted to the Congress on June 23, 2005.

(b) CONDITIONS FOR ENTRY INTO FORCE OF THE AGREEMENT.—At such time as the President determines that countries listed in subsection (a)(1) have taken measures necessary to comply with the provisions of the Agreement that are to take effect on the date on which the Agreement enters into force, the President is authorized to provide for the Agreement to enter into force with respect to those countries that provide for the Agreement to enter into force for them.

SEC. 102. RELATIONSHIP OF THE AGREEMENT TO UNITED STATES AND STATE LAW.

(a) RELATIONSHIP OF AGREEMENT TO UNITED STATES LAW.—

(1) UNITED STATES LAW TO PREVAIL IN CONFLICT.—No provision of the Agreement, nor the application of any such provision to any person or circumstance, which is inconsistent with any law of the United States shall have effect.

(2) CONSTRUCTION.—Nothing in this Act shall be construed—

(A) to amend or modify any law of the United States, or

(B) to limit any authority conferred under any law of the United States,

unless specifically provided for in this Act.

(b) RELATIONSHIP OF AGREEMENT TO STATE LAW.—

(1) LEGAL CHALLENGE.—No State law, or the application thereof, may be declared invalid as to any person or circumstance on the ground that the provision or application is inconsistent with the Agreement, except in an action brought by the United States for the purpose of declaring such law or application invalid.

(2) DEFINITION OF STATE LAW.—For purposes of this subsection, the term "State law" includes—

(A) any law of a political subdivision of a State; and

(B) any State law regulating or taxing the business of insurance.

(c) EFFECT OF AGREEMENT WITH RESPECT TO PRIVATE REMEDIES.—No person other than the United States—

(1) shall have any cause of action or defense under the Agreement or by virtue of congressional approval thereof; or

(2) may challenge, in any action brought under any provision of law, any action or inaction by any department, agency, or other instrumentality of the United States, any State, or any political subdivision of a State, on the ground that such action or inaction is inconsistent with the Agreement.

SEC. 103. IMPLEMENTING ACTIONS IN ANTICIPATION OF ENTRY INTO FORCE AND INITIAL REGULATIONS.

(a) IMPLEMENTING ACTIONS.—

(1) PROCLAMATION AUTHORITY.—After the date of the enactment of this Act—

(A) the President may proclaim such actions, and

(B) other appropriate officers of the United States Government may issue such regulations,

as may be necessary to ensure that any provision of this Act, or amendment made by this Act, that takes effect on the date the Agreement enters into force is appropriately implemented on such date, but no such proclamation or regulation may have an effective date earlier than the date the Agreement enters into force.

(2) EFFECTIVE DATE OF CERTAIN PROCLAIMED ACTIONS.—Any action proclaimed by the President under the authority of this Act that is not subject to the consultation and layover provisions under section 104 may not take effect before the 15th day after the date on which the text of the proclamation is published in the Federal Register.

(3) WAIVER OF 15-DAY RESTRICTION.—The 15-day restriction contained in paragraph (2) on the taking effect of proclaimed actions is waived to the extent that the application of such restriction would prevent the taking effect on the date the Agreement enters into force of any action proclaimed under this section.

(b) INITIAL REGULATIONS.—Initial regulations necessary or appropriate to carry out the actions required by or authorized under this Act or proposed in the statement of administrative action submitted under section 101(a)(2) to implement the Agreement shall, to the maximum extent feasible, be issued within 1 year after the date on which the Agreement enters into force. In the case of any implementing action that takes effect on a date after the date on which the Agreement enters into force, initial regulations to carry out that action shall, to the maximum extent feasible, be issued within 1 year after such effective date.

SEC. 104. CONSULTATION AND LAYOVER PROVISIONS FOR, AND EFFECTIVE DATE OF, PROCLAIMED ACTIONS.

If a provision of this Act provides that the implementation of an action by the President by proclamation is subject to the consultation and layover requirements of this section, such action may be proclaimed only if—

(1) the President has obtained advice regarding the proposed action from—

(A) the appropriate advisory committees established under section 135 of the Trade Act of 1974 (19 U.S.C. 2155); and

(B) the Commission;

(2) the President has submitted to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives a report that sets forth—

(A) the action proposed to be proclaimed and the reasons therefor; and

(B) the advice obtained under paragraph (1);

(3) a period of 60 calendar days, beginning on the first day on which the requirements set forth in paragraphs (1) and (2) have been met has expired; and

(4) the President has consulted with such Committees regarding the proposed action

during the period referred to in paragraph (3).

SEC. 105. ADMINISTRATION OF DISPUTE SETTLEMENT PROCEEDINGS.

(a) Establishment or Designation of Office.—The President is authorized to establish or designate within the Department of Commerce an office that shall be responsible for providing administrative assistance to panels established under chapter 20 of the Agreement. The office may not be considered to be an agency for purposes of section 552 of title 5, United States Code.

(b) Authorization of Appropriations.—There are authorized to be appropriated for each fiscal year after fiscal year 2005 to the Department of Commerce such sums as may be necessary for the establishment and operations of the office established or designated under subsection (a) and for the payment of the United States share of the expenses of panels established under chapter 20 of the Agreement.

SEC. 106. ARBITRATION OF CLAIMS.

The United States is authorized to resolve any claim against the United States covered by article 10.16.1(a)(i)(C) or article 10.16.1(b)(i)(C) of the Agreement, pursuant to the Investor-State Dispute Settlement procedures set forth in section B of chapter 10 of the Agreement.

SEC. 107. EFFECTIVE DATES; EFFECT OF TERMINATION.

(a) Effective Dates.—Except as provided in subsection (b), the provisions of this Act and the amendments made by this Act take effect on the date the Agreement enters into force.

(b) Exceptions.—Sections 1 through 3 and this title take effect on the date of the enactment of this Act.

(c) Termination of CAFTA–DR Status.—During any period in which a country ceases to be a CAFTA–DR country, the provisions of this Act (other than this subsection) and the amendments made by this Act shall cease to have effect with respect to that country.

(d) Termination of the Agreement.—On the date on which the Agreement ceases to be in force with respect to the United States, the provisions of this Act (other than this subsection) and the amendments made by this Act shall cease to have effect.

TITLE II—CUSTOMS PROVISIONS

SEC. 201. TARIFF MODIFICATIONS.

(a) Tariff Modifications Provided for in the Agreement.—

(1) Proclamation authority.—The President may proclaim—

(A) such modifications or continuation of any duty,

(B) such continuation of duty-free or excise treatment, or

(C) such additional duties,

as the President determines to be necessary or appropriate to carry out or apply articles 3.3, 3.5, 3.6, 3.21, 3.26, 3.27, and 3.28, and Annexes 3.3, 3.27, and 3.28 of the Agreement.

(2) Effect on GSP status.—Notwithstanding section 502(a)(1) of the Trade Act of 1974 (19 U.S.C. 2462(a)(1)), the President shall terminate the designation of each CAFTA–DR country as a beneficiary developing country for purposes of title V of the Trade Act of 1974 on the date the Agreement enters into force with respect to that country.

(3) Effect on CBERA status.—

(A) In general.—Notwithstanding section 212(a) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2702(a)), the President shall terminate the designation of each CAFTA–DR country as a beneficiary country for purposes of that Act on the date the Agreement enters into force with respect to that country.

(B) Exception.—Notwithstanding subparagraph (A), each such country shall be considered a beneficiary country under section 212(a) of the Caribbean Basin Economic Recovery Act, for purposes of—

(i) sections 771(7)(G)(ii)(III) and 771(7)(H) of the Tariff Act of 1930 (19 U.S.C. 1677(7)(G)(ii)(III) and 1677(7)(H));

(ii) the duty-free treatment provided under paragraph 12 of Appendix I of the General Notes to the Schedule of the United States to Annex 3.3 of the Agreement; and

(iii) section 274(h)(6)(B) of the Internal Revenue Code of 1986.

(b) Other Tariff Modifications.—Subject to the consultation and layover provisions of section 104, the President may proclaim—

(1) such modifications or continuation of any duty,

(2) such modifications as the United States may agree to with a CAFTA–DR country regarding the staging of any duty treatment set forth in Annex 3.3 of the Agreement,

(3) such continuation of duty-free or excise treatment, or

(4) such additional duties,

as the President determines to be necessary or appropriate to maintain the general level of reciprocal and mutually advantageous concessions provided for by the Agreement.

(c) Conversion to Ad Valorem Rates.—For purposes of subsections (a) and (b), with respect to any good for which the base rate in the Schedule of the United States to Annex 3.3 of the Agreement is a specific or compound rate of duty, the President may substitute for the base rate an ad valorem rate that the President determines to be equivalent to the base rate.

SEC. 202. ADDITIONAL DUTIES ON CERTAIN AGRICULTURAL GOODS.

(a) General Provisions.—

(1) Applicability of subsection.—This subsection applies to additional duties assessed under subsection (b).

(2) Applicable NTR (MFN) rate of duty.—For purposes of subsection (b), the term "applicable NTR (MFN) rate of duty" means, with respect to a safeguard good, a rate of duty that is the lesser of—

(A) the column 1 general rate of duty that would, at the time the additional duty is imposed under subsection (b), apply to a good classifiable in the same 8-digit subheading of the HTS as the safeguard good; or

(B) the column 1 general rate of duty that would, on the day before the date on which the Agreement enters into force, apply to a good classifiable in the same 8-digit subheading of the HTS as the safeguard good.

(3) Schedule rate of duty.—For purposes of subsection (b), the term "schedule rate of duty" means, with respect to a safeguard good, the rate of duty for that good that is set out in the Schedule of the United States to Annex 3.3 of the Agreement.

(4) Safeguard good.—In this section, the term "safeguard good" means a good—

(A) that is included in the Schedule of the United States to Annex 3.15 of the Agreement;

(B) that qualifies as an originating good under section 203, except that operations performed in or material obtained from the United States shall be considered as if the operations were performed in, and the material was obtained from, a country that is not a party to the Agreement; and

(C) for which a claim for preferential tariff treatment under the Agreement has been made.

(5) Exceptions.—No additional duty shall be assessed on a good under subsection (b) if, at the time of entry, the good is subject to import relief under—

(A) subtitle A of title III of this Act; or

(B) chapter 1 of title II of the Trade Act of 1974 (19 U.S.C. 2251 et seq.).

(6) Termination.—The assessment of an additional duty on a good under subsection (b) shall cease to apply to that good on the date on which duty-free treatment must be provided to that good under the Schedule of the United States to Annex 3.3 of the Agreement.

(7) Notice.—Not later than 60 days after the Secretary of the Treasury first assesses an additional duty in a calendar year on a good under subsection (b), the Secretary shall notify the country whose good is subject to the additional duty in writing of such action and shall provide to that country data supporting the assessment of the additional duty.

(b) Additional Duties on Safeguard Goods.—

(1) In general.—In addition to any duty proclaimed under subsection (a) or (b) of section 201, and subject to subsection (a), the Secretary of the Treasury shall assess a duty, in the amount determined under paragraph (2), on a safeguard good of a CAFTA–DR country imported into the United States in a calendar year if the Secretary determines that, prior to such importation, the total volume of that safeguard good of such country that is imported into the United States in that calendar year exceeds 130 percent of the volume that is set out for that safeguard good in the corresponding year in the table for that country contained in Appendix I of the General Notes to the Schedule of the United States to Annex 3.3 of the Agreement. For purposes of this subsection, year 1 in that table corresponds to the calendar year in which the Agreement enters into force.

(2) Calculation of additional duty.—The additional duty on a safeguard good under this subsection shall be—

(A) in the case of a good classified under subheading 1202.10.80, 1202.20.80, 2008.11.15, 2008.11.35, or 2008.11.60 of the HTS—

(i) in years 1 through 5, an amount equal to 100 percent of the excess of the applicable NTR (MFN) rate of duty over the schedule rate of duty;

(ii) in years 6 through 10, an amount equal to 75 percent of the excess of the applicable NTR (MFN) rate of duty over the schedule rate of duty; and

(iii) in years 11 through 14, an amount equal to 50 percent of the excess of the applicable NTR (MFN) rate of duty over the schedule rate of duty; and

(B) in the case of any other safeguard good—

(i) in years 1 through 14, an amount equal to 100 percent of the excess of the applicable NTR (MFN) rate of duty over the schedule rate of duty;

(ii) in years 15 through 17, an amount equal to 75 percent of the excess of the applicable NTR (MFN) rate of duty over the schedule rate of duty; and

(iii) in years 18 and 19, an amount equal to 50 percent of the excess of the applicable NTR (MFN) rate of duty over the schedule rate of duty.

SEC. 203. RULES OF ORIGIN.

(a) Application and Interpretation.—In this section:

(1) Tariff classification.—The basis for any tariff classification is the HTS.

(2) Reference to HTS.—Whenever in this section there is a reference to a chapter, heading, or subheading, such reference shall be a reference to a chapter, heading, or subheading of the HTS.

(3) Cost or value.—Any cost or value referred to in this section shall be recorded and maintained in accordance with the generally accepted accounting principles applicable in the territory of the country in which the good is produced (whether the United States or another CAFTA–DR country).

(b) Originating Goods.—For purposes of this Act and for purposes of implementing the preferential tariff treatment provided for under the Agreement, except as otherwise provided in this section, a good is an originating good if—

(1) the good is a good wholly obtained or produced entirely in the territory of one or more of the CAFTA–DR countries;

(2) the good—

(A) is produced entirely in the territory of one or more of the CAFTA–DR countries, and—

(i) each of the nonoriginating materials used in the production of the good undergoes an applicable change in tariff classification specified in Annex 4.1 of the Agreement; or

(ii) the good otherwise satisfies any applicable regional value-content or other requirements specified in Annex 4.1 of the Agreement; and

(B) satisfies all other applicable requirements of this section; or

(3) the good is produced entirely in the territory of one or more of the CAFTA–DR countries, exclusively from materials described in paragraph (1) or (2).

(c) Regional Value-Content.—

(1) In general.—For purposes of subsection (b)(2), the regional value-content of a good referred to in Annex 4.1 of the Agreement, except for goods to which paragraph (4) applies, shall be calculated by the importer, exporter, or producer of the good, on the basis of the build-down method described in paragraph (2) or the build-up method described in paragraph (3).

(2) Build-down method.—

(A) In general.—The regional value-content of a good may be calculated on the basis of the following build-down method:

$$RVC = \frac{AV-VNM}{AV} 100$$

(B) Definitions.—In subparagraph (A):

(i) RVC.—The term "RVC" means the regional value-content of the good, expressed as a percentage.

(ii) AV.—The term "AV" means the adjusted value of the good.

(iii) VNM.—The term "VNM" means the value of nonoriginating materials that are acquired and used by the producer in the production of the good, but does not include the value of a material that is self-produced.

(3) Build-up method.—

(A) In general.—The regional value-content of a good may be calculated on the basis of the following build-up method:

$$RVC = \frac{VOM}{AV} 100$$

(B) Definitions.—In subparagraph (A):

(i) RVC.—The term "RVC" means the regional value-content of the good, expressed as a percentage.

(ii) AV.—The term "AV" means the adjusted value of the good.

(iii) VOM.—The term "VOM" means the value of originating materials that are acquired or self-produced, and used by the producer in the production of the good.

(4) Special rule for certain automotive goods.—

(A) In general.—For purposes of subsection (b)(2), the regional value-content of an automotive good referred to in Annex 4.1 of the Agreement may be calculated by the importer, exporter, or producer of the good, on the basis of the following net cost method:

$$RVC = \frac{NC-VNM}{NC} 100$$

(B) Definitions.—In subparagraph (A):

(i) Automotive good.—The term "automotive good" means a good provided for in any of subheadings 8407.31 through 8407.34, subheading 8408.20, heading 8409, or in any of headings 8701 through 8708.

(ii) RVC.—The term "RVC" means the regional value-content of the automotive good, expressed as a percentage.

(iii) NC.—The term "NC" means the net cost of the automotive good.

(iv) VNM.—The term "VNM" means the value of nonoriginating materials that are acquired and used by the producer in the production of the automotive good, but does not include the value of a material that is self-produced.

(C) Motor vehicles.—

(i) Basis of calculation.—For purposes of determining the regional value-content under subparagraph (A) for an automotive good that is a motor vehicle provided for in any of headings 8701 through 8705, an importer, exporter, or producer may average the amounts calculated under the formula contained in subparagraph (A), over the producer's fiscal year—

(I) with respect to all motor vehicles in any 1 of the categories described in clause (ii); or

(II) with respect to all motor vehicles in any such category that are exported to the territory of one or more of the CAFTA–DR countries.

(ii) Categories.—A category is described in this clause if it—

(I) is the same model line of motor vehicles, is in the same class of vehicles, and is produced in the same plant in the territory of a CAFTA–DR country, as the good described in clause (i) for which regional value-content is being calculated;

(II) is the same class of motor vehicles, and is produced in the same plant in the territory of a CAFTA–DR country, as the good described in clause (i) for which regional value-content is being calculated; or

(III) is the same model line of motor vehicles produced in the territory of a CAFTA–DR country as the good described in clause (i) for which regional value-content is being calculated.

(D) Other automotive goods.—For purposes of determining the regional value-content under subparagraph (A) for automotive goods provided for in any of subheadings 8407.31 through 8407.34, in subheading 8408.20, or in heading 8409, 8706, 8707, or 8708, that are produced in the same plant, an importer, exporter, or producer may—

(i) average the amounts calculated under the formula contained in subparagraph (A) over—

(I) the fiscal year of the motor vehicle producer to whom the automotive goods are sold,

(II) any quarter or month, or

(III) its own fiscal year,

if the goods were produced during the fiscal year, quarter, or month that is the basis for the calculation;

(ii) determine the average referred to in clause (i) separately for such goods sold to 1 or more motor vehicle producers; or

(iii) make a separate determination under clause (i) or (ii) for automotive goods that are exported to the territory of one or more of the CAFTA–DR countries.

(E) Calculating net cost.—The importer, exporter, or producer shall, consistent with the provisions regarding allocation of costs set out in generally accepted accounting principles, determine the net cost of an automotive good under subparagraph (B) by—

(i) calculating the total cost incurred with respect to all goods produced by the producer of the automotive good, subtracting any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and nonallowable interest costs that are included in the total cost of all such goods, and then reasonably allocating the resulting net cost of those goods to the automotive good;

(ii) calculating the total cost incurred with respect to all goods produced by that producer, reasonably allocating the total cost to the automotive good, and then subtracting any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and nonallowable interest costs that are included in the portion of the total cost allocated to the automotive good; or

(iii) reasonably allocating each cost that forms part of the total cost incurred with respect to the automotive good so that the aggregate of all such costs does not include any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, or nonallowable interest costs.

(d) Value of Materials.—

(1) In general.—For the purpose of calculating the regional value-content of a good under subsection (c), and for purposes of applying the de minimis rules under subsection (f), the value of a material is—

(A) in the case of a material that is imported by the producer of the good, the adjusted value of the material;

(B) in the case of a material acquired in the territory in which the good is produced, the value, determined in accordance with Articles 1 through 8, Article 15, and the corresponding interpretive notes of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade 1994 referred to in section 101(d)(8) of the Uruguay Round Agreements Act, as set forth in regulations promulgated by the Secretary of the Treasury providing for the application of such Articles in the absence of an importation; or

(C) in the case of a material that is self-produced, the sum of—

(i) all expenses incurred in the production of the material, including general expenses; and

(ii) an amount for profit equivalent to the profit added in the normal course of trade.

(2) Further adjustments to the value of materials.—

(A) Originating material.—The following expenses, if not included in the value of an originating material calculated under paragraph (1), may be added to the value of the originating material:

(i) The costs of freight, insurance, packing, and all other costs incurred in transporting the material within or between the territory of one or more of the CAFTA–DR countries to the location of the producer.

(ii) Duties, taxes, and customs brokerage fees on the material paid in the territory of one or more of the CAFTA–DR countries, other than duties or taxes that are waived, refunded, refundable, or otherwise recoverable, including credit against duty or tax paid or payable.

(iii) The cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or byproducts.

(B) NONORIGINATING MATERIAL.—The following expenses, if included in the value of a nonoriginating material calculated under paragraph (1), may be deducted from the value of the nonoriginating material:

(i) The costs of freight, insurance, packing, and all other costs incurred in transporting the material within or between the territory of one or more of the CAFTA–DR countries to the location of the producer.

(ii) Duties, taxes, and customs brokerage fees on the material paid in the territory of one or more of the CAFTA–DR countries, other than duties or taxes that are waived, refunded, refundable, or otherwise recoverable, including credit against duty or tax paid or payable.

(iii) The cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or byproducts.

(iv) The cost of originating materials used in the production of the nonoriginating material in the territory of one or more of the CAFTA–DR countries.

(e) ACCUMULATION.—

(1) ORIGINATING MATERIALS USED IN PRODUCTION OF GOODS OF ANOTHER COUNTRY.—Originating materials from the territory of one or more of the CAFTA–DR countries that are used in the production of a good in the territory of another CAFTA–DR country shall be considered to originate in the territory of that other country.

(2) MULTIPLE PROCEDURES.—A good that is produced in the territory of one or more of the CAFTA–DR countries by 1 or more producers is an originating good if the good satisfies the requirements of subsection (b) and all other applicable requirements of this section.

(f) DE MINIMIS AMOUNTS OF NONORIGINATING MATERIALS.—

(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), a good that does not undergo a change in tariff classification pursuant to Annex 4.1 of the Agreement is an originating good if—

(A) the value of all nonoriginating materials that—

(i) are used in the production of the good, and

(ii) do not undergo the applicable change in tariff classification (set out in Annex 4.1 of the Agreement),

does not exceed 10 percent of the adjusted value of the good;

(B) the good meets all other applicable requirements of this section; and

(C) the value of such nonoriginating materials is included in the value of nonoriginating materials for any applicable regional value-content requirement for the good.

(2) EXCEPTIONS.—Paragraph (1) does not apply to the following:

(A) A nonoriginating material provided for in chapter 4, or a nonoriginating dairy preparation containing over 10 percent by weight of milk solids provided for in subheading 1901.90 or 2106.90, that is used in the production of a good provided for in chapter 4.

(B) A nonoriginating material provided for in chapter 4, or a nonoriginating dairy preparation containing over 10 percent by weight of milk solids provided for in subheading 1901.90, that is used in the production of the following goods:

(i) Infant preparations containing over 10 percent by weight of milk solids provided for in subheading 1901.10.

(ii) Mixes and doughs, containing over 25 percent by weight of butterfat, not put up for retail sale, provided for in subheading 1901.20.

(iii) Dairy preparations containing over 10 percent by weight of milk solids provided for in subheading 1901.90 or 2106.90.

(iv) Goods provided for in heading 2105.

(v) Beverages containing milk provided for in subheading 2202.90.

(vi) Animal feeds containing over 10 percent by weight of milk solids provided for in subheading 2309.90.

(C) A nonoriginating material provided for in heading 0805, or any of subheadings 2009.11 through 2009.39, that is used in the production of a good provided for in any of subheadings 2009.11 through 2009.39, or in fruit or vegetable juice of any single fruit or vegetable, fortified with minerals or vitamins, concentrated or unconcentrated, provided for in subheading 2106.90 or 2202.90.

(D) A nonoriginating material provided for in heading 0901 or 2101 that is used in the production of a good provided for in heading 0901 or 2101.

(E) A nonoriginating material provided for in heading 1006 that is used in the production of a good provided for in heading 1102 or 1103 or subheading 1904.90.

(F) A nonoriginating material provided for in chapter 15 that is used in the production of a good provided for in chapter 15.

(G) A nonoriginating material provided for in heading 1701 that is used in the production of a good provided for in any of headings 1701 through 1703.

(H) A nonoriginating material provided for in chapter 17 that is used in the production of a good provided for in subheading 1806.10.

(I) Except as provided in subparagraphs (A) through (H) and Annex 4.1 of the Agreement, a nonoriginating material used in the production of a good provided for in any of chapters 1 through 24, unless the nonoriginating material is provided for in a different subheading than the good for which origin is being determined under this section.

(3) TEXTILE OR APPAREL GOODS.—

(A) IN GENERAL.—Except as provided in subparagraph (B), a textile or apparel good that is not an originating good because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification, set out in Annex 4.1 of the Agreement, shall be considered to be an originating good if—

(i) the total weight of all such fibers or yarns in that component is not more than 10 percent of the total weight of that component; or

(ii) the yarns are those described in section 204(b)(3)(B)(vi)(IV) of the Andean Trade Preference Act (19 U.S.C. 3203(b)(3)(B)(vi)(IV))(as in effect on the date of the enactment of this Act).

(B) CERTAIN TEXTILE OR APPAREL GOODS.—A textile or apparel good containing elastomeric yarns in the component of the good that determines the tariff classification of the good shall be considered to be an originating good only if such yarns are wholly formed in the territory of a CAFTA–DR country.

(C) YARN, FABRIC, OR FIBER.—For purposes of this paragraph, in the case of a good that is a yarn, fabric, or fiber, the term "component of the good that determines the tariff classification of the good" means all of the fibers in the good.

(g) FUNGIBLE GOODS AND MATERIALS.—

(1) IN GENERAL.—

(A) CLAIM FOR PREFERENTIAL TARIFF TREATMENT.—A person claiming that a fungible good or fungible material is an originating good may base the claim either on the physical segregation of the fungible good or fungible material or by using an inventory management method with respect to the fungible good or fungible material.

(B) INVENTORY MANAGEMENT METHOD.—In this subsection, the term "inventory management method" means—

(i) averaging;

(ii) "last-in, first-out";

(iii) "first-in, first-out"; or

(iv) any other method—

(I) recognized in the generally accepted accounting principles of the CAFTA–DR country in which the production is performed; or

(II) otherwise accepted by that country.

(2) ELECTION OF INVENTORY METHOD.—A person selecting an inventory management method under paragraph (1) for a particular fungible good or fungible material shall continue to use that method for that fungible good or fungible material throughout the fiscal year of that person.

(h) ACCESSORIES, SPARE PARTS, OR TOOLS.—

(1) IN GENERAL.—Subject to paragraphs (2) and (3), accessories, spare parts, or tools delivered with a good that form part of the good's standard accessories, spare parts, or tools shall—

(A) be treated as originating goods if the good is an originating good; and

(B) be disregarded in determining whether all the nonoriginating materials used in the production of the good undergo the applicable change in tariff classification set out in Annex 4.1 of the Agreement.

(2) CONDITIONS.—Paragraph (1) shall apply only if—

(A) the accessories, spare parts, or tools are classified with and not invoiced separately from the good, regardless of whether they appear specified or separately identified in the invoice for the good; and

(B) the quantities and value of the accessories, spare parts, or tools are customary for the good.

(3) REGIONAL VALUE-CONTENT.—If the good is subject to a regional value-content requirement, the value of the accessories, spare parts, or tools shall be taken into account as originating or nonoriginating materials, as the case may be, in calculating the regional value-content of the good.

(i) PACKAGING MATERIALS AND CONTAINERS FOR RETAIL SALE.—Packaging materials and containers in which a good is packaged for retail sale, if classified with the good, shall be disregarded in determining whether all the nonoriginating materials used in the production of the good undergo the applicable change in tariff classification set out in Annex 4.1 of the Agreement, and, if the good is subject to a regional value-content requirement, the value of such packaging materials and containers shall be taken into account as originating or nonoriginating materials, as the case may be, in calculating the regional value-content of the good.

(j) PACKING MATERIALS AND CONTAINERS FOR SHIPMENT.—Packing materials and containers for shipment shall be disregarded in determining whether a good is an originating good.

(k) INDIRECT MATERIALS.—An indirect material shall be treated as an originating material without regard to where it is produced.

(l) TRANSIT AND TRANSHIPMENT.—A good that has undergone production necessary to qualify as an originating good under subsection (b) shall not be considered to be an originating good if, subsequent to that production, the good—

(1) undergoes further production or any other operation outside the territories of the CAFTA-DR countries, other than unloading, reloading, or any other operation necessary to preserve the good in good condition or to transport the good to the territory of a CAFTA-DR country; or

(2) does not remain under the control of customs authorities in the territory of a country other than a CAFTA-DR country.

(m) Goods Classifiable as Goods Put Up in Sets.—Notwithstanding the rules set forth in Annex 4.1 of the Agreement, goods classifiable as goods put up in sets for retail sale as provided for in General Rule of Interpretation 3 of the HTS shall not be considered to be originating goods unless—

(1) each of the goods in the set is an originating good; or

(2) the total value of the nonoriginating goods in the set does not exceed—

(A) in the case of textile or apparel goods, 10 percent of the adjusted value of the set; or

(B) in the case of a good, other than a textile or apparel good, 15 percent of the adjusted value of the set.

(n) Definitions.—In this section:

(1) Adjusted value.—The term "adjusted value" means the value determined in accordance with Articles 1 through 8, Article 15, and the corresponding interpretive notes of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade 1994 referred to in section 101(d)(8) of the Uruguay Round Agreements Act, adjusted, if necessary, to exclude any costs, charges, or expenses incurred for transportation, insurance, and related services incident to the international shipment of the merchandise from the country of exportation to the place of importation.

(2) CAFTA-DR country.—The term "CAFTA-DR country" means—

(A) the United States; and

(B) Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras, or Nicaragua, for such time as the Agreement is in force between the United States and that country.

(3) Class of motor vehicles.—The term "class of motor vehicles" means any one of the following categories of motor vehicles:

(A) Motor vehicles provided for in subheading 8701.20, 8704.10, 8704.22, 8704.23, 8704.32, or 8704.90, or heading 8705 or 8706, or motor vehicles for the transport of 16 or more persons provided for in subheading 8702.10 or 8702.90.

(B) Motor vehicles provided for in subheading 8701.10 or any of subheadings 8701.30 through 8701.90.

(C) Motor vehicles for the transport of 15 or fewer persons provided for in subheading 8702.10 or 8702.90, or motor vehicles provided for in subheading 8704.21 or 8704.31.

(D) Motor vehicles provided for in any of subheadings 8703.21 through 8703.90.

(4) Fungible good or fungible material.—The term "fungible good" or "fungible material" means a good or material, as the case may be, that is interchangeable with another good or material for commercial purposes and the properties of which are essentially identical to such other good or material.

(5) Generally accepted accounting principles.—The term "generally accepted accounting principles" means the recognized consensus or substantial authoritative support in the territory of a CAFTA-DR country with respect to the recording of revenues, expenses, costs, assets, and liabilities, the disclosure of information, and the preparation of financial statements. The principles may encompass broad guidelines of general application as well as detailed standards, practices, and procedures.

(6) Goods wholly obtained or produced entirely in the territory of one or more of the CAFTA-DR countries.—The term "goods wholly obtained or produced entirely in the territory of one or more of the CAFTA-DR countries" means—

(A) plants and plant products harvested or gathered in the territory of one or more of the CAFTA-DR countries;

(B) live animals born and raised in the territory of one or more of the CAFTA-DR countries;

(C) goods obtained in the territory of one or more of the CAFTA-DR countries from live animals;

(D) goods obtained from hunting, trapping, fishing or aquaculture conducted in the territory of one or more of the CAFTA-DR countries;

(E) minerals and other natural resources not included in subparagraphs (A) through (D) that are extracted or taken in the territory of one or more of the CAFTA-DR countries;

(F) fish, shellfish, and other marine life taken from the sea, seabed, or subsoil outside the territory of one or more of the CAFTA-DR countries by vessels registered or recorded with a CAFTA-DR country and flying the flag of that country;

(G) goods produced on board factory ships from the goods referred to in subparagraph (F), if such factory ships are registered or recorded with that CAFTA-DR country and fly the flag of that country;

(H) goods taken by a CAFTA-DR country or a person of a CAFTA-DR country from the seabed or subsoil outside territorial waters, if a CAFTA-DR country has rights to exploit such seabed or subsoil;

(I) goods taken from outer space, if the goods are obtained by a CAFTA-DR country or a person of a CAFTA-DR country and not processed in the territory of a country other than a CAFTA-DR country;

(J) waste and scrap derived from—

(i) manufacturing or processing operations in the territory of one or more of the CAFTA-DR countries; or

(ii) used goods collected in the territory of one or more of the CAFTA-DR countries, if such goods are fit only for the recovery of raw materials;

(K) recovered goods derived in the territory of one or more of the CAFTA-DR countries from used goods, and used in the territory of a CAFTA-DR country in the production of remanufactured goods; and

(L) goods produced in the territory of one or more of the CAFTA-DR countries exclusively from—

(i) goods referred to in any of subparagraphs (A) through (J), or

(ii) the derivatives of goods referred to in clause (i),

at any stage of production.

(7) Identical goods.—The term "identical goods" means identical goods as defined in the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade 1994 referred to in section 101(d)(8) of the Uruguay Round Agreements Act;

(8) Indirect material.—The term "indirect material" means a good used in the production, testing, or inspection of a good but not physically incorporated into the good, or a good used in the maintenance of buildings or the operation of equipment associated with the production of a good, including—

(A) fuel and energy;

(B) tools, dies, and molds;

(C) spare parts and materials used in the maintenance of equipment or buildings;

(D) lubricants, greases, compounding materials, and other materials used in production or used to operate equipment or buildings;

(E) gloves, glasses, footwear, clothing, safety equipment, and supplies;

(F) equipment, devices, and supplies used for testing or inspecting the good;

(G) catalysts and solvents; and

(H) any other goods that are not incorporated into the good but the use of which in the production of the good can reasonably be demonstrated to be a part of that production.

(9) Material.—The term "material" means a good that is used in the production of another good, including a part or an ingredient.

(10) Material that is self-produced.—The term "material that is self-produced" means an originating material that is produced by a producer of a good and used in the production of that good.

(11) Model line.—The term "model line" means a group of motor vehicles having the same platform or model name.

(12) Net cost.—The term "net cost" means total cost minus sales promotion, marketing, and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs that are included in the total cost.

(13) Nonallowable interest costs.—The term "nonallowable interest costs" means interest costs incurred by a producer that exceed 700 basis points above the applicable official interest rate for comparable maturities of the CAFTA-DR country in which the producer is located.

(14) Nonoriginating good or nonoriginating material.—The terms "nonoriginating good" and "nonoriginating material" mean a good or material, as the case may be, that does not qualify as originating under this section.

(15) Packing materials and containers for shipment.—The term "packing materials and containers for shipment" means the goods used to protect a good during its transportation and does not include the packaging materials and containers in which a good is packaged for retail sale.

(16) Preferential tariff treatment.—The term "preferential tariff treatment" means the customs duty rate, and the treatment under article 3.10.4 of the Agreement, that are applicable to an originating good pursuant to the Agreement.

(17) Producer.—The term "producer" means a person who engages in the production of a good in the territory of a CAFTA-DR country.

(18) Production.—The term "production" means growing, mining, harvesting, fishing, raising, trapping, hunting, manufacturing, processing, assembling, or disassembling a good.

(19) Reasonably allocate.—The term "reasonably allocate" means to apportion in a manner that would be appropriate under generally accepted accounting principles.

(20) Recovered goods.—The term "recovered goods" means materials in the form of individual parts that are the result of—

(A) the disassembly of used goods into individual parts; and

(B) the cleaning, inspecting, testing, or other processing that is necessary for improvement to sound working condition of such individual parts.

(21) Remanufactured good.—The term "remanufactured good" means a good that is

classified under chapter 84, 85, or 87, or heading 9026, 9031, or 9032, other than a good classified under heading 8418 or 8516, and that—

(A) is entirely or partially comprised of recovered goods; and

(B) has a similar life expectancy and enjoys a factory warranty similar to such a new good.

(22) TOTAL COST.—The term "total cost" means all product costs, period costs, and other costs for a good incurred in the territory of one or more of the CAFTA-DR countries.

(23) USED.—The term "used" means used or consumed in the production of goods.

(o) PRESIDENTIAL PROCLAMATION AUTHORITY.—

(1) IN GENERAL.—The President is authorized to proclaim, as part of the HTS—

(A) the provisions set out in Annex 4.1 of the Agreement; and

(B) any additional subordinate category necessary to carry out this title consistent with the Agreement.

(2) FABRICS AND YARNS NOT AVAILABLE IN COMMERCIAL QUANTITIES IN THE UNITED STATES.—The President is authorized to proclaim that a fabric or yarn is added to the list in Annex 3.25 of the Agreement in an unrestricted quantity, as provided in article 3.25.4(e) of the Agreement.

(3) MODIFICATIONS.—

(A) IN GENERAL.—Subject to the consultation and layover provisions of section 104, the President may proclaim modifications to the provisions proclaimed under the authority of paragraph (1)(A), other than provisions of chapters 50 through 63, as included in Annex 4.1 of the Agreement.

(B) ADDITIONAL PROCLAMATIONS.—Notwithstanding subparagraph (A), and subject to the consultation and layover provisions of section 104, the President may proclaim before the end of the 1-year period beginning on the date of the enactment of this Act, modifications to correct any typographical, clerical, or other nonsubstantive technical error regarding the provisions of chapters 50 through 63, as included in Annex 4.1 of the Agreement.

(4) FABRICS, YARNS, OR FIBERS NOT AVAILABLE IN COMMERCIAL QUANTITIES IN THE CAFTA-DR COUNTRIES.—

(A) IN GENERAL.—Notwithstanding paragraph 3(A), the list of fabrics, yarns, and fibers set out in Annex 3.25 of the Agreement may be modified as provided for in this paragraph.

(B) DEFINITIONS.—In this paragraph:

(i) The term "interested entity" means the government of a CAFTA-DR country other than the United States, a potential or actual purchaser of a textile or apparel good, or a potential or actual supplier of a textile or apparel good.

(ii) All references to "day" and "days" exclude Saturdays, Sundays, and legal holidays.

(C) REQUESTS TO ADD FABRICS, YARNS, OR FIBERS.—(i) An interested entity may request the President to determine that a fabric, yarn, or fiber is not available in commercial quantities in a timely manner in the CAFTA-DR countries and to add that fabric, yarn, or fiber to the list in Annex 3.25 of the Agreement in a restricted or unrestricted quantity.

(ii) After receiving a request under clause (i), the President may determine whether—

(I) the fabric, yarn, or fiber is available in commercial quantities in a timely manner in the CAFTA-DR countries; or

(II) any interested entity objects to the request.

(iii) The President may, within the time periods specified in clause (iv), proclaim that a fabric, yarn, or fiber that is the subject of a request submitted under clause (i) is added to the list in Annex 3.25 of the Agreement in an unrestricted quantity, or in any restricted quantity that the President may establish, if the President determines under clause (ii) that—

(I) the fabric, yarn, or fiber is not available in commercial quantities in a timely manner in the CAFTA-DR countries; or

(II) no interested entity has objected to the request.

(iv) The time periods within which the President may issue a proclamation under clause (iii) are—

(I) not later than 30 days after the date on which the request is submitted under clause (i); or

(II) not later than 44 days after the request is submitted, if the President determines, within 30 days after the date on which the request is submitted, that the President does not have sufficient information to make a determination under clause (ii).

(v) Notwithstanding section 103(a)(2), a proclamation made under clause (iii) shall take effect on the date on which the text of the proclamation is published in the Federal Register.

(vi) Not later than 6 months after proclaiming under clause (iii) that a fabric, yarn, or fiber is added to the list in Annex 3.25 of the Agreement in a restricted quantity, the President may eliminate the restriction if the President determines that the fabric, yarn, or fiber is not available in commercial quantities in a timely manner in the CAFTA-DR countries.

(D) DEEMED APPROVAL OF REQUEST.—If, after an interested entity submits a request under subparagraph (C)(i), the President does not, within the applicable time period specified in subparagraph (C)(iv), make a determination under subparagraph (C)(ii) regarding the request, the fabric, yarn, or fiber that is the subject of the request shall be considered to be added, in an unrestricted quantity, to the list in Annex 3.25 of the Agreement beginning—

(i) 45 days after the date on which the request was submitted; or

(ii) 60 days after the date on which the request was submitted, if the President made a determination under subparagraph (C)(iv)(II).

(E) REQUESTS TO RESTRICT OR REMOVE FABRICS, YARNS, OR FIBERS.—(i) Subject to clause (ii), an interested entity may request the President to restrict the quantity of, or remove from the list in Annex 3.25 of the Agreement, any fabric, yarn, or fiber—

(I) that has been added to that list in an unrestricted quantity pursuant to paragraph (2) or subparagraph (C)(iii) or (D); or

(II) with respect to which the President has eliminated a restriction under subparagraph (C)(vi).

(ii) An interested entity may submit a request under clause (i) at any time beginning 6 months after the date of the action described in subclause (I) or (II) of that clause.

(iii) Not later than 30 days after the date on which a request under clause (i) is submitted, the President may proclaim an action provided for under clause (i) if the President determines that the fabric, yarn, or fiber that is the subject of the request is available in commercial quantities in a timely manner in the CAFTA-DR countries.

(iv) A proclamation declared under clause (iii) shall take effect no earlier than the date that is 6 months after the date on which the text of the proclamation is published in the Federal Register.

(F) PROCEDURES.—The President shall establish procedures—

(i) governing the submission of a request under subparagraphs (C) and (E); and

(ii) providing an opportunity for interested entities to submit comments and supporting evidence before the President makes a determination under subparagraph (C) (ii) or (vi) or (E)(iii).

SEC. 204. CUSTOMS USER FEES.

Section 13031(b) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(b)) is amended by adding after paragraph (14), the following:

"(15) No fee may be charged under subsection (a) (9) or (10) with respect to goods that qualify as originating goods under section 203 of the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act. Any service for which an exemption from such fee is provided by reason of this paragraph may not be funded with money contained in the Customs User Fee Account.".

SEC. 205. RETROACTIVE APPLICATION FOR CERTAIN LIQUIDATIONS AND RELIQUIDATIONS OF TEXTILE OR APPAREL GOODS.

(a) IN GENERAL.—Notwithstanding section 514 of the Tariff Act of 1930 (19 U.S.C. 1514) or any other provision of law, and subject to subsection (c), an entry—

(1) of a textile or apparel good—

(A) of a CAFTA-DR country that the United States Trade Representative has designated as an eligible country under subsection (b), and

(B) that would have qualified as an originating good under section 203 if the good had been entered after the date of entry into force of the Agreement for that country,

(2) that was made on or after January 1, 2004, and before the date of the entry into force of the Agreement with respect to that country, and

(3) for which customs duties in excess of the applicable rate of duty for that good set out in the Schedule of the United States to Annex 3.3 of the Agreement were paid,

shall be liquidated or reliquidated at the applicable rate of duty for that good set out in the Schedule of the United States to Annex 3.3 of the Agreement, and the Secretary of the Treasury shall refund any excess customs duties paid with respect to such entry.

(b) ELIGIBLE COUNTRY.—The United States Trade Representative shall determine, in accordance with article 3.20 of the Agreement, which CAFTA-DR countries are eligible countries for purposes of this section, and shall publish a list of all such countries in the Federal Register.

(c) REQUESTS.—Liquidation or reliquidation may be made under subsection (a) with respect to an entry of a textile or apparel good only if a request therefor is filed with the Bureau of Customs and Border Protection, within such period as the Bureau of Customs and Border Protection shall establish by regulation in consultation with the Secretary of the Treasury, that contains sufficient information to enable the Bureau of Customs and Border Protection—

(1)(A) to locate the entry; or

(B) to reconstruct the entry if it cannot be located; and

(2) to determine that the good satisfies the conditions set out in subsection (a).

(d) DEFINITION.—As used in this section, the term "entry" includes a withdrawal from warehouse for consumption.

SEC. 206. DISCLOSURE OF INCORRECT INFORMATION; FALSE CERTIFICATIONS OF ORIGIN; DENIAL OF PREFERENTIAL TARIFF TREATMENT.

(a) Disclosure of Incorrect Information.—Section 592 of the Tariff Act of 1930 (19 U.S.C. 1592) is amended—

(1) in subsection (c)—

(A) by redesignating paragraph (9) as paragraph (10); and

(B) by inserting after paragraph (8) the following new paragraph:

"(9) Prior disclosure regarding claims under the Dominican Republic-Central America-United States Free Trade Agreement.—An importer shall not be subject to penalties under subsection (a) for making an incorrect claim that a good qualifies as an originating good under section 203 of the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act if the importer, in accordance with regulations issued by the Secretary of the Treasury, promptly and voluntarily makes a corrected declaration and pays any duties owing."; and

(2) by adding at the end the following new subsection:

"(h) False Certifications of Origin Under the Dominican Republic-Central America-United States Free Trade Agreement.—

"(1) In general.—Subject to paragraph (2), it is unlawful for any person to certify falsely, by fraud, gross negligence, or negligence, in a CAFTA–DR certification of origin (as defined in section 508(g)(1)(B) of this Act) that a good exported from the United States qualifies as an originating good under the rules of origin set out in section 203 of the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act. The procedures and penalties of this section that apply to a violation of subsection (a) also apply to a violation of this subsection.

"(2) Prompt and voluntary disclosure of incorrect information.—No penalty shall be imposed under this subsection if, promptly after an exporter or producer that issued a CAFTA–DR certification of origin has reason to believe that such certification contains or is based on incorrect information, the exporter or producer voluntarily provides written notice of such incorrect information to every person to whom the certification was issued.

"(3) Exception.—A person may not be considered to have violated paragraph (1) if—

"(A) the information was correct at the time it was provided in a CAFTA–DR certification of origin but was later rendered incorrect due to a change in circumstances; and

"(B) the person promptly and voluntarily provides written notice of the change in circumstances to all persons to whom the person provided the certification.".

(b) Denial of Preferential Tariff Treatment.—Section 514 of the Tariff Act of 1930 (19 U.S.C. 1514) is amended by adding at the end the following new subsection:

"(h) Denial of Preferential Tariff Treatment Under the Dominican Republic-Central America-United States Free Trade Agreement.—If the Bureau of Customs and Border Protection or the Bureau of Immigration and Customs Enforcement finds indications of a pattern of conduct by an importer, exporter, or producer of false or unsupported representations that goods qualify under the rules of origin set out in section 203 of the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act, the Bureau of Customs and Border Protection, in accordance with regulations issued by the Secretary of the Treasury, may suspend preferential tariff treatment under the Dominican Republic-Central America-United States Free Trade Agreement to entries of identical goods covered by subsequent representations by that importer, exporter, or producer until the Bureau of Customs and Border Protection determines that representations of that person are in conformity with such section 203.".

SEC. 207. RELIQUIDATION OF ENTRIES.

Subsection (d) of section 520 of the Tariff Act of 1930 (19 U.S.C. 1520(d)) is amended—

(1) in the matter preceding paragraph (1), by striking "or section 202 of the United States-Chile Free Trade Agreement Implementation Act" and inserting ", section 202 of the United States-Chile Free Trade Agreement Implementation Act, or section 203 of the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act"; and

(2) in paragraph (2), by inserting "or certifications" after "other certificates".

SEC. 208. RECORDKEEPING REQUIREMENTS.

Section 508 of the Tariff Act of 1930 (19 U.S.C. 1508) is amended—

(1) by redesignating subsection (g) as subsection (h);

(2) by inserting after subsection (f) the following new subsection:

"(g) Certifications of Origin for Goods Exported Under the Dominican Republic-Central America-United States Free Trade Agreement.—

"(1) Definitions.—In this subsection:

"(A) Records and supporting documents.—The term 'records and supporting documents' means, with respect to an exported good under paragraph (2), records and documents related to the origin of the good, including—

"(i) the purchase, cost, and value of, and payment for, the good;

"(ii) the purchase, cost, and value of, and payment for, all materials, including indirect materials, used in the production of the good; and

"(iii) the production of the good in the form in which it was exported.

"(B) CAFTA–DR certification of origin.—The term 'CAFTA–DR certification of origin' means the certification established under article 4.16 of the Dominican Republic-Central America-United States Free Trade Agreement that a good qualifies as an originating good under such Agreement.

"(2) Exports to CAFTA–DR countries.—Any person who completes and issues a CAFTA–DR certification of origin for a good exported from the United States shall make, keep, and, pursuant to rules and regulations promulgated by the Secretary of the Treasury, render for examination and inspection all records and supporting documents related to the origin of the good (including the certification or copies thereof).

"(3) Retention period.—Records and supporting documents shall be kept by the person who issued a CAFTA–DR certification of origin for at least 5 years after the date on which the certification was issued."; and

(3) in subsection (h), as so redesignated—

(A) by inserting "or (g)" after "(f)"; and

(B) by striking "that subsection" and inserting "either such subsection".

SEC. 209. ENFORCEMENT RELATING TO TRADE IN TEXTILE OR APPAREL GOODS.

(a) Action During Verification.—

(1) In general.—If the Secretary of the Treasury requests the government of a CAFTA–DR country to conduct a verification pursuant to article 3.24 of the Agreement for purposes of making a determination under paragraph (2), the President may direct the Secretary to take appropriate action described in subsection (b) while the verification is being conducted.

(2) Determination.—A determination under this paragraph is a determination—

(A) that an exporter or producer in that country is complying with applicable customs laws, regulations, and procedures regarding trade in textile or apparel goods, or

(B) that a claim that a textile or apparel good exported or produced by such exporter or producer—

(i) qualifies as an originating good under section 203 of this Act, or

(ii) is a good of a CAFTA–DR country,

is accurate.

(b) Appropriate Action Described.—Appropriate action under subsection (a)(1) includes—

(1) suspension of preferential tariff treatment under the Agreement with respect to—

(A) any textile or apparel good exported or produced by the person that is the subject of a verification under subsection (a)(1) regarding compliance described in subsection (a)(2)(A), if the Secretary determines there is insufficient information to support any claim for preferential tariff treatment that has been made with respect to any such good; or

(B) the textile or apparel good for which a claim of preferential tariff treatment has been made that is the subject of a verification under subsection (a)(1) regarding a claim described in subsection (a)(2)(B), if the Secretary determines there is insufficient information to support that claim;

(2) denial of preferential tariff treatment under the Agreement with respect to—

(A) any textile or apparel good exported or produced by the person that is the subject of a verification under subsection (a)(1) regarding compliance described in subsection (a)(2)(A), if the Secretary determines that the person has provided incorrect information to support any claim for preferential tariff treatment that has been made with respect to any such good; or

(B) the textile or apparel good for which a claim of preferential tariff treatment has been made that is the subject of a verification under subsection (a)(1) regarding a claim described in subsection (a)(2)(B), if the Secretary determines that a person has provided incorrect information to support that claim;

(3) detention of any textile or apparel good exported or produced by the person that is the subject of a verification under subsection (a)(1) regarding compliance described in subsection (a)(2)(A) or a claim described in subsection (a)(2)(B), if the Secretary determines there is insufficient information to determine the country of origin of any such good; and

(4) denial of entry into the United States of any textile or apparel good exported or produced by the person that is the subject of a verification under subsection (a)(1) regarding compliance described in subsection (a)(2)(A) or a claim described in subsection (a)(2)(B), if the Secretary determines that the person has provided incorrect information as to the country of origin of any such good.

(c) Action on Completion of a Verification.—On completion of a verification under subsection (a), the President may direct the Secretary to take appropriate action described in subsection (d) until such time as the Secretary receives information sufficient to make the determination under subsection (a)(2) or until such earlier date as the President may direct.

(d) APPROPRIATE ACTION DESCRIBED.—Appropriate action under subsection (c) includes—

(1) denial of preferential tariff treatment under the Agreement with respect to—

(A) any textile or apparel good exported or produced by the person that is the subject of a verification under subsection (a)(1) regarding compliance described in subsection (a)(2)(A), if the Secretary determines there is insufficient information to support, or that the person has provided incorrect information to support, any claim for preferential tariff treatment that has been made with respect to any such good; or

(B) the textile or apparel good for which a claim of preferential tariff treatment has been made that is the subject of a verification under subsection (a)(1) regarding a claim described in subsection (a)(2)(B), if the Secretary determines there is insufficient information to support, or that a person has provided incorrect information to support, that claim; and

(2) denial of entry into the United States of any textile or apparel good exported or produced by the person that is the subject of a verification under subsection (a)(1) regarding compliance described in subsection (a)(2)(A) or a claim described in subsection (a)(2)(B), if the Secretary determines there is insufficient information to determine, or that the person has provided incorrect information as to, the country of origin of any such good.

(e) PUBLICATION OF NAME OF PERSON.—The Secretary may publish the name of any person that the Secretary has determined—

(1) is engaged in intentional circumvention of applicable laws, regulations, or procedures affecting trade in textile or apparel goods; or

(2) has failed to demonstrate that it produces, or is capable of producing, textile or apparel goods.

SEC. 210. REGULATIONS.

The Secretary of the Treasury shall prescribe such regulations as may be necessary to carry out—

(1) subsections (a) through (n) of section 203;

(2) the amendment made by section 204; and

(3) any proclamation issued under section 203(o).

TITLE III—RELIEF FROM IMPORTS

SEC. 301. DEFINITIONS.

In this title:

(1) CAFTA-DR ARTICLE.—The term "CAFTA-DR article" means an article that qualifies as an originating good under section 203(b).

(2) CAFTA-DR TEXTILE OR APPAREL ARTICLE.—The term "CAFTA-DR textile or apparel article" means a textile or apparel good (as defined in section 3(5)) that is a CAFTA-DR article.

(3) DE MINIMIS SUPPLYING COUNTRY.—

(A) Subject to subparagraph (B), the term "de minimis supplying country" means a CAFTA-DR country whose share of imports of the relevant CAFTA-DR article into the United States does not exceed 3 percent of the aggregate volume of imports of the relevant CAFTA-DR article in the most recent 12-month period for which data are available that precedes the filing of the petition under section 311(a).

(B) A CAFTA-DR country shall not be considered to be a de minimis supplying country if the aggregate share of imports of the relevant CAFTA-DR article into the United States of all CAFTA-DR countries that satisfy the conditions of subparagraph (A) exceeds 9 percent of the aggregate volume of imports of the relevant CAFTA-DR article during the applicable 12-month period.

(4) RELEVANT CAFTA-DR ARTICLE.—The term "relevant CAFTA-DR article" means the CAFTA-DR article with respect to which a petition has been filed under section 311(a).

Subtitle A—Relief From Imports Benefiting From the Agreement

SEC. 311. COMMENCING OF ACTION FOR RELIEF.

(a) FILING OF PETITION.—A petition requesting action under this subtitle for the purpose of adjusting to the obligations of the United States under the Agreement may be filed with the Commission by an entity, including a trade association, firm, certified or recognized union, or group of workers, that is representative of an industry. The Commission shall transmit a copy of any petition filed under this subsection to the United States Trade Representative.

(b) INVESTIGATION AND DETERMINATION.—Upon the filing of a petition under subsection (a), the Commission, unless subsection (d) applies, shall promptly initiate an investigation to determine whether, as a result of the reduction or elimination of a duty provided for under the Agreement, a CAFTA-DR article is being imported into the United States in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that imports of the CAFTA-DR article constitute a substantial cause of serious injury or threat thereof to the domestic industry producing an article that is like, or directly competitive with, the imported article.

(c) APPLICABLE PROVISIONS.—The following provisions of section 202 of the Trade Act of 1974 (19 U.S.C. 2252) apply with respect to any investigation initiated under subsection (b):

(1) Paragraphs (1)(B) and (3) of subsection (b).

(2) Subsection (c).

(3) Subsection (i).

(d) ARTICLES EXEMPT FROM INVESTIGATION.—No investigation may be initiated under this section with respect to any CAFTA-DR article if, after the date that the Agreement enters into force, import relief has been provided with respect to that CAFTA-DR article under this subtitle.

SEC. 312. COMMISSION ACTION ON PETITION.

(a) DETERMINATION.—Not later than 120 days after the date on which an investigation is initiated under section 311(b) with respect to a petition, the Commission shall make the determination required under that section. At that time, the Commission shall also determine whether any CAFTA-DR country is a de minimis supplying country.

(b) APPLICABLE PROVISIONS.—For purposes of this subtitle, the provisions of paragraphs (1), (2), and (3) of section 330(d) of the Tariff Act of 1930 (19 U.S.C. 1330(d) (1), (2), and (3)) shall be applied with respect to determinations and findings made under this section as if such determinations and findings were made under section 202 of the Trade Act of 1974 (19 U.S.C. 2252).

(c) ADDITIONAL FINDING AND RECOMMENDATION IF DETERMINATION AFFIRMATIVE.—If the determination made by the Commission under subsection (a) with respect to imports of an article is affirmative, or if the President may consider a determination of the Commission to be an affirmative determination as provided for under paragraph (1) of section 330(d) of the Tariff Act of 1930 (19 U.S.C. 1330(d)), the Commission shall find, and recommend to the President in the report required under subsection (d), the amount of import relief that is necessary to remedy or prevent the injury found by the Commission in the determination and to facilitate the efforts of the domestic industry to make a positive adjustment to import competition. The import relief recommended by the Commission under this subsection shall be limited to the relief described in section 313(c). Only those members of the Commission who voted in the affirmative under subsection (a) are eligible to vote on the proposed action to remedy or prevent the injury found by the Commission. Members of the Commission who did not vote in the affirmative may submit, in the report required under subsection (d), separate views regarding what action, if any, should be taken to remedy or prevent the injury.

(d) REPORT TO PRESIDENT.—Not later than the date that is 30 days after the date on which a determination is made under subsection (a) with respect to an investigation, the Commission shall submit to the President a report that includes—

(1) the determination made under subsection (a) and an explanation of the basis for the determination;

(2) if the determination under subsection (a) is affirmative, any findings and recommendations for import relief made under subsection (c) and an explanation of the basis for each recommendation; and

(3) any dissenting or separate views by members of the Commission regarding the determination and recommendation referred to in paragraphs (1) and (2).

(e) PUBLIC NOTICE.—Upon submitting a report to the President under subsection (d), the Commission shall promptly make public such report (with the exception of information which the Commission determines to be confidential) and shall cause a summary thereof to be published in the Federal Register.

SEC. 313. PROVISION OF RELIEF.

(a) IN GENERAL.—Not later than the date that is 30 days after the date on which the President receives the report of the Commission in which the Commission's determination under section 312(a) is affirmative, or which contains a determination under section 312(a) that the President considers to be affirmative under paragraph (1) of section 330(d) of the Tariff Act of 1930 (19 U.S.C. 1330(d)(1)), the President, subject to subsection (b), shall provide relief from imports of the article that is the subject of such determination to the extent that the President determines necessary to remedy or prevent the injury found by the Commission and to facilitate the efforts of the domestic industry to make a positive adjustment to import competition.

(b) EXCEPTION.—The President is not required to provide import relief under this section if the President determines that the provision of the import relief will not provide greater economic and social benefits than costs.

(c) NATURE OF RELIEF.—

(1) IN GENERAL.—The import relief that the President is authorized to provide under this section with respect to imports of an article is as follows:

(A) The suspension of any further reduction provided for under Annex 3.3 of the Agreement in the duty imposed on such article.

(B) An increase in the rate of duty imposed on such article to a level that does not exceed the lesser of—

(i) the column 1 general rate of duty imposed under the HTS on like articles at the time the import relief is provided; or

(ii) the column 1 general rate of duty imposed under the HTS on like articles on the day before the date on which the Agreement enters into force.

(2) PROGRESSIVE LIBERALIZATION.—If the period for which import relief is provided under this section is greater than 1 year, the President shall provide for the progressive liberalization (described in article 8.2.3 of the Agreement) of such relief at regular intervals during the period of its application.

(d) PERIOD OF RELIEF.—

(1) IN GENERAL.—Subject to paragraph (2), any import relief that the President is authorized to provide under this section may not, in the aggregate, be in effect for more than 4 years.

(2) EXTENSION.—

(A) IN GENERAL.—If the initial period for any import relief provided under this section is less than 4 years, the President, after receiving a determination from the Commission under subparagraph (B) that is affirmative, or which the President considers to be affirmative under paragraph (1) of section 330(d) of the Tariff Act of 1930 (19 U.S.C. 1330(d)(1)), may extend the effective period of any import relief provided under this section, subject to the limitation under paragraph (1), if the President determines that—

(i) the import relief continues to be necessary to remedy or prevent serious injury and to facilitate adjustment by the domestic industry to import competition; and

(ii) there is evidence that the industry is making a positive adjustment to import competition.

(B) ACTION BY COMMISSION.—(i) Upon a petition on behalf of the industry concerned that is filed with the Commission not earlier than the date which is 9 months, and not later than the date which is 6 months, before the date on which any action taken under subsection (a) is to terminate, the Commission shall conduct an investigation to determine whether action under this section continues to be necessary to remedy or prevent serious injury and whether there is evidence that the industry is making a positive adjustment to import competition.

(ii) The Commission shall publish notice of the commencement of any proceeding under this subparagraph in the Federal Register and shall, within a reasonable time thereafter, hold a public hearing at which the Commission shall afford interested parties and consumers an opportunity to be present, to present evidence, and to respond to the presentations of other parties and consumers, and otherwise to be heard.

(iii) The Commission shall transmit to the President a report on its investigation and determination under this subparagraph not later than 60 days before the action under subsection (a) is to terminate, unless the President specifies a different date.

(e) RATE AFTER TERMINATION OF IMPORT RELIEF.—When import relief under this section is terminated with respect to an article—

(1) the rate of duty on that article after such termination and on or before December 31 of the year in which such termination occurs shall be the rate that, according to the Schedule of the United States to Annex 3.3 of the Agreement would have been in effect 1 year after the provision of relief under subsection (a); and

(2) the rate of duty for that article after December 31 of the year in which termination occurs shall be, at the discretion of the President, either—

(A) the applicable rate of duty for that article set out in the Schedule of the United States to Annex 3.3 of the Agreement; or

(B) the rate of duty resulting from the elimination of the tariff in equal annual stages ending on the date set out in the Schedule of the United States to Annex 3.3 of the Agreement for the elimination of the tariff.

(f) ARTICLES EXEMPT FROM RELIEF.—No import relief may be provided under this section on—

(1) any article subject to import relief under chapter 1 of title II of the Trade Act of 1974 (19 U.S.C. 2251 et seq.); or

(2) imports of a CAFTA–DR article of a CAFTA–DR country that is a de minimis supplying country with respect to that article.

SEC. 314. TERMINATION OF RELIEF AUTHORITY.

(a) GENERAL RULE.—Subject to subsection (b), no import relief may be provided under this subtitle after the date that is 10 years after the date on which the Agreement enters into force.

(b) EXCEPTION.—If an article for which relief is provided under this subtitle is an article for which the period for tariff elimination, set out in the Schedule of the United States to Annex 3.3 of the Agreement, is greater than 10 years, no relief under this subtitle may be provided for that article after the date on which that period ends.

SEC. 315. COMPENSATION AUTHORITY.

For purposes of section 123 of the Trade Act of 1974 (19 U.S.C. 2133), any import relief provided by the President under section 313 shall be treated as action taken under chapter 1 of title II of such Act.

SEC. 316. CONFIDENTIAL BUSINESS INFORMATION.

Section 202(a)(8) of the Trade Act of 1974 (19 U.S.C. 2252(a)(8)) is amended in the first sentence—

(1) by striking "and"; and

(2) by inserting before the period at the end ", and title III of the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act".

Subtitle B—Textile and Apparel Safeguard Measures

SEC. 321. COMMENCEMENT OF ACTION FOR RELIEF.

(a) IN GENERAL.—A request under this subtitle for the purpose of adjusting to the obligations of the United States under the Agreement may be filed with the President by an interested party. Upon the filing of a request, the President shall review the request to determine, from information presented in the request, whether to commence consideration of the request.

(b) PUBLICATION OF REQUEST.—If the President determines that the request under subsection (a) provides the information necessary for the request to be considered, the President shall cause to be published in the Federal Register a notice of commencement of consideration of the request, and notice seeking public comments regarding the request. The notice shall include a summary of the request and the dates by which comments and rebuttals must be received.

SEC. 322. DETERMINATION AND PROVISION OF RELIEF.

(a) DETERMINATION.—

(1) IN GENERAL.—If a positive determination is made under section 321(b), the President shall determine whether, as a result of the elimination of a duty under the Agreement, a CAFTA–DR textile or apparel article of a specified CAFTA–DR country is being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions as to cause serious damage, or actual threat thereof, to a domestic industry producing an article that is like, or directly competitive with, the imported article.

(2) SERIOUS DAMAGE.—In making a determination under paragraph (1), the President—

(A) shall examine the effect of increased imports on the domestic industry, as reflected in changes in such relevant economic factors as output, productivity, utilization of capacity, inventories, market share, exports, wages, employment, domestic prices, profits, and investment, none of which is necessarily decisive; and

(B) shall not consider changes in technology or consumer preference as factors supporting a determination of serious damage or actual threat thereof.

(3) DEADLINE FOR DETERMINATION.—The President shall make the determination under paragraph (1) no later than 30 days after the completion of any consultations held pursuant to article 3.23.4 of the Agreement.

(b) PROVISION OF RELIEF.—

(1) IN GENERAL.—If a determination under subsection (a) is affirmative, the President may provide relief from imports of the article that is the subject of such determination, as provided in paragraph (2), to the extent that the President determines necessary to remedy or prevent the serious damage and to facilitate adjustment by the domestic industry.

(2) NATURE OF RELIEF.—The relief that the President is authorized to provide under this subsection with respect to imports of an article is an increase in the rate of duty imposed on the article to a level that does not exceed the lesser of—

(A) the column 1 general rate of duty imposed under the HTS on like articles at the time the import relief is provided; or

(B) the column 1 general rate of duty imposed under the HTS on like articles on the day before the date on which the Agreement enters into force.

SEC. 323. PERIOD OF RELIEF.

(a) IN GENERAL.—Subject to subsection (b), any import relief that the President provides under subsection (b) of section 322 may not, in the aggregate, be in effect for more than 3 years.

(b) EXTENSION.—If the initial period for any import relief provided under section 322 is less than 3 years, the President may extend the effective period of any import relief provided under that section, subject to the limitation set forth in subsection (a), if the President determines that—

(1) the import relief continues to be necessary to remedy or prevent serious damage and to facilitate adjustment by the domestic industry to import competition; and

(2) there is evidence that the industry is making a positive adjustment to import competition.

SEC. 324. ARTICLES EXEMPT FROM RELIEF.

The President may not provide import relief under this subtitle with respect to any article if—

(1) import relief previously has been provided under this subtitle with respect to that article; or

(2) the article is subject to import relief under—

(A) subtitle A; or

(B) chapter 1 of title II of the Trade Act of 1974.

SEC. 325. RATE AFTER TERMINATION OF IMPORT RELIEF.

When import relief under this subtitle is terminated with respect to an article, the rate of duty on that article shall be the rate that would have been in effect, but for the provision of such relief.

SEC. 326. TERMINATION OF RELIEF AUTHORITY.

No import relief may be provided under this subtitle with respect to any article after the date that is 5 years after the date on which the Agreement enters into force.

SEC. 327. COMPENSATION AUTHORITY.

For purposes of section 123 of the Trade Act of 1974 (19 U.S.C. 2133), any import relief provided by the President under this subtitle shall be treated as action taken under chapter 1 of title II of that Act.

SEC. 328. CONFIDENTIAL BUSINESS INFORMATION.

The President may not release information received in connection with a review under this subtitle which the President considers to be confidential business information unless the party submitting the confidential business information had notice, at the time of submission, that such information would be released by the President, or such party subsequently consents to the release of the information. To the extent a party submits confidential business information, it shall also provide a nonconfidential version of the information in which the confidential business information is summarized or, if necessary, deleted.

Subtitle C—Cases Under Title II of the Trade Act of 1974

SEC. 331. FINDINGS AND ACTION ON GOODS OF CAFTA-DR COUNTRIES.

(a) EFFECT OF IMPORTS.—If, in any investigation initiated under chapter 1 of title II of the Trade Act of 1974, the Commission makes an affirmative determination (or a determination which the President may treat as an affirmative determination under such chapter by reason of section 330(d) of the Tariff Act of 1930), the Commission shall also find (and report to the President at the time such injury determination is submitted to the President) whether imports of the article of each CAFTA-DR country that qualify as originating goods under section 203(b) are a substantial cause of serious injury or threat thereof.

(b) PRESIDENTIAL DETERMINATION REGARDING IMPORTS OF CAFTA-DR COUNTRIES.—In determining the nature and extent of action to be taken under chapter 1 of title II of the Trade Act of 1974, the President may exclude from the action goods of a CAFTA-DR country with respect to which the Commission has made a negative finding under subsection (a).

TITLE IV—MISCELLANEOUS

SEC. 401. ELIGIBLE PRODUCTS.

Section 308(4)(A) of the Trade Agreements Act of 1979 (19 U.S.C. 2518(4)(A)) is amended—

(1) by striking "or" at the end of clause (ii);

(2) by striking the period at the end of clause (iii) and inserting "; or"; and

(3) by adding at the end the following new clause:

"(iv) a party to the Dominican Republic-Central America-United States Free Trade Agreement, a product or service of that country or instrumentality which is covered under that Agreement for procurement by the United States.".

SEC. 402. MODIFICATIONS TO THE CARIBBEAN BASIN ECONOMIC RECOVERY ACT.

(a) FORMER BENEFICIARY COUNTRIES.—Section 212(a)(1) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2702(a)(1)) is amended by adding at the end the following new subparagraph:

"(F) The term 'former beneficiary country' means a country that ceases to be designated as a beneficiary country under this title because the country has become a party to a free trade agreement with the United States.".

(b) COUNTRIES ELIGIBLE FOR DESIGNATION AS BENEFICIARY COUNTRIES.—Section 212(b) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2702(b)) is amended by striking from the list of countries eligible for designation as beneficiary countries—

(1) "Costa Rica", effective on the date the President terminates the designation of Costa Rica as a beneficiary country pursuant to section 201(a)(3);

(2) "Dominican Republic", effective on the date the President terminates the designation of the Dominican Republic as a beneficiary country pursuant to section 201(a)(3);

(3) "El Salvador", effective on the date the President terminates the designation of El Salvador as a beneficiary country pursuant to section 201(a)(3);

(4) "Guatemala", effective on the date the President terminates the designation of Guatemala as a beneficiary country pursuant to section 201(a)(3);

(5) "Honduras", effective on the date the President terminates the designation of Honduras as a beneficiary country pursuant to section 201(a)(3); and

(6) "Nicaragua", effective on the date the President terminates the designation of Nicaragua as a beneficiary country pursuant to section 201(a)(3).

(c) MATERIALS OF, OR PROCESSING IN, FORMER BENEFICIARY COUNTRIES.—Section 213(a)(1) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(a)(1)) is amended by striking "the Commonwealth of Puerto Rico and the United States Virgin Islands" and inserting "the Commonwealth of Puerto Rico, the United States Virgin Islands, and any former beneficiary country".

(d) DEFINITIONS AND SPECIAL RULES.—Section 213(b)(5) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(b)(5)) is amended by adding at the end the following new subparagraphs:

"(G) FORMER CBTPA BENEFICIARY COUNTRY.—The term 'former CBTPA beneficiary country' means a country that ceases to be designated as a CBTPA beneficiary country under this title because the country has become a party to a free trade agreement with the United States.

"(H) ARTICLES THAT UNDERGO PRODUCTION IN A CBTPA BENEFICIARY COUNTRY AND A FORMER CBTPA BENEFICIARY COUNTRY.—(i) For purposes of determining the eligibility of an article for preferential treatment under paragraph (2) or (3), references in either such paragraph, and in subparagraph (C) of this paragraph to—

"(I) a 'CBTPA beneficiary country' shall be considered to include any former CPTPA beneficiary country, and

"(II) 'CBTPA beneficiary countries' shall be considered to include former CBTPA beneficiary countries,

if the article, or a good used in the production of the article, undergoes production in a CBTPA beneficiary country.

"(ii) An article that is eligible for preferential treatment under clause (i) shall not be ineligible for such treatment because the article is imported directly from a former CBTPA beneficiary country.

"(iii) Notwithstanding clauses (i) and (ii), an article that is a good of a former CBTPA beneficiary country for purposes of section 304 of the Tariff Act of 1930 (19 U.S.C. 1304) or section 334 of the Uruguay Round Agreements Act (19 U.S.C. 3592), as the case may be, shall not be eligible for preferential treatment under paragraph (2) or (3), unless—

"(I) it is an article that is a good of the Dominican Republic under either such section 304 or 334; and

"(II) the article, or a good used in the production of the article, undergoes production in Haiti.".

SEC. 403. PERIODIC REPORTS AND MEETINGS ON LABOR OBLIGATIONS AND LABOR CAPACITY-BUILDING PROVISIONS.

(a) REPORTS TO CONGRESS.—

(1) IN GENERAL.—Not later than the end of the 2-year period beginning on the date the Agreement enters into force, and not later than the end of each 2-year period thereafter during the succeeding 14-year period, the President shall report to the Congress on the progress made by the CAFTA-DR countries in—

(A) implementing Chapter Sixteen and Annex 16.5 of the Agreement; and

(B) implementing the White Paper.

(2) WHITE PAPER.—In this section, the term "White Paper" means the report of April 2005 of the Working Group of the Vice Ministers Responsible for Trade and Labor in the Countries of Central America and the Dominican Republic entitled "The Labor Dimension in Central America and the Dominican Republic - Building on Progress: Strengthening Compliance and Enhancing Capacity".

(3) CONTENTS OF REPORTS.—Each report under paragraph (1) shall include the following:

(A) A description of the progress made by the Labor Cooperation and Capacity Building Mechanism established by article 16.5 and Annex 16.5 of the Agreement, and the Labor Affairs Council established by article 16.4 of the Agreement, in achieving their stated goals, including a description of the capacity-building projects undertaken, funds received, and results achieved, in each CAFTA-DR country.

(B) Recommendations on how the United States can facilitate full implementation of the recommendations contained in the White Paper.

(C) A description of the work done by the CAFTA-DR countries with the International Labor Organization to implement the recommendations contained in the White Paper, and the efforts of the CAFTA-DR countries with international organizations, through the Labor Cooperation and Capacity Building Mechanism referred to in subparagraph (A), to advance common commitments regarding labor matters.

(D) A summary of public comments received on—

(i) capacity-building efforts by the United States envisaged by article 16.5 and Annex 16.5 of the Agreement;

(ii) efforts by the United States to facilitate full implementation of the White Paper recommendations; and

(iii) the efforts made by the CAFTA-DR countries to comply with article 16.5 and Annex 16.5 of the Agreement and to fully implement the White Paper recommendations, including the progress made by the CAFTA-DR countries in affording to workers internationally-recognized worker rights through improved capacity.

(4) SOLICITATION OF PUBLIC COMMENTS.—The President shall establish a mechanism to solicit public comments for purposes of paragraph (3)(D).

(b) PERIODIC MEETINGS OF SECRETARY OF LABOR WITH LABOR MINISTERS OF CAFTA-DR COUNTRIES.—

(1) PERIODIC MEETINGS.—The Secretary of Labor should take the necessary steps to meet periodically with the labor ministers of the CAFTA-DR countries to discuss—

(A) the operation of the labor provisions of the Agreement;

(B) progress on the commitments made by the CAFTA-DR countries to implement the recommendations contained in the White Paper;

(C) the work of the International Labor Organization in the CAFTA-DR countries, and other cooperative efforts, to afford to workers internationally-recognized worker rights; and

(D) such other matters as the Secretary of Labor and the labor ministers consider appropriate.

(2) INCLUSION IN BIENNIAL REPORTS.—The President shall include in each report under subsection (a), as the President deems appropriate, summaries of the meetings held pursuant to paragraph (1).

The SPEAKER pro tempore (Mr. BASS). Pursuant to House Resolution 386, the gentleman from California (Mr. THOMAS) and the gentleman from New York (Mr. RANGEL) each will control 1 hour.

The Chair recognizes the gentleman from California (Mr. THOMAS).

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, for those individuals within our eyesight and earshot, there may be some people wondering about the debate that was begun under the rule, and that if it, in fact, carries over into the general debate, you will be quite perplexed.

The statement was repeated several times that we are doing this in the dead of the night. My friends, it is 5:30 in California. People are just getting home from work. Would we not rather debate this during prime time when there are people home and who can watch it?

Words such as "shameful," "disrespectful," "arrogant"; accusations about freely-elected people in countries south of our border; someone who is not familiar with the way this place operates would be quite amazed at what has been said. Let me assure you, those of you who are concerned need only turn to the United States Constitution, Article I, section 6. Therein is contained what is often called the Speech and Debate Clause. The Speech and Debate Clause in the Constitution says, "And for any speech or debate in either House they, the Senators and Representatives, shall not be questioned in any other place."

In other words, truth, veracity, facts do not apply here if you choose not to use them. If you choose to misrepresent, you are allowed to do that on the floor of the House. If you wish to confuse, if you wish to say black is white or white is black, you can.

But I do think that you ought to at least give minimum respect for people who laid their lives down to have an opportunity to share the blessings of democracy.

In the 1980s we were all concerned, and speeches were made on the floor of this House, about the impending loss of Central America to totalitarian governments, and, frankly, sometimes it was to the right, and sometimes it was to the left.

We have before us tonight a freely negotiated trade agreement between sovereign countries freely elected by the people of those countries in Central America and in the Dominican Republic and in the United States. Yet a Member feels comfortable coming to the floor, and the gentlewoman from California said that they are going to be able to enforce their own trade laws. Does that not worry you? Well, so do we. She said, they could change their trade laws to allow child labor. Well, so can we. Will we? Of course not. What makes you think they will? The argument that somehow these people down there do not love their children any more than we do is, in fact, the words that were used earlier, that argument is shameful, it is disrespectful, and it is arrogant.

The idea that these people do not care about their families: have you driven around the greater Washington area and run into all these people from Central America who are here because they were driven here because of the political conditions in the 1980s, and that, in fact, the best import they have are the jobs people have here? You do not think they want to go home to their families?

This was negotiated by freely elected people, not because they want to sell products and services in the United States; they already have that. They want this so that our goods, our services, our jobs will come to Central America. And as you make the arguments that you make so shamefully, so disrespectfully, and so arrogantly about the governments freely elected, supported by their people, just remember, they want a job, too. They love their children. They are respectful of you; be respectful of them.

Mr. Speaker, I reserve the balance of my time.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me join with the handful of Republicans in complimenting the chairman of the Committee on Ways and Means. His attack against arrogance has moved my heart, and those of others in the House, as well as his conversations with the immigrants and the newcomers to find out what should be in the trade bill. It certainly would have worked out a heck of a lot better if he had talked with some of the Democrats in the House.

This is one day that we all should remember. A small bill designed to help small countries. I was successful in having the Dominican Republic included in it. People who indeed wanted to work, wanted to have the dignity of having a job, wanted to be able to buy some of those U.S. products, really wanted to be partners, but they also wanted to be a part of this. Arrogance? How can you have a bill you say that is helping these people to make certain that they stave off communism and that become, indeed, a democratic country and, at the same time, exclude them from participating?

Yes, they want a Central American Free Trade Agreement. Yes, the Dominicans want to have a Dominican Republic Free Trade Agreement, but they want to be a part of it, and they want their people protected.

The gentleman talked about people who fought and died for our Constitution. You do not have to remind us about that. Patriotism can bring a tear to our eyes, but why do we not talk about the people who fought and died for workers' rights? Hey, can you not get that on your agenda? Those who fought and died for human rights, should that not be a part of it?

But let us talk about the moral values. The Catholic bishops in the United States, the Catholic bishops in the Dominican Republic, the Catholic bishops throughout the island; the religious leaders, the labor leaders, the peasants, the farmers, those who work in the free trade zone, do they not count for something?

This could have been an easy thing. This is no big deal. It was not before the President came down here. This could have been something we could have worked out. There has to be some compassion and less arrogance on the other side. We could have talked these things out.

And what is wrong with language that protects kids? Just because people do not have a design to commit crime does not mean you do not have a criminal code. Just because people are not inclined to abuse workers does not mean you do not have a code.

All we are saying is this: Let us protect intellectual property rights, let us protect our exporters, let us protect the multinationals, let us protect the big farm corporations. But, while you do that, protect the little guy where, in many of the countries, they have not the slightest clue, and they tell us each and every day, we want trade, we want to improve our lives; all we want to do is to be a part of the agreement.

Now, I was told that we cannot get back to that. With regard to the side agreements, I thought it meant the issue had to be related to trade. But some of the offers that I have heard that relate to getting votes around here, side agreements mean something else. And that is why maybe it may still be light tonight in California, but for those who are wide awake tonight, they should know it is not prime time in Washington, D.C. As a matter of fact, it is the worst of times.

This administration has taken a bill that could have meant something, a bill we could have been proud of, and has made a political toy out of it. They have excluded Democrats; they have offended some Republicans.

So when we hear about this bill tonight, it will not be a trade bill, it will be a bill that would say, which side are you on? Are you on the side of transparency, open discussion, wanting to protect American farmers, wanting to protect American entrepreneurs, wanting to do business with people in these small countries that are impoverished, and do you want to help those who are the lesser among us, who, at the end of the day, have been excluded from consideration from this treaty?

Mr. Speaker, I reserve the balance of my time.

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I know the gentleman's district is in New York, and television is very expensive there, but it may surprise the gentleman to know that 8:30 on the east coast is called prime time, and you have to pay for it. We are in prime time.

Just let me say that you must be very proud, as you just indicated, to advocate for your side to vote "no" on democracy, "no" to jobs in their own country, "yes" to continued poverty, and "yes" to a threat to fragile democracies, because that is what this vote is. And it really is a sad night for your once proud, aggressive party, which has a lot of words and no action for people in need.

Mr. Speaker, I yield the remainder of my time to the gentleman from Florida (Mr. SHAW), the chairman of the Subcommittee on Trade of the Committee on Ways and Means, and I ask unanimous consent that he control the remainder of the time.

The SPEAKER pro tempore (Mr. LAHOOD). Is there objection to the request of the gentleman from California?

There was no objection.

□ 2030

Mr. RANGEL. Mr. Speaker, I yield 3 minutes to the gentleman from Georgia (Mr. NORWOOD).

Mr. NORWOOD. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I would point out that probably I do not want to associate myself with either of the opening remarks. This is not political to me. Mr. Speaker, we can sit here all day and argue about what the thousands of pages of CAFTA really mean.

But the meaning of nearly every provision is debatable. That is the problem with this agreement. If it becomes law, the administration, the American courts, even the United States Constitution will have no effect on the final interpretation of this agreement. That will be left to the CAFTA tribunal, two Central American judges, always pitted against one judge from the United States.

Our Bill of Rights will not apply to these courts, neither will any sunshine laws, and there will never be a right of appeal. That is a direct insult to the sovereignty of the United States. CAFTA should not be approved on this point alone.

But let us go on and look at what is at stake in some of these debates, very briefly. CAFTA undermines the ability of the State medical and dental boards and health planning agencies to set public health standards for licensing of professions and institutions. I am sure someone will disagree with me about that, and we will decide it in a tribunal.

CAFTA overturns all of our "buy American" laws that encourage local jobs and suppliers. CAFTA could legally force States and local governments to outsource jobs, not just to Central American countries, but to India and to Pakistan and to Malaysia, or to any country that wants to set up phone banks.

CAFTA gives foreign business greater legal rights in America than our own businesses. CAFTA could overturn our immigration laws, could overturn our immigration laws by allowing CAFTA tribunals to decide whether those laws fairly or unfairly restrict another country's ability to export cheap contract labor into America.

CAFTA countries today can ship chicken to my State of Georgia duty free, while charging up to 160 percent for the chicken my farmers try to ship in return. That is not fair trade.

Instead of fixing this now, we try to solve it by allowing CAFTA to drag out this fair trade policy for over 18 years, during which my chicken farmers will continue to face unfair trade competition. Eighteen years just to get even.

CAFTA takes away the few current protections available to the American textile workers. There are gaping loopholes in every so-called protection for the American workers and farmers. Mr. Speaker, I just used the words "could" and "can" a lot in my comments.

The other side will argue, well, it is not certain if CAFTA will do all of this; it will be left up to three judges.

I urge us to reconsider this and get a really good fair trade, not just fair, but free, trade agreement with Central America.

Mr. SHAW. Mr. Speaker, I yield 5 minutes to the gentleman from Louisiana (Mr. JEFFERSON), a very respected Democratic member of the Ways and Means Committee.

Mr. JEFFERSON. Mr. Speaker, as a Democrat with a firm commitment to eliminate poverty and to improve the lives of workers both here and abroad, I believe it is important to discuss the policy implications contained in the proposed U.S. FTA with the Dominican Republic and the countries of Central America.

In support of the CAFTA, I support the people of my port city. I have determined that the United States can best promote improvements both to working conditions and labor standards in those countries with the commitment and the supporting capacity-building provisions of this agreement.

I understand that our workers are concerned about our growing trade deficit. But CAFTA will have no negative impact here. Our trade deficit is driven by our own behavior as a Nation: massive consumption, low savings rates, and unwise borrow-and-spend economic policies of our own government, not CAFTA-like trade agreements.

In fact, an ITC study concludes CAFTA will reduce overall U.S. trade deficits by $756 million. And the CAFTA-NAFTA talk is a catchy play on words, but the comparison is really inappropriate.

Unlike the situation with Mexico prior to NAFTA, our market is already nearly completely open to Central American products. More than 80 percent of Central American products imported to the United States are already duty free. CAFTA will simply open their markets to our products leveling the playing field.

For years, Democrats and Republicans have promoted democracy in Central America and have spoken about the need to secure commitments from developing countries on core international labor standards, on labor enforcement, and have sought U.S. commitments to substantive and comprehensive labor-capacity building programs.

We have sought to ensure a role for international labor organizations in these efforts. With this unprecedented agreement, we have concluded and included all of these things. CAFTA promotes economic opportunity for the workers of the region who are facing massive competition from Asia and elsewhere in the most significant formal source of economic livelihood, textile and apparel production. With nearly half the population of these countries living in extreme poverty, with formal employment, the continued competitiveness the textile and apparel industry in our and other CAFTA industries can promote is very, very critical.

I have heard my colleagues suggest that the CAFTA textile and apparel rules remain too strict to really make a difference. But the countries and the companies who invest and purchase from the region believe differently.

Many of us had hoped for more flexibility. But those whose livelihoods depend on these issues believe that the new flexibilities CAFTA provides are critical to support an industry that provides some of the best-paying jobs in the region.

Are we to substitute our judgment for theirs?

CAFTA will also help these countries improve their investment climate through a more permanent relationship with the United States and many other provisions of CAFTA, including increased transparency, curbs on corruption and provisions that promote the rule of law, which could in fact be the single most important driver to improve the lives of our neighbors in Central America and the Dominican Republic.

And there are the agreement's labor provisions. Both the commitments made by each country in the labor chapter to enforce domestic laws and the capacity-building program built into the CAFTA, which each of the six governments recently relied on in undertaking an unprecedented commitment to improve labor standards and enforcement in each of their countries in very concrete ways.

But despite all of these provisions and commitments, it is argued that the CAFTA's labor provisions are a backwards step and that CAFTA should not be supported because of the CAFTA countries' histories of weak labor laws and suppressing worker rights.

The biggest labor issue of the CAFTA countries is in fact the inadequacy of their enforcement of existing laws. Indeed, this is where many of the 20-plus labor problems the critics allege actually fall. They are issues of enforcement, not issues with the substantive existing labor laws; and that is where the CAFTA can do the most good.

In taking a close look at the other recent trade agreements that passed with overwhelming bipartisan support, it is difficult to understand why the CAFTA countries are being held to a different standard and therefore a double standard.

The labor laws in the CAFTA countries are similar to those of Jordan and Morocco. For example, foreign nationals cannot lead or administer local labor unions in Morocco. This is the case for all of the CAFTA countries, but Nicaragua. The right to collective bargaining is not recognized in Morocco's constitution, but it is in most of the CAFTA countries. And, finally, Morocco allows minors to work longer per week than all of the CAFTA countries.

If we can vote overwhelmingly for Morocco and Jordan with these labor provisions on the basis that we should engage them economically because they have made progress on liberalizing their economies and on improving their human rights pictures, then why can we not support this FTA with our neighbors in the popularly elected democracies with even better laws on the same grounds?

What all of these countries, Jordan, Morocco and the Centrals, share are the same challenges in enforcement and lack of resources. In fact, the CAFTA provisions are stronger than those in NAFTA, which has labor protections in the signed agreements and did not provide dispute resolutions in the main agreement.

The last point I want to make, Mr. Speaker, is that at our door stand our neighbors from Central America literally pleading with us to approve this CAFTA agreement. We are substituting our judgment for theirs, people who are elected by their own people as we are elected by ours.

Mr. Speaker, I think instead of turning a deaf ear to them, we ought to heed them, we ought to hear them. These are our neighbors and our friends. And we ought to support them. I urge adoption of this agreement.

Mr. RANGEL. Mr. Speaker, the gentleman from Maryland (Mr. CARDIN) is the ranking member of the trade committee. He has worked hard on this, and he probably never has voted against any trade agreement in this House. And I guess he is saying that this is an agreement worthy of his vote.

Mr. Speaker, I yield 3 minutes to the gentleman from Maryland (Mr. CARDIN).

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. LAHOOD). The Chair would remind all persons in the gallery that they are here as guests of the House and that any manifestation of approval or disapproval of proceedings or other audible conversation is in violation of the rules of the House.

Mr. CARDIN. Mr. Speaker, I am going to first answer my friend, the gentleman from Louisiana (Mr. JEFFERSON), and he is my friend. I deeply respect his views as to why we would oppose this agreement when we supported the other agreements that he mentioned.

The gentleman from New York (Mr. RANGEL) is correct. In the 18-plus years that I have been honored to served in this body, I have voted for all of the free trade agreements. This will be the first agreement that I will vote against.

This is the first agreement in which we actually move backwards on advancing international labor standards. Currently, with the Central American countries, we had the Caribbean Basin Initiative. The Caribbean Basin Initiative has worked. It has provided opportunity for the Central American countries. It has opened up markets for their products. They get preference. But in order to get that preference, they must move towards international labor standards. That is the requirement.

We use the threat of withholding trade benefits if they do not adopt international labor standards. That is what we currently have with Central American countries, and it is working. We have made progress. CAFTA repeals those obligations. As the gentleman from Louisiana (Mr. JEFFERSON) said, what is in place is enforcing your own rules without any adequate enforcement.

We have a constitutional responsibility, Mr. Speaker, to approve or reject this free trade agreement. Trade opens up opportunity, not only for the United States but for the countries that we do business with.

I represent the Port of Baltimore. I am very much in favor of free trade. I would have liked to have had a CAFTA agreement that I could support.

The standard of living in the CAFTA nations is not as high as previous agreements that we have approved for Chile, Singapore, Morocco, or Australia. So for people living in poverty, trade if properly structured holds out the promise of a more meaningful economic opportunity and a better way of life in providing markets for our products.

But in order for that to occur, we must move the ball forward on protecting labor rights, workers' rights. That is our responsibility. That should be our priority. This agreement moves backwards. We have a constitutional responsibility to make a judgment on this.

I do not know how we can support an agreement that moves us in the wrong direction. I do not expect miracles from our negotiators. But I certainly expect that they will adhere to priorities. I certainly expect that they will not give up something that the other countries have not asked us to give up.

You start to worry when you see those types of provisions in an agreement. Mr. Speaker, this could have been corrected. We made changes in the CAFTA agreement for textiles. We could have made changes for these labor provisions. We could have kept the Caribbean Basin Initiative protections; but, no, we did not do that. We could have done it. If we would have done it, we could have had strong bipartisan support for this legislation, as trade bills should be considered.

This CAFTA agreement is not good for the United States. It is not good for the Central American countries. I urge my colleagues to exercise their constitutional responsibility, as I am, and vote against this agreement.

Mr. SHAW. Mr. Speaker, I would remind the gentleman from Maryland (Mr. CARDIN) who has voted for previous trade agreements that this agreement has the strongest labor provision of any of the agreements that the gentleman has voted for, and that these countries, all of these countries adhere to international labor standards.

Mr. Speaker, I yield 5 minutes to the gentleman from Virginia (Mr. MORAN), a distinguished Democratic Member of the House of Representatives.

Mr. MORAN of Virginia. Mr. Speaker, I want to address my colleagues on this side of the aisle, the Democratic side of the aisle, because there are so many good people and true leaders among you, people who understand that we need to do more than we have done for Central America and Central Americans.

In a perfect political world, a Central American trade agreement should have passed on the Consent Calendar.

□ 2045

In a perfect world it would have, because there is virtually no Member of Congress who does not have undocumented immigrants who have risked their life and limb to come to the United States so as to provide some future for themselves and their families. Many of our grandparents could empathize, but surely we who were born here must at least sympathize.

We all know the conditions in Central America. You would have to be blind or without conscience not to recognize the suffering that Central Americans are enduring. Thirty percent of the population cannot afford the most basic foodstuffs. In most countries, more than half of the population are living in poverty. Certainly we feel some obligation, do we not, to do something about it?

I understand the politics, though, and I regret the politics. But from the standpoint of policy, certainly this could and should have been a much better agreement. We should have addressed labor conditions in a more robust way, likewise, in language to preserve the environment. But on the whole this agreement does much more for Central America than we will have the opportunity to do in a long time to come, and that is the reality.

Today we have a perfect storm of political confluence where the elected leaders of all of these nations are products of democratic elections, and their leaders are telling us they want this trade agreement to pass. The leader I have the most respect for, Oscar Arias, a Nobel Peace Prize winner, wrote an editorial, in the Post, and I trust we read it on both sides of the aisle. The thrust of his argument was, please give us an opportunity to stop having to export our people and let us begin to export our products and our services. And the only way that we can do that is to provide an incentive for all these multinational corporations, people with capital to invest, to invest it in Central America; ultimately invested in the physical infrastructure, the roads and the bridges, the transportation and the communication systems, and the human infrastructure, the people, their education, their skills, their training. It will be in their interest. It is not in their interest now.

Central Americans have paid the price for a system of government that continually exploited people who had no power; that was ruled largely by a handful of elite families, many of them descendents from the original European settlers who came there half a millenia ago. For 500 years they have been suffering. It is time to put an end to their desperation and isolation. They need and deserve a seat at the table of the global economy.

I am not going to try to justify or rationalize or excuse all of the problems with a globalized economy. Certainly people lose their jobs and people are hurt, but the global economy is a reality of today's world. And if you are not at the table, you will suffer. We cannot maintain even the status quo in Central America any more than we can in this country. If CAFTA doesn't pass poverty will get worse in Central America. Jobs will continue to be lost at an even faster pace to China and other countries who are more competitive, and capital will go elsewhere if we do not pass this trade agreement.

It is in so many ways deficient. I am not going to argue about that. But it is a fact that over the next 4 years $160 million is going to be invested in enforcement of labor laws, labor laws that are actually pretty good on the books of these nations. They are not enforced, but today this is the best opportunity to have them enforced. There will not be another opportunity to have them enforced, and we have that commitment. And, likewise, the environment will not be exploited to the degree that it has been.

It is not a perfect agreement, but it is our responsibility, our duty, as far as I am concerned, to pass this agreement now, to work with Central America, to work with the people that will invest in Central America to bring about a better world. A world one day of opportunity for the best and brightest Central Americans in their own country, so they don't have to risk everything in pursuit of it outside their country of birth. I do understand that it is important to be on the right side of the political equation tonight, but it is even more important to be on the right side of history, and I think the right side of history will prove to be a yes vote for CAFTA.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to quote what the bishops have said about this because I think the previous speaker gave an eloquent speech, but he said one thing: It could be better for the workers.

I do not have any argument with that. And the bishop said, the panel urged that the agreement should contribute to sustainable human development, especially among the poorest and most vulnerable sectors; that the countries' governments take as much time as necessary to provide adequate information and foster broad debates about the contact and impact of the agreement, and that the moral measure of any trade agreement should be how it affects the lives and the dignity of poor families and vulnerable workers whose voices should receive special attention in this discussion.

Mr. Speaker, the following six pages are organizations representing religious leaders in Central America and the Dominican Republic, representing peasants, representing farmers, representing workers that all they are asking is please include us.

CENTRAL AMERICAN GROUPS OPPOSED TO CAFTA

Mr. RANGEL. Mr. Speaker, I yield 2 minutes to the gentleman from North Carolina (Mr. COBLE), who served this country and served it well, and he wears that lapel pin showing how proud he is to be a veteran, not a Republican, not a Democrat.

Mr. COBLE. Mr. Speaker, I thank the gentleman from New York (Mr. RANGEL).

Mr. Speaker, weeks ago I said that CAFTA was neither as good nor as bad as its respective proponents contend. At that time I also said whether I vote for or against CAFTA, I will inevitably disappoint many of my constituents. It is that controversial, Mr. Speaker, in my district.

I told President Bush that my late mom was a textile worker. She sewed pockets in overalls. And when textile workers, specifically female workers, plead with me to vote against CAFTA, I said to the President, it is my mama talking to me, and I cannot turn a deaf ear to those pleas.

Now these workers, Mr. Speaker, may know virtually nothing about CAFTA, but their perception is that it is bad for them, it threatens their jobs.

Now, many Members tonight who normally support trade agreements will for some reason, perhaps valid or otherwise, vote no tonight, and that is likely unfortunate because it goes away from their normal voting pattern. And I am confident that there is much good as well as much bad inevitably. I have talked to the gentleman from Florida (Mr. SHAW) about it. Some people are going to be hurt, some people are going to benefit, not unlike other trade agreements that have come before us on this floor in years previous.

I usually vote against trade agreements. Tonight will be no exception, and I will do so.

I thank the gentleman from New York (Mr. RANGEL) for having yielded me time.

Mr. SHAW. Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Mr. CUELLAR).

Mr. CUELLAR. Mr. Speaker, I ask you to join me in supporting the best interests of our Nation by passing DR–CAFTA. I support CAFTA because it is deeply in our national interest, and it is a progrowth, projob vote.

In the past I have seen the way free trade has revolutionized south Texas, bringing jobs, prosperity and growth to a part of the country that used to be economically underserved. DR–CAFTA will perpetuate that growth, opening export markets to our American farmers and businesses, thereby creating jobs in farming, manufacturing and industry here at home.

When NAFTA was signed in 1993, there were four Presidents, Clinton, Bush, Carter, and Ford, present at the signing. We have a long history of bipartisan cooperation when it comes to the benefits of free trade. I hope to see that tradition continue.

American farmers currently face deep tariffs when exporting their goods to Central America, while 99 percent of the CAFTA agricultural products come into the United States duty free. This is a one-way street that needs to be redrawn into a two-way street, a two-way street of fair trade.

American farmers are struggling against an unfair international trading system, and they are at risk of failing. CAFTA levels that playing field. According to the American Farm Bureau, CAFTA would expand U.S. farm exports by $1.5 billion per year. CAFTA is also going to bring major gains to U.S. manufacturing. The National Association of Manufacturers recently reported that as a direct result of DR-CAFTA, U.S. manufacturers stand to gain approximately 12,000 new job opportunities for American workers.

CAFTA will also create tremendous job opportunities for the 13,000 American small businesses that are currently already exporting to those Central America countries. The economic opportunities created by DR-CAFTA will bring new jobs and the possibility of a middle-class life to millions of Central Americans who are currently living in poverty. If we create economic opportunities in those countries, fewer will be forced to flee to the United States out of economic desperation.

The prosperity created by CAFTA will act as the foundation for more a stable and democratic future for Central America.

Mr. Speaker, trade has the power to change the world. Out of all the policy instruments that we have here in Washington, few have as much power to change lives, bring hope, and draw people together in a rising tide of prosperity as our ability to promote free and fair trade.

I am a supporter of DR-CAFTA because I think it is not only as a smart policy of the United States, but also it is a way to change our whole atmosphere for the better.

Mr. RANGEL. Mr. Speaker, I yield 3 minutes to the gentleman from Michigan (Mr. LEVIN), who has been not only a supporter of trade agreements, but he has been an architect in designing trade agreements. Every major agreement he just did not vote for, but he helped to make it better. That is when we used to work together on trade agreements.

Mr. LEVIN. Mr. Speaker, I thank the gentleman from New York (Mr. RANGEL) for his kind words. What a privilege it has been to work with the gentleman.

This agreement as negotiated misses an historic opportunity. It fails a key growing challenge to globalization to expand trade so that its benefits are widely shared. Trade agreements must level up, not level down. And unlike Chile or Singapore or Australia, CAFTA nations have immense poverty, among the worst income inequalities in the world, and a weak middle class. And to change that, to change that, workers must be able to lift themselves up the economic ladder. And to do so, they have to have their basic internationally recognized rights, including the right to bargain and to associate.

The fact of the matter is contrary to any of the rhetoric that comes forth here tonight or any of the disclaimers, a majority of workers do not have enforceable rights in their nations' legal structures.

Unlike CBI now in effect, CAFTA gives Central American governments a pass on worker rights. All they have to do is to enforce their own laws, no matter how bad they are presently, or no matter how bad they make them in the future. It is a standard used nowhere else: Enforce your own laws in this agreement is a double standard that would stimulate a race to the bottom.

That is bad, number one, for millions of Central American workers mired in poverty.

□ 2100

Number two, it is bad for the nations desperately needing a growing middle class. Three, it is bad for our workers, who will not compete with nations who suppress their workers. And it is bad for our businesses who need middle classes to buy their products.

I want to emphasize this, because the President has talked about security. Denial of worker rights and persistent poverty and inequalities are a source of insecurity, not security. A denial of democracy in the workplace is harmful to the spread of democracy. So not heeding our repeated warnings, the administration negotiated this CAFTA so it shattered the bipartisan foundation many of us have tried to build.

CAFTA needs to be defeated so that it can be renegotiated to meet the challenge of globalization. And that challenge is to shape a trade agreement so that it spreads more broadly the benefits of expanded trade, not reinforces an unsustainable status quo. Defeat this CAFTA so we can renegotiate a CAFTA that meets the challenges of globalization.

Mr. SHAW. Mr. Speaker, I yield myself such time as I may consume to point out that the last couple of speakers here, including the gentleman who just left the well, voted for trade preferences for these countries with much weaker labor standards in 1983. It passed this House by 392 to 18. It passed in 1990 by a voice vote. And then with the labor standards put in there, more labor standards, it was 309 to 110. We have strengthened the labor standards.

Mr. Speaker, I yield for the purpose of making a unanimous consent request to the gentleman from Texas (Mr. BARTON).

Mr. BARTON of Texas. Mr. Speaker, as chairman of the Committee on Energy and Commerce, which has some jurisdiction on trade, I rise in strong support of the CAFTA agreement.

Mr. Speaker, I rise today in strong support of H.R. 3045, the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act (DR–CAFTA). This important Agreement ensures the spread of fair and open markets for American goods and services. I want to commend the Bush administration, the majority leader, and my good friends on the Committee on Ways and Means for bringing this important legislation before the House.

The provisions in DR–CAFTA go beyond the mere dissolution of tariffs. This wide-ranging Agreement sets forth detailed requirements to eliminate the non-tariff trade barriers erected by the member countries. Often more nefarious than traditional protectionist measures, these barriers now constitute the principle impediment to achieving free and unfettered foreign commerce.

The elimination of all trade barriers to foreign commerce has long been a goal of the Committee on Energy and Commerce. So I want to express my great satisfaction that DR–CAFTA contains numerous chapters resolving potential non- tariff trade barriers.

Chapter 6 addresses each country's ability to promulgate needed sanitary measures. It is very important that our countries cooperate closely, and assist one another in protecting human, animal, and plant health. Plant- and animal-borne pests and diseases, including toxins and disease-causing organisms, must be carefully controlled, and the reaffirmation of WTO rules in this area strengthens the Agreement in a significant way.

Chapter 13 and 14 focus on telecommunications and E-commerce. These are some of the most important pieces of the Agreement before us. They promote, instead of hamper, growth in these areas. Chapter 13 ensures non-discriminatory access to public telecommunications networks in the Member countries, and requires the signatories to regulate their dominant telecommunications suppliers in ways that will ensure a level playing field for new market entrants; deregulation and technological neutrality are the key goals. Costa Rica is of particular note because of its government-provided telecom services, and the Agreement has special requirements for this country to open its market to American competition. Additionally, Chapter 14 builds on these goals by prohibiting discriminatory regulation of electronic trade. This chapter represents a major advance over previous international arrangements with regard to E-commerce.

The protection of Intellectual Property, IP, rights must be a part of any Free Trade Agreement, FTA, and Chapter 15 complements and enhances existing international standards in this area. It requires the Parties to ratify or accede to several existing agreements on IP rights, including two significant World Intellectual Property Organization agreements to which the U.S. is already a Party.

Chapter 17 sets out the Parties' commitments and undertakings regarding environmental protection. It draws on the North American Agreement on Environmental Cooperation and the environmental provisions of other recent U.S. FTAs, including those with Jordan, Chile, Singapore, Australia, and Morocco. DR–CAFTA goes further however, and notably is the first American FTA that includes a process for public submission on environmental enforcement matters. The Parties must ensure that their laws provide a high level of environmental protection, and no Party may strive to weaken these laws to promote trade with Another.

The Committee on Energy and Commerce has jurisdiction over the areas I have discussed—as well as jurisdiction over non-tariff trade barriers generally—and my Committee plans to continue to exercise its jurisdiction over trade barriers to further the expansion of free and open foreign commerce.

Finally—and aside from the actual text of the Agreement—this implementing legislation offers an opportunity to show the people of the developing countries of Central America and the people of the world that when we speak of freedom and liberty and the importance of self-rule, we mean every word of it. The still-struggling, but nascent democracies of the DR–CAFTA countries need political stability to continue to grow. Economic stability and growth are important parts of that goal. Passing this legislation will help to tie these countries' futures to our own, and to reinforce our own democratic principles.

Mr. Speaker, I would again like to commend all the parties that made this Agreement possible, and to once again urge my colleagues to support unimpeded trade with foreign nations and to help strengthen economic and political stability in our hemisphere through the adoption of DR–CAFTA.

Mr. SHAW. Mr. Speaker, I yield 2 minutes to the gentleman from Kentucky (Mr. LEWIS), a member of the House Committee on Ways and Means.

Mr. LEWIS of Kentucky. Mr. Speaker, I rise to register my strong support for H.R. 3045. For too long, the U.S. has watched from the sidelines while other nations have traded in the global marketplace. Thanks to the leadership of President Bush and the chairman of the Committee on Ways and Means, the gentleman from California (Mr. THOMAS), we passed the Trade Promotion Authority Act in 2001. This important legislation allowed the administration to engage with other countries and find opportunities for U.S. companies to sell their products to new customers. DR-CAFTA is another step towards knocking down trade barriers and opening new markets for U.S. products. DR-CAFTA countries are the second largest U.S. market in Latin America.

The debate on CAFTA has gone on for a long time. Like many of my colleagues, I have reviewed a lot of information. The most important thing we must remember is that this agreement levels the playing field. Right now, nearly 80 percent of imports from the DR-CAFTA countries already enter the United States duty free. Again, 80 percent of imports from CAFTA countries already enter the United States duty free. By leveling the field, we are opening markets to U.S. goods.

After passage, DR–CAFTA will immediately provide duty-free treatment to 80 percent of U.S. industrial products and 50 percent of agricultural products. This means jobs for U.S. workers and farmers. For the textile industry, DR-CAFTA will maintain the link between the U.S. and the region. Once passed, more than 90 percent of all apparel made in the region will be sewn from fabric and yarn made in the United States. This will allow the U.S. and the region to compete against China imports. As we heard earlier, China is a concern to some of my colleagues.

Finally, trade is key to freedom. By passing DR-CAFTA, we are making a firm commitment to the leaders of these Central American countries who are fighting corruption and supporting economic reform. President Bush has made DR–CAFTA his top priority. The U.S. Trade Representative has done an outstanding job in putting together this agreement, and Chairman Thomas and Subcommittee Chairman Shaw have successfully moved the agreement through the legislative process.

Let us finish this job and pass CAFTA now, tonight.

Mr. RANGEL. Mr. Speaker, I yield 2½ minutes to the gentleman from North Carolina (Mr. Jones), a distinguished Member of the House and of the majority party.

Mr. JONES of North Carolina. Mr. Speaker, I thank the gentleman from New York for yielding me this time, and I am pleased and honored to be here to say it is time to defeat CAFTA.

This is not what we need for American workers nor what we need for those in Central America. I come from North Carolina, and I want to be on the floor tonight to speak on behalf of those 200,000 North Carolinians that lost their jobs because of NAFTA. I want to be on the floor to speak on behalf of the 2.5 million American workers that lost their jobs because of NAFTA.

NAFTA has been a failure for the American worker. Proponents of NAFTA promised that agreement would reduce illegal immigration in this country. Since then, 1993, Mr. Speaker, illegal immigration is up 350 percent. It does not work. CAFTA is NAFTA's ugly cousin. In fact, 85 percent of what is in the CAFTA bill is in the NAFTA bill. It is a cousin that is not very attractive at all.

Mr. Speaker, let me share with you and those on the floor tonight that I received a letter written to every Member of Congress from seven legislators, seven legislators from El Salvador, Nicaragua, Guatemala, and Honduras. Seven of these representatives, elected like we are by the people of those countries to speak out, have said that the CAFTA market has fewer than 9.2 million people who can buy U.S. goods. They say that this should be defeated.

Just a couple more points, Mr. Speaker. I want to quote from this letter: "Our countries want trade, but trade agreements like CAFTA that limit the possibilities for our countries to enact policies that will truly develop our economies and improve the lives of our people." This CAFTA bill will not help the people in Central America and will not help them in this great Nation of America.

I want to take one more moment, and then I will close. I think how sad it is that we have lost so many manufacturing jobs in this country. How can a Nation remain strong without a strong manufacturing base? I want to close by putting this out on the floor. How sad would it be if 15 years from now we have to order our tanks and planes from China, and then drape the coffins of our heroes who have died from this country with flags that say "Made in China," or "Made in Honduras."

Let us defeat this evil bill called CAFTA.

Mr. SHAW. Mr. Speaker, I yield 2 minutes to the gentleman from Georgia (Mr. Linder), a distinguished member of the Committee on Ways and Means.

Mr. LINDER. Mr. Speaker, I thank the gentleman for yielding me this time.

I was actually here when NAFTA was passed, and I voted for it. And I represented northeast Georgia, where all the textile mills closed over the next 10 years. When we voted on NAFTA, the unemployment rate was 6.0 in Georgia, and 10 years later it was 2.8. They did not have textile jobs, but they had jobs.

I spoke with President Clinton about it, and he said this is a jobs bill. And I said, Mr. President, this is not a jobs bill. Jobs come and jobs go. They go to cheaper fingers. It is a modest foreign policy agreement between two increasingly friendly countries that share a 2,000 mile border.

I actually own a plant in Mexico. You can pay them 58 cents an hour. But you pay them on Friday and they do not show up on Monday, and it gets very expensive as a businessman to rehire and retrain your workforce every Monday. So we now pay them $5.50 or $6.00 per hour, plus health care and profit sharing. And they are buying houses, planting grass, and buying American products. This is what happens in the world. You make their economy better, and they buy more American products. And we should continue to do that.

This is a modest foreign policy agreement between America and five countries plus the Dominican Republic that will make them safer and us safer in our hemisphere.

In one of the speeches that Chris Patton made, who was the last British Governor of Hong Kong around the time of NAFTA, he said "If a spaceship had come from some foreign galaxy and landed in the teepee huts of North America or the typhoid streets of London or the warring clans of France, they would have concluded within a millisecond that China would rule the world for centuries. China had discovered gun powder, the printing press, and had a rich and engaging culture. And then she built a wall around herself and history told a different tale.

Free trade agreements are about tearing down those walls.

Mr. RANGEL. Mr. Speaker, I yield for the purpose of making a unanimous consent request to the gentleman from Michigan (Mr. Kildee).

Mr. KILDEE. Mr. Speaker, I rise in strong opposition to CAFTA.

Mr. Speaker, I rise in strong opposition to the CAFTA.

My statement can be summed up in two words: job loss.

We are voting today on an outsourcing agreement, not a trade agreement.

If anyone here thinks that CAFTA will help our economy, they need to look at the report prepared by the international trade commission.

The ITC says that CAFTA would actually increase our trade deficit with Central America while benefiting our economy by less than one-hundredth of one percent.

This same report says that sugar, textiles, apparel, electronics, transport, coal, oil and gas industries will see job losses if CAFTA is approved.

And in the case of sugar farmers and workers—like the 5,000 in Michigan—the report says job loss will be 38 times that of other industries.

The sugar industry is a major economic driver in my district and state, adding $525 million to the economy every year.

It's unbelievable that we are even here talking about destroying the lives of so many Michigan families, just so we can increase our trade deficit with Central America.

as a Nation, we need to get our priorities straight.

CAFTA's big brother, NAFTA, cost this country one million jobs.

And since NAFTA, our trade deficit with Canada and Mexico has increased by $100 billion.

Why then, did U.S. trade negotiators use the NAFTA model to construct CAFTA?

I implore my colleagues to make a stand with me today to not make the same mistake we made with NAFTA.

Let's tell our constituents that their jobs are more important than big business panning for cheap labor. Vote "no" on the CAFTA.

Mr. RANGEL. Mr. Speaker, I yield 3 minutes to the gentleman from Washington (Mr. McDermott), a senior member of the Committee on Ways and Means, and who, without his research and support, we never would have the Africa Growth and Opportunity Bill and who has worked on every trade agreement that we have passed in this House.

Mr. McDERMOTT. Mr. Speaker, a question you might ask tonight is: Why are we passing this Central American Free Trade Agreement?

Today, the President of the United States came up to the Republican caucus and someone reported to me that he made some statement equal to, we have had a marvelous year. Now, if you think about what has gone on in the last 6 months, you would have a hard time finding any marvelous year. I must have missed it somewhere.

Our trade deficit is as big as it has ever been in our history. So is this a fix for that? If we pass the Central American Free Trade Agreement, will that fix our problems in trade?

Let me put it in perspective for you. The combined economies of these six countries is $85 million GDP. That is equivalent to Tampa, Florida, and the neighborhood around it. That is what kind of place we are talking about. We are talking about a little bitty place.

Now, what do they have down there? Well, they have lots of poor people. Right? Good workers. Hard workers. A lot of them go to a lot of trouble to try to come up here and get into this country. And people wonder why? Well, it is because they are hard-working people. They are tough, they work hard, and they go through a lot of stress and strain. So if we can keep them down in their own country and keep them working down there where they do not have any laws and move our jobs down there to them, well, who wins in that?

I guess they get a 50-cent-an-hour job. That is a real improvement. With no protections, no guarantees from a union that they are going to have health care or education or worker safety or any of the things that our workers have in this country. But we have got a cheap workforce.

You heard the gentleman from North Carolina (Mr. JONES) talk about one of the underlying things here. One of the ideas about this bill is if we can keep them down there, they will not be coming in up here. We will stop that immigration. Let me tell you something, folks. It has not stopped it from Mexico. It is not going to stop it from Central America. These people know. They are not stupid. They may be poor, but they can figure it out. And they can figure out working for 50 cents an hour down there is not as good as coming up here and getting involved in even the most menial jobs in this country.

So what we are saying is we have negotiated a treaty. Did we negotiate a trade agreement with the workers? No. If you look at every single one of those countries, they are all the same. They have a very thin elite who control the whole country, and have for centuries. And all we are doing is giving them more power to work on their workers. That, in my view, is not fair to the workers, and it is not an honest way for this country to operate. We are setting no example for the world by keeping poor workers down.

Mr. Speaker, I rise in support of the American worker and American business, and the best way I can do that this week is to vote against CAFTA and I urge every I Member to do the same.

We know better, it is as simple as that.

CAFTA is bad public policy that has no place in a 21st century global economy.

Free trade between the United States, and the Dominican Republic and Central America is vitally important, but it has to be fair trade and CAFTA does not measure up. We have known this about CAFTA for some time.

For over a year, the American people kept hearing that CAFTA was coming, but it never arrived. The majority didn't have the votes because they had not earned the votes—even within their own party—by floating a blatantly unfair agreement that fails repeatedly to make real gains and real change.

For over a year, Democrats and many rank-and-file Republicans repeatedly urged the majority to act like statesmen and not henchmen for the administration.

Instead, Republican leaders have chosen destructive confrontation instead of constructive dialogue. If their strong arm tactics succeed, America will have an unfair international trade policy that would not help Central America much and will harm America a lot.

The omissions are glaring in CAFTA—chief among them: environmental protection, worker rights, and fair policies that could benefit every American business, not just a few.

As the largest market in the world, United States international trade policy should be leading the world, not following special interests, which have only their own interests in mind. But that is not the case in CAFTA, which retains protectionist trade policies that benefit U.S. textile interests and no one else.

CAFTA represented a real opportunity for the United States to apply what we have learned—both good and bad—from NAFTA and all the other trade agreements implemented over the last decade.

In CAFTA, we could have supported American jobs and American companies. We could have led the region into creating real family wage jobs instead of any wage employment.

There is so much we could have done but what we have is a Republican majority attempting to export their philosophy of the Haves and Have-nots. "Greed is good" should not be the mantra that comes from CAFTA.

The United States and Central America need an honest trade agreement that represents the best of America and CAFTA doesn't come close. Vote to keep America as a beacon of hope and not a bastion of greed.

We need to renegotiate CAFTA and the first step in that process is to vote "no" on this hopeless, helpless, and hapless agreement.

Mr. SHAW. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Texas (Mr. BRADY), a member of the Committee on Ways and Means who has been very active in putting together this agreement.

Mr. BRADY of Texas. Mr. Speaker, I thank the gentleman for yielding me this time. In recent years, a bipartisan Congress, Republicans and Democrats together, has extended our trade hand to the Muslim people of Morocco, the sub-Saharan nations of South Africa, our Asian allies in Singapore, and Arab friends in Jordan. Why would we now refuse to extend the same hand of trade to our Hispanic neighbors in Central America?

This ought to be larger than raw partisan politics. This is a test of American leadership in a changing world. We cannot claim to be fighting for American jobs yet turn our backs on 44 million new customers in Central America, already the tenth largest buyer of America's goods and services, when much of the world has firmly posted "America need not apply" signs on their markets.

We cannot claim to be serious about winning the textile war against China if we turn our back on the partnership with Central America where our textile workers in America and Central America can compete and win against the surge of China's imports.

□ 2115

And we cannot claim to be the world's beacon of freedom if we turn our back on Central America, a region which 20 years, amid civil war, chose the values of freedom and democracy, and, to their credit, have made absolutely remarkable progress in free and fair elections, rule of law, human rights, labor rights, and environmental protections.

Central America has painfully pulled itself up the ladder of democracy. Rather than kick them back down as opponents suggest, we ought to continue to extend our hand of trade to help them pull themselves up even further.

America must not retreat or disengage. We must not abandon our commitment to democracy and human rights in our hemisphere. We must continue to stand for economic opportunity at home and abroad. This Central American trade agreement is a test we cannot fail.

Mr. RANGEL. Mr. Speaker, I yield 2 minutes to the gentleman from Idaho (Mr. OTTER) on the other side of the aisle.

Mr. OTTER. Mr. Speaker, in my other life I was a salesman. As a salesman, I negotiated a few trade agreements, trade agreements between my potato company in Idaho and McDonald's all over the world; in fact, 82 foreign countries.

I would venture to say that I could challenge anybody on this floor that I sold more potatoes, more French fries, more product for more money than probably anybody else in the United States Congress. So let me come at this from a little different perspective, and the reason I want to come at it from a little different perspective is because I cannot flimflam. I cannot overpromise and underdeliver hoping that people will forget in a couple of years, a la NAFTA.

Mr. Speaker, when I was working, my boss said, you come home with an order, you come home with an agreement, you get an agreement from somebody, you better perform on it.

So I would do this tonight, Mr. Speaker. I would tell Members, everybody that wants to adopt this agreement, put your job on the line. If in 2 years all of the things that you say are going to come true do not come true, quit. Quit the United States House of Representatives, because, my friends, you are the salesmen for the United States.

If you want to stand behind this trade agreement, you go ahead. But I am not; I would not risk, if I were you, your job on this, because as Patrick Henry said, I have been one lamp that guides my path into the future, and that is the lamp of experience.

We have experienced NAFTA. And by the way, as we stand on the shoulders of those Founding Fathers that built the very foundation of philosophy and politics that we stand on today, let me also quote George Washington who said. If to please the people we promise that which we ourselves disprove, how will we later defend our work?

You will not be able to defend your work, folks. Give it up.

Mr. SHAW. Mr. Speaker. I guess that challenge would go in both directions.

Mr. Speaker. I yield 2 minutes to the gentleman from Indiana (Mr. CHOCOLA).

Mr. CHOCOLA. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, we have heard a lot about manufacturing jobs and about the trade deficit tonight. I think we will probably hear more.

As one of the very few Members of this body who actually spent my entire adult life in manufacturing, I rise in strong support of DR-CAFTA. The reason I support it is because during my business career, I learned a couple things. One of the first things I learned is that when you are trying to export your goods outside the United States, no tariffs is a good thing. When you do not have to pay tariffs for your products you are exporting, you are more competitive, you sell more of your products, and you create more jobs.

The other thing I learned is that in business you have to make your decisions based on facts. If you make your decisions based on rhetoric, you will go out of business pretty darn quickly. When it comes to the trade deficit, the facts are that 82 percent of our trade deficit comes from countries we do not have trade agreements with. Thirty percent of our imports come from countries we do have trade agreements with. while 40 percent of our exports go to countries we do have trade agreements with. And 96 percent of the world's consumers are outside of the United States.

Mr. Speaker, the facts are if we are serious about creating jobs, if we are serious about reducing our trade deficit, we must tear down trade barriers and give American companies access to the world's consumers, and that is exactly what DR-CAFTA does. I urge all of my colleagues to support it tonight.

Mr. RANGEL. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. BECERRA), someone who has studied and is very familiar with this legislation.

Mr. BECERRA. Mr. Speaker, President Reagan said it best: Trust, but verify. On CAFTA, that is all we are asking. I think most of us believe that the Central American governments want to prove that they can play by the rules in the international marketplace, but before we agree to open up America's markets, and that means America's jobs, to fierce competition, we must know that the rules will be followed and enforced. Trust, but verify.

An agreement that merely says enforce your own existing laws fails President Reagan's test. The truth is if the American public knew that we were about to open up America's markets to further international competition based solely on the good faith of our competitors, they would run us out of Washington. Just as no consumer today would buy or sell a house on a handshake, neither should we open our markets with one.

When we shook hands with China and allowed them to receive favored-trading status with America, did we expect that they would respond by pirating America's goods or by paying industrial wages of 60 cents an hour? That is the kind of cutthroat competition that CAFTA will permit, but this time that kind of distorted competition will live and breathe in our neighboring Central American countries, not 6,000 miles away. Will the Central America countries feel the pressure to trade under America's standards or China's standards?

Mr. Speaker, no one wins in a race to the bottom. The vast majority of people in the Central American countries, the workers, the farmers, the small merchants, would not win, and certainly U.S. businesses will not win in the long run.

Mr. Speaker, it is better to lift all boats so we can trade as partners and as equals. I recognize the importance of trade in our hemisphere. I have supported every piece of legislation for every trade agreement that has come before me in my 12 years in Congress. Regrettably, this is not a trade agreement I can support. It does not reward work in America or Central America. It is not an agreement that deserves our vote. Vote "no" on CAFTA.

Mr. SHAW. Mr. Speaker. I yield 2 minutes to the gentleman from Wisconsin (Mr. RYAN), a distinguished member of the Committee on Ways and Means.

Mr. RYAN of Wisconsin. Mr. Speaker, I have been sitting listening to this debate, and there are some points that are being missed. Everybody says we should not open our markets to Central America. They are already open to Central America. We already gave them free access to the American market.

Everybody says this is going to encourage companies to relocate to Central America. That is what we are doing today. The current system is an incentive to relocate because right now an American company can move to Central America, build their equipment or product there, and bring it back tariff free to the United States.

Right now if we want to sell a product into these countries, we have to build it there. We have to relocate jobs there if we want to sell it there in order to avoid these tariffs.

Mr. Speaker, what this simply does is open up their markets as we have opened up ours to them. It takes a one-way trade agreement and makes it a two-way trade agreement because we are already giving them free and fair access. That is what I call fair trade, having them treat us as we treat them.

Look at what it does in just my own State of Wisconsin. The corn tariffs, our tariff on corn, 35 percent; tariff on their corn, zero. That goes to zero tomorrow if this passes.

Tariff on American soybeans going into the CAFTA countries, 20 percent; tariff on theirs coming here, zero. Our tariffs goes to zero tomorrow.

Manufacturing goods, most of our products in the State of Wisconsin that are exported is our manufacturing sector. This takes those manufacturing tariffs and drops them so we can export more manufacturing goods and keep these jobs in Wisconsin. This is good for our States. This is good for our economy.

I heard Members say it is bad for labor. Most Republicans and Democrats voted for the Moroccan trade agreement. This is even stronger than that Moroccan trade agreement. This is the strongest labor agreement of any trade agreement that we have brought to this floor to date.

Mr. Speaker, lastly, it is no secret the antidemocracy movement is trying to stop this. Let us strike a blow for democracy and help these fledgling democracies and pass this bill.

Mr. RANGEL. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. PAUL).

Mr. PAUL. Mr. Speaker, I thank the gentleman for yielding me this time.

I rise in strong opposition to this legislation. As many Members know, I frequently vote no in this House because I have a very strict rule. The rule is I look to Article I, section 8 for authority. Article I, section 8 gives very precise items that we have authority over. One is foreign commerce. We, the Congress alone, have authority over regulating foreign commerce.

This bill is a violation of that provision in the Constitution. We as a Congress have done something over the past several years that is unconstitutional in transferring this power first to the President and then to an international bureaucratic agency. This is wrong. It is not practical. It is not beneficial, it is unconstitutional, and it is a threat to our national sovereignty.

Members say it is not a threat to our national sovereignty and that we can veto what they tell us to do; but it does not happen that way. If we were interested in free trade, as the pretense is, you could initiate free trade in one small paragraph. This bill is over 1,000 pages, and it is merely a pretext for free trade.

At the same time we talk about free trade, we badger China, and that is not free trade. I believe in free trade, but this is not free trade. This is regulated, managed trade for the benefit of special interests. That is why I oppose it.

There is one specific provision in this bill that bothers me a lot, and that has to do with the Codex Alimentarius. These are rules and regulations written by the WTO, accepted by the European community, and it is specifically mentioned in this bill in chapter 6, paragraph number 6, and it talks about a forum where you can come and complain about regulation on vitamins and nutritional products.

If Members are interested in freedom to buy vitamins without going to a doctor for a prescription, you have to vote against this bill. If you want international harmonization of nutrition and vitamins, you can vote for this bill, but I am opposed to that, and most Americans are as well. Vote no on this legislation.

Mr. SHAW. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I will supply to the gentleman who just left the well the case number of the case which settles this. This is certainly within the bounds of the Constitution.

Mr. Speaker, I yield 2 minutes to the gentleman from Indiana (Mr. BURTON).

□ 2130

Mr. BURTON of Indiana. Mr. Speaker, I would like to talk to my colleagues who were here back in the early to mid-1980s, some of the older gentry in this body. Do you remember when we saw the Contras and the Sandinistas fighting and the bodies in the streets of Nicaragua, Managua? Do you remember all the wrangling that went on in this place because of the war down there? Do you remember the FMLN in El Salvador and the killing that went on down there?

The same people that were involved in the leftist movements down there that Fidel Castro was supporting, the Communists down there that Che Guevara was supporting are the same people that are opposing CAFTA today because they believe in a different form of government and a different approach to government. The Sandinistas are opposed in Nicaragua to CAFTA. The leftists throughout Central and South America are opposed to CAFTA because they do not want free enterprise to flourish down there. They do not want trade to flourish.

I would like to say to my colleagues tonight, look back at history. It is extremely important that you think about not only trade, but the security of the United States and immigration. When the wars broke out in Nicaragua and El Salvador, there was a massive migration of people to the United States. Go to Miami today. There are a lot of people who illegally came into this country from El Salvador and Nicaragua because they were fleeing the war down there. The people who could not afford it came up through Mexico and started coming across the border.

I submit to you tonight if we do not pass CAFTA and help stabilize those fledgling democracies and deal with the poverty problems down there, that we are going to have more wars down there, we are going to have more civil disorder and insurrection. There are governments down there that are trying to undermine fledgling democracies with their largesse, and they are going to continue to do it. What we have to do to combat that, in my opinion, is to support CAFTA, support trade, which will create more jobs down there and create an economy that will keep people at home and stop massive immigration into the United States. If we do not, in my opinion, there will be wars there, there will be massive immigration, and the security of the United States as well as the immigration problems will increase.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume.

The gentleman from Indiana is really so entertaining. After he got past Fidel Castro, I was ready for Osama bin Laden and Saddam Hussein. Now that you mention it, I think we ought to have a search for weapons of mass destruction. I do not know how short you are on votes, but I want the gentleman to know, I appreciate his edification of how serious it can be. The Communists can come back.

Mr. BURTON of Indiana. Mr. Speaker, will the gentleman yield?

Mr. RANGEL. I yield to the gentleman from Indiana.

Mr. BURTON of Indiana. I love you, man. You know that. But I have got to tell you, the Sandinistas and the leftists in Central and South America are against this for the reasons I stated. If you really believe in stability in our hemisphere, and you do not want to see more conflict and massive immigration, this is a good vehicle to vote for. And I love you, man.

Mr. RANGEL. You have access to secret information from what I read in the paper, so be careful what you say because you may have to go to Niger.

Mr. Speaker, I yield 2 minutes to the gentlewoman from Ohio (Mrs. JONES), a member of the committee.

Mrs. JONES of Ohio. I would like to thank the gentleman from New York for this opportunity to be heard.

Mr. Speaker, I rise today against CAFTA because the agreement not only lacks significant labor protections for workers in the CAFTA countries, but also lacks necessary support for American workers. Charity begins at home. Let us not talk about our neighbors' workers. Let us talk about our own workers. With international trade comes economic pain.

The United States has lost 2.8 million manufacturing jobs since January 2001. In Ohio, we have lost 200,000 jobs. Past administrations and Congresses have acknowledged a relationship between international trade and domestic job losses by having created the Trade Adjustment Assistance program in 1962 and subsequently expanding it. The program assists workers who have lost their jobs due to international trade by extending unemployment compensation and providing job training. Training is arguably the most important TAA component, as education and learning new skills is essential to finding a new job.

During the Ways and Means Committee markup, I introduced an amendment that addressed that problem in order to keep up with worker demand. Unfortunately, that amendment was rejected. Additionally, during CAFTA markup, the Senate Finance Committee adopted an amendment that would have expanded TAA. Unfortunately, that provision was stripped from the CAFTA legislation. So right now there is nothing in TAA or in this final CAFTA legislation to assist American workers that have lost their jobs. Even a provision that Chairman THOMAS originally included in the bill is stripped from the legislation. That study would have looked into whether TAA should be expanded as a result of any negative effects of CAFTA.

So I ask, where is the commitment to the American worker in the CAFTA bill? NAFTA, CAFTA, SHAFTA for American workers.

Mr. SHAW. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio (Mr. OXLEY).

Mr. OXLEY. I thank the gentleman for yielding me this time.

Mr. Speaker, I am pleased to rise in support of this trade agreement. This has enormous upside potential for financial services. As chairman of the Financial Services Committee, we have studied this issue at great length. The opportunity for American financial services companies to provide services in the DR-CAFTA region is truly a unique opportunity for those companies. We would be foolhardy if we were to ignore the opportunity for a two-way street in providing those financial services.

Let us review the bidding. The Caribbean Basin Initiative essentially was a one-way street. That is going to expire. This is an opportunity for American companies, financial services, manufacturers, farmers, to be able to introduce their products to these markets. Currently over 80 percent of the exports that come in from the Caribbean countries come in duty free in this country, unlike some of the rules that restrict our ability to do that in that region.

This is a huge opportunity for my home State of Ohio, whether it be manufacturing or whether it be agriculture. It is easy to talk about job losses, but the idea is to actually improve the opportunity to expand exports into these countries. This Congress time and time again has approved free trade agreements, with Australia, with Chile, with Morocco and other countries, on a large bipartisan majority. Why would we ignore the opportunity in our own backyard to improve the markets and to improve the ability of our exporters to penetrate those markets when we are doing the same for other countries throughout the globe? This is an incredibly important statement. Let us support this free trade agreement and move on.

Mr. RANGEL. Mr. Speaker, I yield 2 minutes to the gentleman from North Dakota (Mr. POMEROY), an outstanding member of the Committee on Ways and Means.

Mr. POMEROY. Mr. Speaker, I represent the family farmers of the Red River Valley. They are descendants of the families that broke the prairie of the northern plains and are now raising sugar beets as part of an industry that they have grown with their own sweat and tears. This industry from the farmers to the workers in the processing plants today amounts to an economic impact of $2 billion to $3 billion and nearly 30,000 jobs in our rural region alone.

The CAFTA deal places all of this at risk. It allows sugar to pour in from the CAFTA countries whose wages have no relation to ours, and whose environmental protections in their plants are all but nonexistent That is just the start, because this will serve as a precedent for any number of trade deals with sugar-producing countries to follow.

Some supporters argue we should not even have a domestic sugar industry anymore, that these farms and these jobs should be sacrificed at the altar of free trade just like so many jobs that have been lost in the flawed trade deals that have gone on before. We are now at the deepest trade deficit in the history of our country. My colleagues, this year we are on track to import more food than we sell. The United States of America. A net food importer.

This has to end. When will it end? When will we decide U.S. jobs are worth fighting for and that the economic hopes and dreams of our families are what we ought to be representing? It should end tonight. Tonight we stand for our constituents, their jobs, their lives, their hopes and dreams of a better life. Tonight we need to defeat this bad trade deal. Let us win one for the American people. Vote "no" on CAFTA.

Mr. SHAW. Mr. Speaker, I yield 2 minutes to the gentleman from Arizona (Mr. KOLBE), a great advocate of free trade.

Mr. KOLBE. I thank the gentleman for yielding me this time.

Mr. Speaker, I rise in strong support of the Central American Free Trade Agreement. CAFTA is a little trade agreement with small economic consequences for our country, but it is a huge national security issue with enormous implications for our entire foreign policy. With CAFTA, we can close the book and forever put the decade of the 1980s behind us, or we can start at the beginning and relive the nightmares of earlier chapters in U.S. relations with Central America.

In a single generation, Central America has been transformed from a region of conflict, instability, and authoritarian regimes to a region of peace, emerging democracies, and growing prosperity.

Today we cast our votes for more than a trade agreement. We are voting for an initiative that will strengthen democracy and promote prosperity in our hemisphere. It is a vote that will have enormous consequences for U.S. national security, because without economic growth and opportunity for the nations and people of Central America, the U.S. will inevitably be confronted with growing political instability and social unrest in our own backyard. Deprive Central America of economic opportunities, and we run the risk of a return to authoritarian regimes and a rising tide of illegal immigration from people without jobs and without hope.

None of us want to return to the dark days of the 1980s when the Sandinistas and the rebel groups prospered from economic policies that left people desperate for a better life, but no one stands to gain more from the defeat of CAFTA than President Hugo Chavez of Venezuela. Fueled by $100 million each day of oil money, President Chavez is already meddling in Central American affairs and would like nothing more than to pick up the pieces of an economic policy in a region shattered by the defeat of CAFTA. The Washington Post editorialized that Mr. Chavez has spread his money around the region, sponsoring anti-American and anti-democratic movements and promoting alternatives to U.S. initiatives.

Those in opposition say CAFTA will increase poverty, spur immigration, ruin the environment, and exploit workers. Nothing could be further from the truth. Certainly CAFTA does not fix all the problems facing Central America, but increased economic integration can only add jobs and help alleviate poverty, reduce the flow of migration northward, and make our region more competitive in world markets.

Mr. Speaker, let us turn the page and write a new chapter of partnership with the peoples and the countries of Central America. I urge an "aye" vote.

Mr. RANGEL. Mr. Speaker, I yield 3 minutes to the gentleman from Ohio (Mr. BROWN), who has worked very hard in trying to perfect this legislation:

Mr. BROWN of Ohio. I thank the gentleman from New York for yielding me this time.

Mr. Speaker, I have been privileged to work closely with dozens of Democrats and Republicans in building a strong coalition against the Central American Free Trade Agreement. I would like to thank the gentleman from North Carolina (Mr. JONES), the gentleman from Idaho (Mr. OTTER) and their staffs for their outstanding efforts in helping to build this coalition. I thank the gentleman from New York (Mr. RANGEL), the gentleman from Michigan (Mr. LEVIN) and the gentleman from Maryland (Mr. CARDIN) for their leadership, as well as Tim Reif and Julie Herwig and, in my office, Joanna Kuebler and Brett Gibson for their outstanding work. A special thank you to the members and staff of the CAFTA whip operation, a grassroots bipartisan operation numbering literally in the hundreds, made up of Members and staff on both sides of the aisle.

□ 2145

CAFTA faces broad and deep opposition because it was crafted by a select few for a select few. More than 200,000 Central Americans have protested the Central America Free Trade Agreement. In the United States, thousands, literally thousands of Democrats and Republicans, business and labor groups, small manufacturers, family farmers and ranchers, religious leaders have called on the administration not to reject any CAFTA, but to renegotiate this Central American Free Trade Agreement. We do want trade with Central America, but we want a trade agreement that deserves to pass Congress based on its merits.

CAFTA supporters have resorted to toothless side deals and strong-arm tactics. Late last week, a CAFTA supporter and member of the congressional leadership said they would win this vote by twisting arms until they break in a thousand pieces. By twisting arms until they break into a thousand pieces. When facts fail, they twist arms. They make deals. They buy votes.

The CAFTA debate is not a Democrat or Republican issue. The call to renegotiate crosses party lines and ideologies, as we have seen tonight. Tonight's debate is about social and economic responsibility to our families in this country and our communities and our trading partners abroad. This agreement is about U.S. companies moving plants to Honduras, outsourcing jobs to El Salvador, and exploiting cheap labor in Guatemala. It is not about lifting up standards in the developing world. It hurts our families in this country. It does nothing for the Dominican Republic and the five Central American countries.

Mr. Speaker, when the nations' poor can buy American products, not just make them, then we will know finally that our trade policies are succeeding.

Mr. SHAW. Mr. Speaker, I yield 2 minutes to the gentlewoman from Florida (Ms. ROS-LEHTINEN), who knows what it is like to lose freedom in her native country.

Ms. ROS-LEHTINEN. Mr. Speaker, I thank the gentleman from Florida for yielding me this time and for his great leadership on this important issue.

America is the beacon of hope, the beacon of freedom and hope and opportunity for so many people. It was the beacon of hope and opportunity for my family when we came over from Cuba. America spreads democracy to every corner of the world. We stand firm in the belief that every person is entitled to the freedom that we in the United States are so fortunate to enjoy. Open trade and free markets with democracies play key roles in sustaining that vision.

This House tonight will demonstrate our unwavering commitment to the spread of democracy by passing CAFTA. Some countries in this region were riddled with internal strife and political instability. I know. I represent many of those people who escaped from that internal strife in their countries. Although many of them have traveled a long way toward democracy in their homelands, now their homelands have arrived. They have democracies, and they are flourishing. But they need our help.

CAFTA will be a critical tool in maintaining this momentum towards a prosperous future. Not only will it promote expanded development and openness in the region; CAFTA will also create new opportunities, economic opportunities, jobs and growth, by eliminating tariffs, by promoting transparency, and by opening markets to U.S. products going abroad.

We have a commitment to work together to promote civil society, the rule of law, and to spread democracy throughout the world; and CAFTA–DR will help us achieve that commitment.

(The gentlewoman from Florida spoke in Spanish.)

Mr. RANGEL. Mr. Speaker, we are privileged on this side to have someone who is very familiar with that area, who worked hard and became a Member of this body.

Mr. Speaker, I yield 2½ minutes to the gentlewoman from California (Ms. SOLIS).

Ms. SOLIS. Mr. Speaker, I thank our ranking member for yielding me this time, and I thank the Members in the House tonight.

I have to tell the Members that, as a proud member of Congress, the only Member of Congress of Nicaraguan descent, I am proud to say that my mother just returned from Nicaragua. The news was not a happy sound at all. Poverty, yes, is very bad. The people there are looking for leadership in the U.S. House of Representatives. They are asking us to vote down CAFTA because they know that the government there does not realize that the people there have been suffering for over 40 years. And to this day, they are looking for Members in the House to provide support so that people there can have dignity and respect.

Why is it that we can pass an agreement like this that does not allow for people in those countries, in El Salvador and Nicaragua and Costa Rica, to collectively bargain? Why is it in El Salvador two people who were trying to organize were shot to death in front of their houses? Why is it that we have to stand up and allow for that disgrace to occur when this country is so rich and so wealthy that we cannot provide other types of aid and assistance so that people can be empowered to do what they choose to do, to build their houses, to have dignity, to have health care?

What we are doing and are proposing tonight is that the pharmaceutical companies would take away very important medical assistance to people who are dying of HIV and AIDS in Guatemala. How dare we decide the destiny of people in Guatemala by saying we are going to raise the price of medicine for them and for their children. Yes, they are going to want to come to this country because do the Members know why? We are cutting them off at the knees.

And as a proud member of the Hispanic Caucus, 14 members, a majority of that caucus, voted against DR–CAFTA.

We need to go back to the table. We need to have more transparency. We need to stand up for those young women who are going to be drawn into those jobs, who are going to be abused, who are currently being abused even in Mexico.

I would just like to tell the Members that in Mexico, where my father was raised, in the area of Ciudad Juarez, the people who were attracted to those jobs were ages 14 to 20 years old. These are young women who were drawn into the maquiladores. They are the same type of individuals that we have drawn into these types of factories that will work in El Salvador and Nicaragua. Right now there are some free trade zones there. The people that I see lining up for those jobs are 14 and 16 years of age, working 12 hours a day, in an encampment where they are not even allowed to go to the restroom without having permission.

We do not need DR–CAFTA. Please vote for humanity, for respect for the people of Latin America and Central America. I stand tall with the Democratic Party.

Mr. SHAW. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would say to the gentlewoman in the well that this bill contains an unprecedented amount of capacity-building in which we will give assistance to these countries to enforce their own labor laws, more than in any other bill that has ever come to the floor of this House. Also, the enforcement provisions are within the trade bill itself.

Mr. Speaker, I yield 1½ minutes to the gentleman from South Carolina (Mr. INGLIS).

Mr. INGLIS of South Carolina. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I had real doubts about CAFTA as it started. In particular, representing a textile district, there were three specific concerns. And the very exciting thing is that this House really went to work to fix those. I am looking at the gentleman from California (Chairman THOMAS), who has worked very hard with us, along with Rob Portman, USTR, to address those concerns.

Three of them: one was pockets and linings. That is important only if one comes from a district that makes pockets and linings, I suppose. Another was Mexican cumulation. And then a third was the Nicaraguan TPL.

In working through Rob Portman's office and through the chairman, we were able to get some progress on those, some commitments for some supplemental agreements, some implementation agreements that will address those concerns and go a long way toward fixing the problem in the textile world.

It is not perfect. There are some still in textile districts that are not sure. But I stand here tonight certain that CAFTA is a wise Western Hemisphere strategy. I stand here convinced that it is the best strategy available to combine with our neighbors to the south to compete with the Chinese. If I am concerned, and I am concerned, about the future of the textile industry in competition with China, the best way that I see to fix that is to combine with our neighbors to the south. So I particularly call on those from textile districts to consider is there a better strategy.

This is the best strategy available. Let us vote for CAFTA. Let us pass it and get on with this good strategy.

Mr. RANGEL. Mr. Speaker, I have been reminded by staff that the Costa Rican Government has not approved of these changes; but since they are merely side agreements, I guess that means it is on the side.

Mr. Speaker, I yield 1½ minutes to the gentleman from Texas (Mr. DOGGETT), a distinguished member of the Committee on Ways and Means.

Mr. DOGGETT. Mr. Speaker, it is possible to enjoy the many benefits of trade extolled here tonight without having a race to the bottom on working conditions. It is possible to enjoy the benefits of expanded trade without endangering our environment. It is possible to enjoy trade without yielding our sovereignty by granting foreigners more legal rights than Americans will have under this agreement—special preferences that these foreigners can use to undermine our health and safety laws. It is possible to have a modern 21st-century trade policy, which recognizes that we cannot measure the benefits of trade solely on how many widgets move across the border while forgetting what happens to the workers and the air we breathe and the water that we drink.

But it is impossible to accomplish any of this when the negotiators for our side come from an administration that cares as little about workers in America as those in Honduras, an administration that views the environment as just something to exploit.

I am against CAFTA because, basically, I am against protectionism. I reject an administration that protects polluters, that protects corporate wrongdoers, that protects those who think that arrogance alone can represent an effective foreign policy. I am proud to stand with the NAACP and LULAC and the League of Conservation Voters and so many Americans, who say we need a new trade policy, not yet another failed foreign policy from a narrow-minded administration.

Mr. SHAW. Mr. Speaker, I yield 1½ minutes to the gentleman from Michigan (Mr. KNOLLENBERG).

Mr. KNOLLENBERG. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I think everybody knows. They have heard quite a bit this evening.

Trade adds growth, generates more jobs, and raises our standard of living. Passing CAFTA–DR will bring more of these benefits to our economy.

Let us be very clear: it will. This is a big deal for America.

We already have a trade agreement with the CAFTA–DR countries. It is just not good enough. It is only one way. Currently, 80 percent of their exports come into the U.S. duty free. In fact, about 5 years ago, 309 Members of this House voted in May of 2000 to unilaterally cut and eliminate our tariffs on their goods to help their economies. And I have the list, 183 Republicans and 126 Democrats.

Tonight, those same Members can now vote in favor of this trade agreement which will eliminate their tariffs on our goods and help our economy. And then when this agreement goes into effect, 80 percent of our manufactured exports and 50 percent of our agricultural exports will be immediately duty free. The rest will be phased out over 10 years.

I do not think we can ask for a better deal, and it is about time we evened the score. The facts are clear. CAFTA–DR is a great deal for America.

By the way, I have those results, if anybody is interested, of the vote 5 years ago.

□ 2200

Mr. RANGEL. Mr. Speaker, I yield 2 minutes and 10 seconds to the gentlewoman from Ohio (Ms. KAPTUR).

Ms. KAPTUR. Mr. Speaker, I thank the esteemed Ranking Member from New York (Mr. RANGEL) for granting me this time.

I want to begin by saying, Mr. Speaker, that DR–CAFTA will give us more of the great sucking sound that we said NAFTA would accelerate, and, indeed, it did: 1 million more lost U.S. jobs, worsening squalor in Mexico, huge trade deficits with Mexico and Canada, as we predicted would happen.

I urge those who have been offered a deal tonight for your vote not to trade your conscience for a deal.

If you think about this, American icon companies leaving our country are—just a month ago, Brunswick Bowling Balls left Muskegon, Michigan, adding to this trade deficit, taking 115 more jobs; and then last week from Nashville, Louisville Ladder Group, 110 more lost jobs; and then this week a Kansas radiator company leaving announced it was leaving for Mexico. These jobs go to places where working conditions are abominable, as the gentlewoman from California (Ms. SOLIS) has so well documented tonight. Sweatshops rule the day.

CAFTA will fuel more such trade deficits as with Mexico, more illegal immigration as people, desperate, try to find some type of refuge north. We know illegal immigration has doubled just since NAFTA passed. We know CAFTA will increase drug trafficking, sexual harassment of women in the workplace. Environmental conditions will worsen. CAFTA will keep Central American workers in sweatshop conditions by rolling back enforcement provisions of the Caribean Basin Initiative, CBI. Indeed, the administration has cut the U.S. contribution to the International Labor Organization for child labor enforcement by 87 percent. What kind of commitment is that?

CAFTA will regress democratic reform in the countries where our Central American neighbors live.

Your conscience should not allow you to vote for this flawed approach that will bring lower wages and benefits, exploitation and hardship to individuals in our country and our sister nations, where full liberties do not exist. Our policy should be free trade among free people.

Mr. SHAW. Mr. Speaker, I yield 2½ minutes to the gentleman from Michigan (Mr. HOEKSTRA).

Mr. HOEKSTRA. Mr. Speaker, today we have an historic choice to make. It is a choice to unite America and our partners in Central America and the Caribbean in the continued march for progress and democracy, or a choice that pushes them into the arms of Bolivarian socialism, the clutches of Venezuela's Hugo Chavez and Cuba's Fidel Castro.

Mr. Speaker, if we fail to pass DR–CAFTA, then we will potentially undermine the stability of our regional democratic allies across Central America and the Caribbean Basin. Worse, we will open the door for the Venezualan-Cuban alliance to fill the vacuum created by our failure to construct an economic security partnership with Central America and Caribbean democracies.

This weekend I had 300 pages translated for me to see what the people or the governments in Venezuela and Cuba were saying about this agreement. Castro and Chavez want to defeat CAFTA. I encourage my colleagues to go to the Web page, read the agreement between the President of the Bolivarian Republic of Venezuela and the President of the Council of the State of Cuba for the implementation of the Bolivarian alternative for the Americas. They have an alternative vision for Central and South America and the Caribbean, and it does not include the United States. Read this agreement and see where they are headed. Read their documents. Venezuela, politics of oil and energy.

The sixteenth World Youth and Students Festival is going to meet in Caracas, Venezuela, August 7 to August 15. Here is what they have to say: Venezuela has the potential to become a center of resistance to imperialist intervention in Latin America. Holding the festival there will be a strong answer of the progressive youth of the world to U.S. imperialism designs to pacify working people in Latin America. Where has the youth conference been held before? In 1947 it was in Prague, 1949 in Budapest.

Now is the time to stand with our allies in Central America. In the war on terror, they have been there with us. Four of these countries have sent troops to Iraq. All six of these countries are part of the coalition to defeat terrorism. Build the relationships with these countries who have stood with us. This is a good agreement. Let us move forward, and let us vote "yes" on CAFTA.

Mr. RANGEL. Mr. Speaker, I yield 2 minutes to the gentleman from Alabama (Mr. DAVIS).

Mr. DAVIS of Alabama. Mr. Speaker, I thank the gentleman from New York for his leadership on this issue.

Let me begin with an image the President of the United States laid out before us. In his inaugural address very close to where we stand today, the President said that we have the capacity as a superpower on this planet to change the world, to reform it, to make it a better and more democratic place.

I wish that with respect to this debate, I say to the gentleman from New York, that those same values and that same vision had been brought to the floor, because the reality is that, as one who believes an American power can make a difference, this agreement is a missed opportunity.

Instead of taking these nations that struggle so much day in and day out, instead of challenging them to move to a better place, we gave up and we accepted the status quo. And one of the cruelest and strangest arguments, I say to the gentleman from New York, that I have heard tonight is that somehow we are not standing by these countries if we defeat this agreement.

What a bizarre, upside-down world we would have, Mr. Speaker, if we think that we are standing by these countries when we are not standing by the millions of children between the ages of 5 and 14 who got up to go to work this morning, will get up to go to work again tomorrow morning. What a strange and bizarre world if we think we are standing by these countries when we cannot stand by the dignity of their women. And what a strange and bizarre world if we think we stand by these countries when we do not stand by their voiceless and by the people who work and who are shot down in fire because they speak up for their political rights.

For the Republicans and the conservatives who support this agreement, if you believe in what your President said, if you believe that the superpower has the capacity to help remake this world, then let it begin in Central America, and let it begin by pushing these nations to do better.

The final statement I will make is that this is a values statement. We hear the word "values" in this Chamber a lot. Well, the strongest value is what we take of our conscience and how we extend it to other people. A value is whether or not we push others to do better, and we fall short on the value scale tonight.

Mr. SHAW. Mr. Speaker, I yield 2 minutes to the gentleman from Colorado (Mr. BEAUPREZ), a valued member of the Committee on Ways and Means.

Mr. BEAUPREZ. Mr. Speaker, I thank the chairman of the Subcommittee on Trade for yielding me this time.

After what we just heard from the gentleman from Alabama, I simply have to respond. We had a meeting, we members of the Committee on Ways and Means had a meeting with the six economic ministers of these countries, and I have to tell the Members of this body that it was those ministers who sat in front of us and begged us, be our economic mentor, be our political mentor. Help us as developing countries to become like the great country of the United States of America. They held their hand out.

I have heard all night long about phantoms and ghosts and about how terrible things are going to happen if the United States of America, the greatest country on God's green Earth, would not reach out and grasp a hand that is reaching toward us. How in the world can we leave an empty hand? How can we spit in that very hand and say, no, you are not worthy somehow to participate in the freedom, in the dream that we as United States citizens have?

It says right up there, "In God We Trust," and we ask God to bless us, and God has blessed this Nation. We are the greatest Nation on God's green Earth, and it is nations like the United States of America that are good neighbors. This is a good neighbor trade agreement. Neighbors help neighbors. This is a chance to do the right thing.

Mr. Speaker, I have heard all night long, I have heard all night long about the horrors that are going to happen. You can go looking, when you get up in the morning, you can go looking for reasons to not do something. I was raised by a guy who got up in the morning and looked for reasons to do something, to show up. .

This is a bill, this is a trade agreement that allows us to do the right thing, to do the right thing for American workers, because the day it is signed, $1 billion worth of tariffs, like an anvil around their neck, goes away.

I was in the farming business. I know what competitiveness is about. This will make our workers more competitive. This is good for America, and good for our friends in Central America. Let us support CAFTA. Let us do the right thing.

Mr. RANGEL. Mr. Speaker, I yield 2 minutes to the gentleman from Tennessee (Mr. FORD).

Mr. FORD. Mr. Speaker, I thank the gentleman from New York for yielding me this time.

I have voted for every trade agreement. I say to the gentleman from California (Mr. THOMAS), that has come before this Congress; all the ones that have been listed tonight. I was not here when NAFTA passed, my dad was, but I probably would have voted for it had I been here. Large employers and others in my district and farmers all across my State benefit when markets are open.

But I ran into a problem not long ago. I was traveling through a little area, and, as a matter of fact, the son of this mayor in Crossville, Tennessee, came to me today, Mayor Graham's son, and I ran into a lady who was there with her daughter and granddaughter. Now, the grandmama had just lost her job from a little company called Mallory in Crossville. She is about, almost 60 years old. The daughter is a middle school teacher, eighth grade teacher, and the 11-year-old granddaughter is going to sixth grade.

I felt bad for the grandmother, and I felt okay for the mom, because she had a job. The grandmother worked almost 30 years. But I felt worse for the 11-year-old, because I think about all of these trade agreements and trade policies, and I got to tell you, I like the idea of us being able to sell goods anywhere.

I come back to what the gentleman from Idaho (Mr. OTTER) said a little while ago here. I do not know what to tell the 60-year-old grandmother anymore, because I used to tell them that jobs would be created once we did these things, but she lost hers. She is past her prime, so where does she go? Does she move to India, China, Singapore, Canada, Mexico? I doubt it. The daughter at least has a job. But the granddaughter is 11 years old, and we did not have a national strategy to teach her math, science, or any of the essentials that she needs to learn to compete in a global society.

President Clinton, who supported all of these trade agreements, at least had an investment agenda that accompanied his trade policies. We have neither now.

The challenge before this Congress this evening is not whether we pass this trade bill in the interests of some of my dear friends in the financial services and in the computer and IP industries and entertainment industries; the question we have tonight is, what are be doing for the 11-year-old girl? Sure, we can produce movies here in town, but will we be producing it here? Sure, we can make things and have the capacity to do it, but will we be making things here?

I ask my colleagues, as somebody that supported you all the time, I say to the gentleman from Florida (Mr. SHAW), how do we answer that 11-year-old granddaughter in Crossville, Tennessee?

I will vote "no" on CAFTA this evening.

Mr. SHAW. Mr. Speaker, I yield 2½ minutes to the gentlewoman from Connecticut (Mrs. JOHNSON), a distinguished member of the Committee on Ways and Means.

Mrs. JOHNSON of Connecticut. Mr. Speaker, this is how we answer that little girl. We tell her the world that she is going to work in is going to be a world in which there will be better labor laws better enforced.

For the very first time ever, the International Labor Organization spent 1 year working with these countries to upgrade their labor laws, and, everyone agrees, their labor laws meet the core standards of the ILO. For the very first time ever, the ILO is going to be the enforcement mechanism to see that those laws are enforced as enforcement is always the weakness. Always the weakness.

Many of you voted for the Jordan Free Trade Agreement. Many of you voted for the Moroccan Free Trade Agreement. Not nearly as good of a body of laws in those countries, and the enforcement was: You must be making efforts towards; you must be striving to enforce. In this labor agreement, in CAFTA, the ILO will come in and review every 6 months and publicly report every 6 months: Are you implementing the plan?

Now, they have written the plan. You can see whether they will have implemented the plan, because it is laid out, how many inspectors, and so on and so forth. It is all detailed. They will be accountable for implementing those plans.

Those Presidents whom we met with were proud that they are upgrading their labor law and upgrading their enforcement. This is capacity-building. The very first Free Trade Agreement or trade agreement that focuses on capacity-building, building the ability of departments of labors within these governments to enforce domestic labor law which meets international labor standards, and the International Labor Organization is going to be there to oversee it, and we are putting money behind it. We are, and others are.

This is a unique labor agreement. It really, really pains me that there is so much ignorance about the details of this agreement. You sit with the people who negotiate an agreement, you sit with the economic ministers, you sit with the Presidents, and you get a concrete, tactical sense of the tremendous strides they have made through the agreement to improve new labor laws and enforcement capacity. This is not status quo; this is going to change their world and protect their workers.

□ 2215

Now, if in addition you care about fair trade, and you want to walk the walk of fair trade and not just talk the talk, then you better remember, their goods come in, no tariffs, no duties, no nothing into our country.

Do you not think our guys deserve the same right? To me that is fair trade. Level the playing field. Our products should have the same access their products have. And their people deserve the same respect our people do. They do not deserve a double standard.

Mr. RANGEL. Mr. Speaker, I yield 30 seconds to the gentleman from Rhode Island (Mr. KENNEDY) for purposes of correcting the record.

Mr. KENNEDY of Rhode Island. Mr. Speaker, just to answer the lady about walking the walk and talking the talk, this administration and this Congress just cut child labor enforcement around the world by 87 percent in our dollars that we contribute to the international labor organization.

So on the one hand for people to say that we are really strengthening labor law, but on the other hand not putting the dollars behind it to make sure children are protected to me does not sound like we are walking the walk that we are so talking the talk.

Mr. SHAW. Mr. Speaker, I yield 2 minutes to the gentlewoman from Pennsylvania (Ms. HART).

Ms. HART. Mr. Speaker, I rise in support of the DR-CAFTA agreement. And I stand here supporting it from a district that has a pretty significant portion of organized labor, and a district that has a pretty significant portion of manufacturing.

Many of my colleagues who support this agreement are from very similar districts. One might wonder why, if one has been listening to the arguments from the other side of the aisle all night. But one does not wonder why if one made the phone calls into the district like we have been making over the last several months, talking to employers about this agreement.

And what we have learned was that companies employing from 12 to 600 are excited about this. American companies with American employees, many of them organized labor, are excited about this agreement. And why? Because they have a very difficult time getting their products into Central America as it is today.

That is because there are very high tariffs on our products going into Central America. Right now Central American countries have very little, if any, barrier getting their products into the United States. It has been that way for 20 years. But one of the best ways we can help move them forward is to get our products into Central America.

Partially because a lot of their industrial development needs to be advanced, and we have the products to help them do that. How to raise their standard of living? Certainly raise their quality of manufacturing. Raise their opportunity to sell quality goods, give us the opportunity to help them do that.

Interestingly enough, the arguments we hear do not seem to make any sense; they are very circular. We have to oppose this because we will hurt Central Americans, but we have to oppose this because we will hurt Americans. Neither of those arguments holds water.

This agreement is good for Central America, it is good for the United States manufacturing, and I urge my colleagues to support it.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentleman from Georgia (Mr. SCOTT).

Mr. SCOTT of Georgia. Mr. Speaker, tonight we stand on the precipice of doing something great for America. And I think we ought to pause for a moment and ask the question: What would the American people want us to do here tonight?

Well, I am here to tell you what I think the American people want us to do. The American people who are watching television tonight, they are hoping with their fingers crossed that finally, finally the Congress will stand up for America.

We stood up for Morocco, we stood up for Singapore, we stood up for China, for India. Now we are about to stand up for the nations in Central America. America is saying, when are you going to stand up for us, the workers, the backbone of America?

This CAFTA is fraught with weaknesses in terms of labor rights all throughout. Ever since we have had our trade agreements, just over the past 10 years we have lost 3 million jobs, manufacturing jobs. We have lost 2½ million jobs to China, to India in servicing.

I say to you tonight, stand up for America and America will be very thankful and very proud that we did. Vote "no" on CAFTA. Let us send it back, and let us fix it.

Trade agreements must benefit both workers and corporations. CAFTA benefits corporations but does not benefit workers. CAFTA fails to include adequate protections for workers. In fact, the U.S. State Department has documented numerous areas where CAFTA countries failed to comply with even the most basic minimum labor standards and worker's rights.

CAFTA will cost American jobs and this is the Achilles' heal in our approach to trade agreements which I find most disturbing. Were sending millions of jobs overseas and manufacturing plants are closing in America because of our trade policies. In the last 10 years, we have lost 3 million manufacturing jobs and nearly 1 million financial services and call center jobs to China and especially, India because of our trade agreements.

CHINA AND INDIA ARE EATING OUR LUNCH

We must fix this "outsourcing of American jobs" problem in this CAFTA bill before we move forward with it. During one of our Financial Services Committee hearings, I asked Federal Reserve Chairman Alan Greenspan what he thought was the big threat to the American economy and he said the 'loss of jobs, the loss of skilled jobs." We are lossing too many American jobs to overseas foreign markets and we are not investing in retaining, retooling our workforce for the technically skilled jobs of the 21st Century.

Finallty, we need to ask ourselves how the American people want us to vote on CAFTA tonight. All over the country, they are watching us to see what Congress is going to do. I am there to tall you that the people of America wants us to stand up for Americans, for change. In our trade agreements, they want us to keep American jobs in America, to protect workers' rights protect the environment, and stop out sourcing jobs to other countries.

Vote "no" on CAFTA so that we can go back and fix this imbalance. We can do this and still keep trade benefits for American corporations.

To night, let's stand up for American. Ladies and Gentlemen vote "no" on CAFTA.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentleman from Louisiana (Mr. MELANCON).

Mr. MELANCON. Mr. Speaker, I have got a lot of emotions running through me tonight. I represent a sugar area. But more important than that, I come from a sugar family. My three sisters and I owe our education and our families and our success to an industry that has been around in Louisiana for 225 years.

It is an efficient industry. It is a good industry. It is the same hard-working people that get up in the West and get up in the East and get up in the North every morning. They are no different. They have just been attacked by the big multinational corporations, and you keep falling for it. NAFTA was horrible.

We were lucky, we had a side letter. We are still negotiating sugar 10 years later. I do not see any benefits for workers, for sugar people. We have given away textiles. We have given away steel. We have given away fruits and vegetables. Now let us just go ahead and give away everything and be dependent on every other country for our food and our defense.

Mr. SHAW. Mr. Speaker, I would remind the gentleman in the well that the vast majority of our agriculture community vigorously supports this bill.

Mr. Speaker, I yield 2½ minutes to the gentleman from California (Mr. HERGER).

Mr. HERGER. Mr. Speaker, I represent one of the richest agricultural districts in the world in Northern California, in the northern Sacramento Valley. And this CAFTA agreement will create important new export opportunities for the Northern California farmers and ranchers I represent.

Three nations have already ratified this one-of-a-kind agreement. However, if this enacting legislation fails, the prospects of approving any similar agreement for the Central American countries fail as well.

Placed in a broader historical context, in May of 2000, I joined 308 of my 435 colleagues in lowering or eliminating completely the tariffs on products entering the U.S. from CAFTA nations. At the time there was no reciprocal treatment, and our U.S. products continued to face high tariffs in CAFTA nation markets.

The ratifying bill now before us will immediately zero out tariffs on 50 percent of U.S. agricultural products exported to the region, with the remaining scheduled to be reduced and eliminated over time.

This is vitally important to all U.S. agriculture, especially in my home State. California produces 350 different agricultural commodities and is America's largest agricultural exporting State. When fully implemented, it is estimated that CAFTA could help boost U.S. agriculture exports by $1.5 billion.

I firmly believe trade must be a two-way street. Currently, our Nation's agricultural exports like rice, almonds, pistachios, and dried plums, grown in my district, face average tariffs of 35 to 60 percent.

As I previously stated, we already allow 99 percent of CAFTA nations' imports duty free. Mr. Speaker, CAFTA will level the playing field for American agriculture and will help producers from California and other States gain valuable new export opportunities. I urge my colleagues on both sides of the aisle to approve this measure.

Mr. RANGEL. Mr. Speaker, I yield 1 minute the gentleman from Ohio (Mr. KUCINICH), a former Presidential candidate.

Mr. KUCINICH. Mr. Speaker, the average hourly earnings of U.S. manufacturing workers was $16.01 in March of 2004. The average hourly wages for Honduran workers producing goods for the U.S., 90 cents.

CAFTA is about institutionalizing cheap labor. Multinational corporations want trade agreements where they can make a profit by closing factories in the U.S. and moving jobs to places where workers have no rights and work for very low wages. Cheap labor.

Now, I have traveled across America. And I have seen the effects of agreements like NAFTA and CAFTA: padlocked gates of abandoned factories, grass growing in parking lots of places where workers used to make steel, used to make washing machines, used to make textiles, used to make machine parts.

Free trade has meant freedom for the American worker to stand in the unemployment line while their jobs were traded away. So-called free trade has brought broken dreams, broken homes, broken hearts to the American manufacturing worker. Trade without equity is tyranny. Trade without economic justice is theft. Trade without integrity, without workers' rights, without human rights, without environmental principles is not worthy of a free people.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentleman from Maine (Mr. MICHAUD).

Mr. MICHAUD. Mr. Speaker, I thank the gentleman for yielding. As a mill worker at Great Northern Paper Company for over 30 years, I rise in strong opposition to CAFTA. Two days after I was sworn in as a Member of Congress, I learned that the very mill that I worked at, that my dad worked at for 43 years, my grandfather before him for 40 years, filed bankruptcy and was shutting down.

The reason? Unfair trade policies that have devastated our industry. Job loss is something that we Mainers know all about. In Maine, in the wake of NAFTA, we have lost 23 percent of our manufacturing base in the last 3 years alone. The unemployment rate in certain areas is over 30 percent.

CAFTA takes most of the language right out of NAFTA. It only has promises of more job losses. Business organizations, family farms, church groups, Republicans and Democrats are united in opposition to CAFTA.

I ask my colleagues tonight, do not sell the American people out for some back-room deal. Our workers deserve more.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentlewoman from California (Mrs. CAPPS).

Mrs. CAPPS. Mr. Speaker, I thank my colleague for yielding.

Mr. Speaker, there are many reasons to oppose the CAFTA-DR deal. But I want to talk about one reason that has not gotten much attention, the inclusion of tobacco products.

Mr. Speaker, tobacco is a unique commodity, killing millions of people around the globe each year. Trade agreements are supposed to benefit consumers by spurring competition and reducing prices for beneficial products such as wheat, computers, and auto ports.

While increased trade may offer a range of benefits for exporters and importers alike, these benefits do not apply to tobacco products. Reducing tariffs on cigarettes, other tobacco products, or removing public health measures that may run afoul of trade agreement's rules on non-tariff barriers is going to result in increased smoking rates, needless preventable deaths, and disease. That is a fact.

Tobacco products were excluded from the tariff schedules in the U.S.-Jordan and U.S.-Vietnam free trade agreements negotiated under the Clinton administration.

□ 2230

This administration has done an about-face including tobacco products in the U.S.-Chile agreement at the behest of Philip Morris. This unfortunate turn of events should not be repeated. I urge my colleagues to reject the CAFTA-DR trade agreement. It is bad for workers, it is bad for the environment, and with the inclusion of tobacco products, it is bad for health.

Mr. SHAW. Mr. Speaker, I yield 2 minutes to the gentleman from South Carolina (Mr. BARRETT).

Mr. BARRETT of South Carolina. Mr. Speaker, I thank the gentleman for yielding me time.

We have talked about a lot of different issues tonight. Let me tell you what it is all about, how it hit home with me. Stephen Felker, Avondale Mills, Graniteville, South Carolina, textile manufacturer, asked me to coming down Monday to his factory to look around, and we did. We had a wonderful tour. He showed us around, and I was on the floor taking a tour and happened to see a gentleman behind one of the weaver machines, Roosevelt Mims. This was not a staged event or anything like that. I just happened to see Roosevelt behind the weaver there.

I walked up to him and said, I am Congressman BARRETT. What is your name? He said, Roosevelt Mims. I said, Roosevelt, how long have you been working with Avondale Mills? He said, 36 years. His supervisor came over and whispered in my ear, he said, 36 years, Congressman, perfect attendance.

Roosevelt Mims is the heart and soul of this whole debate, a textile worker in Graniteville, South Carolina; a textile worker in Graniteville, South Carolina that a good CAFTA is going to save.

I do not know about you, but at the end of this debate, I am going to vote for CAFTA. I am going to vote for Roosevelt Mims, and I urge my colleagues to do the same.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the outstanding gentlewoman from California (Ms. WATERS).

Ms. WATERS. Mr. Speaker, I thank the gentleman from New York (Mr. RANGEL) for yielding me time.

Almost 2.8 million American manufacturing jobs have been lost since President Bush took office in 2001. These were good jobs with good wages, and they have been shipped overseas to countries with cheap labor. CAFTA will export even more American jobs, but it will do nothing to improve wages and living conditions in Central America.

CAFTA is not about free trade at all. It is an outsourcing agreement. It allows profit-hungry corporations to ship American jobs to impoverished countries where workers can be forced to work long hours for little pay and no benefits. It is a bad deal for Central American workers, and it is an equally bad deal for workers here in the United States.

I ask my colleagues who are thinking of voting in favor of CAFTA, how will you tell poor workers in Central America who are trying to organize labor unions and demand living wages that you voted for this agreement which does not require their governments to respect human rights or comply with international labor standards? How will you go home to your constituents and tell them you voted to export their jobs overseas? How will you tell working families in your district that you care more about corporate profits than workers wages?

I request Members to vote no on CAFTA.

Mr. RANGEL. Mr. Speaker, how much time remains?

The SPEAKER pro tempore (Mr. LAHOOD). The gentleman from New York (Mr. RANGEL) has 7 minutes remaining. The gentleman from Florida (Mr. SHAW) has 6 minutes remaining.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Mr. GENE GREEN).

Mr. GENE GREEN of Texas. Mr. Speaker, the reason we do not have enough time is we have so many speakers; but when people talk tonight about how CAFTA will help us with immigration, obviously this side voted for NAFTA, and we have had a bigger problem with illegal immigration, people who are looking for work, coming to this country.

I was in Michoacan in February and saw villages that were 60 percent depopulated because they had no opportunity to work, and that was 10 years after NAFTA. Just wait until 10 years after CAFTA. It is outrageous that we are trying to sell this as a benefit to the American worker.

The ILO is a weak sister compared to even our laws, and in this case if a country in Central America or Dominican Republic does not enforce their laws, they pay themselves a fine. Come on now. This is so outrageous. I cannot believe we even have it on the floor.

To say we are worried about Venezuela the way we are worried about Cuba, do not sell it on that. Sell it on that we are really friends with Costa Rica and Nicaragua and Guatemala and the Dominican Republic. Say we are friends with them, and let us make sure they have a decent standard of living.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the distinguished gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, there is a dump in Nicaragua where 700 adults and children pick through fields of rotting garbage for scraps of food, metal and plastic to eat and sell.

I want the American people to know that this is the trade agreement, 3,600 pages, 3,000-plus pages; not one statement is in this document that talks about protecting American jobs. Not one statement is in here that confirms that the language in the laws of labor in these particular nations refers to the children age 5 and 14 to work that are working in these dumps, that are picking up the trash in these dumps.

There is no language in here about creating American jobs. There is no specific language in here that talks about the language of labor laws that would protect the children from these dumps.

I say to you out of 3,000 pages, do you not think America deserves one line protecting their jobs? Do not you think the children of Central America deserve one specific line about keeping them from the damages of a dump in Central America?

Vote against CAFTA. It does not protect American jobs, and it does not protect children.

Mr. Speaker I rise in opposition to CAFTA though not without reservation. Increased Economic, social, and political ties with Central America are noble goals and ones for which we should strive. However, the facts behind the crafting of DR–CAFTA suggest that this is an irresponsible and rushed trade agreement.

I can support an agreement that serves to support the interests of all parties at stake. By this standard, I have based my previous votes on free trade agreements, and by this standard I have decided to vote against CAFTA. While I do not doubt that several parts of the US economy will benefit from passage of this bill I shudder at the repercussions that will face many of our manufacturing industries.

Increased trade with this region will lead to an increase in economic exchange and probably to overall job growth. I also recognize that overall job growth as a result of NAFTA in all likelihood exceeded job losses. However, trade agreements should not be judged by job loss and creation statistics alone. CAFTA will undoubtedly create more opportunities for exports to Central America and will produce more wealth, but where does that wealth go? Thousands of hard working Americans will lose their jobs under CAFTA. Will they benefit from the increased trade with Central America?

The problem with wealth created through free trade agreements is the high probability it will not reach the average worker. The example of NAFTA proves this point. Some economic gains in both the Untied States and Mexico have made from NAFTA, but there is scant evidence as to the improvement of the livelihood of the average worker. The fact of the matter is that NAFTA has lead to neither improved working conditions in Mexico nor a windfall for higher paying jobs here in the U.S. Instead it has lead to more employer who pay their employees 5 dollars per day. There simply has not been enough effort on the part of the US or the Mexican government to ensure that the poor and middle classes benefited from the accord.

Trade agreements should be implemented to increase the standing of both nations and help both all people. We must guarantee the protection of rights and wellbeing of the poor. Without this guarantee, we can not nor we will we make strides in fighting poverty. In the words of the Great Cesar Chavez, "What is at stake is human dignity. If a man is not accorded respect he cannot respect himself and if he does not respect himself, he cannot demand it." When the lower classes have no power or support, they cannot stand up and fight for themselves. Poverty reduction must be a key factor in all trade agreements.

The United States does not see such indept poverty. I have been to Honduras and Guatemala and have seen the pain and suffering of the masses. In Guatemala, over 75 percent of the population lives below the poverty line. In Nicaragua, the GDP per capita is $2,300. This sort of endemic poverty is far too common in the region. At the "La Chureca" dump in Managua, Nicaragua about 700 adults and children pick through fields of rotting garbage for scraps of food, metal, and plastic to eat and sell. For these residents, the dump is home—one laden with disease and danger, broken bottles and old tires, cardboard-and-tin shacks, grazing cattle, circling buzzards, screeching bulldozers and smoke that often obscures the sun. This is poverty on a level most Americans have never seen.

In order to fight this poverty, we must be committed to a comprehensive plan to help the poor. I would like to think that free trade agreements would alleviate poverty in third world nations, but unfortunately, the facts prove otherwise. Conditions in Mexico over the past 10 years demonstrate this fact quite succinctly. Since the passage of NAFTA, environmental problems along the border with Mexico have worsened, drug trafficking and violent crime in the border regions have increased, and violence against women has intensified. Ten years ago, there were few reports of rape and kidnappings of women in northern Mexico, today they are wide spread. These are not the indicia of progress.

In order to ensure progress, we must establish a system of improved standards in education, labor, and environment, among others. In this regard, the DR–CAFTA fails drastically. The DR–CAFTA does not have sufficient labor protection provisions. This omission of labor standards will result in the continuation of awful and unconscionable labor conditions for both adults and children. What concerns me most is the use of child labor throughout the region. Child labor is an activity that must eradicated from of all corners of the world. The DR–CAFTA contains no provisions that would prevent or alleviate the use of child labor. The DR–CAFTA fails to enforce international labor standards set by the International Labor Organization. This will result in the continued use of child labor in the fields and factories of the signatory countries. With this agreement, many will make money on the backs of Central American children, literally. These Children will be our beast of burden. I cannot accept an agreement that allows others to increase their profits margins on the backs of children. These children should be in school getting educated, not toiling on a farm for 5 dollars a day under the hot Central American sun.

It seems clear to me that under the current system of "free trade to fight poverty," sufficient resources are not being used to help the poor. Businesses are often more interested in the bottom line then the bottom of society. Foreign governments are often far too eager to invite these companies into their nations. This is not the best manner to help fight poverty in the third world. In order to fight poverty, we must insist on the resources used to protect the poor, not exploit them. We must insist on better labor and environmental standards in order to ensure that the poor also benefit from free trade agreements. Fair trade should be our paramount concern.

Supporters of the bill have claimed that its passage is imperative for Central America and will be mutually beneficial to all parties. They also argue that since 80 percent of goods from the DR–CAFTA countries already enter the United States duty free as a result of the Caribbean Basin Initiative and on that basis we have no reason to fear job exportation to the region. They argue that if job exportation was to happen, it would have occurred all ready. Yet, they also argue that passage of the DR–CAFTA is imperative for Central American economies to succeed. It seems to me that while they use the 80 percent duty free number to quell fears of job exportation, they somehow forget it when they talk of the necessity of the agreement for Central America's economies. If the DR–CAFTA countries already import 80 percent of their goods duty free then they have already received most of the benefits of a free trade agreement!

I am not opposed to allowing Central American nations to import many of their goods duty free. I believe that this number, 80 percent duty free importation, is a good number because it was designed to help alleviate poverty in the region. It has succeeded in doing so. Central America is far better off today then it was 20 years ago. Yet, this duty free access also means that it is not imperative for the US to pass this legislation. Since these countries already import 80 percent of goods duty free, the remaining 20 percent will not have such a dramatic effect. The USTR should have taken the success of the Caribbean Basin Initiative and used it to negotiate a fair and balanced trade agreement. Clearly, passage of this bill is not imperative to the economic well-being of Central America. So why were the USTR and the Bush administration so hasty in forcing execution and enactment of this agreement? Because of the success of the Caribbean Basin Initiative, we have the leeway to send this agreement back to the Bush Administration and ask that it not return until it has an agreement that genuinely benefits the poor and marginalized sectors of society both here in the United States and in Central America and the Dominican Republic.

The DR–CAFTA is not a fair trade agreement. It is a mechanism to support business interests in the United States and Central America. In the United States, we have sufficient labor standards to accommodate business interests. Over the past 200 years, the labor movement in this country has fought diligently to provide us with these protections. In Central America, these safeguards exist on paper, but not in practice. When we submit to special interests in this situation, we forfeit work protections. Therefore, we must insist that our trade agreements contain more then an expansion of business interests, they must contain provisions that expand social and justice interests. We must ensure that trade agreements benefit all of the people, men and women, young and old. This agreement fails to meet these standards and therefore should not be supported.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentleman from Chicago, Illinois (Mr. DAVIS).

Mr. DAVIS of Illinois. Mr. Speaker, I do not profess to know everything that CAFTA is going to do, but I do know that when I wake up in the morning, my congressional district has lost more than 150,000 good-paying manufacturing jobs. I know that we make candy. We make a lot of it. We used to be called the Candy Capital of the World. But my candy makers are leaving because the price of sugar is too high.

I was told and I was hoping that CAFTA would help reduce the price of sugar for my candy makers. It will not. Therefore, there is no reason for me to vote for CAFTA, and I shall not.

Vote "no" for CAFTA.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentleman from Oregon (Mr. BLUMENAUER).

Mr. BLUMENAUER. Mr. Speaker, I am about to cast my first vote ever against a trade agreement. While this has very little impact overall in the United States economy, it is very important for the direction of our trade and economic policy. Are we going to continue to parcel out piecemeal agreements? When pushed, are we going to cut side deals and understandings like we have done of late with citrus and steel and textiles and sugar? Are we going to fail to own up to our own agriculture subsidies?

We do not do a very good job in this country anymore enforcing our own labor laws. I am no longer interested in one more suboptimal agreement. Because it has such a small impact, there is no excuse for not advancing workers and their environment at home and abroad. There is no reason to settle for this agreement, and I urge its rejection.

Mr. RANGEL. Mr. Speaker, I yield for the purpose of making a unanimous consent request to the gentleman from North Carolina (Mr. ETHERIDGE).

Mr. ETHERIDGE. Mr. Speaker, I have supported trade agreements that have come through this body since I have been here, but this one falls short. I stand in opposition to the legislation.

Mr. Speaker, I rise today in reluctant opposition to the implementation legislation for the Free Trade Agreement with the Dominican Republic and Central America, known as DR–CAFTA.

Throughout my service in the U.S. House, I have supported policies that encourage export promotion because exports can play an important role in strengthening our economy. But our economic policies must work to build the American middle class by investing in education, training and health care for working families as well as expanding access to new markets for our products. Our trade policies must lift living standards in other countries whose workers will compete for American jobs. If American workers are forced to compete with workers from countries without a growing standard of living, the race to the bottom will lower the economic opportunities and quality of life for everyone. I firmly believe that America must exert our global economic leadership to promote democracy and economic growth, but that engagement must be matched with a commitment to empower middle class Americans to compete and win in the global economy. We can do better than this DR–CAFTA, and we must.

First, as a member of the House New Democrats Coalition, I have worked with administrations of both political parties, including the Bush administration, to promote policy for sound economic growth and a growing middle class. I have met with business leaders and officials from each of the DR–CAFTA countries, and I recently traveled to visit Honduras and El Salvador to see for myself the conditions of these trading partners. Although I want to help the peoples of the DR–CAFTA countries to secure their democracies and build economic opportunities, this free trade agreement fails to erect the conditions necessary for those goals. For example, in Honduras, I saw oxen pulling carts as a primary means of industrial production and impoverished workers struggling to eke out a meager living. Without strict, enforceable labor standards, these workers will suffer exploitation of market forces without enjoying any upward mobility. I also want to see our trading partners make the kind of commitment to education and infrastructure that we have in the U.S. that has provided us the foundation for our economic growth and rising living standards for our people.

Unfortunately, this DR–CAFTA represents a step backwards in strengthening labor standards, and thereby standards of living, abroad. Specifically, DR–CAFTA is a step back from the progress made in the Jordan Free Trade Agreement and even the rules under the Generalized System of Preferences, GSP, and the Caribbean Basin Initiative, CBI. America must maintain our global economic leadership and be a force for rising living standards with all of our trading partners so that broad-based economic growth creates sustainable markets for American goods and services. The countries of the DR–CAFTA accord possess some of the world's worst records for workers' rights, and this DR–CAFTA not only fails to correct this glaring problem but reverses progress made in previous trade agreements to raise labor standards abroad.

It is also important to note DR–CAFTA's weak environmental enforcement provisions. Although the agreement contains important protections for intellectual property that are subject to dispute resolution, it fails to include adequate enforcement of environmental protection, which will put American companies at a competitive disadvantage with companies in the DR–CAFTA countries. In fact, what language DR–CAFTA does contain on environmental protection and improvement of standards is explicitly excluded from dispute settlement under the agreement, rendering it meaningless. Previous trade pacts, such as the Jordan Free Trade Agreement, contain strong labor and environment provisions, and DR–CAFTA should as well.

Finally, the vote on DR–CAFTA comes at a time when the Bush administration economic program has reversed years of progress in building a thriving middle class. Instead of making critical investments in education, training and health care so working families can compete and prosper in the global economy, the administration is cutting these vital initiatives. Specifically, this administration and Congress have shortchanged our schools $39 billion they were promised in order to comply with the No Child Left Behind education reform law. And last month, the House passed an appropriations bill with devastating cuts in needed efforts for education, Trade Adjustment Assistance and other job training, and rural health care. In the global economy of the 21st century, working Americans can compete and win only if they are equipped with the tools to make the most of their God-given abilities. We need an economic policy that helps middle class families, those striving to get into the middle class and those struggling to stay in the middle class.

In conclusion, I will vote against DR–CAFTA because it is a missed opportunity to help our neighbors in the Dominican Republic and Central America and put America back on the path to a growing middle class.

Mr. RANGEL. Mr. Speaker, I yield for the purpose of making a unanimous consent request to the gentleman from New York (Mr. ENGEL).

Mr. ENGEL. Mr. Speaker, I rise in opposition to the bill, which will hurt workers and cost jobs.

I am opposed to the Central American Free Trade Agreement (CAFTA), because if enacted, it would have severe economic and social consequences.

CAFTA virtually turns back the clock on labor and environmental standards.

Many factory workers in Central America are underpaid and overworked, and CAFTA's weak labor provisions will not effectively force the Central American governments to enforce their labor laws.

If CAFTA is enacted, goods produced by industries that overwork their labor force and abuse the environment will have an unfair advantage over products manufactured in the United States.

Additionally, CAFTA threatens the livelihood of U.S. sugar producers and refineries, including Domino Sugar in my district in Yonkers. CAFTA would open the U.S. market to sugar from CAFTA countries which need not comply with the robust U.S. labor and environmental protections.

Thousands of people in Central America have protested against CAFTA. These people worry about their jobs, their health, and their families. They deserve an agreement which would improve their livelihoods and promote economic stability.

I would prefer to see reasonable, fair trade agreements which contain adequate labor and environmental protections with our Latin American neighbors.

Mr. Speaker, I have supported free trade agreements in the past when there have been adequate labor and environmental standards. But CAFTA does not measure up.

I believe CAFTA would not serve the best interests of the nation, and I urge my colleagues to vote no.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to a gentleman from California (Mr. FARR), who was a Peace Corps volunteer in South America.

Mr. FARR. Mr. Speaker, I want to ask this body what is the rush? There is no need to adopt. There is no deadlines on this agreement. Three of the six countries have not even ratified it yet. I think when we are trying to do a trade agreement, we have got to do the best that America can do.

The richest country in the world is about to enter into a trade agreement with the poorest countries in the Western Hemisphere so that we can open up nontariff issues. They send us goods without tariffs. Yes, we do not grow bananas in the United States or guanabana or platano, but we want to send them our goods so that people who are earning $2 a day can buy Two Buck Chuck.

Come on, America, can do better. You cannot have fair trade until you have basic aid. You cannot have a middle class without having schools and water and sewers. There is nothing in here; even the Millennium Fund that the President introduced, a good program, underfunded it to these countries.

You have got to build up countries so that they have a faith in themselves before they have the opportunity for a middle class. We can do better, America. Congress, put this over. Vote against it.

Mr. SHAW. Mr. Speaker, I yield myself 3½ minutes.

Mr. Speaker, I have been listening to particularly the last few people who have gotten up, and they talk about how they support free trade, but they cannot support this agreement. And I ask why. This is the strongest trade agreement we have ever had, it has the best labor standards of any that we ever had, and they voted for the others, and they cannot vote for this.

Mr. Speaker, we already have free trade. The problem is it is free trade from the CAFTA countries into the United States, not from the United States into the CAFTA countries. Now we want fair trade. We want to have the same privacy for American workers and American business, American farmers that the CAFTA countries have by having access to our markets. How can one be against that, particularly when these other countries are behind it?

We even put capacity building into this agreement so that we are assisting these countries in enforcing their own labor laws, and we put more enforcement money in this for our being able to enforce those labor laws and keep watch over these other countries.

This is a strong agreement. It is a strong agreement. But let us look at something else. The President was up here on the Hill yesterday talking to the Republican Members, and he made a statement that I think all of us can agree to, and that statement is that family values do not end at our border. And he is absolutely correct.

We know right well that any of us here as a mother and a father, that if our children are hungry, we are going to find a way to work. And so many of these countries now send their workers north into the United States, most of them illegally. We want to build jobs at home for them, permanent jobs, good jobs, and at the same time we would be able to use our markets to get to supply them.

☐ 2245

If you get a pair of blue jeans made in Honduras, it is 70 percent American content. These jobs that go to China, if those sewing factories move out and it goes to China, those same jeans are 1 percent American content. So we know that American workers, American jobs will benefit from this type of agreement. And it brings wealth into our hemisphere. Right now, in Nicaragua, the average salary, the average pay for a worker is somewhere less than $800 a year. This will help.

Politically, let us talk about it. What is going on down there politically and what will happen? We are going to be driving these countries away that are looking towards us. They are all looking north. They have democracies now, they are capitalistic systems, and they are working towards being a part of this hemisphere. And my colleagues want to kick them in the teeth? They are also supporting us in our war against terror in Iraq, and that is not an easy lift for all of these countries, I can tell you that.

This CAFTA agreement has been endorsed by a number of groups, and I would like to put their endorsement in the RECORD at this time. Former President Jimmy Carter, the American Jewish Committee, and B'nai B'rith, they have all endorsed this agreement. We have also enjoyed the endorsement by many of the newspapers, including The Washington Post and the New York Times, the Miami Herald and the Orlando Sentinel.

This is a good agreement. It is good for America, so let us vote for it.

Mr. Speaker, I submit herewith for the RECORD the letters of support I just referred to:

JUNE 8, 2005.

Hon. BILL THOMAS,
Rayburn House Office Building,
Washington, DC.

TO REPRESENTATIVE BILL THOMAS: As you prepare for your initial consideration of the Central American Free Trade Agreement (CAFTA) with the nations of Central America and the Dominican Republic, I want to express my strong support for this progressive move. From a trade perspective, this will help both the United States and Central America.

Some 80 percent of Central Americas exports to the U.S. are already duty free, so they will be opening their markets to U.S. exports more than we will for their remaining products. Independent studies indicate that U.S. incomes will rise by over $15 billion and those in Central America by some $5 billion. New Jobs will be created in Central America, and labor standards are likely to improve as a result of CAFTA.

Some improvements could be made in the trade bill particularly on the labor protection side, but, more importantly, our own national security and hemisphere influence will be enhanced with improved stability, democracy, and development in our poor, fragile neighbors in Central America and the Caribbean. During my presidency and now at The Carter Center, I have been dedicated to the promotion or democracy and stability in the region. From the negotiation of the Panama Canal Treaties and the championing of human rights at a time when the region suffered under military dictatorships to the monitoring of a number of free elections in the region, Central America has been a major focus of my attention.

There now are democratically elected governments in each of the countries covered by CAFTA. In negotiating this agreement, the presidents of each of the six nations had to contend with their own companies that fear competition with U.S. firms. They have put their credibility on the line, not only with this trade agreement but more broadly by promoting market reforms that have been urged for decades by U.S. presidents of both parties. If the U.S. Congress were to turn its back on CAFTA, it would undercut these fragile democracies, compel them to retreat to protectionism, and make it harder for them to cooperate with the U.S.

For the first time ever, we have a chance to reinforce democracies in the region. This is the moment to move forward and to help those leaders that want to modernize and humanize their countries. Moreover, strong economies in the region are the best antidote to illegal immigration from the region.

I appreciate your consideration of my views and hope they will be helpful in your important deliberations.

Sincerely,

JIMMY CARTER.

THE AMERICAN JEWISH COMMITTEE,
New York, February, 2005.

Hon. ———,
House of Representatives
Washington, DC.

DEAR REPRESENTATIVE: We are writing to express our deep support for the free trade agreement between the U.S., the Dominican Republic and Central America. (DR-CAFTA). The American Jewish Committee has been actively involved in Latin America for many decades, promoting democracy, the rule of law and respect for human rights. We actively support free trade—and therefore DR-CAFTA—as a tool to generate sustained development in the region and as a contributor to long-term potential and strategic cooperation between the United States and some of its closest neighbors.

We believe this historic pact makes sense for various reasons. Once in force, DR-CAFTA will become the U.S. second largest free trade agreement after NAFTA. As such it will surely contribute much to generate economic prosperity by securing increased trade and investment flows and thus better opportunities for the improvement of living standards for all of the people in this region who only two decades ago were immersed in civil wars. In addition, it will strengthen the ties between the U.S. and the Central American nations as key allies in the fight against narcotics and terrorism.

As an organization committed to U.S leadership in world affairs and as a friend of the Dominican Republic and the Central American nations, we urge you to support this important agreement which stands out as a shining example of our country's commitment to bolstering democracy and promoting stability in Latin America and elsewhere. It represents, undoubtedly, a joint investment in a more vibrant future for our countries and for the hemisphere at large.

We thank you for your consideration of our views.

Sincerely,

E.R. GOODKIND,
President,
American Jewish Committee.
BRUCE RAMER,
Chair,
Latino and Latin American Institute.

B'NAI B'RITH INTERNATIONAL,
Washington, DC, July 27, 2005.

Hon. KEVIN BRADY,
House of Representatives,
Washington, DC.

DEAR REPRESENTATIVE KEVIN BRADY: On behalf of B'nai B'rith International's more than 110,000 members and supporters, we write to urge your vote in favor of the Central America Free Trade Agreement. (CAFTA). B'nai B'rith, which has members throughout Latin America, strongly encourages the passage of CAFTA, a trade agreement with the Central American nations of Costa Rica, El Salvador, Guatemala, Honduras, and Nicaragua, as part of a broader support for democracy and economic stability.

B'nai B'rith, an organization with a long history of involvement in Latin America and a registered NGO member of the Organization of American States, views CAFTA as a positive step in the U.S.-Central America trade relationship, one that will greatly help the economies of Central American nations and bolster democratization in the region. As we believe that the spread of democracy is essential to the advancement of human rights worldwide, we feel that CAFTA will produce lasting and far-reaching benefits.

B'nai B'rith further recognizes the significance of the decision by Costa Rica and El Salvador to maintain embassies in Jerusalem; they are the only two countries in the wodd to do so. Costa Rica and El Salvador have persisted in keeping their embassies in Jerusalem, despite intense international pressure to move them to Tel Aviv, in what has amounted to a remarkable act of solidarity with America's greatest ally in the Middle East: the State of Israel.

We ask that you encourage these positive trends by voting in favor of CAFTA. We look forward to remaining in contact with you on this and other issues of mutual interest in the near future.

Respectfully,

JOEL S. KAPLAN,
President.
DANIEL S. MARIASCHIN,
Executive Vice President.

Mr. SHAW. Mr. Speaker, I reserve the balance of my time.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume to note that when the chairman of the Committee on Ways and Means indicated that the speech and debate clause of the Constitution allowed us to distort the truth, I had no idea where he was coming from. But I now truly understand why he opened up the debate that way.

Mr. Speaker, I yield the balance of my time to the gentlewoman from California (Ms. PELOSI), our gentle minority leader, who made certain that we did not make this a partisan issue, who struggled hard to keep this agreement and to try to get it open so that we could have input and have a bipartisan agreement, and who will close on behalf of the minority.

Ms. PELOSI. Mr. Speaker, I thank the gentleman for yielding me this time and, more importantly, for his distinguished leadership on many issues concerning America's working families. I know I speak for all our colleagues when I say it is a privilege to call the gentleman from New York (Mr. RANGEL) colleague.

I also extend my thanks to the distinguished ranking member of the Subcommittee on Trade, the gentleman from Maryland (Mr. CARDIN), for his very, very substantive review of this CAFTA treaty. It has been an enormous help to Members, and I thank him for his leadership as well.

Mr. Speaker, I rise in strong opposition to the Central American Free Trade Agreement. It is a small treaty economically, but it has enormous implications for our country. I oppose CAFTA because it is a step backward for workers in Central America and a job killer here at home.

As a Californian, and there are many of us in the Chamber this evening, we all know full well the significance of our close ties to Central America. My own city of San Francisco is blessed with large populations of Central Americans, including those who sought sanctuary from El Salvador and those fleeing decades of civil war in Guatemala. Our fate is tied with our neighbors in the hemisphere.

President John F. Kennedy recognized this in 1961 when he announced the Alliance for Progress calling for "vast multilateral programs to relieve the continent's poverty and social inequities." The Alliance for Progress included both economic cooperation and called for economic reforms as conditions of participation, just as we call for stronger labor and environmental standards today as the reasonable condition for trade agreements.

Mr. Speaker, I wish that the CAFTA bill we are debating tonight were an agreement that opened markets, included basic labor standards, and protected our environment. This type of agreement would have lifted the economies of both the United States and Central America. It would have attracted support from a large number of Democratic Members who have long histories of supporting free and fair trade, including recent trade agreements with Australia, Singapore, Chile, Morocco, Jordan, Vietnam, and Cambodia. Unfortunately, that is not the type of trade agreement before us tonight.

Instead, we are considering a trade agreement that promotes a race to the bottom, that hurts U.S. workers, that turns back the clock on basic internationally accepted worker protections, and fails to protect the environment. As a result, the Republican leadership is having a hard time convincing its own Members to vote for this bill.

We have heard our colleague earlier, the gentleman from Ohio (Mr. BROWN), talking about twisting arms until they are broken into a thousand pieces. The New York Times today, the gentleman referenced The New York Times, so I will too, said that a White House official said that the last votes are likely to be won with the most expensive deals. We should be able to pass good fair trade agreement treaties on their merits. Instead, the administration is trying to persuade people with side bars, side letters, and side deals. They have never worked in the past. They are just a con. And I hope that our colleagues will not fall for the con.

In their desperation to win votes, the President and the Republican leadership in the House have also proclaimed that CAFTA here tonight will promote U.S. security and democracy in Central America. The truth is if we want to improve our national security and promote democracy there, we should heed the words of Pope Paul VI, who said "If you want peace, work for justice."

Trade alone, devoid of basic living and working standards, has not and will not promote security, nor will it lift developing nations out of poverty. Our national security will not be improved by exploiting workers in Central America.

Here at home, this CAFTA threatens U.S. jobs by making it harder for American businesses and farmers to compete with countries that have excessively low wages and deficient working conditions. Mr. Speaker, I repeat: here at home CAFTA threatens U.S. jobs by making it harder for American businesses and farmers to compete with countries that have excessively low wages and deficient working conditions. We have lost 2.8 million manufacturing jobs since President Bush took office. CAFTA does not solve the jobs problem; it only digs the hole deeper.

These downward pressures create a race to the bottom that needlessly threaten U.S. jobs. Nothing in this agreement will help raise substandard wages in Central America or help create a strong middle class that has the disposable income to buy U.S. goods. Democrats understand the need to help our Central American neighbors reap the benefits of increased trade, but the cost of this CAFTA are too high, with too little to justify this agreement's deficiencies.

We must have basic worker protections which ensure that our trading partners abide by the most fundamental standards of common decency and fairness. The CAFTA we are debating today fails to promote these basic measures of decency and fairness and, in fact, takes a step backward from current law because it removes the requirement from these countries to abide by the workers' rights standards of the international labor standards.

When it comes to the environment, Democrats believe that environmental principles must be a central part of the core trade agreement. CAFTA will do absolutely nothing to improve environmental protection in Central America, and it will open up our own environmental laws to attack by foreign corporations.

My colleagues, this CAFTA allows multinational corporations to sue governments, including our own, for compensation if the environmental laws reduce the value of their investment or cut their profits. I repeat: CAFTA allows multinational corporations to sue governments, including our own, for compensation if an environmental law reduces the value of their investment or cuts into their profits.

CAFTA places no value on the environmental health of the Americas. Moreover, the enforcement provisions of this CAFTA are virtually nonexistent. It merely calls for CAFTA countries to enforce their own laws. Enforcement in these areas must be written in to CAFTA if they are to be effective. They are not.

Democrats believe that to keep America in the lead, the Nation must adopt a bold new and sustained commitment to technological innovation and educational excellence. That commitment would ensure that our country remains competitive and vibrant against formidable international competition, generating high-quality jobs throughout the 21st century.

We are committed to addressing challenges of increasing competitive global market. Our economic future rests on our ability to innovate new products and to create new markets for those goods and services. We insist that this administration revisit its flawed trade policy and work with Democrats so that we can pass free trade agreements, including a new improved CAFTA that will expand markets, spur economic growth, protect the environment, and raise living standards in the United States and abroad. That would allow us to move forward with our other priorities.

Mr. Speaker, American families are facing serious challenges: rising health care costs, record gas prices, climbing college costs, and massive job layoffs. They are worried about the direction of our country. Instead of addressing the serious issues that directly affect America's families and coming up with real solutions, Republicans have abused their power and focused on the wrong priorities: pursuing an energy bill that does nothing to lower gas prices or a Social Security privatization plan that weakens the safety net for America's elderly.

Sadly, this trade agreement and the way it has been pursued by the administration has become yet another example of those misplaced priorities and missed opportunities. Again, President Kennedy said in 1961 that the United States and Latin America are "firm and ancient friends, united by history and experience and by our determination to advance the values of American civilization. We must support all economic integration, which is a genuine step toward larger markets and greater competitive opportunity." It was true then; it is an inspiration now.

I urge my colleagues to send this CAFTA back to the drawing board. The administration can negotiate a new CAFTA that will open new markets, include basic labor standards, and protect the environment. Such an agreement would attract strong bipartisan support. This CAFTA does none of the above. It does not protect the environment, it does not grow the economy in our country, it does not lift the living standard in Central America, and it does not have my support. Vote "no" on this CAFTA.

Mr. SHAW. Mr. Speaker, I yield the balance of my time to the gentleman from California (Mr. THOMAS), chairman of the Committee on Ways and Means.

□ 2300

Mr. THOMAS. Mr. Speaker, I wondered when this moment would come, and apparently it comes tonight.

For more than 40 years the Democratic Party was a very forward-looking, progressive party. It led us into many new and important endeavors in helping people around the world. It was FDR that coined the phrase "good neighbor policy." I want to explain what this is all about.

This is a letter from 20 labor leaders, and it is addressed to the minority leader. It says, The American labor movement has been one of the Democratic Party's most consistent and stalwart supporters. Every election cycle labor delivers. We expect that House Democratic leadership will convey very strongly to all wavering Democrats that voting for CAFTA against our strong, clear, and loud objections, would signal to the labor movement that those candidates do not want our support. Our work to help elect at-risk Members at your urging will not extend to those who vote against us on this issue.

Tonight I will tell my party, they moved from the majority to the minority. We moved from the minority to the majority. And tonight we have an opportunity to move to the progressive, aggressive and good neighbor policy party. They have urged all-night protectionism. They have urged fear. They have urged that we do not do what is right.

All I ask of Members is tonight we have been a majority for a decade. It is time that we mature into a permanent majority. We will lead, we will be progressive, we will help our neighbors. We will not quote 40-year-old quotes about how much we want to help and, when we have an opportunity to do so, heel to the protectionism labor union movement in this country.

Please, those freely elected Presidents came to us and said, help us. We help them by voting "yes" on CAFTA. We will be the good neighbors.

Mr. COSTA. Mr. Speaker, I fully support global commerce.

Almonds, which I grow on my land in Fresno, have become one of California's most valuable exports through development of foreign markets. In fact, more than two-thirds of this $1 billion a year crop is shipped outside of the United States every year. So, I truly understand the benefit of opening the world to the abundance of U.S. products. Of the producers in my district, some will win and some will lose with CAFTA.

I am here to speak on behalf of America's best interest. That interest is a trade policy that is free and, more importantly, fair.

Unfortunately, regardless of the diligent work and excellent intentions of our trade negotiators, the bi-lateral and multi-lateral agreements we have entered into are not serving America well, especially not American agriculture, if you use the last 10 years of increasing trade deficit as the standard.

The evidence of our trade failures is undeniable. Over the last dozen years, the U.S. trade deficit has grown exponentially from a deficit of $38 billion in 1992 to $668 billion last year, a incredible increase of more than $630 billion in 12 years—more than 1700 percent. This year, in spite of the Trade Promotion Authority enjoyed by the President and the plethora of agreements brought before this body, America's trade deficit is the largest it has been in nearly 50 years.

Last year, of the ships arriving from Asia to West Coast ports—Seattle, Portland, Oakland, Los Angeles—more than half of them traveled back across the Pacific empty. This is a tragic illustration of a trade policy that is not working.

It is not working because these agreements give us little or no ability to leverage our strengths as a trading partner.

Do we truly need another agreement when Japan, one of our most important trading partners, continues to refuse entry to American beef—one of our safest and highest quality food products?

For the sake of the American agricultural economy, and other American industries, we must do better. We must seriously evaluate the way in which we conduct trade, beginning with the agreements we negotiate; to look at what is working and, more importantly, what is not working.

Ten years ago, I supported NAFTA. But, with the current state of our trade situation and the weakness and our current agreements, I cannot find any sense in supporting another trade agreement that perpetuates this sort of ineffective policy. I am reminded of a familiar quote attributed to Albert Einstein that illustrates my hesitation about CAFTA. "Insanity is doing the same thing over and over and expecting different results."

In light of our trade deficits, how can we approve another agreement and expect different, better results for the American farmer?

In conclusion, my vote today against CAFTA is a vote of protest, a vote of dissatisfaction, a line in the sand. My "nay" vote today is a message on behalf of American agriculture, American businesses, and American workers to the administration and my colleagues in Congress that we absolutely must develop a new trade strategy, a strategy that reverses, over time, our trade deficit.

This new trade strategy must be straight with the American public. It must define who—over the next 10, or 20, or 30 years—will be the winners and losers. Because, for America to be economically strong in the 21st century, we must have a plan to address the transitions and shifts in our domestic economy.

As participants in the 21st century economy that Thomas Friedman refers to as "the new flat earth," American workers and businessmen deserve to know what their chances are in the global economy. They need to know who among them will be the winners and losers. And, throughout that deliberation, American agriculture must have a seat at the table.

Ms. SCHAKOWSKY. Mr. Speaker, I rise today in strong opposition to the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act, DR–CAFTA or CAFTA. This trade agreement will eliminate thousands of American jobs without raising the quality of life for Central Americans and Dominicans. It is an agreement written to raise profits for multinational corporations at the expense of workers and the environment in the U.S. and the CAFTA countries. CAFTA should be renegotiated or voted down.

There is wide, bipartisan opposition to this bill here in the Congress because it endangers workers and jobs in the U.S. and abroad, it endangers our economy and it endangers the environment. Opposition to congressional ratification of this flawed agreement also runs deep outside of the Congress, throughout this country and the other signatory nations. The public as well as labor leaders, environmentalists, economists, and business owners and the clergy all strongly oppose the measure. Hundreds of thousands of Central Americans have taken to the streets to protest CAFTA.

I strongly support increased global trade for the United States. However, when negotiated, I believe free trade agreements should place human and labor rights and the protection of the environment on an equal par with the rights of capital. While CAFTA provides extensive protections for goods and capital, it provides no new protections for workers or the environment, and allows the signatory nations to do nothing more than enforce their own laws on labor and the environment.

Implementation of CAFTA would further the failed experiment that was NAFTA. As a result of NAFTA, my home State of Illinois has suffered the loss of over 100,000 jobs. The Nation has lost almost 1 million jobs due to the displacement of production that supported them prior to the implementation of NAFTA. Free trade agreements like NAFTA and PNTR for China perpetuate the race to the bottom in the global economy. They lower working and living standards for workers in other countries and kill jobs in the United States. CAFTA's effects would be no different.

The labor provisions in CAFTA are intentionally unenforceable. Violations of core labor standards cannot be taken to dispute resolution. The commitment to enforce domestic labor laws is subject to remedies weaker than those available for commercial disputes. This violates the negotiating objective of current U.S. trade law that equivalent remedies should exist for all parts of an agreement. Further, the "enforce your own laws" standard allows countries the opportunity to rewrite and weaken their labor laws to attract investment.

Instead of pursuing policies that undermine the rights and security of U.S. workers and workers in other countries, the United States should lead the world by example through a trade policy that improves the lives of individuals and does not just add to the profits of major corporations. Our policies should benefit workers here in this country, create and sustain jobs and help our small and medium-sized and family-owned businesses grow. CAFTA will not accomplish those goals nor will it offer better opportunities to the people of Central America and the Dominican Republic.

The abysmal working conditions in Mexico should serve as a sign of what CAFTA will bring to Central America and the Dominican Republic. The Mexican middle class that was supposed to arise as a result of NAFTA is missing. I visited Ciudad Juarez on the tenth anniversary of NAFTA. Instead of finding a thriving Mexican middle class, I found workers living in the packing crates of the products that they were manufacturing. The poverty rates and disparities in wealth in Mexico have actually grown since NAFTA. CAFTA would just spread those conditions further south by offering multinational corporations new opportunities to profit off the backs of low-wage workers.

I dispute the attempts by free trade proponents to reduce the debate to a choice between "free trade" and "no trade," "this agreement" or "no agreement." We can do better. We can achieve our economic objectives and moral responsibilities through responsible trade. And we can and should go back to the drawing board and fix CAFTA if we want to protect workers and the environment and give the people of the DR–CAFTA countries the chance for a better future. I urge my colleagues to vote no on CAFTA so that we can renegotiate this flawed trade agreement.

Mr. RAMSTAD. Mr. Speaker, I rise in strong support of the U.S.-Central American Free Trade Agreement

For me, free trade has always been about jobs and economic opportunity. But this agreement is about much more than that. It's also about increasing democracy in a region whose stability is fragile but moving in the right direction. It's about improving the environment. And it's about stemming illegal immigration.

The economic benefits of CAFTA are undeniable. CAFTA countries comprise the tenth largest market for U.S. goods, and the rapid growth of U.S. exports to CAFTA countries suggests this market could grow even more with the lowering of trade barriers.

My home State of Minnesota exported $12.7 billion in goods worldwide last year and ranks seventh in State agriculture exporters. Between 2000 and 2004, Minnesota manufacturers' exports to Central America increased by 83 percent, which clearly demonstrates Central America's viability as an emerging market for U.S. exports. And the elimination of protectionist tariffs in Central American countries will provide further increases in export opportunities for Minnesota farmers, manufacturers and service providers.

Passage of this agreement is so important to the U.S. economy because under the Caribbean Basin Initiative, over 80 percent of Central American imports already receive duty-free treatment. And if you separate the agriculture sector, CAFTA countries receive duty-free treatment on 99 percent of imports, 99 percent. It's time for our farmers and manufacturers to get fair treatment by allowing our exports to have duty-free access to their market.

CAFTA's passage is also necessary to advance overall trade liberalization. CAFTA's failure could cause a significant setback to other bilateral agreements in the works and also to the WTO-wide Doha Round negotiations.

The U.S. must remain competitive in the global economy, especially with the emergence of major exporters like China. Lowering trade barriers with developing countries in our hemisphere helps our overall competitiveness against China by increasing competition in growth sectors that China would otherwise dominate—like textiles, apparel and light manufacturing.

So the economic argument is rock solid, but CAFTA's passage goes beyond economic considerations. It will also help promote democracy, decrease illegal immigration and increase environmental standards.

For decades during the cold war, the U.S. spent significant resources fighting the spread of Communist and tyrannical dictatorships in Central America. Fortunately, Daniel Ortega's Sandinistas and the other leftist insurgencies which tore Central American countries apart have since been defeated and replaced by fledgling democracies. But now another destabilizing leader—Venezuela's Hugo Chavez—threatens peace and prosperity in the region.

Just last week, Chavez was reportedly revving up his military—warning them to be prepared for the imminent invasion by the U.S. And not surprisingly, Chavez is also the most vociferous opponent of CAFTA in the region.

Make no mistake, Hugo Chavez is licking his chops at the prospect of CAFTA's failure—waiting to exploit our missed opportunity and trap these nascent democracies under his thumb. These Central American countries lie on the precipice of economic stability and democratic government, and they deserve a chance to develop the same freedoms we have here.

Mr. Speaker, in addition to the economic and political benefits, CAFTA's passage will also improve environmental standards in Central America and decrease the flow of illegal immigrants from the region.

Study after study has shown that as economies improve, so do environmental standards. Once people get beyond the basic needs of food and shelter for their families, they can focus on the greater goods of clean air, clean water and conservation. Trade is not a zero-sum game. The elimination of tariffs helps increase exports and grow economies, and as the economies of Central America grow, so will their environmental quality.

Similarly, illegal immigration stems from the human desire to improve one's economic condition. As a member of the Immigration Reform Caucus, I believe we have a long way to go to improve our border security and stop the flow of illegal immigration. An improving economy in Central America will help achieve this goal, as the increase in job opportunities in the region will encourage more people to remain in their native countries.

The empirical data supports the agreement. Trade liberalization has always had the empirical data on its side. The immediate tariff reductions found in CAFTA expand market access for U.S. farmers, manufacturers and service providers and continue our country down the path of even greater market access worldwide. It will also significantly improve standards of living in Central America.

Congress must now have the resolve to do what is right and pass CAFTA. The future of our economy and the political stability of our region depend on it.

Ms. LEE. Mr. Speaker, I join my colleagues from both sides of the aisle in strong opposition to CAFTA.

Mr. Speaker, this trade agreement is a complete failure on all levels. The defeat of CAFTA is the only option.

Mr. Speaker, what we need is not just free trade, but fair trade.

What we need is a trade agreement that supports domestic manufacturers, while promoting labor standards overseas.

What we need is a trade agreement that protects our environment and stops corporations from trampling local governments.

And most importantly, what we need is a trade agreement that doesn't turn back the clock and deny access to lifesaving medicine to people suffering from diseases like HIV/AIDS.

Generic competition has reduced the cost of medicine and made access to treatment a possibility in developing countries, but DR–CAFTA puts profits over people and sacrifices access to medication to drug industry greed.

Experts estimate that in some DR–CAFTA countries, drug costs could increase as much as 800 times.

People will be dying in order to promote the profits of the pharmaceutical industry. It is morally outrageous, and it sets a horrible precedent for future trade agreements.

DR–CAFTA is an absolute failure on every count. We have all learned from 10 years of failed NAFTA policies, and we cannot and we must not repeat those mistakes.

The administration needs to go back to the table and develop a trade agreement that reduces our trade deficit, upholds labor and environmental standards and protects the access to lifesaving medicines for those who need them most.

This bill must be defeated. I urge a "no" vote.

Mr. MEEHAN. Mr. Speaker, I have long believed that as a matter of principle we should try to take down barriers that divide economies and people. Under the right conditions, trade between countries can create American jobs and raise standards of living both at home and abroad. But globalization is a developing issue and our policies need to reflect developments in our economy and the economies of our trading partners.

When seeking new markets for our products and services, we need to ensure that we are competing on a level playing field. We must work to ensure that our trade agreements are not only free, but also fair.

Tonight I will cast my vote against the Central American Free Trade Agreement because it is not free and fair trade.

When this Administration cuts the job retraining and education assistance necessary for our workers to compete in the global economy, we should reject trade agreements like CAFTA that fail to protect workers on both sides of the agreement.

The United States has a half-trillion dollar trade deficit. American businesses are choosing not to invest at home and our economy is no longer attracting private foreign capital.

The minimum wage is at its lowest level in 50 years, and nearly 7.5 million Americans are unemployed. The Republican Congress has enacted legislation that actually creates incentives for companies to move jobs overseas.

The CAFTA agreement President Bush has submitted to Congress would open U.S. markets to products from Latin American countries with poverty-level wage scales and poor environmental conditions. In return, we get access to six countries whose combined economic output is smaller than that of the city of Boston. Under this agreement, hard-working Americans will be forced to compete with nations that don't enforce international human rights standards in wage and hour rules and child labor laws.

Rather than foster sustained economic growth, CAFTA would freeze Central America's substandard labor laws in place. CAFTA is as bad a deal for Central American workers as it is for workers in the United States.

Time and time again, the Bush Administration has failed to take the necessary steps to help American workers succeed in the changing global economy. When the Senate Finance Committee made a bipartisan recommendation to include aid for displaced American workers in CAFTA, the Bush Administration simply ignored the request.

This indifference to the needs and concerns of the people most likely to be hurt by this agreement is typical of the Bush Administration's handling of economic policy. Instead of strengthening job training programs, the Administration has cut funding for these programs by over $750 million over the last five years. Instead of strengthening education, the Administration has cut these programs by over $500 million. Instead of addressing the health care crisis in this country, the Administration has brought us legislation to protect the profits of HMOs and insurance companies.

I urge my colleagues to join me in voting to send the Central American Free Trade Agreement back to the White House with a clear message that we will not approve this agreement unless it reflects our priorities and values.

Mrs. BIGGERT. Mr. Speaker, I rise to urge my colleagues to cast their votes in support of DR–CAFTA for three very compelling reasons:

First and foremost, the agreement will help our manufacturers, workers and farmers. Let's face it—the U.S. is the most open market in the world. Right now, about 80 percent of the goods made in DR–CAFTA countries enter the U.S. with no duties whatsoever. In contrast, our $1.6 billion in exports face about $1 billion in tariffs and additional non-tariff barriers. That's not fair. DR–CAFTA will change that.

Second, it bolsters our national security as it helps strengthen relationships with six very important new governments in our own backyard. If we turn our backs on the fledgling democracies of the DR–CAFTA nations, we risk a return to the instability, leftist insurgencies, and Marxist leadership of the 1980's. Our worldwide anti-terrorist efforts could all be for naught if we drive our friends in Central America back into the arms of leaders like Venezuela's Hugo Chavez and Cuba's Fidel Castro.

And last, DR–CAFTA is the right thing to do. Those who wish to help the anti-poor efforts in these six nations, or stem the flow of illegal immigration to the U.S., or reverse China's dominance in textiles and apparel, should vote for this agreement. It is expected to create 300,000 jobs in these industries in the DR–CAFTA nations, while creating new demand for U.S.-sourced inputs—not raw materials from China. Upon enactment, more than 90 percent of all apparel made in the region will be sewn from fabric and yarn made in the U.S.

I urge my colleagues to support the agreement.

Mr. SPRATT. Mr. Speaker, there are various good reasons to vote against CAFTA, but the first is enough and it's basic: this is not a good deal.

The U.S. is running unprecedented trade deficits—$618 billion last year, $195 billion this year in the first quarter alone. And the deficit worsens every year, weakening our economy and our independence. Virtually every trade deal the U.S. has made has resulted in far more imports than exports. Yet we keep creating free trade zones in the blind faith that the market will optimize the outcome.

Central American countries are part of the Carribean Basin and already enjoy wide-open access to our markets by virtue of tariff Item 807, the Generalized System of Preferences, the Carribean Basin Trade Partnership Agreement, and the Uruguay Round of GATT, which has removed all quotas on textile/apparel imports. Far from being disadvantaged, these countries enjoy preferential access now.

In fact, the Caribbean Basin countries as a group already export more to the U.S. than Mexico and import less. The CBI countries shipped $2.6 billion in apparel exports to the U.S. versus $1.6 billion in apparel shipments from Mexico. During the most recent quarter, CBI countries imported $655 million in fabric from the U.S. Mexico imported $809 million. Overall, in 2004 our textile/apparel trade deficit with Mexico was $3.765 versus $5.669 with CBI countries.

CAFTA purports to be based on a rule of origin adopted from NAFTA. NAFTA provides that for textile and apparel goods to move freely among Mexico, Canada, and the U.S., they must be made from the yarn stage forward in these three countries. CAFTA follows the same rule, but carves out so many exceptions that the exceptions swallow the rule.

Here are some of the exceptions to the rule of origin that CAFTA allows for textiles and apparel:

Only the component that gives the garment its essential character is subject to the rule of origin. Non-essential components are excepted.

Textile or apparel goods that contain fabric or yarn deemed "in short supply" in the U.S. are treated as originating in CAFTA, regardless of origin. This opens the door to more Chinese components entering the U.S. duty-free.

Denim, wool, cotton, and man-made fiber woven products from Mexico and Canada, are permitted under the rule of "cumulation." Cumulation allows countries that have free trade agreements with us to supply component parts to CAFTA countries without affecting duty-free treatment. This opens the sale of U.S. yarn and fabric to competition and increases the likelihood that transshipped textiles from China will enter the U.S. duty free.

For the first 10 years, CAFTA grants Tariff Preference Levels (TPL) to Nicaragua, for up to 100 million square meter equivalents of out-of-region cotton or man-made fiber garments. These goods come into the U.S. at nominal duties. This exception represents ⅔ of Nicaragua's current capacity and opens another back door to Chinese imports.

The origin of collars, cuffs, and linings is not considered when determining the origin of the apparel goods. This allows the use of Chinese collars, cuffs and linings.

CAFTA allows Central American countries to use components from anywhere—including China—to make pajamas, bras, and boxers and import them duty-free. The import of these goods from China has been found disruptive to our markets. So, they are subject to "restraints" under a special "safeguard" agreement with China. By allowing duty-free access to the U.S. for these goods, CAFTA allows China a route around the "safeguard" restraints.

Here's another oddity about CAFTA. CAFTA benefits are retroactive to January 1, 2004. Manufacturers will receive duty rebates if CAFTA is ratified. Under the Caribbean Basin Trade Partnership Act, garments made in the region from U.S. yarns and fabrics already receive duty-free treatment. The only manufacturers who will benefit from retroactivity are the ones who want to use non-U.S. fabric as part of the single transformation, TPL, or cumulation loopholes. Retroactivity is essentially an invitation from the U.S. government to manufacturers to start using non-U.S. fabrics immediately.

The U.S. has been unable to make labor and environmental standards a condition of free trade for GATT/WTO members, though they should be. Otherwise, free trade becomes a race to the bottom. Our goal should not be just to expand markets, but to raise living standards. All CAFTA says is that a country must enforce its own laws. CAFTA sanctions the status quo, doing nothing for labor or environmental laws.

All in all, CAFTA strikes a poor bargain. China is now making trade deals world-wide, using as leverage the largest emerging market in the world. The U.S. still has the largest existing market in the world. Surely in exchange for access to our markets, we can cut a better deal than CAFTA—better for our workers and theirs.

Mr. MEEK of Florida. Mr. Speaker, I am a strong supporter of trade. Since I came to Congress, I have voted for free trade agreements with Australia, Chile, Morocco, and Singapore.

There has been a lot of exaggeration about the benefits and the problems that would be attributable to DR–CAFTA, but I look at this agreement in a larger context.

First, I believe that the Bush Administration has never done enough to provide Florida businesses with the government services they need to expand, develop new markets, and operate efficiently, especially with regard to Miami International Airport, which is the single largest employer in Miami-Dade County.

Second, we know the state of Florida lost 35,000 jobs after the passage of NAFTA. While some Florida businesses will benefit from DR–CAFTA, I don't believe the gain in new business will be as pronounced as proponents have claimed, and I am deeply concerned about the impact on some industries, like sugar.

Third, I believe that it is unjust to include the Dominican Republic in this trade agreement while excluding Haiti. The Administration had the opportunity to promote stability, job growth and democratic government in Haiti last year with the HERO bill, but the President was never fully committed to the legislation and the opportunity was lost.

I think it is disingenuous of the President to now claim that the passage of DR–CAFTA is essential for the growth of democracy in the hemisphere when he passed up the opportunity to help Haiti with both of these trade bills.

Mr. VAN HOLLEN. Mr. Speaker, today, after much deliberation, I decided to cast my vote against the Central American Free Trade Agreement. After careful review, I have concluded that the benefits of CAFTA are likely to flow to a few powerful economic special interests at the expense of working men and women in the United States and Central America. It is my hope that a 'no vote' will encourage the President to go back and re-negotiate the labor and environmental provisions of CAFTA so that everyone, not just a few special interests, will experience the rewards of free trade.

The Bush Administration offered as one of its reasons for negotiating this agreement that the growing economic prosperity in Central America as a result of CAFTA would pull Central Americans up from poverty to become enthusiastic consumers of American goods. But by not sufficiently addressing the issue of weak labor protections throughout Central America, the Bush Administration neglected an important tool that could help make this dream a reality.

According to the Administration, CAFTA adequately addressed labor concerns by requiring that each country enforce its own labor laws. Ordinarily, I would not object to this. Similar language is included in some of the other FTAs I have supported in the past. But what is troubling about CAFTA is that, while Central American countries may indeed have worker protections on the books, they have a dismal record of enforcing them. This became clear to me while researching the human rights records of CAFTA countries.

I was disheartened to learn that while the constitutions of each CAFTA country provides for rights of workers, bureaucratic impediments, ineffective legal systems and insufficient resources have precipitated a culture of neglect that has left workers vulnerable to exploitation by employers.

In Guatemala, the law prohibits retribution for forming or participating in trade unions. But, enforcement of these provisions is weak. Employers often circumvent the Labor Code or simply ignore judicial pronouncements altogether.

In El Salvador, there have been repeated complaints that the government prevents workers from exercising their constitutionally recognized right of association by employing excessive judicial formalities and denying unions legal standing.

In Honduras, the Labor Code expressly prohibits retribution by employers for trade union activity and blacklisting—but such violations continue.

The Administration's response to objections about the dismal enforcement records of Central American governments is that CAFTA contains penalties to discourage such activities. While CAFTA does contain provisions crafted to encourage enforcement of labor rights, these provisions fall short of the strength needed to reverse years of indifference and systematic neglect.

CAFTA's enforcement mechanism centers on a strategy of financial penalties. Each time a party is found guilty of violating a worker's rights, that country is assessed a fine. This approach has been employed in earlier agreements with few objections. But in CAFTA, such an approach is problematic.

My principal concern is that only the U.S. has the standing to bring a case against a CAFTA country. NGOs and other international institutions, who are often the most knowledgeable about the labor conditions in these countries, are forbidden from seeking redress on behalf of workers—which means that only the U.S. government will be able to take issue with labor violations under CAFTA. Given our poor history of forcing compliance with labor laws among our trading partners, I am not convinced that this approach will adequately protect Central American workers.

Equally troubling is the requirement that countries found to be in violation pay the fine back to themselves instead of to the United States. This hardly seems like a penalty at all.

Unfortunately, CAFTA would turn the labor conditions in some Central American countries from bad to worse. The Caribbean Basin Initiative, which currently governs U.S. trade relations with Central America provides for periodic opportunities to reconsider and re-negotiate its provisions—including its labor provisions. That creates a mechanism where, over time, we can press for improved labor conditions. But the labor provisions in CAFTA would preempt the CBI process. Once passed, CAFTA can only be changed if each individual country agrees to the change.

Over the years, unions have helped bring scores of Americans into the middle class. Unions helped shield workers from retribution as they sought a fair wage and better benefits for themselves and their families. Given the increased opportunity for trade that CAFTA will bring about, Central American workers deserve the chance to enjoy some of the benefits.

The debate on CAFTA has been long and spirited. Along the way, critics have had time to clearly annunciate their objections. The Bush Administration heard and responded to concerns about textiles and even re-opened negotiations on the issue. Why can't the same be done for labor rights?

Mr. President, many of the flaws in the agreement with respect to labor rights also apply to its environmental provisions. The enforcement mechanisms are weak.

I have therefore concluded that CAFTA is a missed opportunity. Without adequate mechanisms to enforce labor and environmental standards it will trigger a race to the bottom—a race for certain special economic interests to exploit lax labor and environmental protections. The result will be substantial benefits for a few at the expense of many. We can do better. We must do better.

Mr. President, Americans and Central Americans deserve a chance to have their concerns about this agreement addressed—please renegotiate CAFTA.

Ms. ROYBAL-ALLARD. Mr. Speaker, I rise in strong opposition to H.R. 3045, the Central American Free Trade Agreement (CAFTA). I am a supporter of trade when it is used to help lift developing countries out of poverty and when it provides jobs with fair wages and protections. However, as negotiated, the CAFTA fails on both counts.

On May 15, 2003, I joined colleagues of the Congressional Hispanic Caucus in sending a letter to U.S. Trade Representative Robert Zoellick regarding concerns we had about the direction the Administration was taking during its negotiations of the Central American Free Trade Agreement. As a signatory to that letter, I urged Ambassador Zoellick to negotiate to strengthen the enforcement of internationally recognized labor rights, such as freedom of association, the right to organize, and to bargain collectively. I regret that U.S. negotiators ignored this critical request and finalized the CAFTA without strong and clear language that would hold the CAFTA countries accountable to such internationally recognized core labor rights.

There are many other concerns I have with the trade agreement that is before us. For example, I am troubled by the fact that the CAFTA does not adhere to the provisions of the 2002 Trade Promotion Authority, which requires that new U.S. trade agreements not provide greater legal rights to foreign investors than to U.S. investors. Under CAFTA, foreign investors have the right to challenge U.S. laws and regulations if they believe the law negatively impacts their ability to conduct trade. As a result, a foreign investor can seek financial compensation from the U.S. by going through an international arbitration panel. Congress was clear in its opposition to this continued foreign investor overreach of power, and it is disturbing that the Administration has not done a better job of protecting U.S. interests.

In addition, I oppose the provisions of this agreement which would impede access to safe and affordable prescription drugs for patients throughout Central America and the Dominican Republic. Specifically, CAFTA would block governments from approving the sale of generic drugs for at least five years after a new drug is introduced in each market, even if the drug's patent has already expired. The agreement would also block the approval of generics unless drug regulators can prove that the drug's patent has expired. These obligations create additional burdens on CAFTA countries that need to focus their limited resources on monitoring the safety and efficacy of their pharmaceutical products. Furthermore, it is unconscionable that we would place the financial interest of large multicultural drug companies above the health needs of families in developing countries.

In conclusion, I continue to express my support for a U.S. Central American Free Trade Agreement that would protect U.S. interests and create economic opportunities for workers, businesses, and farmers here and in Central America. Such an agreement would help break the cycle of poverty in Central America and serve as a model for hemispheric trade. Unfortunately, the agreement your office has negotiated falls far short of meeting these goals.

Mr. SHAYS. Mr. Speaker, I rise in strong support of the Dominican Republic-Central

American Free Trade Agreement. There are a whole host of reasons to support this legislation.

CAFTA will benefit both the U.S. economy and the economies of the Central American nations. Opponents of CAFTA would have us believe the North American Free Trade Agreement moved all our jobs to Mexico and seriously harmed the American economy. Contrary to their assertion, our economy's strength is due in no small part to the advancement of free trade.

Expanding trade is critical to strengthening our economy. This is especially true in Connecticut where our businesses exported $8.3 billion in 2002, up $1.1 billion since 1999. In fact, export-supported jobs accounted for an estimated 7.5 percent of the state's total private-sector employment.

Many of my friends in the labor and environmental communities have expressed concern that signing this agreement will be bad for their interests. I strongly believe by integrating ourselves with these countries, we give ourselves greater leverage to work on enforcing labor standards and environmental safeguards. Only through isolation do we risk letting these countries slip down the very path these groups are concerned about.

Furthermore, I believe the best way the United States can facilitate social and economic reforms in other countries is through an open dialogue and greater trade. Free trade leads to a richer and more educated populace, which leads to the expansion of democracy and a desire to be accepted as a full member in the world community.

Leaders like Venezuela's Hugo Chavez are advancing an anti-American, anti-Western agenda in our hemisphere. It amazes me we would turn our back on leaders who are standing up and asking to be more closely linked with the United States.

CAFTA is good for our economy and our workers, it's good for the economies of these countries and their workers, and it's good for the stability of our continent by promoting democratic governments. I urge this legislation's passage.

Mr. FILNER. Mr. Speaker, the Republic Leadership has insisted on bringing the proposed Central American Free Trade Agreement (CAFTA) before the House tonight. CAFTA tacitly endorses labor and environmental conditions in Central America that would be illegal in the U.S.

CAFTA allows goods produced under these conditions to unfairly compete with the Imperial County sugar growers, of my district. If we pass this agreement, American farmers and ranchers that comply with U.S. environmental and labor standards will be at a grave disadvantage in the global economy.

My district which encompasses the border of California and Mexico, has felt the negative impact from the failure of the North America Free Trade Agreement (NAFTA). My district has seen NAFTA's promises broken, translating free trade into poverty; increasing social inequality; and creating severe environmental degradation.

The current CAFTA proposal would expand on NAFTA's failures, and send the wrong message: labor and environmental standards are not as important as producing cheap goods under horrible labor conditions.

At the minimum CAFTA should call for basic labor standards including child labor protections, and environmental standards. Make no mistake about it, CAFTA is not about national security, it's about the exploitation of cheap labor!

Mr. HOLT. Mr. Speaker, I rise today to oppose approval of the U.S.-Dominican Republic-Central American Free Trade Agreement (DR–CAFTA).

On the floor today we are considering a far reaching and important trade agreement with our Central American neighbors, and yet we will only spend two hours debating DR–CAFTA. I am disappointed that more time was not provided to debate this highly controversial legislation. We will have spent more time this week naming various post offices than seriously debating this trade agreement. This is simply wrong. When the House considered the North American Free Trade (NAFTA), a full eight hours of debate was allowed. This is how the House should consider such agreements, with meaningful and extended debate.

International trade is not just inevitable, it is a good thing. But lowering the cost of goods and increasing their availably is not the single goal of trade. Trade done right helps lift the global standard of living and works to protect the irreplaceable environment we inherited. Trade is about values. Trade agreements are not just about goods and commodities; they are also about what constitutes acceptable behavior in environmental matters, worker's rights, intellectual property, and so forth. We should make sure we export the goods we produce and not the workers who produce them. Unfortunately, the DR–CAFTA before us today fails these basic tests. The DR–CAFTA does not contain the values we would require in America and that we must help spread in Central America. Even the United States Conference of Catholic Bishops has come out in opposition to DR–CAFTA because of its effect on the poor and most vulnerable in Central America.

Each new trade agreement entered into by the U.S. should be very closely scrutinized. Each ought to include the strongest enforceable worker rights, human rights, and environmental safeguards attainable, like those included in the U.S.–Jordan agreement of 2000. Each should also include enforceable rules to protect intellectual property rights and guarantee access for U.S.-based corporations to foreign markets. This can be achieved in trade agreements if we enter negotiations with clear principles.

I voted against the Chile and Singapore trade agreements, for example, because the inadequate labor and environmental provisions included in them, in my estimation, failed to meet the negotiating objectives that Congress carefully spelled out in the 2002 law extending fast-track negotiating authority to the President. They did not provide, for example, that trade dispute settlement mechanisms within those free trade agreements afford equivalent treatment to trade-related labor and environmental protection as intellectual property rights and capital subsidies, and the impending DR–CAFTA fails in this regard, too. The agreement between the U.S. and Jordan, on the other hand, is a fine example that good agreements are achievable.

I am deeply troubled by the DR–CAFTA before us today. The DR–CAFTA does not contain strong, enforceable provisions to protect internationally-recognized worker rights. Nor does it have any provisions for environmental safeguards. Such provisions are critical because they both preserve existing labor laws and environmental standards in the affected countries, and because they ensure that American companies will be competing on a more level playing field with our Central American neighbors. Without such provisions, U.S. companies and employees are forced to compete with countries that have inadequate wage, working conditions, or environmental protections. The people of all countries lose in such a "race to the bottom."

Mr. Speaker, I am going to vote no on DR–CAFTA tonight, and I urge my colleagues to do the same.

Mr. KIND. Mr. Speaker, as our nation leads the world into the 21st century, we should not shy away from opportunities to guide and expand global trade. Lowering tariffs and advancing economic engagement among nations not only helps the American economy, it also can provide real opportunity to those in the developing world who are working to eradicate poverty, build their nations and bring prosperity to their people.

It is critical that we build a bipartisan consensus around the importance of trade, which, unfortunately, does not currently exist. Such a consensus requires that trade agreements be balanced and fair for American workers and companies as well as for the nations with which we seek to engage. It also requires that domestic priorities be put in place to assist Americans in transitioning to the global economy.

While I have supported previous free trade agreements, it is with regret that I oppose H.R. 3045, legislation implementing the Central American Free Trade Agreement (CAFTA) between the United States, the Dominican Republic and five Central American nations: Costa Rica, Honduras, Nicaragua, El Salvador and Guatemala. DR–CAFTA does not build the bipartisan consensus we must achieve to succeed in the emerging global economy.

When increasing opportunities through trade, we must be sure to do more to empower the American workforce through a comprehensive and upgraded education and worker training policy. The single most important factor in determining America's success in the 21st Century will be maintaining our innovation and creativity.

Over the last few years, the world has become a smaller and more integrated place with technology, which levels the playing field like never before. Greater competition and collaboration exist now between countries, companies, and individuals. Meeting this challenge requires a new set of big ideas. Instead of this Administration being so eager to dismantle the new deal, it should be working with Congress to offer the American people a new "New Deal."

This new "New Deal" should provide working families with the skills to compete successfully in the 21st Century economy. We must renew our commitment to worker training programs, an education investment that emphasizes math, science and engineering, research funding in science and medicine, and a comprehensive broad-band strategy for all America.

Unfortunately, DR–CAFTA fails on a number of fronts. While the Administration has aggressively negotiated intellectual property and investor rights provisions in the agreement, it has simply not taken the same approach to protect workers' rights abroad or address the needs of working families here at home.

DR–CAFTA does not require nations to bring their laws into compliance with the International Labor Organization (ILO) core labor standards, even though the ILO and U.S. State Department have documented numerous areas where the CAFTA countries' laws fail to comply with even the most basic international norms. Further, the agreement lacks critical dispute settlement and enforcement mechanisms for worker rights provisions beyond a normal fine for countries that fail to enforce their own current labor laws. Even this minimal standard is flawed, as DR–CAFTA does not require countries to maintain their current labor laws.

In addition to the inadequate labor provisions in the trade agreement, the Administration has done nothing to prepare hard-working American families for the consequences of increased trade. Rather, the Administration and Congressional Leadership have provided irresponsible tax cuts benefiting the wealthiest one percent of Americans at the expense of investing in education, skills training, and research and development.

Mr. Speaker, economics and trade need not be a zero-sum game; it can be a win-win for everyone involved as long as people have the tools to succeed. I cannot in good faith support an incomplete trade and economic policy that leaves Americans less able to be creative and innovative.

Mr. KILPATRICK of Michigan. Mr. Speaker, I rise in opposition to H.R 3045, the Central American Free Trade Agreement (CAFTA). My opposition is based on my conclusion that CAFTA is another chapter in trade legislation that will spur job losses, depress American wages, eviscerate laborer's rights, emasculate the environment, and contribute to our nation's deficit.

Recent statistics from the Labor Department indicate that America has lost more than 2.5 million manufacturing jobs since the passage of NAFTA. In my home state of Michigan, we have experienced a net job loss of over 200,000 manufacturing jobs due to exports. Throughout the U.S., American workers suffer with anxiety about the elimination of their jobs each time we pass another free trade agreement. They know that factories are being relocated to foreign countries where they will be immune from paying U.S. taxes, and will be able to pay workers a fraction of U.S. hourly wages that range from $14 to almost $18. Each time we pass another trade agreement, their worst fears are realized.

According to the United Nations International Labor Organization (ILO), the average hourly wage earner in Nicaragua makes 95 cents; $1 in Guatemala, and $1.25 in El Salvador. Such minuscule wages pose a tremendous incentive to Asian and U.S. manufacturers to build factories and strategic alliances in Central America. The same factories that will be created in Central America will be able to avoid strong environmental laws that exist in the U.S., thereby contributing to environmental degradation throughout Central America.

If Americans have any concerns about the prospects posed by CAFTA, we need only look at the explosion of our deficit after the passage of NAFTA. Our trade deficit with Mexico mushroomed to $15 billion from a figure of $3 billion, resulting in a loss of 200,000 high wage U.S. jobs.

I am a very concerned that worker protection provisions throughout Central America will be weakened if CAFTA is passed. The legislation omits an important protection that was included in NAFTA—that labor enforcement proceedings not be unnecessarily complicated. I reject the hypocrisy of a trade agreement that would sanction placing the welfare of low wage earners in jeopardy. In my state of Michigan, we have strong worker protections in place. I cannot in good conscience support a measure that would pose potential harm to workers throughout countries in Central America.

Finally, supporters of CAFTA state that its passage will facilitate the elimination of tariffs and quotas and will ultimately result in increased trade and long-term growth. In reality, consumers and laborers in Central America will not be able to afford American manufactured goods. They will, however, be able to manufacture goods in Central America that will be sold in America with a profit margin that could not be realized if the same item were manufactured domestically.

Mr. Speaker, I rise in strong opposition to HR 3045, the Central American Free Trade Agreement (CAFTA). Passage of this bill will accelerate job losses, contribute to our deficit, circumvent labor rights and contribute to global environmental degradation. My constituents have overwhelmingly expressed their concerns and opposition to HR 3045. I urge my colleagues in the House to defeat this measure and stand up for fair and free trade.

Mr. SALAZAR. Mr. Speaker, I came to Congress to defend the values of rural Colorado; our farming lifestyle, our ranching communities, our jobs. DR–CAFTA, the Dominican Republic-Central America Free Trade Agreement goes against those values, posing a threat to the very backbone of our economy and our lifestyle.

Trade has always been a way for cultures to exchange not only goods, but also ideas and good will. I support trade with our neighbors; it is what we should be doing to help promote democracy and economic prosperity. But just because we have a trade agreement before us does not mean it is the right agreement.

DR–CAFTA is an attempt to liberalize trade between the United States and six Latin American countries. The Administration negotiated with other foreign leaders in 2004 and today the House of Representatives will vote whether to approve the agreement. Due to Fast Track Authority, however, Congress will not have an opportunity to amend the agreement—it will merely have an up-or-down vote regardless of any concerns that may be voiced. DR–CAFTA has divided many agricultural groups among the states as well as other industries, business groups and human rights organizations.

Over the last several months, I have met with a variety of groups from Colorado and around the nation about DR–CAFTA and I am sad to report there is no consensus about how this agreement will affect our nation's economy.

The promise of new markets for agricultural exports has prompted many groups to throw their weight behind DR–CAFTA, but a deeper examination of the supposed benefits vs. the actual consequences of DR–CAFTA's enactment warrants hesitation.

Our beef industry is strong and fiercely protected in our state. According to the proponents of the deal, DR–CAFTA will open up new markets and opportunities for the U.S. beef industry. But our local ranchers and beef producers will not benefit from the agreement—DR–CAFTA will only allow duty-free access for prime and choice cuts of U.S. beef, which makes little sense when 40 percent of the people in DR–CAFTA nations make $2 a day or less.

Meanwhile, DR–CAFTA is silent on the issue of imports meeting our rigorous food safety and sanitary standards, creating a challenge to the safety of our food supply.

The Colorado Farm Bureau has publicly expressed its opposition to this agreement because of the potential adverse effects it would have on agricultural sectors. In particular, the Colorado sugar industry could be devastated by increased imports of sugar from the Dominican Republic. According to estimates, the effect of lower sugar prices after increased imports could be nearly $180 million. This means the loss of nearly 150,000 sugar-industry jobs. A report prepared by the United States International Trade Commission estimates job loss in the sugar industry will be 38 times higher than the next most harmed sector.

Not only would DR–CAFTA threaten the livelihoods of thousands of US. sugar farmers and workers, but it would cost taxpayers millions of dollars. Another government report reveals information condemning DR–CAFTA as a burden on taxpayers. According to the Congressional Budget Office, the influx of sugar from Central American countries would push prices down so low that our own sugar farmers would be forced to forfeit government loans on their crops. These forfeitures would cost taxpayers about $50 million annually through 2015. When added to a trade deficit that has ballooned to $617 billion, claims of economic gain are hard to believe.

The trade commission study states DR–CAFTA will actually accelerate the pace at which jobs are outsourced overseas. The North America Free Trade Agreement certainly hasn't set a good precedent, with estimates of nearly 900,000 jobs lost.

In the wake of NAFTA, Trade Adjustment Assistance programs were designed to assist those who lose their jobs as a result of companies moving out of the United States. More than a decade after NAFTA, the programs receive only one-quarter of the needed funding. Despite progress made in recent years to improve the Trade Adjustment Assistance program, budget cuts have left many workers who qualify for TAA benefits without access to this program when they need it most. Workers in Grand Junction were displaced this year when their jobs were outsourced overseas; I would hate to see other communities have to deal with this problem.

How will the TAA programs keep up with DR–CAFTA's fast-paced outsourcing? And why spend millions of dollars to fix the effects of a flawed trade agreement, instead of renegotiating the entire agreement? Proponents of DR–CAFTA can't seem to defend the agreement on its own merits.

Since the solid economic reasoning isn't there, curbing illegal immigration has become the new purpose of DR–CAFTA, another argument that doesn't have the backing of facts or figures. In the wake of NAFTA, 1.3 million farmers in small to medium-size operations were forced off their land because they were unable to compete with the multinational producers. For those concerned about "broken borders," think of this: The employed farmers and agriculture workers of 10 years ago have become the undocumented immigrants of today. I fear DR–CAFTA will create a new wave of illegal immigration from Latin America.

I will close as I began by reiterating my feelings about free trade. I support trade as part of a long-term strategy to grow our economy and support democracy. Economic ties with other nations help the American economy and national security. But trade agreements should provide real gains for U.S. workers and businesses. In any agreement, we must be vigilant about protecting our economic security. DR–CAFTA is a flawed agreement that needs to be renegotiated to address the concerns of our agricultural sector and the concerns of illegal immigration. Safeguards to protect American jobs and rural values must be strengthened before moving ahead with free trade in Latin America.

Mr. SKELTON. Mr. Speaker, over the past several weeks, I have closely studied the proposed free trade pact between the United States and Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, and the Dominican Republic, commonly referred to as CAFTA.

After careful consideration, research, and meetings with national security experts and representatives of Missouri agriculture, labor, and business, I have decided to vote in favor of CAFTA. While this legislation is far from perfect—no trade pact ever is—my support comes down to two issues.

First, CAFTA is a national security issue. As the ranking Democrat on the House Armed Services Committee, I have the opportunity to consider not only the military component of national security, but other elements as well. Our security depends upon the success and the competitiveness of the U.S. economy. We must exert leadership, especially in our own hemisphere.

Just 20 years ago, civil wars, communist insurgencies, and military dictatorships oppressed and destabilized much of Central America. Because conditions in Central America are critical to our national security, the United States has actively supported these nations during the transition from insurgency and military rule to democracy. However, these new democratic governments cannot be taken for granted. Threats to their existence remain, notably from countries in South America that are suffering the effects of civil war, narcotics trafficking, and communist inspired agitation. Turning our backs on a region only recently freed from the grasp of dictatorship would diminish our international credibility and would send the wrong message to the world at a time when our troops are fighting in Afghanistan and Iraq to build stable, democratically-elected governments.

As former President Jimmy Carter said, "For the first time ever, we have a chance to reinforce democracies in the region. This is the moment to move forward and to help those leaders who want to modernize and humanize their countries."

Second, the market access provided by CAFTA will benefit American agriculture, which is of primary importance to those of us who care about the future of rural America and want to promote a strong rural economy. Currently, 99 percent of, agricultural products from CAFTA countries enter the United States duty free, while U.S. farm exports face significant barriers in these markets. Many of these commodities are produced in Missouri, where agricultural exports totaled $1.24 billion in 2003 and account for one-fourth of farm cash receipts.

Under CAFTA, U.S. farm products—like pork, poultry, soybeans, corn, and beef—will receive preferential access to Central American markets, giving Missouri's agricultural exports a significant economic advantage over agricultural exports from our competitors in South America, Europe, and Canada. It is projected the CAFTA could increase agricultural exports in the Show-Me State by $33 million annually once the agreement is fully implemented in 2024.

Again, no trade deal is perfect. Clearly, some improvements could be made in the bill, especially on the labor protection side. But, as I studied CAFTA and heard from national security, agriculture, labor, and business leaders, I became convinced that this trade agreement is critical to U.S. national security and to rural America.

JUNE 8, 2005.

Hon. BILL THOMAS,
Rayburn House Office Building,
Washington, DC.

TO REPRESENTATIVE BILL THOMAS: As you prepare for your initial consideration of the Central American Free Trade Agreement (CAFTA) with the nations of Central America and the Dominican Republic, I want to express my strong support for this progressive move. From a trade perspective, this will help both the United States and Central America.

Some 80 percent of Central America's exports to the U.S. are already duty free, so they will be opening their markets to U.S. exports more than we will for their remaining products. Independent studies indicate that U.S. incomes will rise by over $15 billion and those in Central America by some $5 billion. New jobs will be created in Central America, and labor standards are likely to improve as a result of CAFTA.

Some improvements could be made in the trade bill, particularly on the labor protection side, but, more importantly, our own national security and hemispheric influence will be enhanced with improved stability, democracy, and development in our poor, fragile neighbors in Central America and the Caribbean. During my presidency and now at The Carter Center, I have been dedicated to the promotion of democracy and stability in the region. From the negotiation of the Panama Canal Treaties and the championing of human rights at a time when the region suffered under military dictatorships to the monitoring of a number of free elections in the region, Central America has been a major focus of my attention.

There now are democratically elected governments in each of the countries covered by CAFTA. In negotiating this agreement, the presidents of each of the six nations had to contend with their own companies that fear competition with U.S. firms. They have put their credibility on the line, not only with this trade agreement but more broadly by promoting market reforms that have been urged for decades by U.S. presidents of both parties. If the U.S. Congress were to turn its back on CAFTA it would undercut these fragile democracies, compel them to retreat to protectionism, and make it harder for them to cooperate with the U.S.

For the first time ever, we have a clause to reinforce democracies in the region. This is the moment to move forward and to help those leaders that want to modernize and humanize their countries. Moreover, strong economics in the region are the best antidote to illegal immigration from the region.

I appreciate your consideration of my views and hope they will be helpful in your important deliberations.

Sincerely,

JIMMY CARTER.

Mr. BURTON of Indiana. Mr. Speaker, the debate over the potential costs and benefits of the proposed Dominican Republic-Central American Free Trade Agreement, CAFTA, has been contentious; and at times it has been difficult to separate fact from fiction and the myths from reality. In fact, I don't think I have ever seen as many wild and unsubstantiated allegations thrown around about a bill as I have seen during the debate over CAFTA. I rise tonight though because one myth perpetuated by opponents of CAFTA has caused me great deal of concern; namely the myth that CAFTA will restrict American consumers' access to the wide range of vitamin and mineral supplements of varying potencies that are legally sold in the United States. Then there are the related myths that CAFTA will limit the amount and type of information on the labels of dietary supplements sold in the United States or even require that dietary supplements be sold as drugs.

I, along with millions of Americans, firmly believe that dietary supplements have been shown through research and historical use to be of immeasurable benefit to human health. As a regular consumer, I know firsthand the health benefits of using dietary supplements on a daily basis. Whether taking a multi-vitamin, herbal product, or specialty supplement, I know that people can and do live healthier lives and save money in long-term health costs by supplementing their diets.

Approximately 10 years ago, seeing a need for the Federal Government to address the American consumer's growing interest in dietary products and public safety, Congress overwhelmingly passed the Dietary Supplement Health and Education Act, DSHEA, to make certain that all dietary health products sold in the United States are held to the highest and safest quality standards.

This legislation ensures the safety of dietary supplements by requiring manufacturers to follow standards called "Good Manufacturing Practices," or GMPs. Essentially, all ingredients in supplements sold in the United States must be previously approved by the FDA and listed on the bottle label, and distributors must follow strict guidelines on any claims that are made in regard to a particular product—to provide consumers with the most accurate information on supplements. Additionally, if at any time the FDA decides that a particular product or dietary ingredient is detrimental to human health; it reserves the right to have those items removed from the marketplace.

This legislation provides the current framework for how the Federal government ensures the safety and efficacy of dietary supplements sold in the United States, and there is no provision in CAFTA that requires the United States to change DSHEA in any way.

Nevertheless, I was so concerned about this issue that I asked the U.S. Trade Representative's, USTR, Office to clear up any misunderstanding about CAFTA and DSHEA. I would like to have the text of the USTR's fact sheet on CAFTA and Dietary Supplements placed into the CONGRESSIONAL RECORD following my statement.

CAFTA AND DIETARY SUPPLEMENTS

The CAFTA-DR will not limit consumer access to dietary supplements in any way, nor will it change the way the federal government or U.S. states regulate dietary supplements.

Chapter Six of the CAFTA-DR (Sanitary and Phytosanitary Measures—SPS), which some have claimed could limit access by American consumers to dietary supplements, does not create *any* substantive rights or obligations. It merely:

Says the seven governments do not intend the CAFTA-DR to change their existing SPS rights and obligations under the WTO.

Note: WTO rules, in effect since 1995, have had absolutely no impact on the regulation or availability of dietary supplements in the United States.

Establishes an inter-governmental committee to discuss SPS issues of mutual interest.

The SPS committee will not seek to harmonize national SPS regulations governing dietary supplements. In fact, Chapter Six does not require, recommend, or even mention harmonization.

The committee will simply work to assist the seven governments in carrying out their obligations under the WTO SPS Agreement.

Contrary to assertions some have made, the CAFTA-DR will not require the United States to:

Apply the recently adopted Codex Alimentarius Guidelines for Vitamin and Mineral Supplements. In fact, the agreement imposes no obligations regarding Codex standards or guidelines.

Change the Dietary Supplement Health and Education Act of 1994 (DSHEA), which regulates dietary supplements in the United States.

The Codex Guidelines provide voluntary guidance to governments relating to the composition of vitamin and mineral supplements and criteria for establishing maximum amounts of vitamins and minerals per daily portion of supplement consumed.

The Guidelines do not establish upper limits for vitamins and minerals in supplements.

Nothing in the WTO SPS Agreement will require the United States to adopt the Codex Guidelines.

Mr. FEENEY. Mr. Speaker, I rise today in support of the Central American Free Trade Agreement, but I do so some reservation. While CAFTA should provide economic benefits to most industries in Florida, it does create some difficulties for our State's sugar farmers. I am disappointed that tonight's vote will have a negative impact on an important agricultural industry in our State, but along with this vote comes the broad economic benefits of free trade.

I have made a difficult decision tonight to support an agreement that will negatively impact some farmers in my State because of my belief in the principles of free trade. So it would be irresponsible of me not to make several points perfectly clear to my colleagues from other areas of the Nation, particularly the Midwest, whose farmers receive billions of dollars in farm program subsidies each year.

Unlike most commodity programs, the U.S. sugar program is designed to operate at no cost to the taxpayer. Unlike other crops, our Nation does not produce too much sugar, in fact we are the fourth largest importer in the world. We don't have to prop up sugar farmers by finding ways to get excess sugar out of the country, and we don't have to write billions of dollars of government checks to sugar farmers to allow them to stay in business.

I want to be sure that my colleagues understand that they may be called on to make an equally hard choice in the near future. Some corn groups have been especially critical of their fellow farmers who produce sugar cane and sugar beets. According to the President's budget, corn farmers will receive almost $9 billion in government support for the 2004 crop alone. If sugar farmers received billions of dollars in government subsidies, they might produce a surplus like corn and be less concerned about increased imports.

I don't raise this issue in an effort to attack other Members' constituent industries; rather, like many of my colleagues, I am very concerned about Federal Government spending and the deficit. I just ask that those who are so quick to dismiss the concerns of my State's farmers be willing to take the same position of responsibility when you are called on to cut spending to your farmers. There has been a great deal of scrutiny of the sugar program in recent months. It is time we applied that scrutiny to other, high cost, farm programs as well, and all do our part to cut government spending.

Mr. STUPAK. Mr. Speaker, the late Pope John Paul said, "If globalization is ruled merely by the laws of the market applied to suit the powerful, the consequences cannot be but negative."

I agree with the late Pope John Paul. Trade is more than just economics. It's about peoples' lives and livelihoods. Our economic policies should create the rising tide that lifts all boats. Each decision we make must take into account the welfare and dignity of all people, but especially the poor and vulnerable who struggle daily to support themselves and their families.

When CAFTA is viewed through this moral framework, it is clear the agreement does not pass muster. That is why Pax Christi, Catholics for Faithful Citizenship and 34 other organizations (attached) of faith oppose CAFTA. If this agreement is enacted, the poor will get poorer and the rich will get richer.

The consequences of CAFTA will be felt by people throughout the Northern hemisphere—from the Michigan sugarbeet farmer trying to put food on the table for his family to the poor Dominican laborer in need of basic medicines.

The developing countries affected by CAFTA have an enormous need for better access to medication. Despite these compelling health needs, CAFTA would undermine their access to affordable medicine and potentially give billions of dollars worth of patent protections to drug companies.

Closer to home, the sugarbeet farmers in Michigan will be forced off their farms as the price of sugar plummets. Hourly workers at sugar refineries will find their jobs outsourced to other countries. These workers' and farmers' livelihoods will be ruined. We're not talking about big Agri-business here—we are talking about small farmers who will no longer be able to support themselves. We're talking about small businesses owners laying off their workforces.

I ask the Bush Administration and the Republican Leadership, "If enacted, can you imagine what kind of damage CAFTA would inflict on Michigan's sugar industry, which ranks fourth in the country?"

With a state sugar beet economy that spans 2,000 farms, employs thousands of people, and totals over $300 million annually, it doesn't take a genius to predict that flooding our market with sugar imports will strike a blow that may be unrecoverable.

The National Farmers Union, the National Family Farm Coalition, the Institute on Agriculture and Trade Policy, Michigan Sugar Company, and the Monitor Sugar Company—they understand the impact it will have on the sugar industry. Why doesn't the House Leadership pushing this bill get it? Or maybe they just don't care.

This bill is bad for sugar beet growers and bad for Michigan.

As Pope John Paul said, let's not strengthen the powerful at the expense of the less fortunate. That is what CAFTA will do—advance the financial interests of large multinational companies at the expense of the common good.

I cannot support an agreement that fails to protect the livelihood of so many families, in Michigan, the United States, and abroad. That is why I will vote "no" on CAFTA.

Interfaith Working Group on Trade and Investment member organizations have mission workers and partner institutions in Central America who believe that DR-CAFTA will harm their families and communities. IWG members on record as opposing CAFTA include:

American Friends Service Committee, Center of Concern, Church of the Brethren Witness/Washington Office, Church World Service, Conference of Major Superiors of Men Religious, Columban Mission Center, Columban Office: Justice, Peace and Integrity of Creation, Congregation Justice Committee: Sisters of Holy Cross, Notre Dame, IN, Congregation of St. Joseph, Cleveland, Ohio, Office of Governmental Affairs (Evangelical Lutheran Church of America), Franciscan Sisters of Allegheny, New York, Holy Cross Institute Office, Institute Justice Team: Sisters of Mercy of the Americas, International Association of the Presentations, Leadership Conference of Women

Religious, Lutheran World Relief, Maryknoll Office of Global Concerns.

Mennonite Central Committee: Washington Office, Medical Mission Sisters Alliance for Justice, Missionary Oblates: Justice, Peace and Integrity of Creation, National Council of Churches USA, NETWORK: A National Catholic Social Justice Lobby, Presbyterian Church (USA Washington Office), Religious Task Force on Central America and Mexico, SHARE Foundation, Sisters of Charity of St. Augustine: Social Concerns Committee, Sisters of Charity of Cincinnati, Sisters of Humility of Mary, Sisters of Notre Dame, Notre Dame, Indiana, Sisters of Notre Dame, Justice and Peace Office, United Church of Christ Justice and Witness Ministries, United Methodist Church: General Board of Church and Society, Unitarian Universalist Association of Congregations, Witness for Peace.

Mr BACA. Mr. Speaker, I rise in oposition to this bill.

I urge all of my colleagues to join me in standing up for America and our working families by rejecting CAFTA.

CAFTA is a bad deal: bad for workers and businesses in my district, bad for America, and bad for workers in Central America.

CAFTA would cause more job losses, more poverty and more hardship for workers both here at home and in Central America, while expanding the gap between rich and poor.

We all should have learned from the mistakes of NAFTA, which was passed 12 years ago and has hurt American workers.

Let's all keep in mind the saying, "Fool me once, shame on you. Fool me twice, shame on me."

After NAFTA, there should be no CAFTA.

When NAFTA was passed, many believed it would lead to higher wages and economic development in the U.S., Mexico and Canada and less illegal immigration.

Those hopes turned out to be false: Instead of helping American workers, NAFTA took away jobs. Instead of helping American businesses, many were forced to close down or move out of the country.

As we work hard to strengthen the American economy, we cannot afford a bad trade bill that is unfair to American workers.

CAFTA does not hold companies in other countries to the same standards Workers in those countries do not have the same rights or protections. They do not have a voice and do not have safety standards.

Central American workers will be exploited. They will be expected to work like elephants and if they are not producing enough to satisfy their bosses, their jobs will be eliminated and replacements brought in.

We must not help or reward companies that prefer to exploit Central American workers in sweatshops instead of creating jobs in the U.S., hiring American workers and increasing wages.

It seems every day we read in the papers about another factory closing down. Since President Bush took office, 2.5 million manufacturing jobs have been lost. At least 750,000 American jobs have been lost directly due to NAFTA. And they are not coming back.

My constituents know about the impact of offshoring. We remember when Kaiser Steel closed its factory in Fontana, California, resulting in devastating job losses that hurt hundreds of workers, their families and their neighborhoods.

I am especially concerned about the harmful effect that CAFTA would have on Hispanic communities in the U.S. because we have seen that almost half (47 percent) of the American workers who lost jobs due to NAFTA were Latinos.

In addition to protecting American jobs, I want to protect our homeland security and I am concerned that CAFTA would make us less secure. Our ports and borders are already vulnerable. Many shipments of cargo enter our country without inspection. Increasing shipments of goods from Central America could pose additional threats to our security.

I am disappointed that the Administration did not work closely with my colleagues in the Congressional Hispanic Caucus to propose an agreement that protects American workers and businesses.

Instead, the Administration is proposing an unacceptable trade deal that I cannot support.

Ms. DEGETTE. Mr. Speaker, having voted in favor of every free trade agreement considered during my tenure in Congress, I have been and continue to be an avid supporter of free trade. However, I cannot, in good faith, vote for the Central American Free Trade Agreement (CAFTA) as it stands today. Instead of helping to improve labor and environmental standards and increase the enforcement of those standards in Central America, CAFTA is a rubber stamp of the status-quo. CAFTA fails to strengthen existing labor and environmental laws and deliberately excludes meaningful penalties for Central American governments that fail to enforce such laws. What is worse, CAFTA removes the current ability of the United States to withdraw trade benefits when countries in the region refuse to improve labor and environmental standards. By removing this important—and proven—oversight mechanism, CAFTA could perversely weaken the few protections that exist for workers and the environment in Central America today.

CAFTA also includes an investment provision similar to North America Free Trade Agreement's (NAFTA) Chapter 11, which puts profits of multinational firms before the public safety and public health of citizens in the United States and in Central American countries. With CAFTA in its current form, the Administration makes its priorities clear: corporate need and greed above all else.

At the same time it leaves workers behind in Central America, CAFTA fails to help workers here at home. When drafting CAFTA, the Bush Administration refused to expand Trade Adjustment Assistance (TAA) to service workers who stand to lose from CAFTA, and similarly, it did not increase the amount of assistance for those workers who are currently eligible under the TAA program. More generally, this Administration repeatedly refuses to fund education and training programs that would help to ensure the future competitiveness of the American people.

It is unfortunate that I, along with my other like-minded Democrats who support free trade, do not have the opportunity to vote on a free and fair trade agreement with Central America. I believe that free, fair trade can be a powerful means to improve living standards abroad and to broaden economic opportunities for people here at home. Unfortunately, the Bush Administration negotiated this agreement behind closed doors without soliciting the bipartisan input of Congress. While the Administration has had numerous opportunities to make simple, but important changes to CAFTA, it has consistently refused, and instead, has insisted on supporting the deeply flawed agreement we have before us today—an agreement that I oppose in its current form.

Mr. LANGEVIN. Mr. Speaker, today I rise in strong opposition to H.R. 3045, to implement the Dominican Republic-Central America-United States Free Trade Agreement. While I favor expanding trade and eliminating restrictive tariffs and barriers, the DR–CAFTA agreement does not create a fair playing field for United States companies and workers to compete. I urge my colleagues to join me in rejecting H.R. 3045 and tell the Administration to renegotiate a more responsible trade agreement. We can do better.

For the DR–CAFTA countries, the agreement would permanently expand preferential market access for most goods. For us, DR–CAFTA would phase out duties on manufactured and agricultural goods over 10 to 20 years. The countries included in this trade agreement, the Dominican Republic, Costa Rica, El Salvador, Guatemala, Honduras, and Nicaragua, are of extreme strategic importance to us. We must not neglect our neighbors to the south, and improving economic ties to these countries should be a top priority. However, the DR–CAFTA agreement before us today is just as likely to hurt workers in these countries as it is to help them.

While a properly written agreement could mutually benefit companies and workers in all of the countries involved, this agreement avoids specific language to improve working conditions abroad. H.R. 3045 does not contain strong environmental or labor enforcement, which are the keys to fair trade. The agreement requires the DR–CAFTA countries to enforce their own laws, but it does not demand compliance with the International Labor Organization's core labor standards. Central America has among the worst working conditions in the world. In Nicaragua, for instance, more than 40 percent of the population lives on less than $1 per day, so the agreement could have vastly improved their living conditions. Instead, DR–CAFTA will likely continue the status quo of cheap labor and weak worker protections.

Likewise, DR–CAFTA does not require countries to meet any minimum standards on the environment or public health. DR–CAFTA countries have no restrictions on air or water quality, which creates unhealthy living conditions and damages the environment. If a country does not meet its own environmental laws, it could be fined up to $15 million, a stark contrast to intellectual property violations, which have unlimited fines under the agreement. On a level playing field, American workers can compete and win, but it is unfair for our companies to compete against a DR–CAFTA country that employs minors earning pennies per hour without the same air and water quality guidelines under which American companies operate.

In 2004, Rhode Island exported approximately $30 million to these countries, or 2 percent of the state's worldwide exports. This agreement is important to several companies in my district, but we must go back to the drawing board to ensure American companies and American jobs are not left behind. I urge my colleagues to join me in opposing H.R. 3045 and encouraging the Administration to renegotiate a more equitable agreement.

Mr. STARK. Mr. Speaker, I rise today in strong opposition to H.R. 3045, the implementing legislation for the U.S.-Central America-Dominican Republic Free Trade Agreement (CAFTA). When big business calls, Republicans always answer, and today we vote on a gift to big business paid for by American and Central American workers.

The signatory countries inked this agreement 14 months ago. CAFTA is so unpopular that the Republicans were unwilling to bring it up for a vote before the 2004 elections. Now we're voting at the final hour with supporters relying on promised favors and twisted arms for victory. This is not the example we should be setting for growing democracies in Central America and around the world.

Beyond the example we set globally, this agreement does not include basic labor, environmental and public health standards.

Instead of forcing countries to meet basic environmental standards, the agreement allows them to enforce their own substandard environmental laws. If you have ever wanted to see the pristine beauty of the Costa Rican rain forest or Lake Atitlan in Guatemala you might want to book your tickets before the "benefits" of CAFTA begin to destroy these natural wonders.

"Enforce your own laws" must be the favorite new saying in the Bush Administration because CAFTA applies this meaningless standard to labor rights as well. It would have been simple to require all CAFTA signatories to codify the International Labor Organization's core labor standards. But the Bush Administration doesn't care about workers rights as long as American companies have a cheap Central American labor pool to draw from. When Central American workers don't have the right to organize, or even the right to a safe workplace, at least the Bush Administration can take solace in the fact that they have sent them low-paying jobs that used to belong to hard-working Americans.

There are other egregious provisions in CAFTA, some written for Republican benefactors like the pharmaceutical industry. At the behest of PhRMA—the Pharmaceutical Research and Manufacturers Association—the Bush Administration negotiated a sweet deal for brand name drugs that will limit CAFTA countries' access to affordable generic alternatives.

The pharmaceutical industry will solely benefit from a provision to extend its monopolies to Central America. If this agreement is approved, the most profitable industry on the planet will get an additional five years to exploit the sick to maximize profits. This provision will raise the price of drugs for CAFTA-country residents and could limit their ability to provide more affordable generic drugs during public health emergencies.

In countries where people make two dollars a day, it is abhorrent to eliminate cheaper generics from the market and force workers to pay for expensive, brand name drugs.

Instead of voting on CAFTA today, we should be telling the Bush Administration to renegotiate. This is a bad agreement for America and for Central America. I urge all my colleagues to ignore the Majority's empty promises and arm-twisting and vote against this reprehensible free trade agreement.

Mr. DINGELL. Mr. Speaker, I rise in vigorous opposition to this so-called "free trade" agreement. It is a bad agreement- bad for US workers, bad for Central American workers, bad for small farmers, bad for the environment, and bad for our economy.

The proponents of this deal point not to facts, but to predictions. They talk about projected growth and theorize that our Central American neighbors will enjoy increased living standards and a better future.

We don't have to consult a crystal ball to see what effect CAFTA will have on the lives of American and Central American citizens. We have an example before us, it is called NAFTA. CAFTA is a junior version of NAFTA; it is quite literally the "Son of NAFTA".

Ask the people of Michigan, Ohio, North Carolina, Pennsylvania, Indiana, Oklahoma, or any other State that saw factories shuttered if they have benefited from NAFTA.

Ask the people of Mexico who have dirtier air, dirtier water, little collective bargaining rights, and are now watching their new factories close and move across the Pacific if they have benefited from NAFTA.

If you can look at the results of NAFTA and think our quality of life has improved; if you think there are more and better jobs post-NAFTA than before; if you think Mexico is on the verge of joining the ranks of the G–8, then CAFTA is the trade agreement for you.

Evaluate carefully the claims which will be made about CAFTA. For example, we have heard that CAFTA will open important markets for U.S. goods. Sound familiar? As we learned from NAFTA, if labor standards are not improved as part of these Agreements, few workers in these markets will be able to afford our goods.

We make cars and trucks in my home State of Michigan. American auto manufacturers are currently putting over $1,400 of health care costs into each American-made car. Yet the average Nicaraguan worker earns only about $2,300 a year. Yes, that's for an entire year.

While the rising health care burden on American manufacturing is an important issue for another day, it illustrates the absurdity of the claims that new markets will be flooded with American products. How many cars or computers can we reasonably expect to sell in these new markets?

Instead of raising the living standards of people in Central America, CAFTA will accelerate a race to the bottom. Instead of creating new, high value jobs in the United States, CAFTA will only replace good jobs with unemployment checks.

I urge all my colleagues not only to read the details of this deal, but also to look around. Look at the closed factories, talk to unemployed manufacturing workers, and remember the promise of NAFTA.

Mr. Speaker, in closing, I can think of no better distillation of my vote against CAFTA than the old saying, "Fool me once, shame on you. Fool me twice, shame on me." I urge my colleagues not to be fooled again.

Mr. LARSON of Connecticut. Mr. Speaker, I rise in unfortunate opposition to this DR–CAFTA agreement. represents a real missed opportunity for this Congress and this Administration to engage in a real meaningful negotiation to improve trade relations between the United States, the Central American countries, and the Dominican Republic. Unfortunately, this agreement represents a step backward from over 20 years worth of U.S. laws and enforcement efforts.

The pact falls short of the standards that any trade agreement America signs onto should meet: the broad fulfillment of America's economic interests, the opening of fair markets for America's goods and services and the reversal of America's ever-growing trade deficit. Whoever the winners, they're not the American or the Central American worker. I support free—and fair—trade, but that isn't what CAFTA will accomplish.

At a Chamber of Commerce meeting in my district, I was struck by the fact that many small manufacturers were outraged at the lack of focus by the Administration in protecting their industry and their jobs. In fact, had I closed my eyes I would have thought I was at an A.F.L.–C.I.O. rally. In a moment of candor, one of the manufacturers said, when large companies started downsizing their labor force and outsourcing their work to us we were silent, we couldn't conceive that it was only a matter of time before we too would be outsourced. When will the government do something about this race to the bottom?

That's how my district sees this, and I share their view. Unfortunately, this is a missed opportunity, an opportunity where frankly CAFTA countries told us they were more than willing to accept stronger provisions if they had only been asked to. Violations of international labor standards should not be held to a different standard than other violations on matters like intellectual property.

Supporters of CAFTA also point to the fact that labor standards and working conditions will be monitored by agencies like the International Labor Organization, part of the United Nations which established international labor standards and which verifies that these standards are met. I guess now with this trade agreement the Administration is running out of American Jobs to outsource and has moved on to official U.S. Government functions. Since when are we are going to allow the United Nations to determine whether or not other countries are in compliance with our treaties?

In the typical "bait and switch" tactics of the Republican majority, what they are not telling you here is that just a few weeks ago, they approved an $82 billion funding cut Proposed by President Bush to the principal agency that supports foreign labor standards technical assistance, virtually assuring that no oversight or enforcement will ever actually take place.

Jobs are now America's fastest-growing export. We should be exporting our values and market goods not our jobs. As the world's richest nation, we have a moral obligation to lift the standard of living of the world's poor. It is double-speak for the President to say he wants to promote democracy to the south of our borders but pushes a trade agreement that consigns subsistence workers to economic bondage and forces American businesses to compete on an uneven playing field.

This is the wrong trade agreement for the United States and for Central America. I urge my colleagues to vote no and send this treaty back to President Bush to be renegotiated.

Mr. EVERETT. Mr. Speaker, I rise today in support of H.R. 3045, the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act. Passage of this important legislation will give Alabama exporters greater access to Central American markets and bolster American security.

When I co-chaired the Republican anti-NAFTA task force in 1993 we were determined to defeat NAFTA, but we failed by a few votes. I remain convinced that NAFTA has been bad for my district and increased the Nation's trade deficit with Mexico. While CAFTA and NAFTA sound alike, the two trade agreements have substantial differences that cannot be overlooked. NAFTA exported thousands of jobs to Mexico, while dramatically increasing the flood of Mexican made products into the U.S. market. CAFTA, meanwhile, gives U.S. goods the same market access to Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras, and Nicaragua as those countries already enjoy here, thereby leveling the playing field for American exporters.

Ratifying CAFTA actually benefits the United States significantly more than it does Central America since those nations already have 90 percent duty-free access to our markets. CAFTA simply gives American companies and workers equal access to Central America. As such, Alabama agriculture and other industry will benefit from the ability to export more goods duty-free, resulting in lower prices and increased consumption in this area. Alabama ranks eighth among all U.S. states in exports to Central America and that is expected to grow with CAFTA's passage.

However, I did not give my support to this agreement without carefully considering several issues. First, I remain concerned about saving thousands of remaining textile jobs in Alabama and protecting agriculture and other industries in my district. Secondly, I have serious concerns over the return of leftist insurgencies in the struggling democratic countries that are a part of CAFTA and the harm that would do to our national security. Finally, I also have concerns about the threat of illegal immigration.

Most of the Alabama textile plants that survived the effects of NAFTA did so by establishing relationships with Central American partners who assemble Alabama-made components. This delicate balance would be upset if this relationship were not allowed to continue; ultimately forcing the remaining U.S. textile industry to Asia. CAFTA strengthens this beneficial arrangement by making these current trading arrangements permanent.

While I have consistently supported tougher immigration laws, the Congress has resisted approving some of these measures. Also, the Administration has not been as helpful as I would like in trying to solve the border security problem.

I am convinced that should CAFTA fail the illegal immigration flow into America would increase. Venezuelan president Hugo Chavez is using his country's vast oil money to create anti-American and anti-democratic upheaval in the countries affected by CAFTA. Should CAFTA fail and Chavez is successful in bringing down these fragile governments, thousands more would flood our borders seeking to escape new leftist regimes. Such an unstable situation would increase many times over our worry of terrorists crossing into the United States.

In summary, passage of CAFTA will provide a tremendous economic boost to our critical industrial base, support fledgling democracies in a crucial part of the world, and help stem the tide of illegal immigration into the U.S.

I urge all of my colleagues to support this measure.

Mrs. TAUSCHER. Mr. Speaker, I rise today to voice my strong opposition to the Dominican Republic-Central American Free Trade Agreement and intend to vote it against.

I am proud to be a pro-trade Democrat in Congress and am proud of my record—having supported every free trade agreement since I took office in 1997.

I voted in favor of granting the President Trade Promotion Authority in 2002 and voted against withdrawing from the World Trade Organization in 2000 and again earlier this year.

I am a longtime member, and the current chair of the New Democrat Coalition, a group of members who often support free trade. We see our role as a group of pro-business, pro-defense, and pro-trade leaning members who seek ways to open foreign markets to American goods and services. I .also co-chair the Friends of New Zealand Caucus in the House, and hope we may soon see a free trade agreement with New Zealand.

Mr. Speaker, I believe that free trade, when organized properly, benefits our economy. It can only help to improve our relations with the other countries involved.

In the case of CAFTA, I want to see our Nation maintain close ties with our neighbors in Central America. Our economic security and our National security depend on cooperative relationships with our friends and allies.

However, in pursuing free trade, we must also consider the impact and direct effects the agreements will have on workers—both here and abroad.

And CAFTA fails to provide adequate protection.

It simply does not do enough to invest in basic job training and education for Americans—specifically those Americans who lose their jobs due to trade.

The current budget for Trade Adjustment Assistance is insufficient: the President's 2005 request was $300 million less than Congress authorized for FY 2004, despite the obvious needs for job training and retraining. What's worse, Mr. Speaker, is that CAFTA does not provide any TAA funds for service workers, who comprise 80 percent of today's American workforce and produce three-quarters of our products. When job training programs go under funded, American workers are at risk.

Furthermore, CAFTA is the first FTA negotiated by the United States with developing countries, some of which have weak labor laws and a history of suppressing the rights of their workers.

We need to do all in our power to ensure that this agreement helps these countries raise their working standards. Unfortunately, the labor chapter requires that each country simply enforce its existing laws. It does nothing to require the DR-CAFTA countries improve their laws to reflect fairness to working people. There are also no safeguards in the agreement to prevent countries to explicitly weakening their labor laws. This "enforce your own laws" standard is a giant step backwards. Under our current trade policy, the Caribbean Basin Initiative allows us to withdraw trade benefits from countries who violate the labor standards of the agreements they have signed. If CAFTA goes into effect, those remedies are wiped out and simply replaced with the "enforce your own laws" standard.

This labor agreement is simply unacceptable.

And finally Mr. Speaker, I feel compelled to say a word about the legislative process here in Congress. I would be remiss if I did not do so.

This Administration has made a habit of regularly excluding Democrats from the table during the negotiation and drafting of all major legislation. We saw this with the energy bill, the Medicare prescription drug bill, and again with CAFTA. We were not consulted at all on this FTA.

We all have valid ideas and concerns worthy of discussion regarding improving international market economies and they need to be fully and fairly debated. That did not happen with CAFTA. We were not engaged. I thought that at some point in the process members of the New Democrat Coalition would be consulted, as we generally support free trade. However, I was wrong. There was no outreach from House leaders or from the President to us.

One would think that after the passage of Trade Promotion Authority in 2002—by a 3 vote margin—a clear signal was sent to the Administration that passing free trade agreements will not be easy. Everyone ought to be at the table. Instead of heeding past warnings, they have continued to make a habit of regularly excluding Democrats. CAFTA has been no exception.

As a result of poor negotiations with the Democrats and a lack of steady involvement by the President with members of his own party, on the day of the CAFTA vote, President Bush made an eleventh hour trip to Congress to twist arms in hopes of squeaking out the minimum number of votes needed to pass this agreement.

Mr. Speaker, trade should not be a Republican or Democrat issue. It is an American issue. Passing trade agreements by one or two votes, in the dead of night when both the American and Central American people are sleeping, is not the way to have a responsible trade policy.

Both the people of Central America and workers here in the United States deserve better.

Mr. WAXMAN. Mr. Speaker, It is with great disappointment that I rise in opposition to CAFTA. I support free trade. Trade agreements are an important tool to strengthen ties with strategic partners, expand opportunities for American industry, and improve the standard of living. Unfortunately, I believe that this agreement will do more harm than good.

Among my chief concerns, the agreement perpetuates weak and unenforced labor and environmental standards. The failure to raise these standards will hurt Central Americans and create unfair competition for American workers.

CAFTA would also allow foreign companies to bypass the U.S. court system and challenge Federal, State and local laws and regulations through a veiled and unaccountable trade tribunal.

But, today I would like to focus my remarks on a major issue that unfortunately has gotten relatively little attention in this debate, which is that CAFTA will seriously impede access to essential medicine in poor developing countries.

In June, the minority staff on the Government Reform Committee released a report entitled "Trade Agreements and Access to Medications Under the Bush Administration." The complete report is available at *www.democrats.reform.house.gov* and I would ask unanimous consent that the Executive Summary be printed in the CONGRESSIONAL RECORD.

The alarming conclusion the report reached is that under CAFTA, patients in poor countries will often have to wait longer than those in the United States to gain access to generic drugs.

Specifically, CAFTA would block governments from approving the sale of generic drugs for at least five years after a new drug is introduced, even if the drug's patent has already expired. The agreement would also inhibit generic competition with patent extensions and other measures that will make it harder for drug regulators to approve generic drugs.

The impact will be devastating in the developing world where large poor and uninsured populations cannot afford brand name drugs. For many patients suffering from diseases like AIDS, tuberculosis, heart disease and cancer, waiting five years to afford new cures will mean the difference between life and death.

In reality, the pharmaceutical companies actually stand to gain little from these protections in a region of the world that barely represents one half of one percent of the global drug market. But the companies view this trade agreement as a cookie cutter model for USTR to negotiate with all countries regardless of the consequences.

The Bush Administration has boldly advanced the pharmaceutical agenda, claiming that the provisions are merely an extension of a U.S. law known as Hatch-Waxman. As an author of that legislation, I could not disagree more.

Hatch-Waxman was a carefully crafted measure that reflects both the need to promote innovation and the need to facilitate generic competition. In contrast, CAFTA does not establish a proper balance between the interests of the drug companies and consumers, between intellectual property rights and the human rights of patients.

It is reckless and dangerous to force our partners in the developing world to trade away their timely access to inexpensive, lifesaving medications.

It is irresponsible for the United States to undermine its commitment to the 2001 Doha Declaration, which expressly called for trade rules to respect public health needs.

It is wrong for CAFTA to advance the financial interests of large multinational drug companies at the expense of the developing world's ability to address public health problems.

If we defeat CAFTA today, we can put pressure on the Bush Administration to change course. Then we can vote on an agreement that is both ethically and economically sound.

EXECUTIVE SUMMARY

In 2001, 142 countries, including the United States, adopted "the Doha Declaration," an international agreement that trade obligations should be interpreted and implemented in ways that protect public health and access to essential medications. In August 2002, the U.S. Congress passed the Trade Promotion Authority Act, which directs adherence to the Doha Declaration in U.S. trade negotiations.

Since the adoption of the Doha Declaration and the passage of the Trade Promotion Authority Act, the Bush Administration has signed and Congress has ratified bilateral free trade agreements with three developing countries: Chile, Singapore, and Morocco. The Administration has signed one regional free trade agreement, commonly referred to as CAFTA, with five Central American nations and the Dominican Republic, and a bilateral agreement with Bahrain. Six more free trade agreements with 13 developing countries have been initiated, including a proposed agreement with four Andean nations. Negotiations have also continued on the Free Trade Agreement of the Americas (FTAA).

At the request of Rep. Henry A. Waxman, this report examines whether the Administration is complying with the Doha Declaration in its pursuit of these trade agreements. The report finds that contrary to the Doha Declaration, U.S. trade negotiators have repeatedly used the trade agreements to restrict the ability of developing nations to acquire medicines at affordable prices. In effect, the President's trade representatives have elevated the protection of pharmaceutical patents above the pressing health needs of developing countries.

Specifically, the report finds that the agreements:

Delay approval of generic drugs. CAFTA and the other four signed trade agreements, as well as the Andean proposal and FTAA draft, contain provisions that block the approval of inexpensive generic drugs until the more expensive brand-name drug has received at least five years of market exclusivity in the developing nation. Under the agreements, the developing nations will often have to wait longer than the United States to gain access to low-cost versions of essential medications.

Require patent extensions. CAFTA and the other four signed trade agreements, as well as the Andean proposal, require the developing nations to grant patent extensions to the manufacturers of brand-name drugs to account for delays in the regulatory approval process in the developing nation. These provisions can extend the term of patents in the developing nations beyond their duration in the United States.

Link drug approval to patent status. CAFTA and the other four signed trade agreements, as well as the Andean proposal and the FTAA draft, require drug regulatory authorities in the developing nations to adjudicate patents despite their lack of expertise in the area of patent enforcement, placing an additional constraint on the approval and availability of low-cost generics.

Restrict compulsory licensing. The Singapore agreement, the Andean proposal, and the FTAA draft limit the circumstances under which developing nations can issue compulsory licenses authorizing generic manufacturers to produce low-cost versions of patented drugs.

Prohibit parallel importation. The trade agreements with Morocco and Singapore, as well as the Andean proposal and the FTAA draft, prevent the developing nations from importing patented drugs from abroad at the lowest available price.

Expand patent protections. The Andean proposal has a provision that would require the Andean nations to issue patents for diagnostic, therapeutic, and surgical methods that are currently exempted from patentability.

Taken together, these trade provisions will significantly impede the ability of developing countries to obtain access to inexpensive, lifesaving medications. Contrary to the principles of the Doha Declaration, these provisions in the trade agreements advance the financial interests of large multinational drug companies at the expense of the developing world's ability to address public health problems.

Ms. HARMAN. Mr. Speaker, Congress debated the North American Free Trade Agreement in 1993, I wrote an op-ed titled "Not This Treaty, Not Now," arguing that NAFTA's time had not come, that the U.S. and Canada should require Mexico to meet certain preconditions before agreeing to the trade deal. Over the objections of those who argued NAFTA should be used to leverage reforms in Mexico, it passed without enforceable provisions to protect labor rights or the environment. Supporters of the agreement insisted NAFTA would create millions of good jobs, help stem illegal immigration and raise living standards "from the Yukon to the Yucatan."

A decade later, NAFTA's promise is largely unrealized. Environmental conditions in Mexico have worsened, real wages have stagnated, the income disparity between the U.S. and Mexico has widened, and illegal immigration shows no signs of slowing. Clearly, NAFTA is not all that advocates claimed.

The broken promises of NAFTA should serve as a warning, and cast doubt on similar claims that the recently negotiated Central American Free Trade Agreement (CAFTA) will do what NAFTA has not.

Our Central American neighbors have made real economic and political progress in recent years, and the U.S. should work to re-enforce that progress. But as with NAFTA, CAFTA brings together countries with greatly varying labor and environmental standards and enforcement methods. This disparity necessitates strong and enforceable provisions to protect workers and the environment. As did NAFTA, CAFTA comes up short.

CAFTA's penalties for failing to enforce labor and environmental laws provide no real deterrent against future abuses; it offers no incentives to improve standards over time. In fact, CAFTA weakens labor protections by removing an existing oversight mechanism available under our current system of trade preferences for the region.

CAFTA also incorporates NAFTA's troubling Chapter 11 provisions, which effectively give foreign investors the right to challenge U.S. health, safety and environmental laws. California has been at the forefront of efforts to protect its communities from air and water pollution, yet CAFTA gives foreign investors the right to challenge our state law if it affects their commercial interests.

Free and fair trade can lift living standards both at home and abroad, encourage technological innovation, create jobs and empower individuals. But each agreement must be considered on its merits. Bilateral agreements with Chile, Singapore, Jordan, and Australia; normal trade relations with China; and renewal of "fast track" approval were issues I supported.

But trade is not fair if desperate people are forced to work in hazardous conditions or communities are forced to bear the costs of environmental degradation. In the context of lax enforcement of labor and environmental regulations, free trade can provide perverse incentives to impose the costs of production onto workers, communities and the environment. Such incentives serve neither the economic interests of the U.S. nor our trading partners.

Mr. Speaker, with respect to CAFTA, I echo my refrain from 10 years ago: "Not this treaty, and not now."

Mr. HASTERT. Mr. Speaker, the agreement we have before us is critical to America's economic future. You see, America's economic stability is directly linked to our ability to maintain a robust trading relationship with the rest of the world.

Right now, the CAFTA region is the second largest U.S. export market in Latin America. Eighty percent of goods from that region already enter the U.S. duty-free.

But currently, U.S. products don't enjoy the same benefits. American exporters of everything from cars, vegetables, fruits, grain and wood products all face average tariffs of 10 to 30 percent.

In my home State of Illinois, some farmers are paying tariffs on farm goods that are as high as 16 percent. These high tariffs prevent farmers from competing in the growing markets of Central America and the Dominican Republic.

Last year, export shipments from Illinois to the CAFTA region totaled $211 million dollars. That's the 16th largest in the U.S.

Passing CAFTA will allow exporters in Illinois and the rest of the country to enjoy the same benefits that our Central American partners already have. And that means more U.S. products can enter and be sold in Central America.

This agreement is a win-win situation for American farmers, businesses and consumers. No matter how you look at it, business activity will increase. And we all know, when businesses do well, jobs are created. In fact, it is estimated that one out of every five factory jobs in the U.S. depends on trade.

There is another component to CAFTA that is also important to address.

This agreement will help solidify democracy and economic reform in Central America. Here is what we know. Trade creates jobs and lifts people out of poverty. And when that happens, societies stabilize and grow. And there is nothing like a stable society to fight terrorism and strengthen democracy, freedom and rule of law.

Finally, Hispanics are now the largest minority group in the United States. For the millions of Hispanic Americans with families still living in Central America, this agreement creates a mutually beneficial economic relationship that strengthens our ties and our friendship.

Put simply, this trade agreement is about fairness. Fairness for American workers and fairness for American exporters. Our businesses and workers deserve a competitive trading environment on a level playing field.

This is important legislation. It will expand economic opportunity in the United States, and it will promote freedom and democracy in Central America. I urge the House to do the right thing and pass this legislation.

Mr. KENNEDY of Rhode Island. Mr. Speaker, I rise today to encourage my colleagues to vote against the Central American Free Trade Agreement (CAFTA). I would like to be clear that I support increasing fair and free trade with our allies in Central America, and I appreciate the steps these nations have taken to improve business relations with the United States, especially among small businesses in my home State of Rhode Island. Fair trade between our nations could also help to bridge the relationship of our governments, leading to more stability in the region. There are several sociological and economic benefits that could be achieved through fair trade; unfortunately, those who drafted CAFTA did not aim to use this agreement as a vehicle for change, but rather chose to honor special interests before addressing the needs of the families and children living in those nations that will be most affected.

At a time when our Nation is preparing to pass sweeping trade legislation, the Administration has not only cut corners within the agreement, but also within the Federal agencies we rely on to regulate our global policies. I think this fact is best illustrated by the President's funding priorities in this year's budget. He requested, and his party's leader's agreed, to cut the International Labor budget by 86 percent. This funding helps to save children from spending their childhoods working in factories with deplorable conditions. I find it hard to believe that we can stand here and pass such a sweeping trade agreement as we continue to obliterate our ability to protect the children and low-wage employees that will be most affected.

Don't be fooled by those who tell you that there are protections for labor in this bill. The fact remains that this agreement simply permits Central American nations to "enforce their own laws." Should they change their laws, or weaken them in any way, the United States will have no recourse to protest this change. In fact, two CAFTA nations have already weakened or proposed weakening their basic labor laws since the signing of this agreement.

My colleagues from across the aisle talk about providing increased funding for labor protection and enforcement. But that's all it is—talk. There is absolutely nothing written in this agreement that requires the Congress to put money behind their promises, and after passing a budget with an 86 percent cut to the program that stops child labor, I am not confident that this funding will be present in the next budget handed down from the White House. Let us use our trade policies to help the world's most vulnerable populations, and take advantage of the great power of our nation to lift individuals out of poverty, not perpetuate the status quo.

Mr. UDALL of New Mexico. Mr. Speaker, I rise today In opposition to H.R. 3045, and In opposition to the unfair trade policies and burdensome costs to Americans that this agreement represents.

The Central American Free Trade Agreement, CAFTA, which binds together the trade policy and economic future of the U.S., Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras and Nicaragua, was negotiated over an 18-month period. As globalization takes hold in the world and our Nation becomes further integrated economically with others, it is vital that we only enter into a trade agreement that will protect U.S. workers, consumers, and businesses, and that economic development, the proliferation of democracy, environmental protection and, most importantly, the rule of law is honored in the agreement.

Unfortunately, CAFTA does not meet these standards, and instead, includes provisions that will cause considerable distress and harm to U.S. workers and businesses. It lacks a sincere commitment to protecting American jobs. It lacks strong environmental protection provisions. It lacks strong public health provisions. It lacks worker protection provisions. It lacks consumer protection. One of the most egregious portions of CAFTA would allow drug patents to be extended beyond normal limits, thus denying CAFTA nations the opportunity to introduce and offer generic drugs to its citizens, the majority of whom are poor and cannot afford the skyrocketing costs of prescription drugs. Perhaps most importantly, CAFTA lacks that comprehensive policy that should be an overarching feature of any multinational trade agreement—the ability to proactively engage and integrate the domestic business and labor policies of each nation to ensure that each realizes new, improved standards of living, economic standing, and commitments to democracy.

I will vote against CAFTA because I do not believe it will achieve these goals. And I am not alone. In my state of New Mexico, numerous labor and business organizations have voiced opposition to this trade agreement. Since the President signed CAFTA nearly 1 year ago, my constituents have continuously expressed to me their concerns of what CAFTA will mean for them and their families. And they continue, in greater and greater volume, to voice those concerns to me as we have begun debate on H.R. 3045 here in the House.

U.S. trade policy must be fair trade policy, and CAFTA is not. I believe we have squandered an opportunity to enact positive trade policy, and I believe enacting CAFTA will cost our American businesses and families. I oppose this legislation and urge my colleagues to do so as well.

Mr. TOM DAVIS of Virginia. Mr. Speaker, I rise in strong support of H.R. 3045, the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act.

I'm an unapologetic avid free-trader. I believe we are in the midst of a globalization revolution. I believe the United States has an enormous role to play in that revolution.

We are the nation that benefits most from global economic integration, so it is our job to make sure globalization is sustainable. That it creates more winners than losers, in as many places as possible, on as many days as possible.

But Mr. Speaker, we need to understand that CAFTA is more than just a trade pact. It's a signal of U.S. commitment to democracy and prosperity for our neighbors. And it's the best immigration, anti-gang, and anti-drug policy at our disposal.

I recently returned from leading a congressional delegation to El Salvador, Venezuela, and Colombia. The trip left me more convinced than ever that a large part of the answer to so many questions confronting the D.C. region and the entire United States is, quite simply, free trade.

Want to fight the ever-more-violent MS–13 gang activity originating in El Salvador but prospering in Northern Virginia? Pass CAFTA.

Want to begin to ebb the growing flow of illegal immigrants from Central America? Pass CAFTA.

Want to curb the still-steady stream of illegal drugs to American streets? Pass CAFTA.

Want to help make sure Al-Qaeda and other foreign terrorist groups don't easily utilize the southern border to enter the United States and do us harm? Pass CAFTA.

The reality is, CAFTA has profound implications for not only U.S. economic interests, but geo-political and homeland security concerns as well. My fear is that we are now so focused on promoting freedom and democracy in Iraq that we risk missing a critical and timely opportunity to further those causes in our own backyard—all because of some misguided but politically compelling opposition rhetoric.

Take the so-called "labor concerns," for example. I discussed this with Salvadoran President Tony Saca, and he chuckled at the illogical nature of the criticism. "We have a profound respect for unions," he said. "But if we don't have more jobs, we won't have more unions. Because I haven't seen any jobless unions."

Saca knows what opponents won't admit: the economic benefits arising from CAFTA would significantly increase wealth in El Salvador—wealth that will allow Saca to enforce existing, and even implement new, labor environmental safeguards.

Each of the CAFTA nations is unique, but they share traits, including an urgent need for investment and jobs. Do we really think there is no connection between a lack of economic opportunity in Central America and illegal immigration to the U.S.? Or no connection between rising gang activity and poverty, underemployment, and broken homes? Our own neighborhoods are not insulated from the lack of economic opportunity abroad.

Our best immigration policy is one that strengthens economies south of our border.

For U.S. economic interests, the gains are equally clear: U.S. exports to the six nations total about $15 billion a year; that would increase by $4 billion in the pact's first year, resulting in a net gain of about 25,000 U.S. jobs.

And, having seen firsthand the growing hostility toward America in Venezuela under Hugo Chavez, I can only conclude that American national security interests are also at stake with CAFTA. While the collective attention of our Nation has been primarily focused on Iraq, a string of troubling events has been unraveling in South America.

Economic collapse in Argentina. Growing instability and leftist populism in Bolivia and Ecuador. Chavez consolidating power in oil-rich Venezuela, and extending his anti-US influence into the Caribbean and across the Andes. Brazil signing huge economic deals with China.

Meanwhile, the six CAFTA countries comprise some of our most reliable, steadfast allies anywhere. El Salvador, to this day, maintains hundreds of troops in Iraq in support of the U.S.-led mission.

Some say CAFTA is a move to ship U.S. jobs to Central America; in actuality, it offers a path toward importing apparel and other goods from Central American allies instead of China.

The CAFTA countries are dominated not by Chavez-like dictatorships with a "democratic" face, but by 21st century leaders who realize that when people are given a larger economic role in their community, they in turn demand a greater role in how that community is governed.

But this rising democratic tide could be easily turned back unless Central Americans see—and see soon—that democracy delivers more than promises. The best way to make promises a reality for all is to open our doors to trade.

It may also be the best way to fight some of our biggest societal problems here at home.

Ms. CORRINE BROWN of Florida. Mr. Speaker, here we go again. With the economy in shambles, we are here today discussing free trade in the form of CAFTA. My colleagues, if passed, this free trade bill would be a net loss for American workers, for the environment, and for the local workers in Central America as well. So you may ask Who wins if CAFTA passes? Simple enough. As has too often been the case with this administration, the folks at the country clubs would win. Yes, the same people who benefit from the Bush administration's tax cut plans for the wealthy, the very same people who have been benefiting since President Bush took office back in 2000, all at the expense of our Nation's working people!

CAFTA does not care whether or not you use child labor or forced labor. It does not care whether multinational companies pollute our planet's water and poison our air. This is a treaty that clearly says we do not care how safe the products are that we import, no this trade agreement, just like NAFTA and free trade policies in general, serves just one purpose: To make the richer even richer, while keeping our Nation's workforce at the bottom of the barrel.

Even under the Clinton administration, we were promised more jobs, yet what happened? Millions and millions of American workers found themselves out of work! Workers' lives have been ruined, their families have been torn and uprooted, and in fact, entire agricultural industries like the tomato industry in Florida have suffered. In fact, for the past decade, Florida vegetable growers, especially tomato and bell pepper farmers, have been nearly put out of business! My State's citrus crop, which is often considered the jewel of Florida's agriculture production, is facing greater and greater pressure from Mexico every day. Indeed, if this trade agreement passes, it could easily drive this important industry right out of business.

I yield back the balance of my time and encourage everyone in this building to cast a vote against this bill, and to vote in favor of America's workers, in favor of our farmers, in favor of the environment, and in favor of what's right for our Nation.

Mrs. TAUSCHER. Mr. Speaker, I rise today to voice my strong opposition to the Dominican Republic-Central America Free Trade Agreement and intend to vote against it.

I am proud to be a pro-trade Democrat in Congress and am proud of my record—having supported every free trade agreement since I took office in 1997.

I voted in favor of granting the President Trade Promotion Authority in 2002 and voted against withdrawing from the World Trade Organization in 2000 and again earlier this year.

I am a longtime member, and the current chair of the New Democrat Coalition, a group of members who often support free trade. We see our role as a group of pro-business, pro-defense, and pro-trade leaning members who seek ways to open foreign markets to American goods and services. I also co-chair the Friends of New Zealand Caucus in the House, and hope we may soon see a free trade agreement with New Zealand.

Mr. Speaker, I believe that free trade, when organized properly, benefits our economy. It can only help to improve our relations with the other countries involved.

In the case of CAFTA, I want to see our Nation maintain close ties with our neighbors in Central America. Our economic security and our national security depend on cooperative relationships with our friends and allies.

However, in pursuing free trade, we must also consider the impact and direct effects the agreements will have on workers—both here and abroad.

And CAFTA fails to provide adequate protection.

It simply does not do enough to invest in basic job training and education for Americans—specifically those Americans who lose their jobs due to trade.

The current budget for Trade Adjustment Assistance is insufficient: the President's 2005 request was $300 million less than Congress authorized for FY 2004, despite the obvious needs for job training and retraining. What's worse, Mr. Speaker, is that CAFTA does not provide any TAA funds for service workers, who comprise 80 percent of today's American workforce and produce three-quarters of our products. When job training programs go under funded, American workers are at risk.

Furthermore, CAFTA is the first FTA negotiated by the United States with developing countries, some of which have weak labor laws and a history of suppressing the rights of their workers.

We need to do all in our power to ensure that this agreement helps these countries raise their working standards. Unfortunately, the labor chapter requires that each country simply enforce its existing laws. It does nothing to require the DR–CAFTA countries improve their laws to reflect fairness to working people. There are also no safeguards in the agreement to prevent countries from explicitly weakening their labor laws. This "enforce your own laws" standard is a giant step backwards. Under our current trade policy, the Caribbean Basin Initiative allows us to withdraw trade benefits from countries who violate the labor standards of the agreements they have signed. If CAFTA goes into effect, those remedies are wiped out and simply replaced with the "enforce your own laws" standard.

This labor agreement is simply unacceptable.

And finally Mr. Speaker, I feel compelled to say a word about the legislative process here in Congress. I would be remiss if I did not do so.

This Administration has made a habit of regularly excluding Democrats from the table during the negotiation and drafting of all major legislation. We saw this with the energy bill, the Medicare prescription drug bill, and again with CAFTA. We were not consulted at all on this FTA.

We all have valid ideas and concerns worthy of discussion regarding improving international market economies and they need to be fully and fairly debated. That did not happen with CAFTA. We were not engaged. I thought that at some point in the process members of the New Democrat Coalition would be consulted, as we generally support free trade. However, I was wrong. There was no outreach from House leaders or from the President to us.

One would think that after the passage of Trade Promotion Authority in 2002—by a 3-vote margin—a clear signal was sent to the Administration that passing free trade agreements will not be easy. Everyone ought to be at the table. Instead of heeding past warnings, they have continued to make a habit of regularly excluding Democrats. CAFTA has been no exception.

As a result of poor negotiations with the Democrats and a lack of steady involvement by the President with members of his own party, on the day of the CAFTA vote, President Bush made an eleventh hour trip to Congress to twist arms in hopes of squeaking out the minimum number of votes needed to pass this agreement.

Mr. Speaker, trade should not be a Republican or Democrat issue. It is an American issue. Passing trade agreements by one or two votes, in the dead of night when both the American and Central American people are sleeping, is not the way to have a responsible trade policy.

Both the people of Central America and workers here in the United States deserve better.

Ms. BALDWIN. Mr. Speaker, today I voted against the Dominican Republic-Central America Free Trade Agreement. As negotiated by the Bush Administration, it fails the fundamental tests that our trade agreements should meet.

First, our trade agreements must be structured to raise labor standards, not put downward pressures on the rights and protections of American workers. All workers—in the U.S., the Dominican Republic and Central America—deserve fair wages, safe workplaces, and reasonable working conditions.

Second, all citizens—in the U.S., the Dominican Republic and Central America—deserve clean air and clean water. Polluting factories that poison our environment should not be located in San Salvador or San Jose, any more than they should be in Baraboo or Beloit, or Waunakee or Wisconsin Dells.

The United States should be a leader in the world in raising standards for everyone. DR–CAFTA was an opportunity to enshrine these fundamental protections in a model trade agreement that could have served as a template for raising working standards, wages, safety and environmental protections around the world. Instead, it is an opportunity squandered.

Unfortunately, even more than an opportunity squandered, it threatens to undermine those very protections that American workers and their families have every right to expect. We need a truly fair trade deal. DR–CAFTA isn't fair, and it isn't a deal.

Ms. DELAURO. Mr. Speaker, today Congress draws a line in the sand and says it has had enough of trade agreements that are unfair to America and harmful to our reputation across the world. Today we say enough with agreements that let our competitors reverse engineer our products, manipulate their currency and steal our intellectual property. Enough with agreements that ship good paying American jobs to regions of the world where wages are but a fraction of ours—where environmental and labor standards put already vulnerable families here and abroad at greater risk.

It has been said that this debate is about globalization. But by rejecting CAFTA, we do not reject globalization, Mr. Speaker. Rather, we set a new path for America—one that embraces globalization's capacity to raise living standards here and across the world, to strike at the heart of poverty, and expand markets that will serve as the foundation of the 21st Century economy.

Those are America's values, Mr. Speaker, and they ought to be central to this bill. But if these last four years have taught us anything, it is that we do not spread our values by denying our trade partners' citizens the right to affordable generic drugs for diseases like HIV and malaria—this pact prevents developing countries from accessing lower priced generic drugs by granting drug companies new and extended patent protection and additional shelter from price competition. We do not spread American values by exploiting cheap labor, deepening income inequality in the developing world. Indeed, CAFTA's single enforceable workers' rights provision requires only that countries enforce their own labor laws—laws that fail to meet international standards.

Yet globalization marches on, and America stands idly by, missing one opportunity after another to shape globalization's rules to our benefit and the world's. Already 55,500 workers from my state's once-thriving manufacturing base have been left behind, their jobs shipped overseas. 2.8 million more have been sent abroad nationally, decimating our industrial capacity and leaving us with a $617 billion trade deficit. No one expects this pact to bring these jobs back—the combined purchasing power of the CAFTA is no more than that of my hometown of New Haven, Connecticut. But by including loopholes like one which could allow massive quantities of Chinese yarn, fabric and other products to displace U.S. products, it is hard to imagine this deal will make American companies and workers as competitive in this century's global marketplace as they were in the last. And that must be our goal.

This is a moment for unity, Mr. Speaker. By rejecting CAFTA, the Congress can say with one voice that how America responds to globalization is too important for the partisanship and divisiveness that have brought us to this point. Only then can we send negotiators back to the table with a clear mission and singular moral purpose. That is what this debate is about, and that is why I urge my colleagues to reject this bill.

Mr. CARDOZA. Mr. Speaker, I strongly oppose CAFTA, because I believe it is a bad deal for rural and agricultural communities like those in my 18th district of California.

There is no indication that U.S. agriculture will benefit from a poorly negotiated deal that—without adequate safeguards—opens trade with a region that has little capacity to purchase our goods.

This administration's lax enforcement of trade agreements makes CAFTA's prospects even bleaker.

Currently, our agricultural trade deficit with the six countries covered by CAFTA totals 765 million dollars.

If we assume that the projections for CAFTA are as far off the mark as the projected gains turned out to be for NAFTA, this deficit is likely to grow even higher.

By passing this deeply flawed agreement, we would do two things: Reward these Central American countries for their poor records on labor rights—and add to our ballooning agricultural trade deficit with that region.

Like my Democratic colleagues, I believe in fair trade, not flawed trade.

I believe in trade deals that protect American farmers and ranchers and raise living standards in our partner countries. CAFTA fails to meet these basic standards, and I urge my colleagues to oppose it.

Mr. MOORE of Kansas. Mr. Speaker, DR–CAFTA is good for our country, and good for Kansas. The market access provisions of the agreement will remove remaining trade barriers in the region that raise the cost of Kansas exports, and will keep Kansas exporters competitive internationally. According to the Department of Commerce's International Trade Administration, exports of manufactured and non-manufactured products from Kansas to the Central American region totaled $23 million in 2004. That figure will grow after the signatories to the agreement implement DR–CAFTA. For manufactured goods, duties on 80 percent of U.S. exports to the Central American region will be eliminated immediately, with the remaining duties phased out over a period of up to 10 years. Manufactured goods accounted for 89 percent of Kansas' exports in goods to the DR–CAFTA countries last year, and Kansas will continue to benefit under the market access provisions of DR–CAFTA.

Additionally, DR–CAFTA will open markets for American agricultural goods. For agricultural products, duties on over 50 percent of

U.S. exports would be eliminated immediately upon implementation of DR–CAFTA, with the rest phased out over a period of up to 20 years. Together, the DR–CAFTA countries are Kansas' 11th largest market for crop exports. This agreement will benefit Kansas farmers.

As a transportation hub, the Kansas City metro area, which is ideally situated on the banks of the Missouri and Kansas Rivers and home to hundreds of miles of commercial rail lines and highways, will play a critical role in moving Kansas exports to market.

Finally, trade liberalization benefits American consumers. Greater movements of goods and services between the United States and other nations increases competition and applies downward pressure on prices, which will help keep inflation at historically low levels. Though the importance of international trade on subduing inflation should not be overstated, neither should it be dismissed. Increased competition, together with a reduction in production costs, can reduce the prices for consumer goods and services in our country.

The global integration of markets for goods and services, referred to as "globalization," is a fact of modem life. As we enter the twenty-first century, the pace of globalization is accelerating. The United States has been a global leader in international trade for decades. And our country is well positioned to shape the direction of globalization if we continue to engage with the rest of the world.

In theory, international trade can raise standards of living and efficiently allocate resources between nations. In reality, the potential benefits and drawbacks of trade are usually addressed within the language of trade agreements. Each trade agreement that the United States considers entering into with our trading partners needs to be examined carefully on the merits of the agreement. While I have concerns with DR–CAFTA, I believe the potential benefits of the agreement outweigh its potential deficiencies. For that reason, I plan to vote in favor of DR–CAFTA.

Mr. Speaker, twenty years ago several of the DR–CAFTA countries, each of which has its own unique history and culture, were mired in civil war and suffering from deplorable human rights abuses. The region has come a long way over the last two decades, but there is more work to be done. By passing DR–CAFTA, we have an opportunity to help the region in its progress toward greater freedom and economic prosperity. As former President Jimmy Carter wrote in expressing his strong support for DR–CAFTA: "For the first time ever, we have a chance to reinforce democracies in the region. This is the moment to move forward and to help those leaders that want to modernize and humanize their countries. Moreover, strong economies in the region are the best antidote to illegal immigration from the region."

DR–CAFTA has the potential to create jobs in the region, raise standards of living for the citizens in the DR–CAFTA countries, and further stabilize what has been an unstable region. Defeat of this trade agreement will have devastating consequences for the region, which will likely lose textile and apparel jobs to countries with lower wages and weaker worker protections. Turning our backs on the DR–CAFTA countries is counterproductive, both for the Central American region and for America, while engagement holds the promise of future benefits in our hemisphere.

While DR–CAFTA will bring tangible benefits to both the United States and the Central American region, there are chapters in the agreement that could have been improved as this process unfolded. I am disappointed that there was not more consultation with Congress as the administration negotiated the agreement. Members of both parties have concerns regarding DR–CAFTA's labor provisions. Although the agreement subjects failure to enforce labor laws to binding dispute settlement, which could lead to fines or sanctions, greater protections of workers' rights should have been made subject to binding dispute settlement.

In addition, while Congress will provide $20 million in funding for capacity building efforts in the DR–CAFTA countries to help those nations implement and enforce the provisions of the agreement, $20 million is not enough. More funding will be needed in future years to help the DR–CAFTA countries enforce the laws that protect workers, including children, from potentially dangerous work conditions.

I am also disappointed that the agreement does not confront the reality of globalization's negative consequences here at home. Trade agreements need to do more to help workers transition from jobs in distressed industries to new jobs in areas that stand to benefit from our modern economy. I would like to see greater efforts to retrain displaced workers. I look forward to working with the administration to help American workers remain competitive and employed well into the twenty-first century.

Mr. Speaker, globalization is a fact of life in our country and the rest of the world in 2005. It is part of a broad, long trend toward global economic integration. The United States should embrace its historic role as a global leader in international trade and seek to shape the path of a trend that will continue to unfold ready or not. The United States has the strongest economy and the best workforce in the world. We are well positioned to succeed throughout the twenty-first century. DR–CAFTA is not a perfect trade agreement. But it is a step in the right direction for the future of our country.

Mr. SCHIFF. Mr. Speaker, I rise today in opposition to the Central American Free Trade Agreement and encourage my colleagues to join me in opposing its ratification. Trade agreements of this magnitude must not be entered into lightly, and their impact must be investigated thoroughly.

I have studied this issue in great detail, Mr. Speaker. Over the last several months, I have heard from a great number of my constituents; some support the agreement and believe that it will have significant economic and social benefits for the United States, others oppose this agreement because they are concerned that the environmental and labor costs are too great.

I oppose the ratification of CAFTA because it does not adequately protect American interests, ensure that our trading partners will protect our shared environment, provide protection for the rights of workers, or join us in our fight to ensure intellectual property protections.

Mr. Speaker, a globalized economy in which goods and services move with relative ease across national borders is a fact of life in the 21st Century. As New York Times columnist Thomas Friedman has said, "Globalization is not a phenomenon. It is not just some passing trend. Today it is an overarching international system shaping the domestic politics and foreign relations of virtually every country, and we need to understand it as such."

I support trade that is free and fair. And in fact, I have supported each of the individual trade agreements that have come before me. However, to be free and fair a trading regime must ensure that American workers are not competing with nations whose labor and environmental standards guarantee that we cannot compete, and where the intellectual capital of our people is stolen at will. And we must have an Administration that is willing to use all the force of its office to enforce the standards which are set. The dynamism of the American economy, the quality and dedication of American workers, and the constant renewal of American society through immigration have left us in a unique position to thrive in this new economic world. The challenges for the United States are how to draft good trade agreements, enforce their terms, prepare our work force to deal with globalization, and ensure that our workers have the opportunity to fairly compete.

Regrettably, I lack confidence in the Bush administration's willingness to fight for a level playing field on behalf of American workers. For this reason and because I believe that Congress should play a role in shaping trade agreements, I opposed passage of "Trade Promotion Authority" in 2002. I do not believe that we should be forced to accept a flawed deal, or reject a good deal that has some shortcomings. Nor can we accept half-hearted efforts to enforce labor, environmental or intellectual property provisions—or, as is too often the case, no effort at all.

Mr. Speaker, one area of particular concern to my constituents is the lack of adequate protection for American intellectual property. One of our greatest exports is in the area of creative content and intellectual property. In fact, this has been the only area in which we have had a positive balance of trade with every nation on earth; China is now the only exception. This incredible creative reservoir is derived from the hard work of song writers, technicians, artists, programmers, software makers, musicians, filmmakers and scores of others who make their living from the lawful sale of these items. It is critical that these resources are protected, and the Administration has not adequately sought to put in place or enforce the protections necessary to shield America's creators from intellectual property theft.

I have reviewed the CAFTA agreement that was signed on May 28, 2004, and I have listened to concerns over labor, environmental, and intellectual property issues that have been expressed by my constituents and others. I have also listened to those, including former President Jimmy Carter, who support the agreement, and argue that it will create jobs here and expand democracy and opportunity for our Central American neighbors. Ultimately, however, I am not convinced that CAFTA is a mutually beneficial agreement that protects our hemisphere's workers, environment, and intellectual property, and particularly so when the Administration has such a lackluster record on enforcement.

I ask my colleagues to join me today in opposing the Central American Free Trade Agreement. Mr. Speaker, it is possible to work with our Central American neighbors to develop stronger trade ties, collectively protect workers and our environment, spur economic development throughout the trade cooperative, and enter into an agreement that benefits all interested parties. Unfortunately, CAFTA falls short in all of these areas.

Mr. DAVIS of Tennessee. Mr. Speaker, I am a Conservative Democrat representing a rural area of Tennessee, and I rise today in opposition to the Dominican Republic-Central America Free Trade Agreement.

Mr. Speaker, I will support any trade agreement that results in American job growth and allows our manufacturers and farmers to export their products to new, fair, and competitive markets in other countries. In fact, I have supported previous trade agreements with Chile, Singapore, Australia, and Morocco. But my constituents and I are fearful of this particular agreement.

Our fear is that the only export we will see in this country because of CAFTA is American jobs. This fear is based on our real life experience with a similar agreement that sounds much like this one. That agreement, of course, was NAFTA. My congressional district has been devastated by the loss of jobs since NAFTA's passage.

You know, I've been told a lot of different things by a lot of different folks about why I should support this agreement. One argument was that supporting CAFTA is the Christian thing to do. Well, I am a devout Christian, and I for one do not think exploiting cheap labor for corporate profits is particularly Christian. So, I have a message for corporate America: the real Christian thing for you to do is provide wages to your new Central American employees that are equivalent to wages of the employees in my district who will lose their jobs as a result of this Central American Free Trade Agreement.

I strongly urge all my colleagues who truly care about the American working man and woman to reject this trade agreement, and let's work on creating new jobs in this country instead of outsourcing the ones we currently have.

Mr. AL GREEN of Texas. Mr. Speaker, today, Congress debated and passed H.R. 3045, the Dominican Republic-Central America Free Trade Agreement (DR–CAFTA). I voted in opposition to the trade agreement because of my concerns regarding the full ramifications of its passage and because I am a proponent of trade policies that enhance the welfare of participating countries. Any free trade agreement entered into by the United States should be fair. CAFTA, however, is neither free nor fair. CAFTA will cost American jobs, is unfair to American workers and exploits cheap foreign labor.

As we consider future trade agreements, I believe it is particularly relevant that we learn the lessons from NAFTA. We have learned that the promises of U.S. economic prosperity, curbed undocumented immigration, robust markets and massive job creation went unfulfilled. I fear that NAFTA is a precursor for what can be expected under CAFTA.

NAFTA promised millions of new jobs and a trade surplus for the United States that was never realized. Instead the U.S. has lost over one million lobs to Mexico and Canada. More specifically, the rise in the U.S. trade deficit with Canada and Mexico through 2004 has caused the displacement of production that supported over one million U.S. jobs since NAFTA was signed in 1993. Jobs have been displaced in most states and many industries in the United States. In my home state of Texas alone, more than 170,000 manufacturing jobs have been lost. The loss of these jobs has contributed significantly to the expanding burdens of unemployed workers in our state.

Why do these trade agreements cost us American jobs? Free trade agreements can create an environment that encourages corporations to relocate and take American jobs with them. By making it easier for the Central American countries to export certain products and because they have cheaper labor and weaker labor rights protections, CAFTA would encourage U.S. businesses to relocate. Though supporters tout Central America as a market for U.S. goods, it is not. CAFTA amounts to nothing more than an outsourcing agreement.

Adding insult to injury, Trade Adjustment Assistance (TAA) programs designed to help those who lose their jobs due to trade agreements remain underfunded and ineffective. Congress has not provided adequate funding for this program to meet the needs of thousands upon thousands of workers who have been displaced by trade. You cannot have trade agreements like NAFTA and CAFTA that displace American workers and yet do not provide them with any assistance when they need it.

Not only is CAFTA wrong for the U.S. economy and American workers, its exploitation of cheap foreign labor is morally deficient. CAFTA disbands internationally accepted labor standards and provides no repercussions or penalties for those that violate workers rights. In fact, CAFTA does not require nations to bring their laws into compliance with International Labor Organization (ILO) core labor standards, even though the ILO and U.S. State Department have documented numerous areas where the CAFTA countries' laws fail to comply with even the most basic international norms. This trade agreement merely encourages nations to enforce their own labor laws, no matter how weak those laws may be.

I strongly believe that workers' rights are human rights. They are critical to improving living standards and quality of life both here and abroad. Unfortunately, CAFTA will demand an honest days work without guaranteeing an honest days pay. If we were serious about helping workers in CAFTA countries, we would have gone back to the drawing board, negotiated a better deal for American workers and improved CAFTA nations' labor standards.

Mr. HULSHOF. Mr. Speaker, I rise today in support of the Dominican Republic-Central American Free Trade Agreement, DR–CAFTA, as it will level the playing field for American manufacturers and farmers. The six DR–CAFTA countries, which include the Dominican Republic, Costa Rica, Guatemala, El Salvador, Nicaragua and Honduras, have had preferential access to U.S. markets for approximately 20 years as a result of the Caribbean Basin Initiative, CBI, and the Generalized System of Preferences, GSP, program. Consequently, DR–CAFTA countries have enjoyed a "one-way street" of market access where by 80 percent of goods and almost 99 percent of agricultural products enter duty free. Conversely, American exporters have faced tariffs on almost all of the goods exported to the region.

It is vital to my home State of Missouri that we continue to expand and open new markets for American farm products. In 2003, 25 percent of Missouri's $5 billion farm cash receipts were attributable to foreign trade. Half of all soybeans and 1 in 5 rows of corn grown in Missouri are destined for foreign markets. Absent DR–CAFTA, American farm exports will continue being subject to tariffs ranging from 35 percent to 60 percent. This puts our farmers and ranchers at a significant competitive disadvantage with our international competitors in these growing markets. It would be foolish to turn our backs on an agreement that removes these sort of punitive barriers to our products. If we pass DR–CAFTA, we will open the doors to six countries where the potential U.S. gain for all agricultural exports is expected to reach $1.5 billion. Put another way, this would mean a near doubling of the U.S. agricultural sales to the region when compared to 2003 levels.

It is for this reason that DR–CAFTA enjoys the strong support of the American Farm Bureau Federation, the American Soybean Association, the National Corn Growers Association, the National Pork Producers Council, the National Cattlemen's Beef Association, the USA Rice Federation, the National Association of Wheat Growers and the National Milk Producers Federation, just to name a few. To borrow from Farm Bureau, a vote for DR–CAFTA is a vote for agriculture.

There are many critics who erroneously believe that by ratifying DR–CAFTA, the United States is relinquishing our national sovereignty and opening our borders to floods of immigrants. On the contrary, nothing in the DR–CAFTA will preempt the Constitution, current U.S. laws and our sovereignty. Should a contradiction arise between the terms of DR–CAFTA and U.S. law, the U.S. will maintain its right to change domestic laws as it sees fit.

Moreover, enactment of DR–CAFTA will have no effect on current immigration laws. Congress will maintain its role in crafting U.S. immigration policy. And in fact, DR–CAFTA will help reduce illegal immigration. As the economic opportunities that accompany free market reforms take a stronger hold in Central America, residents of these nations will have a stake in their future and a strong fiscal incentive to remain in their native country.

DR–CAFTA is in our national security interests. Our foreign policy must promote stability and prosperity in Central America. As we saw in the 1980's, instability can give nations who do not share our interests an opportunity to expand their influence in our hemisphere. To promote stability, we should reward democracies that respect human rights and encourage free market economic principles. DR–CAFTA is consistent with this goal. As these evolving democracies continue to grow, we will see their economic viability strengthened, thereby creating jobs and reducing poverty.

Some have expressed concern that DR–CAFTA will weaken labor laws, leaving workers in this region without basic protections. This is simply not true. The International Labor Organization (ILO) has reviewed the labor laws and practices of the six DR–CAFTA countries and found them largely in compliance with the ILO's eight core conventions. With the exception of El Salvador—which has ratified six—every other nation covered by DR–CAFTA has enacted the eight core conventions. In fact, if you look at the labor provisions of other recently enacted free trade agreements, such as the Jordan and Morocco agreements, you will find that the DR–CAFTA labor provisions are more stringent and ensure greater protections for workers.

Over 95 percent of the world's consumers live outside our borders, and it is in our best interests to pursue a policy that opens these markets to American products. If we fail, we forfeit these markets—both from an economic and national security standpoint—to our international competitors in Asia and Europe.

DR–CAFTA will level the playing field for American farmers and manufacturers and help address an important national security goal. This is a win-win situation. I urge my colleagues to join me in supporting this vital agreement.

Ms. MILLENDER-McDONALD. Mr. Speaker, I am deeply disappointed that this House approved the Dominican Republic-Central America-United States Free Trade Agreement today. As I listened to my colleagues who voted for this bill, I could not help but wonder if we were voting on the same piece of legislation.

Contrary to what many of my colleagues have said, the CAFTA will not help American workers and will not save American jobs. Also, our exports to DR–CAFTA countries are already at full capacity for what those countries can consume. Therefore, talk of spurring U.S. exports to the region is empty rhetoric designed to deceive the uninformed person. Instead, DR–CAFTA will increase off-shore production and services and will continue to cause a decline in the standard of living among the American working class.

Under this Agreement, our Central American neighbors will have restricted access to generic pharmaceuticals. This will increase drug prices, including lifesaving HIV/AIDS drugs and medicines putting their health and lives at risk. Surely, Mr. Speaker, you have heard the anguish of Americans who cannot afford basic prescription drugs in this prosperous land of ours. Can you imagine what it will be like for our neighbors who subsist on wages of less than $2 per day to pay for higher drug prices? Where is the humanity in this?

Our Central American neighbors are poor—forty percent of them earn less than $2 per day. The vast majority of them are forced to work under harsh labor conditions. Many women suffer from sexual harassment and discrimination at the work place. Employment places lack basic hygienic facilities, especially for women. In fact, it is fair to say that the Agreement lacks meaningful incentives for employers to uphold, enforce or comply even with current labor standards.

Let us not fool ourselves—this Agreement will not lift our neighbors out of poverty, will not improve their working conditions, and will not help the ordinary worker, whether in Central America or here at home. Instead, this Agreement will displace family farmers, harm small business and force these workers into lower paying jobs.

I wish I could have voted for the DR–CAFTA because I believe trade is a way to lift people out of poverty. But it must be fair trade that also respects labor standards, the environment and allows human dignity. Fair trade must be fair for both America's families and families of other countries with fair living wages while protecting the environment.

Yes, Mr. Speaker, I am deeply disappointed that this was not and balanced trade agreement. I hope that Americans will take a good look at where our country is headed. I feel for my countrymen and I feel for the people of the DR–CAFTA region.

Mr. DICKS. Mr. Speaker, as a general principle, removing trade barriers and creating new opportunities for the export of American manufactured goods and services in today's global economy should be one of the highest priorities for those of us involved in setting national policy.

Economically, politically and strategically, our nation is better and stronger when there is a free flow of commerce, accompanied by the free exchange of ideas and information between the United States and the major economies of the world. Of course we benefit from the growth of potential markets for U.S. goods, but there is also an enormous mutual benefit when the people of other nations are exposed to the shining example of our democratic system of governance and the merits of a free market economy. Just look at the nations who trade freely and compare them—and the conditions their people endure—with the nations whose economies are essentially closed to external commerce such as North Korea. Just last week in this Chamber during the Joint Session of Congress we witnessed a major address by the Prime Minister of India, a nation whose relatively swift progression to an open economy has lifted millions of people in India out of poverty as they have become a major trading partner of the United States. Not only are we selling more and more U.S. goods to India today, but because of our enhanced economic influence in this area of South Asia, the strategic interests of the United States have been strengthened at a critical time in this region.

We have before us in the House today an opportunity to take another major step forward in promoting free trade and democracy: the U.S.-Dominican Republic-Central America Free Trade Agreement (DR–CAFTA). It represents an opportunity to expand our trading relationships, to promote the spread of democracy and to reinforce the stability of the entire Central American region. In reviewing the specific provisions of this trade agreement, as well as the promise of expanding democratic influences in the region, my colleagues and I must consider what is best for our constituents, for American workers, and for workers and their families in the Central American nations affected by this agreement. I know there is opposition here in the House to this agreement, much of it from members of my own party. I respectfully disagree with them because I see the enormous positive mutual benefits of this agreement, and because I am convinced that rejecting DR–CAFTA would hurt our nation and our workers, as well as the people in these Central American nations. And I am convinced that rejecting DR–CAFTA will leave our hemisphere less secure.

Certainly for my constituents and my home state of Washington, this agreement will mean more and better paying jobs. Washington continues to be the most trade-dependent State per capita in the country, with more than one in four jobs dependent on trade. And CAFTA markets are becoming more important to producers in my State. Since 2000, trade with these countries has grown more than 250 percent, with Washington State exports exceeding $110 million last year. Reducing tariff barriers in these countries will significantly boost the attractiveness of Washington State exports to these countries, which includes high tech products, machinery, agriculture, and paper products.

But the benefits of DR–CAFTA do not accrue solely to the workers in my State. There will be positive benefits for working people all across America. While these six nations alone—Costa Rica, El Salvador, Nicaragua, Honduras, Guatemala and the Dominican Republic—may not be huge markets, the DR–CAFTA countries make up America's 12th-largest export market worldwide, importing about $15 billion in U.S. goods and services last year. Together, these countries represent a larger U.S. export market than Russia, India and Indonesia combined. Because of the Caribbean Basin Initiative, these nations already have preferential treatment in our markets; it is time for us to gain the same benefits in their markets. According to an analysis conducted by the Progressive Policy Institute, textile firms, high-tech companies, and many service industries stand to gain immediate benefits from the approval of the agreement.

The benefits for workers from these Central American countries will be more pronounced. Competition from Chinese and Indian garment manufacturers is already intense and is growing. There are provinces in China and India that have greater populations than all six CAFTA nations combined. Currently, the temporary duty-free treatment CAFTA nations enjoy under CBI—nations that use U.S. textiles in their garment production—is keeping these Central American countries competitive. Without CAFTA, this treatment will expire, likely devastating the garment industry in Central America, potentially throwing half a million people out of work. With CAFTA, exports of garments from Central America, using American-made materials, is expected to increase, building jobs on both sides.

The economic arguments for the agreement are strong. But in my opinion, CAFTA is more critical for promoting regional stability. Over the last 20 years, these nations have struggled out of chaos and civil war to establish fragile democracies, developing critical institutions designed to safeguard freedom and to promote the rule of law. But the ultimate success of these governments is predicated upon economic security. I believe that CAFTA will help to do just that, spurring U.S. investment and promoting the growth of a middle class in each of these nations.

The failure of CAFTA would mean just the opposite, in my judgment. Competition—particularly from China and other Asian nations—is fierce and growing. Without CAFTA, the largest manufacturing sector in Central America may fail, leading to a significant rise in unemployment, economic stagnation, and potentially civil unrest. It is certainly in our nation's best strategic interests to assure that this does not happen. With greater economic stability promoted through increased trade and investment, I believe that the nascent institutions of democracy in these nations will thrive and flourish. I am not alone in believing that freer trade will help the workers in Central America. Former President Jimmy Carter and former Costa Rican President Oscar Arias—whose dedication to the people of Central America and to alleviating the plight of the poor is unquestioned—strongly support the agreement. In the words of President Arias, "CAFTA would allow Central America to thrive by exporting goods through trade rather than exporting people through migration. Opportunities would open for consumers to acquire better and cheaper goods; for small and medium businesses to expand and diversify; for more private investment, access to new technologies and educational opportunities; for a qualitative and quantitative improvement in the job market; and for higher economic growth, government revenue and increased social spending."

I also understand the concerns of those of my colleagues here in the House who have joined together with our friends in organized labor in opposition to this agreement. I share their mistrust and disdain for the domestic labor policies implemented by the administration that negotiated this agreement. In the end, however, I believe that our shared cause will be furthered, not hindered, by the labor provisions of this agreement.

The editorial board of The News Tribune in Tacoma, the largest newspaper in my congressional district, summarized the view I have held in a recent editorial in support of the agreement. The editorial said: "CAFTA is probably the single best thing this country could do for those workers (in Central America). If markets were to expand for Central American goods, Central American labor would be worth more, paid more and treated better. Workers would gain more leverage and find it easier to unionize. . . ."

Mr. Speaker, I believe that this agreement is good for the country, good for the state of Washington, good for workers in all the participating countries, and good for the security of the Western Hemisphere. I intend to support the agreement. I would like to thank the gentleman again for yielding to me.

The SPEAKER pro tempore (Mr. LAHOOD). All time for debate has expired.

Pursuant to House Resolution 386, the bill is considered read, and the previous question is ordered.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. RANGEL. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 15-minute vote on H.R. 3045 will be followed by a 5-minute vote on suspending the rules on H. Res. 308.

The vote was taken by electronic device, and there were—ayes 217, noes 215, not voting 2, as follows:

NOT VOTING—2

Davis, Jo Ann
Taylor (NC)

☐ 0003

Mr. HAYES changed his vote from "nay" to "yea."

So the bill was passed.

The result of the vote was announced as above recorded.

SUPPORTING GOALS OF NATIONAL MARINA DAY AND URGING MARINAS CONTINUE PROVIDING ENVIRONMENTALLY FRIENDLY GATEWAYS TO BOATING

The SPEAKER pro tempore (Mr. LAHOOD). The pending business is the question of suspending the rules and agreeing to the resolution, H. Res. 308.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from North Carolina (Mr. COBLE) that the House suspend the rules and agree to the resolution, H. Res. 308, on which the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 385, nays 0, not voting 48, as follows:

□ 0011

So (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SHAW. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 3045.

The SPEAKER pro tempore (Mr. LAHOOD). Is there objection to the request of the gentleman from Florida?

There was no objection.

GENERAL LEAVE

Mr. SHAW. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 3283.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2361, DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2006

Mr. DREIER (during consideration of H.R. 3045), from the Committee on Rules, submitted a privileged report (Rept. No. 109–198) on the resolution (H. Res. 392) waiving points of order against the conference report to accompany the bill (H.R. 2361) making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2006, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING REQUIREMENT OF CLAUSE 6(a) OF RULE XIII WITH RESPECT TO CONSIDERATION OF CERTAIN RESOLUTIONS

Mr. DREIER (during consideration of H.R. 3045), from the Committee on Rules, submitted a privileged report (Rept. No. 109–199) on the resolution (H. Res. 393) waiving a requirement of clause 6(a) of rule XIII with respect to consideration of certain resolutions reported from the Committee on Rules, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 6, ENERGY POLICY ACT OF 2005

Mr. DREIER (during consideration of H.R. 3045), from the Committee on Rules, submitted a privileged report (Rept. No. 109–200) on the resolution (H. Res. 394) waiving points of order against the conference report to accompany the bill (H.R. 6) to ensure jobs for our future with secure, affordable, and reliable energy, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF MOTIONS TO SUSPEND THE RULES

Mr. DREIER (during consideration of H.R. 3045), from the Committee on Rules, submitted a privileged report (Rept. No. 109-201) on the resolution (H. Res. 394) providing for consideration of motions to suspend the rules, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2985, LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2006

Mr. DREIER (during consideration of H.R. 3045), from the Committee on Rules, submitted a privileged report (Rept. No. 109-202) on the resolution (H. Res. 396) waiving points of order against the conference report to accompany the bill (H.R. 2985) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2006, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REAPPOINTMENT AS MEMBER TO NATIONAL COMMITTEE ON VITAL AND HEALTH STATISTICS

The SPEAKER pro tempore. Pursuant to section 306(k) of the Public Health Service Act (42 U.S.C. 242k), and the order of the House of January 4, 2005, the Chair announces the Speaker's reappointment of the following member on the part of the House to the National Committee on Vital and Health Statistics for a term of 4 years:

Mr. Jeffrey S. Blair, Albuquerque, New Mexico

SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 47. An act to provide for the exchange of certain Federal land in the Santa Fe National Forest and certain non-Federal land in the Pecos National Historical Park in the State of New Mexico; to the Committee on Resources.

S. 52. An act to direct the Secretary of the Interior to convey a parcel of real property to Beaver County, Utah; to the Committee on Resources.

S. 54. An act to amend the National Trails System Act to require the Secretary of the Interior to update the feasibility and suitability studies of four national historic trails, and for other purposes; to the Committee on Resources.

S. 56. An act to establish the Rio Grande Natural Area in the State of Colorado, and for other purposes; to the Committee on Resources.

S. 97. An act to provide for the sale of bentonite in Big Horn County, Wyoming; to the Committee on Resources.

S. 101. An act to convey to the town of Frannie, Wyoming, certain land withdrawn by the Commissioner of Reclamation; to the Committee on Resources.

S.128. An act to designate certain public land in Humboldt, Del Norte, Mendocino, Lake, and Napa Counties in the State of California as wilderness, to designate certain segments of the Black Butte River in Mendocino County, California as a wild or scenic river, and for other purposes; to the Committee on Resources.

S.136. An act, to authorize the Secretary of the Interior to provide supplemental funding and other services that are necessary to assist certain local school districts in the State of California in providing educational services for students attending schools located within Yosemite National Park, to authorize the Secretary of the Interior to adjust the boundaries of the Golden Gate National Recreation Area, to adjust the boundaries of Redwood National Park, and for other purposes; to the Committee on Resources; in addition to the Committee on Education and the Workforce for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

S.152. An act to enhance ecosystem protection and the range of outdoor opportunities protected by statute in the Skykomish River valley of the State of Washington by designating certain lower-elevation Federal lands as wilderness, and for other purposes; to the Committee on Resources.

S.153. An act to direct the Secretary of the Interior to conduct a resource study of the Rim of the Valley Corridor in the State of California to evaluate alternatives for protecting the resources of the Corridor, and for other purposes, to the Committee on Resources.

S.176. An act to extend the deadline for commencement of construction of a hydrolectric project in the State of Alaska; to the Committee on Energy and Commerce.

S. 178. An act to provide assistance to the State of New Mexico for the development of comprehensive State water plans, and for other purposes; to the Committee on Resources.

S. 182. An act to provide for the establishment of the Uintah Research and Curatorial Center for Dinosaur National Monument in the States of Colorado and Utah, and for other purposes; to the Committee on Resources.

S. 203. An act to reduce temporarily the royalty required to be paid for sodium produced, to establish certain National Heritage Areas, and for other purposes; to the Committee on Resources.

S. 205. An act to authorize the American Battle Monuments Commission to establish in the State of Louisiana a memorial to honor the Buffalo Soldiers; to the Committee on Resources.

S. 207. An act to adjust the boundary of the Barataria Preserve Unit of the Jean Lafitte National Historical Park and Preserve in the State of Louisiana, and for other purposes; to the Committee on Resources.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. BARTON: Committee of Conference. Conference report on H.R. 6. A bill to ensure jobs for our future with secure, affordable, and reliable energy (Rept. 109-190). Ordered to be printed.

Mr. BARTON: Committee on Energy and Commerce. H.R. 1132. A bill to provide for the establishment of a controlled substance monitoring program in each State; with an amendment (Rept. 109-191). Referred to the Committee of the Whole House on the State of the Union.

Mr. BARTON: Committee on Energy and Commerce. H.R. 3204. A bill to amend title XXVII of the Public Health Service Act to extend Federal funding for the establishment and operation of State high risk health insurance pools; with an amendment (Rept. 109–192). Referred to the Committee of the Whole House on the State of the Union.

Mr. SENSENBRENNER: Committee on the Judiciary. House Concurrent Resolution 208. Resolution recognizing the 50th anniversary of Rosa Louise Parks' refusal to give up her seat on the bus and the subsequent desegregation of American society (Rept. 109-193). Referred to the House Calendar.

Mr. SENSENBRENNER: Committee on the Judiciary. House Resolution 336. Resolution requesting that the President focus appropriate attention on neighborhood crime prevention and community policing, and coordinate certain Federal efforts to participate in "National Night Out", which occurs the first Tuesday of August each year, including by supporting local efforts and community watch groups and by supporting local officials, to promote community safety and help provide homeland security (Rept. 109–194). Referred to the House Calendar.

Mr. SENSENBRENNER: Committee on the Judiciary. House Concurrent Resolution 216. Resolution expressing the sense of the Congress that, as Congress observes the 40th anniversary of the Voting Rights Act of 1965 and encourages all Americans to do the same, it will advance the legacy of the Voting Rights Act of 1965 by ensuring the continued effectiveness of the Act to protect the voting rights of all Americans (Rept. 109-195). Referred to the House Calendar.

Mr. SENSENBRENNER: Committee on the Judiciary. House Resolution 378. Resolution recognizing and honoring the 15th anniversary of the signing of the Americans with Disabilities Act of 1990 (Rept. 109–196 Pt. 1). Ordered to be printed.

Mr. BARTON: Committee on Energy and Commerce. H.R. 3205. A bill to amend title IX of the Public Health Service Act to provide for the improvement of patient safety and to reduce the incidence of events that adversely affect patient safety, and for other purposes; with an amendment (Rept. 109–197). Referred to the Committee of the Whole House on the State of the Union.

Mr. BISHOP of Utah: Committee on Rules. House Resolution 392. Resolution waiving points of order against the conference report to accompany the bill (H.R. 2361) making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2006, and for other purposes (Rept. 109–198). Referred to the House Calendar.

Mrs. CAPITO: Committee on Rules. House Resolution 393. Resolution waiving a requirement of clause 6(a) of rule XIII with respect to consideration of certain resolutions reported from the Committee on Rules (Rept. 109–199). Referred to the House Calendar.

Mr. HASTINGS of Washington: Committee on Rules. House Resolution 394. Resolution waiving points of order against consideration of the conference report to accompany the bill (H.R. 6) to ensure jobs for our future with secure, affordable, and reliable energy (Rept. 109–200). Referred to the House Calendar.

Mr. PUTNAM: Committee on Rules. House Resolution 395. Resolution providing for consideration of motions to suspend the rules (Rept. 109–201). Referred to the House Calendar.

Mr. LINCOLN DIAZ-BALART of Florida: Committee on Rules. House Resolution 396. Resolution waiving points of order against the conference report to accompany the bill (H.R. 2985) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2006, and for other purposes (Rept. 109-202). Referred to the House Calendar.

DISCHARGE OF COMMITTEE

Pursuant to clause 2 of rule XII the Committees on Education and the Workforce, Energy and Commerce and Transportation and Infrastructure discharged from further consideration. House Resolution 378 referred to the House Calendar and ordered to be printed.

74. Also, a memorial of the House of Representatives of the State of Illinois, relative to House Resolution No. 457 urging the Congress of the United States to consider the importance of this installation in this time of war on terrorism and the vital need to protect our Nation; to the Committee on Armed Services.

75. Also, a memorial of the Legislature of the State of Maine, relative to House Joint Resolution No. 904 memorializing the Congress of the United States to continue its support and advocacy for the Portsmouth Naval Shipyard in Kittery, Maine; to the Committee on Armed Services.

76. Also, a memorial of the General Assembly of the State of Ohio, relative to Senate Concurrent Resolution No. 10 memorializing the Congress of the United States to take appropriate action so that the 178th Fighter Wing, Ohio Air National Guard at the Springfield-Beckley Municipal Airport in Springfield, Ohio, is excluded from the list of base closures for the Base Realignment and Closure process; to the Committee on Armed Services.

77. Also, a memorial of the General Assembly of the State of Ohio, relative to Senate Concurrent Resolution No. 9 memorializing the Congress of the United States to take appropriate action so that the 179th Airlift Wing, Ohio Air National Guard, at the Mansfield Lahm Airport is excluded from the list of base closures for the Base Realignment and Closure process; to the Committee on Armed Services.

78. Also, a memorial of the General Assembly of the State of Tennessee, relative to House Joint Resolution 146 memorializing the Congress of the United States to enact legislation to posthumously award First Lieutenant Garlin Murl Conner, United States Army, a much deserved Medal of Honor; to the Committee on Armed Services.

79. Also, a memorial of the Legislature of the State of Hawaii, relative to House Concurrent Resolution No. 3 urging the President of the United States and the Congress of the United States to support federal policies designed to eliminate homelessness in the United States; to the Committee on Financial Services.

80. Also, a memorial of the House of Representatives of the State of Hawaii, relative to House Resolution No. 77 urging the United States Congress not to cut federal community development block grant funding as proposed by the administration in the 2006 fiscal year federal budget and to support its restoration into the Department of Housing and Urban Development budget at its current funding level of $4,700,000,000; to the Committee on Financial Services.

81. Also, a memorial of the Legislature of the State of Hawaii, relative to House Concurrent Resolution No. 245 requesting the Congress of the United States to amend the No Child Left Behind Act of 2001 according to the recommendations of the final report of the National Conference of State Legislatures' Task Force on No Child Left Behind; to the Committee on Education and the Workforce.

82. Also, a memorial of the Senate of the State of Illinois, relative to Senate Resolution No. 148 urging the Congress of the United States to amend the federal Older Americans Act to include older family caregivers of adult children with developmental disabilities as an eligible population to be served by the National Family Caregiver

Supoprt Program; to the Committee on Education and the Workforce.

83. Also, a memorial of the Legislature of the State of Hawaii, relative to House Concurrent Resolution No. 245 memorializing the Congress of the United States to amend the No Child Left Behind Act of 2001 according to the recommendations of the final report of the National Conference of State Legislatures' Task Force on No Child Left Behind; to the Committee on Education and the Workforce.

84. Also, a memorial of the Senate of the State of Ohio, relative to Senate Resolution No. 35 memorializing the Congress of the United States to amend the Energy Policy Act of 1992 to specify that an electric-hybrid vehicle must receive credit as being an alternative fueled vehicle for purposes of the requirement that 75% of new light duty motor vehicles acquired annually for state government fleets be alternative fueled vehicles; to the Committee on Energy and Commerce.

85. Also, a memorial of the Legislature of the State of New Hampshire, relative to Senate Concurrent Resolution No. 4 supporting federal funding for Lyme disease research; to the Committee on Energy and Commerce.

86. Also, a memorial of the Legislature of the State of Nebraska, relative to Legislative Resolution No. 9 urging the Congress of the United States to amend the Social Security Act by deleting May 14, 1993, as the deadline for approval by states of long-term care partnership plans; to the Committee on Energy and Commerce.

87. Also, a memorial of the House of Representatives of the State of Michigan, relative to House Resolution No. 30 memorializing the Congress of the United States to enact legislation allowing the Department of Commerce to help shield children by establishing and requiring the .XXX domain name for adult-only web sites; to the Committee on Energy and Commerce.

88. Also, a memorial of the Legislature of the State of Maine, relative to Joint Resolution memorializing the Congress of the United States and the United States Environemntal Protection Agency to control mercury as a hazardous air pollutant; to the Committee on Energy and Commerce.

89. Also, a memorial of the House of Representatives of the State of Ohio, relative to House Resolution No. 21 urging the Congress of the United States to enact the Clear Skies Act of 2005; to the Committee on Energy and Commerce.

90. Also, a memorial of the House of Representatives of the State of Oregon, relative to House Memorial 1 urging the Congress of the United States to provide for a domestic energy policy that ensures an affordable supply of natural gas and that embraces a concerted national effort to promote greater energy efficiency, increased energy conservation and environmentally responsible natural gas production; to the Committee on Energy and Commerce.

91. Also, a memorial of the House of Representatives of the State of Rhode Island, relative to House Resolution 05R122(05-H6245) memorializing the Congress of the United States to provide for a domestic energy policy that ensures an affordable supply of natural gas and embraces a concerted national effort to promote greater energy efficiency and environmentally responsible natural gas production; to the Committee on Energy and Commerce.

92. Also, a memorial of the Legislature of the State of Maine, relative to a Joint Resolution memorializing the Congress of the United States to provide a domestic natural gas policy; to the Committee on Energy and Commerce.

93. Also, a memorial of the House of Representatives of the Commonwealth of Massachusetts, relative to House Resolution commending the Rebublic of China, Taiwan, on its contributions to promote world health; to the Committee on International Relations.

94. Also, a memorial of the House of Representatives of the State of Hawaii, relative to House Resolution No. 141 urging the Federal Government to provide medical care and compensation to nuclear victims in the Republic of the Marshall Islands; to the Committee on International Relations.

95. Also, a memorial of the Legislature of the State of Arizona, relative to House Concurrent Memorial 2009 urging the Congress of the United States to send federal funds directly to the Arizona Legislature for appropriation and oversight; to the Committee on Government Reform.

96. Also, a memorial of the Legislature of the State of Oregon, relative to House Joint Memorial No. 1 urging the Congress of the United States to pass legislation that will reauthorize and extend the Secure Rural Schools and Community Self-Determination Act of 2000 for an additional 10-year period through federal fiscal year 2016, and that the Act be continued in its present form and be funded through a mandatory continuing appropriation; to the Committee on Resources.

97. Also, a memorial of the Legislature of the State of Nevada, relative to Senate Joint Resolution NO. 12 urging the President of the United States to direct the Secretary of the Interior to provide full funding for the Clark County Sport Shooting Park; to the Committee on Resources.

98. Also, a memorial of the Legislature of the State of Louisiana, relative to House Concurrent Resolution No. 204 memorializing the Congress of the United States to enable to receive its appropriate share of revenue received from oil and gas activity on the Outer Continental Shelf; to the Committee on Resources.

99. Also, a memorial of the Legislature of the State of Washington, relative to Senate Joint Memorial No. 8000 memorializing the President of the United States and the Congress of the United States to support the establishment of the Ice Age Floods National Geologic Trail; to the Committee on Resources.

100. Also, a memorial of the Legislature of the State of Hawaii, relative to House Concurrent Resolution No. 56, supporting passage of the Native Hawaiian Government Reorganization Act (The "AKAKA Bill"); to the Committee on Resources.

101. Also, a memorial of the House of Representatives of the Commonwealth of Pennsylvania, relative to House Resolution No. 78 urging the President of the United States and the Congress of the United States to make the Republic of Poland eligible for the United States Department of State's Visa Waiver Program; to the Committee on the Judiciary.

102. Also, a memorial of the Legislature of the State of Nebraska, relative to Legislative Resolution No. 230 urging the President of the United States and the Congress of the United States to make the Republic of Poland eligible for the United States Department of State's Visa Waiver Program; to the Committee on the Judiciary.

103. Also, a memorial of the House of Representatives of the State of Louisiana, relative to House Resolution No. 116 memorializing the Congress of the United States to enable Louisiana to receive its appropriate share of revenue received from oil and gas activity on the Outer Continental Shelf; to the Committee on the Judiciary.

104. Also, a memorial of the Legislature of the State of Maine, relative to a Joint Resolution memorializing the President and Congress of the United States not to require a passport to cross the Canadian border; to the Committee on the Judiciary.

105. Also, a memorial of the Legislature of the State of Louisiana, relative to House Concurrent Resolution No. 117 memorializing the Congress of the United States to take such actions as are necessary to amend the United States Code to authorize state governors to proclaim that the United States flag shall be flown at half-staff upon the death of a member of the United States armed forces from their respective states who died on active duty; to the Committee on the Judiciary.

106. Also, a memorial of the Legislature of the State of Louisiana, relative to Senate Concurrent Resolution No. 66 memorializing the Congress of the United States to permit public access to the West Pearl River Navigational Canal located in the parishes of St. Tammany and Washington and to extend the date scheduled for closure until such time that an alternate long-term solution can be determined; to the Committee on Transportation and Infrastructure.

107. Also, a memorial of the Legislature of the State of Louisiana, relative to Senate Concurrent Resolution No. 12 memorializing the Congress of the United States to provide the necessary funding to restore Calcasieu Ship Channel in southwest Louisiana to its authorized dimensions in order that the economic, safety, and security concerns may be adequately addressed; to the Committee on Transportation and Infrastructure.

108. Also, a memorial of the House of Representatives of the State of Michigan, relative to House Resolution No. 31 memorializing the Congress of the United States to enact highway reathorization legislation with a level of funding that closes the gap between federal fuel tax dollars paid by Michigan motorists and dollars received to address Michigan's transportation needs; to the Committee on Transportation and Infrastructure.

109. Also, a memorial of the Senate of the State of Iowa, relative to Senate Resolution No. 58 declaring support for Amtrak; to the Committee on Transportation and Infrastructure.

110. Also, a memorial of the House of Representatives of the Commonwealth of Massachusetts, relative to House Resolution memorializing the Congress of the United States to enact legislation that would fully fund the Department of Veterans Affairs health care system; to the Committee on Veterans' Affairs.

111. Also, a memorial of the Legislature of the State of Maine, relative to Joint Resolution memorializing the President of the United States and the Congress of the United States in support of the Togus Veterans Affairs Medical Center; to the Committee on Veterans' Affairs.

112. Also, a memorial of the Legislature of the State of Hawaii, relative to House Concurrent Resolution No. 249 urging Congress to support legislation conferring veterans' benefits on Filipino World War II veterans; to the Committee on Veterans' Affairs.

113. Also, a memorial of the Legislature of the State of Maine, relative to a Joint Resolution memorializing the President of the United States and the Congress of the United States to continue stipends at current levels

for veterans in veterans' nursing homes; to the Committee on Veterans' Affairs.

114. Also, a memorial of the Legislature of the State of Arizona, relative to Senate Concurrent Resolution No. 1003 urging the Congress of the United States to enact legislation to achieve social security reform; to the Committee on Ways and Means.

115. Also, a memorial of the Legislature of the State of Hawaii, relative to Senate Concurrent Resolution No. 76 urging the Congress of the United States to reject proposed changes to the social security system; to the Committee on Ways and Means.

116. Also, a memorial of the Legislature of the State of Arizona, relative to House Concurrent Memorial 2006 urging the Congress of the United States to ensure that the United States does not enter into the Free Trade Area of the Americas; to the Committee on Ways and Means.

117. Also, a memorial of the House of Representatives of the State of Hawaii, relative to House Resolution No. 100 urging President George W. Bush to reconsider his plan to privatize social security; to the Committee on Ways and Means.

118. Also, a memorial of the Legislature of the State of Louisiana, relative to House Concurrent Resolution No. 94 memorializing the Congress of the United States of America to take such actions as are necessary to work to abolish the federal estate tax permanently; to the Committee on Ways and Means.

119. Also, a memorial of the Legislature of the State of Montana, relative to Senate Joint Resolution No. 17 urging the Congress of the United States to support the renewable energy production incentive program and production tax credit program; jointly to the Committees on Energy and Commerce and Ways and Means.

120. Also, a memorial of the Senate of the Commonwealth of Massachusetts, relative to Senate Resolution memorializing the Congress of the United States to establish an annual observance of "Liberty Day"; to the Committee on Government Reform.

PRIVATE BILLS AND RESOLUTIONS

Under clause 3 of rule XII, private bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. FRANK of Massachusetts:

H.R. 3494. A bill for the relief of Veronica Mitina Haskins; to the Committee on the Judiciary.

By Mr. NORWOOD:

H.R. 3495. A bill for the relief of Thomas W. Sikes and Wellington Trade, Inc., doing business as Containerhouse; to the Committee on the Judiciary.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 5: Mr. Pickering, Mr. Kirk, Mr. Mack, Miss McMorris, and Mr. Bradley of New Hampshire.

H.R. 14: Mr. Conaway.

H.R. 19: Mr. Alexander.

H.R. 128: Ms. Linda T. Sánchez of California and Ms. Schwartz of Pennsylvania.

H.R. 188: Ms. Eddie Bernice Johnson of Texas and Mr. Payne.

H.R. 269: Mr. Schwarz of Michigan and Mr. Payne.

H.R. 282: Mr. Neugebauer.

H.R. 303: Mr. Weiner.

H.R. 323: Mr. Kuhl of New York.

H.R. 376: Ms. Millender-McDonald.

H.R. 425: Ms. Eshoo.

H.R. 517: Mr. Cardoza, Mrs. Emerson, Ms. Foxx, Mr. Honda, and Mr. Bishop of Utah.

H.R. 588: Mr. Burton of Indiana.

H.R. 602: Mr. Higgins.

H.R. 615: Mr. Lantos and Mr. Grijalva.

H.R. 759: Ms. Harman.

H.R. 772: Mr. McCaul of Texas and Ms. McCollum of Minnesota.

H.R. 808: Mr. Kanjorski.

H.R. 809: Mr. Conaway.

H.R. 819: Mr. Rahall.

H.R. 859: Mr. Gerlach.

H.R. 896: Mr. Wexler and Mr. George Miller of California.

H.R. 949: Mr. Owens and Mr. Wolf.

H.R. 998: Mr. Schwarz of Michigan.

H.R. 1020: Mr. Murtha and Mr. Platts.

H.R. 1029: Mr. Schiff.

H.R. 1059: Ms. Wasserman Schultz, Ms. Corrine Brown of Florida, and Mr. Carnahan.

H.R. 1120: Mr. Simpson, Mr. Green of Wisconsin, and Mrs. Tauscher.

H.R. 1141: Mr. Bishop of Georgia and Mr. Wilson of South Carolina.

H.R. 1156: Mr. Wu.

H.R. 1259: Ms. DeLauro and Mr. Wexler.

H.R. 1272: Mr. Levin and Mr. McNulty.

H.R. 1273: Mr. Chabot.

H.R. 1288: Mr. Moran of Kansas and Mr. Taylor of North Carolina.

H.R. 1366: Mr. Gene Green of Texas.

H.R. 1399: Mr. Ryan of Ohio and Mr. Olver.

H.R. 1402: Mr. Andrews, Mr. Cooper, Mr. Dicks, Mr. Filner, Mr. Hastings of Florida, Mr. Honda, Ms. Eddie Bernice Johnson of Texas, Mr. Kanjorski, Mr. Langevin, Mr. Larson of Connecticut, Mr. Levin, Mr. Lynch, Mrs. Maloney, Ms. Matsui, Mrs. McCarthy, Mr. Meehan, Mr. Meeks of New York, Ms. Millender-McDonald, Mr. Mollohan, Mr. Moran of Virginia, Mr. Murtha, Mr. Nadler, Mr. Oberstar, Ms. Pelosi, Mr. Rangel, Mr. Spratt, Mr. Stark, Mr. Strickland, Mr. Stupak, Mr. Towns, Mr. Wu, and Mr. Wynn.

H.R. 1409: Mr. Hunter.

H.R. 1425: Mr. Wexler.

H.R. 1426: Mr. Wu.

H.R. 1471: Mr. Souder and Ms. Velázquez.

H.R. 1474: Mr. Grijalva.

H.R. 1517: Mr. Leach.

H.R. 1548: Mr. Wamp.

H.R. 1554: Ms. Linda T. Sánchez of California.

H.R. 1558: Mr. Thompson of California and Mr. Rangel.

H.R. 1588: Mr. Holt.

H.R. 1615: Mr. Evans, Ms. Baldwin, Mrs. Davis of California, Mr. Nadler, and Mr. McNulty.

H.R. 1687: Mrs. Napolitano.

H.R. 1704: Mr. Pence.

H.R. 1736: Mr. Davis of Alabama.

H.R. 1957: Mr. Mack.

H.R. 2014: Mr. Cuellar.

H.R. 2048: Mr. Stark and Ms. Bordallo.

H.R. 2062: Mr. Pitts, Ms. Schwartz of Pennsylvania, Mr. Murtha, Ms. Hart, and Mr. Doyle.

H.R. 2076: Mr. Michaud.

H.R. 2106: Mr. Ford.

H.R. 2121: Mr. Gerlach, Mr. Fitzpatrick of Pennsylvania, Mr. Boehner, and Mr. Tanner.

H.R. 2328: Mr. Mack.

H.R. 2330: Mr. LaHood and Mr. Cuellar.

H.R. 2356: Mr. Udall of New Mexico, Mr. Boucher, Mr. Larsen of Washington, Mr. Coble, Mr. DeFazio, Mr. Tiberi, Mr. Etheridge, Mr. Cleaver, Mr. Ross, Mr. Ruppersberger, Mrs. Drake, Mr. Porter, Mr. Goodlatte, Mrs. Capps, Ms. Baldwin, Mr. Calvert, Mr. Pascrell, Mr. Schwarz of Michigan, and Mr. Conaway.

H.R. 2498: Mr. Fortenberry, Mr. Green of Wisconsin, and Mr. Berry.

H.R. 2534: Mrs. Drake.

H.R. 2569: Mr. Case.

H.R. 2682: Mr. Goodlatte, Ms. Hart, and Mr. Paul.

H.R. 2746: Mr. Reyes, Mr. Markey, Mr. Doggett, and Mr. Cummings.

H.R. 2780: Ms. Wasserman Schultz, Mr. Murtha, Mr. Weldon of Pennsylvania, Mr. Van Hollen, and Mr. Davis of Alabama.

H.R. 2793: Mr. Leach, Mr. Petri, and Ms. Baldwin.

H.R. 2803: Mr. Davis of Alabama and Mr. Ferguson.

H.R. 2939: Mr. Simmons.

H.R. 2963: Mr. Smith of Washington, Ms. Linda T. Sánchez of California, and Mr. Filner.

H.R. 2989: Ms. Bean.

H.R. 2992: Mr. Weiner, Mr. Owens, and Ms. Carson.

H.R. 3034: Mr. McGovern, Mr. Kucinich, Ms. Schakowsky, Mr. Waxman, Ms. Wasserman Schultz, and Mr. Pickering.

H.R. 3098: Mr. Culberson, Mr. Reyes, Mr. Sherman, Mr. Rush, Mr. Israel, Mr. Gonzalez, Mr. Emanuel, Mr. Schiff, Mr. Lewis of California, and Mr. Doyle.

H.R. 3111: Mr. Alexander.

H.R. 3132: Mr. Smith of New Jersey, Mr. Cannon, Mr. Kline, Mr. Cantor, Mr. Alexander, Mr. Ross, Mr. King of New York, and Mr. King of Iowa.

H.R. 3135: Mr. Al Green of Texas, Mr. Barrett of South Carolina, Mr. Kolbe, and Mr. Moran of Kansas.

H.R. 3137: Mr. Calvert, Mr. Burgess, Mr. Baker, Mr. Doolittle, Mr. Istook, Mr. Bartlett of Maryland, Mr. Cramer, and Mr. Wamp.

H.R. 3146: Mr. Rahall, Mr. Bishop of Georgia, Mr. Weller, Mr. Boehlert, Mr. Neal of Massachusetts, Mrs. Drake, and Mrs. Myrick.

H.R. 3166: Mr. Pallone.

H.R. 3184: Mr. Schiff and Mr. Crowley.

H.R. 3188: Mr. Peterson of Minnesota, Mr. Rothman, and Ms. Velázquez.

H.R. 3195: Mr. Conyers, Mr. Taylor of Mississippi, Mr. Faleomavaega, Ms. DeLauro, and Mr. Lantos.

H.R. 3268: Mr. Miller of Florida, Mr. Kolbe, and Mr. Hunter.

H.R. 3301: Mr. Cantor, Mr. Nussle, Mr. Souder, and Mr. Emanuel.

H.R. 3306: Mr. Obey and Ms. Jackson-Lee of Texas.

H.R. 3333: Mr. Burgess.

H.R. 3352: Mr. Melancon, Mr. Chandler, Mr. Israel, Mr. Ross, Mr. Cardoza, Mr. Pomeroy, Mr. Berry, Mr. Case, Mr. Boswell, Mr. Cooper, Ms. Herseth, Mr. Boyd, Mr. Thompson of California, Mr. Schiff, Mr. Boren, Mr. Holden, Mr. Reyes, Mr. Baca, Mrs. Napolitano, Mr. Barrow, Mr. Cramer, Mr. Davis of Tennessee, Mr. Michaud, Mr. Moore of Kansas, Mr. Peterson of Minnesota, Mr. Tanner, Mr. Taylor of Mississippi, and Mr. Cuellar.

H.R. 3358: Ms. Harris, Mr. Johnson of Illinois, Mr. Shimkus, and Mr. Faleomavaega.

H.R. 3359: Mr. Nadler, Mr. Case, and Ms. DeGette.

H.R. 3361: Mr. Schwarz of Michigan and Mr. Neal of Massachusetts.

H.R. 3385: Ms. Eshoo.

H.R. 3401: Mr. Brown of South Carolina.

H.R. 3402: Mr. Bachus.

H.R. 3405: Mr. Walden of Oregon, Mr. Manzullo, Mr. Boozman, and Mr. Bartlett of Maryland.

H.R. 3417: Mr. Souder and Mr. Sanders.

H.R. 3438: Mr. Ruppersberger.

H.R. 3442: Ms. Eshoo.

H.J. Res. 55: Mr. Stark, Mr. Conyers, Ms. McKinney, and Ms. Kaptur.

H.J. Res. 61: Mr. Wilson of South Carolina, Mr. Souder, Mr. Goode, Mr. Akin, Mr. Ryun of Kansas, Mr. Shadegg, Mrs. Myrick, Mr. Pitts, Mr. Culberson, Mr. McCaul of Texas, Mr. Mario Diaz-Balart of Florida, Mr. Brady of Texas, Mr. Hensarling, Mrs. Musgrave, Mr. Barrett of South Carolina, Mr. Weldon of Florida, Mr. Chocola, Mr. Ryan of Wisconsin, Ms. Hart, Mr. Sam Johnson of Texas, Mr. Herger, Mr. Doolittle, Mr. King of Iowa, Mr. Simpson, Mr. Inglis of South Carolina, Mr. Fortenberry, Mr. Jindal, Mrs. Blackburn, Mr. Wicker, Mr. Price of Georgia, and Mr. Wamp.

H. Con. Res. 197: Mr. Crowley.

H. Con. Res. 210: Mr. Jindal, Mr. King of New York, Ms. Woolsey, Mr. Gene Green of Texas, Ms. Ros-Lehtinen, Ms. Harris, Ms. Solis, Mr. Neugebauer, Mr. McCaul of Texas, Mr. Bonner, and Mr. Payne.

H. Res. 132: Mr. Fattah.

H. Res. 223: Mr. DeLay.

H. Res. 246: Mr. Levin.

H. Res. 261: Mr. Reyes, Mr. Coble, and Mr. Sessions.

H. Res. 286: Mr. Wexler.

H. Res. 325: Mr. Sweeney, Mr. Lynch, Mr. Payne, Ms. DeLauro, Ms. Linda T. Sánchez of California, and Mr. Schwarz of Michigan.

H. Res. 338: Mr. Sanders.

H. Res. 353: Mr. Moran of Virginia.

H. Res. 358: Mr. Holden.

H. Res. 360: Ms. Ros-Lehtinen and Mr. Souder.

H. Res. 367: Mr. Waxman, Mrs. Maloney, and Mr. Simmons.

H. Res. 371: Mr. Miller of Florida.

H. Res. 375: Mr. Wu, Mr. Brown of Ohio, Mr. Towns, and Mr. Crowley.

H. Res. 381: Mr. Boren and Mr. Waxman.

H. Res. 383: Mrs. Biggert and Ms. Pryce of Ohio.

H. Res. 384: Mr. Meehan.

H. Res. 388: Mr. Meek of Florida.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 7 of rule XII, sponsors were deleted from public bills and resolutions as follows:

H.R. 2567: Mr. George Miller of California.

H.R. 3304: Mr. Gerlach.

PETITIONS, ETC.

Under clause 3 of rule XII, petitions and papers were laid on the clerk's desk and referred as follows:

23. The SPEAKER presented a petition of the Miami-Dade County Board of County Commissioners, Florida, relative to Resolution No. R-764-05, urging the Congress of the United States to support $385 Million in funding for Hopwa Program for FY 2006; to the Committee on Financial Services.

24. Also, a petition of the Marinette County Board of Supervisors, Wisconsin, relative to Resolution No. 191, petitioning the Congress of the United States to restore the PILT funding level to no less than the FY 2005 plus the additional amount of the national increase in inflation; to the Committee on Resources.

25. Also, a petition of the City Commission of the City of Weston, Florida, relative to Resolution No. 2005-53, urging the Congress of the United States to revise the policies of the Federal Emergency Management Agency; to the Committee on Transportation and Infrastructure.

26. Also, a petition of the Board of Chosen Freeholders, County of Passaic, New Jersey, relative to Resolution No. R-05-229, urging the Congress of the United States to support the Passaic River Restoration Initiative; to the Committee on Transportation and Infrastructure.

27. Also, a petition of Mr. James N. Thivierge, a citizen of Amesbury, Massachusetts, relative to the Social Security Trust Fund and the rising cost of Medicare; jointly to the Committees on Ways and Means and Energy and Commerce.

SENATE—*Wednesday, July 27, 2005*

The Senate met at 9:30 a.m. and was called to order by the President pro tempore [Mr. STEVENS].

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal God, You have challenged us to become like children in order to enter Your kingdom. Today give us a child's trust, that we may find joy in Your guidance. Give us a child's wonder, that we may never take for granted the Earth's beauty and the sky's glory. Give us a child's love, that we may find our greatest joy in being close to You. Give us a child's humility, that we will trust Your wisdom to order our steps.

Guide our Senators and those who support them through the challenges of this day. As they look to You for wisdom, supply their needs according to Your infinite riches.

We pray in Your righteous Name. Amen.

PLEDGE OF ALLEGIANCE

The PRESIDENT pro tempore led the Pledge of Allegiance, as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all.

RESERVATION OF LEADER TIME

The PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

PROTECTION OF LAWFUL COMMERCE IN ARMS ACT—MOTION TO PROCEED

The PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of the motion to proceed to S. 397, which the clerk will report.

The legislative clerk read as follows:

> A bill (S. 397) to prohibit civil liability actions from being brought or continued against manufacturers, distributors, dealers, or importers of firearms or ammunition for damages, injunctive or other relief resulting from the misuse of their products by others.

The PRESIDENT pro tempore. Under the previous order, the time from 10 to 2 p.m. shall be equally divided, with the majority in control of the first hour and the Democrats in control of the second hour, rotating in that fashion until 2 p.m.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. FRIST. Mr. President, this morning we are returning to the motion to proceed to the Protection of Lawful Commerce in Arms Act, otherwise known as the gun manufacturers liability legislation. Yesterday we invoked cloture on the motion to proceed. We now have an order to begin the bill at 2 p.m. today. The debate will be equally divided until 2 o'clock today. I understand a rollcall vote will not be necessary, and we will have a voice vote at 2 p.m. and then be on the bill.

Senators can expect a cloture vote on the underlying bill to occur on Friday, unless we change that time by consent. As I stated repeatedly over the last several days, we are going to have a very busy session as we address a range of issues, including energy and highways and the Interior funding bill, the gun manufacturers liability bill, veterans funding, nominations, and other issues.

Just a quick update on several of these. In terms of the Energy bill, after 5 years of hard work, the energy conferees are now done. I expect that that legislation will be filed shortly. This is a major accomplishment that will cause serious and dramatic changes in how we produce, deliver, and consume energy. We simply would not be at this point without the hard work, the perseverance, and the patience of Senator DOMENICI and his partner, Senator BINGAMAN, as well as Congressman BARTON. We will pass that conference report this week. Our country will be all the better for it.

I was talking to the Secretary of Energy earlier this morning. We were discussing the absolute importance of passing this bill to establish a framework of policy from this legislative body. He again referred to the great good this bill will do.

On highways, it has taken this Congress 3 tough years of work to come to this point, but with just a little more work, we will have a bill that the President will sign. Our conferees are working and should complete the writing of it today. I spent time with several of the conferees yesterday and with the Speaker, as we coordinate completion of this highway bill.

The good news for the American people is, as they see what is sometimes confusing on the floor of the Senate as these bills come in, this particular highway bill will make our streets and our highways safer. It will make our economy more productive. It will create many new jobs.

I mentioned veterans funding. Yesterday, the House and Senate majority agreed to ensure that $1.5 billion of needed funding will be given to the Department of Veterans Affairs this fiscal year. Veterans can be assured that their health care will remain funded. I know it is confusing what you hear on the floor, but that action is being taken.

I mentioned Interior funding. Yesterday both Houses agreed to fund many of the programs that affect many of our public lands held in trust for Americans throughout the country. We intend to complete action on this conference report this week as well.

Late last night, the conferees completed work on the Legislative Branch appropriations bill, and we will be attempting to clear that legislation as well this week.

I mentioned all these to give my colleagues an update because there is so much activity going on right now, in addition to the very important legislation that is on the floor.

After several months of aggressive work, we can now look back and say that we have brought the Cabinet full strength for the President's second term in effect. We have accomplished very important class action legislation, after years and years and years of delay. We finished bankruptcy reform, which we have worked on in the Congress, both Houses, since the late 1990s. We completed writing one of the fastest budgets in congressional history with the goal, which we are accomplishing, of pushing down the deficit, keeping our economy growing, and creating jobs, funding our efforts to confront the terrorist challenge overseas, confirming, after what was tough for us all, many of the judicial nominees that have been held up for years. All of that is what we have done.

Now we have the opportunity over the next 3 to 4 days of completing action on the very necessary, very important bills which I have mentioned—bills that will make a real difference in the everyday lives of Americans. We are talking about funding for health care, veterans, highways, and energy. We are demonstrating governing with meaningful solutions to everyday problems of Americans.

These bills will affect people's lives directly, will create opportunities for new jobs, help people to fulfill the American dreams they might have, as well as address critical national needs. By the time we get to the recess—I mention that because we have a long recess. A recess is the time that we can use to go back and be with our constituencies. We do have a long recess in August. I say that to preface how important it is that we complete all of

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

our work this week. The American people expect us to complete action on the items I have mentioned. There is a tendency to think the recess is going to start maybe a day early. It certainly looks like, because we are going to be so busy, that we will be working through Friday of this week. I will be in constant consultation with the Democratic leader. We will have the opportunity to talk several times throughout the day.

At this point, we cannot rule out a Saturday session, if it is absolutely necessary. I think we can finish our work earlier, but we simply can't rule out a Saturday session at this point.

I do ask for Members to keep their schedules flexible until we get through this legislative calendar. We will in a bipartisan way have a lot to be proud of once we leave for our August recess.

HEALTH CARE

Mr. President, most of what I have said has to do with accomplishments, challenges, and schedule. I want to turn to an issue that I care passionately about, an issue that most, if not all Americans, care about, and that is health care.

As I travel around the country, in part because I am a physician but in larger part because of the reality of the problem, the cost of health care, as well as the safety and quality of health care, is among the first and foremost issues on the minds of the American people. They want us to lower the cost. You do that by improving quality and getting rid of waste, and we are doing just that.

I am pleased to report that after years of challenging work, difficult work, and a lot of negotiation among ourselves on both sides of the aisle, the House is expected to join the Senate in passing a bill called the Patient Safety and Quality Improvement Act. I am hopeful they will pass that bill today. We passed it not too long ago. I mention it because it focuses on getting waste out of the system, and it does so by putting the emphasis on patients.

A patient-centered system is what I strongly believe we need to move to in the future. This does just that. Patient safety is something that concerns me. We have an obligation, as physicians, as nurses, as the health care sector, but also as a public policy body, to make sure that patient safety is maximized. People say: Of course, you do. But if you look back at the Institute of Medicine's report not too long ago that really started a lot of this debate, they estimated that up to 98,000 deaths are caused each year by medical errors. That would make medical errors, that are occurring every day in hospitals and clinics, and even at home when people are taking medicines, the eighth leading cause of death each year. That is more than car accidents, HIV/AIDS, or breast cancer. People dispute the number. Is it 98,000? Is it 125,000? Is it 75,000? The exact number doesn't matter. The fact that there are thousands and thousands of needless deaths being caused is inexcusable. This body has acted. The House will act. And I am hopeful the President will be able to sign that important legislation in the next several days.

What is so obvious to me as a physician, having spent 20 years in the medical arena, every day in the healing profession, is that the tragedy of all these deaths is compounded by the fact that these deaths and the many errors that result in prolonged hospitalization, more misery, greater cost, can be prevented, can absolutely be prevented. Simple reporting procedures, sharing of information, improved technology, a systems approach—all can reduce these preventable errors, and thereby improve hundreds of thousands of lives and actually save tens of thousands of lives.

So people ask, What is the problem? The fear of litigation has kept many health care providers—doctors, nurses, and lab technicians in the hospitals—from sharing information if a mistake is inadvertently made. Everybody makes mistakes, but if you have a mistake that is made, you need to be able to share it with people so you can develop a system to keep it from happening in the future. We all do that in our everyday lives.

For example, in hospitals, there is a tendency not to do that because if you share your mistake, there is a predatory trial lawyer who will swoop in and find that error and take you to court and destroy you and the system. It is human nature to say, if that is the case, Yes, I made a mistake, I will improve, but I am not going to share it because it will destroy my future. People are afraid of sharing their internal data, such as their collection of reporting of infections that could have been prevented with preventable techniques or a medical error that might expose them to a ruinous lawsuit. That drives the reporting of these medical errors underground.

The bill will change all of that, and it will lift this threat of litigation and allow health care providers, doctors, nurses, and other health care professionals to share information and to develop effective solutions and to develop effective systems whereby those mistakes will never occur again. That is the way this patient safety bill will improve lives but also save lives of tens of thousands of people.

This type of nonpunitive reporting isn't new. I began flying small planes fairly young, when I was a teenager. Over the years, I have watched how self-reporting in that field has revolutionized safety in general aviation, private aviation, and in the airline industry as well. In 1975, I had been flying for about 7 years. I remember it because it was a big deal at the time. Similar to what we are doing now with the patient safety bill, the FAA established a system called the Aviation Safety Reporting System. It encouraged everyone in the aviation system—mechanics, pilots, air traffic controllers, flight attendants, and the general public—to voluntarily report—I remember the blue cards you reported on—potential or actual safety problems, and you could do so without fear of recrimination.

That is why this voluntary aspect is so important. Because that information in the aviation field was shared internally and with others, accidents went down and overall safety went up dramatically. Everyone improved. Quality improved and safety improved by learning from others.

The patients safety bill that is before the House of Representatives today—the same bill that passed in this body last Thursday—promises exactly the same kind of benefits, in parallel, that were passed in 1975, and this is 2005, 30 years later than it should have been. Under the provisions of this act, hospitals and physicians and other health professionals will be able to share this information about their practices with independent PSOs, or patient safety organizations, without the fear of lawsuits, and this transparency will improve quality.

America has the absolute best health care in the world. I have seen it by doing heart transplants, using the best of lasers to resect tumors out of the trachea or windpipe, and with developing ventricular assist devices. I was in Tanzania some weeks ago working at a small clinic out in the bush, and when you look back at America, we have the most advanced health care in the world, with new treatments and techniques, improving millions of lives every day.

Through this bill, we are putting that same sort of American ingenuity to work in improving patient safety in hospitals and clinics and thus getting rid of waste and improving the overall quality of care. This bill is a major step forward to making health care safer and less costly, driving up the quality, driving down costs, and getting out the waste.

I can tell you, this is the first major health bill in this Congress. But I hope in the very near future we will pass other important legislation we are working on in a similarly bipartisan way—namely, information technology to have privacy-protected, electronic medical records available to everybody who wants it. It is a bipartisan effort. We have come a long way, and I am hopeful that we can do that in the near future.

We are establishing interoperability standards—working with the private sector to establish interoperability standards which will allow the 6,000 hospitals and 900,000 physicians out there to be able to communicate in a seamless way, with privacy-protected information. Again, it is another bill that would get rid of waste, drive down the cost of health care, and improve quality.

I am excited about these health initiatives. I thank my colleagues who have specifically been involved in this bill, including Chairman MIKE ENZI, Senator JUDD GREGG, Senator JIM JEFFORDS, who has been at it as long as anybody—this particular bill on patient safety—and, of course, Senator TED KENNEDY. On the House side, Chairman JOE BARTON and ranking member JOHN DINGELL have done a tremendous job as well shepherding through, the Patient Safety and Quality Improvement Act. We are saving lives and moving American medicine forward.

Mr. President, I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CRAIG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. CRAIG. Mr. President, I understand that the Republican side has from 10 until 11, is that correct, under the unanimous consent agreement?

The PRESIDENT pro tempore. That is correct. The first hour is under the control of the majority, the second hour is under the control of the minority, and it reverts back to the majority and then the minority.

Mr. CRAIG. Mr. President, I send to the desk a list of 61 cosponsors of S. 397, the Protection of Lawful Commerce in Arms Act that is currently pending before the Senate, and I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Mr. CRAIG. Mr. President, the reason I sent that list of cosponsors to the desk is to demonstrate to all of our colleagues that 61 Senators—60 plus myself—are now in support of the legislation that is pending before the Senate that we will move to active consideration of this afternoon at 2 o'clock. I think it demonstrates to all of us the broad, bipartisan support this legislation has and a clear recognition that the time for S. 397 has arrived.

This legislation prohibits one narrow category of lawsuits: suits against the firearms industry for damages resulting from the criminal or unlawful misuse of a firearm or ammunition by a third party.

It is very important for everybody to understand that it is that and nothing more. These predatory lawsuits are aimed at bankrupting the firearms industry. The courts of our Nation are supposed to be a forum for resolving controversies between citizens and providing relief where it is warranted, not a mechanism for achieving political ends that are rejected by the people's representatives, the Congress of the United States.

Time and time again down through history, that rejection has occurred on this floor and the floor of the other body.

Interest groups, knowing that clear well, have now chosen the court route to attempt to destroy this very valuable industry in our country.

Over two dozen suits have been filed on a variety of theories, but all seek the same goal of forcing law-abiding businesses selling a legal product to pay for damages from the criminal misuse of that product. I must say, if the trial bar wins here, the next step could be another industry and another product.

While half of these lawsuits have already been fully and finally dismissed, other cases are still on appeal and pending. Hundreds of millions of dollars are still being spent. The bill would require the dismissal of existing suits, as well as future suits that fit this very narrow category of description. It is not a gun industry immunity bill because it does not protect firearms or ammunition manufacturers, sellers, or trade associations from any other lawsuits based on their own negligence or criminal conduct.

This bill gives specific examples of lawsuits not prohibited—product liability, negligence or negligent entrustment, breach of contract, lawsuits based on violations of States and Federal law. And yet, we already heard the arguments on the floor yesterday, and I am quite confident we will hear them again and tomorrow, that this is a sweeping approach toward creating immunity for the firearms industry.

I repeat for those who question it, read the bill and read it thoroughly. It is not a long bill. It is very clear and very specific.

The trend of abusive litigation targeting the firearms industry not only defies common sense and concepts of fundamental fairness, but it would do nothing to curb criminal gun violence. Furthermore, it threatens a domestic industry that is critical to our national defense, jeopardizes hundreds of thousands of good-paying jobs, and puts at risk access Americans have to a legal product used for hundreds of years across this Nation for lawful purposes, such as recreation and self-defense.

Thirty-three States enacted similar gun lawsuit bans or civil liability protection. In other words, already 33 States, because of our silence, have felt it necessary to speak up to protect law-abiding citizens from this misuse of our courts.

Yesterday, opponents repeatedly charged that negligent businesses and people would be let off the hook by this bill. It was even stated that this bill would bar virtually all negligence and product liability cases in States and Federal courts. I repeat, nothing can be further from the truth. For those who come to this floor to make that charge, my challenge to them is to read the bill. Obviously they have not. They are simply following the script of the anti-gun community of this Nation. That is not fair to Senators on this floor to be allowed to believe what this legislation simply does not do nor does it say.

The bill affirmatively allows lawsuits brought against the gun industry when they have been negligent. The bill affirmatively allows product liability action. Any manufacturer, distributor, or dealer who knowingly violates any State or Federal law can be held civilly liable under the bill. This bill does not shut the courthouse door.

Under S. 397, plaintiffs will have the opportunity to argue that their case falls under the exception, such as violations of Federal and State law, negligent entrustment, knowingly transferring to a dangerous person. That is what that all means, that you have knowingly sold a firearm to a person who cannot legally have it or who you have reason to believe could use it for a purpose other than intended. That all comes under the current definition of Federal law.

Breach of contract or the warranty or the manufacture or sale of a defective product—these are all well-accepted legal principles, and they are protected by this bill. Current cases where a manufacturer, distributor, or dealer knowingly violates a State or Federal law will not be thrown out.

Opponents have complained about the Senate considering this bill at the same time and even have impugned the motives of the Senators who support it. The votes yesterday speak for themselves. Sixty-six Senators said it is time we got this bill before the Senate, and that is where we are today. When a supermajority of the Senate speaks, there is no question that the Senate moves, as it should, in that direction. The Senate could not muster the votes needed to invoke cloture on the Defense authorization bill which would have moved us to a final vote on that measure possibly by tonight. But the Senate, as I have said, by a wide margin spoke yesterday to the importance of dealing with this issue. Sixty-six Senators said let's deal with it now, and I have just sent to the desk 61 signatures of the cosponsors of this bill that demonstrate broad bipartisan support.

I think it is appropriate to consider all of this in the context of the Defense authorization bill because the reckless lawsuits we are seeking to stop are aimed at businesses that supply our soldiers, our sailors, and our airmen with their firepower. Stop and think about it. Would there ever be a day when all of our military would be armed with weapons manufactured in a foreign nation? There are many in this country, in driving or attempting to drive our firearm manufacturers from this country, who would have it that way.

Clearly, it is within the appropriate context as we deal with Defense authorization that we ought to be talking about the credibility and the assurance we are able to sustain the firearm manufacturing industry in this country. In fact, the United States is the only major world power that does not have a firearm factory of its own. That is something that simply ought not be tolerated. Thirty-eight of our colleagues of both parties signed on to a letter to Majority Leader FRIST making this very point: the importance of protecting America's small firearms industries against reckless lawsuits.

I would read from that letter, but I see that my colleague from Oklahoma is now on the floor wishing to discuss this legislation.

Mr. President, I yield the floor in recognition of Senator COBURN.

The PRESIDING OFFICER (Mr. ALEXANDER). The Senator from Oklahoma.

Mr. COBURN. Mr. President, first, I thank the Senator from Idaho for his unwavering faithfulness to the Constitution and upholding his oath as a Senator, as a Member of this body.

The Bill of Rights is important to us, and I rise today in support of that Bill of Rights and, in particular, the second amendment. Not only do I believe the right to bear arms is guaranteed by the U.S. Constitution, I exercise that right personally as a gun owner. I stand on behalf of the people of Oklahoma who adamantly believe in the second amendment and the right to carry arms and against the attack on that right by the frivolous lawsuits that have come about of late.

We have seen many attempts to curtail the second amendment. Nearly a decade ago anti-gun activists tried to limit the right of law-abiding citizens under the banner of "terrorism" legislation by slipping in anti-gun provisions.

In another line of attack, the anti-gun lobby responded to decreasing enthusiasm for limiting handguns by promoting a new form of gun control—a cosmetic ban on guns labeled with the inflammatory title "assault weapons." While that ban expired in 2004, we will likely see Members of this body attempt to add a renewal and expansion of that ban on this bill today.

Now anti-gun activists have found another way to constrict the right to bear arms and attack the Bill of Rights and attack the Constitution, and that is through frivolous litigation. They have not succeeded in jailing thousands of law-abiding Americans for having guns, or making the registration and purchase process so onerous that nobody bothers to buy a gun. They have failed to get their cosmetic weapons ban renewed. So now they must attack the arms industry financially through lawsuits—frivolous lawsuits, I might say.

This is why we are here today—to put a stop to the unmeritorious litigation that threatens to bankrupt a vital industry in this country.

As an important aside, I strongly believe it is important that we not write legislation that provides immunity for an industry that knowingly harms consumers.

It is also important that those who commit crimes, with or without the use of firearms, should be punished for their actions. I have always been a strong supporter of tough crime legislation. However, make no mistake, the lawsuits that will be prohibited under this legislation are intended to drive the gun industry out of business. With no gun industry, there is no second amendment right because there is no supply.

These lawsuits against gun manufacturers and sellers are not directed at perpetrators of crime. Instead, they are part of a stealth effort to limit gun ownership, and I oppose any such effort adamantly.

Anti-gun activists have failed to advance their agenda at the ballot box. They failed to advance their agenda in the legislatures. Therefore, they are hoping these cases will be brought before sympathetic activist judges—activist judges—who will determine by judicial fiat that the arms industry is responsible for the action of third parties.

Additionally, trial lawyers are working hand in glove with the anti-gun activists because they see the next litigation cash cow, the next cause of action that will create a fortune for them in legal fees.

As a result of some of the efforts of the anti-gun activists and some trial lawyers, the gun manufacturing and sales industry face huge costs that arise from simply defending unjustified lawsuits, not to mention the potential of runaway verdicts. This small industry has already experienced over $200 million in such charges. Even one large verdict could bankrupt an entire industry.

Since 1988, individuals and municipalities have filed dozens of novel lawsuits against members of the firearms industry. These suits are not intended to create a solution. They are intended to drive the gun industry out of business by holding manufacturers and dealers liable for the intentional and criminal act of third parties over whom they have absolutely no control.

In testimony before a House subcommittee in 2005, the general counsel of the National Shooting Sports Foundation, Inc., said:

> I believe a conservative estimate of the total, industry-wide cost of defending ourselves to date now exceeds $200 million.

What does that produce in our country other than waste and abnormal enrichment of the legal system?

This is a huge sum for a small industry such as the gun industry. The firearms industry taken together would not equal the value of a Fortune 500 company.

The danger that these lawsuits could destroy the gun industry is especially threatening because our national security and our civil liberties are at stake.

First, the gun industry manufactures firearms for America's military forces and law enforcement agencies, the 9, the 11. Due in part to Federal purchasing rules these guns are made in the U.S. by American workers. Successful lawsuits could leave the U.S. at the mercy of small foreign suppliers.

Second, by restricting the gun industry's ability to make and sell guns and ammunition, the lawsuits threaten the ability of Americans to exercise their second amendment right to bear arms.

Finally, if the firearms industry must continue to spend millions of dollars on litigation or eventually goes bankrupt, thousands of people will lose their jobs. Secondary suppliers to gunmakers will also have suffered and will continue to suffer.

This is why it is not surprising that the labor unions, representing workers at major firearms plants, such as the International Association of Machinists and Aerospace Workers in East Alton, IL, support this bill. This union's business representatives stated that the jobs of their 2,850 union members "would disappear if trial lawyers and opportunistic politicians get their way."

The economic impact of this problem may be felt in other ways. In my home State of Oklahoma, hunting and fishing creates an enormous economic impact. It is tremendously positive. Hunters bring in retail sales of over $292 million per year; 6,755 jobs in Oklahoma are dependent on hunting; $137,122,000 in salaries and wages in Oklahoma alone; and $22 million in State sales tax per year. The financial insolvency of gun manufacturers and sellers would have a devastating effect on my State and many other States similar to Oklahoma.

Insurance rates for firearm manufacturers have skyrocketed since these suits began, and some manufacturers are already being denied insurance and seeing their policies canceled, leaving them unprotected and vulnerable to bankruptcy.

That is the ultimate goal of these suits—bankruptcy and the elimination of this arms industry. Because of that, 33 State legislatures have acted to block similar lawsuits, either by limiting the power of localities to file suit or by amending State product liability laws. However, it only takes one lawsuit in one State to bankrupt the entire industry, making all of those State laws inconsequential. That is why it is essential that we pass Federal legislation.

Additionally, plaintiffs in these suits demand enormous monetary damages and a broad variety of injunctive relief relating to the design, the manufacture, the distribution, the marketing, and the sale of firearms.

Some of their demands: One-gun-a-month purchase restrictions not required by State laws; requiring manufacturers and distributors to participate in a court-ordered study of lawful demand for firearms and to cease sales in excess of lawful demand; prohibition on sales to dealers who are not stocking dealers with at least $250,000 of inventory—in other words, we are going to regulate how much you have to have in inventory before you can be a gun seller; a permanent injunction requiring the addition of a safety feature for handguns that will prevent their discharge by "those who steal handguns"; and a prohibition on the sales of guns near Chicago that by their design are unreasonably attractive to criminals.

These lawsuits are frivolous. Anti-gun activists want to blame violent acts of third parties on manufacturers of guns for simply manufacturing guns and sellers of guns for simply selling them. This doesn't make any sense. This would be the equivalent of holding a car dealer responsible for a person who intentionally runs down a pedestrian simply because the car that was sold by the dealer was used by a third party to commit negligent homicide.

Guns, like many other things, can be dangerous in the wrong hands. The manufacturer or seller of a gun who is not negligent and obeys all applicable laws should not be held accountable for the unforeseeable actions of a third party. This is a country based on personal accountability, and when we start muddying that aspect of our law and culture we will see all sorts of unintended consequences.

Most of the victims of gun injuries I have seen in the emergency room as a practicing physician were people who were intentionally shot by other people. The gun was the mechanism that was used, but it was the individual who carried out that act. The gun was a tool. Should we ban all tools that are capable of committing homicide or committing injury? These people were not injured by defective guns or defective ammunition. The individuals who shot these patients deserve aggressive prosecution, not the industry that made the guns or the legal sellers of the guns. Even when I treated individuals who injured themselves with guns, these tragedies were accidents. It was not part of a quality or product defect. It was an act of stupidity on the part of people. Part of our freedom comes with the ability to make wise choices. If we limit our ability to make choices, then we limit our freedom.

These lawsuits are part of an anti-gun activist effort to make an end run around the legislative system. We have seen that in multiple areas in our country. When you can't pass it in the legislature, you get an activist judge to get done what you wanted to do in the first place, even though a majority of Americans and a majority of legislatures don't want it. But one judge decides for the rest of us.

We are coming up on a judicial nomination for the Supreme Court. One of the questions that has to be asked is what is the proposal. What is the role in terms of judges making law rather than interpreting law? It will be a key question.

So far judges have not been convinced by their arguments. Here are a few examples. The Louisiana Supreme Court struck down the right of New Orleans to bring a suit in the face of a State law forbidding it, in an opinion stating clearly:

> This lawsuit constitutes an indirect attempt to regulate the lawful design, manufacture, marketing and sale of firearms.

Judge Berle M. Schiller of the U.S. District Court for the Eastern District of Pennsylvania struck the nail on the head when dismissing all of Philadelphia's allegations, stating that "the city's action seeks to control the gun industry by litigation, an end the city could not accomplish by passing such an ordinance."

The Delaware Superior Court adeptly stated that "the Court sees no duty on the manufacturer's part that goes beyond their duties with respect to design and manufacture. The Court cannot imagine that a weapon can be designed that operates for law-abiding people but not for criminals."

A word of caution. Most new tort ideas took a while to work. All it would take is one multimillion-dollar lawsuit to severely damage this industry. This bill is limited in scope. It protects only licensed and law-abiding firearms and ammunition manufacturers and sellers from lawsuits that seek to hold manufacturers and sellers responsible for the crime that third party criminals commit with their nondefective products.

Manufacturers and sellers are still responsible for their own negligent or criminal conduct and must operate entirely within the Federal and State laws.

Firearms and ammunition manufacturers or sellers may be held liable for negligent entrustment or negligence per se; violation of a State or Federal statute applicable to the sale or marketing of the product where the violation was the proximate cause of the harm for which relief is sought; breach of contract or warranty; and product defect. They still are responsible for all that through this bill. It takes none of that away. It holds personal accountability solid and steadfast. It does not infringe on it. Claimants may still go to court to argue that their claims fall under one of the exceptions.

In my opinion, gun manufacturers and sellers are already policed enough, too much, through hundreds of pages of statutes, hundreds of pages of regulations. To name a few sources of regulations of guns and ammunition: the Internal Revenue Code, including the National Firearms Act postal regulations restricting shipping of handguns; Federal explosive law; regulations for gunpowder and ammunition manufacture; the Arms Export Control Act; the Commerce Department export regulations; the Department of Transportation regulations on ammunition explosives and hazardous material transport.

In addition to keeping explicit records that can be inspected by BATF, the Bureau of Alcohol, Tobacco, Firearms, and Explosives, licensed dealers have to conduct a Federal criminal background check on their retail sales either directly by the FBI through its national instant criminal background check or through State systems that also use the NICS system. All retail gun buyers are screened to the best of the Government's ability.

Additionally, the industry has voluntary programs to promote safe gun storage and to help dealers avoid sales to potential illegal traffickers.

Manufacturers also have a time-honored tradition of acting responsibly to make recalls or make repairs as they become aware of product defects.

In the past, Congress has found it necessary to protect other classes; for example, the light aircraft industry. JIM INHOFE, a Senator from Oklahoma, moved that through the House and ultimately through the Senate, an industry that was killed, literally destroyed by frivolous lawsuits. Community health centers, same thing; the aviation industry; the medical implant makers; Amtrak—we have created a special exception for Amtrak—the computer industry members who are affected by Y2K. We took the nonsense out of the courts and put it where it belongs, into statutes with common sense that requires personal accountability and responsibility.

Furthermore, Congress may enact litigation reform when lawsuits are affecting interstate commerce. In many of these lawsuits cities and individuals are trying to use the State court to restrict the conduct of the firearms industry nationally, often contrary to state policies expressed through their own legislatures.

A single verdict in favor of an anti-gun plaintiff could bankrupt or regulate an entire segment of the economy—and of America's national defense. It could be out of business, but most importantly, my right, Oklahomans' right, all of America's right to a guarantee of the second amendment to the Bill of Rights secured for them in their ability to own and use firearms responsibly.

This bill will protect our national security. It will protect our constitutional rights. It will protect an industry responsibly, and it will protect thousands of jobs. It also will ensure that people who have suffered a real injury from a real cause of action can be heard and taken seriously while law-abiding manufacturers and dealers of firearms may continue to serve the law-abiding citizens exercising their constitutionally guaranteed second amendment rights.

Mr. President, I thank you, and I note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CRAIG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CRAIG. Mr. President, I just came from our Republican Senate cloakroom doing an interview on this important piece of legislation, and I thought that in the course of that interview there was an interesting comment made by the person on the other end of the line: Why are you doing this now? And I thought it would be important for me to put it in the appropriate context because there is a tremendous number of important issues before the U.S. Congress at this time that the American people are highly concerned about because we are headed toward the end of the week. As the leader said a few moments ago, we are headed toward the August recess, which means Congress, in its traditional way, will take the month of August off for personal time and family vacation as do many Americans, and we reconvene after Labor Day.

So why now are you addressing the Protection of Lawful Commerce in Arms Act, S. 397? It was stated in the context that the Senate really can only chew gum or dribble a ball, but it can't do both. What I think is important for those who might be listening to understand is that we can chew gum and dribble a ball at the same time, and probably keep multiple balls in the air. That is exactly what the leader is doing at this moment.

Last night, I signed, and I think the Presiding Officer signed, a document that we are very proud of that has been 6 years in coming to the desk of the President of the United States, and now comes to this President because of his very clear urging, and that is the national energy policy.

Yes, the Congress of the United States has completed its work on a national energy policy, and we believe we can take up the conference report now on the floor of the Senate during the remainder of the week before we recess, and we hope that all of our colleagues would let us step back for a moment from this legislation to do so before we move to final passage.

It is very possible that we could also do the transportation conference report. We have extended the legal authority under the Transportation Act 11 times while the Senate and the House did its work, and I hope we would not extend it anymore. So, clearly, there are multiple things we can do, and I trust we will do, before we adjourn for the August recess. But I think the Presiding Officer and I would agree that when our President came to town, now, nearly 6 years ago—and I remember President George W. Bush elect in the leader's office saying: While I spent a good deal of the campaign time talking about education and a variety of other issues, I am here now to talk about national energy. And the first thing I am going to do as a President-elect and a sworn-in President is to name a task force headed by the Vice President to recommend to the Congress the development of a national comprehensive energy policy.

He did, but we did not. He pushed, but we could not produce. He continued to push, and now we have produced, and finally we have a comprehensive energy policy before us. So I would say to those listening and to all of our colleagues, I hope we can dribble a ball and chew gum at the same time and get all of this work done before the August recess. If reasonable heads prevail, we should get it all done by late Friday night. But the leader also said we do have Saturday, and we will get our work done. By early afternoon today, we will be on S. 397, the Protection of Lawful Commerce in Firearms Act.

What I would like to do at this time is read a letter that we sent to Majority Leader FRIST that we think sets into the right context exactly why we are here today and tomorrow debating this important legislation.

The letter goes something like this: Dear Majority Leader FRIST—and this was sent on July 12, signed by a great many Senators, Democrats, and Republicans alike, MAX BAUCUS, who is my cosponsor of this legislation, and I, along with a good many others. We said:

> In the early days of World War II, President Franklin Roosevelt foresaw that America "must be the great arsenal of democracy." Americans rose to that challenge, producing unprecedented quantities of arms, not only for U.S. forces but also for our allies around the world.
>
> That tradition continues during today, during our Global War on Terror. In 2004–2005, the United States—the only major world power without a government firearms factory of its own—

I said, in earlier statements this morning, we are the only major world power where the Government does not own a firearms factory. They are all owned by private citizens—

> has contracted to buy over 200,000 rifles, pistols, machine guns, and other small arms for our soldiers, sailors, airmen and Marines. In addition, the U.S. Army alone uses about 2 billion rounds of ammunition each year—about half of it made by private industry. Those guns and ammunition are made in the U.S. and provide good jobs for hardworking Americans.

Those gun manufacturing facilities and ammunition facilities are spread across the United States.

> Unfortunately, our military suppliers are in danger. Anti-gun activists have taken to the courts to promote their agenda of more restrictive gun control. The very same companies that arm our men and women on the front line against terrorism have been sued all over the country, where plaintiffs blame them for the acts of criminals.
>
> These lawsuits defy all the rules of traditional tort law. While many have been rejected in the court—

And that is many of the lawsuits, some 24-plus filed, about half of them now rejected—

> even one verdict for plaintiffs would risk irreparable harm to a vital defense industry.
>
> These are some of the reasons I have cosponsored S. 397, the Protection of Lawful Commerce in Arms Act. This bill would protect America's small arms industry against these lawsuits, while allowing legitimate, recognized types of suits against companies that make defective products, or against gun dealers who break the law.

I was very clear earlier today that S. 397 sets that out in clear fashion.

The letter goes on to say:

> We urge you to help safeguard our "great arsenal of democracy" by bringing S. 397 to the Senate floor before the August recess, and working to pass it without any amendments that would jeopardize its speedy enactment into law.

That is why we are here today, because a substantial majority of the Senate has urged our leader to bring this important legislation to the floor. We have asked the Senate to be flexible, as is typical in the Senate. While we have legislation on the floor and conference reports on major bills pending, we wanted to come forward to be able to set aside the legislation and to deal with those, and I trust we will, at least three: conference report on energy, the national energy policy, a conference report on transportation, and a conference report on the Interior appropriations bill, which has some critical veterans money in it that I and others have worked for over the last good number of weeks, and we hope all of that can be effectively accomplished before we complete our work by late Friday night or Saturday.

I think that with full cooperation from all of our colleagues, we can get all of this legislation done in a timely amount of time.

Another question was asked of me a few moments ago by the person I did the interview with, who said, well, these are very big companies that make a lot of money and are you not protecting them a great deal?

Let me put that into the right context. I am not going to name names, but I will say that I know of at least three firearms companies that have around $100 million worth of sales a year apiece, not collectively but apiece.

They were comparing it in this interview with the tobacco industry. I said, Well, gee, I know of those companies alone, they were selling $1.1 billion, $1.2 billion, some of them $2 billion industries in their collective value. So we are talking apples and oranges, an industry that is very limited in its capability that is now being sucked to death by the trial bar and these frivolous lawsuits to the tune of hundreds of thousands, if not millions, of dollars a year, in necessary legal defenses.

So that is why we have been very specific in the law. It is not the gun industry immunity bill. It is important that we say that and say it again because it does not protect firearms or ammunitions manufacturers, sellers or trade associations from any lawsuits based on their own negligence or criminal conduct. The bill gives specific examples of lawsuits not prohibited. Let me repeat, not prohibited:

Product liability, in other words, a gun that is defective, that misfires, that does damage to the operator of it, those definitions are clearly spelled out within the law. Negligence or negligent entrustment, breach of contract, lawsuits based on a violation of State and Federal law, it is very straightforward, and we think it is very clear.

The trend of abusive litigation targeting the firearms industry not only defies common sense and concepts of fundamental fairness, but it would do nothing to curb criminal violence, and we know that.

Furthermore, it threatens the domestic industry that I think is critical, as I have mentioned earlier, to the national defense of this country.

It would be a tragedy, and I do not know of a soldier serving today or one who has served that would want to serve with a firearm at his or her side being made by a foreign manufacturer. It does not make sense whatsoever. Yet that is the end product of the effort that is under way today, to simply put firearms manufacturers out of business. If they can be pushed overseas, then other forms of law can be used to block access to firearms or access to the importation of firearms from foreign countries. The argument would be foreign nations are attempting to flood the American consumer with a foreign product. I have heard the argument on the floor by those who have attempted to ban certain types of importation over the years.

It is an argument well spelled out and well used by many. Faulty as it may be, it is an argument that oftentimes resonates to the American consumer. But when the American consumer finds out that they have been denied access to a quality U.S. product or that product does not exist, then the argument turns around.

That is why we are on the floor today. That is why we are dealing with this important legislation. It is my understanding that we have arrived at a unanimous consent agreement that brings us on to the bill by 2 this afternoon. I hope at that time many of my colleagues who are cosponsors would join with me so that we can move this legislation expeditiously through the Senate. I know there are several amendments that will probably be brought to the floor, most of them destructive to the intent of the bill, marginalizing it at best. As a result, I urge all of my colleagues to stay with us on the construct of S. 397, to be able to pass it from the Senate as clean as possible, hopefully, very clean, so the House can act on it immediately and move it to our President's desk.

That is the intent. As we move through S. 397 over the course of today and tomorrow, I trust we will also be able to deal with the conference reports I have mentioned that I think are extremely important for this country and for all of us to have prior to the August recess.

I see no other of my colleagues on the floor wishing to speak at this moment and I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. GRAHAM). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. KENNEDY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KENNEDY. Mr. President, I take a moment to explain the effect of our proceeding to this gun bill. We are putting aside an important debate on national security and the needs of our troops in a time of war. Last Friday I listed a number of the amendments that still were pending that would affect the National Guard and our Reserve troops and also provide additional kinds of protections for the service men and women. The decision by the Republican leadership was that we had spent enough time on the legislation, even though we chose to spend 2 weeks earlier in the year on the credit card industry and on bankruptcy and a similar amount of time on the class action legislation which benefited special interest groups. The credit card industry will profit about $6 billion more this year than last year because of the actions taken. We also spent time on the special interest legislation dealing with class actions. We spent the time on that, but we are not on the Defense authorization bill.

We had an important amendment on the whole policy of the administration in developing new nuclear weapons which has profound implications in terms of the issues of nuclear proliferation and nuclear safety. We looked forward to having an opportunity to debate that issue. That was put aside by the Republican leadership because they were concerned about a provision that had been introduced to the Defense authorization bill last Thursday. Senator LEVIN, Senator REED, Senator ROCKEFELLER, and I introduced an amendment to create an independent commission to examine the administration's policy surrounding the detention and interrogation of detainees as an amendment to the Defense authorization bill.

The response of the White House was instant and negative. The President announced he would veto the Defense authorization bill, all $442 billion of it.

if it included any provisions to restrict the Pentagon's treatment of detainees or creating a commission to investigate detainee operations. No other response could have demonstrated so clearly the urgent need to establish a commission than that this imperial White House considers itself immune from restraints by Congress on its powers no matter what the Constitution says.

It is appalling that the administration is so afraid of the truth that they are even willing to veto the Defense bill which includes billions of dollars for our troops, pay raises for our troops, and funds for armored humvees to protect our troops in Iraq. But the administration was prepared to veto that legislation because of this amendment that had been offered by Senator LEVIN, Senator REED, Senator ROCKEFELLER, and myself.

Now the Senate Republican leaders have pulled the Defense bill from the floor. It is interesting that Republican leaders hatched this plan after Vice President CHENEY visited with Senate Republicans last week. He told them the White House does not want votes on amendments to require an inquiry into their detention policies and practices. The White House has not only threatened to veto a national defense bill to avoid accountability, but is preventing us from voting on the issue. It is already obvious that the administration's detention and interrogation policy failed to respect the longstanding rules that have guided our policy in the past, rejecting the collective wisdom of our career military and State Department officials. In today's newspapers we see the result of this action once again with the use of dogs against detainees.

We need to return to our core values of openness and accountability. The facts we know so far about torture and other abuses, about indefinite detention, have already become recruiting tools for terrorists. But if we act now to uphold our principles, we can end the outrage, we can end the coverups, and hold officials accountable at the highest levels. We need to disavow the abuses and harsh techniques. We need to ensure our actions do not become an excuse for our enemies to torture American troops when they are captured in the future or to attack innocent Americans in any part of the world.

The reports of abuse also undermine our own security efforts at home. The vast majority of Muslim Americans and Arab Americans are willing to help identify potential terrorists, help prevent charitable donations from being misused, and act as eyes and ears of a community uniquely capable of identifying potential threats. When the reports of abuses go unanswered, they undermine the community's willingness to provide that assistance. It is impossible for many Muslim Americans and Arab Americans to be persuaded to help against such threats if they feel their own religious beliefs have been targeted.

The reality is our safety and security depend on accountability. It is not enough to pretend that problem does not exist, but that is how the President has responded to the flow of reports about abuses. Contrary to the protests of the administration, we do not have the answers we need. So far, we have had 12 separate so-called investigations of allegations, but not a single report has adequately examined the role that civilian authorities have played in crafting the policies that led to our missteps. Twelve investigations and counting, and the coverup continues.

The administration and its proxies in the coverup have vilified anyone who calls for a full inquiry into the policies. They even stooped to claiming a request for full accounting is somehow a smear against our troops. The real smear is that the administration continues to prosecute only a few low-level offenders without holding accountable the higher-ups who laid the groundwork for all the abuses. The real disservice to our troops and to our country is done by those who leave those at the bottom of the chain of command holding the bag while officials at the top are promoted and rewarded.

We need a commission independent of political influence to find the relevant facts, not just the facts that suit the partisan needs of the administration. We need an investigation of the country's so-called rendition policy which sends detainees to other countries where torture is well known. We need answers about the administration's reaction to FBI complaints about abuse. We need a thorough assessment of the legal regime that is currently in effect.

With its willingness to conceal the truth, the administration will never tell the American people about this practice of rendition on its own. We need an independent commission to examine our policies and practices and make appropriate recommendations. The American people deserve to understand the choices made by this President and to evaluate them.

In sum, our interrogation and detention policies need much more thorough review. In avoiding accountability, the administration has made it clear it won't accept responsibility for giving our Nation the clear answers it deserves. As Benjamin Franklin said, half a truth is often a great lie. Until now we have been fed half truths and coverups by the administration.

With the recent veto threat, the White House has declared war on any full and honest accounting of responsibility. The safety of our troops and our citizens depends on finding out the whole truth and acting on it. An independent commission of respected professionals with backgrounds in law and military policy and international relations is the only way we can learn the truth about what has happened so we can end the suppression and establish a policy for the future that is worthy of our Nation and worthy of our respect of all nations.

Administration secrecy doesn't stop with their interrogation policy. This administration has a systematic disregard for oversight and openness. Government is intended to be "of the people, by the people, and for the people." Democracy requires informed citizens, and to be informed, citizens need to have information about the government. Congress and the executive branch are supposed to be open and accountable, so the American people know what is being done in their name. But under the Bush administration, openness and accountability have been replaced by secrecy and evasion of responsibility. They abuse their power, conceal their actions from the American people, and refuse to hold officials accountable.

No one disputes the necessity of classifying information critical to protecting our national security—military operations, weapon designs, intelligence sources, and similar information. But in the post-9/11 world, the administration is making secrecy the norm and openness the exception. It has used the tragedy of 9/11 to classify unprecedented amounts of information. Material off-limits to the public has become so extensive that no other conclusion is possible. The Bush administration has a pervasive strategy to limit access to information in order to avoid independent evaluation of its actions by Americans whose job it is to observe and critique their government. When even Congressmen, journalists, and public interest groups complain about limits on access to information, we know the difficulties faced by ordinary Americans seeking information from their government.

At a hearing last August in the House Subcommittee on National Security, the Director of the Government's Information Security Oversight Office, J. William Leonard, testified that "it is no secret that the government classifies too much information. Too much classification unnecessarily impedes effective information sharing."

The Deputy Under Secretary of Defense for Counterintelligence and Security, Carol A. Haave, said that as much as half of all classified information doesn't need to be classified.

Last year, a record 15.6 million documents were classified by the Bush administration at a cost of $7.2 billion, many under newly invented categories with fewer requirements for classification.

The administration argues that all this secrecy is necessary to win the war on terrorism. But the 9/11 Commission Report said that too much government secrecy had hurt U.S. intelligence capability even before 9/11. "Secrecy stifles oversight, accountability, and information sharing," says the report. They know from their own experience.

In July 2003, the 9/11 Commission's cochairmen, Thomas Kean and Lee Hamilton, complained publicly that the administration was failing to provide requested information.

In October 2003, the Commission had no choice, after repeated requests, but to subpoena records from the FAA.

In November 2003, after multiple requests, the Commission again had to subpoena information, this time from the Department of Defense.

For the rest of that fall and spring, the administration repeatedly tried to deny access to presidential documents important to the Commission's investigation, until public outcry grew loud enough to convince the administration otherwise.

Key members of the administration balked at testifying, until public opinion again swayed their stance.

And then, in an ironic twist, 28 pages of the 9/11 Commission Report itself was classified. So, is all this secrecy really about protecting us from the terrorists? Or is it just to avoid accountability?

This administration, once in office, wasted no time challenging those who would hold them accountable. In May 2001, Vice President CHENEY's energy task force issued its report recommending more oil and gas drilling to solve our energy problems. In light of his former employment at Halliburton, the recommendation was hardly astonishing. What was astonishing was the Vice President's refusal to identify the people and groups who helped write the policy. In June 2001, the GAO, the nonpartisan, investigative arm of Congress, requested information on the energy task force, following reports that campaign contributors had special access while the public was shut out. GAO's request was simple. It asked, "Who serves on this task force; what information is being presented to the task force and by whom is it being given; and the costs involved in the gathering of the facts." Considering that the task force wrote the nation's energy policy, it was not an unreasonable request.

The administration refused to comply, even though GAO's request was not out of the ordinary. President Clinton's task forces on health care and on China trade relations were both investigated by GAO. The Clinton administration turned over detailed information on the participants and proceedings of the task forces.

But the Bush administration argued that GAO did not have the authority to conduct the investigation. For the first time in its 80-year history, GAO was forced to file suit against an administration to obtain requested information. But the court sided with the administration in Walker v. Cheney, and GAO's investigative oversight authority was effectively reduced. Independent oversight is critically important when one party controls both Congress and the White House, and GAO is critical to that oversight.

On October 12, 2001, John Ashcroft wrote a memo outlining the Justice Department's views on Freedom of Information Act requests. The memo set the tone for an administration hostile to such requests. It discouraged executive branch agencies from responding to Freedom of Information Act requests, even when the agencies had the option to respond. He basically reversed the longstanding policy of prior administrations.

The Clinton administration policy, set forth by Attorney General Janet Reno, was that if a document could be released without harm, an agency should do so, even if there were technical grounds for withholding it. They knew that government openness was essential to an informed public.

When the Bush administration came to office, Attorney General Ashcroft disagreed—he wrote that if there is any technical ground for withholding a document under the Freedom of Information Act, an agency should withhold it. The Clinton policy had been "release if at all possible." The Bush policy was "keep secret if at all possible."

Why should the public know what the administration is doing? Why release documents that might be embarrassing to the White House or its friends in business?

Some organizations claim, based on their experience, that this obsession with secrecy goes even farther, and that executive branch agencies are being told to withhold information until it is subpoenaed. Sean Moulton, a senior policy analyst at OMB Watch, argued that "if there are documents the government doesn't want to release but doesn't have any legal basis for withholding, unless you're willing to go to court, you're not getting those documents."

Since the tragedy of September 11, this administration has effectively shut down inquiry after inquiry:

In November 2001, energy companies were planning a natural gas pipeline through the Blue Ridge Mountains of Virginia. Local citizens, led by former U.S. Army Ranger Joseph McCormick, asked the Federal Energy Regulatory Commission for a map of the planned pipeline. These citizens weren't being nosy—they wanted to know if a large new pipeline for natural gas would be going through their backyards. FERC denied the citizens' request in the name of national security, even though this type of information had been public before 9/11. Clearly, national security concerns are legitimate. But without knowledge of the pipeline's location, how could these citizens defend their property? Joseph McCormick put it bluntly: "There certainly is a balance," he said. "It's about people's right to use the information of an open society to protect their rights."

In the fall of 2002, the chemical compound perchlorate was found in the water supply of Aberdeen, Maryland—near the Army's famous Aberdeen Proving Ground. Perchlorate is a main ingredient of rocket fuel. It also stunts the metabolism and brain growth of newborns. A group of citizens organized, and worked with the Army to protect their drinking water from further contamination. But a few months later, the Army began censoring maps and information that would help determine which areas were contaminated, supposedly in the interest of national security—if citizens could find out where the water was contaminated, then terrorists could find it too. The head of the citizens' group was a 20-year army veteran. His water well was only a mile and a half away from the proving ground. "It's an abuse of power," he said. "The government has to be transparent."

Even Members of Congress have had to subpoena information in order to do their work. Last October, Congressmen CHRISTOPHER SHAYS and HENRY WAXMAN, the chairman and ranking Democrat on the House Government Reform Subcommittee on National Security, Emerging Threats and International Relations, asked for an audit of the Development Fund for Iraq. The copy they received had over 400 items blacked out. They had so much difficulty obtaining an unredacted report from the Defense Department that they had to prepare a subpoena. Once they finally received an unredacted copy, guess what had been blacked out? More than $218 million in charges from Halliburton. So far, no one has been held accountable.

It has now been 744 days without a White House investigation into the CIA leak case. It took 85 days for the administration even to require its staff to turn over evidence relating to the leak. Senate Republicans held 20 hearings on accusations against President Clinton and the Whitewater case, but they have held zero hearings on the leak of the covert identity of CIA agent Valerie Plame. So far, no one has been held accountable.

Last week, the Defense Department refused to cooperate with a federal judge's order to release secret photographs and videotapes of prisoner abuse at Abu Ghraib. The ACLU had sued to obtain release of 87 photographs and 4 videotapes, but the administration filed sealed documents resisting the order. They are so obsessed with secrecy that they even make secret arguments to keep their secrets. So far, no one has been held accountable.

Also last week, the administration submitted an initial report on progress in training Iraqi security forces. It has been more than 2 years since the fall of Baghdad, and a reliable assessment of our progress in training those forces was long overdue. The key questions that the American people want to know are how many Iraqi security forces are capable of fighting on their own and what our military requirements will be the months ahead. But the answers remain classified. The American people deserve to know the facts about our policy. They want to know how long it will take to fully train the Iraqis and when our military mission will be completed. They can deal with the truth, and they deserve it.

No one wants to do anything that would help the insurgents. But the administration must do a better job of responding to the legitimate concerns of the American people. The administration still isn't willing to be candid. It needs to find a way to shed some of the secrecy and answer these questions in good faith for the American people. The silence is deafening.

There is also a pattern of withholding information from members of Congress on the administration's nominations. In 2003, Miguel Estrada was nominated for a Federal judgeship. We requested legal memoranda he wrote as Assistant Solicitor General, and we were repeatedly denied. In 2004, Alberto Gonzales was nominated to be Attorney General. We requested various memoranda he authorized on administration torture policy, and we were repeatedly denied. Earlier this year, John Bolton was nominated to be Ambassador to the United Nations. We requested documents to determine if he acted appropriately in his previous job, and we have been repeatedly denied.

Instead of coming clean and providing the information to the Congress, we have been stonewalled. Our questions have gone unanswered. And now, the President appears to be poised to abuse his power further, rub salt in the wound, and send John Bolton to the United Nations anyway with a recess appointment of dubious constitutionality.

Now John Roberts has been nominated to a lifetime seat on the Supreme Court. We hope this nomination will not be another occasion for administration secrecy, but press accounts suggest otherwise. Even before we asked for any documents, the administration announced it will not release many of the memoranda written by John Roberts. The White House spokesman says they will claim attorney-client privilege, but many of the memos vital to our consideration of Judge Roberts for the Supreme Court were written while he worked as a top political and policy official in the Solicitor General's office. That office works for all the American people—not just the President. Attorney-client privilege clearly has never been a bar to providing the Senate with what it needs to process a nomination.

As we all know, no one is simply entitled to serve on the Supreme Court of the United States. One has to earn that right. And one earns that right by getting the support of the American people, reflected in the vote here in the United States Senate. And that is what the confirmation process is all about. We know that the administration is familiar with and aware of Judge Roberts' positions on various issues. They have had a year to study it and had their associates talk with him and with those who worked with him. The real question is: Shouldn't the American people have the opportunity to get the same kind of information so that they can form their own impression and so that the Senate can make a balanced, informed judgment and see whether or not the balance in the Supreme Court will be furthered? That is the issue and it appears that the administration is continuing to withhold important information that would permit the Congress the ability to do so.

Yes, the administration has consistently used the horror of 9/11 and its disdain of congressional oversight to get its way and avoid accountability. It consistently uses this secrecy to roll back the rights of average Americans. But even its best spin doctors can't conceal some of the administration's most flagrant abuses of power.

Last August, the New York Times reported that "health rules, environmental regulations, energy initiatives, worker-safety standards and product-safety disclosure policies have been modified in ways that often please business and industry leaders while dismaying interest groups representing consumers, workers, drivers, medical patients, the elderly and many others." Often, this has been done in silence and near secrecy.

In 2000, Congress responded to the disclosure of defects in Firestone tires, which may have been responsible for as many as 270 deaths, by passing legislation which would make information on auto safety and related defects readily available. But in July 2003, the National Highway Traffic Safety Administration decided that reports of defects would cause "substantial competitive harm" to the auto industry, and exempted warranty claims and consumer complaints from the Freedom of Information Act. Clearly, that was another abuse of power that protects big business while putting the American public at greater risk.

In 2003, the administration knowingly withheld cost estimates of its Medicare prescription drug bill—one of the most important pieces of legislation that year. The estimates showed costs over $100 billion more than the administration claimed, but the information was withheld because of fears that the actual numbers would persuade Members of Congress to vote no. Administration officials threatened to fire Chief Actuary Richard Foster "so fast his head would spin," if he informed Congress of the real cost estimate. I wrote a letter to the administration on this subject, but they never responded to my questions.

In 2003, the Food and Drug Administration kept secret a report that children on antidepressants were twice as likely to be involved in suicide-related behavior. The FDA also prevented the author of the study—their expert on the issue—from presenting his findings to an FDA advisory committee. Dr. Joseph Glenmullen, a Harvard psychiatrist, said "Evidence that they're suppressing a report like this is an outrage, given the public health and safety issues at stake . . . For the FDA to issue an ambiguous warning when they had unambiguous data like this is an outrage."

In November 2003, the White House told the Appropriations Committees in both Houses of Congress that it would only respond to requests for information if they were signed by the committee chairman. In a time of one-party rule, this tactic made congressional oversight almost completely impossible.

In April 2004, the ranking member of the Environment and Public Works Committee, Senator JEFFORDS, was forced to place holds on several EPA nominees after the administration refused to respond to twelve outstanding information requests, including information on air pollution.

In August 2004, under pressure from the Department of Homeland Security, the FCC decided to make telephone service outage reports confidential, and exempt them from Freedom of Information Act requests. The FCC argued it was because companies could use competitors' service outages in ad campaigns. You may not be able to make informed decisions on your phone company, but at least the company will be protected from nasty advertising.

Last month, we discovered that the administration had blocked studies criticizing the Central American Free Trade Agreement—after it had already paid for them. In 2002, the Department of Labor hired the International Labor Rights Fund to back up its argument that Central American countries had improved on labor issues. The contractor found the opposite, and posted its results on its Web site in March 2004. The Labor Department ordered its removal from the website, banned its release, and barred the contractor's employees from discussing the report. The Department of Labor denied a Congressman's request for the report under the Freedom of Information Act. These are the American people's tax dollars. But when the administration didn't like an answer, it abused its power to avoid accountability—at their expense.

Yesterday, the Wall Street Journal disclosed yet another list of abuses in Iraq reconstruction. Ten billion dollars of no-bid contracts were awarded; $89 million was doled out without contracts at all; $9 billion is unaccounted for, and may have been embezzled. An official fired for incompetence was still giving out millions of dollars in aid, weeks after his termination. A contractor was paid twice for the same job. A third of all U.S. vehicles that Halliburton was paid to manage are missing. It is a staggering display of incompetence and cover-up, so that no one will be held accountable.

Americans deserve better. They deserve the information necessary to become informed, effective citizens. We as lawmakers are better able to represent our constituents when we have access to the critical information held by the executive branch. We must never forget who we work for—the American people. Congress is a coequal branch of government, and we have a duty to hold the administration accountable for its actions.

Mr. President, on the matter we have before the Senate at the present time, here we go again on the issue of legal immunity for the gun industry. Without shame, the Republican leadership has brought back this special interest, anti-law enforcement bill that strips away the rights of victims to go to court.

Why the urgency to take up this bill now? This is a critical moment in this country's future. Surely, the Republican leadership can take some time to address other priorities before attempting to give a free pass to the gun industry. Why aren't we completing our work on the Defense authorization bill? That is what was before the Senate. Why have we displaced a full and fair debate on the issue of the Defense authorization bill—which has so many provisions in there concerning our fighting men and women in Iraq and about the National Guard and defense—in order to consider special interest legislation?

That is what is before the Senate, and that is what we are considering at the present time, as a result of the Republican leadership. Surely, the Congress can do more for our citizens than rush to pass unprecedented special interest legislation. We can and should be acting to meet our real challenges.

Last year, the Federal Government recalled a water pistol, the Super Soaker, just a few days before the assault weapons ban expired. America does more to regulate the safety of toy guns than real guns, and it is a national disgrace. The gun industry has worked hard to avoid Federal consumer safety regulation. Where are our priorities? Where is the logic in passing a bill that makes it harder to sue for harm caused by real guns than harm caused by a plastic toy gun?

The industry has conspicuously failed to use technology to make guns safer. It has attempted to insulate itself from its distributors and dealers, once guns leave the factory. Under this bill, it will not even matter if the guns are stolen by factory employees and snuck out of the factory in the middle of the night.

The overwhelming majority of Americans believe gun dealers and gun manufacturers should be held accountable for their irresponsible conduct, similar to everyone else.

Cities, counties, and States incur billions of dollars in costs each year as a result of gun violence. Studies estimate that the public cost of firearm-related injuries is over $1 million for each shooting victim. Yet this bill would take a fierce toll and dismiss even pending cases where communities are trying to get relief.

This bill would bar the legal rights of hard-working law enforcement officers, such as Ken McGuire and David Lemongello. These two police officers from Orange, NJ, were seriously wounded in a shootout with a burglary suspect. The gun used by the suspect was one of 12 guns sold by a West Virginia pawnshop to an obvious straw purchaser for an illegal gun trafficker. Fortunately for the officers, this bill did not become law last year, and their case was able to proceed.

Recently, David Lemongello was able to obtain a $1 million settlement. Significantly, the settlement required the dealer and other area pawnshops to adopt safer practices. These reforms go beyond the requirements of current law and are not imposed by any manufacturers or distributors. This is not about money. This is about public safety, and I commend these brave officers for their courageous battle to change the system.

It is clear what will happen if Congress gives the gun industry this unprecedented legal immunity, on top of its existing exemption from Federal consumer safety regulations. Guns will be more dangerous. Gun dealers will be more irresponsible. More guns will be available to terrorists and criminals. There will be more shootings and more dead children.

The Nation's response to this death toll has been unacceptable. Yet, year after year, little changes in our approach to regulating guns. How can we justify this neglect? How can we continue to ignore the vast discrepancy in gun deaths in the United States compared to other nations? How can we possibly justify this effort to give the gun industry even greater protection for irresponsible behavior?

Mr. President, this bill is nothing short of Congress aiding and abetting the provision of guns to criminals. It takes the gun industry off the hook when their guns are sold to the wrong people who are out to hurt us. Under this administration, we have seen the budget cuts to the Bureau of Alcohol, Tobacco and Firearms, so our law enforcement do not have the resources they need to keep guns out of criminal hands. That is why these citizen lawsuits are so important. If the police cannot do their job, then citizens should be able to do it. But this legislation will throw the citizens out of court. It is wrong.

I yield the floor.

The PRESIDING OFFICER. The Senator from California.

Mrs. FEINSTEIN. Mr. President, I come to the floor to speak in opposition to the motion to proceed on the gun liability bill.

Before I begin, I want to say I find it incongruous that we had the Defense Authorization bill up, an important bill—we were about to consider some amendments affecting enemy combatants and detainees, I think very important amendments, by Senator McCAIN, Senator WARNER, and Senator GRAHAM. The bill was up for an unprecedented short time, and had to have cloture, according to the Republican side. Well, some of us wanted to hear what Senators McCAIN, WARNER, and GRAHAM had to say. So, we voted against cloture. Then, the leader took down the bill, and now we are on a bill for a real special interest in this country, the National Rifle Association.

Mr. President, I have carefully reviewed this bill, and in my assessment is it is mistitled. The Protection of Lawful Commerce in Arms Act has nothing to do with protecting lawful commerce; rather, it protects one segment of industry against the lawful interests of our States in remedying and deterring negligent conduct.

The bill pretends to be part of the long-ranging and important debate about gun regulation. Its proponents argue that lawsuits need to be stopped in order to defend their view of the second amendment. But that is pretense. This bill is a simple giveaway to one industry—the gun lobby. It is a special-interest windfall.

I, for one, do not believe we should be giving the gun industry sweeping and unprecedented protection from the type of lawsuits that are available to every individual involving every other industry anywhere in America.

We have to recognize that guns in America are responsible for the deaths of 30,000 Americans a year. If we remove this one avenue for enforcing responsibility, individuals will have no recourse. Gun owners and gun victims alike will be left virtually powerless against an industry that is already immune from so many other consumer protections. So we find ourselves today on the cusp of yet another NRA victory.

Simply put, we are considering legislation that would ensure that it is not in the financial interests of gun manufacturers or sellers to take reasonable care in administering their business. We are removing the incentives of the tort system to encourage responsible behavior. No longer will those incentives to responsible behavior be present.

Let me be clear, if this bill is approved, it will not be a victory for law-abiding gun owners who might someday benefit from the ability to sue a manufacturer or dealer for their negligent conduct. No, this will be a victory for those who have turned the NRA into a political powerhouse, unconcerned with the rights of a majority of Americans who want prudent controls over firearms and who want to maintain their basic legal right in our civil law system.

Now, I do not support meritless lawsuits against the gun industry. I do not think anybody does. It is my belief gun manufacturers and dealers should be held accountable for irresponsible marketing and distribution practices, as anyone else would be, particularly when these practices may cause guns to fall into the hands of criminals, juveniles or mentally ill people.

This legislation has one simple purpose: to prevent lawsuits from those harmed by gun violence as a result of the wrongful conduct of others. These include lawsuits filed by cities and counties responding to crimes often committed using guns that flood the illegal market, with the full knowledge of the distributors that the legal market could not possibly be absorbing so many of these weapons—that is why so many mayors have written strongly against this legislation—and lawsuits filed by organizations on behalf of their members and victims of violent crimes and their families who are injured or killed as a result of gun violence facilitated by the negligence of gun manufacturers or sellers.

This issue is not an abstract one. The bill is going to hurt real people—victims not only of criminal misuse by a well-designed firearm, but victims of guns that have been marketed in ways which, quite frankly, should be illegal.

Essentially, this bill prohibits any civil liability lawsuit from being filed against the gun industry for damages resulting from the criminal or unlawful misuse of a gun by a third party, with a number of narrow exceptions.

In doing so, the bill effectively rewrites traditional principles of liability law which generally hold that persons and companies may be liable for their negligence, even if others are liable as well. This bill would essentially give the gun industry blanket immunity from civil liability cases of this type, an immunity no other industry in America has today. This is truly a remarkable aspect of the legislation. It is a radical approach to our Nation's laws and the principles of federalism.

The bill does allow certain cases to move forward, as its supporters have pointed out, but these cases can proceed only on the narrowest of circumstances. Countless experts have now said that this bill would stop virtually all of the suits against gun dealers and manufacturers filed to date which are based on distribution practice, many of which are vital to changing industry practice and compensating victims who have been horribly injured through the clear negligence or even borderline criminal conduct of some gun dealers and manufacturers.

With any other business or product, in every other industry, a seller or manufacturer can be liable if that seller or manufacturer is negligent, but not here. Since money, rather than life or liberty, is at stake in a civil case, the standard of proof is lower. There need not be a criminal violation to recover damages. In the overwhelming majority of civil cases, there is no criminal violation. But here, contrary to general negligence law covering almost every other product, the bill allows negligent gun dealers and manufacturers to get off the hook unless they violated a criminal law. This is dreadful. It is despicable. This bill would create a special area of law for gun manufacturers and says that unless they violate a law, they can be careless in how they stock, secure, and sell dangerous weapons.

The judge in Washington State, presiding over the case brought by the DC area sniper victims—the case where a sniper lay in the trunk of a car with a hole punched through the trunk, went to different gasoline stations, schools, parks, and stores, and simply fired at people, indiscriminately killing them—has ruled twice that the dealer of the weapon used in the shooting, Bull's Eye Shooters Supply, and its manufacturer, Bushmaster Firearms, may be liable in negligence for enabling the snipers to obtain their weapon. But even with the new modifications of this bill, the sniper victims' cases will likely be thrown out of court under this legislation. So guess whose side this Senate is coming down on. Not the side of the victims of the DC sniper but the side of Bull's Eye Shooters Supply and the manufacturer, Bushmaster Firearms.

Let's make that clear. This is the most notorious sniper case in America. There is negligence on the part of the gun dealer who sold that gun. He didn't report it until very late. He allowed the snipers to get the gun. Now we are passing a law to prevent the victims from suing under civil liability. Nowhere else in the law does this concept exist in this form. It is a special carve-out for the DC sniper gun manufacturer and gun seller.

In another case, a Massachusetts court has ruled that gun manufacturer Kahr Arms may be liable for negligently hiring drug-addicted criminals and enabling them to stroll out the plant door with unmarked guns to be sold to criminals. But with these proposed changes, the case against Kahr Arms would be dismissed. A case would be dismissed where a gun manufacturer negligently hired drug-addicted criminals and let them go out the plant door with unmarked guns to be sold to criminals. That is what this does.

This conduct, though outrageous, violated no law—negligent, yes; criminal, no. Contrary to current law which allows judges and juries to apportion blame and damages, this bill would bar any damages against a manufacturer if another party was liable due to a criminal act.

Why should firearms get special treatment? In our society, we hold manufacturers liable for the damage their negligence causes. We do this across the board for every industry, such as the automobile industry if they build a faulty gas tank or if they are negligent putting it together. Lawsuits filed against the gun industry provide a way for those harmed to seek justice from the damages and destruction caused by firearms. Just as important, they create incentives to reform practices proven to be dangerous. I will bet Kahr Arms will make every effort not to hire drug addicts to sell guns to criminals. If that case is dismissed, they can hire them. They can sell to criminals. That is not going to make a difference.

When this bill was introduced in the last Congress and again in this Congress, its supporters spoke about the need to protect the industry from frivolous lawsuits and the need to protect the industry from the potential loss of jobs brought on by future lawsuits. These claims are unfounded. This bill is simply the latest attempt of the gun lobby to evade industry accountability. The suits against the gun industry come in varying forms, but they all have one goal in common—forcing the firearms industry to become more responsible. What is wrong with that? Under the principles of common law, all individuals and industries have a duty to act responsibly. What is special about the gun industry that they should be exempt from this most basic of civil responsibilities? Answer: Nothing. This is an industry that is less accountable under law than any other in America right now. The only avenue of accountability left is the courtroom. This bill attempts to slam the courtroom door in the face of those who would hold the industry responsible for its negligent actions.

We ought to hold the industry responsible for taking the proper precautions to ensure law-abiding citizens are able to obtain the guns they choose while criminals and other prohibited individuals are not.

Let me read from a letter that was sent by more than 50 full professors from law schools all across this Nation, from the University of Michigan School of Law, UCLA Law School, the University of Oregon School of Law, Indiana University School of Law, Harvard Law School, Syracuse University College of Law, Brooklyn Law School, Georgetown University Law Center, Lewis and Clark Law School, Roger Williams University School of Law, Northwestern School of Law, University of Chicago Law School, William Mitchell College of Law, University of Colorado School of Law, Duke Law School, Albany Law School, University of California Hastings College of Law, Houston Law Center, Widener University School of Law, Rutgers, Tulane, Boston, Albany, Temple University Beasley School of Law, Case Western Reserve University School of Law, Cornell Law School, Salmon P. Chase College of Law, Northern Kentucky University, NYU School of Law, The George Washington University Law School, Boston College Law School, Tulane University Law School, Columbia Law School, New York Law School, University of Alabama School of Law, Emory University School of Law, University of California Boalt School of Law, and on and on.

Let me tell you what they say. I will read parts of it. They have reviewed this bill, S. 397.

> No other industry enjoys or has ever enjoyed such a blanket freedom from responsibility for the foreseeable and preventable consequences of negligent conduct.
>
> S. 397 . . . would abrogate this firmly established principle of tort law. Under this bill, the firearms industry would be the one and only business in which actors would be free utterly to disregard the risk, no matter how high or foreseeable, that their conduct might be creating or exacerbating a potentially preventable risk of third party misconduct. Gun and ammunition makers, distributors, importers, and sellers would, unlike any other business or individual, be free to take no precautions against even the most foreseeable and easily preventable harms resulting from the illegal actions of third parties. And they could engage in this negligent conduct persistently, even with the specific intent of profiting from the sales of guns that are foreseeably headed to criminal hands.

They could engage in the conduct in an unlimited way and profit from the sales of guns that are foreseeably headed for criminal hands.

> Under this bill, a firearms dealer, distributor, or manufacturer could park an unguarded open pickup truck full of loaded assault weapons on a city street corner, leave it there for a week, and yet be free from any negligence liability if and when the guns were stolen and used to do harm.

Mr. President, this is what we are doing. This isn't just my view, this is the view of more than 50 professors of law at major law schools all across the Nation. We are facilitating criminal conduct by providing this protection against liability.

It goes on to say:

> A firearms dealer, in most states, could sell 100 guns to the same individual every day, even after the dealer is informed that these guns are being used in crime—even, say, by the same violent street gang.

That is a direct quote. So you are facilitating a situation where somebody could sell a hundred guns a day to a street gang and have no liability for that action. That is what I think is really despicable—all because of the power of one lobby.

Again, it goes on to say:

> It might appear from the face of the bill that S. 397 and H.R. 800 would leave open the possibility of tort liability for truly egregious misconduct, by virtue of several exceptions set forth in Section 4(5)(I). Those exceptions, however, are in fact quite narrow and would give those in the firearm industry little incentive to attend to the risks of foreseeable third party misconduct.
>
> One exception, for example, would purport to permit certain actions for "negligent entrustment." The bill goes on, however, to define "negligent entrustment" extremely narrowly.
>
> The exception applies only to sellers, for example, and would not apply to distributors or manufacturers, no matter how egregious their conduct.

So when somebody comes to the floor and argues this bill provide for negligent entrustment, don't believe it. It is so limited that it doesn't cover the whole field of those who handle firearms.

And then it goes on to say:

> Even as the sellers, the exception would apply only where the particular person to whom a seller supplies a firearm is one whom the seller knows or ought to know will use it to cause harm. The "negligent entrustment" exception would, therefore, not permit any action based on reckless distribution practices, negligent sales to gun traffickers who supply criminals—

That is the pickup that is parked on the street corner containing loaded assault weapons and sold to anybody who comes by.

> The negligent entrustment exception would, therefore, not permit any action based on reckless distribution practices, negligent sales to gun traffickers who supply criminals, careless handling of firearms, lack of security, or any of a myriad of potentially negligent acts.
>
> Another exception would leave open the possibility of liability for certain statutory violations, variously defined, including those described under the heading of negligence per se. Statutory violations, however, represent just a narrow special case of negligence liability. No jurisdiction attempts to legislate standards of care as to every detail of life, even in a regulated industry; and there is no need. Why is there no need? Because general principles of tort law make clear that the mere absence of a specific statutory prohibition is not carte blanche for unreasonable or dangerous behavior. S. 397 and H.R. 800 would turn this traditional framework on its head, and free those in the firearms industry to behave as carelessly as they would like, so long as the conduct has not been specifically prohibited. If there is no statute against leaving an open truckload of assault weapons on a street corner, or against selling hundreds of guns to the same individual, under this bill there could be no tort liability.

That is what this bill is opening up.

> Again, this represents a radical departure from traditional tort principles.

Again, this isn't just me saying this; this is more than 50 law professors from almost 50 different law schools.

> As currently drafted, this bill would not simply protect against the expansion of tort liability, as has been suggested, but would in fact dramatically limit the application of longstanding and otherwise universally applicable tort principles. It provides to firearm makers and distributors a literally unprecedented form of tort immunity not enjoyed, or even dreamed of, by any other industry.

Mr. President, I know the motion to proceed will pass. I also know that what is being engaged upon is the most stringent test of germaneness I have ever seen take place in this body to prevent amendments from being offered once cloture is invoked, which is going to happen. This Senate is going to do the people it represents an enormous harm. They are going to protect the most powerful lobby in the United States and open millions of Americans to egregious injury from negligent practices by distributors and sellers of firearms in this country.

That is not what we were elected to do. No one in this body was elected to be the Senator from the National Rifle Association. Although they have a point of view, and although this point of view is popular in many places, the question is, do we still protect the public welfare?

I say to you we do not protect the public welfare, as more than 50 professors of law have pointed out.

Additionally, I will put into the RECORD a letter of opposition from law enforcement. I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

JULY 26, 2005.

U.S. CONGRESS,
U.S. SENATE,
Washington, DC.

DEAR SENATOR: As active and retired law enforcement officers, we are writing to urge your strong opposition to any legislation granting the gun industry special legal immunity. S. 397 would strip away the legal rights of gun violence victims, including law enforcement officers and their families, to seek redress against irresponsible gun dealers and manufacturers.

The impact of this bill on the law enforcement community is well illustrated by the lawsuit brought by former Orange, New Jersey police officers Ken McGuire and David Lemongello. On January 12, 2001, McGuire and Lemongello were shot in the line of duty with a trafficked gun negligently sold by a West Virginia dealer. The dealer had sold the gun, along with 11 other handguns, in a cash sale to a straw buyer for a gun trafficker. In June 2004, the officers obtained a $1 million settlement from the dealer. The dealer, as well as two other area pawnshops, also have implemented safer practices to prevent sales to traffickers, including a new policy of ending large-volume sales of handguns. These reforms go beyond the requirements of current law and are not imposed by any manufacturers or distributors.

If immunity for the gun industry had been enacted, the officers' case would have been thrown out of court and justice would have been denied. Police officers like Ken McGuire and Dave Lemongello put their lives on the line every day to protect the public. Instead of honoring them for their service, legislation granting immunity to the gun industry would deprive them of their basic rights as American citizens to prove their case in a court of law. We stand with officers McGuire and Lemongello in urging you to oppose such legislation.

Sincerely,

International Brotherhood of Police Officers (AFL–CIO Police union); Major Cities Chiefs Association (Represents our nation's largest police departments); National Black Police Association (Nationwide organization with more than 35,000 members); Hispanic American Police Command Officers Association (Serving command level staff and federal agents); National Latino Peace Officers Association; The Police Foundation (A private, nonprofit research institution); Michigan Association of Chiefs of Police; Rhode Island State Association of Chiefs of Police; Maine Chiefs of Police Association.

Departments listed for identification purposes only:

Sergeant Moises Agosto, Pompton Lakes Police Dept. (NJ); Sheriff Drew Alexander, Summit County Sheriff's Office (OH); Sheriff Thomas L. Altiere, Trumbull County Sheriff's Office (OH); Director Anthony F. Ambrose III, Newark Police Dept. (NJ); Chief Jon J. Arcaro, Conneaut Police Dept. (OH); Officer Robert C. Arnold, Rutherford Police Dept. (NJ); Chief Ron Atstupenas, Blackstone Police Dept. (MA); Sheriff Kevin A. Beck, Williams County Sheriff's Office (OH); Detective Sean Burke, Lawrence Police Dept. (MA); Chief William Bratton, Los Angeles Police Dept. (CA); Special Agent (Ret) Ronald J. Brogan, Drug Enforcement Agency; Chief Thomas V. Brownell, Amsterdam Police Dept. (NY).

Chief (Ret) John H. Cease, Wilmington Police Dept. (NC); Chief Michael Chitwood, Portland Police Dept. (ME); Chief William Citty, Oklahoma Police Dept. (OK); Chief Kenneth V. Collins, Maplewood Police Dept. (MN); President Lynn N. Cripps, Iowa State Police Association, Marshalltown Police Dept. (IA); Chief Daniel G. Davidson, New Franklin Police Dept. (OH); Asst. Director Jim Deal, U.S. Dept. of Homeland Security, Reno/Lake Tahoe Airport (NV); Chief Gregory A. Duber, Bedford Police Dept. (OH); Captain George Egbert, Rutherford Police Dept. (NJ); Sterling Epps, President, Association of Former Customs Agents, Northwest Chapter (WA); Chief Dean Esserman, Providence Police Dept. (RI).

Officer Daniel Fagan, Boston Police Patrolman's Assoc., Boston Police Dept (MA); Captain Mark Folsom, Kansas City Police Dept. MO); Chief Charles J. Glorioso, Trinidad Police Dept. (CO); Superintendent Jerry G. Gregory (ret), Radnor Township Police Dept. (PA); Chief Jack F. Harris, Phoenix Police Dept. (AZ); Chief (Ret.) Thomas K. Hayselden, Shawnee Police Dept. (KS); Terry G. Hillard, Retired Superintendent, Chicago Police Dept. (IL); Steven Higgins, Director (Ret.) ATF; Officer Rick L. Host, Sec/Treasurer, Iowa State Police Assoc., Des Moines Police Dept. (IA); Officer David Hummer, Ft. Worth Police Officers Association, Ft Worth Police Dept. (TX); Officer H. Husberg, Ft. Worth Police Officers Association, Ft Worth Police Dept. (TX); Chief Ken James, Emeryville Police Dept. (CA).

Chief Calvin Johnson, Dumfries Police Dept. (VA); Chief Gil Kerlikowske, Seattle Police Dept. (WA); Deputy Chief Jeffrey A. Kumorek, Gary Police Dept. (IN); Detective John Kotnour, Overland Park Police Dept. (KS); Detective Curt Lavarello, Sarasota County Sheriffs Office (FL); Chief Michael T. Lazor, Willowick Police Dept. (OH); Sheriff Simon L. Leis, Jr., Hamilton County Sheriffs Dept. (OH); Sheriff Ralph Lopez, Bexar County Sheriff (TX); Chief Cory Lyman, Ketchum Police Dept. (ID); Chief David A. Maine, Euclid Police Dept. (OH); Chief J. Thomas Manger, Montgomery County Police Dept. (MD); Chief Burnham E. Matthews, Alameda Police Dept. (CA); Chief Michael T. Matulavich, Akron Police Dept. (OH).

Chief Randall C. McCoy, Ravenna Police Dept. (OH); Sergeant Michael McGuire, Essex County Sheriff's Dept. (NJ); Chief William P. McManus, Minneapolis Police Dept. (MN); Chief Roy Meisner, Berkley Police Dept. (CA); Sheriff Al Myers, Delaware County Sheriff's Office (OH); Chief Albert Najera, Sacramento Police Dept. (CA); Detective Michael Palladino, Executive Vice President, National Association of Police Organizations, President, Detectives' Endowment Association of New York City; Chief Mark S. Paresi, North Las Vegas Police Dept. (NY); President Thomas R. Percich, St. Louis Police Leadership Organization, St. Louis Police Dept. (MO); Sheriff Charles C. Plummer, Alameda County Sheriffs Department (CA).

Chief Edward Reines, Yavapat-Prescott Tribal Police Dept. (AZ); Chief Cel Rivera, Lorain Police Dept. (OH); Officer Kevin J. Scanell, Rutherford Police Dept. (NJ); Robert M. Schwartz, Executive Director, Maine Police Dept. (ME); Chief Ronald C. Sloan, Arvada Police Dept. (CO); Chief William Taylor, Rice University Police Dept. (TX); Asst. Chief Lee Roy Villareal, Bexar County Sheriffs Dept (TX); Chief (Ret) Joseph J. Vince, Jr., Crime Gun Analysis Branch, ATF (VA); Chief Garnett F. Watson Jr., Gary Police Dept. (IN); Hubert Williams, President, The Police Foundation (DC); President Greg Wurm, St. Louis Police Leadership Organization, St. Louis Police Dept. (MO).

Mrs. FEINSTEIN. This letter of opposition details the case that Senator KENNEDY mentioned, involving two law enforcement officers from Orange, NJ, and points out that that case would have been thrown out of court. It is signed by numerous chiefs of police and major law enforcement entities.

The American Bar Association states in their letter of opposition:

> S. 397 would preempt State substantive legal standards for most negligence and product liability actions for this one industry, abrogating State law in cases in which the defendant is a gun manufacturer, gun seller, or gun trade association, and would insulate this new class of protected defendants from almost all ordinary civil liability actions.

It goes on to say:

> There is no evidence that Federal legislation is needed or justified. There is no hearing record in Congress or other evidence to contradict the fact that the State courts are handling their responsibilities competently in this area of the law.

So all those people who believe in States rights are taking States rights away for the National Rifle Association.

The American Bar Association also says:

> There is no data of any kind to support claims made by the industry that it is incurring extraordinary costs due to litigation, that it faces a significant number of suits, or that current State law is in any way inadequate. The Senate has not examined the underlying claims of the industry about State tort cases, choosing not to hold a single hearing on S. 397 or its predecessor bills in the two previous Congresses.

That is amazing to me. It continues:

> Proponents of this legislation cannot, in fact, point to a single court decision, final judgment, or award that has been paid out that supports their claims of a crisis. All evidence points to the conclusion that State legislatures and State courts have been and are actively exercising their responsibilities in this area of law with little apparent difficulty.

This letter goes on and again concludes this is going to be the only industry in the United States with this kind of immunity. There is no crisis that merits this. There is no hearing record that documents the need. This really worries me.

Maybe I am biased because I have been a mayor, because I have seen what happens on the streets. I have seen how guns are misused. I have seen the threats that criminals with a firearm can be. I have watched, over the years, as firearms have grown much more sophisticated. Their killing power is greatly enhanced. The copycat, or the civilian version, of the 16—the .50 caliber weapon now that is out there—can send a bullet as large as my hand from Arlington Cemetery into the Capitol. Don't you think how those weapons are sold and distributed should prevent negligence? I do.

I guess in all my years in this body I have never been more disillusioned about how we proceed or why we proceed. We have the PATRIOT Act that is ready to come to the floor, and we are doing this. We have an asbestos bill that is ready to come to the floor, and we are doing this. I am ranking on Military Construction appropriations. We have passed out a military construction bill with $70 billion in it for veterans benefits, and we are doing this. There are a number of other appropriations bills that are ready for floor action. The conference on the Energy bill just concluded, and we are doing this. The Calendar of Business contains 100 items ready for Senate floor action, and we are doing this. There is no hearing record for the previous two Congresses. More than 50 law professors point out this is a giveaway to one special industry that no other industry enjoys in the United States of America, and 30,000 people a year are killed with firearms in this country. I find it extraordinarily disillusioning.

I know we are going to lose on the motion to proceed. The latest is that we are not even going to have a vote. It will be voice-voted because it is so ironclad that this bill is going to swim through. And then we will watch them try to stop us from putting any amendments on the bill. It is a sad day in the Senate. It is a regretful day. It is an extraordinarily disillusioning day.

I thank the Chair and yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. GRAHAM. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRAHAM. Mr. President, it is my understanding that the majority has control of this next hour under the agreement.

The PRESIDING OFFICER. That is correct.

Mr. GRAHAM. At this time, I will yield to Senator CORNYN 15 minutes.

The PRESIDING OFFICER. The Senator from Texas is recognized.

NOMINATION OF JUDGE JOHN ROBERTS

Mr. CORNYN. Mr. President, I would like to take a few minutes to comment on the nomination of Judge John Roberts to serve on the U.S. Supreme Court. In particular, I would like to provide some context in a brief response to some statements that have been made by our colleague on the other side of the aisle, the senior Senator from New York.

My colleague has repeatedly stated his intention to ask Judge Roberts during the confirmation proceedings dozens of questions about his positions on particular constitutional rights, as well as his views of particular cases that have been decided by the U.S. Supreme Court.

He provided Judge Roberts a copy of these questions last week when the two of them met and has stated that he will take "responsibility to make sure that those questions are answered."

Any of our colleagues can, of course, ask whatever questions they want, but the notion that Judge Roberts puts his confirmation at risk if he does not answer the questions on the list from the Senator from New York is contrary to the traditional practice of this body. Nearly every single one of the questions on that list involves an issue that is likely to come before the Supreme Court during Justice Roberts's tenure. Every single Justice confirmed in recent memory has declined to answer questions of the sort contained on that list.

As Justice Ginsburg has noted:

> In accord with longstanding norm, every member of the current Supreme Court declined to furnish such information to the Senate.

Every member of the Court has declined to answer such questions because it has long been understood that forcing nominees to take sides on issues while under oath compromises their ability to rule impartially in cases presenting those issues once they sit on the Court.

Judges are supposed to decide cases after hearing the evidence presented by the parties involved and the arguments presented by their lawyers. They are supposed to keep an open and impartial mind.

As Justice Ginsburg has also noted, "the line each [Justice] drew in response to preconfirmation questioning is . . . crucial to the health of the Federal judiciary."

Judges in our system are like umpires in a baseball game. They are not supposed to take sides before the game has begun. Judges are not, for example, supposed to pledge to the Senate that they will be "on the side of labor" or "on the side of corporations" once confirmed to the bench. We should not demand of judges that they are biased on behalf of a particular party before they have even gotten to the bench and heard the facts and the arguments of counsel.

The only side that a judge should be on is on the side of the law. Indeed, that is the oath that each of them take when they are sworn into office. Sometimes corporations should win in court, and sometimes they should lose. Sometimes labor should win in court, and sometimes labor should lose. But it depends on the facts of the case and on the law that applies to those facts. Any judge worth their salt would decline to make a commitment ahead of time about how that hypothetical controversy would come out, not knowing what those facts are or how the question would be presented.

The Senator from New York has said that his questions do not threaten Judge Roberts's impartiality because he is not asking about specific cases that are already pending before the Supreme Court. He acknowledges that asking questions about those cases—in other words, cases that are actually pending—would be inappropriate. But I would ask my colleague to review, as I have, the Supreme Court's pending cases for the session set to begin in October because it clearly shows that this proposed list of questions would force Judge Roberts to prejudge the very pending cases that the Senator has said should be off limits.

Take, for example, the question of whether Judge Roberts "believes Roe v. Wade was correctly decided." That is one of the Senator's questions. The Senator has said specifically that this is a "question that should be answered."

Demanding that Judge Roberts answer questions about Roe v. Wade will undoubtedly force him to prejudge a case that is currently pending on the Court's docket. On November 30, the Supreme Court will hear arguments in Ayotte v. Planned Parenthood, a case involving the constitutionality of a New Hampshire law requiring a minor to notify her parents before having an abortion.

It is nearly certain that some party in that litigation, perhaps even an amicus party, will ask the Court to revisit or overturn Roe v. Wade because one party does so in nearly every abortion case that reaches the U.S. Supreme Court.

Thus, whether Roe v. Wade should be overturned is not only an issue likely to come before the Court during Judge Roberts's tenure, it is already before the Court.

Accordingly, demanding an answer to a question about Roe v. Wade will force Judge Roberts to prejudge at least one of the issues in the Ayotte case, and, no doubt, many others while he is on the bench.

Perhaps an even better example is the Senator's question about whether "the Americans with Disabilities Act requires State buildings to be accessible to the disabled . . . or [whether] sovereign immunity exempts the States?" Again, on November 9, the Supreme Court is scheduled to hear a case called Goodman v. Georgia, a case involving a suit by a disabled prisoner against the State of Georgia. The only question in that case is whether the Americans with Disabilities Act can force States to make prisons accessible to the disabled. Again, this is precisely the question that the Senator warned Judge Roberts that he would not have to answer but which, in fact, he is now being asked to answer.

It is clear then that the questions proposed by the Senator from New York will force Judge Roberts to prejudge pending cases. This is something that surely all of us can agree is inappropriate. Thus, surely all of us can agree in this Chamber that Judge Roberts should be permitted to decline to answer at least some of the questions that the Senator from New York has said he will ask him and others like those questions.

But once it is acknowledged that Judge Roberts should be permitted to decline to answer the questions involving issues already pending before the Supreme Court, it becomes clear that Judge Roberts should be permitted to decline the rest of the questions propounded by the Senator as well.

There are literally hundreds of cases at this very moment in lower Federal courts raising virtually all of the questions posed by the Senator from New York. Judge Roberts should not be forced to guess which one of them will or will not one day make their way to the High Court. This is why the Canons of Judicial Ethics counsel judges against answering questions about issues that are not only already before the Court, but also those that are likely to come before the Court.

Any case pending in the lower courts meets this definition because it could be and, indeed, many will be appealed to the U.S. Supreme Court.

Indeed, the danger of demanding that Judge Roberts answer such questions, even though some may not now be pending before the Court, is clear from an event involving one of the sitting Justices, Justice Scalia.

Two years ago, after delivering a speech, Justice Scalia was asked whether he thought the phrase "under God"—that is the reference in the Pledge of Allegiance—was constitutional. There was not at that time any case involving that question before the Court, so Justice Scalia answered the question. But there was, as it turns out, a case involving that precise question pending before a lower Federal court and, as we all know, that case eventually made its way to the Supreme Court. As we also know, Justice Scalia was then forced to recuse himself from hearing that case because the rules of ethics prevent judges from publicly commenting on pending or impending cases.

We should not force Judge Roberts to choose between confirmation and recusal. If Judge Roberts is forced to recuse himself in all of the cases, all of the issues on the Senator's list, then the Supreme Court will be left shorthanded for much of his tenure.

The Senator from New York says that his list includes some of the most important questions of the day, and that may well be true. But surely we want all nine Justices on the Supreme Court to answer those important questions in those cases as they are presented.

Judge Roberts should be permitted to do what we have always permitted nominees to do, and that is to decline to answer questions that might call into question his impartiality at a later date. We have always respected the right of nominees to decline to answer questions that make them feel as though their ability to do their job would be compromised. That is in the interest of a value that we all hold dear, and that is the independence of the judiciary.

I hope and expect that we will not break that longstanding tradition with Judge Roberts.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER (Ms. MURKOWSKI). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. FRIST. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FRIST. Madam President, the current Congress has taken a stand against frivolous lawsuits, and we have done so in a number of ways as we paint a portrait of the fact that frivolous lawsuits today are not in the interest of the American people. We addressed it in class action reform. We addressed it to a degree with bankruptcy reform, returning to personal responsibility. We will do it with asbestos reform, an issue that has for the last 10, 15, 20 years unfairly resulted in the trial lawyers doing very well, but the patient with cancer, mesothelioma, not being compensated, the victims not being compensated. We will be addressing medical liability at some point in time, hopefully in this Congress, and then gun liability, the Protection of Lawful Commerce in Arms Act, which is being addressed today and tomorrow and possibly the next day.

This bill is directed at the frivolous lawsuits that today are aimed at gun manufacturers and people who are selling firearms. The bill places responsibility on the criminal for the unlawful use of guns, and that is where that responsibility belongs.

Many people believe that the whole gun manufacturing industry is a hugely profitable industry, and that is wrong. It is not. The gun industry is relatively modest. In 1999, the most recent year I have seen, there was an industry total profit of about $200 million. If we put all the manufacturers of firearms together, they would not even make the Fortune 500 list.

More important than size is the hardworking people who are manufacturing guns. I have had the opportunity, as many of our colleagues have, to go to these wonderful facilities with hardworking Americans, typically in rural communities, who are manufacturing and putting together these guns.

The firearm maker I visited was in a rural area with not that many employees. They were putting together shotguns which many of us use to hunt over the course of the year. Right now my favorite avocation is taking my sons hunting on the weekend, to be together and share fellowship.

I mention that because when one tours these gun manufacturing facilities, they realize that frivolous lawsuits drive people out of the business, which is a loss of jobs. Those jobs happen to be predominantly in rural communities. Anti-gun crusaders say that the firearm business, which today is one of the most regulated industries in America, should be responsible for the criminal acts of others. They believe it is OK to use lawsuits to circumvent the democratic process and legislate actually from the bench, and they say so themselves.

If we turn to the trial attorneys and look at the quotations, one trial attorney claims that what has happened is that the legislatures have failed. Lawyers are taking up the slack, said the trial attorney. Another anti-gun trial lawyer says that trial lawyers are "the new arm of government," replacing the legislative branch "that's not working anymore." These trial lawyers apparently believe they are above the voters, that they are above the legislative process. I do not agree, most Americans do not agree, and thus, we have the bill today.

Most Americans think there is too much litigation and not too little litigation in this country. Legislatures in 33 States have passed laws to preempt frivolous gun lawsuits. They recognize that our Constitution protects the right to keep and bear arms. In fact, 53 percent of American households today own a gun. Still, the anti-gun crusaders, aided and abetted by powerful trial lawyers, charge ahead. They know that all it takes is one successful lawsuit to drive a manufacturer out of business. As one chapter of the United Steelworkers of America points out, "we are just one defeat away from bankruptcy."

Since 1997, more than 30 cities and counties have sued firearms companies in an attempt to force them to change the way they make and sell guns. Firearm manufacturers have already spent more than $200 million in legal fees to defend themselves. Meanwhile, most of these cases have been dismissed. The Supreme Court of New York says:

> [The] courts are the least suited, least equipped, and thus the least appropriate branch of government to regulate and micromanage the manufacturing, marketing, distribution and sale of handguns.

The Florida Third District Court of Appeals agrees, adding:

> The power to legislate belongs not to the judicial branch of government but to the legislative branch.

Some cases, however, are still pending and are slated to go forward. Thus, it is critical that we act now, that we pass this legislation now.

In California, former Governor Gray Davis signed legislation explicitly authorizing lawsuits against gunmakers. Because the firearms business is relatively small, just one big verdict—

maybe not even big—a substantial verdict could bankrupt the entire industry. In California, that is a real possibility. If the gun industry is forced into bankruptcy, the right to keep and bear arms will be a right in name only. Even if some gunmakers are able to hold on, the prices for firearms, whether it is the shotgun one buys to go hunting with or whatever the firearm might be, will go sky-high.

There is another important issue, which is little recognized, and it has been mentioned on the Senate floor, but I wanted to mention it again because I am sure others will come forward because the problem is so real, it is so apparent, and that is that America relies on private gun manufacturers to equip our soldiers and our law enforcement officers with the arms they need to protect us or to fight for our freedom. The guns our police officers and soldiers carry are made in the United States by hard-working Americans.

The main manufacturer of guns in my home State, just as one example, supplies important small arms to the military. So far, this middle Tennessee company has not been sued. In fact, Tennessee passed some liability protections back in 1999. But if they are sued and put out of business, the military would lose a critically important supplier, and 70 Tennesseans for this one small company, one small employer, would lose their jobs.

We all agree that guns need to be kept out of the hands of criminals, and that is why we have innumerable, countless laws and regulations to stop illegal gun sales. But we also cannot let frivolous lawsuits strip our police officers and our soldiers of the guns they need to protect us. We cannot allow unfair litigation to cripple our national security.

Our sympathies always first and foremost go to crime victims and families, and no one in any way deserves to be harmed by a criminal wielding any kind of a weapon, be it a gun or a knife or anything else. But we have to place the blame where it belongs, not on the people working in that factory I visited that makes these firearms. We need to place it at the feet of the violent criminals themselves, those who commit the crimes and threaten our communities. They are the ones responsible, and they are the ones who should be held accountable. Blaming gun manufacturers misses the real problem. It punishes law-abiding owners and undermines our constitutionally protected rights. Even if litigation managed to bankrupt law-abiding gun manufacturers, it is not going to stop the criminals from getting guns elsewhere.

So I urge my colleagues to help stop frivolous gun litigation. We can accomplish that by allowing this legislation first to come to the floor and then passing this legislation. A vote for reform is a vote for security, and a vote for reform is a vote for common sense.

The PRESIDING OFFICER. The majority whip.

FOLLOWING THE GINSBURG STANDARD

Mr. McCONNELL. Madam President, I rise to speak on the nomination of Judge John Roberts to be the next Justice of the Supreme Court of the United States. As we are beginning to learn, the President has selected one of the foremost legal minds of his generation. Many of my colleagues have already spoken Judge Roberts' praises on this floor, and I agree with all of them. Judge Roberts possesses a keen intellect, an open mind, very importantly, a judicious temperament, and a sterling reputation for integrity. He will faithfully apply the Constitution, not legislate from the bench. He should be confirmed in time for the Court to operate at full strength by October 3.

Looking to recent history, and looking more specifically to the most recent Supreme Court nominations of Justices Ruth Bader Ginsburg and Stephen Breyer, I would think that I should not have cause to worry how this nominee will be treated. Then, as now, the President's party controlled the Senate. Then, as now, the President nominated a jurist whose credentials could not be questioned. The only difference is that the occupant of the White House then was a Democrat, and the current President is a Republican.

But that one simple fact may make all the difference to some of my friends on the other side of the aisle.

In recent weeks I have begun to worry that some of my Democratic friends have forgotten the standard to which the Senate held Justices Breyer and Ginsburg when they were nominees. Judge Roberts deserves the same standard, no more or no less, than the nominees of President Clinton. But I fear that "the Ginsburg-Breyer standard"—which I will call the "Ginsburg standard" for short—is giving way to a double standard. I would like to remind my colleagues of recent history, so we may draw some lessons from the confirmation processes of Justices Breyer and Ginsburg.

Both Ruth Bader Ginsburg and Stephen Breyer came to the Senate with a distinguished record and a deserved reputation for a fine legal mind. But Justice Ginsburg also came with a long record of liberal advocacy and thought-provoking, to put it mildly, statements. Yet the Senate handled her nomination in a manner that brought credit to the institution. It followed a respectful process. Indeed, it can be said that "respect"—both for the President and his nominee—was a hallmark of her nomination, and the nomination of Stephen Breyer.

In the Ginsburg nomination, the Senate recognized that most judicial nominees, including Justice Ginsburg, have at one point been private practitioners of the law. The Senate recognized that it is unfair to attribute to lawyers the actions of their clients. Lawyers are zealous advocates for their clients. Lawyers speak for their clients, not themselves.

After all, if a lawyer defends a client accused of stealing a chicken, it does not then follow that the lawyer is a chicken thief. Again, if a lawyer defends a client accused of stealing a chicken, it does not then follow that the lawyer is a chicken thief. By following this standard, the Senate did not hold against Justice Ginsburg the policy positions of her most famous client, the American Civil Liberties Union.

As we know, the ACLU takes consistently liberal positions on high-profile issues, positions that many Americans strongly disagree with. I respect that. I do not often agree with the ACLU, but its members believe strongly, and they fight for their beliefs. There is certainly nothing but admiration we can have for that.

During Justice Ginsburg's tenure as a general counsel and a member of its board, the ACLU, for example, opposed restrictions on pornography. Yet even though her client had adopted controversial policy positions, the Senate did not attribute them to Justice Ginsburg, let alone disqualify her from service on the Supreme Court because of them.

In addition, this country values a healthy "market-place of ideas." So, the Senate did not block Justice Ginsburg's nomination because she made controversial and thought-provoking statements in her private capacity as a legal thinker. Those thoughts ranged from suggesting a constitutional right to prostitution, to proposing abolishing "Mother's Day" and "Father's Day" in favor of a unisex "Parent's Day." Why did we not hold those views against her? Because by a 96–3 margin, we decided she had the integrity to apply the law fairly to each case, despite some rather, to put it mildly, provocative personal views that had been expressed over the years in her writing.

With both the Ginsburg and Breyer nominations, the Senate also continued its long-standing practice of respecting a nominee's right not to disclose personal views or to answer questions that could prejudge cases or issues. Senators may ask a nominee whatever questions they want. But the nominee also has the right not to comment on matters the nominee feels could compromise their judicial independence.

For example, during his Supreme Court confirmation hearing in 1967, Thurgood Marshall, before the Senate Judiciary Committee, declined to answer a question regarding the Fifth Amendment. He explained,

> I do not think you want me to be in a position of giving you a statement on the Fifth

> Amendment and then, if I am confirmed, sit on the Court and when a Fifth Amendment case comes up, I will have to disqualify myself.

Justice O'Connor, whom our Democratic colleagues have been citing so glowingly in the last few weeks, also demurred regarding questions she thought would compromise her independence. One of those questions asked her view of a case that had already been decided, Roe v. Wade; and in explaining her position, she said:

> I feel it is improper for me to endorse or criticize a decision which may well come back before the Court in one form or another and indeed appears to be coming back with some regularity in a variety of contexts. I do not think we have seen the end of that issue or that holding and that is the concern I have about expressing an endorsement or criticism of that holding."

The Senate continued this practice with the Breyer and Ginsburg nominations. It did not require them to state their private views, or to prejudge matters before they had read one word of a brief or heard one word of oral argument.

Justice Breyer explained why he had to be careful about pre-committing to matters:

> I do not want to predict or to commit myself on an open issue that I feel is going to come up in the Court. . . . There are two real reasons. The first real reason is how often it is when we express ourselves casually or express ourselves without thorough briefing and thorough thought about a matter that I or some other judge might make a mistake. . . . The other reason, which is equally important, is . . . it is so important that the clients and the lawyers understand that judges are really open-minded.

The Senate respected Justice Breyer's concerns about prejudging and confirmed him by an overwhelming 87–9 margin. This respect extended to cases that had already been decided. For example, our late colleague, Senator Thurmond, asked Justice Breyer about Roe v. Wade, a case that had been decided 21 years earlier. Like Justice O'Connor, Justice Breyer declined to comment, stating:

> The questions that you are putting to me are matters of how that basic right applies, where it applies, under what circumstances. And I do not think I should go into those for the reason that those are likely to be the subject of litigation in front of the Court.

Senator Thurmond respected Justice Breyer's position, and did not hold against Justice Breyer his decision not to answer that question. Other Senators did the same on a host of issues.

Justice Breyer also declined to give his personal views. He explained, "The reason that I hesitate to say what I think as a person as opposed to a judge is because down that road are a whole host of subjective beliefs, many of which I would try to abstract from." As result, he declined to give his personal views on whether the death penalty was cruel and unusual, what the scope of the exclusionary rule should be and whether he supported tort reform.

Justice Ginsburg also invoked her prerogative not to answer questions that could compromise her independence, and both sides of the aisle respected her decision. Indeed, Senator BIDEN, who was then chairman, encouraged her not to answer questions that would preview her position on a legal issue. He told her:

> I will have statements that I made during the process read back to me. But I do think it is appropriate to point out, Judge, that you not only have a right to choose what you will answer and not answer, but in my view you should not answer a question of what your view will be on an issue that clearly is going to come before the Court in 50 different forms, probably, over your tenure on the Court.

Justice Ginsburg's effort to remain unbiased—like Justices O'Connor and Breyer—included not commenting on cases that had already been decided. For example, Justice Ginsburg was asked how she would have ruled in Rust v. Sullivan, an abortion case that had already been decided. She declined to answer, explaining her position with a metaphor of the slippery slope:

> I sense that I am in the position of a skier at the top of that hill, because you are asking me how I would have voted in Rust v. Sullivan. Another member of this committee would like to know how I might vote in that case or another one. I have resisted descending that slope, because once you ask me about this case, then you will ask me about another case that is over and done, and another case. . . . If I address the question here, if I tell this legislative chamber what my vote will be, then my position as a judge could be compromised.

Indeed, Justice Ginsburg declined to comment 55 times on a variety of legal questions. That is 55 times. These included: If the second amendment guarantees an individual right to bear arms; If the death penalty is cruel and unusual punishment under the eighth amendment; If school vouchers for children are constitutional under the Establishment Clause; If the Supreme Court had interpreted too narrowly the Voting Rights Act; If the first amendment was intended to erect a wall of separation between church and state; and If the Federal Government may prohibit abortion clinics from using Federal funds to advocate performing abortions.

That is a lot of "ifs" she declined to answer and yet was confirmed overwhelmingly.

Both Justices Ginsburg and Breyer were reported out of the committee promptly; Republicans did not try to delay the committee vote. Nor did Republicans try to deny these nominees the courtesy of an up-or-down vote on the Senate floor.

As I mentioned, Justice Ginsburg was confirmed 96–3 after 2 days of debate. Justice Breyer was confirmed 87–9 after only a single day of debate. By giving these nominees up-or-down votes, the Senate continued the practice it had followed with even contested Supreme Court nominees, like Robert Bork and Clarence Thomas. The average time for Senate consideration of the Ginsburg and Breyer nominations was 58 days. For Justice Ginsburg's nomination, the entire process lasted only 42 days from nomination to confirmation.

It troubles us on this side of the aisle, and it should trouble all Americans, when different standards are applied to different people for no valid reason. Unfortunately, this already appears to be happening with respect to the nomination of Judge John Roberts.

Judge Roberts will no doubt be as forthcoming as he properly can be when he testifies. However, as with all nominees, there are some questions that he will not be able to answer. His decision ought to be respected as were the decisions of Justice Ginsburg and Justice Breyer.

But our colleague Senator SCHUMER has declared that for this nomination—forget all the prior nominees—"Every question is a legitimate question, period." And he plans on asking Judge Roberts some 70 questions. These include specific issues that will likely come before the Court. In addition, he wants Judge Roberts to discuss how he would have voted in specific cases, such as New York Times v. Sullivan and United States v. Lopez.

If our friend from New York insists that Judge Roberts answers these types of questions, it will be a radical departure from the practice that the committee followed with Justice O'Connor, Justice Breyer, Justice Ginsburg and other Supreme Court nominees. These nominees were given discretion in not answering questions on issues that might come before the Court. It was agreed that it would be improper for a potential justice to pre-commit on a matter.

We on this side of the aisle are not asking the Senate to change its practices or standards. We are not asking that this President be treated better than his immediate predecessor. We are asking for equal treatment. In short, we are simply asking that the Senate follow the Ginsburg standard, not a double standard.

I am hopeful that the courtesy and respect the Senate showed President Clinton's nominees, and prior Supreme Court nominees, will continue with Judge Roberts. After all, it's only fair.

I yield the floor.

Mr. HATCH. It is my understanding the Senator from South Carolina would like to take 2 minutes. If I can be recognized after that, I would appreciate it.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRAHAM. Madam President, I rise to speak in support of S. 397, protecting gun manufacturers from lawsuits that basically would hold the manufacturer liable if someone bought a gun and intentionally committed a crime with it, was irresponsible in its use. I believe everybody should have their day in court for a legitimate grievance. But it is not legitimate, in my opinion, to sue someone who makes a gun lawfully, that is not defective, and that person is held responsible in court because some other person who bought the gun decides to misuse it, to commit a crime with it. That would ruin our economy. It would fundamentally change personal responsibility in America. This bill is a cultural moment in American history.

The second amendment gives us a right to bear arms, but it is not unlimited. We have to be responsible. We have to responsibly use that right. The idea that you could sue someone who is lawfully in business because someone else chooses to do something bad will destroy the way America works. It is a ridiculous concept.

Suing gun manufacturers for defective products is included in this bill. Everyone should stand behind what they make and put in the stream of commerce. That has not changed. The only thing that has changed is we are cutting off a line of legal reasoning that has extended to fast food now: "The reason I have health problems is because you served me food that was bad for me." The bottom line is, if we go down this road, we are going to make America noncompetitive in the 21st century, and we are going to rewrite the way America works—to our detriment.

The rule should be simple. If you make a lawful product and someone chooses to buy it and they decide to misuse it, it is not your fault, it is theirs. You are not going to have your money taken because somebody else messed up. Madam President, $200 million in legal fees have already been incurred by gun manufacturers because of this line of reasoning. You win in America; you still lose.

If you want to make sure our country is secure in the future, let's make sure people can manufacture arms in America and we are not dependent on foreign sources for arms for the public or the military. There is a lot at stake here. I enthusiastically support this limitation on what I think would be not only a frivolous lawsuit, but a dangerous concept that will change America for the worse.

The PRESIDING OFFICER. The Senator from Utah.

Mr. HATCH. Madam President, I rise today to express my continued, strong support of S. 397, the gun liability bill.

As I outlined yesterday, this legislation is a necessary and vital response to the growing problem of unfounded lawsuits filed against gun manufacturers and sellers. These suits are being filed in no small part with the intention of trying to drive them out of business.

These lawsuits, citing deceptive marketing or some other pretext, continue to be filed in a number of States, and they continue to be unsound.

These lawsuits claim that sellers give the false impression that gun ownership enhances personal safety or that sellers should know that certain guns will be used illegally. That is pure bunk. Let's look at the truth.

The fact is that none of these lawsuits are aimed at the actual wrongdoer who kills or injures another with a gun—none. Instead, the lawsuits are focused on legitimate, law-abiding businesses.

It is this kind of rampant, race-to-sue mentality, that fuels our tort-happy, litigious culture. It has to stop.

In its Statement of Administration Policy, the White House has urged us to pass a clean bill, in order to ensure enactment of the legislation this year. Amendments that would delay enactment beyond this year are simply unacceptable.

The administration knows what we also know: This is a modest bill to help prevent the gun industry from a tidal wave of baseless lawsuits.

It is also highly relevant, I believe, that the leading suppliers of small arms to our Armed Forces are the same targets of these reckless lawsuits: Beretta, Bushmaster, Remington, Smith & Wesson.

These are the companies we rely on for small arms for the military.

But if the proliferation of lawsuits against them continues, it could jeopardize the supplies we receive and need for our military.

This bill does nothing more than prohibit—with five exceptions—lawsuits against manufacturers or sellers of guns and ammunition for damages "resulting from the criminal or unlawful misuse" of nondefective guns and ammunition.

Let me repeat that: "resulting from the criminal or unlawful misuse" of nondefective guns and ammunition.

This bill is not a license for the gun industry to act irresponsibly. If a manufacturer or seller does not operate entirely within Federal and State law, it is not entitled to the protection of this legislation.

I should also note that this bill carefully preserves the right of individuals to have their day in court with civil liability actions where negligence is truly an issue, or where there were knowing violations of laws on gun sales.

It is also noteworthy that in a recent poll by Moore Information Public Opinion Research, 79 percent of Americans do not believe that firearms manufacturers should be held legally responsible for violence committed by armed criminals.

Seventy-nine percent.

And in this poll, 71 percent of Democrats hold this view. So this should not be a partisan issue.

Let me just read a postcard from one of the thousands of people who have written me in support of this bill from Utah. This Utahn, from the city of Hyde Park, writes:

> Dear Senator Hatch: Please give your full support for S. 397 with no anti-gun amendments. As a business woman I know the strength of America is productive businesses that keep America strong and my fellow citizens employed!

These are the people I represent. I not only represent them, I am proud to be one of them. I am proud to help small businesses. And I am proud to help gun owners.

Let me just say a word about the precedents for this legislation. Congress has the power—and the duty—to prevent activists from abusing the courts to destroy interstate commerce.

We did this in the General Aviation Revitalization Act of 1994 where we protected manufacturers of small planes against personal injury lawsuits. That act superseded State law, as does the gun liability bill.

There are many other precedents for abusive lawsuit protection, including light aircraft manufacturers, food donors, charitable volunteers, medical implant manufacturers and makers of anti-terrorism technology, just to mention a few.

There is simply no reason the gun makers should have to continue to defend these types of meritless lawsuits. We must protect against the potential harm to interstate commerce. The gun industry has already had to bear over $200 million in defense costs thus far.

The bottom line is that this is a reasonable measure to prevent a growing abuse of our civil justice system.

The bill provides carefully tailored protections for legitimate lawsuits, such as those where there are knowing violations of gun sale laws, or those based on traditional grounds including negligent entrustment or breach of contract.

We simply should not force a lawful manufacturer or seller to be responsible for criminal and unlawful misuse of its product by others. We do not hold the manufacturers of matches responsible for arson for this same reason.

Individuals who misuse lawful products should be held responsible, not those who make the lawful products.

In closing, I leave my colleagues with one last thought.

These abusive gun liability actions usurp the authority of the Congress and of State legislators. They are an obvious and desperate attempt to enact restrictions that have been widely rejected.

It is for this reason that many States have enacted statutes to prevent this type of litigation. Congress should do the same.

As with class action lawsuits, the few States that allow jackpot jurisdictions can create a disastrous economic effect across the entire country, and across an entire industry.

We cannot allow this to happen. We must stop these abusive lawsuits.

I urge my colleagues to vote for this important legislation.

Madam President, I yield the floor.

The PRESIDING OFFICER. The Senator from Missouri.
